# BA in French Teaching (53–68 hours*, including licensure hours)

Show All Course Descriptions
Hide All Course Descriptions

*This major is designed to prepare students to teach in public secondary schools. In order to graduate with this major, students are required to complete Utah State Office of Education licensing requirements. To view these requirements go to http://education.byu.edu/ess/licensing.html or contact Education Student Services, 120 MCKB, (801) 422-3426.*

## Program Requirements | View MAP | View Program Outcomes

1. Obtain application instructions by meeting with the Department of French and Italian French secondary education supervisor. Applications are accepted during the first term of each semester while student is enrolled in FLANG 276.
2. The French and Italian Department requires a minimum of 18 major hours to be taken in residence at BYU for this degree program. These hours may also go toward BYU's 30-hour residency requirement for graduation.
3. Grades below C- in professional education courses or content courses will not be accepted in the teaching major or teaching minor. Teacher candidates must have a cumulative 2.85 GPA in teaching major and teaching minor courses to qualify for student teaching.
4. A teaching minor in another subject is strongly recommended. Teaching opportunities in public schools may be significantly reduced without a second teaching subject that a teaching minor provides.
5. Complete the following prerequisites (or equivalent):

FREN 101 : First-Year French, Part 1. (4:5:2)
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Development of the four language skills: understanding, speaking, reading, and writing.

**Course Outcomes**
- Comprehend French as you hear and read authentic language relating to familiar topics.
- Speak French well enough to satisfy immediate needs. (You will learn to communicate in basic social situations, meet routine travel needs, obtain food and lodging, carry out simple transactions, and talk about a variety of topics of common interest primarily in the present, with limited use of other time frames.)
- Write short messages and well-articulated sentences in French on familiar topics.

FREN 102 : First-Year French, Part 2. (4:5:2)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Fren 101 or equivalent.
DESCRIPTION: Continuation of French 101.

**Course Outcomes**
- Write well-articulated sentences and loosely connected texts related to personal experiences and common events.
- Comprehend French as you hear and read authentic language relating to familiar topics.
- Speak French well enough to handle a variety of simple communicative tasks in basic social situations. You will be able to meet routine travel needs, carry out simple transactions, and talk about a variety of topics of common interest in present, past, and future times.

FREN 201 : Intermediate French, Part 1. (4:5:2)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Fren 102 or equivalent.
DESCRIPTION: Reading, writing, conversation, vocabulary building, and review of grammar.

**Course Outcomes**
- Improve your ability to use French in real-life situations and for real-life purposes.
- Create elaborated utterances and group them into paragraphs and narratives.
- Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).
- Review and increase understanding of basic language structures.
- Discuss in French selected current events and various francophone regions of the world and some of their cultural practices.

FREN 202 : Intermediate French, Part 2. (3:3:1)
OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Fren 201 or equivalent.
DESCRIPTION: Final course for GE Languages of Learning requirement (except for full-time French speaking returned missionaries); extensive reading in French literature and culture.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Read beyond basic plot and learn to apply tools of literary analysis.
- Recognize and analyze key genres in French literature.
- Identify and define key characteristics of the important French literary movements.
- Place literature in a meaningful cultural and historical context.
- Improve your reading and writing skills in French.
- Broaden and deepen your perception and appreciation of French culture.

6. Complete the following:

FREN 321 : Advanced French Part 1. (3:3:1)
WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: Fren 202 or equivalent.
DESCRIPTION: Grammar and composition, listening and speaking skills.

**Course Outcomes**

- Students will develop their ability to narrate and describe in the present and past time frames, use connected discourse, and learn to manage complications in the language through communicative strategies, without patterns of breakdown.
- Students will analyze and employ proper grammatical, lexical, phonological and stylistic features of Advanced-level French in descriptive and narrative texts.

FREN 322 : Advanced French Part 2. (3:3:1)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: FREN 321
DESCRIPTION: Grammar and composition, listening and speaking skills.

**Course Outcomes**

- Students will solidify their ability to narrate and describe in present, past and future time frames, use connected discourse, and manage complications in the language through communicative strategies, without patterns of breakdown.
- Students will develop partial control of their ability to support their opinions and hypothesize about abstract topics, in the context of extended discourse.
- Students will analyze and employ proper grammatical, lexical, phonological and stylistic features of Advanced-level French language in summaries, detailed descriptions and narrations, analyses and argumentative essays

FREN 340 : Introduction to Literary Analysis. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: Fren 321 or concurrent enrollment.
DESCRIPTION: How to read French prose, drama, and poetry and apply methods of literary criticism.
NOTE: Capstone course for GE Languages of Learning requirement for returned missionaries

**Course Outcomes**

- Contextualize and analyze French literature of various periods and genres.
- Write analytically about the literature in well-formatted essays.
- Identify basic terms of literary analysis. (The specific list is available on the syllabus.)

FREN 377 : Introduction to French Language Teaching. (3:3:0)
WHEN TAUGHT: Fall
PREREQUISITE: Fren 321; FLang 276 (if a French teaching major)
DESCRIPTION: Language acquisition theories and instructional practices specific to French language classrooms. Includes teaching phonological features and pronunciation. Lectures, demonstrations, and microteaching.
NOTE: Taught in French and English.

**Course Outcomes**

- Design and deliver effective French instruction appropriate to learners' needs.
- Discuss and apply basic principles of language acquisition.
- Discuss and apply basic principles of formal and informal assessment.
- Reflect on and justify instructional choices and actions.
- Describe the phonological features of French and diagnose your own pronunciation problems.

FREN 378 : French Language Teaching Procedures and Practicum. (2:1:1)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: Fren 377; 491 with minimum rating of advanced--low on the French oral proficiency exam; fingerprinting and FBI clearance for students planning to do an internship or student teach in the public schools.
DESCRIPTION: Designing and practicing instruction for French classes in secondary schools. Developing teaching, critical thinking, and assessment skills.

NOTE: Taught in French and English.

**Course Outcomes**

- Begin to apply principles of second language teaching and acquisition in a public-secondary school settings.
- Design and teach basic culture, vocabulary, comprehension, and oral communication lessons in a secondary school.
- Begin to apply formal and informal assessment principles. Document and reflect on teaching and learning.

FREN 431 : Introduction to French Linguistics. (3:3:0)

WHEN TAUGHT: Fall
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322, 340, 361, 362.
DESCRIPTION: Subfields (phonetics, morphology, syntax, lexicology, semantics) and approaches (socio-linguistics, semiology, and pragmatics).

**Course Outcomes**

- Write at least one substantive research paper that effectively incorporates secondary sources.
- Conduct independent research (finding examples of the linguistic phenomena examined in the course, applying analytical diagrams, comparing linguistic phenomena in various languages, using various instruments of linguistic analysis) and identify the most significant databases of francophone linguistic research.
- Identify the fundamental elements of French linguistics (basic terms and concepts of phonetics, phonology, morphology, syntax, lexicology, and semantics)
- Evaluate and appreciate francophone diversity.

**Note:** Fren 378 must be taken the semester immediately before student teaching.

7. Complete 2 courses from the following:

FREN 361 : French Civilization from the Beginning to 1715. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Historical survey of institutions, fine arts, and social conditions to the death of Louis XIV.
NOTE: Fulfills GE Arts or Letters elective.

**Course Outcomes**

- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Locate and evaluate resources relevant to course assignments.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).
- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

FREN 362 : French Civilization from 1715 to the Present. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Historical survey of institutions, fine arts, and social conditions.
NOTE: Fulfills GE Arts or Letters elective.

**Course Outcomes**

- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Locate and evaluate resources relevant to course assignments.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).
- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

FREN 363 : Contemporary French Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Current cultural, political, and social trends and issues in France as well as the francophone world.
NOTE: Fulfills GE Global and Cultural Awareness requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Locate and evaluate resources relevant to course assignments.
- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).

- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

8. Complete 2 courses from the following:

FREN 432 : History of French. (3:3:0)

WHEN TAUGHT: Fall
RECOMMENDED: Fren 431 or concurrent enrollment.
DESCRIPTION: Introduction to the diachronic study of French beginning with its roots in Latin.

**Course Outcomes**

- Write at least one substantive research paper that effectively incorporates secondary sources.
- Demonstrate improved language ability

FREN 433 : Studies in French Linguistics. (3:3:0)

WHEN TAUGHT: Winter
RECOMMENDED: Fren 431 or concurrent enrollment.
DESCRIPTION: Advanced study of linguistic features such as phonetics and phonology, semantization, lexical development, morphology, and contrastive syntax.

**Course Outcomes**

- Demonstrate mastery the elements of advanced French linguistics.
- Write at least one substantive research paper that effectively incorporates secondary sources.
- Codify and draw conclusions from the data analyzed.

FREN 445 : Advanced Francophone Culture. (3:3:0)

OFFERED: Study Abroad only.
WHEN TAUGHT: Spring; Summer
PREREQUISITE: Fren 321.
NOTE: Research paper required.

**Course Outcomes**

- Write at least one substantive research paper that effectively incorporates secondary sources.
- Demonstrate improved language ability

FREN 452R : Studies in Period, Movement, and Theme. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: Fren 340.
DESCRIPTION: Various periods and movements (e.g., medieval, classicism, romanticism) or themes (e.g., Arthur, Faust). Topics vary.

**Course Outcomes**

- Evaluate and contextualize a particular period, movement, or theme in French or Francophone studies and justify the limitations of its definitions.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 453R : Studies in Genre. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: Fren 340.
DESCRIPTION: In-depth study of various genres (e.g., epic, novel, lyric, film) and problems of genre in French.

**Course Outcomes**

- Evaluate basic concepts of a particular genre and explain the limitations of generic categorizations.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 454R : Studies in Author. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: Fren 340.
DESCRIPTION: In-depth study of major French or Francophone authors (e.g., Rabelais, Moliere, Diderot, Balzac).

**Course Outcomes**

- Evaluate and contextualize the unique contributions of a particular author.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 455R : Studies in Literary Theory. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: Fren 340.
DESCRIPTION: In-depth study of primary texts by contemporary literary theorists (e.g., Barthes, Genette, structuralism, etc.). Language of instruction is English.

**Course Outcomes**

- Apply theoretical models to various cultural artifacts and practices
- Investigate a variety of theoretical models for the analysis of literature and cultural phenomena.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 456R : Francophone Studies. (3:3:0)

PREREQUISITE: Fren 340.

DESCRIPTION: Readings from major French-speaking writers from countries outside France, such as Canada, Africa, and the Caribbean.

**Course Outcomes**

- Analyze and compare the cultures and practices that create African Francophone identities.
- Analyze and interpret literary texts of the French-speaking world.

FREN 457R : Studies in French Culture. (3:3:0)

PREREQUISITE: Fren 361, 362, or 363.

DESCRIPTION: In-depth study of French historical, political, and social issues or artistic trends.

**Course Outcomes**

- Evaluate and contextualize a significant component of French or Francophone culture.
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 490R : Individual Study in French. (1-3:ARR:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Instructor's consent.

DESCRIPTION: Faculty-supervised instruction/research to fit the individual needs of the advanced student. Terms must be established by contract and approved by chair.

**Course Outcomes**

- Formulate and express in writing critical arguments on a specialized topic reflecting an understanding of primary and secondary sources.

**Note:** Only one registration of Fren 490R will count toward the major requirements.

9. Complete the following before enrolling in FREN 378. The rating will be recorded on the student's transcript. The expected minimum rating of *advanced—low* must be completed before applying to student teach.

FREN 491R : Senior Oral Proficiency Evaluation. (0:0:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Evaluation required of all French majors during the senior year and all French-teaching majors and minors before enrolling in Fren 378.

**Course Outcomes**

- Establish an oral proficiency rating by taking the Oral Proficiency Interview.

**Note:** Before applying for student teaching or an internship, students must receive an official OPI certificate from ACTFL with a rating of *advanced-low* or higher and take the French PRAXIS test. At least one month before student teaching applications are due, students should schedule an OPI through the Center for Language Studies, 3086 JFSB.

10. Complete the Professional Education Component:
    - Complete the following:

CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course; FBI fingerprint background clearance.

DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

**Course Outcomes**

- Demonstrate sensitivity to individuals with disabilities.
- Describe the effects of cultural, ethnic, and language diversity on the education of individuals with disabilities
- Describe the steps in the Individual Education Program (IEP) process, including Individualized Transition Plans for students aged 14-22.
- Use research-supported methods for academic instruction of individuals with disabilities including explicit instruction, learning strategies, task analysis, and active participation.
- Describe models and strategies of consultation and collaboration including co-planning and co-teaching.
- Define special education and describe the legal structure of services for individuals with disabilities, including the Individuals with Disabilities Education Act (IDEA).
- Develop a personal philosophy of special education which includes an understanding of the implications of Least Restrictive Environment as defined in IDEA.
- Demonstrate knowledge of basic classroom management theories and an understanding of teacher attitudes and behaviors that influence behavior of individuals with exceptional learning needs.

- Describe the characteristics and educational implications of students with high and low incidence disabilities
- Demonstrate ability to identify and prioritize areas of the general curriculum and provide accommodations for individuals with exceptional learning needs

FLANG 276 : Exploration of Teaching Foreign Languages. (4:2:2)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: FBI fingerprint and background clearance.

DESCRIPTION: Field-based exposure to practices, demands, and issues associated with teaching foreign languages in public secondary schools.

**Course Outcomes**

- Determine if pursuing a personal career in foreign language teaching in public secondary schools is the correct decision.
- Have a developing awareness of what foreign-language students should know and be able to do and of good foreign-language teaching practice.
- Discuss the public purposes of education, related social and political issues, and the benefits of speaking a foreign language.
- Articulate personal motivations for becoming a teacher, as well as recognize potential strengths and weaknesses as a teacher.

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for secondary education settings.

**Course Outcomes**

There are no course outcomes available

SC ED 353 : Multicultural Education. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or Phy S 276 or Engl 276R or Bio 276 or SFL 276R or Hlth 276R or MthEd 276 or PETE 276R or TEE 276A or TEE 276B.

DESCRIPTION: Designing and adapting instruction for diverse learners; collaborating with families, cultures, and communities in promoting and sustaining learning.

**Course Outcomes**

- Students will examine and understand the various dimensions of cultural identity, including one's own, and apply this knowledge to their thinking and behavio through a process of reflection.
- Acknowledge the dynamics of culture and diversity in school success and teachers' teaching. This includes recognizing and overcoming deficit thinking.
- Identify culturally and linguistically relevant pedagogy and use theoretically grounded principles to analyze why it is effective for many different types of learners.
- Interpret the historical context of diversity, discrimination, and language policies and evaluate how they impact current school practices.
- Recognize and acknowledge racism, discrimination and other forms of inquity and privilege in themselves, in others, and within institutions.
- Recognize and use a personal moral spiritual framework along with principles and concepts of social science to guide educational accomplishments for diverse learners.

SC ED 375 : Adolescent Development and Classroom Management. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Sc Ed 276R or Phy S 276 or Engl 276R or Bio 276 or SFL 276R or Hlth 276R or MthEd 276 or PETE 276R or TEE 276A or TEE 276B; or concurrent enrollment.

DESCRIPTION: Analysis of education practice and the relationship between theories and research on development, classroom management, education and the practice of teaching. Focus on adolescent development and an introduction to classroom management.

**Course Outcomes**

There are no course outcomes available

**Note:** FBI fingerprint and background clearance must be completed before enrollment in FLANG 276.

- Complete 12 hours of one of the following:

SC ED 476R : Secondary Student Teaching - French. (1-12:ARR:ARR)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Completion of all course work or departmental approval; requires a major GPA of 2.85; at least a C- in Sc Ed 377; FBI fingerprint and background clearance.

DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

**Course Outcomes**

- Students will put into practice the theories they have learned in content and pedagogy courses

including planning lessons, assessing students of all abilities and cultural backgrounds, using a variety of instructional strategies, and collaborating with other teachers and with the community.

SC ED 496R : Academic Internship: Secondary Education. (12:ARR:ARR)

WHEN TAUGHT: Fall

PREREQUISITE: Completion of all course work or departmental approval; requires a major GPA of 2.85; at least a C- in Sc Ed 377; FBI fingerprint and background clearance.

DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

**Course Outcomes**

- Students will demonstrate that they can teach, manage, and assess content area knowledge and skills in the 7-12 classroom.
- Foster relationships with school colleagues, parents, and the larger community.

: Academic Internship: Social Sciences.

**Course Outcomes**

: Academic Internship: English.

**Course Outcomes**

: Academic Internship: Mathematics.

**Course Outcomes**

: Academic Internship: Biological Sciences.

**Course Outcomes**

: Academic Internship: Physical Sciences.

**Course Outcomes**

Note: FBI fingerprint and background clearance must be completed prior to enrollment in Sc Ed 496R.

11. It is the student's responsibility to take the French PRAXIS test and ensure BYU receives the test scores.

**Note:** The Department of French and Italian offers the following resources to strengthen oral language skills: conversation courses (Fren 211R, 311R, 411R), the Foreign Language Student Residence, Study Abroad, or an internship in French-speaking countries. Please refer to the specific program or course description for detailed information about these resources.

*Hours include courses that may fulfill university core requirements.

## Program Requirements

1. The French and Italian Department requires a minimum of nine minor hours to be taken in residence at BYU for this minor program. These hours may also go toward BYU's 30-hour residency requirement for graduation.

2. Complete the following prerequisites (or equivalent):

FREN 101 : First-Year French, Part 1. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Development of the four language skills: understanding, speaking, reading, and writing.

**Course Outcomes**
- Comprehend French as you hear and read authentic language relating to familiar topics.
- Speak French well enough to satisfy immediate needs. (You will learn to communicate in basic social situations, meet routine travel needs, obtain food and lodging, carry out simple transactions, and talk about a variety of topics of common interest primarily in the present, with limited use of other time frames.)
- Write short messages and well-articulated sentences in French on familiar topics.

FREN 102 : First-Year French, Part 2. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Fren 101 or equivalent.

DESCRIPTION: Continuation of French 101.

**Course Outcomes**
- Write well-articulated sentences and loosely connected texts related to personal experiences and common events.
- Comprehend French as you hear and read authentic language relating to familiar topics.
- Speak French well enough to handle a variety of simple communicative tasks in basic social situations. You will be able to meet routine travel needs, carry out simple transactions, and talk about a variety of topics of common interest in present, past, and future times.

FREN 201 : Intermediate French, Part 1. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Fren 102 or equivalent.

DESCRIPTION: Reading, writing, conversation, vocabulary building, and review of grammar.

**Course Outcomes**
- Improve your ability to use French in real-life situations and for real-life purposes.
- Create elaborated utterances and group them into paragraphs and narratives.
- Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).
- Review and increase understanding of basic language structures.
- Discuss in French selected current events and various francophone regions of the world and some of their cultural practices.

FREN 202 : Intermediate French, Part 2. (3:3:1)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Fren 201 or equivalent.

DESCRIPTION: Final course for GE Languages of Learning requirement (except for full-time French speaking returned missionaries); extensive reading in French literature and culture.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
- Read beyond basic plot and learn to apply tools of literary analysis.
- Recognize and analyze key genres in French literature.
- Identify and define key characteristics of the important French literary movements.
- Place literature in a meaningful cultural and historical context.
- Improve your reading and writing skills in French.
- Broaden and deepen your perception and appreciation of French culture.

3. Complete the following core courses:

FREN 321 : Advanced French Part 1. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: Fren 202 or equivalent.
DESCRIPTION: Grammar and composition, listening and speaking skills.

**Course Outcomes**

- Students will develop their ability to narrate and describe in the present and past time frames, use connected discourse, and learn to manage complications in the language through communicative strategies, without patterns of breakdown.
- Students will analyze and employ proper grammatical, lexical, phonological and stylistic features of Advanced-level French in descriptive and narrative texts.

FREN 322 : Advanced French Part 2. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: FREN 321
DESCRIPTION: Grammar and composition, listening and speaking skills.

**Course Outcomes**

- Students will solidify their ability to narrate and describe in present, past and future time frames, use connected discourse, and manage complications in the language through communicative strategies, without patterns of breakdown.
- Students will develop partial control of their ability to support their opinions and hypothesize about abstract topics, in the context of extended discourse.
- Students will analyze and employ proper grammatical, lexical, phonological and stylistic features of Advanced-level French language in summaries, detailed descriptions and narrations, analyses and argumentative essays

FREN 340 : Introduction to Literary Analysis. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: Fren 321 or concurrent enrollment.
DESCRIPTION: How to read French prose, drama, and poetry and apply methods of literary criticism.
NOTE: Capstone course for GE Languages of Learning requirement for returned missionaries

**Course Outcomes**

- Contextualize and analyze French literature of various periods and genres.
- Write analytically about the literature in well-formatted essays.
- Identify basic terms of literary analysis. (The specific list is available on the syllabus.)

4. Complete two courses from the following:

FREN 361 : French Civilization from the Beginning to 1715. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Historical survey of institutions, fine arts, and social conditions to the death of Louis XIV.
NOTE: Fulfills GE Arts or Letters elective.

**Course Outcomes**

- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Locate and evaluate resources relevant to course assignments.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).
- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

FREN 362 : French Civilization from 1715 to the Present. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Historical survey of institutions, fine arts, and social conditions.
NOTE: Fulfills GE Arts or Letters elective.

**Course Outcomes**

- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Locate and evaluate resources relevant to course assignments.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).
- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

FREN 363 : Contemporary French Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Current cultural, political, and social trends and issues in France as well as the francophone world.
NOTE: Fulfills GE Global and Cultural Awareness requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Locate and evaluate resources relevant to course assignments.
- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).
- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

5. Complete one course from the following:

BUS M 596R : Business French. (3:3:0)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: For experienced speakers of the language being taught. Emphasizes business concepts; practice and case study including conversation, reading,and presenting, while enriching business vocabulary.

**Course Outcomes**

No outcomes are available at this time.

FREN 431 : Introduction to French Linguistics. (3:3:0)

WHEN TAUGHT: Fall
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322, 340, 361, 362.
DESCRIPTION: Subfields (phonetics, morphology, syntax, lexicology, semantics) and approaches (socio-linguistics, semiology, and pragmatics).

**Course Outcomes**

- Write at least one substantive research paper that effectively incorporates secondary sources.
- Conduct independent research (finding examples of the linguistic phenomena examined in the course, applying analytical diagrams, comparing linguistic phenomena in various languages, using various instruments of linguistic analysis) and identify the most significant databases of francophone linguistic research.
- Identify the fundamental elements of French linguistics (basic terms and concepts of phonetics, phonology, morphology, syntax, lexicology, and semantics)
- Evaluate and appreciate francophone diversity.

FREN 432 : History of French. (3:3:0)

WHEN TAUGHT: Fall
RECOMMENDED: Fren 431 or concurrent enrollment.
DESCRIPTION: Introduction to the diachronic study of French beginning with its roots in Latin.

**Course Outcomes**

- Write at least one substantive research paper that effectively incorporates secondary sources.
- Demonstrate improved language ability

FREN 445 : Advanced Francophone Culture. (3:3:0)

OFFERED: Study Abroad only.
WHEN TAUGHT: Spring; Summer
PREREQUISITE: Fren 321.
NOTE: Research paper required.

**Course Outcomes**

- Write at least one substantive research paper that effectively incorporates secondary sources.
- Demonstrate improved language ability

FREN 452R : Studies in Period, Movement, and Theme. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: Fren 340.
DESCRIPTION: Various periods and movements (e.g., medieval, classicism, romanticism) or themes (e.g., Arthur, Faust). Topics vary.

**Course Outcomes**

- Evaluate and contextualize a particular period, movement, or theme in French or Francophone studies and justify the limitations of its definitions.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 453R : Studies in Genre. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: Fren 340.

DESCRIPTION: In-depth study of various genres (e.g., epic, novel, lyric, film) and problems of genre in French.

**Course Outcomes**

- Evaluate basic concepts of a particular genre and explain the limitations of generic categorizations.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 454R : Studies in Author. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: Fren 340.

DESCRIPTION: In-depth study of major French or Francophone authors (e.g., Rabelais, Moliere, Diderot, Balzac).

**Course Outcomes**

- Evaluate and contextualize the unique contributions of a particular author.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 455R : Studies in Literary Theory. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: Fren 340.

DESCRIPTION: In-depth study of primary texts by contemporary literary theorists (e.g., Barthes, Genette, structuralism, etc.). Language of instruction is English.

**Course Outcomes**

- Apply theoretical models to various cultural artifacts and practices
- Investigate a variety of theoretical models for the analysis of literature and cultural phenomena.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 456R : Francophone Studies. (3:3:0)

PREREQUISITE: Fren 340.

DESCRIPTION: Readings from major French-speaking writers from countries outside France, such as Canada, Africa, and the Caribbean.

**Course Outcomes**

- Analyze and compare the cultures and practices that create African Francophone identities.
- Analyze and interpret literary texts of the French-speaking world.

FREN 457R : Studies in French Culture. (3:3:0)

PREREQUISITE: Fren 361, 362, or 363.

DESCRIPTION: In-depth study of French historical, political, and social issues or artistic trends.

**Course Outcomes**

- Evaluate and contextualize a significant component of French or Francophone culture.
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 490R : Individual Study in French. (1-3:ARR:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Instructor's consent.

DESCRIPTION: Faculty-supervised instruction/research to fit the individual needs of the advanced student. Terms must be established by contract and approved by chair.

**Course Outcomes**

- Formulate and express in writing critical arguments on a specialized topic reflecting an understanding of primary and secondary sources.

*Hours include courses that may fulfill university core requirements.

# Minor in French Teaching (23–38 hours*)

Show All Course Descriptions
Hide All Course Descriptions

*This minor is designed to prepare students to teach in public secondary schools. A teaching minor may only be received by students graduating with a teaching major. In order to graduate with this minor, students are required to complete Utah State Office of Education licensing requirements. To view these requirements go to http://education.byu.edu/ess/licensing.html or contact Education Student Services, 350 MCKB, (801) 422-3426.*

## Program Requirements

1. The French and Italian Department requires a minimum of 12 minor hours to be taken in residence at BYU for this minor program. These hours may also go toward BYU's 30-hour residency requirement for graduation.
2. Grades below C- in professional education courses or content courses will not be accepted in the teaching major or teaching minor. Teacher candidates must have a cumulative 2.85 GPA in teaching major and teaching minor courses to qualify for student teaching.
3. Complete the following prerequisites (or equivalent):

FREN 101 : First-Year French, Part 1. (4:5:2)
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Development of the four language skills: understanding, speaking, reading, and writing.

**Course Outcomes**
- Comprehend French as you hear and read authentic language relating to familiar topics.
- Speak French well enough to satisfy immediate needs. (You will learn to communicate in basic social situations, meet routine travel needs, obtain food and lodging, carry out simple transactions, and talk about a variety of topics of common interest primarily in the present, with limited use of other time frames.)
- Write short messages and well-articulated sentences in French on familiar topics.

FREN 102 : First-Year French, Part 2. (4:5:2)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Fren 101 or equivalent.
DESCRIPTION: Continuation of French 101.

**Course Outcomes**
- Write well-articulated sentences and loosely connected texts related to personal experiences and common events.
- Comprehend French as you hear and read authentic language relating to familiar topics.
- Speak French well enough to handle a variety of simple communicative tasks in basic social situations. You will be able to meet routine travel needs, carry out simple transactions, and talk about a variety of topics of common interest in present, past, and future times.

FREN 201 : Intermediate French, Part 1. (4:5:2)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Fren 102 or equivalent.
DESCRIPTION: Reading, writing, conversation, vocabulary building, and review of grammar.

**Course Outcomes**
- Improve your ability to use French in real-life situations and for real-life purposes.
- Create elaborated utterances and group them into paragraphs and narratives.
- Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).
- Review and increase understanding of basic language structures.
- Discuss in French selected current events and various francophone regions of the world and some of their cultural practices.

FREN 202 : Intermediate French, Part 2. (3:3:1)
OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Fren 201 or equivalent.
DESCRIPTION: Final course for GE Languages of Learning requirement (except for full-time French speaking returned missionaries); extensive reading in French literature and culture.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Read beyond basic plot and learn to apply tools of literary analysis.
- Recognize and analyze key genres in French literature.
- Identify and define key characteristics of the important French literary movements.
- Place literature in a meaningful cultural and historical context.
- Improve your reading and writing skills in French.
- Broaden and deepen your perception and appreciation of French culture.

4. Complete the following:

FREN 321 : Advanced French Part 1. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: Fren 202 or equivalent.
DESCRIPTION: Grammar and composition, listening and speaking skills.

**Course Outcomes**

- Students will develop their ability to narrate and describe in the present and past time frames, use connected discourse, and learn to manage complications in the language through communicative strategies, without patterns of breakdown.
- Students will analyze and employ proper grammatical, lexical, phonological and stylistic features of Advanced-level French in descriptive and narrative texts.

FREN 340 : Introduction to Literary Analysis. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: Fren 321 or concurrent enrollment.
DESCRIPTION: How to read French prose, drama, and poetry and apply methods of literary criticism.
NOTE: Capstone course for GE Languages of Learning requirement for returned missionaries

**Course Outcomes**

- Contextualize and analyze French literature of various periods and genres.
- Write analytically about the literature in well-formatted essays.
- Identify basic terms of literary analysis. (The specific list is available on the syllabus.)

FREN 377 : Introduction to French Language Teaching. (3:3:0)

WHEN TAUGHT: Fall
PREREQUISITE: Fren 321; FLang 276 (if a French teaching major)
DESCRIPTION: Language acquisition theories and instructional practices specific to French language classrooms. Includes teaching phonological features and pronunciation. Lectures, demonstrations, and microteaching.
NOTE: Taught in French and English.

**Course Outcomes**

- Design and deliver effective French instruction appropriate to learners' needs.
- Discuss and apply basic principles of language acquisition.
- Discuss and apply basic principles of formal and informal assessment.
- Reflect on and justify instructional choices and actions.
- Describe the phonological features of French and diagnose your own pronunciation problems.

FREN 378 : French Language Teaching Procedures and Practicum. (2:1:1)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Fren 377; 491 with minimum rating of advanced--low on the French oral proficiency exam; fingerprinting and FBI clearance for students planning to do an internship or student teach in the public schools.
DESCRIPTION: Designing and practicing instruction for French classes in secondary schools. Developing teaching, critical thinking, and assessment skills.
NOTE: Taught in French and English.

**Course Outcomes**

- Begin to apply principles of second language teaching and acquisition in a public-secondary school settings.
- Design and teach basic culture, vocabulary, comprehension, and oral communication lessons in a secondary school.
- Begin to apply formal and informal assessment principles. Document and reflect on teaching and learning.

**Note:** Fren 377 and 378 must be taken before student teaching.

5. Complete two courses from the following:

FREN 361 : French Civilization from the Beginning to 1715. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Historical survey of institutions, fine arts, and social conditions to the death of Louis XIV.
NOTE: Fulfills GE Arts or Letters elective.

**Course Outcomes**

- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Locate and evaluate resources relevant to course assignments.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).
- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

FREN 362 : French Civilization from 1715 to the Present. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Historical survey of institutions, fine arts, and social conditions.
NOTE: Fulfills GE Arts or Letters elective.

**Course Outcomes**

- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Locate and evaluate resources relevant to course assignments.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).
- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

FREN 363 : Contemporary French Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Current cultural, political, and social trends and issues in France as well as the francophone world.
NOTE: Fulfills GE Global and Cultural Awareness requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Locate and evaluate resources relevant to course assignments.
- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).
- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

6. Complete one course from the following:

FREN 431 : Introduction to French Linguistics. (3:3:0)

WHEN TAUGHT: Fall
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322, 340, 361, 362.
DESCRIPTION: Subfields (phonetics, morphology, syntax, lexicology, semantics) and approaches (socio-linguistics, semiology, and pragmatics).

**Course Outcomes**

- Write at least one substantive research paper that effectively incorporates secondary sources.
- Conduct independent research (finding examples of the linguistic phenomena examined in the course, applying analytical diagrams, comparing linguistic phenomena in various languages, using various instruments of linguistic analysis) and identify the most significant databases of francophone linguistic research.
- Identify the fundamental elements of French linguistics (basic terms and concepts of phonetics, phonology, morphology, syntax, lexicology, and semantics)
- Evaluate and appreciate francophone diversity.

FREN 445 : Advanced Francophone Culture. (3:3:0)

OFFERED: Study Abroad only.
WHEN TAUGHT: Spring; Summer
PREREQUISITE: Fren 321.
NOTE: Research paper required.

**Course Outcomes**

- Write at least one substantive research paper that effectively incorporates secondary sources.
- Demonstrate improved language ability

FREN 452R : Studies in Period, Movement, and Theme. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: Fren 340.

DESCRIPTION: Various periods and movements (e.g., medieval, classicism, romanticism) or themes (e.g., Arthur, Faust). Topics vary.

**Course Outcomes**

- Evaluate and contextualize a particular period, movement, or theme in French or Francophone studies and justify the limitations of its definitions.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 453R : Studies in Genre. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: Fren 340.

DESCRIPTION: In-depth study of various genres (e.g., epic, novel, lyric, film) and problems of genre in French.

**Course Outcomes**

- Evaluate basic concepts of a particular genre and explain the limitations of generic categorizations.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 454R : Studies in Author. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: Fren 340.

DESCRIPTION: In-depth study of major French or Francophone authors (e.g., Rabelais, Moliere, Diderot, Balzac).

**Course Outcomes**

- Evaluate and contextualize the unique contributions of a particular author.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 456R : Francophone Studies. (3:3:0)

PREREQUISITE: Fren 340.

DESCRIPTION: Readings from major French-speaking writers from countries outside France, such as Canada, Africa, and the Caribbean.

**Course Outcomes**

- Analyze and compare the cultures and practices that create African Francophone identities.
- Analyze and interpret literary texts of the French-speaking world.

FREN 457R : Studies in French Culture. (3:3:0)

PREREQUISITE: Fren 361, 362, or 363.

DESCRIPTION: In-depth study of French historical, political, and social issues or artistic trends.

**Course Outcomes**

- Evaluate and contextualize a significant component of French or Francophone culture.
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 490R : Individual Study in French. (1-3:ARR:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Instructor's consent.

DESCRIPTION: Faculty-supervised instruction/research to fit the individual needs of the advanced student. Terms must be established by contract and approved by chair.

**Course Outcomes**

- Formulate and express in writing critical arguments on a specialized topic reflecting an understanding of primary and secondary sources.

(3 hours required)

7. Complete the following and have an oral proficiency interview (OPI) before enrolling in Fren 378. The rating will be recorded on the student's transcript. The required minimum OPI rating is *advanced—low* before applying to student teach in the major.

FREN 491R : Senior Oral Proficiency Evaluation. (0:0:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Evaluation required of all French majors during the senior year and all French-teaching majors and minors before enrolling in Fren 378.

**Course Outcomes**

- Establish an oral proficiency rating by taking the Oral Proficiency Interview.

**Note:** Before applying for student teaching or an internship, students must receive an official OPI certificate from ACTFL with a rating of *advanced-low* or higher. At least one month before student teaching applications are due, students should schedule an OPI through the Center for Language Studies, 3086 JFSB.

8. It is the student's responsibility to take the French PRAXIS test and ensure BYU receives the test scores.

**Note:** The Department of French and Italian offers the following resources to strengthen oral language skills: conversation courses (Fren 211R, 311R, 411R), the Foreign Language Student Residence, Study Abroad, or an internship in French-speaking countries. Please refer to the specific program or course description for detailed information about these resources.

*Hours include courses that may fulfill university core requirements.

Hide All Course Descriptions

*This Language Certificate program is administered by the Center for Language Studies (3086 JFSB), http://languagecertificate.byu.edu.*

Any matriculated (degree-seeking) BYU student who meets the proficiency and course requirements may earn the French Language Certificate. The proficiency requirement is met through the nationally recognized ACTFL Oral and Writing Proficiency Exams. Qualifying students will be awarded a certificate on one of three levels based on the following:

1. Advanced Certificate: An ACTFL "Advanced" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
2. Mastery Certificate: An ACTFL "Advanced High" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
3. Professional Certificate: An ACTFL "Superior" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.

## Required Courses:

**Note:** Students who have completed all of the coursework required for a language major or a language minor will also have satisfied the coursework requirement for the language certificate.

1. Language - complete one course from the following:

FREN 321 : Advanced French Part 1. (3:3:1)
WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: Fren 202 or equivalent.
DESCRIPTION: Grammar and composition, listening and speaking skills.

**Course Outcomes**
- Students will develop their ability to narrate and describe in the present and past time frames, use connected discourse, and learn to manage complications in the language through communicative strategies, without patterns of breakdown.
- Students will analyze and employ proper grammatical, lexical, phonological and stylistic features of Advanced-level French in descriptive and narrative texts.

FREN 322 : Advanced French Part 2. (3:3:1)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: FREN 321
DESCRIPTION: Grammar and composition, listening and speaking skills.

**Course Outcomes**
- Students will solidify their ability to narrate and describe in present, past and future time frames, use connected discourse, and manage complications in the language through communicative strategies, without patterns of breakdown.
- Students will develop partial control of their ability to support their opinions and hypothesize about abstract topics, in the context of extended discourse.
- Students will analyze and employ proper grammatical, lexical, phonological and stylistic features of Advanced-level French language in summaries, detailed descriptions and narrations, analyses and argumentative essays

2. Civilization - complete one course from the following:

FREN 361 : French Civilization from the Beginning to 1715. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Historical survey of institutions, fine arts, and social conditions to the death of Louis XIV.
NOTE: Fulfills GE Arts or Letters elective.

**Course Outcomes**
- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Locate and evaluate resources relevant to course assignments.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).

- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

FREN 362 : French Civilization from 1715 to the Present. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Historical survey of institutions, fine arts, and social conditions.
NOTE: Fulfills GE Arts or Letters elective.

**Course Outcomes**

- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Locate and evaluate resources relevant to course assignments.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).
- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

FREN 363 : Contemporary French Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Current cultural, political, and social trends and issues in France as well as the francophone world.
NOTE: Fulfills GE Global and Cultural Awareness requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Locate and evaluate resources relevant to course assignments.
- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).
- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

3. Literature:

FREN 340 : Introduction to Literary Analysis. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: Fren 321 or concurrent enrollment.
DESCRIPTION: How to read French prose, drama, and poetry and apply methods of literary criticism.
NOTE: Capstone course for GE Languages of Learning requirement for returned missionaries

**Course Outcomes**

- Contextualize and analyze French literature of various periods and genres.
- Write analytically about the literature in well-formatted essays.
- Identify basic terms of literary analysis. (The specific list is available on the syllabus.)

Students who successfully complete a certificate will receive an official document verifying their level of achievement. The certificate will be listed on the university transcript.

## Undergraduate Courses

### 100-Level Courses

FREN 101 : First-Year French, Part 1. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Development of the four language skills: understanding, speaking, reading, and writing.

**Course Outcomes**

- Comprehend French as you hear and read authentic language relating to familiar topics.
- Speak French well enough to satisfy immediate needs. (You will learn to communicate in basic social situations, meet routine travel needs, obtain food and lodging, carry out simple transactions, and talk about a variety of topics of common interest primarily in the present, with limited use of other time frames.)
- Write short messages and well-articulated sentences in French on familiar topics.

FREN 102 : First-Year French, Part 2. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Fren 101 or equivalent.

DESCRIPTION: Continuation of French 101.

**Course Outcomes**

- Write well-articulated sentences and loosely connected texts related to personal experiences and common events.
- Comprehend French as you hear and read authentic language relating to familiar topics.
- Speak French well enough to handle a variety of simple communicative tasks in basic social situations. You will be able to meet routine travel needs, carry out simple transactions, and talk about a variety of topics of common interest in present, past, and future times.

FREN 121 : Intensive Reading in French. (.5-4:ARR:0)

DESCRIPTION: Reading for research purposes, including reading skills in area of student's specialization or interest. Conducted in English.

NOTE: For students with little or no French. Graduate students will be graded pass/fail. Undergraduates will receive letter grades.

**Course Outcomes**

- Evaluate authentic written French from different eras and in different discourse types.
- Acquire basic (5000-7000 lexemes) and discipline-specific vocabulary for the purposes of reading.

### 200-Level Courses

FREN 201 : Intermediate French, Part 1. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Fren 102 or equivalent.

DESCRIPTION: Reading, writing, conversation, vocabulary building, and review of grammar.

**Course Outcomes**

- Improve your ability to use French in real-life situations and for real-life purposes.
- Create elaborated utterances and group them into paragraphs and narratives.
- Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).
- Review and increase understanding of basic language structures.
- Discuss in French selected current events and various francophone regions of the world and some of their cultural practices.

FREN 202 : Intermediate French, Part 2. (3:3:1)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Fren 201 or equivalent.

DESCRIPTION: Final course for GE Languages of Learning requirement (except for full-time French speaking returned missionaries); extensive reading in French literature and culture.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Read beyond basic plot and learn to apply tools of literary analysis.
- Recognize and analyze key genres in French literature.
- Identify and define key characteristics of the important French literary movements.
- Place literature in a meaningful cultural and historical context.
- Improve your reading and writing skills in French.
- Broaden and deepen your perception and appreciation of French culture.

FREN 211R : Second-Year Conversation. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Fren 102 or equivalent. May be taken concurrently with Fren 201.

**Course Outcomes**

- Describe and narrate in present, past and future times in the context of paragraph-level speech about autobiographical and concrete topics.
- Speak in contexts related to autobiographical and concrete topics, initiate and maintain conversations by asking and responding to questions and coping with gaps in knowledge.
- Speak using an apporopriate variety of vocabulary related to autobiographical and concrete topics.
- Be understood most of the time without difficulty by native speakers unaccustomed to dealing with non-native speakers.

**300-Level Courses**

FREN 311R : Third-Year Conversation. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Fren 211R or instructor's consent.

NOTE: May be taken concurrently with Fren 340.

**Course Outcomes**

- Describe and narrate in present, past and future times in the context of paragraph-level speech about autobiographical and concrete topics.
- Relate current events, plots of books or movies and state opinion.
- Initiate and maintain fluent conversations, and cope with gaps in knowledge in contexts related to concrete topics.
- Speak using an apporopriate variety of vocabulary related to autobiographical and concrete topics as well as to current and other events.
- Be understood without difficulty by speakers unaccustomed to dealing with non-native speakers.

FREN 317 : (Fren-Ital) French and Italian Cinema. (3:3:2)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Background for understanding and appreciating the best of motion picture art in France and Italy. Includes components of critical theory essential for analyzing film. Language of instruction is English; no knowledge of French or Italian required.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Identify the major filmmakers and cinematic movements in the history of French and Italian cinema, with particular attention to the socio-historical contexts that shaped their creation.
- Explore the essential aspects of cinema as an artistic medium and master the technical and critical terminology necessary to intelligently discuss the creative process.

FREN 321 : Advanced French Part 1. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

RECOMMENDED: Fren 202 or equivalent.

DESCRIPTION: Grammar and composition, listening and speaking skills.

**Course Outcomes**

- Students will develop their ability to narrate and describe in the present and past time frames, use connected discourse, and learn to manage complications in the language through communicative strategies, without patterns of breakdown.
- Students will analyze and employ proper grammatical, lexical, phonological and stylistic features of Advanced-level French in descriptive and narrative texts.

FREN 322 : Advanced French Part 2. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: FREN 321

DESCRIPTION: Grammar and composition, listening and speaking skills.

**Course Outcomes**

- Students will solidify their ability to narrate and describe in present, past and future time frames, use connected discourse, and manage complications in the language through communicative strategies, without patterns of

breakdown.
- Students will develop partial control of their ability to support their opinions and hypothesize about abstract topics, in the context of extended discourse.
- Students will analyze and employ proper grammatical, lexical, phonological and stylistic features of Advanced-level French language in summaries, detailed descriptions and narrations, analyses and argumentative essays

FREN 325R : Individual French Language Review. (1:0:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: FREN 202
RECOMMENDED: Fren 211.
DESCRIPTION: Guided individual online language practice.
NOTE: May be taken as supplemental bridge between Fren 202 and Fren 321 or for extra practice while taking any 300- or 400-level French course.

**Course Outcomes**

No outcomes are available at this time.

FREN 340 : Introduction to Literary Analysis. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: Fren 321 or concurrent enrollment.
DESCRIPTION: How to read French prose, drama, and poetry and apply methods of literary criticism.
NOTE: Capstone course for GE Languages of Learning requirement for returned missionaries

**Course Outcomes**

- Contextualize and analyze French literature of various periods and genres.
- Write analytically about the literature in well-formatted essays.
- Identify basic terms of literary analysis. (The specific list is available on the syllabus.)

FREN 345 : Francophone Culture. (3:1:3)

PREREQUISITE: Fren 102 or equivalent.
NOTE: Study Abroad only.

**Course Outcomes**

- The purpose of this course is to provide an organized, meaningful, and memorable overview of Paris as well as sites visited during organized excursions.

FREN 346R : French Choir. (1:1:0)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: French choir practice.

**Course Outcomes**

- Bring together language skills and cultural appreciation through choral singing.

FREN 361 : French Civilization from the Beginning to 1715. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Historical survey of institutions, fine arts, and social conditions to the death of Louis XIV.
NOTE: Fulfills GE Arts or Letters elective.

**Course Outcomes**

- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Locate and evaluate resources relevant to course assignments.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).
- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

FREN 362 : French Civilization from 1715 to the Present. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Fren 321.
RECOMMENDED: Fren 322.
DESCRIPTION: Historical survey of institutions, fine arts, and social conditions.
NOTE: Fulfills GE Arts or Letters elective.

**Course Outcomes**

- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Locate and evaluate resources relevant to course assignments.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).
- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

FREN 363 : Contemporary French Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Fren 321.

RECOMMENDED: Fren 322.

DESCRIPTION: Current cultural, political, and social trends and issues in France as well as the francophone world.

NOTE: Fulfills GE Global and Cultural Awareness requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Locate and evaluate resources relevant to course assignments.
- Demonstrate knowledge of the chronology of French civilization and identify the major intellectual and artistic movements, their defining characteristics and contexts.
- Apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations of a given event or topic and communicate findings coherently).
- Establish connections between events, movements, and ideas for the time period covered in this course.
- Articulate and defend clear, orderly thought on cultural topics.

FREN 377 : Introduction to French Language Teaching. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: Fren 321; FLang 276 (if a French teaching major)

DESCRIPTION: Language acquisition theories and instructional practices specific to French language classrooms. Includes teaching phonological features and pronunciation. Lectures, demonstrations, and microteaching.

NOTE: Taught in French and English.

**Course Outcomes**

- Design and deliver effective French instruction appropriate to learners' needs.
- Discuss and apply basic principles of language acquisition.
- Discuss and apply basic principles of formal and informal assessment.
- Reflect on and justify instructional choices and actions.
- Describe the phonological features of French and diagnose your own pronunciation problems.

FREN 378 : French Language Teaching Procedures and Practicum. (2:1:1)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Fren 377; 491 with minimum rating of advanced--low on the French oral proficiency exam; fingerprinting and FBI clearance for students planning to do an internship or student teach in the public schools.

DESCRIPTION: Designing and practicing instruction for French classes in secondary schools. Developing teaching, critical thinking, and assessment skills.

NOTE: Taught in French and English.

**Course Outcomes**

- Begin to apply principles of second language teaching and acquisition in a public-secondary school settings.
- Design and teach basic culture, vocabulary, comprehension, and oral communication lessons in a secondary school.
- Begin to apply formal and informal assessment principles. Document and reflect on teaching and learning.

FREN 399R : Academic Internship: French Language Field Experience. (.5-6:0:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Program coordinator's consent.

DESCRIPTION: On-the-job experience in French.

**Course Outcomes**

- Improve professional experience and appreciation of cultural practices in an international context.

### 400-Level Courses

FREN 411R : Fourth-Year Conversation. (2:2:1)

PREREQUISITE: Fren 311R or equivalent.

**Course Outcomes**

- Initiate and maintain fluent conversations, and cope with gaps in knowledge in contexts related to concrete topics.

FREN 431 : Introduction to French Linguistics. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: Fren 321.

RECOMMENDED: Fren 322, 340, 361, 362.

DESCRIPTION: Subfields (phonetics, morphology, syntax, lexicology, semantics) and approaches (socio-linguistics, semiology, and pragmatics).

**Course Outcomes**

- Write at least one substantive research paper that effectively incorporates secondary sources.
- Conduct independent research (finding examples of the linguistic phenomena examined in the course, applying

analytical diagrams, comparing linguistic phenomena in various languages, using various instruments of linguistic analysis) and identify the most significant databases of francophone linguistic research.
- Identify the fundamental elements of French linguistics (basic terms and concepts of phonetics, phonology, morphology, syntax, lexicology, and semantics)
- Evaluate and appreciate francophone diversity.

FREN 432 : History of French. (3:3:0)

WHEN TAUGHT: Fall

RECOMMENDED: Fren 431 or concurrent enrollment.

DESCRIPTION: Introduction to the diachronic study of French beginning with its roots in Latin.

**Course Outcomes**

- Write at least one substantive research paper that effectively incorporates secondary sources.
- Demonstrate improved language ability

FREN 433 : Studies in French Linguistics. (3:3:0)

WHEN TAUGHT: Winter

RECOMMENDED: Fren 431 or concurrent enrollment.

DESCRIPTION: Advanced study of linguistic features such as phonetics and phonology, semantization, lexical development, morphology, and contrastive syntax.

**Course Outcomes**

- Demonstrate mastery the elements of advanced French linguistics.
- Write at least one substantive research paper that effectively incorporates secondary sources.
- Codify and draw conclusions from the data analyzed.

FREN 445 : Advanced Francophone Culture. (3:3:0)

OFFERED: Study Abroad only.

WHEN TAUGHT: Spring; Summer

PREREQUISITE: Fren 321.

NOTE: Research paper required.

**Course Outcomes**

- Write at least one substantive research paper that effectively incorporates secondary sources.
- Demonstrate improved language ability

FREN 452R : Studies in Period, Movement, and Theme. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: Fren 340.

DESCRIPTION: Various periods and movements (e.g., medieval, classicism, romanticism) or themes (e.g., Arthur, Faust). Topics vary.

**Course Outcomes**

- Evaluate and contextualize a particular period, movement, or theme in French or Francophone studies and justify the limitations of its definitions.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 453R : Studies in Genre. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: Fren 340.

DESCRIPTION: In-depth study of various genres (e.g., epic, novel, lyric, film) and problems of genre in French.

**Course Outcomes**

- Evaluate basic concepts of a particular genre and explain the limitations of generic categorizations.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 454R : Studies in Author. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: Fren 340.

DESCRIPTION: In-depth study of major French or Francophone authors (e.g., Rabelais, Moliere, Diderot, Balzac).

**Course Outcomes**

- Evaluate and contextualize the unique contributions of a particular author.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 455R : Studies in Literary Theory. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: Fren 340.

DESCRIPTION: In-depth study of primary texts by contemporary literary theorists (e.g., Barthes, Genette, structuralism, etc.). Language of instruction is English.

**Course Outcomes**

- Apply theoretical models to various cultural artifacts and practices
- Investigate a variety of theoretical models for the analysis of literature and cultural phenomena.
- Demonstrate improved language ability
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 456R : Francophone Studies. (3:3:0)

PREREQUISITE: Fren 340.

DESCRIPTION: Readings from major French-speaking writers from countries outside France, such as Canada, Africa, and the Caribbean.

**Course Outcomes**

- Analyze and compare the cultures and practices that create African Francophone identities.
- Analyze and interpret literary texts of the French-speaking world.

FREN 457R : Studies in French Culture. (3:3:0)

PREREQUISITE: Fren 361, 362, or 363.

DESCRIPTION: In-depth study of French historical, political, and social issues or artistic trends.

**Course Outcomes**

- Evaluate and contextualize a significant component of French or Francophone culture.
- Write at least one substantive research paper that effectively incorporates secondary sources.

FREN 490R : Individual Study in French. (1-3:ARR:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Instructor's consent.

DESCRIPTION: Faculty-supervised instruction/research to fit the individual needs of the advanced student. Terms must be established by contract and approved by chair.

**Course Outcomes**

- Formulate and express in writing critical arguments on a specialized topic reflecting an understanding of primary and secondary sources.

FREN 491R : Senior Oral Proficiency Evaluation. (0:0:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Evaluation required of all French majors during the senior year and all French-teaching majors and minors before enrolling in Fren 378.

**Course Outcomes**

- Establish an oral proficiency rating by taking the Oral Proficiency Interview.

FREN 495 : Senior Portfolio Seminar. (.5:1:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Instructor's consent.

RECOMMENDED: Fren 321, 322, 340.

DESCRIPTION: Capstone experience for French studies majors, including revision and assessment of writing.

**Course Outcomes**

- Identify connections between French degree and future plans.
- Pass OPI at Advanced Low or higher.
- Compose a professional resume with feedback from the advisement center.
- Identify and revise your best papers from French courses.

FREN 499R : Honors Thesis. (.5-6:0:0)

**Course Outcomes**

- Develop advanced skills in research techniques and academic writing and produce an acceptable Honors thesis.

## 500-Level Graduate Courses (available to advanced undergraduates)

FREN 510 : MA Practicum 1. (1:1:0)

WHEN TAUGHT: Fall

PREREQUISITE: Graduate status.

DESCRIPTION: Critical strategies and interpretative skills necessary for MA examinations.

**Course Outcomes**

- Discuss significant works of French and Francophone literature, explain their historical context, importance, influence, and distinctive features.

FREN 511 : MA Practicum 2. (1:1:0)

WHEN TAUGHT: Winter

PREREQUISITE: Graduate status.

DESCRIPTION: Critical strategies and interpretative skills necessary for MA examinations.

**Course Outcomes**

- Discuss significant works of French and Francophone literature, explain their historical context, importance, influence, and distinctive features.

FREN 512 : MA Practicum 3. (1:1:0)

WHEN TAUGHT: Fall

PREREQUISITE: Graduate status.

DESCRIPTION: Research tools and methods, the process of selecting a thesis topic, compiling a bibliography, and writing a prospectus.

**Course Outcomes**

- Generate a preparatory bibliography that will establish a scholarly foundation for the thesis.
- Generate a well-conceived, clearly-articulated, and well-documented prospectus for the MA thesis.

FREN 533 : Advanced Studies in French Linguistics. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Advanced study of linguistic features such as phonetics and phonology, semantization, lexical development, morphology, and contrastive syntax.

**Course Outcomes**

- Demonstrate mastery the elements of advanced French linguistics.
- Write at least one substantive research paper that effectively incorporates secondary sources.
- Codify and draw conclusions from the data analyzed.

FREN 599R : Academic Internship: French Language Field Experience. (3:0:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Program coordinator's consent.

DESCRIPTION: On-the-job experience in French; research paper analyzing the experience and other requirements as graduate coordinator sees fit.

**Course Outcomes**

There are no course outcomes available

## General Information

**Language Credit by Examination.** A student enrolled full-time at BYU whose native language is not Italian may receive credit by special examination for Italian for which he or she has acquired the equivalent skill or knowledge. However, this is possible only if no university credit has been given through AP, CLEP, or transfer of equivalent credit from another university or other institutions.

The Italian Language for Credit Examination is administered by the French and Italian Department twice a year: in November during fall semester and in March during winter semester. Based on enrollment, the credit examination may be administered during spring and/or summer terms. Details about this examination will be given by the student's Ital 321 teacher.

*Returned missionaries from Italy can test out of:*

Ital 101, 102, 201, 211R, and 311R (16 hours)

**Note 1:** The above five classes are *not* part of the Italian minor. The first class for the Italian minor is Ital 321.

**Note 2:** Ital 340 fulfills the GE Foreign Language option. Ital 321 does not.

Eligible students can take the exam if they are enrolled or have successfully completed Ital 321.

**Accelerated Program, Beginning:** The department offers an accelerated course in beginning Italian (101 and 102) every fall and winter semester. These courses are offered on the term.

**Foreign Language Student Residence.** In addition to BYU's spring or summer term in Italy, intensive "live-in" experience is available based on enrollment in the Foreign Language Student Residence. Besides taking regular courses in the department, students participate in lectures, discussions, films, and related extracurricular activities under the supervision of native Italian head residents. Vital to the success of the program is the 24-hour *Italian only* rule whereby students use the Italian language as their only means of communication while they are at home.

**Study Abroad / Internship Programs.** All students of Italian are encouraged to participate in a Study Abroad (usually offered spring term, every other year) or internship program in Italy offered year round. These programs provide excellent opportunities for developing language proficiency and understanding the rich culture of Italy.

## Program Requirements | View MAP | View Program Outcomes

1. The French and Italian Department requires a minimum of 15 major hours to be taken in residence at BYU for this degree program. These hours may also go toward BYU's 30-hour residency requirement for graduation.
2. Complete a minor (approximately 16–21 hours) or 15 hours of course work in an area approved by the major advisor. Courses must be approved before the senior year.
3. Complete the following prerequisites (or equivalent):

ITAL 101 : First-Year Italian, Part 1. (4:5:2)
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Daily development of the four language skills: understanding, speaking, reading, and writing.

**Course Outcomes**
- Become familiar with basic grammatical rules in Italian, including some verb tenses and their conjugations.
- Will understand simple sentences on familiar subjects in Italian.
- Will speak simple sentences on familiar subjects in Italian.

ITAL 102 : First-Year Italian, Part 2. (4:5:2)
WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Ital 101 or equivalent.
DESCRIPTION: Continuation of Ital 101.

**Course Outcomes**
- Become familiar with grammatical rules in Italian, especially the verb tenses and their conjugations.
- Students will understand simple sentences on familiar topics in Italian.
- Students will speak simple sentences on familiar topics in Italian.

ITAL 201 : Intermediate Italian 1. (4:5:1)
WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Ital 102 or two years of high school Italian or equivalent.
DESCRIPTION: Reading, writing, conversation, vocabulary building, and review of grammar.

**Course Outcomes**
- Students will expand their knowledge of Italian grammar by reviewing and increasing their understanding of rules and structures.
- Students will learn to handle most uncomplicated communication and social situations in Italian. Sustain a general conversation and understand longer connected discourse on topics dealing with different times and places.
- Students will develop competence consistent with the "Intermediate" range of the ACTFL Proficiency Guidelines.http://actflproficiencyguidelines2012.org/
- Students will read texts dealing with descriptions and narration, while complex structures may still interfere with understanding.

ITAL 202 : Intermediate Italian 2. (3:3:1)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: ITAL 201; or instructor's consent.
DESCRIPTION: Final course for GE Foreign Language requirement (except for returned missionaries); extensive reading in Italian literature and culture.

**Course Outcomes**
- Develop a critical approach to Italian literature through a second-year proficiency level in Italian, analyzing a selection of literary works (listed in the syllabus) within their historical and cultural context.
- Apply the fundamentals of literary interpretation to the texts we discuss.
- Improve oral and written skills in Italian, particularly reading and listening comprehension, written production, and oral expression. Linguistic expected outcome for successful students will target approximately the "Intermediate" range on the ACTFL Proficiency scale.

4. Complete the following core requirements:

ITAL 321 : Advanced Grammar. (3:3:1)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Ital 202 or equivalent.
DESCRIPTION: Intensive review of grammar; vocabulary building.

**Course Outcomes**

- Show control of Italian morphology and increase vocabulary knowledge
- Handle linguistic tasks and social situations in Italian with confidence, and communicate on topics of current public and personal interest.
- Read and comment on short stories and a short novel in Italian.
- Students will develop functional abilities consistent with the "Advanced" range of the official ACTFL Proficiency Guidelines.http://actflproficiencyguidelines2012.org/

ITAL 322 : Advanced Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Ital 321 or concurrent enrollment.
DESCRIPTION: Italian syntax and composition.

**Course Outcomes**

- Write about personal experiences, narrative and descriptions of a factual nature. Students will show some difficulty supporting points of view in written discourse.
- Show control of the morphology and the most frequently used syntactic structures, e.g., common-word order patterns, coordination, subordination. It is expected that some students will make errors in producing complex sentences.
- Students will develop functional abilities consistent with the "Advanced mid" or "Advanced high" and some "Superior" ratings of the ACTFL Proficiency Guidelines. http://actflproficiencyguidelines2012.org/

ITAL 340 : Introduction to Italian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter
RECOMMENDED: Ital 321 and 322.
DESCRIPTION: Basic literary concepts and terms coupled with readings of Italian works from various genres and periods.
NOTE: Capstone course for GE Languages of Learning requirement for returned missionaries.

**Course Outcomes**

- Read, understand, and analyze the Italian literary texts in the syllabus
- Identify the poetic devices included in the "poetry section" of the syllabus and describe their function within the texts discussed in class
- Acquire and implement research skills for the study of Italian literature in order to create two original analytical papers
- Write and speak clearly and effectively in Italian to the Advanced-level range on the ACTFL scale

5. Complete at least 3 hours of one of the following:

ITAL 326 : Italian Phonetics and Pronunciation. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: ITAL 321
DESCRIPTION: General rules of pronunciation. Introduction to history of Italian language.

**Course Outcomes**

- Critically discuss how the Italian language has developed from Latin to modern Italian and distinguish between different language samples, from archaic to the most recent.
- Apply phonetics to improve pronunciation. Transcribe words and paragraphs into the International Phonetic Alphabet.

ITAL 399R : Academic Internship: Italian Language Field Experience. (.5-6:0:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Program coordinator's consent.
DESCRIPTION: On-the-job experience in Italian.

**Course Outcomes**

- Articulate an analytical knowledge of the foreign culture and of its people, as related specifically to the working field(s) of their chosen internship(s).
- Describe the active role of the LDS Church in Italy, by comparing and contrasting it with other local religious faiths, specifically observing the cultural variations in religious expression(s).
- Demonstrate achieved improvement in language proficiency, as assessed by pre-departure and post-internship tests.

6. Complete six courses from the following:

BUS M 596R : Business Language. (3:3:0)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: For experienced speakers of the language being taught. Emphasizes business concepts; practice and case study including conversation, reading,and presenting, while enriching business vocabulary.

**Course Outcomes**

No outcomes are available at this time.

ITAL 317 : (Fren-Ital) French and Italian Cinema. (3:3:2)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Background for understanding and appreciating the best of motion picture art in France and Italy. Includes components of critical theory essential for analyzing film. Language of instruction is English; no knowledge of French or Italian required.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Identify major filmmakers, and cinematic movements in the history of French and Italian cinema, with particular attention to the socio-historical situations that engendered creation.
- Explore the essential aspects of cinema as an artistic medium and master the technical and critical terminology necessary to intelligently discuss the creative process.
- Develop critical skills for aesthetic judgment in applying acquired techincal knowledge to the films of individual filmmakers from these two traditions.
- Analyze cinema as an art form and "read" individual films in terms of the specificity of an artistic, authorial message.

ITAL 420 : Italian Civilization from the Beginning to 1600. (3:3:0)

WHEN TAUGHT: Winter

RECOMMENDED: Ital 340.

DESCRIPTION: Survey of history, music, architecture, literature, and arts that shaped the Italian culture and civilization from the beginning through the Renaissance.

NOTE: Fulfills GE Arts elective.

**Course Outcomes**

- Become familiar with the major intellectual and artistic traditions of Italy from the Etruscan period to the Renaissance by identifying the chronology and main characteristics of each period listed in the syllabus.
- Apply vocabulary, grammar, theory, and history to the texts, music, artifacts, and works of art listed in the syllabus to discover, interpret, and evaluate multiple meanings.
- Develop critical skills and informed aesthetic judgment to discuss and analyze the music, architecture, and works of art listed in the syllabus, paying particular attention to their historical or social setting and their place in shaping culture.
- Locate and evaluate resources relevant to course assignments and apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations, and communicate findings coherently both orally and in writing).

ITAL 421 : Italian Civilization from 1600 to the Modern Era. (3:3:0)

WHEN TAUGHT: Winter

RECOMMENDED: Ital 340.

DESCRIPTION: Survey of institutions, fine arts, and great writers that shaped the history of Italy from the Baroque period to the modern era.

NOTE: Fulfills GE Arts elective.

**Course Outcomes**

- Become familiar with the major intellectual and artistic traditions of Italy from the Baroque Period to modern times by identifying the chronology and main characteristics of each period listed in the syllabus.
- Apply critical concepts, theory, and history to the texts, music, artifacts, and works of art listed in the syllabus to discover, interpret, and evaluate their multiple meanings.
- Develop critical skills and informed aesthetic judgment to discuss and analyze the music, architecture, and works of art listed in the syllabus, paying particular attention to their historical or social setting and their place in shaping culture.
- Locate and evaluate resources relevant to course assignments and apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations), and communicate findings coherently both orally and in writing).

ITAL 441 : Italian Literature of the Late Middle Ages and Renaissance. (3:3:0)

PREREQUISITE: ITAL 340

**Course Outcomes**

- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus. Successful students will place at least at the “Advanced Low” level (ACTFL scale) in speaking, listening, writing, and reading in Italian. For the written expression, successful students will visit the Italian Writing Lab throughout the semester.
- Locate and evaluate primary and secondary sources on a specialized topic. Successful students will be able to complete academic research in the library and/or online, and demonstrate knowledge of appropriate bibliographic literary databases, such as the MLA’s. Moreover, students will be throughly familiar with the MLA 7th style for their writing assignments.
- Articulate and defend their comments in Italian, in research papers. Successful students will be able to critically comment orally and in writing on any of the literary pieces treated during in this course. They will be able to read, understand and analyze all the Italian literary selections listed in this syllabus. Successful students will be prepared to analyze and critique the main literary currents and authors of Italy’s late Middle Ages and the Renaissance.

ITAL 442 : Italian Literature of the Baroque and Enlightenment Periods. (3:3:0)

PREREQUISITE: ITAL 340

**Course Outcomes**

- Read, understand, and analyze all Italian literature selections listed in the syllabus.
- By the end of the semester, successful students will have written a critical and analytical paper on a topic of their choice, incorporating existing peer-reviewed research and adding their own assessment and originalideas to the discourse.
- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus. Successful students will place at the “Advanced” level in speaking, listening, writing, and reading on the ACTFL Proficiency scale.

ITAL 443 : Italian Literature of the Romantic Period. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: ITAL 340

**Course Outcomes**

- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus. Successful students will place at least at the “Advanced Low” level (ACTFL scale) in speaking, listening, writing, and reading in Italian. For the written expression, successful students will visit the Italian Writing Lab throughout the semester.
- Locate and evaluate primary and secondary sources on a specialized topic. Successful students will be able to complete academic research in the library and/or online, and demonstrate knowledge of appropriate bibliographic literary databases, such as the MLA’s. Moreover, students will be throughly familiar with the MLA 7th style for their writing assignments.
- Articulate and defend their comments in Italian, in research papers. Successful students will be able to critically comment orally and in writing on any of the literary pieces treated during in this course. They will be able to read, understand and analyze all the Italian literary selections listed in this syllabus. They will analyze and critique the three main lines of Italian Romanticism: political, religious, and existential/philosophical.

ITAL 444 : Italian Literature of the Twentieth Century. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: ITAL 340

**Course Outcomes**

- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus. Successful students will place at least at the “Advanced Low” level (ACTFL scale) in speaking, listening, writing, and reading in Italian. For the written expression, successful students will visit the Italian Writing Lab throughout the semester.
- Locate and evaluate primary and secondary sources on a specialized topic. Successful students will be able to complete academic research in the library and/or online, demonstrate knowledge of appropriate bibliographic literary databases, such as the MLA’s, and properly use the most up-to-date MLA style for writing assignments.
- Articulate and defend their comments in Italian, in research papers. Successful students will be able to critically comment orally and in writing on any of the literary pieces treated during in this course. They will be able to read, understand and analyze all the Italian literary selections listed in this syllabus. Successful students will be prepared to analyze and critique the main literary currents and authors of Italy’s 20th and 21st Centuries.

ITAL 460 : Dante's *Divine Comedy*. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: ITAL 340

DESCRIPTION: Intensive examination of Dante's major opus.

**Course Outcomes**

- By the end of this semester, successful students will be able to discuss any of the cantos listed in this syllabus from a linguistic, theological, historical and critical point of view.
- By the end of the semester, successful students will have written a critical and analytical paper, incorporating existing peer-reviewed research on their topic and adding their own assessment and original ideas to the discourse. Their written linguistic ability will place in the "Advanced Low" (ACTFL scale) level, with the help of the Italian Writing Lab tutor.
- Successful students will be fully familiar with MLA 7th style, and with the MLA bibliographical database.

ITAL 495R : Senior Seminar in Italian. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ITAL 340

DESCRIPTION: In-depth study of a limited area of literature, culture, or criticism; content varies; requires research and writing.

**Course Outcomes**

- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus.Successful students will place at least at the "Advanced Low" level in Italian speaking, listening, writing, and reading on the ACTFL Proficiency scale
- Locate and evaluate primary and secondary sources on a specialized topic.
- Articulate and defend an analytical research paper.
- Acquire basic skills for reading and transcribing manuscript documents written in Italian from the Early Modern period.

7. Complete the following and have an oral proficiency interview (OPI) during the senior year. The rating will be recorded on the student's transcript. The desired minimum OPI rating is in the *advanced* range.
   ITAL 491 : Senior Oral Proficiency Evaluation and Senior Portfolio. (.5:0:0)
   WHEN TAUGHT: Fall; Winter
   NOTE: Should be completed the semester of graduation.

**Course Outcomes**

- Establish an oral proficiency rating by taking the Oral Proficiency Interview.
- Identify and revise your best papers from Italian courses.
- Write a reflection paper on the experience of graduating in Italian and the future implications on your life and career.

*Hours include courses that may fulfill university core requirements.

## Program Requirements | View MAP | View Program Outcomes

1. Students must complete the requirements for a primary major in another field.
2. The French and Italian Department requires a minimum of 15 major hours to be taken in residence at BYU for this degree program. These hours may also go toward BYU's 30-hour residency requirement for graduation.
3. Complete the following prerequisites (or equivalent):

ITAL 101 : First-Year Italian, Part 1. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Daily development of the four language skills: understanding, speaking, reading, and writing.

**Course Outcomes**
- Become familiar with basic grammatical rules in Italian, including some verb tenses and their conjugations.
- Will understand simple sentences on familiar subjects in Italian.
- Will speak simple sentences on familiar subjects in Italian.

ITAL 102 : First-Year Italian, Part 2. (4:5:2)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: Ital 101 or equivalent.

DESCRIPTION: Continuation of Ital 101.

**Course Outcomes**
- Become familiar with grammatical rules in Italian, especially the verb tenses and their conjugations.
- Students will understand simple sentences on familiar topics in Italian.
- Students will speak simple sentences on familiar topics in Italian.

ITAL 201 : Intermediate Italian 1. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Ital 102 or two years of high school Italian or equivalent.

DESCRIPTION: Reading, writing, conversation, vocabulary building, and review of grammar.

**Course Outcomes**
- Students will expand their knowledge of Italian grammar by reviewing and increasing their understanding of rules and structures.
- Students will learn to handle most uncomplicated communication and social situations in Italian. Sustain a general conversation and understand longer connected discourse on topics dealing with different times and places.
- Students will develop competence consistent with the "Intermediate" range of the ACTFL Proficiency Guidelines.http://actflproficiencyguidelines2012.org/
- Students will read texts dealing with descriptions and narration, while complex structures may still interfere with understanding.

ITAL 202 : Intermediate Italian 2. (3:3:1)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ITAL 201; or instructor's consent.

DESCRIPTION: Final course for GE Foreign Language requirement (except for returned missionaries); extensive reading in Italian literature and culture.

**Course Outcomes**
- Develop a critical approach to Italian literature through a second-year proficiency level in Italian, analyzing a selection of literary works (listed in the syllabus) within their historical and cultural context.
- Apply the fundamentals of literary interpretation to the texts we discuss.
- Improve oral and written skills in Italian, particularly reading and listening comprehension, written production, and oral expression. Linguistic expected outcome for successful students will target approximately the "Intermediate" range on the ACTFL Proficiency scale.

4. Complete the following core requirements:

ITAL 321 : Advanced Grammar. (3:3:1)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Ital 202 or equivalent.
DESCRIPTION: Intensive review of grammar; vocabulary building.

**Course Outcomes**

- Show control of Italian morphology and increase vocabulary knowledge
- Handle linguistic tasks and social situations in Italian with confidence, and communicate on topics of current public and personal interest.
- Read and comment on short stories and a short novel in Italian.
- Students will develop functional abilities consistent with the "Advanced" range of the official ACTFL Proficiency Guidelines.http://actflproficiencyguidelines2012.org/

ITAL 322 : Advanced Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Ital 321 or concurrent enrollment.
DESCRIPTION: Italian syntax and composition.

**Course Outcomes**

- Write about personal experiences, narrative and descriptions of a factual nature. Students will show some difficulty supporting points of view in written discourse.
- Show control of the morphology and the most frequently used syntactic structures, e.g., common-word order patterns, coordination, subordination. It is expected that some students will make errors in producing complex sentences.
- Students will develop functional abilities consistent with the "Advanced mid" or "Advanced high" and some "Superior" ratings of the ACTFL Proficiency Guidelines. http://actflproficiencyguidelines2012.org/

ITAL 326 : Italian Phonetics and Pronunciation. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: ITAL 321
DESCRIPTION: General rules of pronunciation. Introduction to history of Italian language.

**Course Outcomes**

- Critically discuss how the Italian language has developed from Latin to modern Italian and distinguish between different language samples, from archaic to the most recent.
- Apply phonetics to improve pronunciation. Transcribe words and paragraphs into the International Phonetic Alphabet.

ITAL 340 : Introduction to Italian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter
RECOMMENDED: Ital 321 and 322.
DESCRIPTION: Basic literary concepts and terms coupled with readings of Italian works from various genres and periods.
NOTE: Capstone course for GE Languages of Learning requirement for returned missionaries.

**Course Outcomes**

- Read, understand, and analyze the Italian literary texts in the syllabus
- Identify the poetic devices included in the "poetry section" of the syllabus and describe their function within the texts discussed in class
- Acquire and implement research skills for the study of Italian literature in order to create two original analytical papers
- Write and speak clearly and effectively in Italian to the Advanced-level range on the ACTFL scale

5. Complete 18 hours of upper-division (300-level and above) electives from the following:

BUS M 596R : Business Language. (3:3:0)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: For experienced speakers of the language being taught. Emphasizes business concepts; practice and case study including conversation, reading,and presenting, while enriching business vocabulary.

**Course Outcomes**

No outcomes are available at this time.

ITAL 317 : (Fren-Ital) French and Italian Cinema. (3:3:2)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: Background for understanding and appreciating the best of motion picture art in France and Italy. Includes components of critical theory essential for analyzing film. Language of instruction is English; no knowledge of French or Italian required.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Identify major filmmakers, and cinematic movements in the history of French and Italian cinema, with particular attention to the socio-historical situations that engendered creation.

- Explore the essential aspects of cinema as an artistic medium and master the technical and critical terminology necessary to intelligently discuss the creative process.
- Develop critical skills for aesthetic judgment in applying acquired techincal knowledge to the films of individual filmmakers from these two traditions.
- Analyze cinema as an art form and "read" individual films in terms of the specificity of an artistic, authorial message.

ITAL 420 : Italian Civilization from the Beginning to 1600. (3:3:0)

WHEN TAUGHT: Winter
RECOMMENDED: Ital 340.
DESCRIPTION: Survey of history, music, architecture, literature, and arts that shaped the Italian culture and civilization from the beginning through the Renaissance.
NOTE: Fulfills GE Arts elective.

**Course Outcomes**

- Become familiar with the major intellectual and artistic traditions of Italy from the Etruscan period to the Renaissance by identifying the chronology and main characteristics of each period listed in the syllabus.
- Apply vocabulary, grammar, theory, and history to the texts, music, artifacts, and works of art listed in the syllabus to discover, interpret, and evaluate multiple meanings.
- Develop critical skills and informed aesthetic judgment to discuss and analyze the music, architecture, and works of art listed in the syllabus, paying particular attention to their historical or social setting and their place in shaping culture.
- Locate and evaluate resources relevant to course assignments and apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations, and communicate findings coherently both orally and in writing).

ITAL 421 : Italian Civilization from 1600 to the Modern Era. (3:3:0)

WHEN TAUGHT: Winter
RECOMMENDED: Ital 340.
DESCRIPTION: Survey of institutions, fine arts, and great writers that shaped the history of Italy from the Baroque period to the modern era.
NOTE: Fulfills GE Arts elective.

**Course Outcomes**

- Become familiar with the major intellectual and artistic traditions of Italy from the Baroque Period to modern times by identifying the chronology and main characteristics of each period listed in the syllabus.
- Apply critical concepts, theory, and history to the texts, music, artifacts, and works of art listed in the syllabus to discover, interpret, and evaluate their multiple meanings.
- Develop critical skills and informed aesthetic judgment to discuss and analyze the music, architecture, and works of art listed in the syllabus, paying particular attention to their historical or social setting and their place in shaping culture.
- Locate and evaluate resources relevant to course assignments and apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations), and communicate findings coherently both orally and in writing).

ITAL 441 : Italian Literature of the Late Middle Ages and Renaissance. (3:3:0)

PREREQUISITE: ITAL 340

**Course Outcomes**

- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus. Successful students will place at least at the “Advanced Low” level (ACTFL scale) in speaking, listening, writing, and reading in Italian. For the written expression, successful students will visit the Italian Writing Lab throughout the semester.
- Locate and evaluate primary and secondary sources on a specialized topic. Successful students will be able to complete academic research in the library and/or online, and demonstrate knowledge of appropriate bibliographic literary databases, such as the MLA’s. Moreover, students will be throughly familiar with the MLA 7th style for their writing assignments.
- Articulate and defend their comments in Italian, in research papers. Successful students will be able to critically comment orally and in writing on any of the literary pieces treated during in this course. They will be able to read, understand and analyze all the Italian literary selections listed in this syllabus. Successful students will be prepared to analyze and critique the main literary currents and authors of Italy’s late Middle Ages and the Renaissance.

ITAL 442 : Italian Literature of the Baroque and Enlightenment Periods. (3:3:0)

PREREQUISITE: ITAL 340

**Course Outcomes**

- Read, understand, and analyze all Italian literature selections listed in the syllabus.
- By the end of the semester, successful students will have written a critical and analytical paper on a topic of their choice, incorporating existing peer-reviewed research and adding their own assessment and originalideas to the discourse.
- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus. Successful students will place at the “Advanced” level in speaking, listening, writing, and reading on the ACTFL Proficiency scale.

ITAL 443 : Italian Literature of the Romantic Period. (3:3:0)

WHEN TAUGHT: Fall
PREREQUISITE: ITAL 340

**Course Outcomes**

- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus. Successful students will place at least at the "Advanced Low" level (ACTFL scale) in speaking, listening, writing, and reading in Italian. For the written expression, successful students will visit the Italian Writing Lab throughout the semester.
- Locate and evaluate primary and secondary sources on a specialized topic. Successful students will be able to complete academic research in the library and/or online, and demonstrate knowledge of appropriate bibliographic literary databases, such as the MLA's. Moreover, students will be throughly familiar with the MLA 7th style for their writing assignments.
- Articulate and defend their comments in Italian, in research papers. Successful students will be able to critically comment orally and in writing on any of the literary pieces treated during in this course. They will be able to read, understand and analyze all the Italian literary selections listed in this syllabus. They will analyze and critique the three main lines of Italian Romanticism: political, religious, and existential/philosophical.

ITAL 444 : Italian Literature of the Twentieth Century. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: ITAL 340

**Course Outcomes**

- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus. Successful students will place at least at the "Advanced Low" level (ACTFL scale) in speaking, listening, writing, and reading in Italian. For the written expression, successful students will visit the Italian Writing Lab throughout the semester.
- Locate and evaluate primary and secondary sources on a specialized topic. Successful students will be able to complete academic research in the library and/or online, demonstrate knowledge of appropriate bibliographic literary databases, such as the MLA's, and properly use the most up-to-date MLA style for writing assignments.
- Articulate and defend their comments in Italian, in research papers. ITAL 322 : Advanced Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Ital 321 or concurrent enrollment.
DESCRIPTION: Italian syntax and composition.

**Course Outcomes**

- Write about personal experiences, narrative and descriptions of a factual nature. Students will show some difficulty supporting points of view in written discourse.
- Show control of the morphology and the most frequently used syntactic structures, e.g., common-word order patterns, coordination, subordination. It is expected that some students will make errors in producing complex sentences.
- Students will develop functional abilities consistent with the "Advanced mid" or "Advanced high" and some "Superior" ratings of the ACTFL Proficiency Guidelines. http://actflproficiencyguidelines2012.org/

ITAL 340 : Introduction to Italian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter
RECOMMENDED: Ital 321 and 322.
DESCRIPTION: Basic literary concepts and terms coupled with readings of Italian works from various genres and periods.
NOTE: Capstone course for GE Languages of Learning requirement for returned missionaries.

**Course Outcomes**

- Read, understand, and analyze the Italian literary texts in the syllabus
- Identify the poetic devices included in the "poetry section" of the syllabus and describe their function within the texts discussed in class
- Acquire and implement research skills for the study of Italian literature in order to create two original analytical papers
- Write and speak clearly and effectively in Italian to the Advanced-level range on the ACTFL scale

4. Complete at least 3 hours of one of the following:

ITAL 326 : Italian Phonetics and Pronunciation. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: ITAL 321
DESCRIPTION: General rules of pronunciation. Introduction to history of Italian language.

**Course Outcomes**

- Critically discuss how the Italian language has developed from Latin to modern Italian and distinguish between different language samples, from archaic to the most recent.
- Apply phonetics to improve pronunciation. Transcribe words and paragraphs into the International Phonetic Alphabet.

ITAL 399R : Academic Internship: Italian Language Field Experience. (.5-6:0:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Program coordinator's consent.
DESCRIPTION: On-the-job experience in Italian.

**Course Outcomes**

- Articulate an analytical knowledge of the foreign culture and of its people, as related specifically to the working field(s) of their chosen internship(s).
- Describe the active role of the LDS Church in Italy, by comparing and contrasting it with other local religious faiths, specifically observing the cultural variations in religious expression(s).
- Demonstrate achieved improvement in language proficiency, as assessed by pre-departure and post-internship tests.

5. Complete two courses from the following:

BUS M 596R : Business Language. (3:3:0)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: For experienced speakers of the language being taught. Emphasizes business concepts; practice and case study including conversation, reading,and presenting, while enriching business vocabulary.

**Course Outcomes**

No outcomes are available at this time.

ITAL 420 : Italian Civilization from the Beginning to 1600. (3:3:0)

WHEN TAUGHT: Winter

RECOMMENDED: Ital 340.

DESCRIPTION: Survey of history, music, architecture, literature, and arts that shaped the Italian culture and civilization from the beginning through the Renaissance.

NOTE: Fulfills GE Arts elective.

**Course Outcomes**

- Become familiar with the major intellectual and artistic traditions of Italy from the Etruscan period to the Renaissance by identifying the chronology and main characteristics of each period listed in the syllabus.
- Apply vocabulary, grammar, theory, and history to the texts, music, artifacts, and works of art listed in the syllabus to discover, interpret, and evaluate multiple meanings.
- Develop critical skills and informed aesthetic judgment to discuss and analyze the music, architecture, and works of art listed in the syllabus, paying particular attention to their historical or social setting and their place in shaping culture.
- Locate and evaluate resources relevant to course assignments and apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations, and communicate findings coherently both orally and in writing).

ITAL 421 : Italian Civilization from 1600 to the Modern Era. (3:3:0)

WHEN TAUGHT: Winter

RECOMMENDED: Ital 340.

DESCRIPTION: Survey of institutions, fine arts, and great writers that shaped the history of Italy from the Baroque period to the modern era.

NOTE: Fulfills GE Arts elective.

**Course Outcomes**

- Become familiar with the major intellectual and artistic traditions of Italy from the Baroque Period to modern times by identifying the chronology and main characteristics of each period listed in the syllabus.

Show All Course Descriptions
Hide All Course Descriptions

*This Language Certificate program is administered by the Center for Language Studies (3086 JFSB), http://languagecertificate.byu.edu.*

Any matriculated (degree-seeking) BYU student who meets the proficiency and course requirements may earn the Italian Language Certificate. The proficiency requirement is met through the nationally recognized ACTFL Oral and Writing Proficiency Exams. Qualifying students will be awarded a certificate on one of three levels based on the following:

1. Advanced Certificate: An ACTFL "Advanced" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
2. Mastery Certificate: An ACTFL "Advanced High" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
3. Professional Certificate: An ACTFL "Superior" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.

## Required Courses:

**Note:** Students who have completed all of the coursework required for a language major or a language minor will also have satisfied the coursework requirement for the language certificate.

1. Language:

ITAL 321 : Advanced Grammar. (3:3:1)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Ital 202 or equivalent.
DESCRIPTION: Intensive review of grammar; vocabulary building.

**Course Outcomes**

- Show control of Italian morphology and increase vocabulary knowledge
- Handle linguistic tasks and social situations in Italian with confidence, and communicate on topics of current public and personal interest.
- Read and comment on short stories and a short novel in Italian.
- Students will develop functional abilities consistent with the "Advanced" range of the official ACTFL Proficiency Guidelines.http://actflproficiencyguidelines2012.org/

2. Civilization - complete one course from the following:

ITAL 420 : Italian Civilization from the Beginning to 1600. (3:3:0)

WHEN TAUGHT: Winter
RECOMMENDED: Ital 340.
DESCRIPTION: Survey of history, music, architecture, literature, and arts that shaped the Italian culture and civilization from the beginning through the Renaissance.
NOTE: Fulfills GE Arts elective.

**Course Outcomes**

- Become familiar with the major intellectual and artistic traditions of Italy from the Etruscan period to the Renaissance by identifying the chronology and main characteristics of each period listed in the syllabus.
- Apply vocabulary, grammar, theory, and history to the texts, music, artifacts, and works of art listed in the syllabus to discover, interpret, and evaluate multiple meanings.
- Develop critical skills and informed aesthetic judgment to discuss and analyze the music, architecture, and works of art listed in the syllabus, paying particular attention to their historical or social setting and their place in shaping culture.
- Locate and evaluate resources relevant to course assignments and apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations, and communicate findings coherently both orally and in writing).

ITAL 421 : Italian Civilization from 1600 to the Modern Era. (3:3:0)

WHEN TAUGHT: Winter
RECOMMENDED: Ital 340.
DESCRIPTION: Survey of institutions, fine arts, and great writers that shaped the history of Italy from the Baroque period to the modern era.
NOTE: Fulfills GE Arts elective.

**Course Outcomes**

- Become familiar with the major intellectual and artistic traditions of Italy from the Baroque Period to

modern times by identifying the chronology and main characteristics of each period listed in the syllabus.
- Apply critical concepts, theory, and history to the texts, music, artifacts, and works of art listed in the syllabus to discover, interpret, and evaluate their multiple meanings.
- Develop critical skills and informed aesthetic judgment to discuss and analyze the music, architecture, and works of art listed in the syllabus, paying particular attention to their historical or social setting and their place in shaping culture.
- Locate and evaluate resources relevant to course assignments and apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations), and communicate findings coherently both orally and in writing).

3. Literature:

ITAL 340 : Introduction to Italian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter

RECOMMENDED: Ital 321 and 322.

DESCRIPTION: Basic literary concepts and terms coupled with readings of Italian works from various genres and periods.

NOTE: Capstone course for GE Languages of Learning requirement for returned missionaries.

**Course Outcomes**

- Read, understand, and analyze the Italian literary texts in the syllabus
- Identify the poetic devices included in the "poetry section" of the syllabus and describe their function within the texts discussed in class
- Acquire and implement research skills for the study of Italian literature in order to create two original analytical papers
- Write and speak clearly and effectively in Italian to the Advanced-level range on the ACTFL scale

Students who successfully complete a certificate will receive an official document verifying their level of achievement. The certificate will be listed on the university transcript.

## Undergraduate Courses

### 100-Level Courses

ITAL 101 : First-Year Italian, Part 1. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Daily development of the four language skills: understanding, speaking, reading, and writing.

**Course Outcomes**

- Become familiar with basic grammatical rules in Italian, including some verb tenses and their conjugations.
- Will understand simple sentences on familiar subjects in Italian.
- Will speak simple sentences on familiar subjects in Italian.

ITAL 102 : First-Year Italian, Part 2. (4:5:2)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: Ital 101 or equivalent.

DESCRIPTION: Continuation of Ital 101.

**Course Outcomes**

- Become familiar with grammatical rules in Italian, especially the verb tenses and their conjugations.
- Students will understand simple sentences on familiar topics in Italian.
- Students will speak simple sentences on familiar topics in Italian.

### 200-Level Courses

ITAL 201 : Intermediate Italian 1. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Ital 102 or two years of high school Italian or equivalent.

DESCRIPTION: Reading, writing, conversation, vocabulary building, and review of grammar.

**Course Outcomes**

- Students will expand their knowledge of Italian grammar by reviewing and increasing their understanding of rules and structures.
- Students will learn to handle most uncomplicated communication and social situations in Italian. Sustain a general conversation and understand longer connected discourse on topics dealing with different times and places.
- Students will develop competence consistent with the "Intermediate" range of the ACTFL Proficiency Guidelines.http://actflproficiencyguidelines2012.org/
- Students will read texts dealing with descriptions and narration, while complex structures may still interfere with understanding.

ITAL 202 : Intermediate Italian 2. (3:3:1)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ITAL 201; or instructor's consent.

DESCRIPTION: Final course for GE Foreign Language requirement (except for returned missionaries); extensive reading in Italian literature and culture.

**Course Outcomes**

- Develop a critical approach to Italian literature through a second-year proficiency level in Italian, analyzing a selection of literary works (listed in the syllabus) within their historical and cultural context.
- Apply the fundamentals of literary interpretation to the texts we discuss.
- Improve oral and written skills in Italian, particularly reading and listening comprehension, written production, and oral expression. Linguistic expected outcome for successful students will target approximately the "Intermediate" range on the ACTFL Proficiency scale.

ITAL 211R : Second-Year Conversation. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Ital 102 or equivalent.
NOTE: May be taken concurrently with Ital 201.

**Course Outcomes**

- Students will describe and narrate in present, past and future times in the context of paragraph-level speech, and initiate and maintain conversations about autobiographical and concrete topics by asking and responding to questions and coping with gaps in knowledge.
- Speak using an appropriate variety of vocabulary related to autobiographical and concrete topics.

### 300-Level Courses

ITAL 311R : Third-Year Conversation. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Ital 211R or instructor's consent.
NOTE: May be taken concurrently with Ital 321 or 340.

**Course Outcomes**

- Students will describe and narrate in present, past and future times in the context of paragraph-level speech about autobiographical and concrete topics, current events, plots of books or movies and state opinion.
- Speak using an appropriate variety of vocabulary related to autobiographical and concrete topics as well as to current events and plots of books or movies.

ITAL 317 : (Fren-Ital) French and Italian Cinema. (3:3:2)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: Background for understanding and appreciating the best of motion picture art in France and Italy. Includes components of critical theory essential for analyzing film. Language of instruction is English; no knowledge of French or Italian required.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Identify major filmmakers, and cinematic movements in the history of French and Italian cinema, with particular attention to the socio-historical situations that engendered creation.
- Explore the essential aspects of cinema as an artistic medium and master the technical and critical terminology necessary to intelligently discuss the creative process.
- Develop critical skills for aesthetic judgment in applying acquired techincal knowledge to the films of individual filmmakers from these two traditions.
- Analyze cinema as an art form and "read" individual films in terms of the specificity of an artistic, authorial message.

ITAL 321 : Advanced Grammar. (3:3:1)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Ital 202 or equivalent.
DESCRIPTION: Intensive review of grammar; vocabulary building.

**Course Outcomes**

- Show control of Italian morphology and increase vocabulary knowledge
- Handle linguistic tasks and social situations in Italian with confidence, and communicate on topics of current public and personal interest.
- Read and comment on short stories and a short novel in Italian.
- Students will develop functional abilities consistent with the "Advanced" range of the official ACTFL Proficiency Guidelines.http://actflproficiencyguidelines2012.org/

ITAL 322 : Advanced Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Ital 321 or concurrent enrollment.
DESCRIPTION: Italian syntax and composition.

**Course Outcomes**

- Write about personal experiences, narrative and descriptions of a factual nature. Students will show some difficulty supporting points of view in written discourse.
- Show control of the morphology and the most frequently used syntactic structures, e.g., common-word order patterns, coordination, subordination. It is expected that some students will make errors in producing complex sentences.
- Students will develop functional abilities consistent with the "Advanced mid" or "Advanced high" and some "Superior" ratings of the ACTFL Proficiency Guidelines. http://actflproficiencyguidelines2012.org/

ITAL 326 : Italian Phonetics and Pronunciation. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: ITAL 321
DESCRIPTION: General rules of pronunciation. Introduction to history of Italian language.

**Course Outcomes**

- Critically discuss how the Italian language has developed from Latin to modern Italian and distinguish between different language samples, from archaic to the most recent.
- Apply phonetics to improve pronunciation. Transcribe words and paragraphs into the International Phonetic Alphabet.

ITAL 340 : Introduction to Italian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter
RECOMMENDED: Ital 321 and 322.
DESCRIPTION: Basic literary concepts and terms coupled with readings of Italian works from various genres and periods.
NOTE: Capstone course for GE Languages of Learning requirement for returned missionaries.

**Course Outcomes**

- Read, understand, and analyze the Italian literary texts in the syllabus
- Identify the poetic devices included in the "poetry section" of the syllabus and describe their function within the texts discussed in class
- Acquire and implement research skills for the study of Italian literature in order to create two original analytical papers
- Write and speak clearly and effectively in Italian to the Advanced-level range on the ACTFL scale

ITAL 399R : Academic Internship: Italian Language Field Experience. (.5-6:0:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Program coordinator's consent.
DESCRIPTION: On-the-job experience in Italian.

**Course Outcomes**

- Articulate an analytical knowledge of the foreign culture and of its people, as related specifically to the working field(s) of their chosen internship(s).
- Describe the active role of the LDS Church in Italy, by comparing and contrasting it with other local religious faiths, specifically observing the cultural variations in religious expression(s).
- Demonstrate achieved improvement in language proficiency, as assessed by pre-departure and post-internship tests.

**400-Level Courses**

ITAL 411R : Fourth-Year Conversation. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Instructor's consent or Italian 311.

**Course Outcomes**

- Initiate and maintain fluent conversations in Italian, and cope with gaps in knowledge in contexts related to concrete topics and in some professional contexts.

ITAL 420 : Italian Civilization from the Beginning to 1600. (3:3:0)

WHEN TAUGHT: Winter
RECOMMENDED: Ital 340.
DESCRIPTION: Survey of history, music, architecture, literature, and arts that shaped the Italian culture and civilization from the beginning through the Renaissance.
NOTE: Fulfills GE Arts elective.

**Course Outcomes**

- Become familiar with the major intellectual and artistic traditions of Italy from the Etruscan period to the Renaissance by identifying the chronology and main characteristics of each period listed in the syllabus.
- Apply vocabulary, grammar, theory, and history to the texts, music, artifacts, and works of art listed in the syllabus to discover, interpret, and evaluate multiple meanings.
- Develop critical skills and informed aesthetic judgment to discuss and analyze the music, architecture, and works of art listed in the syllabus, paying particular attention to their historical or social setting and their place in shaping culture.
- Locate and evaluate resources relevant to course assignments and apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations, and communicate findings coherently both orally and in writing).

ITAL 421 : Italian Civilization from 1600 to the Modern Era. (3:3:0)

WHEN TAUGHT: Winter
RECOMMENDED: Ital 340.
DESCRIPTION: Survey of institutions, fine arts, and great writers that shaped the history of Italy from the Baroque period to the modern era.
NOTE: Fulfills GE Arts elective.

**Course Outcomes**

- Become familiar with the major intellectual and artistic traditions of Italy from the Baroque Period to modern times by identifying the chronology and main characteristics of each period listed in the syllabus.
- Apply critical concepts, theory, and history to the texts, music, artifacts, and works of art listed in the syllabus to discover, interpret, and evaluate their multiple meanings.
- Develop critical skills and informed aesthetic judgment to discuss and analyze the music, architecture, and works of art listed in the syllabus, paying particular attention to their historical or social setting and their place in shaping culture.
- Locate and evaluate resources relevant to course assignments and apply appropriate methods of investigation (e.g., formulate hypotheses, make valid arguments, use evidence, cope with ambiguity, evaluate competing interpretations), and communicate findings coherently both orally and in writing).

ITAL 441 : Italian Literature of the Late Middle Ages and Renaissance. (3:3:0)

PREREQUISITE: ITAL 340

**Course Outcomes**

- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus. Successful students will place at least at the “Advanced Low” level (ACTFL scale) in speaking, listening, writing, and reading in Italian. For the written expression, successful students will visit the Italian Writing Lab throughout the semester.
- Locate and evaluate primary and secondary sources on a specialized topic. Successful students will be able to complete academic research in the library and/or online, and demonstrate knowledge of appropriate bibliographic literary databases, such as the MLA’s. Moreover, students will be throughly familiar with the MLA 7th style for their writing assignments.
- Articulate and defend their comments in Italian, in research papers. Successful students will be able to critically comment orally and in writing on any of the literary pieces treated during in this course. They will be able to read, understand and analyze all the Italian literary selections listed in this syllabus. Successful students will be prepared to analyze and critique the main literary currents and authors of Italy’s late Middle Ages and the Renaissance.

ITAL 442 : Italian Literature of the Baroque and Enlightenment Periods. (3:3:0)

PREREQUISITE: ITAL 340

**Course Outcomes**

- Read, understand, and analyze all Italian literature selections listed in the syllabus.
- By the end of the semester, successful students will have written a critical and analytical paper on a topic of their choice, incorporating existing peer-reviewed research and adding their own assessment and originalideas to the discourse.
- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus. Successful students will place at the “Advanced” level in speaking, listening, writing, and reading on the ACTFL Proficiency scale.

ITAL 443 : Italian Literature of the Romantic Period. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: ITAL 340

**Course Outcomes**

- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus. Successful students will place at least at the “Advanced Low” level (ACTFL scale) in speaking, listening, writing, and reading in Italian. For the written expression, successful students will visit the Italian Writing Lab throughout the semester.
- Locate and evaluate primary and secondary sources on a specialized topic. Successful students will be able to complete academic research in the library and/or online, and demonstrate knowledge of appropriate bibliographic literary databases, such as the MLA’s. Moreover, students will be throughly familiar with the MLA 7th style for their writing assignments.
- Articulate and defend their comments in Italian, in research papers. Successful students will be able to critically comment orally and in writing on any of the literary pieces treated during in this course. They will be able to read, understand and analyze all the Italian literary selections listed in this syllabus. They will analyze and critique the three main lines of Italian Romanticism: political, religious, and existential/philosophical.

ITAL 444 : Italian Literature of the Twentieth Century. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: ITAL 340

**Course Outcomes**

- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus. Successful students will place at least at the “Advanced Low” level (ACTFL scale) in speaking, listening, writing, and reading in Italian. For the written expression, successful students will visit the Italian Writing Lab throughout the semester.
- Locate and evaluate primary and secondary sources on a specialized topic. Successful students will be able to complete academic research in the library and/or online, demonstrate knowledge of appropriate bibliographic literary databases, such as the MLA’s, and properly use the most up-to-date MLA style for writing assignments.
- Articulate and defend their comments in Italian, in research papers. Successful students will be able to critically comment orally and in writing on any of the literary pieces treated during in this course. They will be able to read, understand and analyze all the Italian literary selections listed in this syllabus. Successful students will be prepared to analyze and critique the main literary currents and authors of Italy’s 20th and 21st Centuries.

ITAL 460 : Dante's *Divine Comedy*. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: ITAL 340

DESCRIPTION: Intensive examination of Dante's major opus.

**Course Outcomes**

- By the end of this semester, successful students will be able to discuss any of the cantos listed in this syllabus from a linguistic, theological, historical and critical point of view.
- By the end of the semester, successful students will have written a critical and analytical paper, incorporating existing peer-reviewed research on their topic and adding their own assessment and original ideas to the discourse. Their written linguistic ability will place in the "Advanced Low" (ACTFL scale) level, with the help of the Italian Writing Lab tutor.
- Successful students will be fully familiar with MLA 7th style, and with the MLA bibliographical database.

ITAL 490R : Individual Study in Italian. (.5-3:ARR:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Instructor's consent.
DESCRIPTION: Assignments to fit individual needs of the advanced student.
NOTE: Not accepted for major or minor.

**Course Outcomes**

- Formulate and express in writing critical arguments on a specialized topic reflecting an understanding of primary and secondary sources.

ITAL 491 : Senior Oral Proficiency Evaluation and Senior Portfolio. (.5:0:0)

WHEN TAUGHT: Fall; Winter
NOTE: Should be completed the semester of graduation.

**Course Outcomes**

- Establish an oral proficiency rating by taking the Oral Proficiency Interview.
- Identify and revise your best papers from Italian courses.
- Write a reflection paper on the experience of graduating in Italian and the future implications on your life and career.

ITAL 495R : Senior Seminar in Italian. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: ITAL 340
DESCRIPTION: In-depth study of a limited area of literature, culture, or criticism; content varies; requires research and writing.

**Course Outcomes**

- Formulate and express both orally and in writing critical arguments about the readings listed in the syllabus.Successful students will place at least at the "Advanced Low" level in Italian speaking, listening, writing, and reading on the ACTFL Proficiency scale
- Locate and evaluate primary and secondary sources on a specialized topic.
- Articulate and defend an analytical research paper.
- Acquire basic skills for reading and transcribing manuscript documents written in Italian from the Early Modern period.

ITAL 499R : Honors Thesis. (.5-6:0:0)

**Course Outcomes**

- Develop advanced skills in research techniques and academic writing and produce an acceptable Honors thesis.

College of Humanities Advisement Center
1175 JFSB, (801) 422-4789

## Admission to Degree Program

All degree programs in the Department of German and Russian are open enrollment. However, special limitations apply for teaching majors.

## The Discipline

Students of foreign language and literature develop fluency in another language as well as sensitivity to their own language and cultural heritage, to the contributions and diversity of other peoples, and to the advantages of an international perspective.

## Career Opportunities

Experience with the intellectual, artistic, and spiritual expressions of other cultures and of their own culture helps students qualify for advanced study at graduate and professional schools, especially in linguistics, literature, language teaching methodology, library science, humanities, business, law, and medicine. Those who accept employment on completion of the BA degree frequently serve in international business, in education, or in a government agency.

## General Information

The Department of German and Russian strongly recommends that StDev 317, a 1-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

## Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- At least 30 credit hours must be earned in residence on the BYU campus in Provo as an admitted day student
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

## Undergraduate Programs and Degrees

## General Information

1. Beginning German courses (101, 102, 201, 202) will be waived for students having comparable German training or experience, including German 330. Consult department for information about placement examinations.
2. All students will download a portfolio packet when they enroll in their first class in the German section. This portfolio will travel with the students as they progress from course to course through the degree program. It will serve as a checklist to guide them through their course of study, will record their language proficiency, and will also be a repository for all papers and creative work produced by the student in the department. The completed portfolio will be reviewed in Germ 400R in conjunction with the Senior Proficiency Exam.
3. *300-Level German Placement Test*: Before students register for Germ 301, 302, or 303, they must take the 300-Level German Placement Test. This test will determine the appropriate language course for each student. All majors and minors are required to take 302 and 303. Based upon test results, some students will be placed in Germ 301, which counts towards completion of the major or minor elective requirement, in order to strengthen their language skills before they enroll in 302 and 303.
4. A senior capstone paper is required for graduation.
5. Germ 400R is designed to help students of all levels who desire additional skill in speaking, etc.
6. In their final year, graduating seniors must register for 1 credit hour of Germ 400R in conjunction with the senior proficiency examination (offered fall and winter only). Portfolios should be completed and will be reviewed at the time of this exam.
7. Students planning graduate studies in German should begin a second foreign language.

### Language Residency Programs

1. **German-language Study Abroad (Germ 201, 202, 211R, 344, 311R; 302 or 330).** An opportunity for developing language proficiency as well as for becoming better acquainted with the history and culture of Europe. Spring and summer terms. Prerequisite: Germ 102 or equivalent.
2. **German Internship Program (Germ 211R/311R, IAS 397R; Germ 399R or IAS 399R).** The BYU German program is pleased to offer a broad range of short-term internship opportunities in German-speaking countries. Students receive individual help to find and prepare for a work experience that will improve their German-language skills and provide a meaningful context for their academic studies. Completion of Germ 202, or an approved equivalent, with at least a B+ grade is required.
3. **Foreign Language Student Residence (Germ 211R, 311R).** An opportunity to live with other students who have pledged to use only German within the house and with head residents who are native speakers of German. Enrollment in a German class in addition to 211R and 311R is required while living in the house. Prerequisite: Germ 102 or equivalent.
4. **German-Speaking LDS Mission or Other Extended German-Speaking Residency.** Advanced students enroll in Germ 330 and, if desired, complete examinations for Germ 101, 102, 201, and 4 hours of 311R.
5. **Study at a German University.** The department strongly recommends that students spend their junior year at a German university taking courses that will apply toward the major. Universities in Germany charge no tuition, so, even though living costs are generally higher, with careful planning and modest financial support, most students find they can study at "Provo parity," that is, for about the same amount as a year of study in Provo. For advice about how to enroll and what financial support is available, contact the department office.

## Program Requirements | View MAP | View Program Outcomes

1. See General Information section.
2. The German and Russian Department requires a minimum of 18 hours of upper-division major credit to be taken in residence at BYU for this degree program. These hours may also go toward BYU's 30-hour residency requirement for graduation.
3. Complete the following Level 1 courses (may be waived with equivalent experience including Germ 330):

GERM 101 : First-Year German. (4:5:1)
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Listening, speaking, reading, writing, grammar, and culture.
NOTE: For those who have had no German.

**Course Outcomes**
There are no course outcomes available

GERM 102 : First-Year German. (4:5:1)
WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: C grade or better in Germ 101 or equivalent.
DESCRIPTION: Listening, speaking, reading, writing, grammar, and culture.

**Course Outcomes**
There are no course outcomes available

4. Complete the following Level 2 courses (may be waived with equivalent experience including Germ 330):

GERM 201 : Second-Year German. (4:5:1)
WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: C grade or better in Germ 102 or equivalent.
DESCRIPTION: Reading, writing, grammar, culture, listening, and speaking.

**Course Outcomes**
There are no course outcomes available

GERM 202 : Second-Year German. (4:5:1)
WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: C grade or better in Germ 201 or equivalent.
DESCRIPTION: Culminating course for Languages of Learning requirement emphasizing culture and literature. Continued writing, grammar, listening, and speaking.
NOTE: Prerequisite to all 300- and 400-level courses. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

5. Complete three hours of one of the following (or equivalent):

GERM 211R : Intermediate Conversation. (1-5:ARR:ARR)
PREREQUISITE: Germ 102 or equivalent experience.
DESCRIPTION: Intensive vocabulary building and conversation practice. Can be fulfilled through language residency program.

**Course Outcomes**
No outcomes are available at this time.

GERM 311R : Advanced Conversation. (1-5:ARR:ARR)

PREREQUISITE: Germ 211R or equivalent experience.

NOTE: Intensive vocabulary building and conversation practice. Can be fulfilled through language residency program.

**Course Outcomes**

There are no course outcomes available

6. Complete the following Level 3 courses:

GERM 302 : Advanced German Language 1. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Germ 301 and/or an "advanced" score on the 300-Level German Placement Test (administered in Germ 202 or 330).

RECOMMENDED: Germ 301, 330 if major language exam score is "intermediate" or lower; Study Abroad in Berlin or Vienna.

DESCRIPTION: Integration of different aspects of language learning including speaking, listening, culture, writing, reading, pronunciation, vocabulary, and grammar.

NOTE: Required for German major or minor. Geared toward the "advanced" level language learner.

**Course Outcomes**

There are no course outcomes available

GERM 303 : Advanced German Language 2. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: GERM 302

RECOMMENDED: Germ 330; Study Abroad in Berlin or Vienna.

DESCRIPTION: Continuation of Germ 302. Integration of different aspects of language learning including speaking, listening, culture, writing, reading, pronunciation, vocabulary, and grammar.

NOTE: Required for German major or minor. Geared toward the "advanced" level language learner.

**Course Outcomes**

There are no course outcomes available

GERM 330 : Cultural History of German-Speaking Peoples. (3:3:1.5)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Germ 202 or equivalent experience.

DESCRIPTION: Culture, with listening, speaking, reading, writing, and grammar as secondary emphases. Includes International Cinema.

NOTE: Entry course for returned missionaries or others with equivalent German language experience. Required course for obtaining language credit by examination (Germ 101, 102, 201, 311R). Prerequisite to all 400-level courses. Culminating course for Languages of Learning requirement.

**Course Outcomes**

There are no course outcomes available

GERM 343 : Introduction to Literary Analysis. (3:3:.5)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter

RECOMMENDED: Germ 302, 303, 330, 340.

DESCRIPTION: Close reading of texts; examining various critical theories and their application to German prose, drama, poetry, and film. Preparation for 440R - 445R sequence. Includes International Cinema.

**Course Outcomes**

There are no course outcomes available

GERM 344 : Introduction to Phonetics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: GERM 330

RECOMMENDED: Germ 301, 302, 303.

DESCRIPTION: Perfecting listening and speaking skills through applying phonetics and acoustic analysis; practicing speaking and listening.

**Course Outcomes**

There are no course outcomes available

7. Complete the following or other approved advanced writing course:

GERM 340 : Writing About Literature. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall

DESCRIPTION: Methods of literary interpretation. Reading, writing, and research skills integral to the literary

analysis expected in German major or minor courses.
NOTE: Fills GE Advanced Written and Oral Communication requirement.

**Course Outcomes**
There are no course outcomes available

8. Complete the following:
   GERM 450 : History of the German Language. (3:3:0)
   WHEN TAUGHT: Fall
   PREREQUISITE: GERM 302 & GERM 303 & GERM 344
   DESCRIPTION: Linguistic survey of the German language from Indo-European to modern times, including phonology, morphology, syntax, and lexicon.

   **Course Outcomes**
   There are no course outcomes available

   GERM 460 : Structure of Modern German. (3:3:0)
   WHEN TAUGHT: Winter
   PREREQUISITE: GERM 302 & GERM 303 & GERM 344
   DESCRIPTION: Structural and socio-linguistic study of contemporary German.

   **Course Outcomes**
   There are no course outcomes available

   GERM 497R : Senior Seminar in German Language. (3:3:0)
   WHEN TAUGHT: Fall
   PREREQUISITE: Senior status.
   DESCRIPTION: Culminating senior-level course in which acquired knowledge and critical skills are brought to bear on a selected language topic. In-depth capstone paper on one aspect of topic.

   **Course Outcomes**
   There are no course outcomes available

   **Note:** Germ 497R must be a topic related to advanced German linguistics.

9. Complete eight additional hours of pro-seminars and/or courses numbered 315 or higher, 5 hours of which must be approved linguistics courses such as second language acquisition, dialectology, Middle High German, or Old Saxon.

10. Final German proficiency examination: complete the following during the last two semesters before graduation (not offered spring or summer):
    GERM 400R : Fourth-Year Proficiency Tutorial. (1-3:ARR:ARR)
    WHEN TAUGHT: Fall; Winter
    DESCRIPTION: Individualized skill building in listening, speaking, reading, writing, and grammar. Open to students of all levels. For graduating seniors, completed portfolios reviewed, and final proficiency examination administered.
    NOTE: Required for one credit in one of final two semesters for graduating seniors.

    **Course Outcomes**
    There are no course outcomes available

    (1 hour required).

    **Note:** A capstone paper will be required.

*Hours include courses that may fulfill university core requirements.

*This major is designed to prepare students to teach in public schools. In order to graduate with this major, students are required to complete Utah State Office of Education licensing requirements. To view these requirements go to http://education.byu.edu/ess/licensing.html or contact Education Student Services, 350 MCKB, (801) 422-3426.*

## Program Requirements | View MAP | View Program Outcomes

1. See General Information section.
2. The German and Russian Department requires a minimum of 18 hours of upper-division major credit to be taken in residence at BYU for this degree program. These hours may also go toward BYU's 30-hour residency requirement for graduation.
3. Grades below C- in professional education courses or content courses will not be accepted in the teaching major or teaching minor. Teacher candidates must have a cumulative 2.85 GPA in teaching major and teaching minor courses to qualify for student teaching.
4. A teaching minor in another subject is strongly recommended. Teaching opportunities in public schools may be significantly reduced without a second teaching subject that a teaching minor provides.
5. Declare the major at the Humanities Advisement Center and contact the German teaching major advisor to complete a German proficiency examination. A minimum initial rating of *intermediate - mid* is recommended.
6. Complete the following Level 1 courses (may be waived with equivalent experience including Germ 330):

GERM 101 : First-Year German. (4:5:1)
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Listening, speaking, reading, writing, grammar, and culture.
NOTE: For those who have had no German.

**Course Outcomes**
There are no course outcomes available

GERM 102 : First-Year German. (4:5:1)
WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: C grade or better in Germ 101 or equivalent.
DESCRIPTION: Listening, speaking, reading, writing, grammar, and culture.

**Course Outcomes**
There are no course outcomes available

7. Complete the following Level 2 courses (may be waived with equivalent experience including Germ 330):

GERM 201 : Second-Year German. (4:5:1)
WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: C grade or better in Germ 102 or equivalent.
DESCRIPTION: Reading, writing, grammar, culture, listening, and speaking.

**Course Outcomes**
There are no course outcomes available

GERM 202 : Second-Year German. (4:5:1)
WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: C grade or better in Germ 201 or equivalent.
DESCRIPTION: Culminating course for Languages of Learning requirement emphasizing culture and literature. Continued writing, grammar, listening, and speaking.
NOTE: Prerequisite to all 300- and 400-level courses. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

8. Complete three hours of one of the following (or equivalent):

GERM 211R : Intermediate Conversation. (1-5:ARR:ARR)

PREREQUISITE: Germ 102 or equivalent experience.

DESCRIPTION: Intensive vocabulary building and conversation practice. Can be fulfilled through language residency program.

**Course Outcomes**

No outcomes are available at this time.

GERM 311R : Advanced Conversation. (1-5:ARR:ARR)

PREREQUISITE: Germ 211R or equivalent experience.

NOTE: Intensive vocabulary building and conversation practice. Can be fulfilled through language residency program.

**Course Outcomes**

There are no course outcomes available

9. Complete the following Level 3 courses:

GERM 302 : Advanced German Language 1. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Germ 301 and/or an "advanced" score on the 300-Level German Placement Test (administered in Germ 202 or 330).

RECOMMENDED: Germ 301, 330 if major language exam score is "intermediate" or lower; Study Abroad in Berlin or Vienna.

DESCRIPTION: Integration of different aspects of language learning including speaking, listening, culture, writing, reading, pronunciation, vocabulary, and grammar.

NOTE: Required for German major or minor. Geared toward the "advanced" level language learner.

**Course Outcomes**

There are no course outcomes available

GERM 303 : Advanced German Language 2. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: GERM 302

RECOMMENDED: Germ 330; Study Abroad in Berlin or Vienna.

DESCRIPTION: Continuation of Germ 302. Integration of different aspects of language learning including speaking, listening, culture, writing, reading, pronunciation, vocabulary, and grammar.

NOTE: Required for German major or minor. Geared toward the "advanced" level language learner.

**Course Outcomes**

There are no course outcomes available

GERM 330 : Cultural History of German-Speaking Peoples. (3:3:1.5)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Germ 202 or equivalent experience.

DESCRIPTION: Culture, with listening, speaking, reading, writing, and grammar as secondary emphases. Includes International Cinema.

NOTE: Entry course for returned missionaries or others with equivalent German language experience. Required course for obtaining language credit by examination (Germ 101, 102, 201, 311R). Prerequisite to all 400-level courses. Culminating course for Languages of Learning requirement.

**Course Outcomes**

There are no course outcomes available

GERM 343 : Introduction to Literary Analysis. (3:3:.5)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter

RECOMMENDED: Germ 302, 303, 330, 340.

DESCRIPTION: Close reading of texts; examining various critical theories and their application to German prose, drama, poetry, and film. Preparation for 440R - 445R sequence. Includes International Cinema.

**Course Outcomes**

There are no course outcomes available

GERM 344 : Introduction to Phonetics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: GERM 330

RECOMMENDED: Germ 301, 302, 303.

DESCRIPTION: Perfecting listening and speaking skills through applying phonetics and acoustic analysis; practicing speaking and listening.

**Course Outcomes**

There are no course outcomes available

GERM 377 : Methods in Teaching German. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: GERM 303 & GERM 344 & FLANG 276

DESCRIPTION: Developing meaningful and engaging instruction for secondary students in German; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

**Course Outcomes**

There are no course outcomes available

GERM 378 : Practicum in Teaching German. (1:1:2)

WHEN TAUGHT: Fall

PREREQUISITE: GERM 303 & GERM 344 & FLANG 276; concurrent enrollment in Germ 377.

DESCRIPTION: Implementing meaningful and engaging instruction for secondary students in German; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

**Course Outcomes**

There are no course outcomes available

**Note:** Germ 377 must be taken concurrently with Germ 378 fall semester and prior to student teaching; however, Germ 377 and 378 may be waived for students who have taken a methods course for another language.

10. Complete the following or other approved advanced writing course:

GERM 340 : Writing About Literature. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall

DESCRIPTION: Methods of literary interpretation. Reading, writing, and research skills integral to the literary analysis expected in German major or minor courses.

NOTE: Fills GE Advanced Written and Oral Communication requirement.

**Course Outcomes**

There are no course outcomes available

11. Complete one course from the following:

GERM 450 : History of the German Language. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: GERM 302 & GERM 303 & GERM 344

DESCRIPTION: Linguistic survey of the German language from Indo-European to modern times, including phonology, morphology, syntax, and lexicon.

**Course Outcomes**

There are no course outcomes available

GERM 460 : Structure of Modern German. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: GERM 302 & GERM 303 & GERM 344

DESCRIPTION: Structural and socio-linguistic study of contemporary German.

**Course Outcomes**

There are no course outcomes available

12. Complete 10 additional hours of pro-seminars and/or courses numbered 315 or higher.

13. Complete a senior capstone paper. (The teacher work sample completed during student teaching serves as the capstone paper.)

14. Complete an ACTFL OPI exam with a minimum rating of *Advanced-Low* before applying to student teach. Contact the Center for Language Studies, 3086 JFSB, to schedule. This requirement may also be satisfied during Germ 400R.

15. Final German proficiency examination: Complete the following during the last two semesters before graduation (not offered spring or summer).

GERM 400R : Fourth-Year Proficiency Tutorial. (1-3:ARR:ARR)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Individualized skill building in listening, speaking, reading, writing, and grammar. Open to students of all levels. For graduating seniors, completed portfolios reviewed, and final proficiency examination administered.

NOTE: Required for one credit in one of final two semesters for graduating seniors.

**Course Outcomes**

There are no course outcomes available

(1 hour required).

16. Complete an ETS Praxis exam in German prior to applying for graduation and certification. Contact Education Student Services, 350 MCKB.

17. Complete the Professional Education Component:
    - Complete the following:

CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course; FBI fingerprint background clearance.

DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

**Course Outcomes**

- Demonstrate sensitivity to individuals with disabilities.
- Describe the effects of cultural, ethnic, and language diversity on the education of individuals with disabilities
- Describe the steps in the Individual Education Program (IEP) process, including Individualized Transition Plans for students aged 14-22.
- Use research-supported methods for academic instruction of individuals with disabilities including explicit instruction, learning strategies, task analysis, and active participation.
- Describe models and strategies of consultation and collaboration including co-planning and co-teaching.
- Define special education and describe the legal structure of services for individuals with disabilities, including the Individuals with Disabilities Education Act (IDEA).
- Develop a personal philosophy of special education which includes an understanding of the implications of Least Restrictive Environment as defined in IDEA.
- Demonstrate knowledge of basic classroom management theories and an understanding of teacher attitudes and behaviors that influence behavior of individuals with exceptional learning needs.
- Describe the characteristics and educational implications of students with high and low incidence disabilities
- Demonstrate ability to identify and prioritize areas of the general curriculum and provide accommodations for individuals with exceptional learning needs

FLANG 276 : Exploration of Teaching Foreign Languages. (4:2:2)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: FBI fingerprint and background clearance.

DESCRIPTION: Field-based exposure to practices, demands, and issues associated with teaching foreign languages in public secondary schools.

**Course Outcomes**

- Determine if pursuing a personal career in foreign language teaching in public secondary schools is the correct decision.
- Have a developing awareness of what foreign-language students should know and be able to do and of good foreign-language teaching practice.
- Discuss the public purposes of education, related social and political issues, and the benefits of speaking a foreign language.
- Articulate personal motivations for becoming a teacher, as well as recognize potential strengths and weaknesses as a teacher.

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for secondary education settings.

**Course Outcomes**

There are no course outcomes available

SC ED 353 : Multicultural Education. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or Phy S 276 or Engl 276R or Bio 276 or SFL 276R or HIth 276R or MthEd 276 or PETE 276R or TEE 276A or TEE 276B.

DESCRIPTION: Designing and adapting instruction for diverse learners; collaborating with families, cultures, and communities in promoting and sustaining learning.

**Course Outcomes**

- Students will examine and understand the various dimensions of cultural identity, including one's own, and apply this knowledge to their thinking and behavio through a process of reflection.
- Acknowledge the dynamics of culture and diversity in school success and teachers' teaching. This

includes recognizing and overcoming deficit thinking.
- Identify culturally and linguistically relevant pedagogy and use theoretically grounded principles to analyze why it is effective for many different types of learners.
- Interpret the historical context of diversity, discrimination, and language policies and evaluate how they impact current school practices.
- Recognize and acknowledge racism, discrimination and other forms of inquity and privilege in themselves, in others, and within institutions.
- Recognize and use a personal moral spiritual framework along with principles and concepts of social science to guide educational accomplishments for diverse learners.

SC ED 375 : Adolescent Development and Classroom Management. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Sc Ed 276R or Phy S 276 or Engl 276R or Bio 276 or SFL 276R or Hlth 276R or MthEd 276 or PETE 276R or TEE 276A or TEE 276B; or concurrent enrollment.

DESCRIPTION: Analysis of education practice and the relationship between theories and research on development, classroom management, education and the practice of teaching. Focus on adolescent development and an introduction to classroom management.

**Course Outcomes**

There are no course outcomes available

**Note:** FBI fingerprint and background clearance must be completed before enrollment in FLang 276.

- Complete 12 hours from one of the following:

GERM 476 : Secondary Student Teaching. (12:Arr.:Arr.)

WHEN TAUGHT: Winter

DESCRIPTION: Capstone, field-based, semester-long, full-time experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

**Course Outcomes**

There are no course outcomes available

GERM 496R : Academic Internship: German Teaching. (12:0:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Completion of all course work or departmental approval. Requires a major GPA of 2.85. At least a C- grade in Germ 377.

DESCRIPTION: Capstone, field-based, year-long, full-time experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

**Course Outcomes**

There are no course outcomes available

*Hours include courses that may fulfill university core requirements.

# German Language Certificate (9 hours)

Show All Course Descriptions
Hide All Course Descriptions

*This Language Certificate program is administered by the Center for Language Studies (3086 JFSB), http://languagecertificate.byu.edu.*

Any matriculated (degree-seeking) BYU student who meets the proficiency and course requirements may earn the German Language Certificate. The proficiency requirement is met through the nationally recognized ACTFL Oral and Writing Proficiency Exams. Qualifying students will be awarded a certificate on one of three levels based on the following:

1. Advanced Certificate: An ACTFL "Advanced" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
2. Mastery Certificate: An ACTFL "Advanced High" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
3. Professional Certificate: An ACTFL "Superior" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.

## Required Courses:

**Note:** Students who have completed all of the coursework required for a language major or a language minor will also have satisfied the coursework requirement for the language certificate.

1. Language - complete one course from the following:

GERM 301 : Intermediate German. (3:3:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: Germ 202 and/or a score of "Intermediate" or lower on the 300-Level German Placement Test.
RECOMMENDED: Germ 101, 102, 201, 202.
DESCRIPTION: Integration of different aspects of language learning including speaking, listening, culture, writing, reading, pronunciation, vocabulary, and grammar. Geared toward "high-intermediate" level language learner.
NOTE: Counts as an elective towards the German major or minor.

**Course Outcomes**
There are no course outcomes available

GERM 302 : Advanced German Language 1. (3:3:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: Germ 301 and/or an "advanced" score on the 300-Level German Placement Test (administered in Germ 202 or 330).
RECOMMENDED: Germ 301, 330 if major language exam score is "intermediate" or lower; Study Abroad in Berlin or Vienna.
DESCRIPTION: Integration of different aspects of language learning including speaking, listening, culture, writing, reading, pronunciation, vocabulary, and grammar.
NOTE: Required for German major or minor. Geared toward the "advanced" level language learner.

**Course Outcomes**
There are no course outcomes available

GERM 303 : Advanced German Language 2. (3:3:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: GERM 302
RECOMMENDED: Germ 330; Study Abroad in Berlin or Vienna.
DESCRIPTION: Continuation of Germ 302. Integration of different aspects of language learning including speaking, listening, culture, writing, reading, pronunciation, vocabulary, and grammar.
NOTE: Required for German major or minor. Geared toward the "advanced" level language learner.

**Course Outcomes**
There are no course outcomes available

GERM 344 : Introduction to Phonetics. (3:3:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: GERM 330
RECOMMENDED: Germ 301, 302, 303.

DESCRIPTION: Perfecting listening and speaking skills through applying phonetics and acoustic analysis; practicing speaking and listening.

**Course Outcomes**

There are no course outcomes available

2. Civilization:

GERM 330 : Cultural History of German-Speaking Peoples. (3:3:1.5)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Germ 202 or equivalent experience.

DESCRIPTION: Culture, with listening, speaking, reading, writing, and grammar as secondary emphases. Includes International Cinema.

NOTE: Entry course for returned missionaries or others with equivalent German language experience. Required course for obtaining language credit by examination (Germ 101, 102, 201, 311R). Prerequisite to all 400-level courses. Culminating course for Languages of Learning requirement.

**Course Outcomes**

There are no course outcomes available

3. Literature:

GERM 343 : Introduction to Literary Analysis. (3:3:.5)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter

RECOMMENDED: Germ 302, 303, 330, 340.

DESCRIPTION: Close reading of texts; examining various critical theories and their application to German prose, drama, poetry, and film. Preparation for 440R - 445R sequence. Includes International Cinema.

**Course Outcomes**

There are no course outcomes available

Students who successfully complete a certificate will receive an official document verifying their level of achievement. The certificate will be listed on the university transcript.

## Undergraduate Courses

### 100-Level Courses

GERM 101 : First-Year German. (4:5:1)
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Listening, speaking, reading, writing, grammar, and culture.
NOTE: For those who have had no German.

**Course Outcomes**
There are no course outcomes available

GERM 102 : First-Year German. (4:5:1)
WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: C grade or better in Germ 101 or equivalent.
DESCRIPTION: Listening, speaking, reading, writing, grammar, and culture.

**Course Outcomes**
There are no course outcomes available

GERM 115 : Pro-Seminar 1. (1:1:0)
WHEN TAUGHT: Fall; Winter
DESCRIPTION: Introduction to German cultural studies, mentored research, and professional skills development.

**Course Outcomes**
No outcomes are available at this time.

### 200-Level Courses

GERM 200R : Second-Year Proficiency Tutorial. (1-3:ARR:ARR)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: Germ 102 or equivalent.
DESCRIPTION: Individualized skill building in listening, speaking, reading, writing, and grammar.
NOTE: For students in Germ 102, 201, and 202 who require additional tutorial assistance.

**Course Outcomes**
There are no course outcomes available

GERM 201 : Second-Year German. (4:5:1)
WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: C grade or better in Germ 102 or equivalent.
DESCRIPTION: Reading, writing, grammar, culture, listening, and speaking.

**Course Outcomes**
There are no course outcomes available

GERM 202 : Second-Year German. (4:5:1)
WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: C grade or better in Germ 201 or equivalent.
DESCRIPTION: Culminating course for Languages of Learning requirement emphasizing culture and literature. Continued writing, grammar, listening, and speaking.
NOTE: Prerequisite to all 300- and 400-level courses. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

There are no course outcomes available

GERM 211R : Intermediate Conversation. (1-5:ARR:ARR)

PREREQUISITE: Germ 102 or equivalent experience.

DESCRIPTION: Intensive vocabulary building and conversation practice. Can be fulfilled through language residency program.

**Course Outcomes**

No outcomes are available at this time.

GERM 215 : Pro-Seminar 2. (1-3:Arr:0)

WHEN TAUGHT: Winter

DESCRIPTION: Introduction to mentored scholarly research in German cultural studies. How to apply for ORCA grants, Fulbright and other fellowships. Continued professional skills development.

**Course Outcomes**

No outcomes are available at this time.

GERM 217 : (Germ-Scand) German and Scandinavian Cinema. (3:3:3)

WHEN TAUGHT: Fall Odd Yrs.

RECOMMENDED: A first-year writing course.

DESCRIPTION: Background for understanding and appreciating the best of motion picture art in Germany and Scandinavia.

NOTE: Language of instruction is English; no knowledge of German or Scandinavian languages is required. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

There are no course outcomes available

**300-Level Courses**

GERM 300R : Third-Year Proficiency Tutorial. (1-3:ARR:ARR)

PREREQUISITE: Germ 202 or equivalent.

DESCRIPTION: Individualized skill building in listening, speaking, reading, writing, and grammar.

NOTE: For students in Germ 301 and higher who require additional tutorial assistance.

**Course Outcomes**

There are no course outcomes available

GERM 301 : Intermediate German. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Germ 202 and/or a score of "Intermediate" or lower on the 300-Level German Placement Test.

RECOMMENDED: Germ 101, 102, 201, 202.

DESCRIPTION: Integration of different aspects of language learning including speaking, listening, culture, writing, reading, pronunciation, vocabulary, and grammar. Geared toward "high-intermediate" level language learner.

NOTE: Counts as an elective towards the German major or minor.

**Course Outcomes**

There are no course outcomes available

GERM 302 : Advanced German Language 1. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Germ 301 and/or an "advanced" score on the 300-Level German Placement Test (administered in Germ 202 or 330).

RECOMMENDED: Germ 301, 330 if major language exam score is "intermediate" or lower; Study Abroad in Berlin or Vienna.

DESCRIPTION: Integration of different aspects of language learning including speaking, listening, culture, writing, reading, pronunciation, vocabulary, and grammar.

NOTE: Required for German major or minor. Geared toward the "advanced" level language learner.

**Course Outcomes**

There are no course outcomes available

GERM 303 : Advanced German Language 2. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: GERM 302

RECOMMENDED: Germ 330; Study Abroad in Berlin or Vienna.

DESCRIPTION: Continuation of Germ 302. Integration of different aspects of language learning including speaking, listening, culture, writing, reading, pronunciation, vocabulary, and grammar.

NOTE: Required for German major or minor. Geared toward the "advanced" level language learner.

**Course Outcomes**

There are no course outcomes available

GERM 311R : Advanced Conversation. (1-5:ARR:ARR)

PREREQUISITE: Germ 211R or equivalent experience.

NOTE: Intensive vocabulary building and conversation practice. Can be fulfilled through language residency program.

**Course Outcomes**

There are no course outcomes available

GERM 315 : Directed Research in Lit/Film/Culture 1. (1:1:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Mentored research building toward honors thesis, capstone paper, or publishable paper. Continued opportunity to work on grant and fellowship applications. Professional skills development.

**Course Outcomes**

There are no course outcomes available

GERM 316 : Directed Research in Linguistics 1. (1-3:Arr:Arr)

DESCRIPTION: Introduction to mentored scholarly research in German linguistic studies. Focus on gathering and analyzing data. Continued professional skills development.

**Course Outcomes**

There are no course outcomes available

GERM 330 : Cultural History of German-Speaking Peoples. (3:3:1.5)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Germ 202 or equivalent experience.

DESCRIPTION: Culture, with listening, speaking, reading, writing, and grammar as secondary emphases. Includes International Cinema.

NOTE: Entry course for returned missionaries or others with equivalent German language experience. Required course for obtaining language credit by examination (Germ 101, 102, 201, 311R). Prerequisite to all 400-level courses. Culminating course for Languages of Learning requirement.

**Course Outcomes**

There are no course outcomes available

GERM 340 : Writing About Literature. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall

DESCRIPTION: Methods of literary interpretation. Reading, writing, and research skills integral to the literary analysis expected in German major or minor courses.

NOTE: Fills GE Advanced Written and Oral Communication requirement.

**Course Outcomes**

There are no course outcomes available

GERM 343 : Introduction to Literary Analysis. (3:3:.5)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter

RECOMMENDED: Germ 302, 303, 330, 340.

DESCRIPTION: Close reading of texts; examining various critical theories and their application to German prose, drama, poetry, and film. Preparation for 440R - 445R sequence. Includes International Cinema.

**Course Outcomes**

There are no course outcomes available

GERM 344 : Introduction to Phonetics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: GERM 330

RECOMMENDED: Germ 301, 302, 303.

DESCRIPTION: Perfecting listening and speaking skills through applying phonetics and acoustic analysis; practicing speaking and listening.

**Course Outcomes**

There are no course outcomes available

GERM 345R : Field Studies in German. (1-6:Arr:Arr)

PREREQUISITE: Study abroad, internship, or direct enrollment only.

RECOMMENDED: Germ 102.

DESCRIPTION: Field studies to help develop mastery of study abroad specific skills such as research data gathering, ethnographic observation, interviews, as well as intensive understanding of art and architectural history, drama and musical performances, investigations of cultural differences, etc.

**Course Outcomes**

There are no course outcomes available

GERM 377 : Methods in Teaching German. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: GERM 303 & GERM 344 & FLANG 276

DESCRIPTION: Developing meaningful and engaging instruction for secondary students in German; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

**Course Outcomes**

There are no course outcomes available

GERM 378 : Practicum in Teaching German. (1:1:2)

WHEN TAUGHT: Fall

PREREQUISITE: GERM 303 & GERM 344 & FLANG 276; concurrent enrollment in Germ 377.

DESCRIPTION: Implementing meaningful and engaging instruction for secondary students in German; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

**Course Outcomes**

There are no course outcomes available

GERM 399R : Academic Internship: German Work. (.5-9:ARR:ARR)

DESCRIPTION: On-the-job ten-week summer language experience in German-speaking countries. Report required.

NOTE: Not applicable to German major or minor.

**Course Outcomes**

There are no course outcomes available

**400-Level Courses**

GERM 400R : Fourth-Year Proficiency Tutorial. (1-3:ARR:ARR)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Individualized skill building in listening, speaking, reading, writing, and grammar. Open to students of all levels. For graduating seniors, completed portfolios reviewed, and final proficiency examination administered.

NOTE: Required for one credit in one of final two semesters for graduating seniors.

**Course Outcomes**

There are no course outcomes available

GERM 415 : Directed Research in Lit/Film/Culture 2. (1:1:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Mentored research leading to completion of capstone paper, honors thesis, ORCA paper, or other publishable papers. Review of portfolio. Direction in submitting papers for publication, reading papers at conferences. Continued professional skills development, including how to apply for graduate school and completion of Fulbright and other fellowship applications.

**Course Outcomes**

There are no course outcomes available

GERM 416 : Directed Research in Linguistics 2. (1-3:Arr:Arr)

DESCRIPTION: Introduction to mentored scholarly research in German linguistic studies. Focus on conducting linguistic research and writing about the results of linguistic studies. Continued professional development skills.

**Course Outcomes**

There are no course outcomes available

GERM 440R : German Literary Periods and Movements. (1-5:Arr.:0)

RECOMMENDED: Germ 302, 303, 330, 340, 343.

DESCRIPTION: Studies linking German literature, film, and the arts within German culture or across national boundaries.

**Course Outcomes**

No outcomes are available at this time.

GERM 445R : Special Topics in German Cultural Studies. (1-5:Arr.:0)

WHEN TAUGHT: Fall

RECOMMENDED: Germ 302, 303, 330, 340, 343.

DESCRIPTION: German cultural studies courses of a non-traditional nature, as determined by the faculty.

**Course Outcomes**

There are no course outcomes available

GERM 450 : History of the German Language. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: GERM 302 & GERM 303 & GERM 344

DESCRIPTION: Linguistic survey of the German language from Indo-European to modern times, including phonology, morphology, syntax, and lexicon.

**Course Outcomes**

There are no course outcomes available

GERM 460 : Structure of Modern German. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: GERM 302 & GERM 303 & GERM 344

DESCRIPTION: Structural and socio-linguistic study of contemporary German.

**Course Outcomes**

There are no course outcomes available

GERM 476 : Secondary Student Teaching. (12:Arr.:Arr.)

WHEN TAUGHT: Winter

DESCRIPTION: Capstone, field-based, semester-long, full-time experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

**Course Outcomes**

There are no course outcomes available

GERM 490R : Special Studies in German. (.5-3:ARR:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Instructor's consent.

NOTE: Variable credit for individual or group study as approved for special circumstances. Not applicable to German major or minor.

**Course Outcomes**

There are no course outcomes available

GERM 496R : Academic Internship: German Teaching. (12:0:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Completion of all course work or departmental approval. Requires a major GPA of 2.85. At least a C- grade in Germ 377.

DESCRIPTION: Capstone, field-based, year-long, full-time experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

**Course Outcomes**

There are no course outcomes available

GERM 497R : Senior Seminar in German Language. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: Senior status.

DESCRIPTION: Culminating senior-level course in which acquired knowledge and critical skills are brought to bear on a selected language topic. In-depth capstone paper on one aspect of topic.

**Course Outcomes**

There are no course outcomes available

GERM 498R : Preparing for Professional/Graduate School. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: Junior or senior status.

DESCRIPTION: Preparation for professional schools and graduate programs. Focuses upon the rigors of the application process, developing relevant skills, adn becoming conversant with current intellectual discourses.

## General Information

**Important Note for Returned Russian-Speaking Missionaries:** Register for third-year Russian classes. Russ 330 is recommended. Russ 202 will be waived as a requirement for Russian majors and should not be taken except when remedial work is necessary and permission is obtained from the section leader. Credit for Russ 101, 102, 201, and 211 is available through a test given as part of Russ 330. Returned missionaries must complete Russ 330 and talk with the Russian section head before declaring a major.

## Program Requirements | View MAP | View Program Outcomes

1. Complete the following preparatory courses (may be waived for students with sufficient proficiency in the language):

RUSS 101 : First-Year Russian, Part 1. (5:5:1)
WHEN TAUGHT: Fall; Winter; Spring

**Course Outcomes**
There are no course outcomes available

RUSS 102 : First-Year Russian, Part 2. (5:5:1)
WHEN TAUGHT: Winter; Summer

**Course Outcomes**
There are no course outcomes available

RUSS 201 : Second-Year Russian, Part 1. (5:5:1)
WHEN TAUGHT: Fall
PREREQUISITE: Russ 102 or instructor's consent, based on prior Russian language experience.
DESCRIPTION: Grammar review and conversation.

**Course Outcomes**
There are no course outcomes available

RUSS 202 : Second-Year Russian, Part 2. (5:5:1)
WHEN TAUGHT: Winter
PREREQUISITE: Russ 201 or instructor's consent.
DESCRIPTION: Grammar review and discussion in Russian of both expository and literary readings.
NOTE: Culminating course for Languages of Learning requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

2. Complete the following major courses:

RUSS 321 : Third-Year Russian Part 1. (2:2:0)
WHEN TAUGHT: Fall; Spring
PREREQUISITE: Russ 202 or equivalent.
DESCRIPTION: Grammar and composition, case government, listening and speaking skills.

**Course Outcomes**
There are no course outcomes available

RUSS 322 : Third-Year Russian Part 2. (2:2:0)
WHEN TAUGHT: Winter; Summer
PREREQUISITE: Russ 202 or equivalent.

DESCRIPTION: Grammar and composition, case government, listening and speaking skills.

**Course Outcomes**

There are no course outcomes available

RUSS 323 : Russian Phonology and Morphology. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: RUSS 321

DESCRIPTION: Perfecting speaking and listening skills through phonetics and applied speaking and listening techniques. Better understanding and using the structures of Russian through studying morphology and historical phonology.

**Course Outcomes**

There are no course outcomes available

RUSS 330 : Cultural History of Russia. (3:3:1)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: Russ 202 or foreign residence experience.

NOTE: Required course for obtaining language credit by examination (Russ 101, 102, 201, 211R). Culminating course for Languages of Learning requirement. Includes International Cinema.

**Course Outcomes**

There are no course outcomes available

RUSS 340 : Masterpieces of the Russian Novel in English. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

DESCRIPTION: Survey of Russian novels by such authors as Pushkin, Tolstoy, Dostoevsky, and Pasternak.

**Course Outcomes**

There are no course outcomes available

RUSS 421 : Fourth-Year Russian, Part 1. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: RUSS 321 & RUSS 322 & RUSS 330

DESCRIPTION: Contemporary language and culture.

**Course Outcomes**

There are no course outcomes available

RUSS 422 : Fourth-Year Russian, Part 2. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: RUSS 321 & RUSS 322 & RUSS 330

DESCRIPTION: The structure of Russian.

**Course Outcomes**

There are no course outcomes available

RUSS 441 : Masterpieces of Russian Literature 1. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: RUSS 321 & RUSS 322 & RUSS 340

DESCRIPTION: Survey of shorter masterpieces in Russian.

**Course Outcomes**

There are no course outcomes available

RUSS 442 : Masterpieces of Russian Literature 2. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: RUSS 321 & RUSS 322 & RUSS 340

DESCRIPTION: Survey of shorter masterpieces in Russian.

**Course Outcomes**

There are no course outcomes available

RUSS 492R : Senior Seminar: Passages and Conclusions. (2:2:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: RUSS 441; or RUSS 442

DESCRIPTION: In-depth study of a limited area of literature or language. Content varies; requires research and writing.

**Course Outcomes**
There are no course outcomes available

3. Complete one course from the following:

RUSS 341 : Dostoevsky's Major Works in Translation. (3:3:0)
WHEN TAUGHT: Fall
DESCRIPTION: Survey of Dostoevsky's major works in English translation.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

RUSS 342 : Tolstoy's Major Works in Translation. (3:3:0)
WHEN TAUGHT: Winter
DESCRIPTION: Survey of Tolstoy's major works in English translation.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

RUSS 343 : Masterpieces of Russian Film. (3:3:1)
WHEN TAUGHT: Winter
PREREQUISITE: RUSS 330
DESCRIPTION: Developing listening comprehension and speaking skills through discussing Russian films. Includes International Cinema.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

4. Complete a substantial program of study that complements the student's educational and professional goals, i.e., 1) a secondary major or 2) a substantial minor or equivalent program and an internship. A variety of internship opportunities are available on campus, locally, or abroad. This program should be described and justified in a letter to the Russian section leader, and approved by the section, no later than the year before graduation.

**Note:** In addition to completing other Russian course work, it is expected that majors who have not spent an extended period in Russia will live for at least a semester in the Russian Student Foreign Language Residence *and* complete the BYU or approved equivalent Study Abroad program in Russia.

*Hours include courses that may fulfill university core requirements.

# Minor in Russian Teaching (17–32 hours*)

Show All Course Descriptions
Hide All Course Descriptions

*This minor is designed to prepare students to teach in public schools. A teaching minor may only be received by students graduating with a teaching major. In order to graduate with this minor, students are required to complete Utah State Office of Education licensing requirements. To view these requirements go to http://education.byu.edu/ess/licensing.html or contact Education Student Services, 350 MCKB, (801) 422-3426.*

**Note:** Before declaring a Russian teaching minor, candidates must consult with the section leader.

## Program Requirements

1. Register with the secretary in the department office.
2. Grades below C- in professional education courses or content courses will not be accepted in the teaching major or teaching minor. Teacher candidates must have a cumulative 2.85 GPA in teaching major and teaching minor courses to qualify for student teaching.
3. Complete the following prerequisite courses (may be waived for students with sufficient proficiency in the language):

RUSS 101 : First-Year Russian, Part 1. (5:5:1)
WHEN TAUGHT: Fall; Winter; Spring

**Course Outcomes**
There are no course outcomes available

RUSS 102 : First-Year Russian, Part 2. (5:5:1)
WHEN TAUGHT: Winter; Summer

**Course Outcomes**
There are no course outcomes available

RUSS 201 : Second-Year Russian, Part 1. (5:5:1)
WHEN TAUGHT: Fall
PREREQUISITE: Russ 102 or instructor's consent, based on prior Russian language experience.
DESCRIPTION: Grammar review and conversation.

**Course Outcomes**
There are no course outcomes available

4. Complete the following:

RUSS 202 : Second-Year Russian, Part 2. (5:5:1)
WHEN TAUGHT: Winter
PREREQUISITE: Russ 201 or instructor's consent.
DESCRIPTION: Grammar review and discussion in Russian of both expository and literary readings.
NOTE: Culminating course for Languages of Learning requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

(see Note for Returned Russian-speaking Missionaries)
If 202 was waived, take 441 or 442.

RUSS 330 : Cultural History of Russia. (3:3:1)
WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Russ 202 or foreign residence experience.
NOTE: Required course for obtaining language credit by examination (Russ 101, 102, 201, 211R). Culminating course for Languages of Learning requirement. Includes International Cinema.

**Course Outcomes**

There are no course outcomes available

RUSS 340 : Masterpieces of the Russian Novel in English. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

DESCRIPTION: Survey of Russian novels by such authors as Pushkin, Tolstoy, Dostoevsky, and Pasternak.

**Course Outcomes**

There are no course outcomes available

5. Complete one course from the following:

RUSS 321 : Third-Year Russian Part 1. (2:2:0)

WHEN TAUGHT: Fall; Spring

PREREQUISITE: Russ 202 or equivalent.

DESCRIPTION: Grammar and composition, case government, listening and speaking skills.

**Course Outcomes**

There are no course outcomes available

RUSS 322 : Third-Year Russian Part 2. (2:2:0)

WHEN TAUGHT: Winter; Summer

PREREQUISITE: Russ 202 or equivalent.

DESCRIPTION: Grammar and composition, case government, listening and speaking skills.

**Course Outcomes**

There are no course outcomes available

6. Complete a foreign language methodology course as approved by the Russian section head. Course must be taken prior to student teaching.
7. Before applying to student teach in the major, complete the Oral Proficiency Interview (OPI) examination with a minimum level of *Intermediate-High* in order to be granted Utah state licensure.

*Hours include courses that may fulfill university core requirements.

# Russian Language Certificate (9 hours)

Show All Course Descriptions
Hide All Course Descriptions

*This Language Certificate program is administered by The Center for Language Studies (3086 JFSB), http://languagecertificate.byu.edu.*

Any matriculated (degree-seeking) BYU student who meets the proficiency and course requirements may earn the Russian Language Certificate. The proficiency requirement is met through the nationally recognized ACTFL Oral and Writing Proficiency Exams. Qualifying students will be awarded a certificate on one of three levels based on the following:

1. Advanced Certificate: An ACTFL "Advanced" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
2. Mastery Certificate: An ACTFL "Advanced High" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
3. Professional Certificate: An ACTFL "Superior" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.

## Required Courses:

**Note:** Students who have completed all of the coursework required for a language major or a language minor will also have satisfied the coursework requirement for the language certificate.

1. Language - complete one course from the following:

RUSS 321 : Third-Year Russian Part 1. (2:2:0)
WHEN TAUGHT: Fall; Spring
PREREQUISITE: Russ 202 or equivalent.
DESCRIPTION: Grammar and composition, case government, listening and speaking skills.

**Course Outcomes**
There are no course outcomes available

RUSS 322 : Third-Year Russian Part 2. (2:2:0)
WHEN TAUGHT: Winter; Summer
PREREQUISITE: Russ 202 or equivalent.
DESCRIPTION: Grammar and composition, case government, listening and speaking skills.

**Course Outcomes**
There are no course outcomes available

RUSS 323 : Russian Phonology and Morphology. (3:3:0)
WHEN TAUGHT: Winter
PREREQUISITE: RUSS 321
DESCRIPTION: Perfecting speaking and listening skills through phonetics and applied speaking and listening techniques. Better understanding and using the structures of Russian through studying morphology and historical phonology.

**Course Outcomes**
There are no course outcomes available

2. Civilization - complete one course from the following:

RUSS 330 : Cultural History of Russia. (3:3:1)
WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Russ 202 or foreign residence experience.
NOTE: Required course for obtaining language credit by examination (Russ 101, 102, 201, 211R). Culminating course for Languages of Learning requirement. Includes International Cinema.

**Course Outcomes**
There are no course outcomes available

RUSS 343 : Masterpieces of Russian Film. (3:3:1)

WHEN TAUGHT: Winter

PREREQUISITE: RUSS 330

DESCRIPTION: Developing listening comprehension and speaking skills through discussing Russian films. Includes International Cinema.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

There are no course outcomes available

3. Literature - complete one course from the following:

RUSS 340 : Masterpieces of the Russian Novel in English. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

DESCRIPTION: Survey of Russian novels by such authors as Pushkin, Tolstoy, Dostoevsky, and Pasternak.

**Course Outcomes**

There are no course outcomes available

RUSS 341 : Dostoevsky's Major Works in Translation. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Survey of Dostoevsky's major works in English translation.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

There are no course outcomes available

RUSS 342 : Tolstoy's Major Works in Translation. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Survey of Tolstoy's major works in English translation.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

There are no course outcomes available

Students who successfully complete a certificate will receive an official document verifying their level of achievement. The certificate will be listed on the university transcript.

### 100-Level Courses

RUSS 101 : First-Year Russian, Part 1. (5:5:1)
WHEN TAUGHT: Fall; Winter; Spring

**Course Outcomes**
There are no course outcomes available

RUSS 102 : First-Year Russian, Part 2. (5:5:1)
WHEN TAUGHT: Winter; Summer

**Course Outcomes**
There are no course outcomes available

RUSS 199R : Academic Internship. (.5-3:ARR:ARR)
PREREQUISITE: Department chair's and internship coordinator's consent.
DESCRIPTION: On-the-job experience evaluated by supervisor and posted on student's transcript. Report required
NOTE: Not applicable to major or minor.

**Course Outcomes**
There are no course outcomes available

### 200-Level Courses

RUSS 201 : Second-Year Russian, Part 1. (5:5:1)
WHEN TAUGHT: Fall
PREREQUISITE: Russ 102 or instructor's consent, based on prior Russian language experience.
DESCRIPTION: Grammar review and conversation.

**Course Outcomes**
There are no course outcomes available

RUSS 202 : Second-Year Russian, Part 2. (5:5:1)
WHEN TAUGHT: Winter
PREREQUISITE: Russ 201 or instructor's consent.
DESCRIPTION: Grammar review and discussion in Russian of both expository and literary readings.
NOTE: Culminating course for Languages of Learning requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

RUSS 211 : Second-Year Conversation. (.5-5:ARR:ARR)
PREREQUISITE: Russ 201 or foreign residence experience.
DESCRIPTION: Intermediate listening comprehension and speaking skills.
NOTE: Offered only as credit by examination upon completion of Russ 330 (maximum 1 hour) or through Study Abroad experience in Russian (1-5 hours).

**Course Outcomes**
There are no course outcomes available

**300-Level Courses**

RUSS 301 : Intermediate Russian on Study Abroad. (2:2:0)

OFFERED: Russian Study Abroad only.
PREREQUISITE: RUSS 202
DESCRIPTION: Grammar and composition, case government, listening and speaking skills.

**Course Outcomes**

There are no course outcomes available

RUSS 321 : Third-Year Russian Part 1. (2:2:0)

WHEN TAUGHT: Fall; Spring
PREREQUISITE: Russ 202 or equivalent.
DESCRIPTION: Grammar and composition, case government, listening and speaking skills.

**Course Outcomes**

There are no course outcomes available

RUSS 322 : Third-Year Russian Part 2. (2:2:0)

WHEN TAUGHT: Winter; Summer
PREREQUISITE: Russ 202 or equivalent.
DESCRIPTION: Grammar and composition, case government, listening and speaking skills.

**Course Outcomes**

There are no course outcomes available

RUSS 323 : Russian Phonology and Morphology. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: RUSS 321
DESCRIPTION: Perfecting speaking and listening skills through phonetics and applied speaking and listening techniques. Better understanding and using the structures of Russian through studying morphology and historical phonology.

**Course Outcomes**

There are no course outcomes available

RUSS 330 : Cultural History of Russia. (3:3:1)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Russ 202 or foreign residence experience.
NOTE: Required course for obtaining language credit by examination (Russ 101, 102, 201, 211R). Culminating course for Languages of Learning requirement. Includes International Cinema.

**Course Outcomes**

There are no course outcomes available

RUSS 340 : Masterpieces of the Russian Novel in English. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer
DESCRIPTION: Survey of Russian novels by such authors as Pushkin, Tolstoy, Dostoevsky, and Pasternak.

**Course Outcomes**

## Admission to Degree Program

All degree programs in the Department of Humanities, Classics, and Comparative Literature are open enrollment. However, special limitations apply for teaching majors.

## General Information

The Department of Humanities, Classics, and Comparative Literature strongly recommends that StDev 317, a 1-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

## Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- At least 30 credit hours must be earned in residence on the BYU campus in Provo as an admitted day student
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

# Humanities

## The Discipline

The term *humanities* refers to the study of human intellectual and artistic creativity and the record of human experience as seen in the arts. It is an interdisciplinary major drawing from history, fine arts, literature, intellectual history, music, foreign languages, etc. In this major the student focuses on the arts as modes of human expression and how the arts combine to give a unique view of what it has meant to be human through the ages—and how they continue to influence us today. Besides teaching the interrelatedness of the arts, the study of humanities emphasizes the relationships between the arts and other aspects of human culture and society.

The major offers students unusual latitude in developing a broad and full program in the liberal arts, as well as developing skills in reasoning, language, writing, and library use—all essential elements for later independent learning as well as for functioning well in society.

## Career Opportunities

The interdisciplinary nature of the major makes it an excellent preparation for graduate work in humanistic disciplines and professional schools and also for a wide range of employment, including secondary teaching. Humanities graduates going directly into the work force commonly find professional employment in education, business, government, tourism, and civil or foreign service. Those going on to graduate school usually work toward the doctorate or attend professional programs in such disciplines as library science, law, business, public administration, and medicine.

PREREQUISITE: ENGL 251 & ENGL 292 & ENGL 295; or ENGL 251 & ENGL 294 & ENGL 295
DESCRIPTION: Poetry, prose, and drama from Britain and the Commonwealth since 1950.

**Course Outcomes**

- Form a research strategy, independently locate relevant digital and print sources, and draw upon these to develop an effective written argument.
- Read critically and analyze the drama, poetry, and prose from Britain and the Commonwealth since 1950.
- Produce polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

ENGL 381 : Chaucer. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: ENGL 291 & ENGL 295; Either Engl 292 & 293, or Engl 294.
DESCRIPTION: Intensive study of Chaucer's literature and language from medieval and modern perspectives.

**Course Outcomes**

- Explain the historical and literary contexts, genres and themes, and ethical dimensions of Chaucer's representative works.
- Demonstrate familiarity with key secondary scholarship about and critical perspectives of Chaucer's works.
- Develop reading fluency in Middle English.
- Develop reading strategies that explore how texts are constructed to present a set of argument (historical, aestheic, etc) and use those critical reading skills to interpret the texts' concerns and to trace interrelationships among them.
- Perform scholarly research on Chaucer's works by identifying and evaluating relevant primary and secondary sources, by formulating arguments conversant with these sources, and by articulating

those arguments in formal academic writing.

ENGL 382 : Shakespeare. (3:3:0)

OFFERED: Independent Study also.
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: ENGL 291 & ENGL 295; Either Engl 292 & 293, or Engl 294.
DESCRIPTION: Intensive reading, discussion, and (in some sections) viewing of plays from the comedy, tragedy, romance, and history genres.
NOTE: For English majors and minors.

**Course Outcomes**

There are no course outcomes available

ENGL 383 : Milton. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: ENGL 291 & ENGL 295; Either Engl 292 & 293, or Engl 294.
DESCRIPTION: Analysis of poetry and selected prose, including detailed study of such work as *Paradise Lost, Paradise Regained*, and *Samson Agonistes*.

**Course Outcomes**

- Explain the historical and literary contexts, genres and themes, and ethical dimensions of Milton's representative works.
- Demonstrate familiarity with key secondary scholarship about and critical perspectives of Milton's works.
- Perform scholarly research on the major author's works by identifying and evaluating relevant primary and secondary sources, by formulating arguments conversant with these sources, and by articulating those arguments in formal academic writing.
- Develop reading strategies that explore how texts are constructed to present a set of arguments (historical, aesthetic, etc) and use those critical reading skills to interpret the texts' concerns and to trace interrelationships among them.

ENGL 384R : Major Authors. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: ENGL 251 & ENGL 295; Engl 291; either Engl 292 & 293, or Engl 294.
DESCRIPTION: Topics vary.

**Course Outcomes**

There are no course outcomes available

: Early British Authors.

**Course Outcomes**

: Later British Authors.

**Course Outcomes**

: American Authors.

**Course Outcomes**

ENGL 385 : British Literature 1603 - 1660: The Late Renaissance. (3:3:0)

WHEN TAUGHT: Winter Contact Department; Spring Contact Department; Summer Contact Department
PREREQUISITE: ENGL 251 & ENGL 291 & ENGL 295
DESCRIPTION: Drama, poetry, and prose of the late Renaissance.

**Course Outcomes**

- Form a research strategy, independently locate relevant digital and print sources, and draw upon these to develop an effective written argument.
- Read critically and analyze Britain's drama, poetry, and prose written between 1603 and 1660.
- Produce polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

ENGL 391 : Introduction to Folklore. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
DESCRIPTION: Major types of folklore (e.g., myth, legend, folktale, folksong, custom, and belief); practical experience in collecting folklore.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Create and share a persuasive analysis of folklore texts in context by using "logical reasoning and critical analysis."
- Identify and remember three categories of folklore, four types of folk narrative, and eight folk groups.
- Produce several brief folkloristic observations, and document those observations using

established formats.
- Understand some methods of recording and archiving local traditions using "moral discrimination, creative imagination, and independent thought."
- Explain the choices and forces that help perpetuate or extinguish traditional practices, both locally and globally.
- Identify the shaping functions and theory of folklore.
- Produce a focused fieldwork project which includes, among other requirements, an essay, collection, and consent forms created according to the William A.Wilson Folklore Archive.

ENGL 392 : American Folklore. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: ENGL 251
DESCRIPTION: American folk art and literature and the historical and cultural circumstances from which they developed.

**Course Outcomes**

- Document folklore using established formats and understand some methods of recording and archiving local traditions in order to "analyze rigorously" American texts and artifacts in context and in terms of how "the American experience has been, and continues to be, constructed and transmitted."
- Identify and remember 3 categories of folklore; 4 types of folk narrative; 8 folk groups.
- Relate worldview with the performance of traditions, comparing similarities and differences of groups with differing worldviews and obtaining a wider view of American history and diversity.
- Reason intelligently in oral and written discourse while allowing that traditions are meaningful to participants in places and times different from your present circumstances.
- Work independently to connect folklore studies with other course work and life experiences and goals.
- Get excited about personal, group, and aesthetic dynamics in the performance of traditions and "question ethically" the choices and forces that help perpetuate or extinguish traditional practices, both locally and globally.

ENGL 393R : Studies in Folklore. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: ENGL 391
DESCRIPTION: Focused themes and topics in folklore. Topics may include regional or transnational folklore, folklore genres, folk groups, ethnographic research, cross-disciplinary issues, and history of folklore studies.

**Course Outcomes**

There are no course outcomes available

ENGL 395R : Studies in Literature. (3:3:0)

OFFERED: Independent Study also.
WHEN TAUGHT: Contact Department.
PREREQUISITE: ENGL 251 & ENGL 295; Either Engl 292 & 293, or Engl 294.
DESCRIPTION: Topics vary.

**Course Outcomes**

- Form a research strategy, independently locate relevant digital and print sources, and draw upon these to develop an effective written argument pertinent to the material studied in the class.
- Identify, locate, read critically, and analyze major and selected minor texts and associated with the literature of the class theme.
- Produce polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

ENGL 396 : Studies in Women's Literature. (3:3:0)

WHEN TAUGHT: Contact Department.
DESCRIPTION: Female-authored literary texts and literary theory concerning women.
NOTE: A core class for the women's studies minor.

**Course Outcomes**

- Read critically and analyze selected literary texts representative of the general history or of a thoughtfully focused dimension of women's literature.
- Demonstrate a knowledge of the history, nature, aesthetics, and broadly defined thematic concerns of the literature at the center of the course.
- Compare and contrast women's literature in question with larger or "mainstream" British or American literature.
- Form an appropriate research strategy, independently locate relevant digital and print sources, and draw upon these to develop a focused and effective written argument.
- Produce polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

ENGL 420 : Literature for Adolescents. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: ENGL 251 & ENGL 295; or instructor permission.
DESCRIPTION: Wide range of literature written for or read by teenagers.
NOTE: Required before student teaching.

**Course Outcomes**

- Students will become familiar with a broad range of Young Adult books, authors, and genre.
- Students will become familiar with a broad range of Young Adult books, authors, and genre.
- Students will learn how to select appropriate quality YA books for classroom, school, and personal use.
- Students will demonstrate an in-depth knowledge of at least one YA author and his/her work.

ENGL 451 : Literary Theory and Criticism 1: The Critical Tradition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: ENGL 251 & ENGL 295; Engl 291; either Engl 292 & 293, or Engl 294.
DESCRIPTION: Historical survey from Plato to the early twentieth century.

**Course Outcomes**

- Students will analyze and demonstrate a sound knowledge of a selection of primary and secondary documents related to the historical development of literary theory.
- Students will form a research strategy, independently locate relevant digital and print sources, and draw upon these to develop an effective written argument.
- Students will produce a substansive term paper focused on the historical development of literary theory that includes polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

ENGL 452 : Literary Theory and Criticism 2: Contemporary Criticism. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: ENGL 251 & ENGL 295; Engl 291, Engl 295; and either Engl 292 & 293 or Engl 294.
DESCRIPTION: Introduction to issues in twentieth-century literary criticism.

**Course Outcomes**

- Students will analyze and demonstrate a sound knowledge of a selection of primary and secondary documents related to contemporary literary theory.
- Students will form a research strategy, independently locate relevant digital and print sources, and draw upon these to develop an effective written argument.
- Students will produce a substansive term paper focused on contemporary literary theory that includes polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

c. Environmental Humanities:

ANTHR 300 : Biological Anthropology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Relationships between human biology, environment, social structure, and culture. Concepts and data on race, primates, evolution, population genetics, growth, and sociobiology.

**Course Outcomes**

- Develop an understanding of the relationships between human biology, environment, social structure.
- Collect data on race, primates, evolution, population genetics, growth, and sociobiology.

BIO 130 : Biology. (4:3:1)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: General biology course with laboratory for biology majors. Introduction to disciplines in the life sciences including methods for scientific inquiry, biochemical dynamics, cell structure and function, evolutionary theory, bioenergetics, and ecological interactions.

**Course Outcomes**

- Students will demonstrate basic literacy in the language of science and an understanding of the foundational theories of biology (i.e., be able to formulate appropriate hypotheses and predictions to test specific biological phenomena and use appropriate vocabulary to do so) o Atomic Molecular Theoryo Cell Theoryo Theories of Photosynthesis, Fermentation, and Cellular Respirationo Cell Division and Meiotic Theorieso Chromosomal and Mendelian Theories of Inheritanceo Watson and Crick's Theory of DNA Structure and Replicationo Protein Synthesis Theoryo Darwin's Theory of Natural Selectiono Hardy-Weinberg Theoryo Ecosystem Theoryo Population Growth Theoryo Competitive Exclusion and Behavioral Theory
- Students will demonstrate an understanding of the basic scientific principles which undergird the scientific process, including the strengths and weaknesses of this process.
- Students willappreciate the excitement of discovery that has accompanied important scientific developments.
- Students will demonstrate how scientific methodology can be used to analyze real-world science-related problems.
- Students will be able to evaluate scientific data and claims in order to make rational decisions on public-policy science issues that affect their community.
- Students will be able to express their thoughts (in oral, graphical, and written formats) on scientific topics clearly, including appropriate use of basic scientific vocabulary and effective interpretation of quantitative data.
- Students will be able to reflect rationally upon the interface between science and religion.
- Students will demonstrate sound scientific reasoning ability.

BIO 220A : Biological Diversity: Animals. (4:3:3)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: PDBIO 120; or BIO 130
DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in invertebrates and vertebrates. Laboratory included.

**Course Outcomes**

- Students will be able to discuss the broad patterns of the evolution of the clade Animalia, emphasizing the relationships among major sub-clades (phyla), the unique biological attributes that define these clades, and the novel changes in morphology over major transitions (unicellular to multicellular; acoelomate to pseudocoelomate to coelomate body plans, bilaterial vs radial symmetry, origins of exoskeletons, gill slits, notochord, crania & vertebral columns, etc.).
- Students will develop the skills necessary to understand the terminology of phylogenetic systematics and methods used to recover the “tree of life”, the logic behind the hierarchy (i.e., the only possible outcome of the process of “descent with modification”), and critically apply evolutionary reasoning, including the use of phylogeny and tree-thinking, to formulate and test hypotheses that explain biological diversity.
- Students will have the intellectual tools to continue to explore related topics with confidence and understanding throughout their lives, and a deeper appreciation for the diversity of life on earth.

BIO 220B : Biological Diversity: Plants. (4:3:3)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: PDBIO 120; or BIO 130
DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in fungi, algae, and principal groups of land plants. Laboratory included.

**Course Outcomes**

- Students will be able to discuss differences between cyanobacteria, algae, bryophytes, non-seed vascular plants, gymnosperms, flowering plants, and fungi with repsect to their lifecycles, characteristic morphologies, and biological roles.
- Students will develop the skills necessary to understand and critically apply evolutionary logic including the use of phylogeny and tree-thinking to formulate and test hypotheses that explain biological diversity
- Students will be able to continue to explore related topics with confidence and understanding throughout their lives.

BIO 350 : Ecology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: PDBIO 120; or BIO 130
DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

**Course Outcomes**

- Understand the major physical processes that form and characterize the biosphere, including global scale energy flow, the carbon cycle, climate, and soil formation.
- Understand the processes that drive major levels of organization of the biotic world, including energetics in the ecosystem, population dynamics, and species interactions.
- Understand the importance of writing as a way of synthesizing and solidifying critical thought.
- Foster and promote environmental stewardship within your realm of influence and your community.
- Understand the importance of ecology to issues regarding human well-being
- See the connectivity and relevance of ecology to other fields of study

BIO 370 : Bioethics. (2:1:3)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

**Course Outcomes**

- Students will understand the ethical and philosophical underpinnings of bioethics and to develop ethical intuitions on bioethical issues.
- Students will learn the terminology, vocabulary, and objectives of bioethics.
- Students will understand the tools and approaches needed to make a bioethical decision and to communicate that decision in rationally informed ways.
- Students will understand the bioethical primary literature, to understand how to read case studies, and familiarity with the major issues being discussed in bioethics today.

ENGL 317R : Writing Creative Nonfiction. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: ENGL 218R; or instructor's consent.
DESCRIPTION: Creations of style and technique in prose nonfiction; discipline and practice of the writer.

**Course Outcomes**

- Demonstrate effort and discipline in crafting creative nonfiction and display a knowledge of its conventions.

- Read creative nonfiction models analytically, with an eye to authorial intention and technique and be able to articulate the same.
- Use correct grammar, punctuation, and an appropriate style in creative nonfiction.
- Write a variety of essays using literary models and following explicit instructions from the teacher.
- Revise intelligently, edit carefully, and share one's work with others in the class.

ENGL 364 : Literature and Cultures of the American West. (3:3:0)

WHEN TAUGHT: Fall; Spring Contact Department; Summer Contact Department

PREREQUISITE: ENGL 251 & ENGL 293 & ENGL 295; or ENGL 251 & ENGL 294 & ENGL 295

DESCRIPTION: Literature and cultural representations of the American West and the frontier.

**Course Outcomes**

- Read critically and analyze in the context of appropriate literary and cultural theories major and selected minor texts and associated with the American West.
- Form a research strategy, independently locate relevant digital and print sources, and draw upon these to develop an effective written argument pertinent to the literature and cultures of the American West.
- Produce polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

HIST 290 : Nature and History: The Earth's Environmental Past. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.

DESCRIPTION: Human historical interactions with animals, plants, and landscapes. Global histories of climate, population, whaling, fossil fuels, the car, animal rights, suburban sprawl, eco-theology, environmentalism, ecotourism, etc.

**Course Outcomes**

- Students will become academically conversant with the major historical developments in our global relationship with nature.
- Students will be able to analyze and evaluate the content and meaning of primary sources, and through critical interpretation, draw reasonable conclusions.
- Students will be able to formulate historical questions and answer them by careful and systematic research in primary and secondary sources.
- Students will be able to write history that is coherent and persuasive by following discipline's norms for writing and careful documentation.

PWS 100 : Living with Plants. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Introduction to principles of plant function and diversity.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Demonstrate a fundamental knowledge of basic principles and concepts of plant biology (i.e., structure, function, and diversity)
- Cultivate an appreciation for the central importance of plants in the way our world and human society functions
- Provide a conceptual framework of how plants influence the environment
- Practice using the scientific method to better understand plant-environment interactions
- Improve verbal and written communication

PWS 101 : Cultural History of Medicinal Plants. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

DESCRIPTION: A global perspective of how medicinal plants have shaped cultural history and how they are used to treat illness and disease. Issues relating to conservation, natural history, biodiversity, and cultural diversity.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- 1. Explain and interpret a global history of how indigenous people can use plants to treat illnesses and disease.2. Understand and explain the differences between injurious, remedial, and psychoactive plants.3. Explain the difference between the Western philosophy of traditional medicine and local indigenous practices for treating illnesses and disease.4. Analyze and interpret a dose response curve.5. Define and explain the meaning of an LD-50 and LC-50.6. Diagram the history behind commercially available cancer chemotherapeutic drugs that are of plant origin, including the drug name, species of plant it was extracted from, acute and delayed toxicity, and major contraindications.7. Explain the limitations and myths associated with the herbal industry.8. Read and interpret peer reviewed literature on studies designed to show how human health has improved by using herbal remedies.9. Explain why it is important to preserve and protect sensitive habitat such as the tropical rainforests, which contain a wealth of biological information related to future drugs as yet undiscovered.10. Analyze the differences and similarities of how cultures of the world treat illnesses and disease

d. Foreign Literature:

Course work for the Foreign Literature track must consist of upper-division courses from foreign language departments, chosen in consultation with the track's faculty advisor.

e. History:

HIST 231 : Introduction to East Asian History. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Major themes in the history, thought, and culture of Asian societies from antiquity to the present.

**Course Outcomes**

- Students will be able to explain and analyze the major political, economic, and social developments in the history of China, Korea, and Japan from antiquity to the present
- Students will be able to analyze and interpret primary source documents.
- Students will be able to interpret and discuss the meaning and significance of historical events on contemporary identity and foreign relations.
- Students will be able to analyze historical arguments.

HIST 238 : Ancient Near East to 330 BC. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Ancient cultures of the Near East (Egypt, Mesopotamia, Syro-Palestine, Anatolia, Iran) from the beginnings of civilization to the conquests of Alexander the Great.

**Course Outcomes**

- Students will gain a historical consciousness of the Ancient Near East by demonstrating a critical literacy of major developments in Ancient Near East history, key historical terms, primary sources, and narratives of Ancient Near East history up to Alexander.
- Students will develop an ability to analyze historical questions and issues clearly, assess historical information accurately, and distinguish between questionable and valid historical assertions about ancient Near East primary sources.
- Students will develop use of the historical method of research effectively by skillfully and honestly using primary and secondary sources in the formation of answers to major questions surrounding the narratives of the ancient Near East
- Students will develop their writing ability through a range of pre-writing and writing assignments.

HIST 239 : Ancient Near East, 330 BC - 640 AD. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Cultures and empires of the Near East (Persia, Hellenistic kingdoms, Judaism, early Christianity, Rome, and Byzantium) from Alexander the Great to the Arab conquests.

**Course Outcomes**

- Gain a firsthand understanding of the Hellenistic and Christian Near East through studying and analyzing primary sources, using a template of (suggested) questions
- Understand basic issues of faith and reason, as they relate to Christianity and Judaism in the formative period of the former
- Master an early Christian primary source well enough to present, as a group, its gist, meaning, and significance
- Understand how the political and social changes in the Eastern Mediterranean in the Hellenistic period contributed to the development of science, technology, philosophy, and religion
- Understand the basic historical issues surrounding the origin of Christianity
- Understand the development of the Christian Roman Empire (Byzantium)

HIST 240 : Middle East History to 1800. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: History of the Middle East from the rise of of Islam until 1800.

**Course Outcomes**

- Students will be able to explain and analyze the major political, economic, social, cultural and religious developments in the Islamic Near East between approximately AD 640-1800.
- Students will be able to analyze and interpret translations of primary source documents from the Islamic Near East.
- Students will be able to analyze historical questions and place them in a historiographical context..

HIST 241 : Middle East History from 1800. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: History of the Middle East in the modern period form 1800; rise of nation states, relationship with West, role of Islam.

**Course Outcomes**

- Gain a historical consciousness by demonstrating a knowledge of major developments in Middle East and world history and understand key historical terms and theories.
- Acquire the ability to analyze historical questions and issues clearly, assess historical information accurately, and distinguish between questionable and valid historical assertions by using the historical method of research effectively by skillfully and honestly using primary and secondary sources.
- Skillfully integrate data into a coherent argument expressed through a clear, well-written style and through oral communication.
- Demonstrate how faith and reason intersect.

HIST 242R : (Hist-NES 347R) Arab and Islamic Civilization. (1-2:Arr.:Arr.)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Social science/humanities core course covering Arab and Islamic civilization; historical evolution of Middle East to present. Overview of modern Palestinian society.

NOTE: Elective credit for major and minor in Near Eastern Studies. Offered at the Jerusalem Center for Near Eastern Studies only. Does not receive GE credit.

**Course Outcomes**

No outcomes are available at this time.

HIST 243R : (Hist-NES 349R) Jewish Civilization. (1-2:Arr.:Arr.)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Social science/humanities core course; broad introduction to Jewish self-understanding and history, focusing on relationships among people, faith, and land.

NOTE: Elective credit for major and minor. Offered at the Jerusalem Center for Near Eastern Studies only. Does not receive GE credit.

**Course Outcomes**

No outcomes are available at this time.

HIST 244 : Jewish History: A.D. 70 to the Present. (3:3:0)

WHEN TAUGHT: Fall Even Yrs.

DESCRIPTION: Jewish diaspora, Jewish life in Moslem and Christian countries; Jewish religious movements; development of Zionism; Jewish communities in modern Israel and the United States.

**Course Outcomes**

- Gain a historical consciousness by demonstrating an understanding of major developments in Jewish and history, and understand key historical terms and theories.
- Acquire the ability to analyze historical questions and issues clearly, assess historical information accurately and distinguish between questionable and valid historical assertions.
- Demonstrate proficiency in using the historical method of research effectively by skillfully and honestly using interdisciplinary prinary and secondary sources.
- Skillfully integrate sources into a coherent argument expressed through a clear, well-written style and throrough oral communication.
- Recognize anti-Semitic arguments.
- Gain an understanding of the complexities of modern Jewish identity.
- Appreciate the contribution of Jewish people to the world.

HIST 247 : (Hist-ClCv 304) Greek History. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Political, economic, social, and intellectual history of Greece from Mycenaean times to the Hellenistic period.

**Course Outcomes**

- Successful students will be exposed to selections of Greek literature and be able to evaluate those texts as sources for Greek history; critical skills will be improved by the careful treatment of historiographical texts.
- Successful students will consider available primary sources of information for ancient Greek history and be able to evaluate the reliability of those sources.
- Successful students will discuss critical theories that are relevant to the texts treated in class and be able to evaluate and judge the rhetorical complexities facing the various authors discussed and how those authors resolved those complexities as they composed their historical narratives.
- Successful students will be able to locate the historical texts treated in class in the context of Classical literature generally and of ancient historiography specifically.
- Successful students will demonstrate a basic understanding of Greek History from the Bronze Age to the Hellenistic Age

HIST 248 : (Hist-ClCv 307) Roman History. (3:3:0)

DESCRIPTION: Political, economic, social, and intellectual history of Rome from the foundation of the city to Constantine.

**Course Outcomes**

- Successful students will be exposed to selections of Latin and Greek literature and be able to evaluate those texts as sources for Roman history; students' critical skills will be improved by the careful treatment of historiographical texts.
- Successful students will consider available primary sources of information for ancient Roman history and be able to evaluate the reliability of those sources
- Successful students will discuss critical theories that are relevant to the texts treated in class and be able to evaluate the rhetorical complexities facing the various authors discussed and how those authors resolved those complexities as they composed their historical narratives.
- Successful students will demonstrate a basic knowledge of Roman history from the Regal period to the decline of the Roman Empire.
- Successful students will be able to locate the historical texts treated in class in the context of Classical literature generally and of ancient historiography specifically.

HIST 251 : Conquest and Colonization of Latin America. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Pre-Columbian civilizations, Iberian exploration and conquest of the New World, and colonial development of Hispanic and Portuguese America from 1492 to 1823.

**Course Outcomes**

- Students will be able to explain and analyze the major political, economic, social, religious, and cultural characteristics of Spanish and Portuguese colonialism in the Americas between 1492 and 1825.
- Students will be able to analyze and interpret primary source documents.
- Students will gain experience in historical research and improve writing skills.
- Students will analyze historical questions and place them in historiographical context.

HIST 252 : Modern Latin America. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: National period (1810 to present): independence, institutional development, culture, and inter-American relations.

**Course Outcomes**

- Students will be exposed to the major economic, political, and cultural shifts that shaped the "modern" Latin American state in the nineteenth and twentieth century, as well as its variants, notably the cult of caudillo rule and its twentieth century offshoots
- Students will become conversant with major theoretical arguments and approaches to Latin American history in the contemporary era.
- Students will gain oral proficiency in discussing historiographical and thematic issues in modern Latin America during weekly discussion.
- Students will either broaden their understanding of literature on one topic in Latin American history by way of an intensive literature survey or deepen their knowledge on a particular topic in Latin American history by way of an original research paper.
- Students will make connections between cultural and polotico-economic issues by way of a wide variety of course readings that expose students to literature, as well as traditional historical themes.

HIST 290 : Nature and History: The Earth's Environmental Past. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.

DESCRIPTION: Human historical interactions with animals, plants, and landscapes. Global histories of climate, population, whaling, fossil fuels, the car, animal rights, suburban sprawl, eco-theology, environmentalism, ecotourism, etc.

**Course Outcomes**

- Students will become academically conversant with the major historical developments in our global relationship with nature.
- Students will be able to analyze and evaluate the content and meaning of primary sources, and through critical interpretation, draw reasonable conclusions.
- Students will be able to formulate historical questions and answer them by careful and systematic research in primary and secondary sources.
- Students will be able to write history that is coherent and persuasive by following discipline's norms for writing and careful documentation.

HIST 291 : History of Science. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.

DESCRIPTION: Graeco-Islamic scientific tradition. Ideas, practice, and social impact from Greek, Islamic, and Medieval European civilizations and science to eve of Scientific Revolution. Examines cross-cultural exchange, transformation of ideas.

**Course Outcomes**

- Understand how science developed out of ancient thought disciplines
- Understand the continuity of Greek-style scientific thinking through Arabic/Islamic and Latin/Christian civilizations
- Grasp the overall development of science as an intellectual and social practice, from pre-Greek times, down through the Scientific “Revolution” and to the modern period.
- To question the reality of a Scientific “Revolution”
- To gain a hand-on understanding of the ancient practices of astronomy/astrology, and understand how they drove much other scientific research
- To master one topic or technology from the pre- Scientific “Revolution” period

HIST 292 : Food and History. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.

DESCRIPTION: History of tomatoes, potatoes, sugar, and spice. How food and foodways engage broader historical questions and illuminate aspects of human cultures.

**Course Outcomes**

- Students will be able to discuss the theoretical underpinnings of the study of food, and will be able to discuss key aspects of the impact of food on human history.
- Students will refine and improve historical research, writing and analytical skills.
- Students will refine and improve oral presentation skills.

HIST 293 : World War II: A Global Perspective, 1939-1945. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Causes, flow, and consequences of World War II emphasizing the American experience at home and abroad.

**Course Outcomes**

- Students will be able to explain and analyze the history and memory of the global conflict of 1939 to 1945.
- Students will be able to analyze and interpret primary and secondary source documents.
- Students will be able to interpret and discuss the meanings and history and memory.
- Students will be able to formulate historical arguments based on primary sources and place them in a historiographical context.

HIST 300 : The Early Middle Ages. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Decline of Rome and the early formative stages of early medieval civilization; analysis of political, economic, and social changes from A.D. 285 to 950.

**Course Outcomes**

- Students will be able to explain and analyze the major political, economic, social, and religious developments in the Early Middle Ages.
- Students will be able to analyze and interpret primary source documents.
- Students will be able to analyze historical questions and place them in a historiographical context.
- Students will be able to interpret and debate the meanings and historical value of primary source texts with their peers

HIST 301 : The Late Middle Ages. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Europe from 950 to 1350; maturation of medieval civilization; failure of German, success of French leadership; economic, religious, cultural, intellectual trends.

**Course Outcomes**

- Students will be able to explain and analyze the major political, economic, social, and religious developments in the Late Middle Ages.
- Students will be able to analyze and interpret primary source documents.
- Students will be able to analyze historical questions and place them in a historiographical context.
- Students will be able to interpret and debate the meanings and historical value of primary source texts with their peers

HIST 302 : The Italian Renaissance. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

DESCRIPTION: Major political, social, and cultural events in Italy from 1200 to 1530, emphasizing concept of the Renaissance in modern historiography.

**Course Outcomes**

- Students will understand and be able to analyze the major political, economic, social, and religious developments in Italian Renaissance history
- Students will be able to trace the historiographical evolution of the Italian Renaissance and analyze historical questions within this historiographical context
- Students will refine and improve historical research, writing and analytical skills

HIST 303 : The Reformation: Age of Turmoil. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Sixteenth-century religious upheaval; ideological, cultural, political, and socioeconomic struggles to mid-seventeenth century.

**Course Outcomes**

- Students will be able to explain and analyze the major religious developments in Europe during the Reformation (1500-1700).
- Students will be able to analyze and interpret primary source documents.
- Students will be able to analyze and interpret secondary source documents
- Students will be able to interpret and debate the meanings and historical value of primary and secondary source texts with their peers.
- Students will be able to analyze historical questions and place them in a historiographical context.

HIST 304 : The Expansion of Europe, 1400-1800. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

DESCRIPTION: Early voyages of discovery and the actions of Europeans in the wider world from about 1400 to 1800.

**Course Outcomes**

There are no course outcomes available

HIST 305 : The Age of Enlightenment. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.

DESCRIPTION: Developments in Europe from 1650 to the French Revolution, emphasizing political thought, science, and philosophy in the Enlightenment.

**Course Outcomes**

- Students will be able to analyze and interpret primary source documents.
- Students will gain experience in historical research and improve writing skills
- Students will analyze historical questions and place them in historiographical context
- Students will understand the ideas central to the Enlightenment.

HIST 306 : Nineteenth-Century Europe. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

DESCRIPTION: Political, economic, social, and intellectual history of Europe from 1815 to 1914.

**Course Outcomes**

- Students will understand and be able to explain and analyze the international affairs and the political, intellectual, social, and economic history of Europe from 1815-1914
- Students will understand how to use and will be able to analyze and interpret primary source documents.
- Students will be able to review, critique, and evaluate historiographical works from a variety of European nations, as well as analyze historical questions and place them in a historiographical context.
- Students will be able to analyze, interpret, and debate with their peers in a classroom setting the meanings and historical value of theory, art, media, and primary source texts.

HIST 307 : Europe Since 1914. (3:3:0)

WHEN TAUGHT: Winter Odd Yrs.

DESCRIPTION: International affairs and political and economic history of major European countries (including Russia) from World War I to the present.

**Course Outcomes**

- Students will understand and be able to explain and analyze the international affairs and the political, cultural, military, social, and economic history of Europe from the two world wars until the present
- Students will understand how to use and will be able to analyze and interpret primary source documents.
- Students will be able to review, critique, and evaluate historiographical works.
- Students will be able to analyze, interpret, and debate with their peers in a classroom setting the meanings and historical value of theory, art, media, and primary source texts.
- Students will be able to analyze historical questions and place them in a historiographical context.
- Students will be able to analyze and discuss current events from more than one national viewpoint.

HIST 310 : European Economic History. (3:3:0)

WHEN TAUGHT: Spring Odd Yrs.

DESCRIPTION: Economic development of Europe from antiquity to the early twentieth century; impact of the economy on social and political institutions.

**Course Outcomes**

- Students will acquire content knowledge about the economic history of Europe from antiquity to the present
- Students will master the skills necessary to summarize, evaluate, and critique historical arguments.
- Students will understand the way evidence is used to construct historical arguments.
- Students will pose historical questions and support them with appropriate evidence
- Students will gain experience collaborating with each other in formulating and carrying out a research project using historical research skills.

HIST 312 : History of Ideas. (3:3:0)

WHEN TAUGHT: Winter Odd Yrs.

DESCRIPTION: Interrelationship of influential ideas and historical events from the end of the eighteenth century to the present.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Recognize the usefulness, but also the problematic nature of historical periodization.
- Develop interdisciplinary, synthetic, thinking skills, particularly in being able to see history in cultural artifacts and then identify and place these into discursive contexts.
- Relate and trace how ideas continue to influence societies and their institutions
- Awaken in you the realization of how certain modes of modern thought that you might have taken for granted as having existed "forever" can be seen as developments in response to specific historical circumstances.

- Explain how ideas, when extended to their logical conclusions, may challenge your personal world view and consider, as well as articulate, how to resolve such conflicts.
- Write an intellectual history research paper.
- Identify broadly how different approaches to intellectual history operate, e.g. Lovejoy, Cambridge School (Skinner), Berlin, Koselleck, Strauss, etc.

HIST 314 : European Fascisms, 1914 to Present. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

DESCRIPTION: Political, cultural, and social bases of fascist movements, especially in Italy, Germany, and Spain. Rise to power, family policies, warfare, propaganda, racism, genocide, neofascisms.

**Course Outcomes**

- Students will understand and be able to explain and analyze the origins, impacts, foreign policy, theories, and legacy of Fascism, Nazism, and other competing political ideologies
- Students will understand how to use and will be able to analyze and interpret primary source documents and secondary historiographical works.
- Students will understand how to research and write.
- Students will be able to analyze, interpret, and debate with their peers in a classroom setting the meanings and historical value of theory, art, media, and primary source texts
- Students will be able to analyze historical questions and place them in a historiographical context.

HIST 315 : European Jews and the Holocaust. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

DESCRIPTION: Attempted genocide of European Jews by Hitler's Third Reich; motives, methods, and implications.

**Course Outcomes**

- Study the genocide of European Jews by Hitler's Third Reich and to explore the motives, methods, and implications of this, as well as the fundamental questions thrown into relief by it.
- Analyze key issues that informed the Holocaust, the context and processees related to it, and to engage with the debates ignited by its legacy. Further develop proficiency in using the historical method of research effectively by skillfully and honestly using primary and secondary sources.
- Foster specific skills of critical thinking, argumentative and narrative writing, as well as careful reading. Analyze historical questions and issues clearly, assess historical information accurately and distinguish between questionable and valid historical assertions.
- Skillfully integrate data into coherent arguments expressed through a clear, well-written style in exams, papers, and class discussion.

HIST 319 : The Family in Europe. (3:3:0)

WHEN TAUGHT: Fall Even Yrs.

DESCRIPTION: Nature and development of marriage and family life and structure from the ancient to modern era.

NOTE: Independent Study also.

**Course Outcomes**

- Students will be able to understand and explain major trends in European family life, relationships, and law between 1100 and the present
- Students will be able to analyze and synthesize historiography of family history
- Students will read, analyze, and write about primary and secondary sources and explain their connections to one another.
- Students will interpret important shifts or trends in the experience of family functions and relationships and their connections with the law. Students will apply this understanding to the legal, religious, and culture contexts for those shifts or trends.
- Working in tandem with each other students will have opportunities to question, investigate, and interrogate historical experiences and historiographic interpretations

HIST 320 : Society in Europe. (3:3:0)

WHEN TAUGHT: Fall Even Yrs.

DESCRIPTION: Common life in Europe from 1500 to the present: family problems, social customs, marriage, superstition, death, diet, work, hardships, migration, and childhood.

**Course Outcomes**

- Students will be able to explain and analyze themes and trends in European social history in both the early modern and modern periods.
- Students will be able to analyze and interpret primary source documents.
- Students will be able to analyze and interpret secondary source documents
- Students will be able to interpret and debate the meanings and historical value of primary and secondary source texts with their peers.
- Students will be able to analyze historical questions and place them in a historiographical context.

HIST 322 : English History to 1689. (3:3:0)

OFFERED: Independent Study also.

DESCRIPTION: Political, social, and cultural developments from prehistoric times to the Glorious Revolution. Medieval, Tudor, and Stuart periods.

**Course Outcomes**

- Students will be able to explain and analyze the major political, economic, social, and religious developments inengland to 1689.
- Students will be able to analyze and interpret primary source documents.
- Students will be able to interpret and debate the meanings and historical value of primary source texts with their peers.
- Students will be able to analyze historical questions and place them in a historiographical context.

HIST 323 : English History Since 1689. (3:3:0)

DESCRIPTION: Emergence of Britain as a great colonial and industrial power, as well as more recent decline of Britain's influence. Emphasis also on cultural developments.

**Course Outcomes**

- Students will be able to explain and analyze the major political, economic, social, and religious developments in England Since 1689.
- Students will be able to analyze and interpret primary source documents
- Students will be able to interpret and debate the meanings and historical value of primary source texts with their peers.
- Students will be able to analyze historical questions and place them in a historiographical context.

HIST 324 : France. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: French history from Roman times to the present, emphasizing the French Revolution, Napoleon, and subsequent developments.

**Course Outcomes**

- Students will be able to explain and analyze the major political, economic, social, and religious developments in French history between approximately 700 and 1950.
- Students will be able to analyze and interpret primary source documents.
- Students will be able to interpret and debate the meanings and historical value of primary source texts with their peers.
- Students will be able to analyze historical questions and place them in a historiographical context.

HIST 325 : Spain. (3:3:0)

WHEN TAUGHT: Fall Even Yrs.

DESCRIPTION: Political, social, and economic factors in Spanish history from Roman times to present. Emphasis on Reconquest, Golden Age, and Civil War.

- Students will be able to analyze and interpret primary source documents, both in writing and in class discussions.
- History teaching majors will start to apply information and ideas from the course to future teaching.

HIST 367 : Slavery in the United States. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.

DESCRIPTION: Historical themes and developments of slavery in the U.S.

**Course Outcomes**

- Students will be able to explain and analyze the major social, political, economic, and cultural developments in the history of slavery in North America from the 17th century through 1865
- Students will be able to analyze and interpret primary source documents, both in writing and in class discussions.
- History teaching majors will start to apply information and ideas from the course to future teaching.
- Students will be able to analyze historical questions and place them in a historiographical context.

HIST 368 : Sport, Society, and American Culture. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.

DESCRIPTION: Development of sports in American society, emphasizing ethnic and racial groups, social classes, gender, gambling, politics, and social mobility.

**Course Outcomes**

- Students will be able to explain the major social, cultural, and historical developments in American sport history.
- Students will be able to evaluate the relationship between sports and race, class, and gender

issues in American history.
- Students will understand the major historiographical debates in American sport history.

HIST 370 : Colonial America. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Establishment, growth, and development of the American colonies to 1763.

**Course Outcomes**

- Students will demonstrate an understanding of the major events and issues in colonial American history and historiography.
- Students will be able to identify, evaluate and locate appropriate primary and secondary sources for colonial American history.
- Students will be able to create and support an argument based on a major issue in colonial American historiography, using primary and secondary sources.
- Students will be able to identify and critically respond to the argument of a historical monograph.

HIST 371 : Revolutionary America. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Causes and consequences of the American Revolution, the confederation era, and the framing of the Constitution.

**Course Outcomes**

- Students will be able to explain and analyze the major political, economic, social, and religious developments in Revolutionary America.
- Students will be able to analyze and interpret primary source documents.
- Students will be able to interpret and debate the meanings and historical value of primary source texts with their peers.
- Students will be able to analyze historical questions and place them in a historiographical context.

HIST 373 : Civil War Era, 1848-1877. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

DESCRIPTION: Causes of the war, major military events (leaders, campaigns, soldiers), war on the home fronts, why the South lost, Reconstruction, the legacy of the war.

**Course Outcomes**

- Students will be able to explain and analyze the main themes and developments of the Civil War and Reconstruction, as well as their roots and legacy.
- Students will be able to analyze and interpret primary source documents, both in writing and in class discussions.
- History teaching majors will start to apply information and ideas from the course to future teaching.
- Students will be able to analyze historical questions and place them in a historiographical context.

HIST 374 : U.S. History from 1890 to 1945. (3:3:0)

WHEN TAUGHT: Winter Odd Yrs.

PREREQUISITE: HIST 220 & HIST 221

DESCRIPTION: Political, economic, and social movements and ideas that trace rise of U.S. as a world power in first half of twentieth century.

**Course Outcomes**

- Students will be able to explain and interpret major developments and historical terms in the history of the United States between 1890 and 1945.
- Students will be able to interpret primary documents and use evidence from those documents to support historical assertions and interpretive generalizations
- Students will hone their ability to skillfully and honestly evaluate historical arguments in secondary sources.

HIST 376 : U.S. History from 1945 to 2000. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Movements and ideas that shaped society, politics, economy, and diplomacy of the United States from 1945 to 2000.

**Course Outcomes**

- Students will be able to explain and analyze the major political, social, diplomatic, economic, cultural, and constitutional developments in U.S. history from 1945 to the present.
- Students will be able to analyze, interpret, and debate the meanings and historical significance of primary source documents.

- Students will become acquainted with, and learn to assess the academic conversation concerning Mormonism
- Students will enhance their verbal communication skills through participation in class discussion.

HIST 384 : United States Women's History. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Survey course of women's experience in American culture and society from the Puritans to the present.

**Course Outcomes**

- Students will be able to explain and analyze the experiences of women in America from the colonial period to the present, the ways that ideas about gender have shaped American life, and significant issues and debates in U.S. Women's history.
- Students will be able to analyze, interpret, and evaluate primary sources.
- Students will be able to interpret and debate the meanings and historical value of primary sources with their peers.
- Students will be able to analyze and create historical questions and place them in a historiographical context.
- Students will demonstrate proficiency in using historical methods of research and in integrating data into a coherent argument expressed through a clear, well-written style.
- Students will be able to apply their understanding of American women's history to current issues and events.

HIST 385 : Latinos in the United States. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

DESCRIPTION: The place of Latin Americans within the context of U.S. history. The growth and development of the largest Latino communities from pre-colonial times to present day and how Latinos may influence future policies within the U.S.

**Course Outcomes**

- Students will learn the history of Latinos in this country beginning with the circumstances which brought them to this country, the ways they have integrated or resisted integration, and the efforts they have made to claim their rights as citizens.
- Students will learn to interpret the documents and rhetoric of this community which will help them understand the intellectual, cultural and political thought of Latinos over the last 100 years.
- Students will learn the current state of Latino social and cultural integration in the Utah community.
- Students will learn to write a major essay on the history of Latinos in order to understand the literature as well as the primary sources available on this community.

HIST 386 : Nineteenth-Century American Indian History. (3:3:0)

WHEN TAUGHT: Fall Even Yrs.

DESCRIPTION: History of various Indian tribes, their cultures, and their relationships with European nations and the United States, including military campaigns.

**Course Outcomes**

- Students will be understand and appreciate Indian history and cultures, employ historical research skills effectively, and apply appropriate methods and theories to the study of Indian history and contemporary Native American issues.
- Students will be able to interpret primary sources and use evidence from those documents to support historical assertions and interpretive generalizations
- Students will be able to skillfully and honestly evaluate historical arguments in secondary sources.
- Recognize important ideas of Indian and non-Indian cultural traditions and how LDS Native Americans have balanced their intellectual pursuits, their faith, and their culture.
- Learn to communicate effectively both orally and in writing about Native American topics
- Have meaningful interactions with Indian communities, individuals, and organizations to provide outreach and to help address contemporary challenges

HIST 387 : Twentieth-Century American Indian History. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Sociocultural factors that affect twentieth-century native Americans in both urban and reservation settings, including current challenges facing Indian communities.

**Course Outcomes**

- Students will be understand and appreciate Indian history and cultures, employ historical research skills effectively, and apply appropriate methods and theories to the study of Indian history and contemporary Native American issues.
- Students will be able to interpret primary sources and use evidence from those documents to support historical assertions and interpretive generalizations.
- Students will be able to skillfully and honestly evaluate historical arguments in secondary sources.
- Recognize important ideas of Indian and non-Indian cultural traditions and how LDS Native Americans have balanced their intellectual pursuits, their faith, and their culture
- Learn to communicate effectively both orally and in writing about Native American topics.
- Have meaningful interactions with Indian communities, individuals, and organizations to provide outreach and to help address contemporary challenges.

HIST 388 : Indians in Colonial America. (3:3:0)

WHEN TAUGHT: Winter Odd Yrs.

DESCRIPTION: North American Indian culture, Indian/European interactions, demographic, social, political factors among Indians prior to contact with Europeans through colonization and the American Revolutionary War.

**Course Outcomes**

- Students will demonstrate an understanding of the major issues and events in colonial Native American historiography and their modern-day consequences.
- Students will be able to identify, evaluate and locate appropriate primary sources for colonial Native American history
- Students will be able to use primary sources to support an argument based on a major issue in colonial Native American historiography.
- Students will be able to identify and critically respond to the arguments of historical monographs.

HIST 390R : Special Topics in History. (.5-3:Arr:0)

WHEN TAUGHT: Contact Department.

DESCRIPTION: Presented by visiting or regular faculty. Varied topics include oral history, demographics, psychohistory, Christianity in history, family history research, etc.

**Course Outcomes**

There are no course outcomes available

: Family History Research.

**Course Outcomes**

: Family History Research in Ireland. (.5-3:Arr:Arr)

**Course Outcomes**

: Family History Research in the Netherlands.

**Course Outcomes**

: Advanced Southern European Family History Research.

**Course Outcomes**

: Advanced British Family History Research.

**Course Outcomes**

: Native American Family History Research. (.5-3:Arr:Arr)

**Course Outcomes**

HIST 391 : U.S. in Vietnam, 1945-1975. (3:3:0)

DESCRIPTION: U.S. involvement in the wars in Vietnam from both a domestic and international perspective, focusing on the conflict independently and in context of the broader Cold War.

**Course Outcomes**

- Students will be able to explain and analyze political, social, cultural, diplomatic, and military developments; short- and long-term influences; and ramifications or "lessons" deriving from the U.S. experience during the Vietnam War from 1945 to 1975 from both a domestic and international perspective.
- Students will be able to analyze, interpret, and debate the meanings and historical significance of primary source documents.
- Students will be able to produce an original, analytical, and primary source based historical essay examining a key issue, theme, or individual from the U.S. experience in Vietnam.

HIST 392 : U.S. Constitutional History. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

DESCRIPTION: Constitutional traditions and constitution making, federalism, and constitutional notions of political equity and social justice, from the colonial period to the present.

**Course Outcomes**

- Students will be able to explain and analyze the major political, economic, social, and religious developments that led to the U.S. Constitution
- Students will be able to analyze and interpret primary source documents.
- Students will be able to interpret and debate the meanings and historical value of primary source texts with their peers.
- Students will be able to analyze historical questions and place them in a historiographical context.

HIST 393 : U.S. Foreign Relations. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

DESCRIPTION: U.S. diplomatic history from the American revolution to the present; examines major themes and critical events within both domestic and international contexts.

**Course Outcomes**

- Students will be able to explain and analyze the major themes and problems in the making, implementation, and evolution of U.S. foreign relations from 1776 to the present.
- Students will be able to analyze, interpret, and debate the meanings and historical significance of primary source documents.
- Students will be able to produce an original, analytical, and primary source based historical essay examining a key issue, theme, or individual from the history of U.S. foreign relations.

f. Media Arts (Film):

TMA 477R : Issues in Media Arts. (3:5:0)

WHEN TAUGHT: Fall, Contact Department; Winter, Contact Department

PREREQUISITE: TMA 291, 292; media arts major status.

DESCRIPTION: In-depth study of key media arts issues, within context of gospel principles.

**Course Outcomes**

- 1. Explore the ways this significant media arts issue developed over time.
- 2. Clarify definitions and practical functioning of significant concepts and paradigms.
- 3. Analyze key texts and their relationship to culture in relationship to key concerns.
- 4. Consider ethical and spiritual implcations of the issue.
- Collaboratively identify and share information on current relating to the specific issue.

TMA 492R : Media Arts Genres. (3:2:3)

WHEN TAUGHT: Winter

PREREQUISITE: TMA 291 or 292; media arts major or minor status.

DESCRIPTION: Intensive analysis of a single major traditional media genre (i.e., western, musical, sitcom, or melodrama) with consideration of contextual, subtextual, and textual issues.

**Course Outcomes**

- to listen to a ton of lectures, read a ton of stories, and see a ton of films relating to a given genre. We will also learn about some of the social and historical factors that have informed narratives within that genre, as well as some of their many and evolving styles and conventions.
- Explore a specific genre as a microcosm of larger aesthetic and social development of popular cultural artifacts.
- Identify schoalrly material related to genre study.
- Consider the relationship of text, subtext, and context in genre film.
- Analyze the significance of conventions and themes both diachronically and synchronically.

TMA 494 : Transcendence: Religion and Film. (3:6:0)

WHEN TAUGHT: Winter

PREREQUISITE: TMA 291; or TMA 292; media arts major or minor status.

DESCRIPTION: Historical, stylistic, and thematic survey of approaches to religious and spiritual subject matter in film.

**Course Outcomes**

- consider the history and nature of transcendence in cinema, it's operation in particular films, and the permutations of relationships between transcendence/spirituality and film.
- explore and further articulate their personal paradigm of transcendence and film especially in its operation in specific cinematic texts
- develop "experimental criticism" skills (as identified by C.S. Lewis), examining a text's impact on spectators and its relationship to the intent of its creators.
- establish familiarity with the some of the scholarly literature on religion/values and film.

TMA 497 : Media as a Mirror of Our Times. (3:2:3)

WHEN TAUGHT: Fall

PREREQUISITE: TMA 291 or 292; media arts major or minor status.

DESCRIPTION: Interdisciplinary approach to media texts as aesthetic and historical documents expressing a people, place, and time.

**Course Outcomes**

- Student will explore media text as cultural and historical documents reflecting social values and anxieties.Students will utilizeInterdisciplinaryapproaches to analyze media texts aesthetically as determined by culture. Close reading of a variety of text will allow students to develop a methodology to understand the role of film text and subtext as well as context.

TMA 498R : Special Topics in Media Arts. (3:3:3)

WHEN TAUGHT: Fall, Contact Department; Winter, Contact Department

PREREQUISITE: TMA 291 or 292; media arts major or minor status.

DESCRIPTION: Consideration of compelling issues in media arts practice, theory, history, and criticism.

**Course Outcomes**

- In-depth textual, contextual, and subtextual analyses of a compelling topic in media arts
- Paradigmatic exploration of emerging media arts issues in practice, theory and history.
- Thoughtful consideration of aesthetic and historical implications of special media arts topics
- Consideration of representative texts of the media arts special topic.

A maximum of one course from the following may be substituted for one of the TMA approved courses above:

CMLIT 450R : Literature and Cinema. (3:3:0)

PREREQUISITE: CmLit 310 or concurrent enrollment.

DESCRIPTION: Interrelations of national literatures and figures and of literature with other areas of knowledge (art, history, law, psychology, music, etc.). Topics vary.

**Course Outcomes**

There are no course outcomes available

ENGL 345 : Literature and Film. (3:3:.5)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: ENGL 251 & ENGL 295

DESCRIPTION: Emphasis on film as an interpretation of texts. Includes International Cinema.

**Course Outcomes**

- Analyze a written text/film set using an appropriate and well-defined scholarly approach.
- Write a research paper using proper MLA guidelines that is situated in the context of recent scholarship in the field.
- Identify and describe major and minor works, authors, and directors associated with this course.
- Form a research strategy. Independently identify and locate relevant print and digital sources, and incorporate these sources into a well-formed argument.

FREN 317 : (Fren-Ital) French and Italian Cinema. (3:3:2)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Background for understanding and appreciating the best of motion picture art in France and Italy. Includes components of critical theory essential for analyzing film. Language of instruction is English; no knowledge of French or Italian required.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Identify the major filmmakers and cinematic movements in the history of French and Italian cinema, with particular attention to the socio-historical contexts that shaped their creation.
- Explore the essential aspects of cinema as an artistic medium and master the technical and critical terminology necessary to intelligently discuss the creative process.

GERM 217 : (Germ-Scand) German and Scandinavian Cinema. (3:3:3)

WHEN TAUGHT: Fall Odd Yrs.

RECOMMENDED: A first-year writing course.

DESCRIPTION: Background for understanding and appreciating the best of motion picture art in Germany and Scandinavia.

NOTE: Language of instruction is English; no knowledge of German or Scandinavian languages is required. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

There are no course outcomes available

ITAL 317 : (Fren-Ital) French and Italian Cinema. (3:3:2)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Background for understanding and appreciating the best of motion picture art in France and Italy. Includes components of critical theory essential for analyzing film. Language of instruction is English; no knowledge of French or Italian required.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Identify major filmmakers, and cinematic movements in the history of French and Italian cinema, with particular attention to the socio-historical situations that engendered creation.
- Explore the essential aspects of cinema as an artistic medium and master the technical and critical terminology necessary to intelligently discuss the creative process.
- Develop critical skills for aesthetic judgment in applying acquired techincal knowledge to the films of individual filmmakers from these two traditions.
- Analyze cinema as an art form and "read" individual films in terms of the specificity of an artistic, authorial message.

RUSS 343 : Masterpieces of Russian Film. (3:3:1)

WHEN TAUGHT: Winter

PREREQUISITE: RUSS 330

DESCRIPTION: Developing listening comprehension and speaking skills through discussing Russian films. Includes International Cinema.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

There are no course outcomes available

SCAND 217 : (Scand-Germ) German and Scandinavian Cinema. (3:3:3)

WHEN TAUGHT: Fall

RECOMMENDED: A first-year writing course.

DESCRIPTION: Background for understanding and appreciating the best of motion picture art in Germany and Scandinavia.

NOTE: Language of instruction is English; no knowledge of German or Scandinavian languages is required. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

There are no course outcomes available

SPAN 438 : Hispanic Cinema. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 339

DESCRIPTION: Introduction to study of film; background in appreciating best of motion picture art in Spain and Spanish America.

NOTE: Previous experience with film useful but not required.

**Course Outcomes**

- Students will demonstrate a mastery of basic tools of film analysis through the study of a variety of films from the various film industries from Spain and Spanish America.
- Students will write cogent, persuasive essays of literary interpretation.
- Students will demonstate the ability to speak and write in Spanish about film with a reasonable degree of grammatical correctness and fluency.

g. Philosophy:

PHIL 110 : Introduction to Philosophy. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Articulating, assessing, and defending fundamental positions on topics such as reason, knowledge, science, education, ethics, politics, and religion.

**Course Outcomes**

- Become acquainted with important figures, topics, and issues in the history of philosophy.
- Learn to read and discuss critically philosophical texts.
- Write a clear and cogent philosophical essay.
- Learn to integrate philosophical skills and practices with religious convictions, while cultivating a respect for contrary points of view.

PHIL 210 : Science and Civilization 1. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall
DESCRIPTION: History of Civilization from Greek antiquity to scientific revolution; methods in early science and their philosophical significance; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Know about the development of scientific ideas and practices in their cultural context, including the major figures and methods of science from antiquity to 1500.
- Read, analyze, and critically summarize a book-length study of science.
- Learn to integrate philosophical skills and practices with religious convictions, while cultivating a respect for contrary points of view.

PHIL 211 : Science and Civilization 2. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Winter
DESCRIPTION: History of Civilization from scientific revolution to present; concepts and methods in modern science and their philosophical significance; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

There are no course outcomes available

PHIL 213 : Introduction to Ethics. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer Contact Department
DESCRIPTION: Nature and justification of moral standards, beliefs, and decisions.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Know basic concepts, figures, texts, and issues of moral philosophy; know basic normative theories in ethics, including deontology, utilitarianism, virtue theory, subjectivism, relativism, divine command theory, natural law, social contract theory, and care ethics.
- Learn how to apply normative theories to ethical problems, questions, and situations.
- Learn how to integrate philosophical skills and practices with religious convictions, while cultivating a respect for contrary points of view.

PHIL 214 : Introduction to the Philosophy of Art. (3:3:0)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: The experience of beauty in nature, in literature, and in the arts.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Know basic concepts, theories, figures, texts, and issues in Western philosophy of art and beauty.
- Learn how to use the philosophy of art and theories of taste to appreciate and critique individual works of art.
- Practice philosophical analysis and argument orally and in writing; write a clear and cogent essay on the philosophy of art and beauty.

PHIL 215 : Introduction to the Philosophy of Religion. (3:3:0)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: Existence and nature of God, God's foreknowledge and man's free will, faith, immortality, and religious experience and language.

**Course Outcomes**

- Know central problems in philosophy of religion, and traditional responses to those problems; know central figures and texts in philosophy of religion.
- Know and evaluate major arguments for God's existence, and learn how to examine the role of reason and evidence in religious belief.
- Practice philosophical analysis and argument orally and in writing; write a clear and cogent essay on the philosophy of religion.

PHIL 320R : Studies in Ancient Philosophy. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Phil 201.
DESCRIPTION: Selected figures or topics.

**Course Outcomes**
There are no course outcomes available

: Topics in Greek Philosophy.
**Course Outcomes**

: Pre-Socratics.

PHIL 414R : Topics in the Advanced Philosophy of Art, Architecture, Music, and Film. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Phil 300.
DESCRIPTION: Topics and figures in the philosophy of art, architecture, music, and film.

**Course Outcomes**

There are no course outcomes available

PHIL 415 : Philosophy of Religion. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Phil 300.
DESCRIPTION: Selected figures or problems.

**Course Outcomes**

- Understand at an advanced level key concepts, theories, and issues in the philosophy of religion.
- Read and critically discuss figures and texts in the philosophy of religion.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on the philosophy of religion.
- Be able to explain the practice and value of philosophy of religion.

PHIL 416 : Philosophy of Law. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Phil 300.
DESCRIPTION: The relation between natural and enacted law; theories of punishment; utilitarian and nonutilitarian theories of law; liberty.

**Course Outcomes**

- Know major concepts, theories, figures, texts, and issues in the philosophy of law.
- Read and critically discuss figures and texts in the philosophy of law.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on the philosophy of law.
- Be able to explain the practice and value of philosophy of law.

PHIL 420 : Philosophy of Language. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer Contact Department
PREREQUISITE: Phil 300.
DESCRIPTION: Meaning and reference, synonymy, metaphor, exemplification, translation; linguistic, artistic, and perceptual symbol systems.

**Course Outcomes**

- Know major concepts, theories, figures, texts, and issues in the philosophy of language.
- Read and critically discuss figures and texts in the philosophy of language.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on the philosophy of language.
- Be able to explain the practice and value of philosophy of language.

PHIL 421 : Metaphysics. (3:3:0)

WHEN TAUGHT: Fall; Spring Contact Department
PREREQUISITE: Phil 300.
DESCRIPTION: Basic categories of being: appearance and reality, law, causality, space, time, eternity, deity.

**Course Outcomes**

- Know major concepts, theories, figures, texts, and issues in metaphysics.
- Read and critically discuss figures and texts in metaphysics.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on metaphysics.
- Be able to explain the practice and value of metaphysics.

PHIL 422 : Epistemology. (3:3:0)

WHEN TAUGHT: Winter; Summer Contact Department
PREREQUISITE: Phil 300.
DESCRIPTION: Meaning, limits, and justification of knowledge.

**Course Outcomes**

- Know and understand central issues and concepts in epistemology, including possible answers to questions like: What is knowledge? What is the extent of our knowledge? What is justified belief?
- Know major theories, figures, and texts in epistemology.
- Read and critically discuss figures and texts in epistemology.

- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on epistemology.
- Be able to explain the practice and value of epistemology.

PHIL 423 : History and Philosophy of Science. (3:3:0)

PREREQUISITE: Phy S 100 or instructor's consent; Phil 300.

DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.

**Course Outcomes**

- Know major concepts, theories, figures, texts, and issues in the history and philosophy of Western science from antiquity to the contemporary era.
- Read and critically discuss figures and texts in the philosophy of science.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on the philosophy of science.
- Be able to explain the practice and value of philosophy of science.

h. Theatre:

1. Complete 9 hours from the following:

TMA 301 : Contemporary Performance Practices. (2:4:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: TMA 115; Theatre arts studies major status.

DESCRIPTION: Advanced studies in performance theory and practice.

**Course Outcomes**

There are no course outcomes available

TMA 377C : Theatre Methods and Instruction: Applied Theatre. (2:2:1)

WHEN TAUGHT: Fall; Spring

PREREQUISITE: FBI fingerprint and background clearance.

DESCRIPTION: Practicing contemporary theatre-in-education (TIE) methods to be employed in practical secondary education settings.

**Course Outcomes**

- Successful students in this course will be able to facilitate the devising process for Theatre in Education (TIE) and Theatre of the Oppressed (TO) experiences.
- Successful students in this course will be able to create and facilitate Applied Theatre performances and workshops.

TMA 380 : Dramaturgy 1. (3:4:0)

WHEN TAUGHT: Fall

PREREQUISITE: TMA 115; or instructor's consent.

DESCRIPTION: Research and apply hands-on theatrical skills in four critical studies areas: literary management, production dramaturgy, new play development, educational outreach.

**Course Outcomes**

There are no course outcomes available

TMA 395 : Dramatic Literature 1. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: TMA 115 & TMA 201 & TMA 202; Theatre arts studies major or minor status.

DESCRIPTION: Survey of dramatic texts, from ancient Greek to today, through Western literary theories, emphasizing performance.

**Course Outcomes**

- Students will synthesize linguistic theory and the social theories and great works of dramatic literature through reading, writing, discussion, film viewing.
- Students will create socially conscious, ideologically-grounded performances that respond both to their world views and contemporary issues in critical theory.
- Students will create cogent, compelling, and mechanically writing for the Humanities in a variety of different mediums—informal responses, production reviews, persuasive essays, and critical analyses.

TMA 396 : Dramatic Literature 2. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: TMA 115 & TMA 201 & TMA 202; Theatre arts studies major or minor status.

DESCRIPTION: Survey of dramatic texts, from ancient Greek to today, through global literary theories, emphasizing performance.

**Course Outcomes**

- Students will synthesize linguistic theory and the social theories and great works of dramatic literature through reading, writing, discussion, film viewing.
- Students will create socially conscious, ideologically-grounded performances that respond both to their world views and contemporary issues in critical theory.
- Students will create cogent, compelling, and mechanically writing for the Humanities in a variety of different mediums—informal responses, production reviews, persuasive essays, and critical analyses.

TMA 443R : Writer/Dramaturg/Actor Workshop. (3:6:1)

WHEN TAUGHT: Fall

PREREQUISITE: TMA 115 and instructor's consent.

DESCRIPTION: Collaborative workshop developing new stage and screenplays through exercises, discussion, and writing. Scripts selected competitively; public readings at end of course.

**Course Outcomes**

- Students will develop the ability to objectively explore the merits of a new script and to identify strengths and weakness in new scripts.
- Students will develop the ability to thoughtfully and accurately express their opinions in constrictive ways and to workshop this feedback appropriately.
- Students will develop the ability to evaluate and appropriately apply feedback on their new scripts and to effectively rewrite their new scripts.

TMA 485R : Production Dramaturgy. (1-3:2:Arr)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: TMA 380 and instructor's consent.

DESCRIPTION: Experience as lead dramaturg for main-stage productions; building casebooks and overseeing audience education efforts. Rehearsal and production meeting attendance required.

**Course Outcomes**

- Students will generate research, conceptual, and textual support as needed and requested by the production team.
- Students will collaborate as a member of a production team and will collaborate with other dramaturgs in their production experiences.
- Students will process, document, and archive their production dramaturgy experience by creating a production casebook.

2. Complete 3 hours from either the list above or from the following:

DANCE 359R : Special Topics and Issues. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: DANCE 243R & DANCE 244R & DANCE 261

DESCRIPTION: Seminar with rotating topics and issues selected from: dance and health, dance and identity, dance and technology, and dance philosophy and aesthetics.

**Course Outcomes**

- PHOTOSHOP OBJECTIVES&1. Students will demonstrate competency in the Photoshop interface.
- 2.Students will acquire knowledge in the use of the key commands.
- 3. Students will apply knowledge of the toning and selection tools to re-touch dance photos.
- 4.Students will create a complex image using layers, digital filters and blending modes.
- 5.Students will construct a dance concert poster.
- LOGIC EXPRESS OBJECTIVES1. Students will demonstrate competency in the Logic Express interface.
- 2.Students will acquire knowledge in the use of key commands
- 3.Students will create background music for a slideshows and video.
- 4.Students will understand and apply audio effects techniques when mixing and exporting music.
- 5.Students will demonstrate audio editing techniques to cut pre-recorded music.
- FINAL EXPRESS OBJECTIVES:1. Students will demonstrate competency in the Final Cut interface.
- 2. Students will acquire knowledge in the use of key commands.
- 3. Students will understand the Final Cut workflow.
- 4. Students will demonstrate knowledge of video editing.
- 5. Students will analyze and color correct video.
- 6.Students will create a solo dance on video.
- 7.Students will create a group dance on video.
- iDVD OBJECTIVES1.Students will demonstrate competency in the iDVD interface.
- 2.Students will Understand the iDVD workflow.
- .Students will Create and author a DVD.

: Dance and Identity.

**Course Outcomes**

: Dance and Health Issues.

**Course Outcomes**

: Dance Philosophy and Aesthetics.

**Course Outcomes**

ENGL 341 : English Drama: Beginnings to 1800, Excluding Shakespeare. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ENGL 251 & ENGL 291 & ENGL 295

DESCRIPTION: Selected plays from medieval, Tudor, Stuart, Restoration, and 18th-century drama.

**Course Outcomes**

- Understand in general, and in several details, the development of drama in England, and, in your writing, intelligently discuss major developments, continuities, or turning points.
- Demonstrate a sure knowledge of the plays we read, and be able to interpret those plays.
- Explain the significance of specific passages and elements of each play.
- Relate selected theoretical ideas to your understanding of the plays we read.

ENGL 343 : Modern English and American Drama. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ENGL 251 & ENGL 295

**Course Outcomes**

- Read critically and analyze selected dramatic texts along with critical and/or interpretative texts.
- Form a research strategy appropriate to the study of drama, independently locate relevant digital and print sources, and draw upon these to develop an effective written argument about the texts studied.
- Produce polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

: Modern British Drama.

**Course Outcomes**

: Modern American Drama.

**Course Outcomes**

GREEK 434 : Sophocles and Euripides. (3:3:0)

PREREQUISITE: GREEK 301

**Course Outcomes**

There are no course outcomes available

JAPAN 351 : Japanese Literature in Translation--Seventeenth Through Nineteenth Centuries. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Reading and discussing selected topics in Japanese literature (narrative, lyric, drama) from 1600 through 1900 (Edo and Meiji periods).

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Students will demonstrate their understanding of the human aspects of early modern Japanese literature orally and in writing. A writing sample will be included in individual student portfolio.
- Students will demonstrate their understanding of key literary works and genres in early modern Japanese literature in verbal and written forms.

SPAN 456R : Spanish American Drama. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Twentieth-century theatre from Spanish America and Brazil.

**Course Outcomes**

There are no course outcomes available

8. Complete six hours of the following capstone course (take twice):

IHUM 490R : Seminar in the Humanities. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: IHum 350 or concurrent enrollment.

RECOMMENDED: IHum 370.

DESCRIPTION: Interdisciplinary study of problems and major figures in the humanities. Topics vary.

**Course Outcomes**

There are no course outcomes available

(Prerequisite: IHum 250, 350. Recommended: IHum 370.)

*Hours include courses that may fulfill university core requirements.

## Program Requirements

1. Complete the following:

IHUM 201 : Western Humanities 1: Antiquity to Renaissance. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Western civilization from Greek antiquity to Renaissance from perspective of traditional humanistic values reflected in its arts and ideas. Examines fundamental questions about human experience, formative events in history, and value of important literary and artistic texts.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

IHUM 202 : Western Humanities 2: Renaissance to the Present. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Western civilization from Renaissance to present from perspective of traditional humanistic values reflected in its arts and ideas. Examines fundamental questions about human experience, formative events in history, and value of important literary and artistic texts.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

IHUM 250 : Introduction to Interdisciplinary Humanities. (3:3:.5)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: Major literary, artistic, and musical forms and their use in the interdisciplinary study of aesthetics and culture and intellectual history. May include International Cinema.

**Course Outcomes**
There are no course outcomes available

IHUM 350 : Interpretation of Literature and the Arts. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: ENGL 311; or PHIL 300; IHum 201 and 202 and 250. At least three of the remaining historical foundation courses (item 3 under major requirements).
DESCRIPTION: Understanding and writing about literature and at least one of the other arts; critical theory.
NOTE: Should be taken junior year.

**Course Outcomes**
There are no course outcomes available

2. Complete one course from the following:

IHUM 240 : Introduction to the Humanities of Asia. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Major arts of Asian cultures in their historical, religious, and philosophical settings.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

- Icelandic (Iclnd) Courses
- Norwegian (Norwe) Courses
- Swedish (Swed) Courses

**Faculty**

IHUM 242 : Introduction to the Humanities of the Islamic World. (3:3:0)
WHEN TAUGHT: Fall; Winter
DESCRIPTION: Major arts of Islamic cultures in their historical, religious, and philosophical settings.

**Course Outcomes**
There are no course outcomes available

IHUM 260 : Humanities of Latin America. (3:3:0)
WHEN TAUGHT: Fall; Winter
DESCRIPTION: Achievements of Latin American culture regarding art, philosophy, literature, and music from the pre-Columbian era to the present.

**Course Outcomes**
There are no course outcomes available

IHUM 261 : Introduction to American Humanities 1: Colonial Era Through 1876. (3:3:0)
OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Value systems reflected in the arts and ideas of the United States from the colonial era to 1876.

**Course Outcomes**
There are no course outcomes available

IHUM 262 : Introduction to American Humanities 2: 1877 to the Present. (3:3:0)
OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter
DESCRIPTION: Value systems reflected in the arts and ideas of the United States from 1877 to the present.

**Course Outcomes**
There are no course outcomes available

: Honors American Humanities 2: 1877 to the Present.

**Course Outcomes**

3. Complete one enrollment of the following:
   IHUM 490R : Seminar in the Humanities. (3:3:0)
   WHEN TAUGHT: Fall; Winter; Spring
   PREREQUISITE: IHum 350 or concurrent enrollment.
   RECOMMENDED: IHum 370.
   DESCRIPTION: Interdisciplinary study of problems and major figures in the humanities. Topics vary.

   **Course Outcomes**
   There are no course outcomes available

4. Complete the GE Advanced Languages requirement using the foreign language option. (Please note that ASL does not meet this requirement for the humanities minor. For the rationale, see item 5 under humanities major.)

*Hours include courses that may fulfill university core requirements.

### 300-Level Courses

IHUM 350 : Interpretation of Literature and the Arts. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: ENGL 311; or PHIL 300; IHum 201 and 202 and 250. At least three of the remaining historical foundation courses (item 3 under major requirements).

DESCRIPTION: Understanding and writing about literature and at least one of the other arts; critical theory.

NOTE: Should be taken junior year.

**Course Outcomes**

There are no course outcomes available

IHUM 370 : Contemporary Issues in the Humanities. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: IHUM 201 & IHUM 202 & IHUM 250; Engl 311.

DESCRIPTION: Methods and practices of the discipline. Developing and executing research programs. Writing thoughtful, well-informed and sophisticated papers. Introduction to significant and pressing cultural issues such as globalization, media and the arts, memory and history, among others.

**Course Outcomes**

There are no course outcomes available

IHUM 390R : Junior Seminar in the Interdisciplinary Humanities: Movements, Periods, and Areas. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: IHUM 250

DESCRIPTION: Topics could cover significant movements, periods, areas, and genres in a cultural history of the arts. Obtaining a deep understanding of the arts and the values articulated within a particular historical era. The use of concepts usch as history, context, area, and genre in the study of the arts.

**Course Outcomes**

There are no course outcomes available

IHUM 399R : Academic Internship. (1-9:0:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: IHUM 350; 12 hours of historical foundation courses in humanities. Humanities major or minor status.

DESCRIPTION: Combined study-work experience related to the humanities major (museums, government agencies, publishing firms, etc.).

**Course Outcomes**

There are no course outcomes available

### 400-Level Courses

IHUM 490R : Seminar in the Humanities. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: IHum 350 or concurrent enrollment.

RECOMMENDED: IHum 370.

DESCRIPTION: Interdisciplinary study of problems and major figures in the humanities. Topics vary.

**Course Outcomes**

There are no course outcomes available

IHUM 495R : Directed Readings. (.5-3:0:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: Contract and instructor's consent.

**Course Outcomes**

There are no course outcomes available

IHUM 499R : Honors Thesis. (.5-6:ARR:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

**Course Outcomes**

# Classics

## The Discipline

**Classical Studies** examine ancient Greek and Roman cultures—their languages, literature, history, religion, art, and philosophy.

The major offers essential knowledge of philology, ancient history, archaeology, biblical studies, and the literary and cultural tradition of Western Europe, as well as traditional grounding in the Classics. Students acquire important foreign-language study skills that include careful reading, thoughtful writing, and persuasive speaking. Latin is the mother language not only of Italian, French, Spanish, and Portuguese, but in a real sense of English as well. Its study will especially enhance one's understanding of English vocabulary, grammar, and rhetorical structure.

**Greek and Roman History.** Classics has the responsibility for staffing and administering offerings in Greek and Roman history. Courses in these fields are offered under Classical Civilization, Classics, Greek, and Latin. Some of these courses are cross-listed with history, and several may count toward a history major. See the History section of this catalog for details.

**Classical Civilization.** Classical Civilization courses presuppose no knowledge of the Greek or Latin languages and are open to all students. They are especially recommended for those who want to understand the ancient traditions underlying modern culture.

## Career Opportunities

Majors in Classical Studies find employment in a variety of fields, including business, education, library science, tourism, and civil and foreign service. They are also excellent candidates for graduate work in other humanities-related disciplines and professional schools (law, business, and medicine).

# BA in Classical Studies: Classical Civilization Emphasis (42–45 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Emphasizes Classical Civilization, with work in either Greek or Latin language.

## Program Requirements | View MAP | View Program Outcomes

1. Complete one course from the following:

CL CV 110 : Introduction to Greek and Roman Literature. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter
DESCRIPTION: Homer's *Iliad*, Sophocles' *Oedipus the King*, Vergil's *Aeneid*, and other important works of the Greeks and Romans.
NOTE: All readings in English. Honors also.

**Course Outcomes**
There are no course outcomes available

CL CV 201 : The Classical Tradition 1: Antiquity to the Renaissance. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall
DESCRIPTION: Civilization from Greek and Roman antiquity to the Italian Renaissance, emphasizing Greco-Roman culture--its institutions, literature, arts, and ideas.

**Course Outcomes**
There are no course outcomes available

: Honors Classical Tradition 1: Antiquity to Renaissance.

**Course Outcomes**

2. Complete the following:

CL CV 241 : Greek and Roman Mythology. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Greek and Roman gods, heroes, and myths, emphasizing literature but also giving attention to representations in the visual arts.

**Course Outcomes**
There are no course outcomes available

: Honors Greek and Roman Mythology.

**Course Outcomes**

CL CV 304 : (Cl Cv-Hist 247) Greek History. (3:3:0)

WHEN TAUGHT: Winter
DESCRIPTION: Political, economic, social, and intellectual history of Greece from Mycenaean times to the Hellenistic period.

**Course Outcomes**
There are no course outcomes available

CL CV 307 : (ClCv-Hist 248) Roman History. (3:3:0)

- Icelandic (Iclnd) Courses
- Norwegian (Norwe) Courses
- Swedish (Swed) Courses

**Faculty**

WHEN TAUGHT: Fall
DESCRIPTION: Political, economic, social, and intellectual history of Rome from the foundation of the city to Constantine.

**Course Outcomes**
There are no course outcomes available

3. Complete one course from the following:

CL CV 245 : Golden Age of Greece. (3:3:0)
WHEN TAUGHT: Winter Odd Yrs.
DESCRIPTION: History of Civilization, culture, and daily life of Greece as indicated through its literature, art, history, and archaeology.
NOTE: All readings in English. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

CL CV 246 : Golden Age of Rome. (3:3:0)
WHEN TAUGHT: Winter Even Yrs.
DESCRIPTION: History of Civilization, culture, and daily life of Rome as indicated through its literature, art, history, and archaeology.
NOTE: All readings in English. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

4. Complete the following:

CLSCS 397 : Pro-Seminar in Classical Studies. (2:2:0)
WHEN TAUGHT: Fall
PREREQUISITE: LATIN 201; or GREEK 201
RECOMMENDED: Latin 302 or Greek 301.
DESCRIPTION: Mechanics of researching and writing analytical papers in classical studies. Sectional and adjunct professors present seminal sub-disciplines and model research methods. Specialized library resources taught in practicum. Tutorials with faculty underpin focused research questions.

**Course Outcomes**
There are no course outcomes available

CLSCS 497 : Exit Examination in Classical Literature. (1:1:0)
WHEN TAUGHT: Winter
PREREQUISITE: CLSCS 397; at least one course in Latin or Greek at 400-level.
RECOMMENDED: Coursework above 400-level in Latin and/or Greek.
DESCRIPTION: Capstone essay culminates undergraduate experience in posing, researching, and writing in consultation with an advisor. Oral exam tests familiarity with a standardized reading list of classical texts. Attendance at weekly lectures expands familiarity with broad questions in classical scholarship.

**Course Outcomes**
There are no course outcomes available

5. Complete one of the following options:
   - Complete the following:

GREEK 101 : First-Year Greek (First Semester). (4:4:0)
WHEN TAUGHT: Fall

**Course Outcomes**
There are no course outcomes available

GREEK 102 : First-Year Greek (Second Semester). (4:4:0)
WHEN TAUGHT: Winter
PREREQUISITE: GREEK 101; or departmental approval.

**Course Outcomes**
There are no course outcomes available

GREEK 201 : Intermediate Greek. (4:4:0)
WHEN TAUGHT: Fall

PREREQUISITE: GREEK 102; or departmental approval.
DESCRIPTION: Readings from Xenophon with review and continuation of grammar.

**Course Outcomes**
There are no course outcomes available

# BA in Classical Studies: Latin Emphasis (37–45 hours*)

Show All Course Descriptions
Hide All Course Descriptions

Emphasizes Latin language and literature, with some work in Roman civilization.

## Program Requirements | View MAP | View Program Outcomes

1. Complete one course from the following:

CL CV 110 : Introduction to Greek and Roman Literature. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter
DESCRIPTION: Homer's *Iliad*, Sophocles' *Oedipus the King*, Vergil's *Aeneid*, and other important works of the Greeks and Romans.
NOTE: All readings in English. Honors also.

**Course Outcomes**
There are no course outcomes available

CL CV 201 : The Classical Tradition 1: Antiquity to the Renaissance. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall
DESCRIPTION: Civilization from Greek and Roman antiquity to the Italian Renaissance, emphasizing Greco-Roman culture--its institutions, literature, arts, and ideas.

**Course Outcomes**
There are no course outcomes available

: Honors Classical Tradition 1: Antiquity to Renaissance.

**Course Outcomes**

CL CV 241 : Greek and Roman Mythology. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Greek and Roman gods, heroes, and myths, emphasizing literature but also giving attention to representations in the visual arts.

**Course Outcomes**
There are no course outcomes available

: Honors Greek and Roman Mythology.

**Course Outcomes**

2. Complete the following:

CL CV 246 : Golden Age of Rome. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.
DESCRIPTION: History of Civilization, culture, and daily life of Rome as indicated through its literature, art, history, and archaeology.
NOTE: All readings in English. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

- Icelandic (Iclnd) Courses
- Norwegian (Norwe) Courses
- Swedish (Swed) Courses

**Faculty**

CL CV 307 : (ClCv-Hist 248) Roman History. (3:3:0)
WHEN TAUGHT: Fall
DESCRIPTION: Political, economic, social, and intellectual history of Rome from the foundation of the city to Constantine.

**Course Outcomes**
There are no course outcomes available

3. Complete one of the following options:

**Either**

LATIN 101 : First-Year Latin (First Semester). (4:4:0)
WHEN TAUGHT: Fall

**Course Outcomes**
There are no course outcomes available

LATIN 102 : First-Year Latin (Second Semester). (4:4:0)
WHEN TAUGHT: Winter
PREREQUISITE: LATIN 101; or departmental approval.

**Course Outcomes**
There are no course outcomes available

**Or**

LATIN 111 : Beginning Latin Accelerated. (5:5:0)
OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Equivalent of combined Latin 101, 102.
NOTE: Prepares students for Latin 201.

**Course Outcomes**
There are no course outcomes available

**Note:** Latin 101, 102, 111 may be waived with equivalent language experience.

4. Complete the following:

LATIN 201 : Intermediate Latin. (4:4:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: LATIN 102; or LATIN 111; or departmental approval.
DESCRIPTION: Readings from Caesar, with a review and continuation of grammar.

**Course Outcomes**
There are no course outcomes available

LATIN 301 : Classical Latin Poetry. (3:3:0)
WHEN TAUGHT: Winter
PREREQUISITE: LATIN 201
DESCRIPTION: Selections from Vergil's *Aeneid* and Ovid's *Metamorphoses*.

**Course Outcomes**
There are no course outcomes available

LATIN 302 : Classical Latin Prose. (3:3:0)
WHEN TAUGHT: Fall
PREREQUISITE: LATIN 201
DESCRIPTION: Readings in Cicero's Catilinarian orations and Sallust's *Catiline*.

**Course Outcomes**
There are no course outcomes available

LATIN 401 : Latin Prose Composition. (3:3:0)
WHEN TAUGHT: Winter Contact Department
PREREQUISITE: LATIN 302; or concurrent enrollment.

**Course Outcomes**
There are no course outcomes available

CLSCS 397 : Pro-Seminar in Classical Studies. (2:2:0)
WHEN TAUGHT: Fall
PREREQUISITE: LATIN 201; or GREEK 201
RECOMMENDED: Latin 302 or Greek 301.

DESCRIPTION: Mechanics of researching and writing analytical papers in classical studies. Sectional and adjunct professors present seminal sub-disciplines and model research methods. Specialized library resources taught in practicum. Tutorials with faculty underpin focused research questions.

**Course Outcomes**

There are no course outcomes available

CLSCS 497 : Exit Examination in Classical Literature. (1:1:0)

WHEN TAUGHT: Winter

PREREQUISITE: CLSCS 397; at least one course in Latin or Greek at 400-level.

RECOMMENDED: Coursework above 400-level in Latin and/or Greek.

DESCRIPTION: Capstone essay culminates undergraduate experience in posing, researching, and writing in consultation with an advisor. Oral exam tests familiarity with a standardized reading list of classical texts. Attendance at weekly lectures expands familiarity with broad questions in classical scholarship.

**Course Outcomes**

There are no course outcomes available

**Note:** The Latin 302 course is the prerequisite for all 400-level Latin prose courses and the Latin 301 course is the prerequisite for all 400-level Latin poetry courses. Concurrent enrollment will be permitted only in rare and special cases and must have the approval both of the classics section head and of the instructor of the 400-level course concerned.

5. Complete 12 hours from the following:

CL CV 340R : Topics in Classical Literature and Civilization. (3:3:0)

DESCRIPTION: Classical literary genres; rhetorical, philosophical, and historical writings; relationships of art and literature; or the classical tradition in the Middle Ages and Renaissance. Topics vary.

: Latin Literature in Middle America.

**Course Outcomes**

: Troy in Art and Literature.

**Course Outcomes**

: Early Rome.

**Course Outcomes**

: Classic Historiography.

**Course Outcomes**

: Greek Tragedy.

**Course Outcomes**

: Greek Political Thought.

**Course Outcomes**

: Women in Antiquity.

**Course Outcomes**

: Greek Ethical Thought.

**Course Outcomes**

: Roman Religion.

**Course Outcomes**

: The Etruscans.

**Course Outcomes**

:

**Course Outcomes**

: Roman Art and Culture.

**Course Outcomes**

: Augustan Rome.

**Course Outcomes**

: Christianity and the Empire.

**Course Outcomes**

CLSCS 420 : Ancient Literary Criticism. (3:3:0)

PREREQUISITE: GREEK 302; or LATIN 302

DESCRIPTION: Survey emphasizing both chief works of the tradition and their practical application to reading of Greek and Latin authors.

**Course Outcomes**

No outcomes are available at this time.

CLSCS 430R : (Clscs-Hist) Topics in Greek and Roman History. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Cl Cv 304-Hist 247 and Greek 201 (Greek topics) or Cl Cv 307-Hist 248 and Latin 201 (Roman topics).

DESCRIPTION: Topics vary (e.g., rise of the Greek city-state, Greek political thought, classical historiography, Rome and the Etruscans, imperial Rome).

**Course Outcomes**

There are no course outcomes available

: Greek City-State.

**Course Outcomes**

: Classical Historiography.

**Course Outcomes**

: Hellenistic World.

**Course Outcomes**

: Rome and Etruscans.

**Course Outcomes**

: Rise of Rome.

**Course Outcomes**

: Roman Revolution.

**Course Outcomes**

: Imperial Rome.

**Course Outcomes**

: Roman Politics.

**Course Outcomes**

: Roman Religion.

**Course Outcomes**

: Augustan Rome.

**Course Outcomes**

: Archaic Greece.

**Course Outcomes**

: Athens: Rise and Fall.

**Course Outcomes**

: 4th Century Greece.

**Course Outcomes**

: Late Roman Empire.

**Course Outcomes**

: World of New Testament.

**Course Outcomes**

: Early Christianity.

**Course Outcomes**

: Julio-Claudians.

**Course Outcomes**

CLSCS 490R : Seminar in Classics. (3:3:0)

DESCRIPTION: Combined topics in Greek and Latin (e.g., comparative epic poetry, classical tradition of criticism, Euripides and Seneca). Topics vary.

**Course Outcomes**

No outcomes are available at this time.

LATIN 411R : Latin Vulgate and Early Christian Latin Texts. (3:3:0)

*This major is designed to prepare students to teach in public schools. In order to graduate with this major, students are required to complete Utah State Office of Education licensing requirements. To view these requirements go to http://education.byu.edu/ess/licensing.html or contact Education Student Services, 120 MCKB, (801) 422-3426.*

## Program Requirements | View MAP | View Program Outcomes

1. Grades below C- in professional education courses or content courses will not be accepted in the teaching major or teaching minor. Teacher candidates must have a cumulative 2.85 GPA in teaching major and teaching minor courses to qualify for student teaching.
2. A teaching minor in another subject is strongly recommended. Teaching opportunities in public schools may be significantly reduced without a second teaching subject that a teaching minor provides.
3. Complete the following:

CL CV 246 : Golden Age of Rome. (3:3:0)
WHEN TAUGHT: Winter Even Yrs.
DESCRIPTION: History of Civilization, culture, and daily life of Rome as indicated through its literature, art, history, and archaeology.
NOTE: All readings in English. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

CL CV 307 : (ClCv-Hist 248) Roman History. (3:3:0)
WHEN TAUGHT: Fall
DESCRIPTION: Political, economic, social, and intellectual history of Rome from the foundation of the city to Constantine.

**Course Outcomes**
There are no course outcomes available

4. Complete one of the following options:

**Either**

LATIN 101 : First-Year Latin (First Semester). (4:4:0)
WHEN TAUGHT: Fall

**Course Outcomes**
There are no course outcomes available

LATIN 102 : First-Year Latin (Second Semester). (4:4:0)
WHEN TAUGHT: Winter
PREREQUISITE: LATIN 101; or departmental approval.

**Course Outcomes**
There are no course outcomes available

**Or**

LATIN 111 : Beginning Latin Accelerated. (5:5:0)
OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Equivalent of combined Latin 101, 102.
NOTE: Prepares students for Latin 201.

**Course Outcomes**
There are no course outcomes available

- Icelandic (Iclnd) Courses
- Norwegian (Norwe) Courses

**Note:** Latin 411R may be taken only once.

8. Complete the Professional Education Component:
   - Complete the following:

CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course; FBI fingerprint background clearance.

DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

**Course Outcomes**

- Demonstrate sensitivity to individuals with disabilities.
- Describe the effects of cultural, ethnic, and language diversity on the education of individuals with disabilities
- Describe the steps in the Individual Education Program (IEP) process, including Individualized Transition Plans for students aged 14-22.
- Use research-supported methods for academic instruction of individuals with disabilities including explicit instruction, learning strategies, task analysis, and active participation.
- Describe models and strategies of consultation and collaboration including co-planning and co-teaching.
- Define special education and describe the legal structure of services for individuals with disabilities, including the Individuals with Disabilities Education Act (IDEA).
- Develop a personal philosophy of special education which includes an understanding of the implications of Least Restrictive Environment as defined in IDEA.
- Demonstrate knowledge of basic classroom management theories and an understanding of teacher attitudes and behaviors that influence behavior of individuals with exceptional learning needs.
- Describe the characteristics and educational implications of students with high and low incidence disabilities
- Demonstrate ability to identify and prioritize areas of the general curriculum and provide accommodations for individuals with exceptional learning needs

FLANG 276 : Exploration of Teaching Foreign Languages. (4:2:2)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: FBI fingerprint and background clearance.

DESCRIPTION: Field-based exposure to practices, demands, and issues associated with teaching foreign languages in public secondary schools.

**Course Outcomes**

- Determine if pursuing a personal career in foreign language teaching in public secondary schools is the correct decision.
- Have a developing awareness of what foreign-language students should know and be able to do and of good foreign-language teaching practice.
- Discuss the public purposes of education, related social and political issues, and the benefits of speaking a foreign language.
- Articulate personal motivations for becoming a teacher, as well as recognize potential strengths and weaknesses as a teacher.

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for secondary education settings.

**Course Outcomes**

There are no course outcomes available

SC ED 353 : Multicultural Education. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or Phy S 276 or Engl 276R or Bio 276 or SFL 276R or Hlth 276R or MthEd 276 or PETE 276R or TEE 276A or TEE 276B.

DESCRIPTION: Designing and adapting instruction for diverse learners; collaborating with families, cultures, and communities in promoting and sustaining learning.

**Course Outcomes**

- Students will examine and understand the various dimensions of cultural identity, including one's own, and apply this knowledge to their thinking and behavio through a process of reflection.
- Acknowledge the dynamics of culture and diversity in school success and teachers' teaching. This includes recognizing and overcoming deficit thinking.
- Identify culturally and linguistically relevant pedagogy and use theoretically grounded principles to analyze why it is effective for many different types of learners.
- Interpret the historical context of diversity, discrimination, and language policies and evaluate how they impact current school practices.
- Recognize and acknowledge racism, discrimination and other forms of inquity and privilege in themselves, in others, and within institutions.
- Recognize and use a personal moral spiritual framework along with principles and concepts of social science to guide educational accomplishments for diverse learners.

SC ED 375 : Adolescent Development and Classroom Management. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Sc Ed 276R or Phy S 276 or Engl 276R or Bio 276 or SFL 276R or Hlth 276R or MthEd 276 or PETE 276R or TEE 276A or TEE 276B; or concurrent enrollment.

DESCRIPTION: Analysis of education practice and the relationship between theories and research on development, classroom management, education and the practice of teaching. Focus on adolescent development and an introduction to classroom management.

**Course Outcomes**

There are no course outcomes available

**Note:** FBI fingerprint and background clearance must be completed before enrollment in FLang 276.

- Complete 12 hours from one of the following:

SC ED 476R : Secondary Student-Teaching. (1-12:ARR:ARR)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Completion of all course work or departmental approval; requires a major GPA of 2.85; at least a C- in Sc Ed 377; FBI fingerprint and background clearance.

DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

**Course Outcomes**

- Students will put into practice the theories they have learned in content and pedagogy courses including planning lessons, assessing students of all abilities and cultural backgrounds, using a variety of instructional strategies, and collaborating with other teachers and with the community.

: Secondary Student Teaching - Art.

**Course Outcomes**

: Secondary Student Teaching - Foreign Language. (12:ARR:ARR)

**Course Outcomes**

: Secondary Student Teaching - French.

**Course Outcomes**

: Secondary Student Teaching - Mathematics.

**Course Outcomes**

: Secondary Student Teaching - Physical Science.

**Course Outcomes**

: Secondary Student Teaching - Social Science.

**Course Outcomes**

: Secondary Student Teaching - Spanish.

**Course Outcomes**

SC ED 496R : Academic Internship: Secondary Education. (12:ARR:ARR)

WHEN TAUGHT: Fall

PREREQUISITE: Completion of all course work or departmental approval; requires a major GPA of 2.85; at least a C- in Sc Ed 377; FBI fingerprint and background clearance.

DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

**Course Outcomes**

- Students will demonstrate that they can teach, manage, and assess content area knowledge and skills in the 7-12 classroom.
- Foster relationships with school colleagues, parents, and the larger community.

: Academic Internship: Social Sciences.

**Course Outcomes**

: Academic Internship: English.

**Course Outcomes**

: Academic Internship: Mathematics.

**Course Outcomes**

: Academic Internship: Biological Sciences.

**Course Outcomes**

: Academic Internship: Physical Sciences.

**Course Outcomes**

*Hours include courses that may fulfill university core requirements.

## Undergraduate Courses

### 100-Level Courses

LATIN 101 : First-Year Latin (First Semester). (4:4:0)
WHEN TAUGHT: Fall

**Course Outcomes**
There are no course outcomes available

LATIN 102 : First-Year Latin (Second Semester). (4:4:0)
WHEN TAUGHT: Winter
PREREQUISITE: LATIN 101; or departmental approval.

**Course Outcomes**
There are no course outcomes available

LATIN 111 : Beginning Latin Accelerated. (5:5:0)
OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Equivalent of combined Latin 101, 102.
NOTE: Prepares students for Latin 201.

**Course Outcomes**
There are no course outcomes available

LATIN 121 : Latin for Genealogists. (3:3:0)

**Course Outcomes**
There are no course outcomes available

LATIN 123 : Premedical Latin and Greek. (2:2:0)
NOTE: For premedical and predental students and students in the physical and natural sciences (usually taught in the evening).

**Course Outcomes**
There are no course outcomes available

### 200-Level Courses

LATIN 201 : Intermediate Latin. (4:4:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: LATIN 102; or LATIN 111; or departmental approval.
DESCRIPTION: Readings from Caesar, with a review and continuation of grammar.

**Course Outcomes**
There are no course outcomes available

### 300-Level Courses

LATIN 301 : Classical Latin Poetry. (3:3:0)
WHEN TAUGHT: Winter
PREREQUISITE: LATIN 201

- Icelandic (Iclnd) Courses
- Norwegian (Norwe) Courses
- Swedish (Swed) Courses

**Faculty**

DESCRIPTION: Selections from Vergil's *Aeneid* and Ovid's *Metamorphoses*.

**Course Outcomes**
There are no course outcomes available

LATIN 302 : Classical Latin Prose. (3:3:0)
WHEN TAUGHT: Fall
PREREQUISITE: LATIN 201
DESCRIPTION: Readings in Cicero's Catilinarian orations and Sallust's *Catiline*.

**Course Outcomes**
There are no course outcomes available

LATIN 377 : Secondary Teaching Procedures. (3:3:1)
WHEN TAUGHT: Fall; Winter; Spring Contact Department
PREREQUISITE: SC ED 276R & LATIN 301; or SC ED 276R & LATIN 302
DESCRIPTION: Skills mastery, hearing, speaking, reading, writing, and identification of teacher-pupil activities required for conceptual learning. Lectures, demonstrations, and application of linguistic techniques to practical classroom requirements.

**Course Outcomes**
No outcomes are available at this time.

LATIN 378 : Practicum in Teaching Latin. (1:0:3)
PREREQUISITE: Latin 377 or concurrent enrollment.
DESCRIPTION: Applying methods learned in Latin 377 in the classroom.

**Course Outcomes**
No outcomes are available at this time.

**400-Level Courses**

LATIN 401 : Latin Prose Composition. (3:3:0)
WHEN TAUGHT: Winter Contact Department
PREREQUISITE: LATIN 302; or concurrent enrollment.

**Course Outcomes**
There are no course outcomes available

LATIN 411R : Latin Vulgate and Early Christian Latin Texts. (3:3:0)
PREREQUISITE: LATIN 302
DESCRIPTION: Topics include Latin Vulgate and selections from other early Christian Latin texts.

**Course Outcomes**
No outcomes are available at this time.

LATIN 430 : Livy. (3:3:0)
PREREQUISITE: LATIN 302
DESCRIPTION: Selections from Livy's *Ab Urbe Condita*.

**Course Outcomes**
There are no course outcomes available

LATIN 431 : Vergil. (3:3:0)
PREREQUISITE: LATIN 301

**Course Outcomes**
There are no course outcomes available

LATIN 432 : Ovid. (3:3:0)
PREREQUISITE: LATIN 301

**Course Outcomes**
No outcomes are available at this time.

LATIN 433 : Cicero. (3:3:0)
PREREQUISITE: LATIN 302
DESCRIPTION: Selections from the works of Cicero.

**Course Outcomes**
No outcomes are available at this time.

LATIN 434 : Plautus and Terence. (3:3:0)
PREREQUISITE: LATIN 301

**Course Outcomes**
There are no course outcomes available

LATIN 435 : Catullus. (3:3:0)
PREREQUISITE: LATIN 301

**Course Outcomes**
No outcomes are available at this time.

LATIN 436 : Tragedy and Epic of the Early Empire. (3:3:0)
PREREQUISITE: LATIN 301
DESCRIPTION: Selections from Seneca, Lucan, and the Flavian epic poets.

**Course Outcomes**
No outcomes are available at this time.

LATIN 437 : The Latin Epistle. (3:3:0)
PREREQUISITE: LATIN 302
DESCRIPTION: Letters of Cicero, Seneca, Pliny, and the later tradition.

**Course Outcomes**
There are no course outcomes available

LATIN 438 : Horace. (3:3:0)
PREREQUISITE: LATIN 301

**Course Outcomes**
No outcomes are available at this time.

LATIN 439 : Tacitus. (3:3:0)
PREREQUISITE: LATIN 302

**Course Outcomes**
No outcomes are available at this time.

LATIN 440 : Roman Satire. (3:3:0)
PREREQUISITE: LATIN 301
DESCRIPTION: Selections from Horace, Petronius, and Juvenal.

**Course Outcomes**
No outcomes are available at this time.

LATIN 441 : Medieval Latin. (3:3:0)
PREREQUISITE: LATIN 301 & LATIN 302
DESCRIPTION: Study of particular periods (e.g., Carolingian renaissance, twelfth-century renaissance) or genres (e.g., historiography, epic, autobiography), or survey of medieval Latin.

**Course Outcomes**
No outcomes are available at this time.

LATIN 490R : Topics in Latin Literature. (.5-3:3:0)
DESCRIPTION: Topics vary.

## Undergraduate Courses

### 300-Level Courses

CLSCS 397 : Pro-Seminar in Classical Studies. (2:2:0)

WHEN TAUGHT: Fall
PREREQUISITE: LATIN 201; or GREEK 201
RECOMMENDED: Latin 302 or Greek 301.
DESCRIPTION: Mechanics of researching and writing analytical papers in classical studies. Sectional and adjunct professors present seminal sub-disciplines and model research methods. Specialized library resources taught in practicum. Tutorials with faculty underpin focused research questions.

**Course Outcomes**

There are no course outcomes available

### 400-Level Courses

CLSCS 420 : Ancient Literary Criticism. (3:3:0)

PREREQUISITE: GREEK 302; or LATIN 302
DESCRIPTION: Survey emphasizing both chief works of the tradition and their practical application to reading of Greek and Latin authors.

**Course Outcomes**

No outcomes are available at this time.

CLSCS 430R : (Clscs-Hist) Topics in Greek and Roman History. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Cl Cv 304-Hist 247 and Greek 201 (Greek topics) or Cl Cv 307-Hist 248 and Latin 201 (Roman topics).
DESCRIPTION: Topics vary (e.g., rise of the Greek city-state, Greek political thought, classical historiography, Rome and the Etruscans, imperial Rome).

**Course Outcomes**

There are no course outcomes available

: Greek City-State.

**Course Outcomes**

: Classical Historiography.

**Course Outcomes**

: Hellenistic World.

**Course Outcomes**

: Rome and Etruscans.

**Course Outcomes**

: Rise of Rome.

**Course Outcomes**

: Roman Revolution.

**Course Outcomes**

: Imperial Rome.

**Course Outcomes**

- Icelandic (Iclnd) Courses
- Norwegian (Norwe) Courses
- Swedish (Swed) Courses

**Faculty**

: Roman Politics.

**Course Outcomes**

: Roman Religion.

**Course Outcomes**

: Augustan Rome.

**Course Outcomes**

: Archaic Greece.

**Course Outcomes**

: Athens: Rise and Fall.

**Course Outcomes**

: 4th Century Greece.

**Course Outcomes**

: Late Roman Empire.

**Course Outcomes**

: World of New Testament.

**Course Outcomes**

: Early Christianity.

**Course Outcomes**

: Julio-Claudians.

**Course Outcomes**

CLSCS 490R : Seminar in Classics. (3:3:0)

DESCRIPTION: Combined topics in Greek and Latin (e.g., comparative epic poetry, classical tradition of criticism, Euripides and Seneca). Topics vary.

**Course Outcomes**

No outcomes are available at this time.

CLSCS 497 : Exit Examination in Classical Literature. (1:1:0)

WHEN TAUGHT: Winter

PREREQUISITE: CLSCS 397; at least one course in Latin or Greek at 400-level.

RECOMMENDED: Coursework above 400-level in Latin and/or Greek.

DESCRIPTION: Capstone essay culminates undergraduate experience in posing, researching, and writing in consultation with an advisor. Oral exam tests familiarity with a standardized reading list of classical texts. Attendance at weekly lectures expands familiarity with broad questions in classical scholarship.

# Comparative Literature

## The Discipline

Comparative Literature is the study of literature in its totality. The Comparative Literature major not only acquaints students with literary study beyond the confines of any particular national tradition but also with the relationship between literature and other areas of knowledge. Combining the synthesizing skills and knowledge related to individual national literatures, the comparative literature major utilizes a wide range of linguistic and philosophical knowledge unique to an undergraduate program. Pursued as a major, the field offers students unusual latitude in developing a broad and full program in the liberal arts, as well as developing competence in reasoning, language, writing, and research—essential for later independent learning.

## Career Opportunities

Comparative Literature majors are well prepared for graduate programs in languages and literature and for employment in the foreign service, library science, business, education, and tourism. In addition, comparative literature is an outstanding preprofessional major for those interested in law, public administration, management, and medicine.

# BA in Comparative Literature (37–57 hours*)

Show All Course Descriptions
Hide All Course Descriptions

## Program Requirements | View MAP | View Program Outcomes

1. Acquire a thorough knowledge of two language traditions relevant to individual program of study (one of these may be English for students who emphasize the Anglo-American literary tradition)(approximately 16–32 hours). Competence will normally be demonstrated in course work, but an examination may be required. If planning advanced work in comparative literature, students should gain reading knowledge of both an additional modern language and a classical language.

2. Complete a reading list (determined in consultation with a faculty advisor) and submit a writing portfolio. During the final semester enroll in CmLit 497 to complete a written examination on the reading list and to have the portfolio reviewed.

   CmLit 201 & 202 or CmLit 211 & 212 are strongly recommended, in part because the reading list core consists of texts treated in these courses. Students who do not complete a literature-based civilization sequence are at a disadvantage in working systematically through the list.

3. Course configuration must be approved by department advisor.

4. Complete the following:

   CMLIT 310 : Introduction to Literary Analysis and Comparative Literature. (3:3:0)
   PREREQUISITE: Reading knowledge of at least one foreign language.
   DESCRIPTION: Methods of literary analysis, emphasizing basic issues of comparative literature and prosody and other problems related to foreign language texts.

   **Course Outcomes**
   There are no course outcomes available

   CMLIT 342 : Asian Literary Traditions. (3:3:0)
   DESCRIPTION: Comparative analysis of Asian literary works spanning several traditions.

   **Course Outcomes**
   There are no course outcomes available

   CMLIT 497 : Reading List Examination. (1:1:0)
   PREREQUISITE: CMLIT 310 & CMLIT 342; Three 400-level seminars.

   **Course Outcomes**
   There are no course outcomes available

   **Note:** CmLit 310 and reading knowledge of at least one foreign language are prerequisite to all upper-division comparative literature courses. In addition, completion of 342 and three comparative literature 400-level seminars is prerequisite to 497.

5. Complete five courses from the following:

   CMLIT 420R : Studies in Periods and Movements. (3:3:0)
   PREREQUISITE: CmLit 310 or Hum 350 or concurrent enrollment.
   DESCRIPTION: Topics vary.

   **Course Outcomes**
   There are no course outcomes available

   : Medieval Literature.
   **Course Outcomes**

   : Renaissance Literature.
   **Course Outcomes**

   : Neoclassicism.
   **Course Outcomes**

- Icelandic (Iclnd) Courses
- Norwegian (Norwe) Courses
- Swedish (Swed) Courses

**Faculty**

: Romanticism.

**Course Outcomes**

: Realism.

**Course Outcomes**

: Symbolism.

**Course Outcomes**

: 20th-Century Literature.

**Course Outcomes**

: Classics and Early America.

**Course Outcomes**

: 17th-Century Literature.

**Course Outcomes**

: Modernism.

**Course Outcomes**

: 12th-Century Renaissance.

**Course Outcomes**

: 18th-Century Literature.

**Course Outcomes**

: Postmodernism.

**Course Outcomes**

CMLIT 430R : Studies in Literary Genres. (3:3:0)

PREREQUISITE: CmLit 310 or concurrent enrollment.

DESCRIPTION: Various genres (e.g., novel, epic, tragedy) and problems of genre. Topics vary.

**Course Outcomes**

No outcomes are available at this time.

: Lyric.

**Course Outcomes**

: Tragedy.

**Course Outcomes**

:

**Course Outcomes**

: Novel.

**Course Outcomes**

: Comedy.

PREREQUISITE: CmLit 310 or concurrent enrollment.

DESCRIPTION: Topics vary.

**Course Outcomes**

There are no course outcomes available

: Classical Rhetoric and Criticism.

**Course Outcomes**

: Practical Criticism.

**Course Outcomes**

: Historical Literary Theory.

**Course Outcomes**

: Contemporary Theory.

**Course Outcomes**

:

**Course Outcomes**

6. Complete one of the following options:

**Either** complete a literature course in Greek or Latin

**Or** complete one course from the following:

CL CV 110 : Introduction to Greek and Roman Literature. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter
DESCRIPTION: Homer's *Iliad*, Sophocles' *Oedipus the King*, Vergil's *Aeneid*, and other important works of the Greeks and Romans.
NOTE: All readings in English. Honors also.

**Course Outcomes**

There are no course outcomes available

CL CV 241 : Greek and Roman Mythology. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Greek and Roman gods, heroes, and myths, emphasizing literature but also giving attention to representations in the visual arts.

**Course Outcomes**

There are no course outcomes available

: Honors Greek and Roman Mythology.

**Course Outcomes**

CL CV 355 : (ClCv-Engl) Greek and Roman Classics and the English Tradition. (3:3:0)

WHEN TAUGHT: Fall
DESCRIPTION: Major works by such authors as Homer, the Greek and Roman tragedians, Thucydides, Vergil, and Petronius in English translation, emphasizing their influence on English and American literature.

**Course Outcomes**

There are no course outcomes available

7. The following courses deal with texts in the original language. These courses must be in addition to previous requirements. Although English courses may be taken, courses must be taken in at least one other language as well. Complete 12 hours from the following:

ARAB 424R : Modern Arabic Literature. (2:2:0)

WHEN TAUGHT: Winter
DESCRIPTION: Readings in modern Arabic literature.

**Course Outcomes**

- Students will demonstrate their knowledge and understanding of major works and genres in verbal and written forms.
- Students will demonstrate their understanding of the major issues of Modern Arabic Literature.
- Students will demonstrate an ability to understand and analyze the linguistic features of important Arabic literary texts.

ARAB 425R : Classical Arabic Texts. (2:2:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

DESCRIPTION: Quran, Hadith, Sira, Adab.

**Course Outcomes**

- Students will demonstrate their understanding of the human aspects of premodern literature.
- Students will demonstrate their knowledge and understanding of major works and genres.
- Students will be able to analyze and discuss the influence of the pre-modern language on present-day Arabic.

ARAB 531R : Advanced Topics in Arabic. (.5-3:5:0)

PREREQUISITE: Instructor's consent.

DESCRIPTION: Advanced studies in Arabic language and literature.

**Course Outcomes**

There are no course outcomes available

CHIN 441 : Classical and Literary Chinese. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: Chin 301 or equivalent.

DESCRIPTION: Introduction to syntax and stylistic patterns.

**Course Outcomes**

- Explain the use of the common grammatical particles and patterns essential in mastering the intricacies and subtleties of "classical" Chinese prose (see Chinese major expected learning outcome 3).
- Discuss and apply the meanings and usages of the standard vocabulary of classical Chinese (see Chinese major expected learning outcome 3).
- Summarize the thought of each important early thinker (see Chinese major expected learning outcome 3).

CHIN 442 : Classical and Literary Chinese. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: CHIN 441

DESCRIPTION: Introduction to syntax and stylistic patterns.

**Course Outcomes**

- Read, analyze, and discuss documentary Chinese prose (see Chinese major expected learning outcome 3).
- Compare and contrast the literary craftsmanship exhibited by the writers of documentary Chinese and discuss traditional Chinese history, literature, and religion (see Chinese major expected learning outcome 3).
- Explain the use of the basic grammatical particles introduced in Chin 441, learn some more advanced ones, and practice using them in new contexts (see Chinese major expected learning outcome 3).

CHIN 443 : Modern Chinese Literature. (3:3:0)

PREREQUISITE: Chin 321 or 322.

DESCRIPTION: Authors, themes, and writing styles of the period 1915--1949. Texts in Chinese.

**Course Outcomes**

- Read, analyze, and discuss Chinese literary texts from the modern (1900-1949) period in Chinese (see Chinese major expected learning outcomes 2 and 3).
- Discuss modern Chinese literary texts in Chinese with fluency and increasing sophistication, demonstrating facility for expressing subjective judgments on literature and other abstract topics in Chinese (see Chinese major expected learning outcomes 1-3).
- Analyze and discuss modern Chinese literary genres, works and authors in their social, historical, and religious contexts (see Chinese major expected learning outcome 3).

CHIN 444 : Contemporary Chinese Literature. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: Chin 321 or 322.

DESCRIPTION: Contemporary literature of Taiwan and the PRC. Texts in Chinese.

**Course Outcomes**

- Read, analyze, and write about Chinese literary texts from the contemporary (1949-present) period in Chinese (see Chinese major expected learning outcomes 2 and 3).
- Discuss contemporary Chinese literary texts in Chinese with fluency and increasing sophistication, demonstrating facility for expressing subjective judgments on literature and other abstract topics in Chinese (see Chinese major expected learning outcomes 1 and 3).
- Analyze and discuss contemporary Chinese literary genres, works and authors in their social, historical, and religious contexts (see Chinese major expected learning outcome 3).

CHIN 445R : Chinese Poetry. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: CHIN 343 & CHIN 441

DESCRIPTION: Readings in Chinese poetry. Topics vary from classical and modern poetry. Various themes and genres introduced, emphasizing shi poetry. Texts in Chinese.

**Course Outcomes**

There are no course outcomes available

DANSH 340 : Danish Literature. (3:3:.5)

WHEN TAUGHT: Winter Odd Yrs.

RECOMMENDED: Dansh 321 or equivalent experience.

DESCRIPTION: Readings in Danish literature; introduction to basic literary concepts. Includes International Cinema.

NOTE: Culminating course for GE Foreign Language requirement.

**Course Outcomes**

There are no course outcomes available

DUTCH 340 : Introduction to Dutch Literature. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Dutch 201 or foreign residence.

DESCRIPTION: Readings from the best Dutch literature. Introduction to basic literary concepts.

NOTE: Entry course for returned missionaries or others of equivalent language experience. Required course for obtaining language credit by examination. May fulfill the GE Languages of Learning requirement.

**Course Outcomes**

There are no course outcomes available

ENGL 333 : The English Novel. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: ENGL 292 & ENGL 295; or ENGL 294 & ENGL 295; Engl 291. (Engl 293 may also be a prerequisite option.)

DESCRIPTION: Novels selected according to time period or theme from the past three centuries.

**Course Outcomes**

- Analyze selected British novels in order to create a foundation for the further study of literature.
- Explain the general formal and historical development of the British novel and define a coherent approach to the study of British novels.
- Form a research strategy appropriate to the study of British novels, independently locate relevant digital and print sources, and draw upon these sources to develop a focused and effective written argument about a British novel(s).
- Produce polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

ENGL 336 : The American Novel. (3:3:0)

OFFERED: Independent Study also.

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: ENGL 293 & ENGL 295; or ENGL 294 & ENGL 295; Engl 291. (Engl 292 may also be a prerequisite option.)

DESCRIPTION: Representative novels of the American tradition from the late eighteenth century to the present.

**Course Outcomes**

- Analyze selected American novels in order to create a foundation for the further study of literature.
- Explain the general formal and historical development of the American novel and define a coherent approach to the study of American novels.
- Form a research strategy appropriate to the study of American novels, independently locate relevant digital and print sources, and draw upon these sources to develop a focused and effective written argument about an American novel(s).
- Produce polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

ENGL 337R : Advanced Studies in Genre. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ENGL 251 & ENGL 295

DESCRIPTION: Advanced studies in fiction, drama, poetry, or creative nonfiction.

**Course Outcomes**

- Read critically and analyze selected literary texts selected with a specific genre focus (poetry, drama, personal essay, etc.).
- Form a research strategy appropriate to the texts and genre studied in the course, independently locate relevant digital and print sources, and draw upon these to develop an effective written argument about the texts studied.
- Produce polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

ENGL 341 : English Drama: Beginnings to 1800, Excluding Shakespeare. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ENGL 251 & ENGL 291 & ENGL 295

DESCRIPTION: Selected plays from medieval, Tudor, Stuart, Restoration, and 18th-century drama.

**Course Outcomes**

- Understand in general, and in several details, the development of drama in England, and, in your writing, intelligently discuss major developments, continuities, or turning points.
- Demonstrate a sure knowledge of the plays we read, and be able to interpret those plays.
- Explain the significance of specific passages and elements of each play.
- Relate selected theoretical ideas to your understanding of the plays we read.

ENGL 343 : Modern English and American Drama. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ENGL 251 & ENGL 295

**Course Outcomes**

- Read critically and analyze selected dramatic texts along with critical and/or interpretative texts.
- Form a research strategy appropriate to the study of drama, independently locate relevant digital and print sources, and draw upon these to develop an effective written argument about the texts studied.
- Produce polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

: Modern British Drama.

**Course Outcomes**

: Modern American Drama.

**Course Outcomes**

ENGL 355 : (Engl-ClCv) Greek and Roman Classics and the English Tradition. (3:3:0)

WHEN TAUGHT: Contact Department.

DESCRIPTION: Major works by such authors as Homer, the Greek and Roman tragedians, Thucydides, Vergil, and Petronius in English translation, emphasizing their influence on English and American literature.

**Course Outcomes**

- Read critically and analyze selected classical texts in translation in the context of English literature.
- Produce polished, competent, formal writing, free from distracting errors in mechanics, syntax, and formatting, and in accordance with MLA formatting and citation guidelines.

ENGL 358R : Ethnic Literatures. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ENGL 251 & ENGL 295

DESCRIPTION: Study of literary texts representative of a thoughtfully focused dimension of a given ethnic group.

- Acquire basic skills for reading and transcribing manuscript documents written in Italian from the Early Modern period.

JAPAN 441 : Introduction to Classical Japanese. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: JAPAN 321 & JAPAN 322

DESCRIPTION: Reading of premodern texts, emphasizing grammar and syntax, and showing differences from and influences on the modern idiom.

**Course Outcomes**

- Students will be able to analyze and discuss the influence of the pre-modern language on present-day Japanese.
- Students will read and analyze the content and linguistic features of important premodern literary texts. A writing sample will be included in the individual student portfolio.

JAPAN 444 : Reading Modern Japan. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Japan 321, 322; or equivalents.

DESCRIPTION: Fictional texts from major twentieth-century authors. Texts primarily in Japanese.

**Course Outcomes**

- Students will demonstrate their ability to read and interpret modern literary texts with sophistication in both oral and written forms. A writing sample will be included in the individual student portfolio.

KOREA 340 : Korean Literature to 1900. (3:4:0)

WHEN TAUGHT: Fall

PREREQUISITE: KOREA 302

DESCRIPTION: Korean literature from the earliest times to 1900. Emphasis on basic literary concepts.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Students will learn of the wide range of literary genre available in Korea prior to the 20th century.
- Students will learn at least five styles of poetry common in Korea from the Silla period to the late Joseon period, including hyangga, Chinese (Tang) poetry, sijo, gasa, and the poetry of the Yongbi-eo cheon'ga.
- Fiction, in the form of tales, legends, fables, and uniquely Korean "pansori" novels will become familiar to students in this course.

KOREA 441 : Classical Korean (Hanmun). (3:4:0)

WHEN TAUGHT: Fall

PREREQUISITE: KOREA 321; or CHIN 441

DESCRIPTION: Reading of premodern, documentary Sino-Korean texts, including genealogy records and the Chosŏn Dynasty Annals.

**Course Outcomes**

- Students will learn to read academic journals articles, reference works, genealogies, and other primary source documents, all of which contain Sino-Korean vocabulary.This course will assist students who work for the government or need to take advanced proficiency test to do well and excel on such tests in their future professions.

KOREA 443 : Korean Literature after 1900. (3:4:0)

WHEN TAUGHT: Winter

PREREQUISITE: KOREA 302
DESCRIPTION: Literary texts from major post-1900 authors, in Korean, emphasizing reading, translating, and criticism.

**Course Outcomes**

- Students will learn of the poetry, short stories and novels of the 20th and 21st centuries.Major literature from Korea before the division in 1945, and post-division in South Korea (with a little readings of North Korean literature) will be covered.

KOREA 495 : Senior Seminar. (2:2:0)
WHEN TAUGHT: Winter
DESCRIPTION: Individual research, with seminar paper the primary objective.
NOTE: Required for Korean majors.

**Course Outcomes**

- Students will present their finest research and writing. In some cases they will develop a paper written earlier in their career; in other cases, they will start afresh -- but the outcome will be a publishable (or near-publishable) piece of excellence in writing and research.

LATIN 411R : Latin Vulgate and Early Christian Latin Texts. (3:3:0)
PREREQUISITE: LATIN 302
DESCRIPTION: Topics include Latin Vulgate and selections from other early Christian Latin texts.

**Course Outcomes**

No outcomes are available at this time.

LATIN 430 : Livy. (3:3:0)
PREREQUISITE: LATIN 302
DESCRIPTION: Selections from Livy's *Ab Urbe Condita*.

**Course Outcomes**

There are no course outcomes available

LATIN 431 : Vergil. (3:3:0)
PREREQUISITE: LATIN 301

**Course Outcomes**

There are no course outcomes available

LATIN 432 : Ovid. (3:3:0)
PREREQUISITE: LATIN 301

**Course Outcomes**

No outcomes are available at this time.

LATIN 433 : Cicero. (3:3:0)
PREREQUISITE: LATIN 302
DESCRIPTION: Selections from the works of Cicero.

**Course Outcomes**

No outcomes are available at this time.

LATIN 434 : Plautus and Terence. (3:3:0)
PREREQUISITE: LATIN 301

**Course Outcomes**

There are no course outcomes available

LATIN 435 : Catullus. (3:3:0)
PREREQUISITE: LATIN 301

**Course Outcomes**

No outcomes are available at this time.

LATIN 436 : Tragedy and Epic of the Early Empire. (3:3:0)
PREREQUISITE: LATIN 301
DESCRIPTION: Selections from Seneca, Lucan, and the Flavian epic poets.

**Course Outcomes**

No outcomes are available at this time.

LATIN 437 : The Latin Epistle. (3:3:0)
PREREQUISITE: LATIN 302
DESCRIPTION: Letters of Cicero, Seneca, Pliny, and the later tradition.

**Course Outcomes**
There are no course outcomes available

LATIN 438 : Horace. (3:3:0)
PREREQUISITE: LATIN 301

**Course Outcomes**
No outcomes are available at this time.

LATIN 439 : Tacitus. (3:3:0)
PREREQUISITE: LATIN 302

**Course Outcomes**
No outcomes are available at this time.

LATIN 440 : Roman Satire. (3:3:0)
PREREQUISITE: LATIN 301
DESCRIPTION: Selections from Horace, Petronius, and Juvenal.

**Course Outcomes**
No outcomes are available at this time.

LATIN 441 : Medieval Latin. (3:3:0)
PREREQUISITE: LATIN 301 & LATIN 302
DESCRIPTION: Study of particular periods (e.g., Carolingian renaissance, twelfth-century renaissance) or genres (e.g., historiography, epic, autobiography), or survey of medieval Latin.

**Course Outcomes**
No outcomes are available at this time.

LATIN 490R : Topics in Latin Literature. (.5-3:3:0)
DESCRIPTION: Topics vary.

**Course Outcomes**
There are no course outcomes available

NORWE 340 : Norwegian Literature. (3:3:.5)
WHEN TAUGHT: Winter Even Yrs.
DESCRIPTION: Readings in Norwegian literature; introduction to basic literary concepts. Includes International Cinema.
NOTE: Culminating course for GE Foreign Language requirement.

**Course Outcomes**
There are no course outcomes available

PHIL 414R : Topics in the Advanced Philosophy of Art, Architecture, Music, and Film. (3:3:0)
WHEN TAUGHT: Contact Department.
PREREQUISITE: Phil 300.
DESCRIPTION: Topics and figures in the philosophy of art, architecture, music, and film.

**Course Outcomes**
There are no course outcomes available

PORT 441 : Survey of Portuguese Literature. (3:3:0)
WHEN TAUGHT: Contact Department.
PREREQUISITE: PORT 339
DESCRIPTION: Literary periods, genres, and great writers of Portugal.

**Course Outcomes**

- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 442 : Camoes. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: PORT 441

**Course Outcomes**

- Demonstrate thorough understanding of Portuguese literary history, the context for the work of Camões and its reception.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.)
- Develop advanced skills in research techniques and academic writing.

PORT 449R : Special Topics in Portuguese Literature. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: PORT 441

DESCRIPTION: Specific topics in Portuguese (Peninsular) literature. Course content will vary each semester to offer optimum exposure to all areas of Portuguese literature.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Portuguese Literature special topics.

PORT 451 : Survey of Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Literary periods, genres, and great writers of Brazil.

**Course Outcomes**

- Define and recognize the periods, areas of specialization, significant authors, schools or movements of Brazilian literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Brazilian literature.
- Write essays in Portuguese, including a final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 452 : Machado de Assis. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: PORT 451

**Course Outcomes**

- Demonstrate thorough understanding of Brazilian literary history, the cultural context for the work of Machado de Assis, and the reception of Machado's work.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.).
- Develop advanced skills in research techniques and academic writing.

PORT 453 : Twentieth-Century Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: PORT 451

**Course Outcomes**

- Demonstrate thorough understanding of twentieth-century literary history in Brazil.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.).
- Develop advanced skills in research techniques and academic writing.

PORT 459R : Special Topics in Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PORT 451

DESCRIPTION: Specific topics in Portuguese (Brazilian) literature. Course content will vary each semester to offer optimum exposure to all areas of Brazilian literature.

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Brazilian literary texts.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Develop the habits and skills for Brazilian literary study that inspire continued learning.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 461R : African Literature in Portuguese. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Modern authors from the five African nations whose official language is Portuguese: Angola, Cabo Verde, Guine Bissau, Mozambique, and the two-island republic Sao Tome and Principe. Authors include Jose Craveirinha, Mia Couto, Noemia de Sousa, Jose Tenreiro, Castro Soromenho, Luandino Vieira, Pepetala, and Baltasar Lopes, among others.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Develop the habits and skills for Luso-African literary study that inspire continued learning.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Luso-African literary texts.

PORT 462R : Literature of the Lusophone World. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Authors from the eight nations whose official language is Portuguese, plus former colonies and present regions of important Portuguese influence. These include Luso-American and Azorean writers, as well as authors from East Timor (formerly Indonesia), Goa (India), and Macau (China).

- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.

RUSS 441 : Masterpieces of Russian Literature 1. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: RUSS 321 & RUSS 322 & RUSS 340

DESCRIPTION: Survey of shorter masterpieces in Russian.

**Course Outcomes**

There are no course outcomes available

RUSS 442 : Masterpieces of Russian Literature 2. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: RUSS 321 & RUSS 322 & RUSS 340

DESCRIPTION: Survey of shorter masterpieces in Russian.

**Course Outcomes**

There are no course outcomes available

RUSS 490R : Special Studies in Russian. (.5-3:ARR:0)

PREREQUISITE: Instructor's consent.

DESCRIPTION: Variable credit for individual or group study as approved for special circumstances.

**Course Outcomes**

There are no course outcomes available

RUSS 492R : Senior Seminar: Passages and Conclusions. (2:2:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: RUSS 441; or RUSS 442

DESCRIPTION: In-depth study of a limited area of literature or language. Content varies; requires research and writing.

**Course Outcomes**

There are no course outcomes available

SPAN 438 : Hispanic Cinema. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 339
DESCRIPTION: Introduction to study of film; background in appreciating best of motion picture art in Spain and Spanish America.
NOTE: Previous experience with film useful but not required.

**Course Outcomes**

- Students will demonstrate a mastery of basic tools of film analysis through the study of a variety of films from the various film industries from Spain and Spanish America.
- Students will write cogent, persuasive essays of literary interpretation.
- Students will demonstate the ability to speak and write in Spanish about film with a reasonable degree of grammatical correctness and fluency.

SPAN 439R : Hispanic Theatre Production. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Director's consent
DESCRIPTION: Theory and practice of dramatic performance. Includes participation in play to be performed during semester.
NOTE: No more than 3 hours of 439R credit may count toward any degree.

**Course Outcomes**

There are no course outcomes available

SPAN 440 : Medieval Spanish Literature. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.
PREREQUISITE: SPAN 441
DESCRIPTION: Spanish literature from *El Cantar de Mio Cid* (1140) through *La Celestina* (1499).

**Course Outcomes**

There are no course outcomes available

SPAN 441 : Survey of Spanish Literature. (3:3:0)

OFFERED: Independent Study also.
WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: SPAN 339
DESCRIPTION: Literary masterpieces of Spain.

**Course Outcomes**

There are no course outcomes available

SPAN 443R : Golden Age Literature. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.; Spring
PREREQUISITE: SPAN 441
DESCRIPTION: Sixteenth- and seventeenth-century Spanish literature.

**Course Outcomes**

- Students will be able to demonstrate knowledge about one or more authors from the 16th and/or 17th centuries.
- Students will be able to analyze the texts studied in terms of the historical, cultural, and literary context of the Early Modern world.

SPAN 454R : The Spanish American Novel. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Selected Spanish-American novelists such as Juan Rulfo, Gabriel Garcia Marquez, Alejo Carpentier, Mario Vargas-Llosa, etc.

**Course Outcomes**

There are no course outcomes available

SPAN 455R : Spanish-American Poetry. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Selected Spanish-American poets, movements, and national traditions.

**Course Outcomes**

- Demonstrate critical acuity in interpreting individual poems, making appropriate reference to formal poetic devices.
- Demonstrate a grasp of the historical, social, and literary contexts of the poems and poets studied.
- Express one's insights in a research paper which makes appropriate use of secondary sources.

SPAN 456R : Spanish American Drama. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Twentieth-century theatre from Spanish America and Brazil.

**Course Outcomes**

There are no course outcomes available

SPAN 458R : Hispanic-American Short Story. (3:3:0)

WHEN TAUGHT: Contact Department. Fall Odd Yrs.

PREREQUISITE: SPAN 451

DESCRIPTION: Introduction and development of an important literary genre in Spanish America, including works of Jorge Luis Borges, Julio Cortazar, Juan Rulfo, Gabriel Garcia Marquez, etc.

**Course Outcomes**

- Master basic bibliographical techniques related to the short story genre.
- Demonstrate a firm grasp of the formal aspects of the short story genre.
- Gain a working knowledge of the history and principal figures of the Spanish American short story.

SPAN 459R : Special Topics in Spanish American Literature. (3:3:0)

WHEN TAUGHT: Contact Department. ; Spring Even Yrs.

PREREQUISITE: SPAN 451

DESCRIPTION: Specific topics in Latin American literature. Course content will vary each semester to offer optimum exposure to all areas of Latin American literature.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Spanish, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Spanish literary study that inspire continued learning.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to special topics in Spanish-American Literature.

SPAN 461 : Spanish-Speaking American (Mexican-American) Literature. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Even Yrs.; Spring Contact Department; Summer Contact Department

PREREQUISITE: SPAN 451

DESCRIPTION: Spanish-English literature of the Mexican-American within the United States.

**Course Outcomes**

- Demonstrate thorough understanding of the history of Mexican-American literary history.
- Develop advanced skills in research techniques and academic writing.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Mexican-American Literature.

SWED 340 : Swedish Literature. (3:3:.5)

WHEN TAUGHT: Winter

RECOMMENDED: Swed 321 or equivalent experience.

DESCRIPTION: Readings in Swedish literature: introduction to basic literary concepts. Includes International Cinema.

NOTE: Culminating course for GE Foreign Language requirement.

**Course Outcomes**

- Students should better know how to understand, interpret, and thoughtfully reflect upon the literature and art they will encounter in later life.
- Students should be able to insightfully analyze important literary and artistic works from Swedish cultural history and be able to communicate this analysis through articulate and well-organized written and oral presentations in Swedish. Students will also develop basic research skills.
- Students should understand key historical trends and works from Swedish culture, recognize connections between these works, and be able to relate them to the development of contemporary cultural developments.
- Students will be able to relate the ideas and issues raised by the works studied in class to their own cultural situation as well as to their experience with contemporary Swedish culture. They will reflect upon and develop an appreciation for the expression of ideas that make up Swedish cultural history and even value the expression of perspectives and opinions they do not necessarily share.

*Hours include courses that may fulfill university core requirements.

## Program Requirements

1. Complete the prerequisite courses for one of the languages listed below or have equivalent experience.
2. Complete one course from the following:

DANSH 321 : Advanced Danish. (3:3:0)
WHEN TAUGHT: Fall Even Yrs.
PREREQUISITE: Dansh 202 or equivalent experience.
DESCRIPTION: Third-year course in Danish. Developing advanced language skills in speaking, reading, listening, and writing as defined by ACTFL standards.
NOTE: Entry course for returned missionaries or others with equivalent Danish language experience. Required course for obtaining language credit by examination (Dansh 101, 102, 201, 211R).

**Course Outcomes**
There are no course outcomes available

FINN 321 : Third-Year Finnish. (3:3:0)
WHEN TAUGHT: Fall Even Yrs.
PREREQUISITE: Finn 202 or equivalent experience.
DESCRIPTION: Third-year course in Finnish. Developing intermediate language skills in speaking, reading, listening, and writing as defined by ACTFL standards.
NOTE: Entry course for returned missionaries or others with equivalent Finnish language experience. Required course for obtaining language credit by examination (Finn 101, 102, 201, 211R).

**Course Outcomes**
There are no course outcomes available

ICLND 202 : Second-Year Icelandic. (4:5:1)
WHEN TAUGHT: Winter Odd Yrs.
PREREQUISITE: ICLND 201
DESCRIPTION: Emphasis on literature and culture with continued writing, grammar, listening, and speaking.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

NORWE 321 : Advanced Norwegian. (3:3:0)
WHEN TAUGHT: Fall Odd Yrs.
PREREQUISITE: Norwe 202 or equivalent experience.
DESCRIPTION: Third-year course in Norwegian. Developing advanced language skills in speaking, reading, listening, and writing as defined by ACTFL standards.
NOTE: Entry course for returned missionaries or others with equivalent Norwegian language experience. Required course for obtaining language credit by examination (Norwe 101, 102, 201, 211R).

**Course Outcomes**
There are no course outcomes available

SWED 321 : Advanced Swedish. (3:3:0)
WHEN TAUGHT: Fall
PREREQUISITE: Swed 202 or equivalent experience.
DESCRIPTION: Third-year course in Swedish. Developing advanced language skills in speaking, reading, listening, and writing as defined by ACTFL standards.
NOTE: Entry course for returned missionaries or others with equivalent Swedish language experience.

- Icelandic (Iclnd) Courses
- Norwegian (Norwe) Courses
- Swedish (Swed) Courses

**Faculty**

Required course for obtaining language credit by examination (Swed 101, 102, 201, 211R).

**Course Outcomes**

There are no course outcomes available

3. Complete one course from the following:

DANSH 340 : Danish Literature. (3:3:.5)

WHEN TAUGHT: Winter Odd Yrs.
RECOMMENDED: Dansh 321 or equivalent experience.
DESCRIPTION: Readings in Danish literature; introduction to basic literary concepts. Includes International Cinema.
NOTE: Culminating course for GE Foreign Language requirement.

**Course Outcomes**

There are no course outcomes available

FINN 340 : Finnish Literature. (3:3:0)

WHEN TAUGHT: Winter Odd Yrs.
RECOMMENDED: Finn 321 or equivalent experience.
DESCRIPTION: Readings in Finnish literature; introduction to basic literary concepts. Includes International Cinema.
NOTE: Culminating course for GE Foreign Language requirement.

**Course Outcomes**

There are no course outcomes available

ICLND 429 : Old Icelandic Language and Literature. (3:3:0)

WHEN TAUGHT: Winter Odd Yrs.
PREREQUISITE: Iclnd 201 or equivalent experience.
DESCRIPTION: Readings and exercises in Old Icelandic; introduction to Old Icelandic literature and its influence on later Icelandic culture.
NOTE: Entry course for returned missionaries or others with equivalent Icelandic language experience. Required course for obtaining language credit by examination (Iclnd 101, 102, 201, 211R). Culminating course for GE Foreign Language requirement.

**Course Outcomes**

There are no course outcomes available

NORWE 340 : Norwegian Literature. (3:3:.5)

WHEN TAUGHT: Winter Even Yrs.
DESCRIPTION: Readings in Norwegian literature; introduction to basic literary concepts. Includes International Cinema.
NOTE: Culminating course for GE Foreign Language requirement.

**Course Outcomes**

There are no course outcomes available

SWED 340 : Swedish Literature. (3:3:.5)

WHEN TAUGHT: Winter
RECOMMENDED: Swed 321 or equivalent experience.
DESCRIPTION: Readings in Swedish literature: introduction to basic literary concepts. Includes International Cinema.
NOTE: Culminating course for GE Foreign Language requirement.

**Course Outcomes**

- Students should better know how to understand, interpret, and thoughtfully reflect upon the literature and art they will encounter in later life.
- Students should be able to insightfully analyze important literary and artistic works from Swedish cultural history and be able to communicate this analysis through articulate and well-organized written and oral presentations in Swedish. Students will also develop basic research skills.
- Students should understand key historical trends and works from Swedish culture, recognize connections between these works, and be able to relate them to the development of contemporary cultural developments.
- Students will be able to relate the ideas and issues raised by the works studied in class to their own cultural situation as well as to their experience with contemporary Swedish culture. They will reflect upon and develop an appreciation for the expression of ideas that make up Swedish cultural history and even value the expression of perspectives and opinions they do not necessarily share.

4. Complete the following:

SCAND 430 : Cultural History of Scandinavia. (3:3:0)

WHEN TAUGHT: Winter
DESCRIPTION: Scandinavian culture from the Vikings to the present.

NOTE: Works may be read in English translation.

**Course Outcomes**

There are no course outcomes available

5. Complete six hours from the following:

HIST 332 : Scandinavian History. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Political, social, religious, cultural, and economic factors in Denmark, Finland, Iceland, Norway, and Sweden from Viking era to present highly developed society.

**Course Outcomes**

- Students will be able to learn about Scandinavian history from prehistoric times through to the Viking Age, Middle Ages/Renaissance to the Era of Swedish Great Power Politics and Great Northern War, in the 1600s and early 1700s.
- Students will be able to learn about the big picture of Scandinavian history from the period of the Napoleonic Wars (esp. Napoleon's erstwhile general, Bernadotte, later King of Sweden-Norway), Industrialization of the North, nationalistic movements and periods of Swedish-Norwegian and russo-Finnish union, through the World Wars and establishment of the Modern Welfare state (since the 1920s)

SCAND 217 : (Scand-Germ) German and Scandinavian Cinema. (3:3:3)

WHEN TAUGHT: Fall

RECOMMENDED: A first-year writing course.

DESCRIPTION: Background for understanding and appreciating the best of motion picture art in Germany and Scandinavia.

NOTE: Language of instruction is English; no knowledge of German or Scandinavian languages is required. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

There are no course outcomes available

SCAND 332 : Cultural History of the Vikings. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

DESCRIPTION: History of art, literature, mythology, culture, and society in medieval Scandinavia.

**Course Outcomes**

There are no course outcomes available

SCAND 337 : Works of Hans Christian Andersen. (3:3:0)

WHEN TAUGHT: Fall Even Yrs.

DESCRIPTION: Study of the life, works, and times of Danish author Hans Christian Andersen.

**Course Outcomes**

No outcomes are available at this time.

SCAND 344R : Topics in Scandinavian Studies. (3:3:.5)

DESCRIPTION: Topic varies. Typical topics might be folklore, culture, music, film, emigration, art and design, political and economic problems, literature in translation, etc. Includes International Cinema.

**Course Outcomes**

There are no course outcomes available

SCAND 377 : Methods in Teaching Nordic Languages. (3:3:2)

WHEN TAUGHT: Fall

PREREQUISITE: Must have an assignment teaching a Nordic language class or instructor's consent.

DESCRIPTION: Prior or concurrent enrollment in this course required for student instructors of Nordic languages. Focuses on teaching skills specific to foreign language instruction in beginning and intermediate language courses.

**Course Outcomes**

No outcomes are available at this time.

SCAND 429 : Old Norse. (3:3:0)

WHEN TAUGHT: Winter Odd Yrs.

RECOMMENDED: Knowledge of a modern Scandinavian language.

DESCRIPTION: Grammar and exercises. Readings in Old Norse literature.

NOTE: Returned missionaries from Iceland or those with equivalent experience should enroll in Iclnd 429.

**Course Outcomes**

There are no course outcomes available

(may not be taken by students who have had Iclnd 429)

SCAND 490R : Seminar in Scandinavian Studies. (.5-3:ARR:.5)

PREREQUISITE: Reading knowledge of at least one Scandinavian language.

DESCRIPTION: Topics vary. Includes International Cinema.

**Course Outcomes**

There are no course outcomes available

SCAND 491R : Directed Readings in Scandinavian. (.5-3:ARR:ARR)

RECOMMENDED: Written plan of study approved by both instructor and program coordinator.

DESCRIPTION: Directed individual study.

**Course Outcomes**

There are no course outcomes available

Up to three credit hours of the following may be used:

DANSH 399R : Academic Internship. (.5-9:0:0)

PREREQUISITE: Department's consent.

DESCRIPTION: On-the-job experience in Danish.

**Course Outcomes**

No outcomes are available at this time.

FINN 399R : Academic Internship. (.5-9:0:0)

PREREQUISITE: Department's consent.

DESCRIPTION: On-the-job experience in Finnish.

**Course Outcomes**

No outcomes are available at this time.

ICLND 399R : Academic Internship. (.5-9:0:0)

PREREQUISITE: Department's consent.

DESCRIPTION: On-the-job experience in Icelandic.

**Course Outcomes**

No outcomes are available at this time.

NORWE 399R : Academic Internship. (.5-9:0:0)

PREREQUISITE: Department's consent.

DESCRIPTION: On-the-job experience in Norwegian.

**Course Outcomes**

No outcomes are available at this time.

SWED 399R : Academic Internship. (.5-9:0:0)

PREREQUISITE: Department's consent.

DESCRIPTION: On-the-job experience in Swedish.

**Course Outcomes**

There are no course outcomes available

A literature course in a language different from that taken in item 1 above:

Dansh 340.
Finn 340.
Iclnd 429 (may not be taken by students who have had Scand 429).
Norwe 340.
Swed 340.

*Hours include courses that may fulfill university core requirements.

# Danish Language Certificate (9 hours)

Show All Course Descriptions
Hide All Course Descriptions

*This Language Certificate program is administered by the Center for Language Studies (3086 JFSB), http://languagecertificate.byu.edu.*

Any matriculated (degree-seeking) BYU student who meets the proficiency and course requirements may earn the Danish Language Certificate. The proficiency requirement is met through the nationally recognized ACTFL Oral and Writing Proficiency Exams. Qualifying students will be awarded a certificate on one of three levels based on the following:

1. Advanced Certificate: An ACTFL "Advanced" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
2. Mastery Certificate: An ACTFL "Advanced High" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
3. Professional Certificate: An ACTFL "Superior" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.

## Required Courses:

**Note:** Students who have completed all of the coursework required for a language major or a language minor will also have satisfied the coursework requirement for the language certificate.

1. Language - complete the following:

   DANSH 321 : Advanced Danish. (3:3:0)

   WHEN TAUGHT: Fall Even Yrs.
   PREREQUISITE: Dansh 202 or equivalent experience.
   DESCRIPTION: Third-year course in Danish. Developing advanced language skills in speaking, reading, listening, and writing as defined by ACTFL standards.
   NOTE: Entry course for returned missionaries or others with equivalent Danish language experience. Required course for obtaining language credit by examination (Dansh 101, 102, 201, 211R).

   **Course Outcomes**

## Undergraduate Courses

### 100-Level Courses

DANSH 101 : First-Year Danish. (4:5:1.5)
WHEN TAUGHT: Fall Even Yrs.
DESCRIPTION: Basic language skills. Includes International Cinema.

**Course Outcomes**
There are no course outcomes available

DANSH 102 : First-Year Danish. (4:5:1.5)
WHEN TAUGHT: Winter Odd Yrs.
DESCRIPTION: Basic language skills. Includes International Cinema.

**Course Outcomes**
There are no course outcomes available

### 200-Level Courses

DANSH 201 : Second-Year Danish. (4:5:1.5)
WHEN TAUGHT: Fall Odd Yrs.
PREREQUISITE: Dansh 102 or equivalent experience.
DESCRIPTION: Conversation, vocabulary building, and reading and writing skills, emphasizing reading. Includes International Cinema.

**Course Outcomes**
There are no course outcomes available

DANSH 202 : Second Year Danish. (4:5:1)
WHEN TAUGHT: Winter Even Yrs.
PREREQUISITE: DANSH 201
DESCRIPTION: Emphasis on literature and culture with continued writing, grammar, listening, and speaking. Includes International Cinema.
NOTE: Culminating course for GE Foreign Language requirement (except for returned missionaries or those with equivalent experience). This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
There are no course outcomes available

DANSH 211R : Second-Year Conversation. (.5-5:ARR:ARR)
PREREQUISITE: Dansh 102 or equivalent experience.
DESCRIPTION: Intermediate listening comprehension and speaking skills.

**Course Outcomes**
No outcomes are available at this time.

### 300-Level Courses

DANSH 311R : Third-Year Conversation. (.5-5:ARR:ARR)
PREREQUISITE: Dansh 211R or equivalent experience.
DESCRIPTION: Advanced conversational skills.

- Icelandic (Iclnd) Courses
- Norwegian (Norwe) Courses
- Swedish (Swed) Courses

**Faculty**

**Course Outcomes**

No outcomes are available at this time.

There are no course outcomes available

SWED 340 : Swedish Literature. (3:3:.5)

WHEN TAUGHT: Winter

RECOMMENDED: Swed 321 or equivalent experience.

DESCRIPTION: Readings in Swedish literature: introduction to basic literary concepts. Includes International Cinema.

NOTE: Culminating course for GE Foreign Language requirement.

**Course Outcomes**

- Students should better know how to understand, interpret, and thoughtfully reflect upon the literature and art they will encounter in later life.
- Students should be able to insightfully analyze important literary and artistic works from Swedish cultural history and be able to communicate this analysis through articulate and well-organized written and oral presentations in Swedish. Students will also develop basic research skills.
- Students should understand key historical trends and works from Swedish culture, recognize connections between these works, and be able to relate them to the development of contemporary cultural developments.
- Students will be able to relate the ideas and issues raised by the works studied in class to their own cultural situation as well as to their experience with contemporary Swedish culture. They will reflect upon and develop an appreciation for the expression of ideas that make up Swedish cultural history and even value the expression of perspectives and opinions they do not necessarily share.

SWED 399R : Academic Internship. (.5-9:0:0)

PREREQUISITE: Department's consent.

DESCRIPTION: On-the-job experience in Swedish.

## Undergraduate Courses

### 100-Level Courses

HCOLL 110 : Introduction to the College of Humanities. (1:1.0:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Introductory course to provide an understanding of the Humanities within the context of the Gospel, the academy, the global economy and students' lives. Students learn about strategies and resources to connect humanities to careers.

**Course Outcomes**

There are no course outcomes available

### 200-Level Courses

HCOLL 290R : International Cinema. (1.5:1:4)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Students will view significant films and discuss them in a seminar setting in order to increase cultural awareness, enrich language acquisition, enhance critical analysis abilities, and develop understanding of cinematic art.

**Course Outcomes**

There are no course outcomes available

### 300-Level Courses

HCOLL 396R : Humanities Leadership Development. (1-2:Arr:0)

PREREQUISITE: Instructor's consent.

DESCRIPTION: Discussion and practice in leadership and service in the humanities, including planning, decision-making, communications, teamwork, and motivation.

**Course Outcomes**

- Learn skills that will enable service on the Humanities student council
- Practice leadership while serving on the Humanities student council.

### 400-Level Courses

HCOLL 480R : Humanities Research Seminar. (1-3:ARR:0)

DESCRIPTION: Research, writing, and discussion exploring enduring questions from perspectives offered by humanities disciplines.

**Course Outcomes**

No outcomes are available at this time.

: Readings in Humanities and Leadership.

**Course Outcomes**

HCOLL 490R : Humanities Lecture Series. (1:1:0)

WHEN TAUGHT: Contact Department.

DESCRIPTION: Lecture and discussion by scholars in the humanities, with supplementary reading and writing.

**Course Outcomes**

No outcomes are available at this time.

HCOLL 494R : Humanities On-campus Experiential Projects. (3:0.5:Arr)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Practical, on-campus (not in the field) projects in which education is directly applied to real-world solutions for companies and other organizations. Students apply and are accepted to work on specific projects based on their skills, interests, and major emphasis.

**Course Outcomes**

There are no course outcomes available

## General Information

The Center supports the College of Humanities by augmenting the list of languages taught by other departments. Not all classes are taught at every level every semester. **(Please see the Class Schedule for a listing of classes currently offered.)**

Some of the languages have their own "teaching area" (where you will find them in the drop-down menu during registration), while others are listed under "FLANG" (for Foreign Language). The "teaching area" abbreviation for each language is listed below in parentheses.

Afrikaans (AFRIK)
Akan (FLANG)
Albanian (FLANG)
American Sign Language (ASL)
Arabic (ARAB)
Armenian (FLANG)
Aymara (FLANG)
Basque (FLANG)
Bicolano (FLANG)
Bulgarian (BULGN)
Burmese (FLANG)
Cakchiquel (FLANG)
Cambodian (FLANG)
Cantonese (CANT)
Catalan (FLANG)
Cebuano (FLANG)
Croatian (FLANG)
Czech (CZECH)
Danish (DANSH)
Dari (FLANG)
Dutch (DUTCH)
Estonian (FLANG)
Fijian (FLANG)
Finnish (FINN)
French (FREN)
Ga (FLANG)
Georgian (FLANG)
German (GERM)
Greek (Classical) (GREEK)
Guarani (FLANG)
Haitian Creole (FLANG)
Hawaiian (FLANG)
Hebrew (HEB)
Hindi (FLANG)
Hmong (FLANG)
Hungarian (HUNG)
Icelandic (ICLND)
Ilangot (FLANG)
Ilocano (FLANG)
Ilonggo/Hiligaynon (FLANG)
Indonesian (FLANG)
Italian (ITAL)
Japanese (JAPAN)
Javanese (FLANG)
Kazakh (FLANG)
K'iche (FLANG)
Korean (KOREA)
Laotian (FLANG)
Latin (LATIN)
Latvian (LATVI)
Lithuanian (LITHU)
Malagasy (FLANG)
Malay (FLANG)
Mandarin (CHIN)
Maori (FLANG)
Marshallese (FLANG)
Maya (FLANG)
Mongolian (FLANG)
Navajo (FLANG)
Niuean (FLANG)
Norwegian (NORWE)
Pashto (FLANG)
Persian (FLANG)
Polish (POLSH)
Portuguese (PORT)
Quechua (FLANG)
Rarotongan (FLANG)
Romanian (ROM)
Russian (RUSS)
Samoan (FLANG)
Serbian (FLANG)
Slovenian (SLN)
Spanish (SPAN)
Swahili (FLANG)
Swedish (SWED)
Tagalog (FLANG)
Tahitian (FLANG)
Taiwanese (FLANG)
Tamil (FLANG)
Thai (FLANG)
Tibetan (FLANG)
Tongan (FLANG)
Trukese (FLANG)
Turkish (FLANG)
Twi (FLANG)
Ukrainian (UKRAI)
Urdu (FLANG)
Vanuatau (FLANG)
Vietnamese (FLANG)
Waray-Waray (FLANG)
Welsh (WELSH & FLANG)
Xhosa (FLANG)

## Advanced Language and Culture Courses (for returned missionaries and others of comparable ability)

The advanced language and culture courses are a popular enrollment option for returned missionaries and others of comparable ability.

During this course, students are offered the opportunity to take a Challenge Examination whereby they may bypass beginning language classes and earn up to 16 graded credits.

**Note 1:** If the course is not offered at the time the student is interested in taking the Challenge Exam, the student has the option of taking the FLATS tests (through the Foreign Language Achievement Testing Service) on campus. However, that test only offers 12 pass/fail credits. **Once the FLATS test is taken for pass/fail credit it may not be reevaluated for graded credit, *nor* may the Challenge Exam be taken at a later date.** (See http://flats.byu.edu for details.)

**Note 2:** Students may not take a FLATS test during any semester in which a "challenge exam course" for the targeted language is being offered.

**Note 3:** Many of these advanced language and culture courses satisfy the Languages of Learning (and/or other) GE requirements. Be sure to check the GE website to confirm the possibilities.

### Advanced language and culture courses for returned missionaries (note "teaching area" acronym used for registration found here in parentheses):

Albanian (FLANG) 330
Armenian (FLANG) 330
Bulgarian (BULGN) 330
Cambodian (FLANG) 330
Cantonese (CANT) 202
Cebuano (FLANG) 330
Croatian (FLANG) 330
Czech (CZECH) 330
Danish (DANSH) 340
Dutch (DUTCH) 340
Estonian (FLANG) 330
Fijian (FLANG) 330
Finnish (FINN) 340
French (FREN) 321
Georgian (FLANG) 330
German (GERM) 330
Guarani (FLANG) 330
Hmong (FLANG) 330
Hungarian (HUNG) 330
Icelandic (ICLND) 429
Ilonggo/Hiligaynon (FLANG) 330
Indonesian (FLANG) 330
Italian (ITAL) 321
Japanese (JAPAN) 300, 302
Korean (KOREA) 301
Latvian (LATVI) 330
Lituanian (LITHU) 330
Malagasy (FLANG) 330
Malay (FLANG) 330
Mandarin Chinese (CHIN) 112, 201, 202
Mongolian (FLANG) 330
Norwegian (NORWE) 340
Polish (POLSH) 330
Portuguese (PORT) 321
Romanian (ROM) 340
Russian (RUSS) 330
Samoan (FLANG) 330
Serbian (FLANG) 330
Slovenian (SLN) 330
Spanish (SPAN) 321
Swedish (SWED) 340
Tagalog (FLANG) 330
Tahitian (FLANG) 300
Thai (FLANG) 330
Tongan (FLANG) 330
Ukrainian (UKRAI) 330
Vietnamese (FLANG) 330

## BYU Language Certificate Program

The Center for Language Studies administers the BYU Language Certificate program. This program is designed to certify a student's language proficiency (through oral and written assessments) as well as a limited academic experience (only three courses are required).

We currently offer the Language Certificate in the following languages:

Arabic, Chinese, Japanese, Korean
French, Italian
German, Russian
Spanish, Portuguese
Danish, Finnish, Norwegian, Swedish

Visit the website (http://languagecertificate.byu.edu) to read about the program.

## Undergraduate Courses

### 100-Level Courses

AFRIK 101 : First-Year Afrikaans. (4:5:1)
DESCRIPTION: Basic language skills.

**Course Outcomes**
There are no course outcomes available

AFRIK 102 : First-Year Afrikaans. (4:5:1)
PREREQUISITE: AFRIK 101
DESCRIPTION: Basic language skills.
NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**
There are no course outcomes available

### 200-Level Courses

AFRIK 201 : Second-Year Afrikaans. (4:5:1)
PREREQUISITE: AFRIK 102
DESCRIPTION: Conversation, vocabulary building, and reading and writing skills, emphasizing reading.
NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**
No outcomes are available at this time.

AFRIK 202 : Second-Year Afrikaans. (4:5:1)
PREREQUISITE: AFRIK 201; Teacher may waive prerequisite based on prior experience.
DESCRIPTION: Emphasis on literature and culture with continued writing, grammar, listening, and speaking.
NOTE: Culminating course for Languages of Learning requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**
No outcomes are available at this time.

AFRIK 211R : Second-Year Conversation. (.5-5:ARR:ARR)
PREREQUISITE: AFRIK 201
DESCRIPTION: Intermediate listening comprehension and speaking skills.
NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**
No outcomes are available at this time.

### 300-Level Courses

AFRIK 311R : Third-Year Conversation. (.5-5:ARR:ARR)
PREREQUISITE: AFRIK 202
DESCRIPTION: Advanced conversational skills.
NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**

No outcomes are available at this time.

## Undergraduate Courses

### 100-Level Courses

ASL 101 : First-Year American Sign Language. (4:4:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: First in a series of courses which focuses on acquiring basic ASL skills, both receptive and expressive. An introduction to the Deaf community and culture will be provided.

NOTE: Intended for students with little or no experience in ASL.

**Course Outcomes**

There are no course outcomes available

ASL 102 : First-Year American Sign Language. (4:4:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: ASL 101

DESCRIPTION: Second in a series of courses which focuses on acquiring basic ASL skills, both receptive and expressive. An introduction to the Deaf community and culture will be provided.

NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**

- Be able to converse naturally using selected vocabulary.
- Be able to develop and use appropriate classifiers.
- Be able to develop and use appropriate ASL structure.
- Be able to identify and explain selected culture rules.
- able to answer questions about selected films.

ASL 111 : American Sign Language Fingerspelling. (2:2:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ASL 102

DESCRIPTION: Improve ability to comprehend and communicate using various ASL fingerspelling styles.

NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**

- Fingerspell smoothly.
- Identify and use various fingerspelling styles.
- Read fingerspelling of various styles.
- Identify the characteristics of lexicalization.

ASL 112 : American Sign Language Numbering. (2:2:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ASL 102

DESCRIPTION: Improve ability to comprehend and communicate using various ASL numbering styles.

NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**

- Sign numbers smoothly.
- Identify and use various numbering styles.
- Read fingerspelling of various styles.
- Sign numbers with correct sign parameters.

### 200-Level Courses

ASL 201 : Second-Year American Sign Language. (4:4:1)

WHEN Fall; Winter; Spring; Summer

TAUGHT:
PREREQUISITE: ASL 102
DESCRIPTION: Third in a series of courses which focuses on developing intermediate ASL skills, both receptive and expressive. Increased focus on the role that ASL plays in the lives of the Deaf community.
NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**
There are no course outcomes available

ASL 202 : Second-Year American Sign Language. (4:4:1)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: ASL 201; Teacher may waive prerequisite based on prior experience.
DESCRIPTION: Fourth in a series of courses which focuses on developing intermediate ASL skills, both receptive and expressive. Increased focus on the role that ASL plays in the lives of the Deaf community.
NOTE: Culminating course for GE Languages of Learning requirement. Required course for obtaining language credit by examination.

**Course Outcomes**
There are no course outcomes available

### 300-Level Courses

ASL 301 : Advanced American Sign Language and Culture. (4:4:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: ASL 202
DESCRIPTION: Fifth in a series of five courses which aims to increase interpersonal, receptive, and presentational ASL skills in the context of society and culture of the Deaf community.
NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**
There are no course outcomes available

ASL 302 : Deaf Literature. (3:3:0)
WHEN TAUGHT: Winter
PREREQUISITE: ASL 301
DESCRIPTION: Various genres of Deaf literature. Introduction to analysis of ASL literary works.
NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**
There are no course outcomes available

### 400-Level Courses

ASL 431 : Introduction to American Sign Language Linguistics. (3:3:0)
WHEN TAUGHT: Fall Contact Department; Winter Contact Department
PREREQUISITE: ASL 301 or equivalent.
RECOMMENDED: ASL 302 or concurrent enrollment.
DESCRIPTION: Designed for students who have acquired a good mastery of ASL. This course explores the dynamics of ASL linguistics, including basic simillarities between ASL and other languages.

**Course Outcomes**
There are no course outcomes available

ASL 432 : Introduction to American Sign Language Interpreting. (3:3:1)
WHEN TAUGHT: Winter Contact Department
PREREQUISITE: ASL 431
DESCRIPTION: An introduction to the profession of interpreting, the Code of Professional Conduct, interpreting protocol, and interpreting issues.
NOTE: Teacher may waive prerequisite based on prior experience.

LATVI 102 : First-Year Latvian. (4:5:1)
PREREQUISITE: LATVI 101
NOTE: Credit by examination only. Teacher may waive prerequisite based on prior experience.

**Course Outcomes**
No outcomes are available at this time.

### 200-Level Courses

LATVI 201 : Second-Year Latvian. (4:5:1)
PREREQUISITE: LATVI 102
NOTE: Credit by examination only. Teacher may waive prerequisite based on prior experience.

**Course Outcomes**
No outcomes are available at this time.

LATVI 211R : Second-Year Conversation. (.5-5:ARR:ARR)
PREREQUISITE: LATVI 201
NOTE: Credit by examination only. Teacher may waive prerequisite based on prior experience.

**Course Outcomes**
No outcomes are available at this time.

### 300-Level Courses

LATVI 330 : Cultural History of Latvia. (3:3:1)
PREREQUISITE: Latvi 201 or foreign residence experience.
NOTE: Entry course for returned missionaries or others of equivalent language experience. Required course for obtaining language credit by examination. May fulfill the GE Languages of Learning requirement.

**Course Outcomes**
- In both written and spoken target language, communicate accurately with well educated members of the target-culture about real-world activities.
- Understand detailed written and verbal instructions. Comprehend historical passages, newspaper and magazine articles, and broadcast news reports well educated native speakers encounter routinely in their daily life.
- Acquire background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.). Discuss in the target language cultural practices related to major life events in the target culture (birth, marriage, death, etc.).
- Fulfills the GE "Languages of Learning" requirements.

## Undergraduate Courses

### 100-Level Courses

POLSH 101 : First-Year Polish. (4:5:1)

DESCRIPTION: Basic language skills.

**Course Outcomes**

- Speak the target language well enough to satisfy immediate needs related to basic social situations, simple transactions, basic food and lodging, and routine travel.
- Understand written and spoken target language relating to familiar topics.
- In the target language, write short, simple messages consisting of structurally-accurate sentences on familiar topics.
- Function appropriately in routine, familiar situations in the target culture.

POLSH 102 : First-Year Polish. (4:5:1)

PREREQUISITE: POLSH 101

DESCRIPTION: Continuation of Polsh 101.

NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**

- Speak the target language well enough to satisfy immediate needs related to basic social situations, simple transactions, basic food and lodging, and routine travel.
- Understand written and spoken target language relating to familiar topics.
- In the target language, write short, simple messages consisting of structurally-accurate sentences on familiar topics.
- Function appropriately in routine, familiar situations in the target culture.

### 200-Level Courses

POLSH 201 : Second-Year Polish. (4:5:1)

PREREQUISITE: POLSH 102

DESCRIPTION: Conversation, vocabulary building, and reading and writing skills, emphasizing reading.

NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**

- Create structurally-accurate, elaborated utterances and begin to group utterances into paragraphs and narratives. Do this in present, past and future time.
- Broaden vocabulary for both reception (listening and reading comprehension) and production (speaking and writing).
- Review and increase understanding of basic language structures.
- Discuss in the target language common products and practices related to every-day life in the target culture.

POLSH 202 : Second-Year Polish. (4:5:1)

PREREQUISITE: POLSH 201; Teacher may waive prerequisite based on prior experience.

DESCRIPTION: Emphasis on literature and culture with continued writing, grammar, listening, and speaking.

NOTE: Culminating course for Languages of Learning requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.
- Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.
- Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).
- Meet GE "Languages of Learning" requirements.

POLSH 211R : Second-Year Conversation. (.5-5:ARR:ARR)

PREREQUISITE: POLSH 201

DESCRIPTION: Intermediate listening comprehension and speaking skills.

NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**

- Speak comfortably about predictable, familiar topics related to daily activities; this includes the ability to Initiate, maintain, and close simple conversations and to ask and respond to simple questions.
- Carry out “survival” transactions (shopping, getting directions, ordering meals, etc.)
- Be understood by native speakers unaccustomed to dealing with non-native speakers.

### 300-Level Courses

POLSH 311R : Third-Year Conversation. (.5-5:ARR:ARR)

PREREQUISITE: POLSH 211R

DESCRIPTION: Advanced conversational skills.

NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**

- Speak comfortably about predictable, familiar topics related to daily activities and current events; this includes the ability to Initiate, maintain, and close simple conversations and to ask and respond to simple questions
- Begin to speak in "oral paragraphs."
- Apply appropriate strategies to deal with unpredictable language situations.
- Be understood by native speakers unaccustomed to dealing with non-native speakers.

POLSH 330 : Cultural History of Poland. (3:3:1)

PREREQUISITE: Polsh 202 or foreign residence experience.

NOTE: Entry course for returned missionaries or others of equivalent language experience. Required course for obtaining language credit by examination. May fulfill the GE Languages of Learning requirement.

**Course Outcomes**

- In both written and spoken target language, communicate accurately with well educated members of the target-culture about real-world activities.
- Understand detailed written and verbal instructions. Comprehend historical passages, newspaper and magazine articles, and broadcast news reports well educated native speakers encounter routinely in their daily life.
- Acquire background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.). Discuss in the target language cultural practices related to major life events in the target culture (birth, marriage, death, etc.).
- Fulfills the GE "Languages of Learning" requirements.Fulfills the GE "Languages of Learning" requirements.

POLSH 340 : Polish Literature Survey. (3:3:0)

PREREQUISITE: POLSH 330

DESCRIPTION: Survey of Polish literature from Kochanowski to Szymborska, including works by Rej, Krasicki, Mickiewicz, Slowacki, Norwid, Prus, Sienkiewicz, Zeromski, Reymont, and others.

NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**

- Recognize and analyze the most important genres in target-language literature.
- Identify and discuss key characteristics of the most important literary movements in the target culture.
- Place literature in a meaningful cultural and historical context.
- Improve target-language reading, writing, and speaking skills.

DESCRIPTION: Continued emphasis on communication skills, vocabulary building, and cultural awareness.
NOTE: Culminating course for GE Languages of Learning requirement. Not an entry course for returned missionaries. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- In both written and spoken target language, communicate with reasonable accuracy about real-world activities with well-educated members of the target-culture accustomed to dealing with non-native speakers.Meet all program-level outcomes.
- Understand every-day written and verbal instructions. Comprehend concrete details and global meaning of intermediate-level written and spoken passages related to familiar topics that native speakers encounter routinely in their daily life.
- Discuss in the target language cultural practices related to every-day life in the target culture. Acquire basic background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.).
- Meet GE "Languages of Learning" requirements.

FLANG 276 : Exploration of Teaching Foreign Languages. (4:2:2)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: FBI fingerprint and background clearance.

DESCRIPTION: Field-based exposure to practices, demands, and issues associated with teaching foreign languages in public secondary schools.

**Course Outcomes**

- Determine if pursuing a personal career in foreign language teaching in public secondary schools is the correct decision.
- Have a developing awareness of what foreign-language students should know and be able to do and of good foreign-language teaching practice.
- Discuss the public purposes of education, related social and political issues, and the benefits of speaking a foreign language.
- Articulate personal motivations for becoming a teacher, as well as recognize potential strengths and weaknesses as a teacher.

**300-Level Courses**

FLANG 300 : Foundations of Dual Language and Immersion Education. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Historical overview, theoretical and research foundations for dual language and immersion education; practical application of theory and research in immersion programs.

**Course Outcomes**

- Discuss theoretical principles and research findings that underlie dual language and immersion education
- Explain differences and similarities between one-way, two-way, developmental bilingual and indigenous language immersion programs
- Summarize key principles of first and second language learning in dual language and immersion classrooms
- Discuss the social and political contexts for dual language education and their implications for classrooms and programs
- Synthesize lessons that can be learned from dual language and immersion programs around the world

FLANG 305R : Language Skills Development. (1-4:Arr:Arr)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Instructor's consent.

DESCRIPTION: Increasing proficiency in one or more of the following target-language or target-culture skills: speaking, listening, reading, writing, cultural awareness.

**Course Outcomes**

- Use the specific language skill at the level required to meet the "special" foreign-language need defined by the Center for Language Studies.

FLANG 321R : Advanced Grammar. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: FLANG 202R; Teacher may waive prerequisite based on prior experience.

DESCRIPTION: Systematic review of grammar and syntax of target language.

**Course Outcomes**

- Apply grammar rules with accuracy to a variety of advanced grammatical and communicative tasks.
- Analyze target language morphology and syntax.
- Function as independent learners of the target language by using proper terms and appropriate resources for language analysis.

FLANG 330R : Advanced Language Proficiency Through Cultural Studies. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: FLang 202R or equivalent in same language.

DESCRIPTION: Study of target language culture(s) using interpersonal, presentational, and interpretive skills in the target language.

NOTE: Entry course for returned missionaries or others of equivalent language experience. Required course for obtaining language credit by examination. May fulfill the GE Languages of Learning requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- In both written and spoken target language, communicate accurately with well educated members of the

target-culture about real-world activities.
- Understand detailed written and verbal instructions. Comprehend historical passages, newspaper and magazine articles, and broadcast news reports well educated native speakers encounter routinely in their daily life.
- Acquire background knowledge of important achievements related to the target culture (historical figures and events, major literary and artistic movements, government and religious institutions, etc.). Discuss in the target language cultural practices related to major life events in the target culture (birth, marriage, death, etc.).
- Fulfills the GE "Languages of Learning" requirements.

FLANG 340R : Introduction to Literature. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: FLang 330R in same language.
DESCRIPTION: Advanced study of literature of target language. Continued emphasis on communication skills and culture.
NOTE: Teacher may waive prerequisite based on prior experience.

**Course Outcomes**

No outcomes are available at this time.

: Introduction to Literature: Albanian.

**Course Outcomes**

: Introduction to Literature: Armenian.

**Course Outcomes**

: Introduction to Literature: Aymara.

**Course Outcomes**

: Introduction to Literature: Basque.

**Course Outcomes**

: Introduction to Literature: Cambodian.

FLANG 350R : Advanced Language Study for Career Purposes. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: FLang 330R in same language.
DESCRIPTION: Concentration on target-language and target-culture issues for specific careers.

**Course Outcomes**

No outcomes are available at this time.

FLANG 377R : Foreign Language Teaching Methods. (1-3:Arr:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Native- or advanced-level proficiency in the target language.
DESCRIPTION: Teaching methods specific to teaching less commonly taught language courses. Lectures, demonstrations, and microteaching. Topics include curriculum/lesson planning, reflective teaching, and communicative language teaching.
NOTE: Prospective teachers and TAs shoiuld take this course before or while teaching the target language course.

**Course Outcomes**

- Design and deliver effective target-language instruction appropriate to learners' needs.
- Discuss and apply basic principles of second-language acquisition.

- Discuss and apply basic principles of formal and informal assessment.
- Reflect on and justify instructional choices and actions.

**400-Level Courses**

FLANG 490R : Special Studies in Second Language Applications. (1-3:Arr:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Instructor's consent.

DESCRIPTION: Faculty-supervised instruction for advanced students. Individual or group study. Course work established by contract and director's approval.

**Course Outcomes**

- Meet learning outcomes specified by the Center for Language Studies relative to a specific language application.

## Admission to Degree Program

All undergraduate degree programs in the Department of Linguistics and English Language are open enrollment.

## The Discipline

Linguistics is the study of language in all its aspects—from speech sounds to sentence formation to meaning; from how language is organized and used in a social setting to how it is organized and processed in the brain or by computers. Linguists study language form, language change, language acquisition, and even the texts in which language is recorded. Linguists recognize that the communicative power of language is what brings cohesion to all human enterprises. For the student interested in the nature of language, linguistics is the subject to study.

The science of linguistics has many real-world applications, including translation, information storage/retrieval, lexicography, editing, and language teaching. In addition to its majors in general linguistics and in English language, BYU's Department of Linguistics and English Language offers undergraduate minor programs (as well as graduate degrees) in several of these areas.

## Career Opportunities

A linguistics degree with an emphasis in computers may lead to jobs in high technology, e.g., machine translation, information retrieval, speech recognition and production software, and lexicography. Linguistics is also recognized as a strong specialization for those pursuing a career in military intelligence or technical writing.

The English language major is in many ways similar to the linguistics major, though its focus is more specifically on English linguistics. The major provides useful preparation for careers that require special attention to the English language, such as advertising and technical writing. The English language major along with a TESOL or editing minor is an especially strong combination.

The teaching of English to speakers of other languages is an applied linguistics area of high demand, both within the United States and around the world. Both a TESOL minor and TESOL undergraduate certificate are offered by the department.

In addition, the linguistics and English language majors are excellent preparations for those planning graduate studies in areas as diverse as law, international business, tourism, library science, TESOL, communicative disorders, and speech pathology, not to mention graduate studies in specific languages or in linguistics itself.

## General Information

The Department of Linguistics and English Language strongly recommends that StDev 317, a 1-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

## Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- At least 30 credit hours must be earned in residence on the BYU campus in Provo as an admitted day student
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

## Undergraduate Programs and Degrees

**BA in English Language** (Program Outcomes)
**BA in Linguistics** (Program Outcomes)

**Minor in Editing**
**Minor in Linguistics**
**Minor in TESOL**

**Certificate in TESOL**

Students should see their college advisement center for help or information concerning the undergraduate programs.

## Program Requirements | View MAP | View Program Outcomes

1. Complete the following prerequisite to all courses required for the English language major:

ELANG 223 : Introduction to the English Language. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Overview of English from linguistic point of view, emphasizing structure of English and social, biological, and psychological aspects of language.

**Course Outcomes**
- Students will have acquired basic analytical tools in core areas of linguistics: phonology, morphology, syntax, semantics, and pragmatics.
- Students will be able to apply these analytical tools to English language data of various types, such as those involving aspects of variation, acquisition, and historical change.

2. Complete the following core courses:

ELANG 273 : Empirical Methods in English Linguistics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ELang 223 or concurrent enrollment.

DESCRIPTION: The use of large collections of texts for teaching and particularly for research, including the study of many different types of linguistic variation.

**Course Outcomes**
- Students will be able to carry out library and online research to investigate findings by other linguists.
- Students will be able to organize linguistic data, construct and test hypotheses about it, and report the findings.
- Students will be able to distinguish empirical from introspective-based research and apply both (either separately or in conjunction with each other) for research topics.
- Students will be able to recognize and begin to apply statistical measures.
- Students will acquire authentic linguistic data from native speakers through appropriately selected computer corpora (collections of texts) as well as through other methods such as interviews, surveys, recordings, etc., and effectively extract the relevant data

ELANG 322 : Modern American Usage. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: ELang 223 or Ling 201 or concurrent enrollment.

DESCRIPTION: Current conventions and effective use of American English.

**Course Outcomes**
- Students will be able to identify and use multiple approaches to evaluating English usage.
- Students will be able to identify and use the most appropriate tools for each approach.
- Students will be able to evaluate the validity of prescriptive rules by using these approaches and tools.

ELANG 324 : History of the English Language. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: ELang 223 or Ling 201, or concurrent enrollment.

DESCRIPTION: Basic changes from Old English to modern English, including modern American dialects.

**Course Outcomes**
- Students will be able to trace the general phonemic, morphological, syntactic, and semantic changes of English in relation to the major periods of Old English, Middle English, Early Modern English, and Present-Day English.
- Students will be able to identify some of the appropriate linguistic tools and resources that are available to answer specific questions about the history and development of the English language.
- Students will be able to explain the important social and political factors as well as linguistic processes that have influenced the development of the English language and some of its varieties, including the current standard variety.
- Students will be able to apply course concepts and information to the assessment and interpretation of

authentic historical texts.

ELANG 325 : The Grammar of English. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: ELang 223 or Ling 201 or concurrent enrollment.

DESCRIPTION: Study of English grammar in various applications.

**Course Outcomes**

- Students will be able to analyze and describe grammatical structures in English at the word, phrase, clause, and sentence levels.
- Students will be able to apply the knowledge from parts 1) and 2) towards the analysis of authentic texts.
- Students will be able to identify and label parts of speech in English sentences.

ELANG 326 : English Semantics and Pragmatics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ELANG 223; or LING 201

DESCRIPTION: Structure of meaning in words, phrases, and discourse. Lexical semantics and the mental lexicon; phrase-level meaning; interaction of situation and meaning.

**Course Outcomes**

- Students will be able to identify and discuss basic semantic and pragmatic concepts such as sense, reference, deixis, perlocution, illocution, entailment, implicature, metaphor, Gricean Maxims, etc.
- Students will be able to apply the above concepts towards the analysis of spoken and written texts, demonstrating their knowledge and understanding in a written paper.

ELANG 327 : English Phonetics and Phonology. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: ELANG 223; or LING 201

DESCRIPTION: Pronunciation, perception, and interaction of English speech sounds. Dialect variation.

**Course Outcomes**

- Students will be able to listen analytically to speech and identify a wide range of speech sounds and prosodic patterns found in English.
- Students will be able to use standard transcription systems to represent English speech sounds and discuss some of the limitations of those systems.
- Students will know how to use speech analysis software to investigate English speech sounds.
- Students will understand the theoretical principles underlying the classification and description of English speech sounds and prosodic patterns of English.
- Students will be able to describe and analyze at an intermediate level major features of the segmental and prosodic phonology of English.

ELANG 495R : The Senior Course. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Senior status; English language major status.

DESCRIPTION: In-depth study of a limited area of English language. Content varies; requires research and writing.

**Course Outcomes**

- Students will be able to identify some of the linguistic assumptions that underlie the approaches and methods they might use in completing the project.
- Students will be able to demonstrate how a variety of linguistic concepts, authoritative sources, and methodologies they have previously learned about in other courses may be effectively applied in a focused course project in which the students participate.
- By the end of the course, students will have written a substantial paper that describes, explains, and justifies the work they have done and the approach they have used in their project.

3. Complete one course from the following:

ELANG 362 : Discourse Analysis. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ELANG 223; or LING 201

DESCRIPTION: Linguistic analysis of connected speech or written discourse, especially larger linguistic units above the clause level, such as conversational exchanges or written texts.

**Course Outcomes**

- Students will be able to demonstrate knowledge of the ways that discourse is structured in a variety of genres and registers, including spoken conversational discourse and written academic discourse.
- Students will be able to identify and critically evaluate sources relevant to issues concerning discourse analysis.
- Students will be able to evaluate and appropriately apply various methods and approaches to the analysis of authentic English discourse and effectively communicate their findings.

ELANG 468 : Varieties of English. (3:3:0)

WHEN Fall

TAUGHT:
PREREQUISITE: ELANG 223; or LING 201
DESCRIPTION: Regional and social variation in English, especially standard and nonstandard national and world Englishes such as English-based pidgins and creoles.

**Course Outcomes**

- Students will learn the basic properties of several varieties of English.
- Students will be able to understand the basic terminology as well as the theoretical and social issues associated with studying varieties of English.
- Students will learn to collect and analyze data using several data collection methods.
- Students will collect and analyze data on a topic of their choice and present their findings in a research paper.

LING 550 : Sociolinguistics. (3:3:0)
WHEN TAUGHT: Winter
PREREQUISITE: For Fall 2013 & forward admits, Ling 210 or ELang 223; or equivalent.
DESCRIPTION: Research and theory in anthropological linguistics and sociolinguistics.

**Course Outcomes**

- Understand the relationship between language use and society with respect to regional, social, ethnic and contextual variation.
- Conduct research into a wide range of sociolingusitic variation
- Impart knowledge of sociolinguistics and related research in presentations and papers

4. Complete one of the following period courses:

ELANG 525 : Old English 1. (3:3:0)
WHEN TAUGHT: Fall Odd Yrs.
PREREQUISITE: ELANG 324; or equivalent.
DESCRIPTION: Old English grammar and vocabulary; traditional syntactical patterns in various types of Old English prose and poetry.

**Course Outcomes**

- Students will be able to read Old English texts with the aid of a glossary and grammar and how to contextualize the content of the texts with Anglo-Saxon culture.
- Students will have learned the basic grammatical and syntactic structures of Old English.
- Students will be able to describe the differences between Old English and Present-day English and note the changes that occurred between the two stages of English.
- Students will be able to describe the major dialects and genres of Old English writings.

ELANG 526 : Middle English. (3:3:0)
WHEN TAUGHT: Fall Even Yrs.
PREREQUISITE: ELANG 324; or equivalent.
DESCRIPTION: Detailed study of the principal dialects of Middle English, as illustrated in the literature of the period.

**Course Outcomes**

- Students will be able to identify some of the most important ways that Middle English differs from Present-day English and Old English and tell how the language is in the process of changing in Middle English.
- Students will be able to read a Middle English text, with a little help from a glossary or dictionary.
- Students will be able to identify the major dialect differences in Middle English.
- Students will be able to explain concepts of language contact and sociolinguistics as exemplified by Middle English.

ELANG 527 : Early Modern English. (3:3:0)
WHEN TAUGHT: Winter
PREREQUISITE: ELANG 324; or equivalent.
DESCRIPTION: English language from about 1500 to 1800, with special emphasis on language of Shakespeare and the King James Bible.

**Course Outcomes**

- Students will be able to identify the phonological, morphological, syntactic, lexical, pragmatic, and orthographic characteristics of Early Modern English and how those characteristics are distinguished from Present Day English.
- Students will be able to identify important historical, social, and linguistic factors that influenced the development of the language during the Early Modern Period, including the development of modern prescriptive norms.
- Students will be able to apply their understanding of Early Modern English to the interpretation of contemporary texts, including passages from the works of Shakespeare and the King James translation of the Bible.

5. Complete three courses from the following:

DIGHT 230 : Introduction to Print Publishing. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Introduction to layout and typesetting and their place in the publications process; includes graphic design theory, audience analysis, and basic skills with professional desktop publishing application.

**Course Outcomes**

- Students will recognize the differences in purpose, audience, and style between various print publications.
- Students will situate typesetting and printing within the scope of the publishing process as a whole.
- Students will master the basic functions of Adobe InDesign for the purpose of typesetting various publications.
- Students will use a set of basic design principles (proximity, alignment, repetition, contrast) to improve the quality of their publications in InDesign.
- Students will be familiar with Adobe Photoshop and some of its uses in print publishing.
- Students will work effectively in groups to produce high quality printed material.

DIGHT 250 : Web Publishing. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Overview and introduction to web programming as a form of expression. Includes HTML, CSS, and some JavaScript.

**Course Outcomes**

- Students will evaluate new web technologies in light of the general history of the web.
- Students will be able to draft, design, and code static web content, and then post that content to a publicly-accessible web server.
- Students will have a mastery of HTML/CSS syntax, common HTML elements/attributes/properties, and basic skill with JavaScript.

DIGHT 260 : Tools for Text Processing and Analysis. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: LingC 200 or C S 100 or equivalent experience.

DESCRIPTION: Introduction to tools and techniques suited for use with text analysis, including basic text encoding, text preparation, basic regular expression, and concordance programs.

**Course Outcomes**

There are no course outcomes available

DIGHT 315 : Research in the Digital Humanities. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: DIGHT 215

RECOMMENDED: DigHT 260.

DESCRIPTION: Applications of computer technology to research in the Digital Humanities across language and literature, e.g. text processing, data mining, information storage and retrieval, etc.

**Course Outcomes**

There are no course outcomes available

ELANG 362 : Discourse Analysis. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ELANG 223; or LING 201

DESCRIPTION: Linguistic analysis of connected speech or written discourse, especially larger linguistic units above the clause level, such as conversational exchanges or written texts.

**Course Outcomes**

- Students will be able to demonstrate knowledge of the ways that discourse is structured in a variety of genres and registers, including spoken conversational discourse and written academic discourse.
- Students will be able to identify and critically evaluate sources relevant to issues concerning discourse analysis.
- Students will be able to evaluate and appropriately apply various methods and approaches to the analysis of authentic English discourse and effectively communicate their findings.

ELANG 421R : Studies in Language or Editing. (3:3:0)

DESCRIPTION: Topics vary.

**Course Outcomes**

- Students will be able to use information-design theory to improve their critiques of text features and to create new text design which is improved in both practical and ethical terms.
- Students will be able to use traditional editing rules to evaluate texts and revise text (format and information structure).
- Students will be able to explain how information-design theory can reconcile tensions between traditional editing rules that may come into conflict.

ELANG 468 : Varieties of English. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: ELANG 223; or LING 201

DESCRIPTION: Regional and social variation in English, especially standard and nonstandard national and world Englishes such as English-based pidgins and creoles.

**Course Outcomes**

- Students will learn the basic properties of several varieties of English.
- Students will be able to understand the basic terminology as well as the theoretical and social issues associated with studying varieties of English.
- Students will learn to collect and analyze data using several data collection methods.
- Students will collect and analyze data on a topic of their choice and present their findings in a research paper.

ELANG 521R : Studies in Language. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ELANG 223; or LING 201; or equivalent.

DESCRIPTION: Topics vary.

**Course Outcomes**

- By the end of the course, students will have read extensively on a topic determined by the instructor.
- Students will be able to identify and outline some of the principal issues and contextual matters related to the designated topic area as well as to identify the principal sources and methods for resolving questions related to that topic area.
- By the end of the course, students will have prepared a substantial paper or project that demonstrates their mastery of material related to a specific issue or question within the topic area.

: English Spelling.

**Course Outcomes**

ELANG 522 : Language Policy and Planning in English Language Contexts. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ELANG 223; or LING 201; or equivalent.

DESCRIPTION: Theories and practices of governing entities as they formulate policies relating to the status and codification of the English language.

**Course Outcomes**

- Students will be able to apply fundamental language planning theories and practices toward solving real-world English language macro and micro planning problems.
- Students will be able to understand, interpret, explain, analyze, and assess representative texts and practices in English language planning and policy development.
- Students will be able to conduct research using appropriate language planning and policy theory and practice models in English language contexts.

ELANG 524 : History of the Book. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: History and development of the book, including modern methods and practices.

**Course Outcomes**

- Students will be able to describe the history of the book and the reasons it has developed the way it has.
- Students will be able to describe and show how the book (the codex, in particular) is physically constructed and produced.
- Students will be able to describe the development of scripts and fonts and the reasons they have changed over time.
- Students will be able to describe what goes into making a book look beautiful (design, typography, construction, usefulness, etc.).
- Students will be able to describe the fundamentals that underlie how texts change and develop over time, including the kinds of transmission errors that occur.

ELANG 525 : Old English 1. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

PREREQUISITE: ELANG 324; or equivalent.

DESCRIPTION: Old English grammar and vocabulary; traditional syntactical patterns in various types of Old English prose and poetry.

**Course Outcomes**

- Students will be able to read Old English texts with the aid of a glossary and grammar and how to contextualize the content of the texts with Anglo-Saxon culture.
- Students will have learned the basic grammatical and syntactic structures of Old English.
- Students will be able to describe the differences between Old English and Present-day English and note the changes that occurred between the two stages of English.
- Students will be able to describe the major dialects and genres of Old English writings.

ELANG 526 : Middle English. (3:3:0)

WHEN TAUGHT: Fall Even Yrs.

PREREQUISITE: ELANG 324; or equivalent.

DESCRIPTION: Detailed study of the principal dialects of Middle English, as illustrated in the literature of the

period.

**Course Outcomes**

- Students will be able to identify some of the most important ways that Middle English differs from Present-day English and Old English and tell how the language is in the process of changing in Middle English.
- Students will be able to read a Middle English text, with a little help from a glossary or dictionary.
- Students will be able to identify the major dialect differences in Middle English.
- Students will be able to explain concepts of language contact and sociolinguistics as exemplified by Middle English.

ELANG 527 : Early Modern English. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: ELANG 324; or equivalent.

DESCRIPTION: English language from about 1500 to 1800, with special emphasis on language of Shakespeare and the King James Bible.

**Course Outcomes**

- Students will be able to identify the phonological, morphological, syntactic, lexical, pragmatic, and orthographic characteristics of Early Modern English and how those characteristics are distinguished from Present Day English.
- Students will be able to identify important historical, social, and linguistic factors that influenced the development of the language during the Early Modern Period, including the development of modern prescriptive norms.
- Students will be able to apply their understanding of Early Modern English to the interpretation of contemporary texts, including passages from the works of Shakespeare and the King James translation of the Bible.

ELANG 529 : Structure of Modern English. (3:3:0)

WHEN TAUGHT: Spring Odd Yrs.

PREREQUISITE: ELANG 325; or instructor's consent.

DESCRIPTION: English syntax through modern grammars; theories underlying those grammars.

**Course Outcomes**

- Students will be able to identify the various characteristics, features, and behaviors of the lexical and structural classes, as well as the larger phrase, clause, and sentence types within the English language.
- Students will be abel to identify some of the important reference works and resources that are available to answer questions about English grammatical structure and how they might appropriately be applied.
- Students will be able to demonstrate how grammatical knowledge can be consciously applied in a variety of analytical and applied language tasks.

ELANG 535 : Language and Literature. (3:3:0)

WHEN TAUGHT: Summer Contact Department

PREREQUISITE: ELANG 223; or LING 201; or equivalent.

DESCRIPTION: Literature from a language perspective; applying linguistic constructs to literary language; examining literary style; linguistic analysis of unfamiliar texts.

**Course Outcomes**

- Students will have become acquainted with important philological principles.
- Students will be able to analyze literary texts using poetic formulas, including simple and complex figures.
- Students will be able to analyze literary texts using philological criticism, including contextual relations.
- Students will understand how an online corpus might be used effectively to analyze literary texts.
- Students will be able to create literary texts using language features identified within the course.

ELANG 548 : Old English 2. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ELANG 525

DESCRIPTION: Additional reading in Old English, emphasizing sound changes, dialects, and textual production.

**Course Outcomes**

- By the end of the course students will have achieved a greater fluency within the Old English language.
- Students will have translated the entire epic poem, Beowulf.
- Students will be able to identify the features in Beowulf that exemplify the conventions of Old English heroic verse and the larger cultural context of the heroic society.
- Students will be able to provide examples of contrasting Old English lexical uses, including ones involving metaphor and synonymy among words within the poem as well as differences between the lexical forms in the poem and other Old English texts.

LING 325 : Theoretical Syntax. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 220.

DESCRIPTION: Theoretical comparison and contrast of different sentence types. Methods of argument to develop and critique generative theories of lexical categories, grammatical roles, and syntactic structure.

**Course Outcomes**

- Recognize and classify different types of constituents, including phrases and sentences.
- Understand and apply a theoretical framework and analytical techniques to determine and describe constituents.
- In writing and speaking, argue for (or against) particular theory dependent interpretations of structure, and support the argument with empirical evidence.
- Apply these outcomes to English and investigate their relevance to other languages.

LING 360 : (Ling-DigHT) Programming for Text Processing and Analysis. (3:3:0)

PREREQUISITE: C S 100 or equivalent experience.

DESCRIPTION: Development of computer applications for research in language and literature (text processing, retrieval, and analysis) in one or more programming languages (e.g., Perl, Python, etc.).

**Course Outcomes**

There are no course outcomes available

LING 361 : Speech Processing. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: LING 360

DESCRIPTION: Analyzing and manipulating speech data. Developing software applications that include speech recognition and/or speech generation.

**Course Outcomes**

No outcomes are available at this time.

LING 450 : Introduction to Historical-Comparative Linguistics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 210 and Ling 220.

DESCRIPTION: Theory and method of language change via comparison of daughter languages and reconstruction of their ancestral language: phonological, morphological, semantic, and lexical.

**Course Outcomes**

- Students will be able to apply the comparative method and internal reconstruction in order to hypothesize earlier states of a language and to examine the relatedness of different languages.
- Students will be able to explain how and why linguistic changes occur in phonology, morphology, syntax, semantics, and the lexicon.
- Students will be able to explain how linguistic change is affected by language contact and psychological, physical, social, and cultural factors.
- Students will be able to use corpora, texts, and lexicons in order to obtain data on, and answer questions about, language change.

LING 485 : Corpus Linguistics. (3:3:0)

PREREQUISITE: For Fall 2013 & forward admits, Ling 240.

DESCRIPTION: Using large collections of texts for teaching and particularly for research, including many types of linguistic variation

**Course Outcomes**

- Students will be able to understand how corpora and corpus-based materials can best be used for teaching and learning. They will carry out an in-depth investigation of one particular linguistic phenomenon using the best available corpora and corpus-based tools.
- Students will be able to apply the basic principles of corpus design and construction to design a corpus for their area of interest.
- Students will be able to understand the differences between corpus-based/empirical and rationalist/non-empirical approaches to linguistics.
- Students will be able to use text analysis tools to investigate frequency, keywords, and do simple concordancing.
- Students will be able to use corpora to carry out research in the areas of 1) lexicography 2) genre-based differences in language 3) syntax 4) semantics, and 5) historical change.

LING 545 : Psycholinguistics. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: For Fall 2013 & forward admits, Ling 201 or ELang 223; or equivalent.

DESCRIPTION: How the mind interprets, stores, retrieves, and produces language. Anatomical structures and physiological processes of the brain dealing with language.

**Course Outcomes**

- Discuss basic terminology, theories, and issues of psycholinguistics.
- Know the basic findings in each area of psycholinguistics (including comprehension, production, acquisition, and language disorders).
- Read and critically respond to psycholinguistic research and articles.
- Create and participate in psycholinguistic experimental research.

LING 550 : Sociolinguistics. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 210 or ELang 223; or equivalent.

DESCRIPTION: Research and theory in anthropological linguistics and sociolinguistics.

**Course Outcomes**

- Understand the relationship between language use and society with respect to regional, social, ethnic and contextual variation.
- Conduct research into a wide range of sociolingusitic variation
- Impart knowledge of sociolinguistics and related research in presentations and papers

LING 551 : Anthropological Linguistics. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: For Fall 2013 & forward admits, Ling 220 and Ling 230; or equivalent.

DESCRIPTION: Language in culture and society: development, typology, and description.

**Course Outcomes**

- Upon completion of this course students will be equipped with the conceptual tools to think about and analyze linguistic data in social contexts of use.
- Student will become conversant with foundational texts which inform our cultural understanding and use of language.
- Through readings, weekly exercises and discussions they will acquire the metalinguistic concepts necessary for contextualizing varieties of language.
- In class transcription sessions will address the representation of linguistic data, and how that representation may affect one's assessments of semantic intent.

LINGC 220 : Linguistic Computing Programming 1. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: LingC 200 or C S 100 or equivalent experience.

DESCRIPTION: Computer programming for language applications: data types, character representation, flow of control, file input/output, string manipulation.

**Course Outcomes**

- Understand what a computing algorithm is, as opposed to instructions intended for a human who as agency.
- Be able to manipulate digital information using algorithms written in a programming language. This includes an ability to understand and write assignment statements, loops, conditionals, and functions.
- Be able to manipulate digital information using algorithms written in a programming language. This includes an ability to understand and write assignment statements, loops, conditionals, and functions.
- Be able to create a simple graphical user interface for a software application.

LINGC 489R : Linguistic Computing Project. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Any 300-level linguistic computing course.

DESCRIPTION: Applying principles from other courses to a substantial research or development project. Students work individually with faculty and technical advisors.

**Course Outcomes**

- Design and implement a language-related software application that satisfies the requirements of a faculty or staff member, drawing on the expertise of a faculty or staff technical advisor.

**Note 1:** Only one digital humanities and technology (DigHT) or linguistics computing (LingC) course can be used to fill this requirement.

**Note 2:** The courses chosen to satisfy items three and four above can NOT double count in this requirement.

6. Complete 12 credit hours of university course work (or the equivalent) to a 200-level or higher in any single language. This may be the same language used to satisfy the GE Foreign Language option. (Note that the GE Foreign Language option may require more coursework than this requirement for the English language major.) A language relevant to the historical development of English is strongly recommended, namely Latin, French, German, or classical Greek.

## Program Requirements | View MAP | View Program Outcomes

1. Complete the following prerequisite course:

LING 201 : Introduction to Linguistics (Modern). (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Basic understanding of linguistic systems. Phonology, morphology, syntax, semantics, and pragmatics.

**Course Outcomes**
- Be familiar with some of the major subfields of linguistics and the main topics of interest within each subfield.
- Demonstrate understanding of phonological, morphological, and syntactic structure.
- Master techniques of basic phonological, morphological, syntactic, and historical analysis.

2. Complete the following core courses:

LING 210 : Sounds of Language. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 201.

DESCRIPTION: Introduction to the description and analysis of speech sounds.

**Course Outcomes**
- Transcribe and give articulatory descriptions for common speech sounds of the world's languages, including those of English
- Explain common phonetic processes.
- Complete basic phonological analyses using knowledge ofthe phonemic principlethe content and organization of phonological featuresthe elements of prosody (syllable, stress, etc)

LING 220 : Structure in Language. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 201.

DESCRIPTION: Introduction to the analysis of word and sentence structure.

**Course Outcomes**
- Complete basic syntactic analyses using knowledge ofparts of speechconstituent structuregrammatical relations
- Complete basic morphological analyses using knowledge ofbasic word formation processesthe distinction between inflection and derivation and common inflectional categoriesproperties of the interfaces of morphology with phonology and syntax
- Describe the results of analyses using appropriate terminology and formalisms.

LING 230 : Meaning in Language. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 201.

DESCRIPTION: Introduction to the analysis of meaning in words, grammar, and discourse.

**Course Outcomes**
- Conduct semantic and pragmatic analyses and explications of natural human language at the lexical, grammatical, discourse and metaphorical levels applying a variety of semantic and pragmatic analytical procedures
- Critique contemporary approaches to semantic and pragmatic analyses by becoming familiar with semantic and pragmatic theories.
- Argue for a particular semantic or pragmatic explication through producing papers and project reports.

LING 240 : Linguistic Tools 1. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 201.

DESCRIPTION: Introduction to quantitative and qualitative research methods in linguistics.

**Course Outcomes**

- Be able to formulate testable hypotheses concerning language.
- Be able to collect linguistic data using interviews, surveys, experiments, corpora, etc
- Be able to use appropriate tools to analyze linguistic data.
- Be able to describe the results of linguistic research using appropriate terminology and rhetorical strategies (i.e., talk and write like a linguist).

3. Complete two courses from the following:

ELANG 362 : Discourse Analysis. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ELANG 223; or LING 201

DESCRIPTION: Linguistic analysis of connected speech or written discourse, especially larger linguistic units above the clause level, such as conversational exchanges or written texts.

**Course Outcomes**

- Students will be able to demonstrate knowledge of the ways that discourse is structured in a variety of genres and registers, including spoken conversational discourse and written academic discourse.
- Students will be able to identify and critically evaluate sources relevant to issues concerning discourse analysis.
- Students will be able to evaluate and appropriately apply various methods and approaches to the analysis of authentic English discourse and effectively communicate their findings.

LING 310 : Phonetics. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: For Fall 2013 & forward admits, Ling 210.

DESCRIPTION: General inventory of speech sounds possible in language, from both an acoustic and articulatory point of view.

**Course Outcomes**

- Produce and transcribe approximately 100 of the sounds of the world's languages and describe the articulatory and acoustic properties of these sounds.
- Transcribe and explain the phonetic processes common to languages of the world.
- Perform field work in phonetics—learning to record and acoustically analyze phonetics data.
- Recognize the phonetic systems of several languages and how and why the languages are organized the way they are.

LING 315 : Phonology. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 210.

DESCRIPTION: Study of natural language sound systems from a variety of theoretical perspectives.

**Course Outcomes**

- Use a theoretical model to complete a phonological analysis at an intermediate level using appropriate methods and techniques,
- Present the results of phonological analyses, showing awareness of foundational issues in theories of phonology.

LING 320 : Morphology. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: For Fall 2013 & forward admits, Ling 220.

DESCRIPTION: Theory and analysis of word structure in human language.

**Course Outcomes**

There are no course outcomes available

LING 325 : Theoretical Syntax. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 220.

DESCRIPTION: Theoretical comparison and contrast of different sentence types. Methods of argument to develop and critique generative theories of lexical categories, grammatical roles, and syntactic structure.

**Course Outcomes**

- Recognize and classify different types of constituents, including phrases and sentences.
- Understand and apply a theoretical framework and analytical techniques to determine and describe constituents.
- In writing and speaking, argue for (or against) particular theory dependent interpretations of structure, and support the argument with empirical evidence.
- Apply these outcomes to English and investigate their relevance to other languages.

LING 332 : Semantics. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: LING 201 & LING 230; or LING 201 & ELANG 326
DESCRIPTION: Theory and analysis of natural language semantics from a variety of theoretical perspectives.

**Course Outcomes**

There are no course outcomes available

LING 335 : Pragmatics. (3:3:0)
WHEN TAUGHT: Winter
PREREQUISITE: LING 201 & LING 230; or LING 201 & ELANG 326
DESCRIPTION: Theory and analysis of pragmatics from a variety of theoretical perspectives.

**Course Outcomes**

There are no course outcomes available

4. Complete one course from the following:

LING 450 : Introduction to Historical-Comparative Linguistics. (3:3:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: For Fall 2013 & forward admits, Ling 210 and Ling 220.
DESCRIPTION: Theory and method of language change via comparison of daughter languages and reconstruction of their ancestral language: phonological, morphological, semantic, and lexical.

**Course Outcomes**

- Students will be able to apply the comparative method and internal reconstruction in order to hypothesize earlier states of a language and to examine the relatedness of different languages.
- Students will be able to explain how and why linguistic changes occur in phonology, morphology, syntax, semantics, and the lexicon.
- Students will be able to explain how linguistic change is affected by language contact and psychological, physical, social, and cultural factors.
- Students will be able to use corpora, texts, and lexicons in order to obtain data on, and answer questions about, language change.

LING 485 : Corpus Linguistics. (3:3:0)
PREREQUISITE: For Fall 2013 & forward admits, Ling 240.
DESCRIPTION: Using large collections of texts for teaching and particularly for research, including many types of linguistic variation

**Course Outcomes**

- Students will be able to understand how corpora and corpus-based materials can best be used for teaching and learning. They will carry out an in-depth investigation of one particular linguistic phenomenon using the best available corpora and corpus-based tools.
- Students will be able to apply the basic principles of corpus design and construction to design a corpus for their area of interest.
- Students will be able to understand the differences between corpus-based/empirical and rationalist/non-empirical approaches to linguistics.
- Students will be able to use text analysis tools to investigate frequency, keywords, and do simple concordancing.
- Students will be able to use corpora to carry out research in the areas of 1) lexicography 2) genre-based differences in language 3) syntax 4) semantics, and 5) historical change.

LING 550 : Sociolinguistics. (3:3:0)
WHEN TAUGHT: Winter
PREREQUISITE: For Fall 2013 & forward admits, Ling 210 or ELang 223; or equivalent.
DESCRIPTION: Research and theory in anthropological linguistics and sociolinguistics.

**Course Outcomes**

- Understand the relationship between language use and society with respect to regional, social, ethnic and contextual variation.
- Conduct research into a wide range of sociolingusitic variation
- Impart knowledge of sociolinguistics and related research in presentations and papers

5. Complete 15 credit hours (to a 200-level or higher) of university-level course work (or the equivalent) in a single foreign language (American Sign Language also qualifies). Students intending to pursue graduate studies in linguistics are strongly encouraged to study a non-Indo-European language. Non-native speakers of English may elect to use English to fill this requirement. They may choose to earn the credit by special examination or by taking classes (ESL 301, 302, 303, 304, and 305).

6. Complete three courses from the following electives:

ELANG 362 : Discourse Analysis. (3:3:0)
WHEN TAUGHT: Contact Department.
PREREQUISITE: ELANG 223; or LING 201
DESCRIPTION: Linguistic analysis of connected speech or written discourse, especially larger linguistic units above the clause level, such as conversational exchanges or written texts.

**Course Outcomes**

- Students will be able to demonstrate knowledge of the ways that discourse is structured in a variety of

genres and registers, including spoken conversational discourse and written academic discourse.
- Students will be able to identify and critically evaluate sources relevant to issues concerning discourse analysis.
- Students will be able to evaluate and appropriately apply various methods and approaches to the analysis of authentic English discourse and effectively communicate their findings.

LING 310 : Phonetics. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: For Fall 2013 & forward admits, Ling 210.

DESCRIPTION: General inventory of speech sounds possible in language, from both an acoustic and articulatory point of view.

**Course Outcomes**

- Produce and transcribe approximately 100 of the sounds of the world's languages and describe the articulatory and acoustic properties of these sounds.
- Transcribe and explain the phonetic processes common to languages of the world.
- Perform field work in phonetics—learning to record and acoustically analyze phonetics data.
- Recognize the phonetic systems of several languages and how and why the languages are organized the way they are.

LING 315 : Phonology. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 210.

DESCRIPTION: Study of natural language sound systems from a variety of theoretical perspectives.

**Course Outcomes**

- Use a theoretical model to complete a phonological analysis at an intermediate level using appropriate methods and techniques,
- Present the results of phonological analyses, showing awareness of foundational issues in theories of phonology.

LING 320 : Morphology. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: For Fall 2013 & forward admits, Ling 220.

DESCRIPTION: Theory and analysis of word structure in human language.

**Course Outcomes**

There are no course outcomes available

LING 325 : Theoretical Syntax. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 220.

DESCRIPTION: Theoretical comparison and contrast of different sentence types. Methods of argument to develop and critique generative theories of lexical categories, grammatical roles, and syntactic structure.

**Course Outcomes**

- Recognize and classify different types of constituents, including phrases and sentences.
- Understand and apply a theoretical framework and analytical techniques to determine and describe constituents.
- In writing and speaking, argue for (or against) particular theory dependent interpretations of structure, and support the argument with empirical evidence.
- Apply these outcomes to English and investigate their relevance to other languages.

LING 360 : (Ling-DigHT) Programming for Text Processing and Analysis. (3:3:0)

PREREQUISITE: C S 100 or equivalent experience.

DESCRIPTION: Development of computer applications for research in language and literature (text processing, retrieval, and analysis) in one or more programming languages (e.g., Perl, Python, etc.).

**Course Outcomes**

There are no course outcomes available

LING 361 : Speech Processing. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: LING 360

DESCRIPTION: Analyzing and manipulating speech data. Developing software applications that include speech recognition and/or speech generation.

**Course Outcomes**

No outcomes are available at this time.

LING 440 : Linguistic Tools 2. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: For Fall 2013 & forward admits, Ling 240.
DESCRIPTION: Linguistic research tools and methods; resources, literature, and synthesis of techniques.

**Course Outcomes**

There are no course outcomes available

LING 450 : Introduction to Historical-Comparative Linguistics. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: For Fall 2013 & forward admits, Ling 210 and Ling 220.
DESCRIPTION: Theory and method of language change via comparison of daughter languages and reconstruction of their ancestral language: phonological, morphological, semantic, and lexical.

**Course Outcomes**

- Students will be able to apply the comparative method and internal reconstruction in order to hypothesize earlier states of a language and to examine the relatedness of different languages.
- Students will be able to explain how and why linguistic changes occur in phonology, morphology, syntax, semantics, and the lexicon.
- Students will be able to explain how linguistic change is affected by language contact and psychological, physical, social, and cultural factors.
- Students will be able to use corpora, texts, and lexicons in order to obtain data on, and answer questions about, language change.

LING 460 : Typology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: For Fall 2013 & forward admits, Ling 220.
DESCRIPTION: Introduction to the study of language universals and linguistic typology.

**Course Outcomes**

There are no course outcomes available

LING 480 : Problems in Translation. (3:3:0)

WHEN TAUGHT: Fall
PREREQUISITE: For Fall 2013 & forward admits, Ling 230 and proficiency in a second language.
DESCRIPTION: History, theory, and practice of human and machine translation.

**Course Outcomes**

- Discuss the possible future of translation technology, including future applications of existing technology and future development of new technologies, drawing on class assignments and a personal project.
- Create a bi-text corpus and derive translation memory and terminology from that bi-text corpus.
- Define a set of specifications for a translation project based on text type, audience, and purpose.
- Use machine translation, translation memory, and terminology in conjunction with a translation environment tool to complete a translation project according to the project's specifications.

LING 485 : Corpus Linguistics. (3:3:0)

PREREQUISITE: For Fall 2013 & forward admits, Ling 240.
DESCRIPTION: Using large collections of texts for teaching and particularly for research, including many types of linguistic variation

**Course Outcomes**

- Students will be able to understand how corpora and corpus-based materials can best be used for teaching and learning. They will carry out an in-depth investigation of one particular linguistic phenomenon using the best available corpora and corpus-based tools.
- Students will be able to apply the basic principles of corpus design and construction to design a corpus for their area of interest.
- Students will be able to understand the differences between corpus-based/empirical and rationalist/non-empirical approaches to linguistics.
- Students will be able to use text analysis tools to investigate frequency, keywords, and do simple concordancing.
- Students will be able to use corpora to carry out research in the areas of 1) lexicography 2) genre-based differences in language 3) syntax 4) semantics, and 5) historical change.

LING 545 : Psycholinguistics. (3:3:0)

WHEN TAUGHT: Fall
PREREQUISITE: For Fall 2013 & forward admits, Ling 201 or ELang 223; or equivalent.
DESCRIPTION: How the mind interprets, stores, retrieves, and produces language. Anatomical structures and physiological processes of the brain dealing with language.

**Course Outcomes**

- Discuss basic terminology, theories, and issues of psycholinguistics.
- Know the basic findings in each area of psycholinguistics (including comprehension, production, acquisition, and language disorders).
- Read and critically respond to psycholinguistic research and articles.
- Create and participate in psycholinguistic experimental research.

LING 550 : Sociolinguistics. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: For Fall 2013 & forward admits, Ling 210 or ELang 223; or equivalent.
DESCRIPTION: Research and theory in anthropological linguistics and sociolinguistics.

**Course Outcomes**

- Understand the relationship between language use and society with respect to regional, social, ethnic and contextual variation.
- Conduct research into a wide range of sociolingusitic variation
- Impart knowledge of sociolinguistics and related research in presentations and papers

LING 551 : Anthropological Linguistics. (3:3:0)
WHEN TAUGHT: Contact Department.
PREREQUISITE: For Fall 2013 & forward admits, Ling 220 and Ling 230; or equivalent.
DESCRIPTION: Language in culture and society: development, typology, and description.

**Course Outcomes**

- Upon completion of this course students will be equipped with the conceptual tools to think about and analyze linguistic data in social contexts of use.
- Student will become conversant with foundational texts which inform our cultural understanding and use of language.
- Through readings, weekly exercises and discussions they will acquire the metalinguistic concepts necessary for contextualizing varieties of language.
- In class transcription sessions will address the representation of linguistic data, and how that representation may affect one's assessments of semantic intent.

Any other courses such as internships, directed readings, and field project as presently constituted.

Note 1: Courses taken in requirements 3 and 4 cannot double count for requirement 6.

Note 2: Subject to approval by the Linguistics Area Coordinator, students may take up to two courses taught outside of the department to satisfy elective requirements.

7. Complete the following capstone course:
   LING 495 : Senior Capstone. (3:3:0)
   WHEN TAUGHT: Fall; Winter; Spring; Summer
   PREREQUISITE: For Fall 2013 & forward admits, Ling 210 & Ling 220 & Ling 230.
   DESCRIPTION: Integrative, culminating experience for linguistics majors; topics vary.

   **Course Outcomes**
   There are no course outcomes available

*Hours include courses that may fulfill university core requirements.

## Program Requirements

1. Complete the following:

DIGHT 230 : Introduction to Print Publishing. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Introduction to layout and typesetting and their place in the publications process; includes graphic design theory, audience analysis, and basic skills with professional desktop publishing application.

**Course Outcomes**
- Students will recognize the differences in purpose, audience, and style between various print publications.
- Students will situate typesetting and printing within the scope of the publishing process as a whole.
- Students will master the basic functions of Adobe InDesign for the purpose of typesetting various publications.
- Students will use a set of basic design principles (proximity, alignment, repetition, contrast) to improve the quality of their publications in InDesign.
- Students will be familiar with Adobe Photoshop and some of its uses in print publishing.
- Students will work effectively in groups to produce high quality printed material.

ELANG 223 : Introduction to the English Language. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Overview of English from linguistic point of view, emphasizing structure of English and social, biological, and psychological aspects of language.

**Course Outcomes**
- Students will have acquired basic analytical tools in core areas of linguistics: phonology, morphology, syntax, semantics, and pragmatics.
- Students will be able to apply these analytical tools to English language data of various types, such as those involving aspects of variation, acquisition, and historical change.

ELANG 322 : Modern American Usage. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: ELang 223 or Ling 201 or concurrent enrollment.

DESCRIPTION: Current conventions and effective use of American English.

**Course Outcomes**
- Students will be able to identify and use multiple approaches to evaluating English usage.
- Students will be able to identify and use the most appropriate tools for each approach.
- Students will be able to evaluate the validity of prescriptive rules by using these approaches and tools.

ELANG 325 : The Grammar of English. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: ELang 223 or Ling 201 or concurrent enrollment.

DESCRIPTION: Study of English grammar in various applications.

**Course Outcomes**
- Students will be able to analyze and describe grammatical structures in English at the word, phrase, clause, and sentence levels.
- Students will be able to apply the knowledge from parts 1) and 2) towards the analysis of authentic texts.
- Students will be able to identify and label parts of speech in English sentences.

ELANG 350 : Basic Editing Skills. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: ELANG 223 & ELANG 322 & ELANG 325

DESCRIPTION: Editing theory and practice, emphasizing copy editing and basic line editing.

**Course Outcomes**

- Students demonstrate copy editing skills by using these skills to improve sample manuscripts in terms of punctuation, spelling, usage, and sentence clarity.
- Students apply style and usage requirements with flexibility, customized to specific contexts and circumstances.
- Students deploy empirical methods to investigate patterns of style and usage and make editorial decisions.

ELANG 410R : Genre and Substantive Editing. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: ELANG 223 & ELANG 322 & ELANG 325

DESCRIPTION: Exploring a different genre of publishing each semester; instruction in substantive editing.

**Course Outcomes**

- Students articulate a personal perspective on ethical issues in publishing, such as preserving the author's voice, plagiarism, copyright infringement, the tensions between the editorial and the marketing sides of publishing, the promotion of values and the transmission of our cultural heritage.
- Students demonstrate specialized skills and the perspective required by at least one specific editing genre (such as magazine publishing, technical communication, fiction, scholarly publishing, or visual information design).

2. Complete three hours of the following:

ELANG 430R : Editing for Publication. (1-3:ARR:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: ELANG 350 & ELANG 410R & DIGHT 230

DESCRIPTION: Refining copy editing and substantive editing skills through hands-on work with actual publications; one-on-one feedback and mentoring.

**Course Outcomes**

- Students demonstrate improvement in basic editing skills acquired in previous courses: copy editing, substantive genre editing, and use of electronic tools for editing and layout.
- Students demonstrate ability to work in small groups by producing as a group a publication project effectively edited and visually designed.
- Students demonstrate a basic understanding of the publication industry and the requirements of an effective job search by creating a job application and an editing skills portfolio.

## Program Requirements

1. Complete the following:

LING 201 : Introduction to Linguistics (Modern). (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Basic understanding of linguistic systems. Phonology, morphology, syntax, semantics, and pragmatics.

**Course Outcomes**
- Be familiar with some of the major subfields of linguistics and the main topics of interest within each subfield.
- Demonstrate understanding of phonological, morphological, and syntactic structure.
- Master techniques of basic phonological, morphological, syntactic, and historical analysis.

2. Complete two courses from the following:

LING 210 : Sounds of Language. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 201.

DESCRIPTION: Introduction to the description and analysis of speech sounds.

**Course Outcomes**
- Transcribe and give articulatory descriptions for common speech sounds of the world's languages, including those of English
- Explain common phonetic processes.
- Complete basic phonological analyses using knowledge ofthe phonemic principlethe content and organization of phonological featuresthe elements of prosody (syllable, stress, etc)

LING 220 : Structure in Language. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 201.

DESCRIPTION: Introduction to the analysis of word and sentence structure.

**Course Outcomes**
- Complete basic syntactic analyses using knowledge ofparts of speechconstituent structuregrammatical relations
- Complete basic morphological analyses using knowledge ofbasic word formation processesthe distinction between inflection and derivation and common inflectional categoriesproperties of the interfaces of morphology with phonology and syntax
- Describe the results of analyses using appropriate terminology and formalisms.

LING 230 : Meaning in Language. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 201.

DESCRIPTION: Introduction to the analysis of meaning in words, grammar, and discourse.

**Course Outcomes**
- Conduct semantic and pragmatic analyses and explications of natural human language at the lexical, grammatical, discourse and metaphorical levels applying a variety of semantic and pragmatic analytical procedures
- Critique contemporary approaches to semantic and pragmatic analyses by becoming familiar with semantic and pragmatic theories.
- Argue for a particular semantic or pragmatic explication through producing papers and project reports.

LING 240 : Linguistic Tools 1. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 201.

DESCRIPTION: Introduction to quantitative and qualitative research methods in linguistics.

**Course Outcomes**

- Be able to formulate testable hypotheses concerning language.
- Be able to collect linguistic data using interviews, surveys, experiments, corpora, etc
- Be able to use appropriate tools to analyze linguistic data.
- Be able to describe the results of linguistic research using appropriate terminology and rhetorical strategies (i.e., talk and write like a linguist).

3. Complete six hours of electives from other Linguistics course work.

# Minor in TESOL (18 hours)

Show All Course Descriptions
Hide All Course Descriptions

BYU's Department of Linguistics and English Language offers a minor and a certificate in teaching English to speakers of other languages (TESOL). Students may earn a minor, or a certificate and a minor as completion of the minor occurs in the process of completing the certificate.

**Note:** For education majors, the TESOL K-12 minor is available to those earning a teaching major and leads to an ESL Endorsement. It is offered through the School of Education. For more information, contact the David O. McKay School of Education Advisement Center.

## Career Opportunities

TESOL minor students are qualified for many overseas positions teaching English as a foreign language. They may also work in various ESL programs in the United States and other English-speaking countries. Possible teaching settings include adult education classes, intensive English programs, and English language learning programs around the world. Students in any major may apply for the TESOL minor.

### Difference between the TESOL certificate and the TESOL minor

The TESOL minor will be indicated on a student's official transcript, whereas the TESOL certificate will not. Students should apply to the minor program by going to their college advisement center. Requirements will be tracked by the MyMap system and the student's progress report. If all requirements are met, the minor will be awarded at the time of graduation. Students who also want to complete the TESOL certificate must provide evidence to the Linguistics and English Language Department that requirements have been met. Once the certificate requirements have been met, the department will prepare and mail the certificate to the student.

Choosing whether or not to complete the certificate depends largely on the student's career goals. A TESOL certificate is a term that is recognized around the world. It is viewed as more applied and usable in the professional world. A certificate may be particularly useful if a student plans to teach abroad.

Students may choose to complete either a minor only or a minor and a certificate.

## Program Requirements

1. Complete the prerequisite course:

ELANG 223 : Introduction to the English Language. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Overview of English from linguistic point of view, emphasizing structure of English and social, biological, and psychological aspects of language.

**Course Outcomes**
- Students will have acquired basic analytical tools in core areas of linguistics: phonology, morphology, syntax, semantics, and pragmatics.
- Students will be able to apply these analytical tools to English language data of various types, such as those involving aspects of variation, acquisition, and historical change.

2. Complete the following foundation courses:

ELANG 325 : The Grammar of English. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: ELang 223 or Ling 201 or concurrent enrollment.

DESCRIPTION: Study of English grammar in various applications.

**Course Outcomes**
- Students will be able to analyze and describe grammatical structures in English at the word, phrase, clause, and sentence levels.
- Students will be able to apply the knowledge from parts 1) and 2) towards the analysis of authentic texts.
- Students will be able to identify and label parts of speech in English sentences.

ELANG 375 : TESOL Listening, Speaking, and Pronunciation. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ELANG 223; or LING 201
DESCRIPTION: Understanding basic English as a second/foreign language theories and practices for teaching and assessing listening, speaking, and pronunciation.

**Course Outcomes**

- Analyze historical methods and techniques in English as a second/foreign language for teaching and assessing listening, speaking, and pronunciation.
- Analyze and adapt textbook materials designed to promote accuracy and fluency in listening, speaking, and pronunciation.
- Observe and analyze second language accuracy and fluency instruction in relation to concepts discussed in class.
- Identify the roles that langauge acquisition, learner variables, and language learning strategies play in teaching and assessing listening, speaking, and pronunciation.
- Evaluate technology aimed at promoting listening, speaking, and pronunciation.

ELANG 376 : TESOL Reading, Writing, and Vocabulary. (3:3:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: ELANG 223; or LING 201
DESCRIPTION: Understanding basic processes of literacy development in English as a second or foreign langauge. How knowledge of these processes informs classroom literacy instruction and practices.

**Course Outcomes**

- Analyze basic theories of second/foreign language literacy and vocabulary acquisition and assessment.
- Apply basic theories to actual classroom literacy and vocabulary instruction.
- Observe and analyze L2 literacy instruction in relation to concepts discussed in class.
- Identify and critique online resources aimed at literacy and vocabulary development.

3. Complete the following courses:

ELANG 477 : TESOL Basic Course and Lesson Planning. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: For Fall 2013 & forward admits, ELang 325 & ELang 375 & ELang 376.
DESCRIPTION: Design English as a second or foreign language course and lesson plans on principles and knowledge of learning outcomes, assessment plans, methods, materials, classroom management, and learning activities; access and use professional resources.

**Course Outcomes**

- Based on a needs assessment, students will be able to design an ESL course that includes learning outcomes, an assessment plan, a description of what will be taught, how it will be taught (including the roles for teacher and students), and major learning activities.
- Students will be able to develop an instructional unit using materials from a textbook that includes learning objectives, a unit plan, and sample lesson plans.
- Students will become more professional in TESOL by accessing and using resources including international, national, and local organizations; journals and online resources; job listings; and information about further educational opportunities.

ELANG 478 : TESOL Practicum. (3:0:3)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: ELANG 325 & ELANG 375 & ELANG 376; ELang 223; and ELang 477 or concurrent enrollment.
DESCRIPTION: Synthesize and apply the foundational knowledge of the English language systems and competencies in teaching English as a second or foreign language.

**Course Outcomes**

- Students will put the knowledge and skills learned in the TESOL minor classes into use during the practicum at the English Language Center by:• Observing more experienced teachers in the classroom• Working with a mentor• Tutoring in the Self-Access Study Center• Assisting in the computer lab• Teaching in the Foundations Prep or Academic Prep classes• Completing a portfolio of work completed during the practicum

## Career Opportunities

TESOL certificate students are qualified for many overseas positions teaching English as a foreign language. They may also work in various ESL programs in the United States and other English-speaking countries. Possible teaching settings include adult education classes, intensive English programs, and English language learning programs around the world. Students in any major may apply for the TESOL certificate.

### Difference between the TESOL certificate and the TESOL minor

The TESOL minor will be indicated on a student's official transcript, whereas the TESOL certificate will not. Students should apply to the minor program by going to their college advisement center. Requirements will be tracked by the MyMap system and the student's progress report. If all requirements are met, the minor will be awarded at the time of graduation. Students who also want to complete the TESOL certificate must provide evidence to the Linguistics and English Language Department that requirements have been met. Once the certificate requirements have been met, the department will prepare and mail the certificate to the student.

Choosing whether or not to complete the certificate depends largely on the student's career goals. A TESOL certificate is a term that is recognized around the world. It is viewed as more applied and usable in the professional world. A certificate may be particularly useful if a student plans to teach abroad.

Students may choose to complete either a minor only or a minor and a certificate.

## Program Requirements

1. Complete a TESOL minor (18 hours).
2. Complete 3 hours of the following:

   ELANG 496R : TESOL Internship. (.5-9:0:0)

   WHEN TAUGHT: Fall; Winter; Spring; Summer
   PREREQUISITE: ELANG 477 & ELANG 478
   DESCRIPTION: Individualized work or volunteer experience in a domestic or international setting.
   NOTE: International internships must be coordinated through International Study Programs. All internships require prior departmental approval.

   **Course Outcomes**

   - Apply linguistic and pedagogical concepts learned in other TESOL minor courses in real-world situations.
   - Develop feelings of confidence and preparedness in teaching English as a second language.
   - Demonstrate critical reflection of their own teaching beliefs and practices.
   - Become familiar with professional conduct, practice, and employment options in the TESOL industry.

3. Provide evidence of the following:
   a. Evidence of a second language learning experience equivalent to 4 semesters of a second language (through classes or challenge exams).
   b. For students whose first language is not English, evidence of English language proficiency (at least an *Advanced-low* on the ACTFL OPI).

## Undergraduate Courses

### 100-Level Courses

ELANG 150 : First-Year Writing for International Students. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

DESCRIPTION: Processes of academic writing, reading, and research for international students who have English as their second language.

NOTE: Fulfills GE First-Year Writing requirement.

**Course Outcomes**

There are no course outcomes available

### 200-Level Courses

ELANG 223 : Introduction to the English Language. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Overview of English from linguistic point of view, emphasizing structure of English and social, biological, and psychological aspects of language.

**Course Outcomes**

- Students will have acquired basic analytical tools in core areas of linguistics: phonology, morphology, syntax, semantics, and pragmatics.
- Students will be able to apply these analytical tools to English language data of various types, such as those involving aspects of variation, acquisition, and historical change.

ELANG 273 : Empirical Methods in English Linguistics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ELang 223 or concurrent enrollment.

DESCRIPTION: The use of large collections of texts for teaching and particularly for research, including the study of many different types of linguistic variation.

**Course Outcomes**

- Students will be able to carry out library and online research to investigate findings by other linguists.
- Students will be able to organize linguistic data, construct and test hypotheses about it, and report the findings.
- Students will be able to distinguish empirical from introspective-based research and apply both (either separately or in conjunction with each other) for research topics.
- Students will be able to recognize and begin to apply statistical measures.
- Students will acquire authentic linguistic data from native speakers through appropriately selected computer corpora (collections of texts) as well as through other methods such as interviews, surveys, recordings, etc., and effectively extract the relevant data

### 300-Level Courses

ELANG 322 : Modern American Usage. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: ELang 223 or Ling 201 or concurrent enrollment.

DESCRIPTION: Current conventions and effective use of American English.

**Course Outcomes**

- Students will be able to identify and use multiple approaches to evaluating English usage.
- Students will be able to identify and use the most appropriate tools for each approach.
- Students will be able to evaluate the validity of prescriptive rules by using these approaches and tools.

ELANG 324 : History of the English Language. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: ELang 223 or Ling 201, or concurrent enrollment.

DESCRIPTION: Basic changes from Old English to modern English, including modern American dialects.

**Course Outcomes**

- Students will be able to trace the general phonemic, morphological, syntactic, and semantic changes of English in relation to the major periods of Old English, Middle English, Early Modern English, and Present-Day English.
- Students will be able to identify some of the appropriate linguistic tools and resources that are available to answer specific questions about the history and development of the English language.
- Students will be able to explain the important social and political factors as well as linguistic processes that have influenced the development of the English language and some of its varieties, including the current standard variety.
- Students will be able to apply course concepts and information to the assessment and interpretation of authentic historical texts.

ELANG 325 : The Grammar of English. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: ELang 223 or Ling 201 or concurrent enrollment.

DESCRIPTION: Study of English grammar in various applications.

**Course Outcomes**

- Students will be able to analyze and describe grammatical structures in English at the word, phrase, clause, and sentence levels.
- Students will be able to apply the knowledge from parts 1) and 2) towards the analysis of authentic texts.
- Students will be able to identify and label parts of speech in English sentences.

ELANG 326 : English Semantics and Pragmatics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ELANG 223; or LING 201

DESCRIPTION: Structure of meaning in words, phrases, and discourse. Lexical semantics and the mental lexicon; phrase-level meaning; interaction of situation and meaning.

**Course Outcomes**

- Students will be able to identify and discuss basic semantic and pragmatic concepts such as sense, reference, deixis, perlocution, illocution, entailment, implicature, metaphor, Gricean Maxims, etc.
- Students will be able to apply the above concepts towards the analysis of spoken and written texts, demonstrating their knowledge and understanding in a written paper.

ELANG 327 : English Phonetics and Phonology. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: ELANG 223; or LING 201

DESCRIPTION: Pronunciation, perception, and interaction of English speech sounds. Dialect variation.

**Course Outcomes**

- Students will be able to listen analytically to speech and identify a wide range of speech sounds and prosodic patterns found in English.
- Students will be able to use standard transcription systems to represent English speech sounds and discuss some of the limitations of those systems.
- Students will know how to use speech analysis software to investigate English speech sounds.
- Students will understand the theoretical principles underlying the classification and description of English speech sounds and prosodic patterns of English.
- Students will be able to describe and analyze at an intermediate level major features of the segmental and prosodic phonology of English.

ELANG 350 : Basic Editing Skills. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: ELANG 223 & ELANG 322 & ELANG 325

DESCRIPTION: Editing theory and practice, emphasizing copy editing and basic line editing.

**Course Outcomes**

- Students demonstrate copy editing skills by using these skills to improve sample manuscripts in terms of punctuation, spelling, usage, and sentence clarity.
- Students apply style and usage requirements with flexibility, customized to specific contexts and circumstances.
- Students deploy empirical methods to investigate patterns of style and usage and make editorial decisions.

ELANG 351R : Editing Student Journals. (1-2:0:ARR)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Hands-on training and experience in all aspects of editing and publishing student journals.

**Course Outcomes**

- Students acquire practical experience in one or more phases of the production of a BYU student journal: manuscript solicitation, evaluation, development, copy editing, layout, production, and promotion.
- Students seek out opportunities to apply principles learned in editing classes to improve communication in live settings.
- Students articulate what they have learned about communication or publication processes in live settings that have enhanced their course learning.

ELANG 362 : Discourse Analysis. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ELANG 223; or LING 201

DESCRIPTION: Linguistic analysis of connected speech or written discourse, especially larger linguistic units above the clause level, such as conversational exchanges or written texts.

**Course Outcomes**

- Students will be able to demonstrate knowledge of the ways that discourse is structured in a variety of genres and registers, including spoken conversational discourse and written academic discourse.
- Students will be able to identify and critically evaluate sources relevant to issues concerning discourse analysis.
- Students will be able to evaluate and appropriately apply various methods and approaches to the analysis of authentic English discourse and effectively communicate their findings.

ELANG 375 : TESOL Listening, Speaking, and Pronunciation. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ELANG 223; or LING 201

DESCRIPTION: Understanding basic English as a second/foreign language theories and practices for teaching and assessing listening, speaking, and pronunciation.

**Course Outcomes**

- Analyze historical methods and techniques in English as a second/foreign language for teaching and assessing listening, speaking, and pronunciation.
- Analyze and adapt textbook materials designed to promote accuracy and fluency in listening, speaking, and pronunciation.
- Observe and analyze second language accuracy and fluency instruction in relation to concepts discussed in class.
- Identify the roles that langauge acquisition, learner variables, and language learning strategies play in teaching and assessing listening, speaking, and pronunciation.
- Evaluate technology aimed at promoting listening, speaking, and pronunciation.

ELANG 376 : TESOL Reading, Writing, and Vocabulary. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ELANG 223; or LING 201

DESCRIPTION: Understanding basic processes of literacy development in English as a second or foreign langauge. How knowledge of these processes informs classroom literacy instruction and practices.

**Course Outcomes**

- Analyze basic theories of second/foreign language literacy and vocabulary acquisition and assessment.
- Apply basic theories to actual classroom literacy and vocabulary instruction.
- Observe and analyze L2 literacy instruction in relation to concepts discussed in class.
- Identify and critique online resources aimed at literacy and vocabulary development.

ELANG 399R : Academic Internship: Editing and English Language. (.5-9:0:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: On-the-job experience and education related to editing and English language studies.

**Course Outcomes**

- Students acquire practical experience in one or more phases of the production of a professional publication or other document by serving as an intern at that publication or for the document production team: manuscript solicitation, evaluation, development of content, copy editing, layout, and print production.
- Students seek out opportunities to apply principles learned in editing classes to improve communication in live settings.
- Students articulate what they have learned about communication or publication processes in live settings that has enhanced their course learning and professional development.

### 400-Level Courses

ELANG 410R : Genre and Substantive Editing. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: ELANG 223 & ELANG 322 & ELANG 325

DESCRIPTION: Exploring a different genre of publishing each semester; instruction in substantive editing.

**Course Outcomes**

- Students articulate a personal perspective on ethical issues in publishing, such as preserving the author's voice, plagiarism, copyright infringement, the tensions between the editorial and the marketing sides of publishing, the promotion of values and the transmission of our cultural heritage.
- Students demonstrate specialized skills and the perspective required by at least one specific editing genre (such as magazine publishing, technical communication, fiction, scholarly publishing, or visual information design).

ELANG 421R : Studies in Language or Editing. (3:3:0)

DESCRIPTION: Topics vary.

**Course Outcomes**

- Students will be able to use information-design theory to improve their critiques of text features and to create new text design which is improved in both practical and ethical terms.
- Students will be able to use traditional editing rules to evaluate texts and revise text (format and information structure).
- Students will be able to explain how information-design theory can reconcile tensions between traditional editing rules that may come into conflict.

ELANG 430R : Editing for Publication. (1-3:ARR:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: ELANG 350 & ELANG 410R & DIGHT 230

DESCRIPTION: Refining copy editing and substantive editing skills through hands-on work with actual publications; one-on-one feedback and mentoring.

**Course Outcomes**

- Students demonstrate improvement in basic editing skills acquired in previous courses: copy editing, substantive genre editing, and use of electronic tools for editing and layout.
- Students demonstrate ability to work in small groups by producing as a group a publication project effectively edited and visually designed.
- Students demonstrate a basic understanding of the publication industry and the requirements of an effective job search by creating a job application and an editing skills portfolio.

ELANG 468 : Varieties of English. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: ELANG 223; or LING 201

DESCRIPTION: Regional and social variation in English, especially standard and nonstandard national and world Englishes such as English-based pidgins and creoles.

**Course Outcomes**

- Students will learn the basic properties of several varieties of English.
- Students will be able to understand the basic terminology as well as the theoretical and social issues associated with studying varieties of English.
- Students will learn to collect and analyze data using several data collection methods.
- Students will collect and analyze data on a topic of their choice and present their findings in a research paper.

ELANG 477 : TESOL Basic Course and Lesson Planning. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: For Fall 2013 & forward admits, ELang 325 & ELang 375 & ELang 376.

DESCRIPTION: Design English as a second or foreign language course and lesson plans on principles and knowledge of learning outcomes, assessment plans, methods, materials, classroom management, and learning activities; access and use professional resources.

**Course Outcomes**

- Based on a needs assessment, students will be able to design an ESL course that includes learning outcomes, an assessment plan, a description of what will be taught, how it will be taught (including the roles for teacher and students), and major learning activities.
- Students will be able to develop an instructional unit using materials from a textbook that includes learning objectives, a unit plan, and sample lesson plans.
- Students will become more professional in TESOL by accessing and using resources including international, national, and local organizations; journals and online resources; job listings; and information about further educational opportunities.

ELANG 478 : TESOL Practicum. (3:0:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ELANG 325 & ELANG 375 & ELANG 376; ELang 223; and ELang 477 or concurrent enrollment.

DESCRIPTION: Synthesize and apply the foundational knowledge of the English language systems and competencies in teaching English as a second or foreign language.

**Course Outcomes**

- Students will put the knowledge and skills learned in the TESOL minor classes into use during the practicum at the English Language Center by:• Observing more experienced teachers in the classroom• Working with a mentor• Tutoring in the Self-Access Study Center• Assisting in the computer lab• Teaching in the Foundations Prep or Academic Prep classes• Completing a portfolio of work completed during the practicum

ELANG 495R : The Senior Course. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Senior status; English language major status.

DESCRIPTION: In-depth study of a limited area of English language. Content varies; requires research and writing.

**Course Outcomes**

- Students will be able to identify some of the linguistic assumptions that underlie the approaches and methods they might use in completing the project.
- Students will be able to demonstrate how a variety of linguistic concepts, authoritative sources, and methodologies they have previously learned about in other courses may be effectively applied in a focused course project in which the students participate.
- By the end of the course, students will have written a substantial paper that describes, explains, and justifies

the work they have done and the approach they have used in their project.

ELANG 496R : TESOL Internship. (.5-9:0:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: ELANG 477 & ELANG 478

DESCRIPTION: Individualized work or volunteer experience in a domestic or international setting.

NOTE: International internships must be coordinated through International Study Programs. All internships require prior departmental approval.

**Course Outcomes**

- Apply linguistic and pedagogical concepts learned in other TESOL minor courses in real-world situations.
- Develop feelings of confidence and preparedness in teaching English as a second language.
- Demonstrate critical reflection of their own teaching beliefs and practices.
- Become familiar with professional conduct, practice, and employment options in the TESOL industry.

## 500-Level Graduate Courses (available to advanced undergraduates)

ELANG 521R : Studies in Language. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ELANG 223; or LING 201; or equivalent.

DESCRIPTION: Topics vary.

**Course Outcomes**

- By the end of the course, students will have read extensively on a topic determined by the instructor.
- Students will be able to identify and outline some of the principal issues and contextual matters related to the designated topic area as well as to identify the principal sources and methods for resolving questions related to that topic area.
- By the end of the course, students will have prepared a substantial paper or project that demonstrates their mastery of material related to a specific issue or question within the topic area.

: English Spelling.

**Course Outcomes**

ELANG 522 : Language Policy and Planning in English Language Contexts. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ELANG 223; or LING 201; or equivalent.

DESCRIPTION: Theories and practices of governing entities as they formulate policies relating to the status and codification of the English language.

**Course Outcomes**

- Students will be able to apply fundamental language planning theories and practices toward solving real-world English language macro and micro planning problems.
- Students will be able to understand, interpret, explain, analyze, and assess representative texts and practices in English language planning and policy development.
- Students will be able to conduct research using appropriate language planning and policy theory and practice models in English language contexts.

ELANG 524 : History of the Book. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: History and development of the book, including modern methods and practices.

**Course Outcomes**

- Students will be able to describe the history of the book and the reasons it has developed the way it has.
- Students will be able to describe and show how the book (the codex, in particular) is physically constructed and produced.
- Students will be able to describe the development of scripts and fonts and the reasons they have changed over time.
- Students will be able to describe what goes into making a book look beautiful (design, typography, construction, usefulness, etc.).
- Students will be able to describe the fundamentals that underlie how texts change and develop over time, including the kinds of transmission errors that occur.

ELANG 525 : Old English 1. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

PREREQUISITE: ELANG 324; or equivalent.

DESCRIPTION: Old English grammar and vocabulary; traditional syntactical patterns in various types of Old English prose and poetry.

**Course Outcomes**

- Students will be able to read Old English texts with the aid of a glossary and grammar and how to contextualize the content of the texts with Anglo-Saxon culture.
- Students will have learned the basic grammatical and syntactic structures of Old English.

Students will be able to describe the differences between Old English and Present-day English and note the changes that occurred between the two stages of English.
- Students will be able to describe the major dialects and genres of Old English writings.

ELANG 526 : Middle English. (3:3:0)

WHEN TAUGHT: Fall Even Yrs.

PREREQUISITE: ELANG 324; or equivalent.

DESCRIPTION: Detailed study of the principal dialects of Middle English, as illustrated in the literature of the period.

**Course Outcomes**

- Students will be able to identify some of the most important ways that Middle English differs from Present-day English and Old English and tell how the language is in the process of changing in Middle English.
- Students will be able to read a Middle English text, with a little help from a glossary or dictionary.
- Students will be able to identify the major dialect differences in Middle English.
- Students will be able to explain concepts of language contact and sociolinguistics as exemplified by Middle English.

ELANG 527 : Early Modern English. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: ELANG 324; or equivalent.

DESCRIPTION: English language from about 1500 to 1800, with special emphasis on language of Shakespeare and the King James Bible.

**Course Outcomes**

- Students will be able to identify the phonological, morphological, syntactic, lexical, pragmatic, and orthographic characteristics of Early Modern English and how those characteristics are distinguished from Present Day English.
- Students will be able to identify important historical, social, and linguistic factors that influenced the development of the language during the Early Modern Period, including the development of modern prescriptive norms.
- Students will be able to apply their understanding of Early Modern English to the interpretation of contemporary texts, including passages from the works of Shakespeare and the King James translation of the Bible.

ELANG 528 : Varieties of English. (3:3:0)

PREREQUISITE: ELang 223, 324; or equivalents.

DESCRIPTION: Regional and social variation in English, especially standard and nonstandard national and world Englishes, including English-based pidgins and creoles.

**Course Outcomes**

There are no course outcomes available

ELANG 529 : Structure of Modern English. (3:3:0)

WHEN TAUGHT: Spring Odd Yrs.

PREREQUISITE: ELANG 325; or instructor's consent.

DESCRIPTION: English syntax through modern grammars; theories underlying those grammars.

**Course Outcomes**

- Students will be able to identify the various characteristics, features, and behaviors of the lexical and structural classes, as well as the larger phrase, clause, and sentence types within the English language.
- Students will be abel to identify some of the important reference works and resources that are available to answer questions about English grammatical structure and how they might appropriately be applied.
- Students will be able to demonstrate how grammatical knowledge can be consciously applied in a variety of analytical and applied language tasks.

ELANG 535 : Language and Literature. (3:3:0)

WHEN TAUGHT: Summer Contact Department

PREREQUISITE: ELANG 223; or LING 201; or equivalent.

DESCRIPTION: Literature from a language perspective; applying linguistic constructs to literary language; examining literary style; linguistic analysis of unfamiliar texts.

**Course Outcomes**

- Students will have become acquainted with important philological principles.
- Students will be able to analyze literary texts using poetic formulas, including simple and complex figures.
- Students will be able to analyze literary texts using philological criticism, including contextual relations.
- Students will understand how an online corpus might be used effectively to analyze literary texts.
- Students will be able to create literary texts using language features identified within the course.

ELANG 548 : Old English 2. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: ELANG 525

DESCRIPTION: Additional reading in Old English, emphasizing sound changes, dialects, and textual production.

**Course Outcomes**

- By the end of the course students will have achieved a greater fluency within the Old English language.
- Students will have translated the entire epic poem, Beowulf.

- Students will be able to identify the features in Beowulf that exemplify the conventions of Old English heroic verse and the larger cultural context of the heroic society.
- Students will be able to provide examples of contrasting Old English lexical uses, including ones involving metaphor and synonymy among words within the poem as well as differences between the lexical forms in the poem and other Old English texts.

## Undergraduate Courses

### 100-Level Courses

LING 110 : Introduction to Human Language. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Introduces students to the basic principles of language. The course considers language as part of our human, biological heritage, as wel as critical for our social and intellectual development.

**Course Outcomes**

There are no course outcomes available

### 200-Level Courses

LING 201 : Introduction to Linguistics (Modern). (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Basic understanding of linguistic systems. Phonology, morphology, syntax, semantics, and pragmatics.

**Course Outcomes**

- Be familiar with some of the major subfields of linguistics and the main topics of interest within each subfield.
- Demonstrate understanding of phonological, morphological, and syntactic structure.
- Master techniques of basic phonological, morphological, syntactic, and historical analysis.

LING 210 : Sounds of Language. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 201.

DESCRIPTION: Introduction to the description and analysis of speech sounds.

**Course Outcomes**

- Transcribe and give articulatory descriptions for common speech sounds of the world's languages, including those of English
- Explain common phonetic processes.
- Complete basic phonological analyses using knowledge ofthe phonemic principlethe content and organization of phonological featuresthe elements of prosody (syllable, stress, etc)

LING 220 : Structure in Language. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 201.

DESCRIPTION: Introduction to the analysis of word and sentence structure.

**Course Outcomes**

- Complete basic syntactic analyses using knowledge ofparts of speechconstituent structuregrammatical relations
- Complete basic morphological analyses using knowledge ofbasic word formation processesthe distinction between inflection and derivation and common inflectional categoriesproperties of the interfaces of morphology with phonology and syntax
- Describe the results of analyses using appropriate terminology and formalisms.

LING 230 : Meaning in Language. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 201.

DESCRIPTION: Introduction to the analysis of meaning in words, grammar, and discourse.

**Course Outcomes**

- Conduct semantic and pragmatic analyses and explications of natural human language at the lexical, grammatical, discourse and metaphorical levels applying a variety of semantic and pragmatic analytical procedures

- Critique contemporary approaches to semantic and pragmatic analyses by becoming familiar with semantic and pragmatic theories.
- Argue for a particular semantic or pragmatic explication through producing papers and project reports.

LING 240 : Linguistic Tools 1. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 201.

DESCRIPTION: Introduction to quantitative and qualitative research methods in linguistics.

**Course Outcomes**

- Be able to formulate testable hypotheses concerning language.
- Be able to collect linguistic data using interviews, surveys, experiments, corpora, etc
- Be able to use appropriate tools to analyze linguistic data.
- Be able to describe the results of linguistic research using appropriate terminology and rhetorical strategies (i.e., talk and write like a linguist).

LING 299R : Academic Internship: English Language Teaching. (1-9:0:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: LING 377R

DESCRIPTION: Students with focused training teach specific English skills to speakers of other languages in the U.S. or abroad.

**Course Outcomes**

- Provide service to English language learners in various, real-world settings
- Apply linguistic and pedagogical concepts learned in TESOL basic training coursework in real world situations.
- Develop feelings of confidence and satisfaction from experience teaching English as a second language.

### 300-Level Courses

LING 310 : Phonetics. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: For Fall 2013 & forward admits, Ling 210.

DESCRIPTION: General inventory of speech sounds possible in language, from both an acoustic and articulatory point of view.

**Course Outcomes**

- Produce and transcribe approximately 100 of the sounds of the world's languages and describe the articulatory and acoustic properties of these sounds.
- Transcribe and explain the phonetic processes common to languages of the world.
- Perform field work in phonetics—learning to record and acoustically analyze phonetics data.
- Recognize the phonetic systems of several languages and how and why the languages are organized the way they are.

LING 315 : Phonology. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 210.

DESCRIPTION: Study of natural language sound systems from a variety of theoretical perspectives.

**Course Outcomes**

- Use a theoretical model to complete a phonological analysis at an intermediate level using appropriate methods and techniques,
- Present the results of phonological analyses, showing awareness of foundational issues in theories of phonology.

LING 320 : Morphology. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: For Fall 2013 & forward admits, Ling 220.

DESCRIPTION: Theory and analysis of word structure in human language.

**Course Outcomes**

There are no course outcomes available

LING 325 : Theoretical Syntax. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 220.

DESCRIPTION: Theoretical comparison and contrast of different sentence types. Methods of argument to develop and critique generative theories of lexical categories, grammatical roles, and syntactic structure.

**Course Outcomes**

- Recognize and classify different types of constituents, including phrases and sentences.
- Understand and apply a theoretical framework and analytical techniques to determine and describe constituents.
- In writing and speaking, argue for (or against) particular theory dependent interpretations of structure, and support the argument with empirical evidence.
- Apply these outcomes to English and investigate their relevance to other languages.

LING 332 : Semantics. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: LING 201 & LING 230; or LING 201 & ELANG 326

DESCRIPTION: Theory and analysis of natural language semantics from a variety of theoretical perspectives.

**Course Outcomes**

There are no course outcomes available

LING 335 : Pragmatics. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: LING 201 & LING 230; or LING 201 & ELANG 326

DESCRIPTION: Theory and analysis of pragmatics from a variety of theoretical perspectives.

**Course Outcomes**

There are no course outcomes available

LING 360 : (Ling-DigHT) Programming for Text Processing and Analysis. (3:3:0)

PREREQUISITE: C S 100 or equivalent experience.

DESCRIPTION: Development of computer applications for research in language and literature (text processing, retrieval, and analysis) in one or more programming languages (e.g., Perl, Python, etc.).

**Course Outcomes**

There are no course outcomes available

LING 361 : Speech Processing. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: LING 360

DESCRIPTION: Analyzing and manipulating speech data. Developing software applications that include speech recognition and/or speech generation.

**Course Outcomes**

No outcomes are available at this time.

LING 377R : Basic Training in TESOL. (1-3:ARR:ARR)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Planned participation in IAS- or U.S.-based English teaching experience.

DESCRIPTION: Basic preparation to teach English to speakers of other languages in particular settings.

NOTE: Especially for international service volunteers who plan to teach ESL or EFL.

**Course Outcomes**

There are no course outcomes available

LING 399R : Academic Internship: Linguistics. (.5-9:0:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Program coordinator's consent.

DESCRIPTION: On-the-job experience and education related to linguistics.

**Course Outcomes**

- Students will learn to apply concepts learned in their academic classes to everyday, practical, linguistic situations outside the university.
- Interns' real-world work experiences will enhance and enrich their understanding of academic concepts they learned in university classes.

**400-Level Courses**

LING 427 : Phonology and Morphology. (3:3.0:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: LING 201; or ELANG 223

DESCRIPTION: Introduction to phonology and morphology in the world's languages emphasizing the analysis of English.

**Course Outcomes**

- Be able to complete a phonological analysis at an intermediate level by applying knowledge of:the phonemic principle,the content and organization of the system of phonological features,the elements of the prosodic organization of utterances.
- Be able to complete a morphological analysis at an intermediate level by applying knowledge of:basic word formation processes,the distinction between inflection and derivation and common inflectional categories,properties of the interfaces of morphology with phonology and syntax.
- Be able to describe facts about phonology and morphology and communicate the results of phonological and morphological analyses using appropriate terminology and formalisms.

LING 440 : Linguistic Tools 2. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: For Fall 2013 & forward admits, Ling 240.
DESCRIPTION: Linguistic research tools and methods; resources, literature, and synthesis of techniques.

**Course Outcomes**

There are no course outcomes available

LING 450 : Introduction to Historical-Comparative Linguistics. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: For Fall 2013 & forward admits, Ling 210 and Ling 220.
DESCRIPTION: Theory and method of language change via comparison of daughter languages and reconstruction of their ancestral language: phonological, morphological, semantic, and lexical.

**Course Outcomes**

- Students will be able to apply the comparative method and internal reconstruction in order to hypothesize earlier states of a language and to examine the relatedness of different languages.
- Students will be able to explain how and why linguistic changes occur in phonology, morphology, syntax, semantics, and the lexicon.
- Students will be able to explain how linguistic change is affected by language contact and psychological, physical, social, and cultural factors.
- Students will be able to use corpora, texts, and lexicons in order to obtain data on, and answer questions about, language change.

LING 460 : Typology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: For Fall 2013 & forward admits, Ling 220.
DESCRIPTION: Introduction to the study of language universals and linguistic typology.

**Course Outcomes**

There are no course outcomes available

LING 478 : Language Teaching Methods: MTC. (3:3:0)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: Instructional methods and strategies for teaching second and foreign languages at the Missionary Training Center (MTC).

**Course Outcomes**

- Students who are teaching language classes at the Missionary Training Center will connect methodological theory learned in this class with real-world practice.

LING 480 : Problems in Translation. (3:3:0)

WHEN TAUGHT: Fall
PREREQUISITE: For Fall 2013 & forward admits, Ling 230 and proficiency in a second language.
DESCRIPTION: History, theory, and practice of human and machine translation.

**Course Outcomes**

- Discuss the possible future of translation technology, including future applications of existing technology and future development of new technologies, drawing on class assignments and a personal project.
- Create a bi-text corpus and derive translation memory and terminology from that bi-text corpus.
- Define a set of specifications for a translation project based on text type, audience, and purpose.
- Use machine translation, translation memory, and terminology in conjunction with a translation environment tool to complete a translation project according to the project's specifications.

LING 485 : Corpus Linguistics. (3:3:0)

PREREQUISITE: For Fall 2013 & forward admits, Ling 240.
DESCRIPTION: Using large collections of texts for teaching and particularly for research, including many types of linguistic variation

**Course Outcomes**

- Students will be able to understand how corpora and corpus-based materials can best be used for teaching and learning. They will carry out an in-depth investigation of one particular linguistic phenomenon using the best available corpora and corpus-based tools.
- Students will be able to apply the basic principles of corpus design and construction to design a corpus for their area of interest.
- Students will be able to understand the differences between corpus-based/empirical and rationalist/non-empirical approaches to linguistics.
- Students will be able to use text analysis tools to investigate frequency, keywords, and do simple concordancing.
- Students will be able to use corpora to carry out research in the areas of 1) lexicography 2) genre-based differences in language 3) syntax 4) semantics, and 5) historical change.

LING 490 : Senior Seminar. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: LING 201; or ELANG 223
RECOMMENDED: Ling 420, 427, 430, 450.
DESCRIPTION: Reading and discussing major issues in linguistics, writing a senior paper, and reviewing content of core courses.

**Course Outcomes**

- Discuss intelligently several current big issues in linguistics.
- Resolve the tension between two sides of a narrow [linguistic] issue.
- Relate the narrow issue in your senior thesis to at least one major issue in linguistics and to possible career paths.

LING 495 : Senior Capstone. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: For Fall 2013 & forward admits, Ling 210 & Ling 220 & Ling 230.

DESCRIPTION: Integrative, culminating experience for linguistics majors; topics vary.

**Course Outcomes**

There are no course outcomes available

## 500-Level Graduate Courses (available to advanced undergraduates)

LING 501 : Advanced Research and Writing Techniques for Second Language Writers. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: For graduate international ESL students.

DESCRIPTION: Non-native English speaking students will develop research and writing techniques necessary for graduate-level writing.

**Course Outcomes**

There are no course outcomes available

LING 545 : Psycholinguistics. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: For Fall 2013 & forward admits, Ling 201 or ELang 223; or equivalent.

DESCRIPTION: How the mind interprets, stores, retrieves, and produces language. Anatomical structures and physiological processes of the brain dealing with language.

**Course Outcomes**

- Discuss basic terminology, theories, and issues of psycholinguistics.
- Know the basic findings in each area of psycholinguistics (including comprehension, production, acquisition, and language disorders).
- Read and critically respond to psycholinguistic research and articles.
- Create and participate in psycholinguistic experimental research.

LING 550 : Sociolinguistics. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: For Fall 2013 & forward admits, Ling 210 or ELang 223; or equivalent.

DESCRIPTION: Research and theory in anthropological linguistics and sociolinguistics.

**Course Outcomes**

- Understand the relationship between language use and society with respect to regional, social, ethnic and contextual variation.
- Conduct research into a wide range of sociolingusitic variation
- Impart knowledge of sociolinguistics and related research in presentations and papers

LING 551 : Anthropological Linguistics. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: For Fall 2013 & forward admits, Ling 220 and Ling 230; or equivalent.

DESCRIPTION: Language in culture and society: development, typology, and description.

**Course Outcomes**

- Upon completion of this course students will be equipped with the conceptual tools to think about and analyze linguistic data in social contexts of use.
- Student will become conversant with foundational texts which inform our cultural understanding and use of language.
- Through readings, weekly exercises and discussions they will acquire the metalinguistic concepts necessary for contextualizing varieties of language.
- In class transcription sessions will address the representation of linguistic data, and how that representation may affect one's assessments of semantic intent.

LING 558 : Historical-Comparative Linguistics. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: Ling 450 or equivalent.

DESCRIPTION: Learning theory and method of language change via comparing daughter languages and reconstructing ancestral languages. Language universals and typology.

**Course Outcomes**

- Students will learn how to apply typological concepts to specific languages during in-class and out of class exercises.
- Students will have achieved an understanding of the most influential concepts of Linguistics typology, including the different kinds of universals (formal, substantive, implicational, syntactic, lexical, morphological).
- Students will become conversant with the arguments against language universals.

LING 580R : Problems in Linguistics and Applied Linguistics. (1-3:3:0)

WHEN TAUGHT: Contact Department.

DESCRIPTION: Advanced research in language acquisition, sociolinguistics, psycholinguistics, linguistics field study, applied linguistics.

**Course Outcomes**

- Each section of Ling 580R could have different learning outcomes from other sections and other semesters. Therefore, each instance of Ling 580R must be evaluated separately.

LING 581 : Natural Language Processing. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: Good programming skills in at least one language (preferably LISP, Prolog, C, C++, Perl, or Java) and a knowledge of basic discrete math. Upper-division linguistics/computers and the humanities students with less programming experience may enroll with instructor`s consent.

DESCRIPTION: Intensive overview of natural language processing, including computational techniques, hands-on experience with linguistic technologies and corpora, language modeling approaches, and readings from current research.

**Course Outcomes**

- Students will be able to demonstrate by hands-on experience how to use NLP tools in the performance of linguistically interesting tasks.
- Students will be able to recognize and describe how computational techniques are used successfully in various areas of natural language processing.
- Students will be able to demonstrate application of a novel, nonontrivial programming approach to solving some aspect of NLP-related computation.
- Students will read, understand, discuss, and assess current research literature and trends in the relevant areas.

LING 590R : Readings in Linguistics. (1-3:ARR:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Instructor's consent.

DESCRIPTION: Individual study of current linguistic literature. Occasional discussion sessions with instructor and other class members.

NOTE: Pass/fail grade only.

**Course Outcomes**

- Individual advanced students will study and report on assigned readings under the direction of a professor
- Advanced students will study and complete individual projects under the direction of a professor

LING 599R : Academic Internship: Linguistics. (1-9:9:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: On-the-job experience under faculty supervision, with department approval.

**Course Outcomes**

- Students will learn to apply concepts learned in their academic classes to everyday, practical, linguistic situations outside the university.
- Interns' real-world work experiences will enhance and enrich their understanding of academic concepts they learned in university classes.

## Graduate Courses

For 600- and 700-level courses, see the BYU 2014–2015 Graduate Catalog.

## Undergraduate Courses

### 200-Level Courses

LINGC 220 : Linguistic Computing Programming 1. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: LingC 200 or C S 100 or equivalent experience.

DESCRIPTION: Computer programming for language applications: data types, character representation, flow of control, file input/output, string manipulation.

**Course Outcomes**

- Understand what a computing algorithm is, as opposed to instructions intended for a human who as agency.
- Be able to manipulate digital information using algorithms written in a programming language. This includes an ability to understand and write assignment statements, loops, conditionals, and functions.
- Be able to manipulate digital information using algorithms written in a programming language. This includes an ability to understand and write assignment statements, loops, conditionals, and functions.
- Be able to create a simple graphical user interface for a software application.

### 400-Level Courses

LINGC 489R : Linguistic Computing Project. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Any 300-level linguistic computing course.

DESCRIPTION: Applying principles from other courses to a substantial research or development project. Students work individually with faculty and technical advisors.

**Course Outcomes**

- Design and implement a language-related software application that satisfies the requirements of a faculty or staff member, drawing on the expertise of a faculty or staff technical advisor.

LINGC 490R : Current Topics and Issues. (3:Arr.:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Instructor's consent.

DESCRIPTION: Individual or group study of current issues and developments in linguistic computing. Extended readings; research or project required.

**Course Outcomes**

No outcomes are available at this time.

LINGC 496R : Academic Internship: Linguistic Computing. (1-3:Arr.:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: LingC 300-level course or equivalent experience.

DESCRIPTION: On-the-job experience in publishing production (print or electronic), courseware/software development, museum/collection/textbase management, language/linguistics research, or other application of linguistic computing.

**Course Outcomes**

- Participate in the language-related software activities of an off-campus organization, satisfying the requirements of the internship supervisor and the BYU faculty member in charge of the internship course.

## Undergraduate Courses

### 300-Level Courses

ESL 301 : Advanced Academic English for International Students. (3:3:1)

WHEN TAUGHT: Fall

PREREQUISITE: For bilingual foreign students.

DESCRIPTION: Integrated skills course for nonnative English speakers, primarily focused on academic listening, speaking, and the basic skills needed for success at an American university.

**Course Outcomes**

- Gain English listening and speaking skills critical to success in American academic, university settings
- Participate and communicate in English in academic settings clearly, confidently, and effectively.
- Give oral presentations of various kinds in English effectively in academic settings.
- Listen to academic lectures and take effective notes
- Explain cultural differences in academic settings

ESL 302 : Advanced English Pronunciation for International Students. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: For bilingual foreign students.

DESCRIPTION: Improving the speaking ability of nonnative English students, emphasizing rhetorical and communication strategies, pronunciation, stress, rhythm, intonation, and fluency.

**Course Outcomes**

- Non-native English-speaking students will develop an increased awareness of English pronunciation patterns
- ESL students will improve their knowledge of strategies to learn to pronounce English and ability to pronounce English correctly in the following areas: a. Vowels and consonants, b. Syllables and word endings, c. Intonation, d. Stress, e. Rhythm, and f. Linking.

ESL 303 : College Reading and Study Skills for International Students. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: For bilingual foreign students.

DESCRIPTION: Learning strategies to improve reading speed and to understand materials used in university classes.

NOTE: Should be taken during the first year (for nonnative English speakers).

**Course Outcomes**

- Non-native English-speaking students will acquire or improve the skills they need to read and understand university-level materials.
- Students will build increased English vocabulary, comprehension, inference, and critical thinking and evaluation, among other skillls

ESL 304 : Academic Writing for International Students. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: For bilingual foreign students.

DESCRIPTION: Learning how to write essays, reports, and research papers acceptable in an American university

NOTE: Should be taken before ELang 105 or Engl 150.

**Course Outcomes**

- Non-native English-speaking students will become more independent in their English writing and study skills and more aware of their writing ability
- Students in this course will learn to think critically and creatively.
- Students in this course will learn to think critically and creatively.
- Students will demonstrate the ability to use various processes as they write
- Students will be able to locate information in a major university library and write a documented research paper based on that information.
- Students will gain the ability ro read and write in genres common in university coursework.

ESL 305 : Applied Grammar for International Students. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: For international students.

RECOMMENDED: Concurrent enrollment in ESL 304 or ELang 105.

DESCRIPTION: Increasing correct grammar use in academic writing.

**Course Outcomes**

- Non-native English-speaking students will gain the ability to respond appropriately to a variety of academic writing tasks in English.
- Demostrate the ability to select appropriate and varied English vocabulary related to assigned topics with accuracy in word choice and form.
- Demonstrate the ability to recognize and independently correct grammar errors.

## Professors

Anderson, Neil J.
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Professor
**DEGREES:** BA, Brigham Young University, 1979
MA, Brigham Young University, 1981
PhD, University of Texas, Austin, 1989

Davies, Mark Edward
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Professor
**DEGREES:** BA, Brigham Young University, 1986
MA, Brigham Young University, 1989
PhD, University of Texas, Austin, 1992

Eddington, David S.
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Professor
**DEGREES:** BA, Brigham Young University, 1986
MA, Brigham Young University, 1989
PhD, University of Texas, Austin, 1993

Eggington, William Gregory
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Professor
**DEGREES:** BA, Brigham Young University—Hawaii, 1975
MA, University of Southern California, 1981
PhD, University of Southern California, 1985

Henrichsen, Lynn E.
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Professor
**DEGREES:** BA, Brigham Young University, 1973
TESL Graduate Certificate, Brigham Young University, 1974
MA, Brigham Young University, 1975
EdD, University of Hawaii, Manoa, 1987

Manning, Alan D.
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Professor
**DEGREES:** BA, Brigham Young University, 1984
PhD, Louisiana State University, Baton Rouge, 1988

Melby, Alan K.
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Professor
**DEGREES:** BS, Brigham Young University, 1973
MA, Brigham Young University, 1974

PhD, Brigham Young University, 1976

Skousen, Royal

**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Professor
**DEGREES:** BA, Brigham Young University, 1969
MA, University of Illinois, Urbana, 1971
PhD, University of Illinois, Urbana, 1972

## Associate Professors

Chapman, Don William

**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Associate Professor
**DEGREES:** BS, Brigham Young University, 1987
MA, Brigham Young University, 1990
PhD, University of Toronto, 1995

Dewey, Dan

**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Associate Professor
**DEGREES:** BA, Brigham Young University, 1993
MA, Brigham Young University, 1997
PhD, Carnegie Mellon University, 2002

Elzinga, Dirk Allen

**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Associate Professor
**DEGREES:** BA, University of Utah, 1992
MA, University of Utah, 1993
PhD, University of Arizona, 1999

Evans, Norman W.

**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Associate Professor
**DEGREES:** BA, Brigham Young University, 1979
MA, Brigham Young University, 1981
EdD, University of Southern California, 2001

Gardner, Dee

**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Associate Professor
**DEGREES:** BA, Brigham Young University, 1983
TESOL Graduate Certificate, Brigham Young University, 1993
MA, Brigham Young University, 1994
PhD, Northern Arizona University, 1999

Hallen, Cynthia Leah

**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Associate Professor
**DEGREES:** BA, Brigham Young University, 1980
TESOL Graduate Certificate, Brigham Young University, 1981
MA, Brigham Young University, 1982
PhD, University of Arizona, 1991

Lonsdale, Deryle

**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Associate Professor
**DEGREES:** BSc, University of Alberta, Canada, 1981
MS, Carnegie Mellon University, 1992
PhD, Carnegie Mellon University, 1997

Nuckolls, Janis

**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Associate Professor
**DEGREES:** BA, University of Wisconsin-Madison, 1981
AM, University of Chicago, 1983
PhD, University of Chicago, 1990

Oaks, Dallin Dixon
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Associate Professor
**DEGREES:** BA, Brigham Young University, 1984
MA, University of Utah, 1986
PhD, Purdue University, 1990

Smemoe, Wendy Baker
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Associate Professor
**DEGREES:** BA, Brigham Young University, 1991
MA, Brigham Young University, 1995
PhD, University of Illinois, Urbana, 2002

## Assistant Professors

Tanner, Mark W.
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Assistant Professor
**DEGREES:** BA, University of Utah, 1982
MA, University of Southern California, 1985
PhD, University of Pennsylvania, 1991

Willson, Heather
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Assistant Professor
**DEGREES:** BA, Brigham Young University, 1996
MA, Arizona State University, 2002
PhD, University of California, Los Angeles, 2008

## Teaching Professors

Gardner, Marvin K.
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Teaching Professor
**DEGREES:** BA, Brigham Young University, 1976
MA, Brigham Young University, 1977

Thorne, Melvin Jay
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Teaching Professor
**DEGREES:** BA, Brigham Young University, 1976
MA, University of Kansas, 1980
PhD, University of Kansas, 1986

## Associate Teaching Professor

Strong-Krause, Diane
**COLLEGE:** Humanities
**DEPARTMENT:** Linguistics and English Language
**RANK:** Associate Teaching Professor

**DEGREES:** BA, Brigham Young University, 1975
MA, Brigham Young University, 1977
PhD, Brigham Young University, 2001

College of Humanities Advisement Center
1175 JFSB, (801) 422-4789

## Admission to Degree Program

All degree programs in the Department of Philosophy are open enrollment until the end of the sophomore year (60 credit hours), after which permission to add or change a major/minor must be obtained from the concerned dean's office(s)—as stipulated by recent University policy changes. To declare a philosophy major or minor, visit the College of Humanities Advisement Center.

## The Discipline

From its inception in ancient Greece down to the present, philosophy has sought to understand the world and the place of human beings within it. As it frames ideas and theories with which to clarify and explain experience, philosophy discloses its faith in the ability of reason to discover and communicate truth. While data generated by the physical and social sciences often informs philosophical analysis, philosophy remains committed to answering those metaphysical, ontological, ethical, epistemic, and aesthetic questions which are either fundamental to an understanding of life or inaccessible to empirical methods of investigation. Philosophy's respect for the authority of logic and rational argument fosters an intellectual environment wherein open dialogue is essential and conflicting opinions are respected, but in which beliefs must be scrutinized, claims must be validated, and a love of truth, goodness, and wisdom must guide one's every action.

Students who study philosophy will find that it not only provides insight into life's deepest concerns, it also helps them develop their capacity for critical thinking, perceptive judgment, and cogent argumentation. Such competence will serve them well as they pursue further education or begin their careers.

## Career Opportunities

Philosophy offers excellent preparation for a variety of career paths, especially law, medicine, and business. The value of a major in philosophy resides in the intellectual development it promotes and the transferrable skills it nourishes. Philosophy majors perennially top the charts in standardized exams like the GRE, LSAT, and MCAT, especially on the verbal aptitude and analytic thinking sections. They also enjoy extremely high rates of acceptance to graduate programs and professional schools, whatever the discipline. In part, this is because philosophy students master the logic, reading, writing, and critical thinking skills that such tests and programs require. But philosophy can prepare a student for any type of work that requires highly developed abilities in analytical reasoning and effective communication.

## General Information

The Department of Philosophy strongly recommends that philosophy majors include StDev 317 and HColl 110 among the in-residence elective credits required for BYU graduation. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, StDev 317 is recommended to help liberal arts students focus on specific educational and occupational goals and to introduce them to graduate/professional school and employment preparation strategies, internships, available educational opportunities, and a variety of career options. HColl 110 introduces students to the culture and acadedmic landscape of the humanities, and teaches them how to market and employ their liberal arts education in today's challenging job market.

Philosophy students are also encouraged both to complete one of the many internships supported and funded by the College of Humanities (regardless of individual career goals), and to learn a foreign language.

## Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- At least 30 credit hours must be earned in residence on the BYU campus in Provo as an admitted day student
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

## Undergraduate Programs and Degrees

**BA in Philosophy** (Program Outcomes)

**Minor in Philosophy**
**Minor in Logic**
**Minor Theoretical and Applied Ethics**

Students should see their college advisement center for help or information concerning the undergraduate programs.

## Program Requirements | View MAP | View Program Outcomes

1. Complete the following sources and methods courses:

PHIL 200 : Philosophy Major Orientation and ePortfolio Training. (1:1:0)

WHEN TAUGHT: Fall

DESCRIPTION: Overview of philosophy as a discipline; review of philosophy major requirements and course sequence; complete introduction to philosophy research methods and ePortfolio training.

**Course Outcomes**

There are no course outcomes available

PHIL 201 : History of Philosophy 1. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

DESCRIPTION: Western civilization from Greek antiquity to Renaissance, primarily from perspective of philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

**Course Outcomes**

- Know milestones of Western history and culture from antiquity through the Renaissance and Reformation.
- Acquire a basic understanding of the most important philosophical figures, texts, and issues in ancient, medieval, and early modern philosophy.
- Write a clear and cogent philosophical essay.

PHIL 202 : History of Philosophy 2. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

DESCRIPTION: Western civilization from Renaissance to present, primarily from perspective of philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

**Course Outcomes**

- Know milestones of Western history and culture from the Renaissance and Reformation through the present.
- Acquire a basic understanding of the most important philosophical figures, texts, and issues in late modern and contemporary philosophy.
- Write a clear and cogent philosophical essay.

PHIL 205 : Introduction to Formal Logic. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: History and use of syllogistic and propositional logic; evaluating arguments with Venn diagrams, truth tables, and Copi-style proofs and proof strategies; informal reasoning and fallacies.

**Course Outcomes**

- Know the basic vocabulary and concepts of formal and informal logic.
- Learn how to appraise validity by refuting invalid arguments and by constructing formal proofs for valid ones.
- Learn how to translate ordinary language into logical symbolism.

PHIL 300 : Philosophical Writing. (3:3:0)

OFFERED: Honors also

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 201 and Phil 202 and Phil 205.
DESCRIPTION: Writing philosophical papers about philosophical texts or problems. Research methods in philosophy. Library research paper.
NOTE: Fulfills GE Advanced Written and Oral Communications requirement. No course challenges accepted.

**Course Outcomes**

- Learn advanced strategies of writing clearly on a well-defined topic using correct grammar, accepted usage, and stylistic conventions appropriate to philosophy; refine the ability to write using a voice, tone, and level of formality suited to one's intended audience.
- Cultivate advanced critical reading and writing skills used in summarizing, paraphrasing, formulating, analyzing and evaluating philosophical arguments, and in prewriting, drafting, revising, critiquing, editing, and proofreading philosophical essays.
- Refine the ability to use scholarly research tools (including library and internet resources) in writing expository, persuasive, and philosophical essays, and to use and cite researched material.

PHIL 305 : Intermediate Formal Logic. (3:3:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: PHIL 205
DESCRIPTION: History and use of first-order logic and second-order logic; natural-deduction and axiomatic proofs; modal logic; set theory and foundations of mathematics.
NOTE: Fulfills GE Languages of Learning requirement.

**Course Outcomes**

- Master first order logic including the correct use of symbols and the construction of proofs.
- Learn to construct proofs within axiom systems in such areas as identity, set theory, arithmetic, and modal logic.
- Understand key historical developments such as Cantor's theory of transfinite numbers, Frege's attempt to reduce arithmetic to logic, the logical paradoxes, and Gödel's theorems.

2. Complete one course from the following core topics in Western philosophy courses:

PHIL 213 : Introduction to Ethics. (3:3:0)
WHEN TAUGHT: Fall; Winter; Summer Contact Department
DESCRIPTION: Nature and justification of moral standards, beliefs, and decisions.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Know basic concepts, figures, texts, and issues of moral philosophy; know basic normative theories in ethics, including deontology, utilitarianism, virtue theory, subjectivism, relativism, divine command theory, natural law, social contract theory, and care ethics.
- Learn how to apply normative theories to ethical problems, questions, and situations.
- Learn how to integrate philosophical skills and practices with religious convictions, while cultivating a respect for contrary points of view.

PHIL 214 : Introduction to the Philosophy of Art. (3:3:0)
WHEN TAUGHT: Fall; Winter
DESCRIPTION: The experience of beauty in nature, in literature, and in the arts.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Know basic concepts, theories, figures, texts, and issues in Western philosophy of art and beauty.
- Learn how to use the philosophy of art and theories of taste to appreciate and critique individual works of art.
- Practice philosophical analysis and argument orally and in writing; write a clear and cogent essay on the philosophy of art and beauty.

PHIL 215 : Introduction to the Philosophy of Religion. (3:3:0)
WHEN TAUGHT: Fall; Winter
DESCRIPTION: Existence and nature of God, God's foreknowledge and man's free will, faith, immortality, and religious experience and language.

**Course Outcomes**

- Know central problems in philosophy of religion, and traditional responses to those problems; know central figures and texts in philosophy of religion.
- Know and evaluate major arguments for God's existence, and learn how to examine the role of reason and evidence in religious belief.
- Practice philosophical analysis and argument orally and in writing; write a clear and cogent essay on the philosophy of religion.

PHIL 217R : Social and Political Philosophy. (3:3:0)
WHEN TAUGHT: Contact Department.
PREREQUISITE: Phil 150 or equivalent.
RECOMMENDED: Phil 201, 202.
DESCRIPTION: Examine selected topics, periods, and figures in social and political philosophy with an aim to understand and apply theories to particular problems and questions.

**Course Outcomes**

- Know basic concepts, theories, figures, texts, and issues in social and political philosophy.
- Practice philosophical analysis and argument orally and in writing; write a clear and cogent essay on social and political philosophy.

3. Complete one registration of the following:

PHIL 320R : Studies in Ancient Philosophy. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 201.

DESCRIPTION: Selected figures or topics.

**Course Outcomes**

There are no course outcomes available

: Topics in Greek Philosophy.

**Course Outcomes**

: Pre-Socratics.

**Course Outcomes**

: Socrates.

**Course Outcomes**

: Plato.

**Course Outcomes**

: Aristotle.

**Course Outcomes**

: Neo-Platonism.

**Course Outcomes**

: Plotinus.

**Course Outcomes**

: Stoicism.

**Course Outcomes**

: Greek Ethics.

**Course Outcomes**

: Greek Science.

**Course Outcomes**

**Course Outcomes**

: Greek Logic.

**Course Outcomes**

: Greek Political Theory.

**Course Outcomes**

: Greek Epistemology.

**Course Outcomes**

: Greek Philosophy of Religion.

**Course Outcomes**

: Helenistic Philosophy.

**Course Outcomes**

: Church Fathers.

**Course Outcomes**

: Chinese Philosophy.

**Course Outcomes**

: Hindu Philosophy.

**Course Outcomes**

: Buddhism.

**Course Outcomes**

4. Complete one registration of the following:

PHIL 340R : Studies in Modern Philosophy. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 202.

DESCRIPTION: Selected figures or topics.

**Course Outcomes**

There are no course outcomes available

: Topics in Modern Philosophy.

**Course Outcomes**

: Continental Rationalism.

**Course Outcomes**

: Descartes.

**Course Outcomes**

: Spinoza.

**Course Outcomes**

: Leibniz.

**Course Outcomes**

: British Empiricism.

**Course Outcomes**

: Hobbes.

**Course Outcomes**

: Locke.

**Course Outcomes**

: Descartes and Locke.

**Course Outcomes**

: Berkeley.

**Course Outcomes**

: Hume.

**Course Outcomes**

: Kant.

**Course Outcomes**

: Hegel.

**Course Outcomes**

: Schopenhauer.

**Course Outcomes**

: German Idealism.

**Course Outcomes**

: Nietzsche.

**Course Outcomes**

: Nietzsche and Freud.

**Course Outcomes**

: Kierkegaard.

**Course Outcomes**

: Utilitarianism.

**Course Outcomes**

: Modern Political Theory.

**Course Outcomes**

: Bentham.

**Course Outcomes**

: J. S. Mill.

**Course Outcomes**

: Pragmatism.

**Course Outcomes**

: Peirce.

**Course Outcomes**

: William James.

**Course Outcomes**

: Dewey.

**Course Outcomes**

: Bergson.

**Course Outcomes**

: Alexander.

**Course Outcomes**

: Bradley.

**Course Outcomes**

: Bosanquet.

**Course Outcomes**

: British Idealism.

**Course Outcomes**

5. Complete one course from the following:

PHIL 313R : History of Ethics. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Phil 150 or equivalent.
RECOMMENDED: Phil 201, 202, 213.
DESCRIPTION: Designed to survey the history of ethics or to examine multiple periods and figures in the history of philosophy.

**Course Outcomes**

There are no course outcomes available

PHIL 320R : Studies in Ancient Philosophy. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Phil 201.
DESCRIPTION: Selected figures or topics.

**Course Outcomes**

There are no course outcomes available

: Topics in Greek Philosophy.

**Course Outcomes**

: Pre-Socratics.

**Course Outcomes**

: Socrates.

**Course Outcomes**

: Plato.

**Course Outcomes**

: Aristotle.

**Course Outcomes**

: Neo-Platonism.

**Course Outcomes**

: Plotinus.

**Course Outcomes**

: Stoicism.

**Course Outcomes**

: Greek Ethics.

**Course Outcomes**

: Greek Science.

**Course Outcomes**

: Greek Metaphysics.

**Course Outcomes**

: Greek Logic.

**Course Outcomes**

: Greek Political Theory.

**Course Outcomes**

: Greek Epistemology.

**Course Outcomes**

: Greek Philosophy of Religion.

**Course Outcomes**

: Helenistic Philosophy.

**Course Outcomes**

: Church Fathers.

**Course Outcomes**

: Chinese Philosophy.

**Course Outcomes**

: Hindu Philosophy.

**Course Outcomes**

: Buddhism.

**Course Outcomes**

PHIL 330R : Studies in Medieval Philosophy. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 201.

DESCRIPTION: Selected figures or topics.

**Course Outcomes**

No outcomes are available at this time.

: Topics in Medieval Philosophy.

**Course Outcomes**

: Augustine.

**Course Outcomes**

: Anselm.

**Course Outcomes**

: Averroes.

**Course Outcomes**

: Bonaventure.

**Course Outcomes**

: Maimonides.

**Course Outcomes**

: Aquinas.

**Course Outcomes**

: Duns Scotus.

**Course Outcomes**

: William of Ockham.

**Course Outcomes**

: Boethius.

**Course Outcomes**

: Medieval Jewish Philosophers.

**Course Outcomes**

: Medieval Arabic Philosophers.

**Course Outcomes**

: Medieval Ethics.

**Course Outcomes**

: Medieval Science.

**Course Outcomes**

: Medieval Epistemology.

**Course Outcomes**

: Medieval Metaphysics.

**Course Outcomes**

: Medieval Logic.

**Course Outcomes**

: Medieval Political Theory.

**Course Outcomes**

: Medieval Philosophy and Religion.

**Course Outcomes**

: Meister Eckhart.

**Course Outcomes**

PHIL 340R : Studies in Modern Philosophy. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 202.

DESCRIPTION: Selected figures or topics.

**Course Outcomes**

There are no course outcomes available

: Topics in Modern Philosophy.

**Course Outcomes**

: Continental Rationalism.

**Course Outcomes**

: Descartes.

**Course Outcomes**

: Spinoza.

**Course Outcomes**

**Course Outcomes**

PHIL 350R : Studies in Contemporary Philosophy. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 202.

DESCRIPTION: Selected figures or topics.

**Course Outcomes**

There are no course outcomes available

: Topics in Contemporary Philosophy.

**Course Outcomes**

: Philosophy of Social Science.

**Course Outcomes**

: Philosophy of History.

**Course Outcomes**

: Philosophy of Psychology.

**Course Outcomes**

: Philosophy of Theology.

**Course Outcomes**

: Philosophy and Film.

**Course Outcomes**

: Philosophy and Literature.

**Course Outcomes**

: Philosophy of Architecture.

**Course Outcomes**

: Contemporary Analytical Philosophy.

**Course Outcomes**

: Contemporary Political Theory.

**Course Outcomes**

: Russell.

**Course Outcomes**

: Moore.

**Course Outcomes**

: Frege.

**Course Outcomes**

: Truth.

**Course Outcomes**

: Wittgenstein.

**Course Outcomes**

: Whitehead.

**Course Outcomes**

: Logical Positivism.

**Course Outcomes**

: Continental Philosophy.

**Course Outcomes**

: Existentialism.

**Course Outcomes**

: Hermeneutics.

**Course Outcomes**

: Phenomenology.

**Course Outcomes**

: Philosophy of Cognitive Science.

**Course Outcomes**

: Ricoeur.

**Course Outcomes**

: Husserl.

**Course Outcomes**

: Heidegger.

**Course Outcomes**

: Sartre.

**Course Outcomes**

: Levinas.

**Course Outcomes**

: Merleau-Ponty.

**Course Outcomes**

: Gadamer.

**Course Outcomes**

: Dufrenne.

**Course Outcomes**

: Derrida.

**Course Outcomes**

: Foucault.

**Course Outcomes**

: Marion.

**Course Outcomes**

: Contemporary French Philosophy.

**Course Outcomes**

: Oakeshott.

**Course Outcomes**

: Philosophy of Logic.

**Course Outcomes**

: Lyotard. (0::)

**Course Outcomes**

: Ordinary Language Philosophy.

**Course Outcomes**

PHIL 360R : Non-Western Philosophy. (3:3:0)
DESCRIPTION: Study selected figures, texts, and problems in the history of non-Western philosophy.

**Course Outcomes**
There are no course outcomes available

6. Complete one of the following values and conduct courses:

PHIL 413R : Topics in Ethics. (3:3:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: Phil 300.
RECOMMENDED: Phil 213.
DESCRIPTION: Select topics, figures, problems, and theories in ethics. Topics include meta-ethics, deontology, consequentialism, virtue theory, applied ethics, ethical argumentation.

**Course Outcomes**
There are no course outcomes available

: Objectivity, Subjectivity, and Relativism.
**Course Outcomes**

: Meta-ethics.
**Course Outcomes**

: Skepticism.
**Course Outcomes**

: Deontology.
**Course Outcomes**

: Consequentialism.
**Course Outcomes**

: Virtue Theory.
**Course Outcomes**

: Medical Ethics.
**Course Outcomes**

: Environmental Ethics.
**Course Outcomes**

: Media and Cyber Ethics.
**Course Outcomes**

: Ethics of War and Peace.
**Course Outcomes**

: Moral Psychology.
**Course Outcomes**

: Applied Ethics.
**Course Outcomes**

: The Good Life.
**Course Outcomes**

: Theoretical Foundations of Business Ethics.
**Course Outcomes**

: Ethical Argumentation.
**Course Outcomes**

PHIL 414R : Topics in the Advanced Philosophy of Art, Architecture, Music, and Film. (3:3:0)
WHEN TAUGHT: Contact Department.
PREREQUISITE: Phil 300.
DESCRIPTION: Topics and figures in the philosophy of art, architecture, music, and film.

**Course Outcomes**

There are no course outcomes available

PHIL 415 : Philosophy of Religion. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 300.

DESCRIPTION: Selected figures or problems.

**Course Outcomes**

- Understand at an advanced level key concepts, theories, and issues in the philosophy of religion.
- Read and critically discuss figures and texts in the philosophy of religion.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on the philosophy of religion.
- Be able to explain the practice and value of philosophy of religion.

PHIL 416 : Philosophy of Law. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 300.

DESCRIPTION: The relation between natural and enacted law; theories of punishment; utilitarian and nonutilitarian theories of law; liberty.

**Course Outcomes**

- Know major concepts, theories, figures, texts, and issues in the philosophy of law.
- Read and critically discuss figures and texts in the philosophy of law.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on the philosophy of law.
- Be able to explain the practice and value of philosophy of law.

7. Complete two of the following knowledge and reality courses:

PHIL 405 : Advanced Logic and Metalogic. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 305.

DESCRIPTION: Completeness, soundness, and undecidability of first-order logic; incompleteness of arithmetic; treatment of related philosophical topics and of nonclassical topics as time permits.

**Course Outcomes**

- Prove and understand the completeness and consistency of first-order logic as well as the Solem-Löwenheim theorem, Gödel incompleteness, Church's undecidability theorem, etc.
- Formulate and evaluate the philosophical ramifications of these theorems.

PHIL 420 : Philosophy of Language. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer Contact Department

PREREQUISITE: Phil 300.

DESCRIPTION: Meaning and reference, synonymy, metaphor, exemplification, translation; linguistic, artistic, and perceptual symbol systems.

**Course Outcomes**

- Know major concepts, theories, figures, texts, and issues in the philosophy of language.
- Read and critically discuss figures and texts in the philosophy of language.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on the philosophy of language.
- Be able to explain the practice and value of philosophy of language.

PHIL 421 : Metaphysics. (3:3:0)

WHEN TAUGHT: Fall; Spring Contact Department

PREREQUISITE: Phil 300.

DESCRIPTION: Basic categories of being: appearance and reality, law, causality, space, time, eternity, deity.

**Course Outcomes**

- Know major concepts, theories, figures, texts, and issues in metaphysics.
- Read and critically discuss figures and texts in metaphysics.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on metaphysics.
- Be able to explain the practice and value of metaphysics.

PHIL 422 : Epistemology. (3:3:0)

WHEN TAUGHT: Winter; Summer Contact Department

PREREQUISITE: Phil 300.

DESCRIPTION: Meaning, limits, and justification of knowledge.

**Course Outcomes**

- Know and understand central issues and concepts in epistemology, including possible answers to questions like: What is knowledge? What is the extent of our knowledge? What is justified belief?
- Know major theories, figures, and texts in epistemology.
- Read and critically discuss figures and texts in epistemology.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on epistemology.
- Be able to explain the practice and value of epistemology.

PHIL 423 : History and Philosophy of Science. (3:3:0)

PREREQUISITE: Phy S 100 or instructor's consent; Phil 300.

DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.

**Course Outcomes**

- Know major concepts, theories, figures, texts, and issues in the history and philosophy of Western science from antiquity to the contemporary era.
- Read and critically discuss figures and texts in the philosophy of science.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on the philosophy of science.
- Be able to explain the practice and value of philosophy of science.

PHIL 424 : Philosophy of Mind. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 300.

DESCRIPTION: Relationship between the mental and the physical: consciousness, intentionality, mental causation.

**Course Outcomes**

There are no course outcomes available

8. Complete 6 additional hours (excluding 110, 150, and 499R) (with no more or less than three hours of 449R). Students must have a total of 27 credit hours of upper-division course work (300-level or above) in the major.
9. Complete the following seminar:

PHIL 490 : Senior Seminar. (1:1:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 300.

DESCRIPTION: Review of philosophical principles and advanced writing experiences culminating in a publishable paper.

**Course Outcomes**

- Prepare students for graduate/professional school and the job market.
- Help students better understand the relevance of philosophy to life and to career options.
- Provide students added experience in professional-level writing and communication.

*Hours include courses that may fulfill university core requirements.

## Program Requirements

1. Complete the following:

PHIL 201 : History of Philosophy 1. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
DESCRIPTION: Western civilization from Greek antiquity to Renaissance, primarily from perspective of philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

**Course Outcomes**

- Know milestones of Western history and culture from antiquity through the Renaissance and Reformation.
- Acquire a basic understanding of the most important philosophical figures, texts, and issues in ancient, medieval, and early modern philosophy.
- Write a clear and cogent philosophical essay.

PHIL 202 : History of Philosophy 2. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
DESCRIPTION: Western civilization from Renaissance to present, primarily from perspective of philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

**Course Outcomes**

- Know milestones of Western history and culture from the Renaissance and Reformation through the present.
- Acquire a basic understanding of the most important philosophical figures, texts, and issues in late modern and contemporary philosophy.
- Write a clear and cogent philosophical essay.

PHIL 205 : Introduction to Formal Logic. (3:3:0)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: History and use of syllogistic and propositional logic; evaluating arguments with Venn diagrams, truth tables, and Copi-style proofs and proof strategies; informal reasoning and fallacies.

**Course Outcomes**

- Know the basic vocabulary and concepts of formal and informal logic.
- Learn how to appraise validity by refuting invalid arguments and by constructing formal proofs for valid ones.
- Learn how to translate ordinary language into logical symbolism.

2. Complete three other philosophy courses.

*Hours include courses that may fulfill university core requirements.

## Program Requirements

1. Complete the following:

PHIL 205 : Introduction to Formal Logic. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: History and use of syllogistic and propositional logic; evaluating arguments with Venn diagrams, truth tables, and Copi-style proofs and proof strategies; informal reasoning and fallacies.

**Course Outcomes**

- Know the basic vocabulary and concepts of formal and informal logic.
- Learn how to appraise validity by refuting invalid arguments and by constructing formal proofs for valid ones.
- Learn how to translate ordinary language into logical symbolism.

PHIL 305 : Intermediate Formal Logic. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PHIL 205

DESCRIPTION: History and use of first-order logic and second-order logic; natural-deduction and axiomatic proofs; modal logic; set theory and foundations of mathematics.

NOTE: Fulfills GE Languages of Learning requirement.

**Course Outcomes**

- Master first order logic including the correct use of symbols and the construction of proofs.
- Learn to construct proofs within axiom systems in such areas as identity, set theory, arithmetic, and modal logic.
- Understand key historical developments such as Cantor's theory of transfinite numbers, Frege's attempt to reduce arithmetic to logic, the logical paradoxes, and Gödel's theorems.

PHIL 405 : Advanced Logic and Metalogic. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 305.

DESCRIPTION: Completeness, soundness, and undecidability of first-order logic; incompleteness of arithmetic; treatment of related philosophical topics and of nonclassical topics as time permits.

**Course Outcomes**

- Prove and understand the completeness and consistency of first-order logic as well as the Solem-Löwenheim theorem, Gödel incompleteness, Church's undecidability theorem, etc.
- Formulate and evaluate the philosophical ramifications of these theorems.

2. Complete two other approved courses.
3. No more than nine hours may double-count for the philosophy major and the logic minor.

*Hours include courses that may fulfill university core requirements.

## Program Requirements

1. Complete the following:

PHIL 213 : Introduction to Ethics. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer Contact Department
DESCRIPTION: Nature and justification of moral standards, beliefs, and decisions.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Know basic concepts, figures, texts, and issues of moral philosophy; know basic normative theories in ethics, including deontology, utilitarianism, virtue theory, subjectivism, relativism, divine command theory, natural law, social contract theory, and care ethics.
- Learn how to apply normative theories to ethical problems, questions, and situations.
- Learn how to integrate philosophical skills and practices with religious convictions, while cultivating a respect for contrary points of view.

2. From the following, complete four courses in ethics, social and political philosophy, or history of philosophy with an emphasis on ethics:

PHIL 217R : Social and Political Philosophy. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Phil 150 or equivalent.
RECOMMENDED: Phil 201, 202.
DESCRIPTION: Examine selected topics, periods, and figures in social and political philosophy with an aim to understand and apply theories to particular problems and questions.

**Course Outcomes**

- Know basic concepts, theories, figures, texts, and issues in social and political philosophy.
- Practice philosophical analysis and argument orally and in writing; write a clear and cogent essay on social and political philosophy.

PHIL 313R : History of Ethics. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Phil 150 or equivalent.
RECOMMENDED: Phil 201, 202, 213.
DESCRIPTION: Designed to survey the history of ethics or to examine multiple periods and figures in the history of philosophy.

**Course Outcomes**

There are no course outcomes available

PHIL 320R : Studies in Ancient Philosophy. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Phil 201.
DESCRIPTION: Selected figures or topics.

**Course Outcomes**

There are no course outcomes available

: Topics in Greek Philosophy.

**Course Outcomes**

: Pre-Socratics.

**Course Outcomes**

: Socrates.

**Course Outcomes**

: Plato.

**Course Outcomes**

: Aristotle.

**Course Outcomes**

: Neo-Platonism.

**Course Outcomes**

: Plotinus.

**Course Outcomes**

: Stoicism.

**Course Outcomes**

: Greek Ethics.

**Course Outcomes**

: Greek Science.

**Course Outcomes**

: Greek Metaphysics.

**Course Outcomes**

: Greek Logic.

**Course Outcomes**

: Greek Political Theory.

**Course Outcomes**

: Greek Epistemology.

**Course Outcomes**

: Greek Philosophy of Religion.

**Course Outcomes**

: Helenistic Philosophy.

**Course Outcomes**

: Church Fathers.

**Course Outcomes**

: Chinese Philosophy.

**Course Outcomes**

: Hindu Philosophy.

**Course Outcomes**

: Buddhism.

**Course Outcomes**

(Must have an emphasis on ethics.)

PHIL 330R : Studies in Medieval Philosophy. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 201.

DESCRIPTION: Selected figures or topics.

**Course Outcomes**

No outcomes are available at this time.

: Topics in Medieval Philosophy.

**Course Outcomes**

: Augustine.

**Course Outcomes**

: Anselm.

**Course Outcomes**

: Averroes.

**Course Outcomes**

: Bonaventure.

**Course Outcomes**

: Maimonides.

**Course Outcomes**

: Aquinas.

**Course Outcomes**

: Duns Scotus.

**Course Outcomes**

: William of Ockham.

**Course Outcomes**

: Boethius.

**Course Outcomes**

: Medieval Jewish Philosophers.

**Course Outcomes**

: Medieval Arabic Philosophers.

**Course Outcomes**

: Medieval Ethics.

**Course Outcomes**

: Medieval Science.

**Course Outcomes**

: Medieval Epistemology.

**Course Outcomes**

: Medieval Metaphysics.

**Course Outcomes**

: Medieval Logic.

**Course Outcomes**

: Medieval Political Theory.

**Course Outcomes**

: Medieval Philosophy and Religion.

**Course Outcomes**

: Meister Eckhart.

**Course Outcomes**

(Must have an emphasis on ethics.)

PHIL 340R : Studies in Modern Philosophy. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 202.

DESCRIPTION: Selected figures or topics.

**Course Outcomes**

There are no course outcomes available

: Topics in Modern Philosophy.

**Course Outcomes**

: Continental Rationalism.

**Course Outcomes**

: Descartes.

**Course Outcomes**

: Spinoza.

**Course Outcomes**

: Leibniz.

**Course Outcomes**

: British Empiricism.

**Course Outcomes**

: Hobbes.

**Course Outcomes**

: Locke.

**Course Outcomes**

: Descartes and Locke.

**Course Outcomes**

: Berkeley.

**Course Outcomes**

: Hume.

**Course Outcomes**

: Kant.

**Course Outcomes**

: Hegel.

**Course Outcomes**

: Schopenhauer.

**Course Outcomes**

: German Idealism.

**Course Outcomes**

: Nietzsche.

**Course Outcomes**

: Nietzsche and Freud.

**Course Outcomes**

: Kierkegaard.

**Course Outcomes**

: Utilitarianism.

**Course Outcomes**

: Modern Political Theory.

**Course Outcomes**

: Bentham.

**Course Outcomes**

: J. S. Mill.

**Course Outcomes**

: Pragmatism.

**Course Outcomes**

: Peirce.

**Course Outcomes**

: William James.

**Course Outcomes**

: Dewey.

**Course Outcomes**

: Bergson.

**Course Outcomes**

: Alexander.

**Course Outcomes**

: Bradley.

**Course Outcomes**

: Bosanquet.

**Course Outcomes**

: British Idealism.

**Course Outcomes**

(Must have an emphasis on ethics.)

PHIL 350R : Studies in Contemporary Philosophy. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 202.

DESCRIPTION: Selected figures or topics.

**Course Outcomes**

There are no course outcomes available

: Topics in Contemporary Philosophy.

**Course Outcomes**

: Philosophy of Social Science.

**Course Outcomes**

: Philosophy of History.

**Course Outcomes**

: Philosophy of Psychology.

**Course Outcomes**

: Philosophy of Theology.

**Course Outcomes**

: Philosophy and Film.

**Course Outcomes**

: Philosophy and Literature.

**Course Outcomes**

: Philosophy of Architecture.

**Course Outcomes**

: Contemporary Analytical Philosophy.

**Course Outcomes**

: Contemporary Political Theory.

**Course Outcomes**

: Russell.

**Course Outcomes**

: Moore.

**Course Outcomes**

: Frege.

**Course Outcomes**

: Truth.

**Course Outcomes**

: Wittgenstein.

**Course Outcomes**

: Whitehead.

**Course Outcomes**

: Logical Positivism.

**Course Outcomes**

: Continental Philosophy.

**Course Outcomes**

: Existentialism.

**Course Outcomes**

: Hermeneutics.

**Course Outcomes**

: Phenomenology.

**Course Outcomes**

: Philosophy of Cognitive Science.

**Course Outcomes**

: Ricoeur.

**Course Outcomes**

: Husserl.

**Course Outcomes**

: Heidegger.

**Course Outcomes**

: Sartre.

**Course Outcomes**

: Levinas.

**Course Outcomes**

: Merleau-Ponty.

**Course Outcomes**

: Gadamer.

**Course Outcomes**

: Dufrenne.

**Course Outcomes**

: Derrida.

**Course Outcomes**

: Foucault.

**Course Outcomes**

: Marion.

**Course Outcomes**

: Contemporary French Philosophy.

**Course Outcomes**

: Oakeshott.

**Course Outcomes**

: Philosophy of Logic.

**Course Outcomes**

: Lyotard. (0::)

**Course Outcomes**

: Ordinary Language Philosophy.

**Course Outcomes**

(Must have an emphasis on ethics.)

PHIL 413R : Topics in Ethics. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Phil 300.
RECOMMENDED: Phil 213.
DESCRIPTION: Select topics, figures, problems, and theories in ethics. Topics include meta-ethics, deontology, consequentialism, virtue theory, applied ethics, ethical argumentation.

**Course Outcomes**

There are no course outcomes available

: Objectivity, Subjectivity, and Relativism.

**Course Outcomes**

: Meta-ethics.

**Course Outcomes**

: Skepticism.

**Course Outcomes**

: Deontology.

**Course Outcomes**

: Consequentialism.

**Course Outcomes**

: Virtue Theory.

**Course Outcomes**

: Medical Ethics.

**Course Outcomes**

: Environmental Ethics.

**Course Outcomes**

: Media and Cyber Ethics.

**Course Outcomes**

: Ethics of War and Peace.

**Course Outcomes**

: Moral Psychology.

**Course Outcomes**

: Applied Ethics.

**Course Outcomes**

: The Good Life.

**Course Outcomes**

: Theoretical Foundations of Business Ethics.

**Course Outcomes**

: Ethical Argumentation.

**Course Outcomes**

POLI 362 : Reason, Revelation, and Politics. (3:3:0)

RECOMMENDED: Poli 201 or 202 or class in philosophy.
DESCRIPTION: The fruitful tension between the authority of reason and that of revelation in the Western tradition and in contemporary politics.

**Course Outcomes**

No outcomes are available at this time.

POLI 367 : Contemporary Political Theory. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: Poli 201 or Poli 202 or Phil 201 or Phil 202.
DESCRIPTION: History of political science, including the moral and ethical dimensions of politics.

**Course Outcomes**

There are no course outcomes available

POLI 368R : Topics in Political Philosophy. (3:3:0)

WHEN TAUGHT: Contact Department.

**Course Outcomes**

There are no course outcomes available

Note: One approved 2 or 3 credit course in ethics from another department may substitute for any single course listed above. (The Philosophy Department maintains a list of ethics courses offered by other BYU departments.)

*Hours include courses that may fulfill university core requirements.

## Undergraduate Courses

### 100-Level Courses

PHIL 110 : Introduction to Philosophy. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Articulating, assessing, and defending fundamental positions on topics such as reason, knowledge, science, education, ethics, politics, and religion.

**Course Outcomes**

- Become acquainted with important figures, topics, and issues in the history of philosophy.
- Learn to read and discuss critically philosophical texts.
- Write a clear and cogent philosophical essay.
- Learn to integrate philosophical skills and practices with religious convictions, while cultivating a respect for contrary points of view.

PHIL 150 : Reasoning and Writing. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: Recommended for philosophy majors and minors.
DESCRIPTION: Informal grammar, logic, and rhetoric as tools for reading and writing. Library research.
NOTE: Fulfills GE First-Year Writing requirement. No course challenges accepted.

**Course Outcomes**

There are no course outcomes available

### 200-Level Courses

PHIL 200 : Philosophy Major Orientation and ePortfolio Training. (1:1:0)

WHEN TAUGHT: Fall
DESCRIPTION: Overview of philosophy as a discipline; review of philosophy major requirements and course sequence; complete introduction to philosophy research methods and ePortfolio training.

**Course Outcomes**

There are no course outcomes available

PHIL 201 : History of Philosophy 1. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
DESCRIPTION: Western civilization from Greek antiquity to Renaissance, primarily from perspective of philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

**Course Outcomes**

- Know milestones of Western history and culture from antiquity through the Renaissance and Reformation.
- Acquire a basic understanding of the most important philosophical figures, texts, and issues in ancient, medieval, and early modern philosophy.
- Write a clear and cogent philosophical essay.

PHIL 202 : History of Philosophy 2. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

DESCRIPTION: Western civilization from Renaissance to present, primarily from perspective of philosophy; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

**Course Outcomes**

- Know milestones of Western history and culture from the Renaissance and Reformation through the present.
- Acquire a basic understanding of the most important philosophical figures, texts, and issues in late modern and contemporary philosophy.
- Write a clear and cogent philosophical essay.

PHIL 205 : Introduction to Formal Logic. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: History and use of syllogistic and propositional logic; evaluating arguments with Venn diagrams, truth tables, and Copi-style proofs and proof strategies; informal reasoning and fallacies.

**Course Outcomes**

- Know the basic vocabulary and concepts of formal and informal logic.
- Learn how to appraise validity by refuting invalid arguments and by constructing formal proofs for valid ones.
- Learn how to translate ordinary language into logical symbolism.

PHIL 210 : Science and Civilization 1. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall

DESCRIPTION: History of Civilization from Greek antiquity to scientific revolution; methods in early science and their philosophical significance; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Know about the development of scientific ideas and practices in their cultural context, including the major figures and methods of science from antiquity to 1500.
- Read, analyze, and critically summarize a book-length study of science.
- Learn to integrate philosophical skills and practices with religious convictions, while cultivating a respect for contrary points of view.

PHIL 211 : Science and Civilization 2. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Winter

DESCRIPTION: History of Civilization from scientific revolution to present; concepts and methods in modern science and their philosophical significance; exploring fundamental questions in human experience; examining formative events in history; understanding value of important texts.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

There are no course outcomes available

PHIL 213 : Introduction to Ethics. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer Contact Department

DESCRIPTION: Nature and justification of moral standards, beliefs, and decisions.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Know basic concepts, figures, texts, and issues of moral philosophy; know basic normative theories in ethics, including deontology, utilitarianism, virtue theory, subjectivism, relativism, divine command theory, natural law, social contract theory, and care ethics.
- Learn how to apply normative theories to ethical problems, questions, and situations.
- Learn how to integrate philosophical skills and practices with religious convictions, while cultivating a respect for contrary points of view.

PHIL 214 : Introduction to the Philosophy of Art. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: The experience of beauty in nature, in literature, and in the arts.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Know basic concepts, theories, figures, texts, and issues in Western philosophy of art and beauty.
- Learn how to use the philosophy of art and theories of taste to appreciate and critique individual works of art.
- Practice philosophical analysis and argument orally and in writing; write a clear and cogent essay on the philosophy of art and beauty.

PHIL 215 : Introduction to the Philosophy of Religion. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Existence and nature of God, God's foreknowledge and man's free will, faith, immortality, and religious experience and language.

**Course Outcomes**

- Know central problems in philosophy of religion, and traditional responses to those problems; know central figures and texts in philosophy of religion.
- Know and evaluate major arguments for God's existence, and learn how to examine the role of reason and evidence in religious belief.
- Practice philosophical analysis and argument orally and in writing; write a clear and cogent essay on the philosophy of religion.

PHIL 217R : Social and Political Philosophy. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Phil 150 or equivalent.
RECOMMENDED: Phil 201, 202.
DESCRIPTION: Examine selected topics, periods, and figures in social and political philosophy with an aim to understand and apply theories to particular problems and questions.

**Course Outcomes**

- Know basic concepts, theories, figures, texts, and issues in social and political philosophy.
- Practice philosophical analysis and argument orally and in writing; write a clear and cogent essay on social and political philosophy.

**300-Level Courses**

PHIL 300 : Philosophical Writing. (3:3:0)

OFFERED: Honors also
WHEN TAUGHT: Fall; Winter
PREREQUISITE: Phil 201 and Phil 202 and Phil 205.
DESCRIPTION: Writing philosophical papers about philosophical texts or problems. Research methods in philosophy. Library research paper.
NOTE: Fulfills GE Advanced Written and Oral Communications requirement. No course challenges accepted.

**Course Outcomes**

- Learn advanced strategies of writing clearly on a well-defined topic using correct grammar, accepted usage, and stylistic conventions appropriate to philosophy; refine the ability to write using a voice, tone, and level of formality suited to one's intended audience.
- Cultivate advanced critical reading and writing skills used in summarizing, paraphrasing, formulating, analyzing and evaluating philosophical arguments, and in prewriting, drafting, revising, critiquing, editing, and proofreading philosophical essays.
- Refine the ability to use scholarly research tools (including library and internet resources) in writing expository, persuasive, and philosophical essays, and to use and cite researched material.

PHIL 305 : Intermediate Formal Logic. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: PHIL 205
DESCRIPTION: History and use of first-order logic and second-order logic; natural-deduction and axiomatic proofs; modal logic; set theory and foundations of mathematics.
NOTE: Fulfills GE Languages of Learning requirement.

**Course Outcomes**

- Master first order logic including the correct use of symbols and the construction of proofs.
- Learn to construct proofs within axiom systems in such areas as identity, set theory, arithmetic, and modal logic.
- Understand key historical developments such as Cantor's theory of transfinite numbers, Frege's attempt to reduce arithmetic to logic, the logical paradoxes, and Gödel's theorems.

PHIL 313R : History of Ethics. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Phil 150 or equivalent.
RECOMMENDED: Phil 201, 202, 213.
DESCRIPTION: Designed to survey the history of ethics or to examine multiple periods and figures in the history of philosophy.

**Course Outcomes**

There are no course outcomes available

PHIL 320R : Studies in Ancient Philosophy. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Phil 201.
DESCRIPTION: Selected figures or topics.

PHIL 360R : Non-Western Philosophy. (3:3:0)

DESCRIPTION: Study selected figures, texts, and problems in the history of non-Western philosophy.

**Course Outcomes**

There are no course outcomes available

### 400-Level Courses

PHIL 405 : Advanced Logic and Metalogic. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 305.

DESCRIPTION: Completeness, soundness, and undecidability of first-order logic; incompleteness of arithmetic; treatment of related philosophical topics and of nonclassical topics as time permits.

**Course Outcomes**

- Prove and understand the completeness and consistency of first-order logic as well as the Solem-Löwenheim theorem, Gödel incompleteness, Church's undecidability theorem, etc.
- Formulate and evaluate the philosophical ramifications of these theorems.

PHIL 413R : Topics in Ethics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 300.

RECOMMENDED: Phil 213.

DESCRIPTION: Select topics, figures, problems, and theories in ethics. Topics include meta-ethics, deontology, consequentialism, virtue theory, applied ethics, ethical argumentation.

**Course Outcomes**

There are no course outcomes available

: Objectivity, Subjectivity, and Relativism.

**Course Outcomes**

: Meta-ethics.

**Course Outcomes**

: Skepticism.

**Course Outcomes**

: Deontology.

**Course Outcomes**

: Consequentialism.

**Course Outcomes**

: Virtue Theory.

**Course Outcomes**

: Medical Ethics.

**Course Outcomes**

: Environmental Ethics.

**Course Outcomes**

: Media and Cyber Ethics.

**Course Outcomes**

: Ethics of War and Peace.

**Course Outcomes**

: Moral Psychology.

**Course Outcomes**

: Applied Ethics.

**Course Outcomes**

: The Good Life.

**Course Outcomes**

: Theoretical Foundations of Business Ethics.

**Course Outcomes**

: Ethical Argumentation.

**Course Outcomes**

PHIL 414R : Topics in the Advanced Philosophy of Art, Architecture, Music, and Film. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Phil 300.

DESCRIPTION: Topics and figures in the philosophy of art, architecture, music, and film.

**Course Outcomes**

There are no course outcomes available

PHIL 415 : Philosophy of Religion. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 300.

DESCRIPTION: Selected figures or problems.

**Course Outcomes**

- Understand at an advanced level key concepts, theories, and issues in the philosophy of religion.
- Read and critically discuss figures and texts in the philosophy of religion.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on the philosophy of religion.
- Be able to explain the practice and value of philosophy of religion.

PHIL 416 : Philosophy of Law. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 300.

DESCRIPTION: The relation between natural and enacted law; theories of punishment; utilitarian and nonutilitarian theories of law; liberty.

**Course Outcomes**

- Know major concepts, theories, figures, texts, and issues in the philosophy of law.
- Read and critically discuss figures and texts in the philosophy of law.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on the philosophy of law.
- Be able to explain the practice and value of philosophy of law.

PHIL 420 : Philosophy of Language. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer Contact Department

PREREQUISITE: Phil 300.

DESCRIPTION: Meaning and reference, synonymy, metaphor, exemplification, translation; linguistic, artistic, and perceptual symbol systems.

**Course Outcomes**

- Know major concepts, theories, figures, texts, and issues in the philosophy of language.
- Read and critically discuss figures and texts in the philosophy of language.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on the philosophy of language.
- Be able to explain the practice and value of philosophy of language.

PHIL 421 : Metaphysics. (3:3:0)

WHEN TAUGHT: Fall; Spring Contact Department

PREREQUISITE: Phil 300.

DESCRIPTION: Basic categories of being: appearance and reality, law, causality, space, time, eternity, deity.

**Course Outcomes**

- Know major concepts, theories, figures, texts, and issues in metaphysics.
- Read and critically discuss figures and texts in metaphysics.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on metaphysics.
- Be able to explain the practice and value of metaphysics.

PHIL 422 : Epistemology. (3:3:0)

WHEN TAUGHT: Winter; Summer Contact Department

PREREQUISITE: Phil 300.

DESCRIPTION: Meaning, limits, and justification of knowledge.

**Course Outcomes**

- Know and understand central issues and concepts in epistemology, including possible answers to questions like: What is knowledge? What is the extent of our knowledge? What is justified belief?
- Know major theories, figures, and texts in epistemology.
- Read and critically discuss figures and texts in epistemology.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on epistemology.
- Be able to explain the practice and value of epistemology.

PHIL 423 : History and Philosophy of Science. (3:3:0)

PREREQUISITE: Phy S 100 or instructor's consent; Phil 300.

DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.

**Course Outcomes**

- Know major concepts, theories, figures, texts, and issues in the history and philosophy of Western science from antiquity to the contemporary era.
- Read and critically discuss figures and texts in the philosophy of science.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on the philosophy of science.
- Be able to explain the practice and value of philosophy of science.

PHIL 424 : Philosophy of Mind. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 300.

DESCRIPTION: Relationship between the mental and the physical: consciousness, intentionality, mental causation.

**Course Outcomes**

There are no course outcomes available

PHIL 449R : Philosophical Lecture Series. (1:1:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Lectures on philosophical topics by faculty and advanced students.

**Course Outcomes**

- Become acquainted with a range of figures, topics and problems in the history of philosophy as presented by different faculty members, visiting lecturers, and advanced students.
- Learn how to articulate and critique philosophical assertions, arguments, questions and presentations.
- Recognize and participate in accepted forms of philosophical thought and discourse.

PHIL 490 : Senior Seminar. (1:1:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Phil 300.

DESCRIPTION: Review of philosophical principles and advanced writing experiences culminating in a publishable paper.

**Course Outcomes**

- Prepare students for graduate/professional school and the job market.
- Help students better understand the relevance of philosophy to life and to career options.
- Provide students added experience in professional-level writing and communication.

PHIL 495R : Directed Readings in Philosophy. (1-3:Arr:Arr)

WHEN TAUGHT: Contact Department.

PREREQUISITE: PHIL 300

DESCRIPTION: For instructors and students who wish to pursue special problems or projects, or who wish to read texts that are not covered by available courses.

**Course Outcomes**

There are no course outcomes available

PHIL 499R : Honors Thesis. (.5-6:ARR:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Instructor's consent.

DESCRIPTION: Selected topic or figure in philosophy

**Course Outcomes**

- Write the honors thesis.
- Conduct research on the honors thesis topic.

## 500-Level Graduate Courses (available to advanced undergraduates)

PHIL 501R : Graduate Seminar. (.5-5:5:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Instructor's consent.

DESCRIPTION: Selected topic, figure, or movement in philosophy, as announced in current class schedule.

**Course Outcomes**

- Earn graduate credit for attending and completing an upper-division philosophy course with enhanced assignments, research, and writing.
- Investigate and understand an advanced philosophical issue or research topic.

College of Humanities Advisement Center
1175 JFSB, (801) 422-4789

## Admission to Degree Program

All degree programs in the Department of Spanish and Portuguese are open enrollment. However, students planning on declaring a major in the Spanish and Portuguese Department must first obtain permission by visiting the Department. Additionally, special limitations apply for teaching and translation majors.

## The Discipline

The Spanish and Portuguese languages and literatures dominate the Iberian Peninsula, major parts of Africa, and the southern portion of the New World from Mexico to the Magellan Straits. These languages, spoken by over 450 million people in twenty-one countries, provide a wide spectrum of cultural, linguistic, and literary variety. Spanish and Portuguese boast vibrant literatures that stand at the forefront of twentieth-century excellence and innovation, a linguist's paradise of dialects, rapid change, and development.

Such breadth—plus some 35 million speakers within the borders of the United States itself—gives multiple opportunities for developing skill in the spoken language, as well as in listening, reading, writing, and translation. Studying the Iberian roots of this large and important part of the population and learning about the people's perception of life also brings greater understanding of their values and their struggle for identity. A Spanish or Portuguese major makes for a demanding, intriguing, and pleasurable experience.

## Career Opportunities

The field of teaching has always provided good employment opportunities for Spanish majors. In addition, opportunities for both Spanish and Portuguese have been found in government service (translation, U.S. State Department, CIA, FBI, Border Patrol, Peace Corps, NSA, USIA), business, social work, airlines, banking, etc. Many majors go on to professional schools (law, medicine, dentistry, business, etc.), where a liberal arts background is advised. For employment in fields other than teaching, a strong minor or a second major in the employment area is strongly encouraged.

## General Information

The Department of Spanish and Portuguese strongly recommends that StDev 317, a 2-credit-hour course, be taken at the end of the sophomore year or the beginning of the junior year. Because liberal arts degrees provide preparation in a variety of useful fields rather than a single career track, this course is recommended to help liberal arts students focus on specific educational and occupational goals and to identify the career options or educational opportunities available to them. The course will introduce them to the resources needed for accessing information about graduate schools, internships, careers, and career development. Students will learn basic employment strategies, including the steps necessary for obtaining employment related to their own specialty.

## Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- At least 30 credit hours must be earned in residence on the BYU campus in Provo as an admitted day student
- A minimum of 120 credit hours
- A BYU cumulative GPA of at least 2.0
- A major GPA of at least 2.0
- Be in good standing with the Honor Code Office

# General Information

## Spanish Resource Center

164 University Parkway Center, (801) 378-8107
E-mail: sp-rescenter@email.byu.edu

The Ministry of Education and Culture of Spain, in connection with the Department of Spanish and Portuguese and the Center for the Improvement of Teacher Education and Schooling (CITES), operates the Spanish Resource Center (Centro de Recursos). The purpose of the center is to provide an ample supply of books, computer programs, and didactic materials, both printed and audiovisual, related to the teaching of Spanish language and literature. Researchers, professors, students, educational institutions, coordinators, administrators, and in general all those who may be interested in the knowledge and promotion of Spanish are welcome. To increase the prestige of the Spanish language academically as well as socially, the Spanish Resource Center

- sponsors workshops, seminars, and work groups on topics related to teaching Spanish and researching linguistics and literature;
- organizes conferences, film series, recitals, and cultural activities in general that relate to the Spanish language and culture; and
- promotes and participates in all initiatives that are deemed appropriate and that favor acquisition and use of the Spanish language by students at different educational levels.

## Foreign Language Student Residence

The Foreign Language Student Residence provides live-in opportunities for students in Spanish and Portuguese. A twenty-four-hour-a-day Spanish or Portuguese rule assures participants intensive use of the language, under the direction of native speakers. See Foreign Language Housing at 3086 JFSB for information.

## Language Skills Development

A program to improve and monitor all language skills at each level of course work has been developed by the department, and a final oral proficiency examination is required of all graduating seniors. Writing skills in Spanish or Portuguese courses will advance from writing exercises and short messages in 100-level courses to original short themes in 200-level classes. Papers in the language at the 300-level and more extensive research and vocabulary and full control of structures at the 400-level will complete the program.

## Minor, Double Major, or Approved Supporting Course Work Required for Spanish or Portuguese Majors

All Spanish and Portuguese majors are required to complete either a minor (from any department in the university), 15 hours of approved supporting course work, or a secondary major.

Nonteaching majors who do not wish to complete a formal minor may substitute at least 15 hours of courses from among the following related fields: a second modern foreign language (upper-division courses only), Latin, Greek, English (beyond the GE requirement), linguistics, classical civilization, Latin American history or geography, Spanish/Portuguese history or geography, humanities, archaeology of Spain/Portugal or Latin America, comparative literature, or other areas approved by the department chair. Pre-med, pre-dent, and other pre-professional prerequisites may also count as long as they meet the 15 hour requirement.

Nonteaching and nontranslation majors also may meet their minor requirement by completing 15 additional hours consisting of elective Spanish/Portuguese courses or (strongly recommended) a combination of Spanish/Portuguese electives and interdisciplinary work. In all cases these courses must form a coherent program and *must be preapproved* by the department chair.

A secondary major is an acceptable alternative to a minor.

## Foreign Residency

The department strongly recommends that all majors participate in an extended (at least two continuous months) and intensive language and culture experience in a Spanish- or Portuguese-speaking country or area.

A student should complete this requirement by:

1. Residency abroad (may include a Spanish or Portuguese LDS mission, attendance at a foreign university, an advanced exchange program, or similar intensive foreign residence).
2. Participating in BYU Study Abroad Programs in Spain, Portugal, or Latin America.
3. Participating in individual or group-arranged internship programs abroad as approved by the department.

Students unable to participate in one of these programs must spend at least one year (two semesters) in the Foreign Language Student Residence, pledging to use only Spanish or Portuguese within the residence. Prerequisite to this experience is Span 205 or Port 201 or its equivalent; any exceptions must be approved by the department. For further information contact the department secretary or the Foreign Language Student Residence Office, 3086 JFSB, (801) 422-3765.

## Program Requirements | View MAP | View Program Outcomes

1. The Spanish and Portuguese Department requires a minimum of 18 hours of upper-division major credit to be taken in residence at BYU for this degree program. These hours may also go toward BYU's 30-hour residency requirement for graduation.
2. Meet the foreign residency requirement.
3. Complete a minor (approximately 16–21 hours), second major (approximately 30–60 hours), or supporting course work (15 hours).

   **Note:** Latin American Studies majors or minors: Port 321, 339, 345 or 355, and 441 or 451 meet requirements for both the Portuguese major and the area studies minor. Only one of these courses may be double-counted (applied to both the major and the minor). Students wishing to complete a Portuguese major and one of these area studies minors must take an additional 6–9 hours chosen from the approved electives for either major or minor. Consult the department and the advisement center for clarification of the choices available to you.
4. Complete the following prerequisite courses:

PORT 101 : First-Year Portuguese. (4:5:1)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: Pronunciation, conversation, reading, and fundamentals of grammar. Specific attention to Portuguese as the language of Brazil.
NOTE: Native speakers of Portuguese must enroll in Port 321.

**Course Outcomes**

- Participate in classroom activities in Portuguese.
- Communicate verbally in routine situations such as greeting people and becoming acquainted.
- Understand simple conversations about some familiar, concrete topics such as daily activities, likes and dislikes, family, and home.
- Create simple sentences using basic grammar rules and vocabulary with limited accuracy.
- Read short "cultural blurbs" from the textbook, as well as other short texts such as personal ads, menus, and advertisements.
- Write word- and sentence-length messages such as lists, biographical information on forms, and descriptions of people and things.
- Know basic facts about some Portuguese-speaking countries.
- Identify basic cultural products, practices, and perspectives from Portuguese-speaking countries.

PORT 102 : First-Year Portuguese. (4:5:1)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Port 101.
DESCRIPTION: Pronunciation, conversation, reading, and fundamentals of grammar. Specific attention to Portuguese as the language of Brazil.
NOTE: Native speakers of Portuguese must enroll in Port 321.

**Course Outcomes**

- Participate in classroom activities in Portuguese.
- Participate in conversations about some familiar, concrete topics such as daily activities, family, home, work, and school.
- Understand simple conversations about some familiar, concrete topics such as daily activities, likes and dislikes, family, and home.
- Create simple sentences using basic grammar rules and vocabulary with limited accuracy.
- Read short "cultural blurbs" from the textbook, as well as other short texts such as advertisements, letters, recipes, and stories.
- Know basic facts about some Portuguese-speaking countries.
- Identify basic cultural products, practices, and perspectives from Portuguese-speaking countries.

PORT 201 : Third-Semester Portuguese. (4:5:0)

PREREQUISITE: Port 102 or three units of high school Portuguese.
DESCRIPTION: Second-year grammar, reading, writing, and conversation.
NOTE: Native speakers of Portuguese must take Port 321.

**Course Outcomes**

- Maintain a simple face-to-face conversation about concrete topics such as self, family, friends, and daily activities.
- Handle a simple transactional situation (making purchases, interviewing for a job, etc.)
- Discuss some topics of general interest (school, geography, finances, business, etc.)
- Use grammar principles, including the present, past, and future indicative and subjunctive, with increasing accuracy.
- Understand conversations, announcements, and media reports on familiar topics.
- Read short journalistic and literary texts.
- Write short, simple compositions in a variety of genres (stories, résumés, skits, etc.)
- Know basic facts about some Portuguese-speaking countries.
- Identify basic cultural products, practices, and perspectives from Portuguese-speaking countries.

PORT 211R : First-Semester Conversation. (2:2:1)

WHEN TAUGHT: Contact Department.

RECOMMENDED: Concurrent enrollment in Port 201.

**Course Outcomes**

- Begin to develop ability to handle a variety of uncomplicated communicative tasks in straightforward social situations, including verbal and nonverbal messages.

**And** complete one course from the following:

PORT 202 : Fourth-Semester Portuguese: Reading and Comprehension. (4:5:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Port 201.

DESCRIPTION: Fourth-semester class introducing grammar and culture through study of literature.

NOTE: Not for returned missionaries. Culmination of GE Mathematics/Foreign Language requirement. Native speakers of Portuguese must take Port 321. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Maintain a simple face-to-face conversation about an increasing range of topics of general interest (politics, transportation, the media, the arts, sports, etc.)
- Handle some situations with a complication (resolving disagreements, traffic violations, etc.)
- Use previously-learned grammar principles with increasing accuracy.
- Understand oral conversations, announcements, and media reports about familiar topics.
- Read medium-length journalistic and literary texts on familiar topics, including a short story and a play.
- Write simple compositions in a variety of genres (letters, pamphlets, articles, short stories, etc.).
- Discuss some differences between the cultural norms and perspectives of Americans and Portuguese speakers.
- Discuss some common themes from Portuguese-speaking cultures.

PORT 315 : Intermediate Portuguese Grammar, Reading, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Introduction of culture, literature, and grammatical concerns through reading short stories, novels, and drama in Portuguese.

NOTE: Will count for minor but not for major. Native speakers should take Port 321.

**Course Outcomes**

There are no course outcomes available

**Note 1:** Students with foreign residence experience should take Port 321.

**Note 2:** Prerequisite courses may be waived for those having sufficient proficiency with the language.

5. Complete the following:

PORT 321 : Third-Year Portuguese Reading, Grammar, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Placement by test.

NOTE: First class for returned Portuguese-speaking missionaries. Fulfills GE Foreign Language requirement.

**Course Outcomes**

There are no course outcomes available

PORT 322 : Third-Year Portuguese Grammar and Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: PORT 321

**Course Outcomes**

- Expand Advanced-level language skills as they are applied to the writing modality.
- Acquire the techniques necessary for producing a variety of texts such as summaries, correspondence, detailed descriptions of people and places, elaborate narrations, analyses and argumentative essays.
- Enhance critical thinking abilities through an analysis of advanced grammatical, lexical and stylistic

features of the Portuguese language.
- Increase vocabulary, grammatical accuracy, cultural awareness and comprehension of the Portuguese language through receptive and productive practice.

PORT 339 : Introduction to Portuguese and Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Port 321.

DESCRIPTION: Readings in modern literature; formal literary analysis.

**Course Outcomes**

- Contextualize and analyze literature written in Portuguese from various genres and periods.
- Acquire and apply the fundamental tools for literary analysis, appreciation, and interpretation through a study of a balanced selection of foundational works from Portugal and Brazil and some areas of Lusophone Africa.
- Demonstrate through written exercises mastery of the basic terms of literary analysis and the formal patterns of fiction (narration, plot, characterization, structure, etc.) drama (tragedy, comedy, dialogue, structure, staging, etc.), and poetry (meter, rhyme, syllabification, figurative language, including tropes and figures).
- Produce several interpretive essays that demonstrate mastery of the formal components of fiction, drama, and poetry, and that reveal competence in library research skills, appropriate use of secondary sources, and proper adherence to MLA bibliographic style.

PORT 441 : Survey of Portuguese Literature. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: PORT 339

DESCRIPTION: Literary periods, genres, and great writers of Portugal.

**Course Outcomes**

- Define and recognize the periods, areas of specialization, significant authors, schools or movements of Portuguese literature.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Portuguese literature.
- Demonstrate and apply strong understanding of the basic structures of the Portuguese language as they apply to literature.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 451 : Survey of Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Literary periods, genres, and great writers of Brazil.

**Course Outcomes**

- Define and recognize the periods, areas of specialization, significant authors, schools or movements of Brazilian literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Brazilian literature.
- Write essays in Portuguese, including a final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 493 : Capstone Course in Portuguese. (1:1:0)

WHEN TAUGHT: Contact Department. Fall; Winter; Spring; Summer

PREREQUISITE: Senior standing or departmental advisor's consent.

DESCRIPTION: A culminating experience for Portuguese as a first or second major. Students will be able to articulate the value of the Portuguese BA and will develop strategies and a rationale for applying the skills acquired during their undergraduate studies.

NOTE: Course must be taken concurrently with an approved upper-division, senior-level (e.g. 400-level) course in the semester prior to graduation.

**Course Outcomes**

There are no course outcomes available

6. Complete one course from the following:

PORT 345 : Portuguese Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: Port 321.

DESCRIPTION: Culture, history, art, music, and traditions of Portugal.

**Course Outcomes**

- Describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe the linear progression of historical periods that might include important political, social, and

artistic events.
- Recognize and describe important cultural products such as art, literature, architecture, and music, including important works and individuals.
- Describe important cultural institutions that might include family, religion, education and government.
- Discuss important cultural practices, including customs related to birth, marriage and death, as well as traditions and holidays.
- Analyze recent developments, including political, social, religious, and artistic activities.
- Interpret cultural products and practices within the framework of historical, geographic, religious, and social factors that influence them.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced awareness of cultural and historical knowledge
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

PORT 355 : Brazilian Civilization. (3:3:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: Port 321.
DESCRIPTION: Culture, history, art, music, and traditions of Brazil.

**Course Outcomes**

There are no course outcomes available

7. Complete 18 hours from the following:

PORT 326 : Portuguese Phonetics and Pronunciation. (3:3:3)
WHEN TAUGHT: Fall
PREREQUISITE: PORT 321
DESCRIPTION: Underlying concepts of Portuguese speech production and applications to pronunciation.

**Course Outcomes**

- Understand the basic concepts of articulatory phonetics and phonology.
- Understand how the sounds of standard Portuguese are pronounced.
- Be able to transcribe phonetically both oral and written texts in Portuguese.
- Improve their pronunciation of Portuguese through self analysis.
- Appreciate how the pronunciation of Portuguese has changed, and continues to change, across time and space.

PORT 329 : Survey of Luso-Brazilian Linguistics. (3:3:0)
WHEN TAUGHT: Winter
PREREQUISITE: PORT 321
DESCRIPTION: Introduction to linguistics of Portuguese: phonetics, phonology, morphology, syntax, semantics, history of the Portuguese language, philology, dialectology, sociolinguistics, and psycholinguistics.

**Course Outcomes**

- The objective of this course is to introduce students to the basic fields of linguistic study within the Hispanic context. Students should be able to identify and explain issues of phonetics, phonology, morphology, syntax, semantics, and types of variation as found in oral and written language

PORT 345 : Portuguese Civilization. (3:3:0)
WHEN TAUGHT: Fall; Winter Contact Department
PREREQUISITE: Port 321.
DESCRIPTION: Culture, history, art, music, and traditions of Portugal.

**Course Outcomes**

- Describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe the linear progression of historical periods that might include important political, social, and artistic events.
- Recognize and describe important cultural products such as art, literature, architecture, and music, including important works and individuals.
- Describe important cultural institutions that might include family, religion, education and government.
- Discuss important cultural practices, including customs related to birth, marriage and death, as well as traditions and holidays.
- Analyze recent developments, including political, social, religious, and artistic activities.
- Interpret cultural products and practices within the framework of historical, geographic, religious, and social factors that influence them.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced awareness of cultural and historical knowledge
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

PORT 355 : Brazilian Civilization. (3:3:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: Port 321.
DESCRIPTION: Culture, history, art, music, and traditions of Brazil.

**Course Outcomes**

There are no course outcomes available

PORT 395R : Contemporary Culture. (.5-3:0:0)

WHEN TAUGHT: Contact Department.

DESCRIPTION: Contemporary Portuguese or Brazilian culture: the people and their customs and institutions.

NOTE: For Study Abroad programs only.

**Course Outcomes**

- Through readings, develop a familiarity with macro forces (historical, political, economical) that have shaped the host culture.
- Through a series of cultural proofs (visits, interviews, observations), develop a familiarity with the host culture at the level of the individual.

PORT 439R : Luso-Brazilian Theatre Production. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Theory and practice of dramatic performance. Includes participation in play to be performed during semester.

NOTE: No more than 3 hours of 439R credit may count toward any degree.

**Course Outcomes**

- Demonstrate understanding of the theory and practice of dramatic performances.
- Participate in the production of a play during the course of the semester.
- Develop advanced skills in research techniques and academic writing.

PORT 442 : Camoes. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: PORT 441

**Course Outcomes**

- Demonstrate thorough understanding of Portuguese literary history, the context for the work of Camões and its reception.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.)
- Develop advanced skills in research techniques and academic writing.

PORT 449R : Special Topics in Portuguese Literature. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: PORT 441

DESCRIPTION: Specific topics in Portuguese (Peninsular) literature. Course content will vary each semester to offer optimum exposure to all areas of Portuguese literature.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Portuguese Literature special topics.

PORT 452 : Machado de Assis. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: PORT 451

**Course Outcomes**

- Demonstrate thorough understanding of Brazilian literary history, the cultural context for the work of Machado de Assis, and the reception of Machado's work.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.).
- Develop advanced skills in research techniques and academic writing.

PORT 453 : Twentieth-Century Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: PORT 451

**Course Outcomes**

- Demonstrate thorough understanding of twentieth-century literary history in Brazil.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.).
- Develop advanced skills in research techniques and academic writing.

PORT 459R : Special Topics in Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PORT 451

DESCRIPTION: Specific topics in Portuguese (Brazilian) literature. Course content will vary each semester to offer optimum exposure to all areas of Brazilian literature.

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Brazilian literary texts.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Develop the habits and skills for Brazilian literary study that inspire continued learning.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 461R : African Literature in Portuguese. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Modern authors from the five African nations whose official language is Portuguese: Angola, Cabo Verde, Guine Bissau, Mozambique, and the two-island republic Sao Tome and Principe. Authors include Jose Craveirinha, Mia Couto, Noemia de Sousa, Jose Tenreiro, Castro Soromenho, Luandino Vieira, Pepetala, and Baltasar Lopes, among others.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Develop the habits and skills for Luso-African literary study that inspire continued learning.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Luso-African literary texts.

PORT 462R : Literature of the Lusophone World. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Authors from the eight nations whose official language is Portuguese, plus former colonies and present regions of important Portuguese influence. These include Luso-American and Azorean writers, as well as authors from East Timor (formerly Indonesia), Goa (India), and Macau (China).

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Lusophone literary texts.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.

PORT 480R : Directed Research in Portuguese. (.5-3:ARR:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Written proposal subject to department approval.

DESCRIPTION: Under faculty member's direction, designing and conducting research project covering material not normally presented in regular course work. Research paper required.

NOTE: Total Port 480R credit toward bachelor's degree not to exceed 3 hours.

**Course Outcomes**

- Conduct advanced, independent research on a topic in Portuguese studies.

PORT 490 : Senior Seminar in Portuguese. (.5-3:0:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Senior standing.

DESCRIPTION: Bibliography, research, and writing of senior thesis.

NOTE: Recommended for students planning graduate studies in Portuguese.

**Course Outcomes**

No outcomes are available at this time.

PORT 520 : Advanced Portuguese Grammar. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: Port 326 or 329.

DESCRIPTION: Applying contemporary grammatical concepts to problems in Portuguese grammar.

**Course Outcomes**

- The student enrolled in Advanced Portuguese Grammar will carefully examine some grammar “problems” by reading and studying selections from grammarians and researchers who provide insights into the problem in question. The student’s ability to synthesize coherent and meaningful generalizations will be objectively tested by exams and further evaluated while he or she participates in classroom discussion.

- The student enrolled in Advanced Portuguese Grammar will acquire a greater understanding of both descriptive and prescriptive grammars and their function and limitations. The student will also acquire specialized terms employed by grammarians and morphosyntacticians. The student's ability to understand and use these terms appropriately will also be objectively measured by examination.
- Complete a research paper/presentation on a particular grammar point or construction. This assignment will test a student's ability to locate appropriate refereed sources, read and synthesize them and prepare a written document and oral presentation according to a recognized style manual.

PORT 521 : Romance Philology. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: Port 326 or 329.

DESCRIPTION: Comparative study of evolution of Latin into modern romance languages.

**Course Outcomes**

- Situate Latin and the Romance Languages in their "external" (i.e. political and literary) historical context.
- Recognize the "laws" of regular phonological evolution (e.g. syncope, lenition, diphthongization, etc.).
- Compare the "major" (i.e. literary) Romance languages as far as their phonological development is concerned.
- Lexical Differences and Etymology
- Become familiar with articles published in professional journals relating to the subject matter and produce accurate and meaningful written summaries and reactions to them.
- Learn the rudiments of transcribing medieval or Renaissance manuscripts.

PORT 522 : History of the Portuguese Language. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: Port 326 or 329.

DESCRIPTION: Linguistic sources that contributed to formation of Portuguese.

**Course Outcomes**

- Acquire a basic knowledge of the changes undergone by the nominal and verbal systems of Latin and Portuguese (e.g., the demise of the case system, the development of new verbal tenses, etc.).
- Demonstrate the ability to summarize and discuss in a clear and concise manner several scholarly articles on the topic of the history of the Portuguese language.
- Situate Latin and Portuguese in their political and literary historical contexts.
- Recognize the laws of regular phonological development (e.g. syncope, lenition, diphthongization, etc.).
- Identify the sources of the Portuguese lexicon.
- Understand the different theories that claim to understand the relation between Latin and the Romance languages, especially the relation between Latin and Portuguese.
- Understand the process of linguistic standardization in Romance and its implications for the linguistic map of the Iberian Peninsula.

PORT 529R : Special Topics in Portuguese Linguistics. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: Port 326 or 329, or instructor's approval.

DESCRIPTION: Topics from semantics to dialectology to sociolinguistics.

**Course Outcomes**

- Read and analyze research articles related to special topic in Portuguese linguistics.
- Produce an original research paper/project centered on the theme of the seminar.

PORT 599R : Academic Internship: Portuguese Internship. (1-3:0:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Port 321; instructor's consent.

NOTE: For supervised internship credit on BYU Study Abroad programs only.

**Course Outcomes**

- Successfully complete internship in a Portuguese-speaking country.

*Hours include courses that may fulfill university core requirements.

## Program Requirements | View MAP | View Program Outcomes

1. Students must complete the requirements for a primary major in another field.
2. Complete the following prerequisite courses (or equivalents):

PORT 101 : First-Year Portuguese. (4:5:1)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: Pronunciation, conversation, reading, and fundamentals of grammar. Specific attention to Portuguese as the language of Brazil.
NOTE: Native speakers of Portuguese must enroll in Port 321.

**Course Outcomes**

- Participate in classroom activities in Portuguese.
- Communicate verbally in routine situations such as greeting people and becoming acquainted.
- Understand simple conversations about some familiar, concrete topics such as daily activities, likes and dislikes, family, and home.
- Create simple sentences using basic grammar rules and vocabulary with limited accuracy.
- Read short “cultural blurbs” from the textbook, as well as other short texts such as personal ads, menus, and advertisements.
- Write word- and sentence-length messages such as lists, biographical information on forms, and descriptions of people and things.
- Know basic facts about some Portuguese-speaking countries.
- Identify basic cultural products, practices, and perspectives from Portuguese-speaking countries.

PORT 102 : First-Year Portuguese. (4:5:1)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Port 101.
DESCRIPTION: Pronunciation, conversation, reading, and fundamentals of grammar. Specific attention to Portuguese as the language of Brazil.
NOTE: Native speakers of Portuguese must enroll in Port 321.

**Course Outcomes**

- Participate in classroom activities in Portuguese.
- Participate in conversations about some familiar, concrete topics such as daily activities, family, home, work, and school.
- Understand simple conversations about some familiar, concrete topics such as daily activities, likes and dislikes, family, and home.
- Create simple sentences using basic grammar rules and vocabulary with limited accuracy.
- Read short “cultural blurbs” from the textbook, as well as other short texts such as advertisements, letters, recipes, and stories.
- Know basic facts about some Portuguese-speaking countries.
- Identify basic cultural products, practices, and perspectives from Portuguese-speaking countries.

PORT 201 : Third-Semester Portuguese. (4:5:0)

PREREQUISITE: Port 102 or three units of high school Portuguese.
DESCRIPTION: Second-year grammar, reading, writing, and conversation.
NOTE: Native speakers of Portuguese must take Port 321.

**Course Outcomes**

- Maintain a simple face-to-face conversation about concrete topics such as self, family, friends, and daily activities.
- Handle a simple transactional situation (making purchases, interviewing for a job, etc.)
- Discuss some topics of general interest (school, geography, finances, business, etc.)
- Use grammar principles, including the present, past, and future indicative and subjunctive, with increasing accuracy.
- Understand conversations, announcements, and media reports on familiar topics.
- Read short journalistic and literary texts.
- Write short, simple compositions in a variety of genres (stories, résumés, skits, etc.)
- Know basic facts about some Portuguese-speaking countries.
- Identify basic cultural products, practices, and perspectives from Portuguese-speaking countries.

PORT 211R : First-Semester Conversation. (2:2:1)
WHEN TAUGHT: Contact Department.
RECOMMENDED: Concurrent enrollment in Port 201.

**Course Outcomes**

- Begin to develop ability to handle a variety of uncomplicated communicative tasks in straightforward social situations, including verbal and nonverbal messages.

**And** complete one course from the following:

PORT 202 : Fourth-Semester Portuguese: Reading and Comprehension. (4:5:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: Port 201.
DESCRIPTION: Fourth-semester class introducing grammar and culture through study of literature.
NOTE: Not for returned missionaries. Culmination of GE Mathematics/Foreign Language requirement. Native speakers of Portuguese must take Port 321. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Maintain a simple face-to-face conversation about an increasing range of topics of general interest (politics, transportation, the media, the arts, sports, etc.)
- Handle some situations with a complication (resolving disagreements, traffic violations, etc.)
- Use previously-learned grammar principles with increasing accuracy.
- Understand oral conversations, announcements, and media reports about familiar topics.
- Read medium-length journalistic and literary texts on familiar topics, including a short story and a play.
- Write simple compositions in a variety of genres (letters, pamphlets, articles, short stories, etc.).
- Discuss some differences between the cultural norms and perspectives of Americans and Portuguese speakers.
- Discuss some common themes from Portuguese-speaking cultures.

PORT 315 : Intermediate Portuguese Grammar, Reading, and Culture. (3:3:0)
WHEN TAUGHT: Fall; Winter
DESCRIPTION: Introduction of culture, literature, and grammatical concerns through reading short stories, novels, and drama in Portuguese.
NOTE: Will count for minor but not for major. Native speakers should take Port 321.

**Course Outcomes**

There are no course outcomes available

**Note 1:** Students with foreign residence experience should take Port 315.

**Note 2:** Prerequisite courses may be waived for those having sufficient proficiency with the language. See the department for language testing details.

3. Complete the following core courses:

PORT 321 : Third-Year Portuguese Reading, Grammar, and Culture. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Placement by test.
NOTE: First class for returned Portuguese-speaking missionaries. Fulfills GE Foreign Language requirement.

**Course Outcomes**

There are no course outcomes available

PORT 329 : Survey of Luso-Brazilian Linguistics. (3:3:0)
WHEN TAUGHT: Winter
PREREQUISITE: PORT 321
DESCRIPTION: Introduction to linguistics of Portuguese: phonetics, phonology, morphology, syntax, semantics, history of the Portuguese language, philology, dialectology, sociolinguistics, and psycholinguistics.

**Course Outcomes**

- The objective of this course is to introduce students to the basic fields of linguistic study within the Hispanic context. Students should be able to identify and explain issues of phonetics, phonology, morphology, syntax, semantics, and types of variation as found in oral and written language

PORT 339 : Introduction to Portuguese and Brazilian Literature. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Port 321.
DESCRIPTION: Readings in modern literature; formal literary analysis.

**Course Outcomes**

- Contextualize and analyze literature written in Portuguese from various genres and periods.
- Acquire and apply the fundamental tools for literary analysis, appreciation, and interpretation through a study of a balanced selection of foundational works from Portugal and Brazil and some areas of Lusophone Africa.
- Demonstrate through written exercises mastery of the basic terms of literary analysis and the formal patterns of fiction (narration, plot, characterization, structure, etc.) drama (tragedy, comedy, dialogue, structure, staging, etc.), and poetry (meter, rhyme, syllabification, figurative language, including tropes and figures).
- Produce several interpretive essays that demonstrate mastery of the formal components of fiction, drama, and poetry, and that reveal competence in library research skills, appropriate use of secondary sources, and proper adherence to MLA bibliographic style.

4. Complete one course from the following:

PORT 345 : Portuguese Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: Port 321.

DESCRIPTION: Culture, history, art, music, and traditions of Portugal.

**Course Outcomes**

- Describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe the linear progression of historical periods that might include important political, social, and artistic events.
- Recognize and describe important cultural products such as art, literature, architecture, and music, including important works and individuals.
- Describe important cultural institutions that might include family, religion, education and government.
- Discuss important cultural practices, including customs related to birth, marriage and death, as well as traditions and holidays.
- Analyze recent developments, including political, social, religious, and artistic activities.
- Interpret cultural products and practices within the framework of historical, geographic, religious, and social factors that influence them.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced awareness of cultural and historical knowledge
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

PORT 355 : Brazilian Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Port 321.

DESCRIPTION: Culture, history, art, music, and traditions of Brazil.

**Course Outcomes**

There are no course outcomes available

5. Complete one course from the following:

PORT 441 : Survey of Portuguese Literature. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: PORT 339

DESCRIPTION: Literary periods, genres, and great writers of Portugal.

**Course Outcomes**

- Define and recognize the periods, areas of specialization, significant authors, schools or movements of Portuguese literature.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Portuguese literature.
- Demonstrate and apply strong understanding of the basic structures of the Portuguese language as they apply to literature.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 451 : Survey of Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Literary periods, genres, and great writers of Brazil.

**Course Outcomes**

- Define and recognize the periods, areas of specialization, significant authors, schools or movements of Brazilian literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Brazilian literature.
- Write essays in Portuguese, including a final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

6. Complete the following:

PORT 414 : Introduction to Translation for Second Majors. (3:3:0)

WHEN TAUGHT: Contact Department. Fall; Winter

PREREQUISITE: PORT 321

DESCRIPTION: Readings, individual research projects, and group translation activities. How the translation profession works. Developing the ability to translate general financial and legal texts. Learning to read texts critically.

**Course Outcomes**

- Students will produce a log of their own malapropisms and false cognates (minimum 100 words or conjugational parts).
- Students will produce, after several edited iterations, a legible translation of a professional treatise or work of fiction, appropriate to the social register of their audience.

PORT 493 : Capstone Course in Portuguese. (1:1:0)

WHEN TAUGHT: Contact Department. Fall; Winter; Spring; Summer

PREREQUISITE: Senior standing or departmental advisor's consent.

DESCRIPTION: A culminating experience for Portuguese as a first or second major. Students will be able to articulate the value of the Portuguese BA and will develop strategies and a rationale for applying the skills acquired during their undergraduate studies.

NOTE: Course must be taken concurrently with an approved upper-division, senior-level (e.g. 400-level) course in the semester prior to graduation.

**Course Outcomes**

There are no course outcomes available

7. Complete one of the following:

PORT 322 : Third-Year Portuguese Grammar and Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: PORT 321

**Course Outcomes**

- Expand Advanced-level language skills as they are applied to the writing modality.
- Acquire the techniques necessary for producing a variety of texts such as summaries, correspondence, detailed descriptions of people and places, elaborate narrations, analyses and argumentative essays.
- Enhance critical thinking abilities through an analysis of advanced grammatical, lexical and stylistic features of the Portuguese language.
- Increase vocabulary, grammatical accuracy, cultural awareness and comprehension of the Portuguese language through receptive and productive practice.

PORT 323R : Portuguese for the Professions. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PORT 321

DESCRIPTION: Introduction to professional terminology, documentation, and correspondence.

**Course Outcomes**

- Students will identify Portuguese-speaking populations (regions) of the U.S.
- Students will identify current employment opportunities in those regions, in a variety of professions, and acquire a working specialized vocabulary (300 words plus) in at least three professions.

8. Complete 3 additional credit hours from the following:

PORT 322 : Third-Year Portuguese Grammar and Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: PORT 321

**Course Outcomes**

- Expand Advanced-level language skills as they are applied to the writing modality.
- Acquire the techniques necessary for producing a variety of texts such as summaries, correspondence, detailed descriptions of people and places, elaborate narrations, analyses and argumentative essays.
- Enhance critical thinking abilities through an analysis of advanced grammatical, lexical and stylistic features of the Portuguese language.
- Increase vocabulary, grammatical accuracy, cultural awareness and comprehension of the Portuguese language through receptive and productive practice.

PORT 323R : Portuguese for the Professions. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PORT 321

DESCRIPTION: Introduction to professional terminology, documentation, and correspondence.

**Course Outcomes**

- Students will identify Portuguese-speaking populations (regions) of the U.S.
- Students will identify current employment opportunities in those regions, in a variety of professions, and acquire a working specialized vocabulary (300 words plus) in at least three professions.

PORT 326 : Portuguese Phonetics and Pronunciation. (3:3:3)

WHEN TAUGHT: Fall

PREREQUISITE: PORT 321

DESCRIPTION: Underlying concepts of Portuguese speech production and applications to pronunciation.

**Course Outcomes**

- Understand the basic concepts of articulatory phonetics and phonology.
- Understand how the sounds of standard Portuguese are pronounced.
- Be able to transcribe phonetically both oral and written texts in Portuguese.
- Improve their pronunciation of Portuguese through self analysis.
- Appreciate how the pronunciation of Portuguese has changed, and continues to change, across time and space.

PORT 329 : Survey of Luso-Brazilian Linguistics. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: PORT 321

DESCRIPTION: Introduction to linguistics of Portuguese: phonetics, phonology, morphology, syntax, semantics, history of the Portuguese language, philology, dialectology, sociolinguistics, and psycholinguistics.

**Course Outcomes**

- The objective of this course is to introduce students to the basic fields of linguistic study within the Hispanic context. Students should be able to identify and explain issues of phonetics, phonology, morphology, syntax, semantics, and types of variation as found in oral and written language

PORT 345 : Portuguese Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: Port 321.

DESCRIPTION: Culture, history, art, music, and traditions of Portugal.

**Course Outcomes**

- Describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe the linear progression of historical periods that might include important political, social, and artistic events.
- Recognize and describe important cultural products such as art, literature, architecture, and music, including important works and individuals.
- Describe important cultural institutions that might include family, religion, education and government.
- Discuss important cultural practices, including customs related to birth, marriage and death, as well as traditions and holidays.
- Analyze recent developments, including political, social, religious, and artistic activities.
- Interpret cultural products and practices within the framework of historical, geographic, religious, and social factors that influence them.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced awareness of cultural and historical knowledge
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

PORT 355 : Brazilian Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Port 321.

DESCRIPTION: Culture, history, art, music, and traditions of Brazil.

**Course Outcomes**

There are no course outcomes available

PORT 356R : Special Topics in Brazilian Culture. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: PORT 321

DESCRIPTION: An in-depth examination of some aspect of Brazilian culture and civilization. Subject matter will vary. This course is recommended for those individuals who may already have a broad exposure to the culture and civilization of Brazil and/or those who desire a more focused cultural experience.

**Course Outcomes**

There are no course outcomes available

PORT 377 : Methods of Portuguese Teaching. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Methods for planning Portuguese language and culture instruction, teaching communicative skills, and assessing students' learning. Course is geared toward instructors at K-12 as well as university level.

**Course Outcomes**

- Discuss historical trends in the teaching of foreign languages.
- Select and evaluate textbooks for teaching Portuguese.
- Plan thematic units and lessons incorporating theStandards for Foreign Language Learning.
- Plan and implement communicative activities for teaching speaking, listening, reading, and writing, as well as grammar and vocabulary, in a thematic context.
- Plan instruction about the cultural products, practices, and perspectives of Lusophone countries.
- Create and adapt various forms of assessment, including tests, project, rubrics and portfolios, to assess language and culture learning and provide feedback to students.
- Use technological tools for teaching languages and cultures, as well as for discussing and reflecting on professional themes with colleagues.
- Plan instruction that attends to the diverse needs of students, including Spanish speakers.

PORT 395R : Contemporary Culture. (.5-3:0:0)

WHEN TAUGHT: Contact Department.
DESCRIPTION: Contemporary Portuguese or Brazilian culture: the people and their customs and institutions.
NOTE: For Study Abroad programs only.

**Course Outcomes**

- Through readings, develop a familiarity with macro forces (historical, political, economical) that have shaped the host culture.
- Through a series of cultural proofs (visits, interviews, observations), develop a familiarity with the host culture at the level of the individual.

PORT 439R : Luso-Brazilian Theatre Production. (3:3:0)

WHEN TAUGHT: Winter
DESCRIPTION: Theory and practice of dramatic performance. Includes participation in play to be performed during semester.
NOTE: No more than 3 hours of 439R credit may count toward any degree.

**Course Outcomes**

- Demonstrate understanding of the theory and practice of dramatic performances.
- Participate in the production of a play during the course of the semester.
- Develop advanced skills in research techniques and academic writing.

PORT 441 : Survey of Portuguese Literature. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: PORT 339
DESCRIPTION: Literary periods, genres, and great writers of Portugal.

**Course Outcomes**

- Define and recognize the periods, areas of specialization, significant authors, schools or movements of Portuguese literature.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Portuguese literature.
- Demonstrate and apply strong understanding of the basic structures of the Portuguese language as they apply to literature.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 442 : Camoes. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: PORT 441

**Course Outcomes**

- Demonstrate thorough understanding of Portuguese literary history, the context for the work of Camões and its reception.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.)
- Develop advanced skills in research techniques and academic writing.

PORT 449R : Special Topics in Portuguese Literature. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: PORT 441
DESCRIPTION: Specific topics in Portuguese (Peninsular) literature. Course content will vary each semester to offer optimum exposure to all areas of Portuguese literature.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Portuguese Literature special topics.

PORT 451 : Survey of Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Literary periods, genres, and great writers of Brazil.

**Course Outcomes**

- Define and recognize the periods, areas of specialization, significant authors, schools or movements of Brazilian literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Brazilian literature.
- Write essays in Portuguese, including a final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 452 : Machado de Assis. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: PORT 451

**Course Outcomes**

- Demonstrate thorough understanding of Brazilian literary history, the cultural context for the work of Machado de Assis, and the reception of Machado's work.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.).
- Develop advanced skills in research techniques and academic writing.

PORT 453 : Twentieth-Century Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: PORT 451

**Course Outcomes**

- Demonstrate thorough understanding of twentieth-century literary history in Brazil.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.).
- Develop advanced skills in research techniques and academic writing.

PORT 459R : Special Topics in Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PORT 451

DESCRIPTION: Specific topics in Portuguese (Brazilian) literature. Course content will vary each semester to offer optimum exposure to all areas of Brazilian literature.

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Brazilian literary texts.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Develop the habits and skills for Brazilian literary study that inspire continued learning.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 461R : African Literature in Portuguese. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Modern authors from the five African nations whose official language is Portuguese: Angola, Cabo Verde, Guine Bissau, Mozambique, and the two-island republic Sao Tome and Principe. Authors include Jose Craveirinha, Mia Couto, Noemia de Sousa, Jose Tenreiro, Castro Soromenho, Luandino Vieira, Pepetala, and Baltasar Lopes, among others.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Develop the habits and skills for Luso-African literary study that inspire continued learning.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Luso-African literary texts.

PORT 462R : Literature of the Lusophone World. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Authors from the eight nations whose official language is Portuguese, plus former colonies and present regions of important Portuguese influence. These include Luso-American and Azorean writers, as well as authors from East Timor (formerly Indonesia), Goa (India), and Macau (China).

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Lusophone literary texts.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.

PORT 480R : Directed Research in Portuguese. (.5-3:ARR:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Written proposal subject to department approval.
DESCRIPTION: Under faculty member's direction, designing and conducting research project covering material not normally presented in regular course work. Research paper required.
NOTE: Total Port 480R credit toward bachelor's degree not to exceed 3 hours.

**Course Outcomes**

- Conduct advanced, independent research on a topic in Portuguese studies.

PORT 490 : Senior Seminar in Portuguese. (.5-3:0:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Senior standing.
DESCRIPTION: Bibliography, research, and writing of senior thesis.
NOTE: Recommended for students planning graduate studies in Portuguese.

**Course Outcomes**

No outcomes are available at this time.

PORT 520 : Advanced Portuguese Grammar. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department
PREREQUISITE: Port 326 or 329.
DESCRIPTION: Applying contemporary grammatical concepts to problems in Portuguese grammar.

**Course Outcomes**

- The student enrolled in Advanced Portuguese Grammar will carefully examine some grammar “problems” by reading and studying selections from grammarians and researchers who provide insights into the problem in question. The student’s ability to synthesize coherent and meaningful generalizations will be objectively tested by exams and further evaluated while he or she participates in classroom discussion.
- The student enrolled in Advanced Portuguese Grammar will acquire a greater understanding of both descriptive and prescriptive grammars and their function and limitations. The student will also acquire specialized terms employed by grammarians and morphosyntacticians. The student’s ability to understand and use these terms appropriately will also be objectively measured by examination.
- Complete a research paper/presentation on a particular grammar point or construction. This assignment will test a student’s ability to locate appropriate refereed sources, read and synthesize them and prepare a written document and oral presentation according to a recognized style manual.

PORT 521 : Romance Philology. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: Port 326 or 329.
DESCRIPTION: Comparative study of evolution of Latin into modern romance languages.

**Course Outcomes**

- Situate Latin and the Romance Languages in their “external” (i.e. political and literary) historical context.
- Recognize the “laws” of regular phonological evolution (e.g. syncope, lenition, diphthongization, etc.).
- Compare the “major” (i.e. literary) Romance languages as far as their phonological development is concerned.
- Lexical Differences and Etymology
- Become familiar with articles published in professional journals relating to the subject matter and produce accurate and meaningful written summaries and reactions to them.
- Learn the rudiments of transcribing medieval or Renaissance manuscripts.

PORT 522 : History of the Portuguese Language. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department
PREREQUISITE: Port 326 or 329.
DESCRIPTION: Linguistic sources that contributed to formation of Portuguese.

**Course Outcomes**

- Acquire a basic knowledge of the changes undergone by the nominal and verbal systems of Latin and Portuguese (e.g., the demise of the case system, the development of new verbal tenses, etc.).
- Demonstrate the ability to summarize and discuss in a clear and concise manner several scholarly articles on the topic of the history of the Portuguese language.
- Situate Latin and Portuguese in their political and literary historical contexts.
- Recognize the laws of regular phonological development (e.g. syncope, lenition, diphthongization, etc.).
- Identify the sources of the Portuguese lexicon.
- Understand the different theories that claim to understand the relation between Latin and the Romance languages, especially the relation between Latin and Portuguese.
- Understand the process of linguistic standardization in Romance and its implications for the linguistic

map of the Iberian Peninsula.

PORT 529R : Special Topics in Portuguese Linguistics. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department
PREREQUISITE: Port 326 or 329, or instructor's approval.
DESCRIPTION: Topics from semantics to dialectology to sociolinguistics.

**Course Outcomes**

- Read and analyze research articles related to special topic in Portuguese linguistics.
- Produce an original research paper/project centered on the theme of the seminar.

PORT 599R : Academic Internship: Portuguese Internship. (1-3:0:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Port 321; instructor's consent.
NOTE: For supervised internship credit on BYU Study Abroad programs only.

**Course Outcomes**

- Successfully complete internship in a Portuguese-speaking country.

9. Complete the following:

PORT 491 : Senior Proficiency Evaluation. (0:1:0)

DESCRIPTION: Tool course to meet oral proficiency requirement for all majors.
NOTE: No major or minor credit.

**Course Outcomes**

- Receive an Advanced Low or better on the Oral Proficiency Interview.

**Note:** The Senior Proficiency Evaluation is taken in connection with Port 491. It is expected that Portuguese majors will pass with an ACTFL rating of *advanced-low* or higher.

*Hours include courses that may fulfill university core requirements.

## Program Requirements

1. Complete the following prerequisite courses:

PORT 101 : First-Year Portuguese. (4:5:1)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Pronunciation, conversation, reading, and fundamentals of grammar. Specific attention to Portuguese as the language of Brazil.

NOTE: Native speakers of Portuguese must enroll in Port 321.

**Course Outcomes**

- Participate in classroom activities in Portuguese.
- Communicate verbally in routine situations such as greeting people and becoming acquainted.
- Understand simple conversations about some familiar, concrete topics such as daily activities, likes and dislikes, family, and home.
- Create simple sentences using basic grammar rules and vocabulary with limited accuracy.
- Read short “cultural blurbs” from the textbook, as well as other short texts such as personal ads, menus, and advertisements.
- Write word- and sentence-length messages such as lists, biographical information on forms, and descriptions of people and things.
- Know basic facts about some Portuguese-speaking countries.
- Identify basic cultural products, practices, and perspectives from Portuguese-speaking countries.

PORT 102 : First-Year Portuguese. (4:5:1)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Port 101.

DESCRIPTION: Pronunciation, conversation, reading, and fundamentals of grammar. Specific attention to Portuguese as the language of Brazil.

NOTE: Native speakers of Portuguese must enroll in Port 321.

**Course Outcomes**

- Participate in classroom activities in Portuguese.
- Participate in conversations about some familiar, concrete topics such as daily activities, family, home, work, and school.
- Understand simple conversations about some familiar, concrete topics such as daily activities, likes and dislikes, family, and home.
- Create simple sentences using basic grammar rules and vocabulary with limited accuracy.
- Read short “cultural blurbs” from the textbook, as well as other short texts such as advertisements, letters, recipes, and stories.
- Know basic facts about some Portuguese-speaking countries.
- Identify basic cultural products, practices, and perspectives from Portuguese-speaking countries.

PORT 201 : Third-Semester Portuguese. (4:5:0)

PREREQUISITE: Port 102 or three units of high school Portuguese.

DESCRIPTION: Second-year grammar, reading, writing, and conversation.

NOTE: Native speakers of Portuguese must take Port 321.

**Course Outcomes**

- Maintain a simple face-to-face conversation about concrete topics such as self, family, friends, and daily activities.
- Handle a simple transactional situation (making purchases, interviewing for a job, etc.)
- Discuss some topics of general interest (school, geography, finances, business, etc.)
- Use grammar principles, including the present, past, and future indicative and subjunctive, with increasing accuracy.
- Understand conversations, announcements, and media reports on familiar topics.
- Read short journalistic and literary texts.
- Write short, simple compositions in a variety of genres (stories, résumés, skits, etc.)
- Know basic facts about some Portuguese-speaking countries.
- Identify basic cultural products, practices, and perspectives from Portuguese-speaking countries.

PORT 211R : First-Semester Conversation. (2:2:1)
WHEN TAUGHT: Contact Department.
RECOMMENDED: Concurrent enrollment in Port 201.

**Course Outcomes**

- Begin to develop ability to handle a variety of uncomplicated communicative tasks in straightforward social situations, including verbal and nonverbal messages.

**And** complete one course from the following:

PORT 202 : Fourth-Semester Portuguese: Reading and Comprehension. (4:5:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: Port 201.
DESCRIPTION: Fourth-semester class introducing grammar and culture through study of literature.
NOTE: Not for returned missionaries. Culmination of GE Mathematics/Foreign Language requirement. Native speakers of Portuguese must take Port 321. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Maintain a simple face-to-face conversation about an increasing range of topics of general interest (politics, transportation, the media, the arts, sports, etc.)
- Handle some situations with a complication (resolving disagreements, traffic violations, etc.)
- Use previously-learned grammar principles with increasing accuracy.
- Understand oral conversations, announcements, and media reports about familiar topics.
- Read medium-length journalistic and literary texts on familiar topics, including a short story and a play.
- Write simple compositions in a variety of genres (letters, pamphlets, articles, short stories, etc.).
- Discuss some differences between the cultural norms and perspectives of Americans and Portuguese speakers.
- Discuss some common themes from Portuguese-speaking cultures.

PORT 315 : Intermediate Portuguese Grammar, Reading, and Culture. (3:3:0)
WHEN TAUGHT: Fall; Winter
DESCRIPTION: Introduction of culture, literature, and grammatical concerns through reading short stories, novels, and drama in Portuguese.
NOTE: Will count for minor but not for major. Native speakers should take Port 321.

**Course Outcomes**

There are no course outcomes available

**Note 1:** Students with foreign residence experience should take Port 321.

**Note 2:** Prerequisite courses may be waived for those having sufficient proficiency with the language.

2. Complete the following:

PORT 321 : Third-Year Portuguese Reading, Grammar, and Culture. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Placement by test.
NOTE: First class for returned Portuguese-speaking missionaries. Fulfills GE Foreign Language requirement.

**Course Outcomes**

There are no course outcomes available

PORT 339 : Introduction to Portuguese and Brazilian Literature. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Port 321.
DESCRIPTION: Readings in modern literature; formal literary analysis.

**Course Outcomes**

- Contextualize and analyze literature written in Portuguese from various genres and periods.
- Acquire and apply the fundamental tools for literary analysis, appreciation, and interpretation through a study of a balanced selection of foundational works from Portugal and Brazil and some areas of Lusophone Africa.
- Demonstrate through written exercises mastery of the basic terms of literary analysis and the formal patterns of fiction (narration, plot, characterization, structure, etc.) drama (tragedy, comedy, dialogue, structure, staging, etc.), and poetry (meter, rhyme, syllabification, figurative language, including tropes and figures).
- Produce several interpretive essays that demonstrate mastery of the formal components of fiction, drama, and poetry, and that reveal competence in library research skills, appropriate use of secondary sources, and proper adherence to MLA bibliographic style.

3. Complete one course from the following:

PORT 345 : Portuguese Civilization. (3:3:0)
WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: Port 321.
DESCRIPTION: Culture, history, art, music, and traditions of Portugal.

**Course Outcomes**

- Describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe the linear progression of historical periods that might include important political, social, and artistic events.
- Recognize and describe important cultural products such as art, literature, architecture, and music, including important works and individuals.
- Describe important cultural institutions that might include family, religion, education and government.
- Discuss important cultural practices, including customs related to birth, marriage and death, as well as traditions and holidays.
- Analyze recent developments, including political, social, religious, and artistic activities.
- Interpret cultural products and practices within the framework of historical, geographic, religious, and social factors that influence them.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced awareness of cultural and historical knowledge
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

PORT 355 : Brazilian Civilization. (3:3:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: Port 321.
DESCRIPTION: Culture, history, art, music, and traditions of Brazil.

**Course Outcomes**

There are no course outcomes available

4. Complete one course from the following:

PORT 441 : Survey of Portuguese Literature. (3:3:0)
WHEN TAUGHT: Contact Department.
PREREQUISITE: PORT 339
DESCRIPTION: Literary periods, genres, and great writers of Portugal.

**Course Outcomes**

- Define and recognize the periods, areas of specialization, significant authors, schools or movements of Portuguese literature.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Portuguese literature.
- Demonstrate and apply strong understanding of the basic structures of the Portuguese language as they apply to literature.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 451 : Survey of Brazilian Literature. (3:3:0)
WHEN TAUGHT: Fall; Winter Contact Department
PREREQUISITE: PORT 339
DESCRIPTION: Literary periods, genres, and great writers of Brazil.

**Course Outcomes**

- Define and recognize the periods, areas of specialization, significant authors, schools or movements of Brazilian literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Brazilian literature.
- Write essays in Portuguese, including a final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

5. Complete 6 additional upper-division hours from the courses outlined for the major. Port 315 credit may be applied to the Portuguese minor but is not required.

*Hours include courses that may fulfill university core requirements.

3. Complete the following:

PORT 377 : Methods of Portuguese Teaching. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Methods for planning Portuguese language and culture instruction, teaching communicative skills, and assessing students' learning. Course is geared toward instructors at K-12 as well as university level.

**Course Outcomes**

- Discuss historical trends in the teaching of foreign languages.
- Select and evaluate textbooks for teaching Portuguese.
- Plan thematic units and lessons incorporating theStandards for Foreign Language Learning.
- Plan and implement communicative activities for teaching speaking, listening, reading, and writing, as well as grammar and vocabulary, in a thematic context.
- Plan instruction about the cultural products, practices, and perspectives of Lusophone countries.
- Create and adapt various forms of assessment, including tests, project, rubrics and portfolios, to assess language and culture learning and provide feedback to students.
- Use technological tools for teaching languages and cultures, as well as for discussing and reflecting on professional themes with colleagues.
- Plan instruction that attends to the diverse needs of students, including Spanish speakers.

4. Complete the following:

PORT 321 : Third-Year Portuguese Reading, Grammar, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Placement by test.

NOTE: First class for returned Portuguese-speaking missionaries. Fulfills GE Foreign Language requirement.

**Course Outcomes**

There are no course outcomes available

PORT 322 : Third-Year Portuguese Grammar and Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: PORT 321

**Course Outcomes**

- Expand Advanced-level language skills as they are applied to the writing modality.
- Acquire the techniques necessary for producing a variety of texts such as summaries, correspondence, detailed descriptions of people and places, elaborate narrations, analyses and argumentative essays.
- Enhance critical thinking abilities through an analysis of advanced grammatical, lexical and stylistic features of the Portuguese language.
- Increase vocabulary, grammatical accuracy, cultural awareness and comprehension of the Portuguese language through receptive and productive practice.

PORT 339 : Introduction to Portuguese and Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Port 321.

DESCRIPTION: Readings in modern literature; formal literary analysis.

**Course Outcomes**

- Contextualize and analyze literature written in Portuguese from various genres and periods.
- Acquire and apply the fundamental tools for literary analysis, appreciation, and interpretation through a study of a balanced selection of foundational works from Portugal and Brazil and some areas of Lusophone Africa.
- Demonstrate through written exercises mastery of the basic terms of literary analysis and the formal patterns of fiction (narration, plot, characterization, structure, etc.) drama (tragedy, comedy, dialogue, structure, staging, etc.), and poetry (meter, rhyme, syllabification, figurative language, including tropes and figures).
- Produce several interpretive essays that demonstrate mastery of the formal components of fiction, drama, and poetry, and that reveal competence in library research skills, appropriate use of secondary sources, and proper adherence to MLA bibliographic style.

5. Complete one course from the following:

PORT 326 : Portuguese Phonetics and Pronunciation. (3:3:3)

WHEN TAUGHT: Fall

PREREQUISITE: PORT 321

DESCRIPTION: Underlying concepts of Portuguese speech production and applications to pronunciation.

**Course Outcomes**

- Understand the basic concepts of articulatory phonetics and phonology.
- Understand how the sounds of standard Portuguese are pronounced.
- Be able to transcribe phonetically both oral and written texts in Portuguese.
- Improve their pronunciation of Portuguese through self analysis.
- Appreciate how the pronunciation of Portuguese has changed, and continues to change, across time and space.

PORT 329 : Survey of Luso-Brazilian Linguistics. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: PORT 321

DESCRIPTION: Introduction to linguistics of Portuguese: phonetics, phonology, morphology, syntax, semantics, history of the Portuguese language, philology, dialectology, sociolinguistics, and psycholinguistics.

**Course Outcomes**

- The objective of this course is to introduce students to the basic fields of linguistic study within the Hispanic context. Students should be able to identify and explain issues of phonetics, phonology, morphology, syntax, semantics, and types of variation as found in oral and written language

6. Complete one course from the following:

PORT 345 : Portuguese Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: Port 321.

DESCRIPTION: Culture, history, art, music, and traditions of Portugal.

**Course Outcomes**

- Describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe the linear progression of historical periods that might include important political, social, and artistic events.
- Recognize and describe important cultural products such as art, literature, architecture, and music, including important works and individuals.
- Describe important cultural institutions that might include family, religion, education and government.
- Discuss important cultural practices, including customs related to birth, marriage and death, as well as traditions and holidays.
- Analyze recent developments, including political, social, religious, and artistic activities.
- Interpret cultural products and practices within the framework of historical, geographic, religious, and social factors that influence them.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced awareness of cultural and historical knowledge
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

PORT 355 : Brazilian Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Port 321.

DESCRIPTION: Culture, history, art, music, and traditions of Brazil.

**Course Outcomes**

There are no course outcomes available

7. Complete one course from the following:

PORT 441 : Survey of Portuguese Literature. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: PORT 339

DESCRIPTION: Literary periods, genres, and great writers of Portugal.

**Course Outcomes**

- Define and recognize the periods, areas of specialization, significant authors, schools or movements of Portuguese literature.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Portuguese literature.
- Demonstrate and apply strong understanding of the basic structures of the Portuguese language as they apply to literature.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 451 : Survey of Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Literary periods, genres, and great writers of Brazil.

**Course Outcomes**

- Define and recognize the periods, areas of specialization, significant authors, schools or movements of Brazilian literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Brazilian literature.
- Write essays in Portuguese, including a final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

8. Complete the following:

PORT 491 : Senior Proficiency Evaluation. (0:1:0)

DESCRIPTION: Tool course to meet oral proficiency requirement for all majors.

NOTE: No major or minor credit.

**Course Outcomes**

- Receive an Advanced Low or better on the Oral Proficiency Interview.

**Note:** The Senior Proficiency Evaluation is taken in connection with Port 491. Before applying to student teach in the major, achieve a minimum OPI rating of *Advanced-Low* to obtain Utah state licensure and to graduate.

*Hours include courses that may fulfill university core requirements.

Show All Course Descriptions
Hide All Course Descriptions

*This Language Certificate program is administered by the Center for Language Studies (3086 JFSB), http://languagecertificate.byu.edu.*

Any matriculated (degree-seeking) BYU student who meets the proficiency and course requirements may earn the Portuguese Language Certificate. The proficiency requirement is met through the nationally recognized ACTFL Oral and Writing Proficiency Exams. Qualifying students will be awarded a certificate on one of three levels based on the following:

1. Advanced Certificate: An ACTFL "Advanced" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
2. Mastery Certificate: An ACTFL "Advanced High" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
3. Professional Certificate: An ACTFL "Superior" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.

## Required Courses:

**Note:** Students who have completed all of the coursework required for a language major or a language minor will also have satisfied the coursework requirement for the language certificate.

1. Language - complete one course from the following:

PORT 315 : Intermediate Portuguese Grammar, Reading, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: Introduction of culture, literature, and grammatical concerns through reading short stories, novels, and drama in Portuguese.
NOTE: Will count for minor but not for major. Native speakers should take Port 321.

**Course Outcomes**

There are no course outcomes available

PORT 321 : Third-Year Portuguese Reading, Grammar, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Placement by test.
NOTE: First class for returned Portuguese-speaking missionaries. Fulfills GE Foreign Language requirement.

**Course Outcomes**

There are no course outcomes available

2. Civilization - complete one course from the following:

PORT 345 : Portuguese Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department
PREREQUISITE: Port 321.
DESCRIPTION: Culture, history, art, music, and traditions of Portugal.

**Course Outcomes**

- Describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe the linear progression of historical periods that might include important political, social, and artistic events.
- Recognize and describe important cultural products such as art, literature, architecture, and music, including important works and individuals.
- Describe important cultural institutions that might include family, religion, education and government.
- Discuss important cultural practices, including customs related to birth, marriage and death, as well as traditions and holidays.
- Analyze recent developments, including political, social, religious, and artistic activities.
- Interpret cultural products and practices within the framework of historical, geographic, religious, and social factors that influence them.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced awareness of cultural and historical knowledge
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes,

beliefs, and worldview.

PORT 355 : Brazilian Civilization. (3:3:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: Port 321.
DESCRIPTION: Culture, history, art, music, and traditions of Brazil.

**Course Outcomes**

There are no course outcomes available

3. Literature:

PORT 339 : Introduction to Portuguese and Brazilian Literature. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Port 321.
DESCRIPTION: Readings in modern literature; formal literary analysis.

**Course Outcomes**

- Contextualize and analyze literature written in Portuguese from various genres and periods.
- Acquire and apply the fundamental tools for literary analysis, appreciation, and interpretation through a study of a balanced selection of foundational works from Portugal and Brazil and some areas of Lusophone Africa.
- Demonstrate through written exercises mastery of the basic terms of literary analysis and the formal patterns of fiction (narration, plot, characterization, structure, etc.) drama (tragedy, comedy, dialogue, structure, staging, etc.), and poetry (meter, rhyme, syllabification, figurative language, including tropes and figures).
- Produce several interpretive essays that demonstrate mastery of the formal components of fiction, drama, and poetry, and that reveal competence in library research skills, appropriate use of secondary sources, and proper adherence to MLA bibliographic style.

Students who successfully complete a certificate will receive an official document verifying their level of achievement. The certificate will be listed on the university transcript.

## Undergraduate Courses

### 100-Level Courses

PORT 101 : First-Year Portuguese. (4:5:1)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Pronunciation, conversation, reading, and fundamentals of grammar. Specific attention to Portuguese as the language of Brazil.

NOTE: Native speakers of Portuguese must enroll in Port 321.

**Course Outcomes**

- Participate in classroom activities in Portuguese.
- Communicate verbally in routine situations such as greeting people and becoming acquainted.
- Understand simple conversations about some familiar, concrete topics such as daily activities, likes and dislikes, family, and home.
- Create simple sentences using basic grammar rules and vocabulary with limited accuracy.
- Read short “cultural blurbs” from the textbook, as well as other short texts such as personal ads, menus, and advertisements.
- Write word- and sentence-length messages such as lists, biographical information on forms, and descriptions of people and things.
- Know basic facts about some Portuguese-speaking countries.
- Identify basic cultural products, practices, and perspectives from Portuguese-speaking countries.

PORT 102 : First-Year Portuguese. (4:5:1)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Port 101.

DESCRIPTION: Pronunciation, conversation, reading, and fundamentals of grammar. Specific attention to Portuguese as the language of Brazil.

NOTE: Native speakers of Portuguese must enroll in Port 321.

**Course Outcomes**

- Participate in classroom activities in Portuguese.
- Participate in conversations about some familiar, concrete topics such as daily activities, family, home, work, and school.
- Understand simple conversations about some familiar, concrete topics such as daily activities, likes and dislikes, family, and home.
- Create simple sentences using basic grammar rules and vocabulary with limited accuracy.
- Read short “cultural blurbs” from the textbook, as well as other short texts such as advertisements, letters, recipes, and stories.
- Know basic facts about some Portuguese-speaking countries.
- Identify basic cultural products, practices, and perspectives from Portuguese-speaking countries.

PORT 105 : Portuguese for Spanish Speakers 1. (4:4:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Intensive course designed for students fluent in Spanish or another Romance language. No previous knowledge of Portuguese required. Emphasis on development of oral skills, vocaulary, grammar, and understanding of Lusophone cultures.

**Course Outcomes**

- Participate in conversations in conversations about some familiar, concrete topics such as daily activities, family, home, work, and school.
- Understand conversations and monologues in spoken Brazilian Portuguese on familiar topics.
- Read "cultural blurbs" from the textbook, as well as other slightly longer texts such as advertisements, letters, recipes, and stories.
- Write short texts such as email messages, post cards, and descriptions of people and things.
- Create sentences using basic grammar rules and vocabulary with limited accuracy.
- Know basic facts about some Portuguese-speaking countries and identify cultural products, practices, and perspectives from these countries.
- Differentiate between basic Spanish and Portuguese grammar, vocabulary, and spelling conventions.

PORT 199R : Academic Internship. (.5-3:0:0)

PREREQUISITE: Department chair's and internship coordinator's consent.

DESCRIPTION: On-the-job experience evaluated by supervisor and posted on student's transcript.

**Course Outcomes**

- Demonstrate capacity to contextualize internship responsibilities and experiences within an academic framework.

### 200-Level Courses

PORT 201 : Third-Semester Portuguese. (4:5:0)

PREREQUISITE: Port 102 or three units of high school Portuguese.

DESCRIPTION: Second-year grammar, reading, writing, and conversation.

NOTE: Native speakers of Portuguese must take Port 321.

**Course Outcomes**

- Maintain a simple face-to-face conversation about concrete topics such as self, family, friends, and daily activities.
- Handle a simple transactional situation (making purchases, interviewing for a job, etc.)
- Discuss some topics of general interest (school, geography, finances, business, etc.)
- Use grammar principles, including the present, past, and future indicative and subjunctive, with increasing accuracy.
- Understand conversations, announcements, and media reports on familiar topics.
- Read short journalistic and literary texts.
- Write short, simple compositions in a variety of genres (stories, résumés, skits, etc.)
- Know basic facts about some Portuguese-speaking countries.
- Identify basic cultural products, practices, and perspectives from Portuguese-speaking countries.

PORT 202 : Fourth-Semester Portuguese: Reading and Comprehension. (4:5:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Port 201.

DESCRIPTION: Fourth-semester class introducing grammar and culture through study of literature.

NOTE: Not for returned missionaries. Culmination of GE Mathematics/Foreign Language requirement. Native speakers of Portuguese must take Port 321. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Maintain a simple face-to-face conversation about an increasing range of topics of general interest (politics, transportation, the media, the arts, sports, etc.)
- Handle some situations with a complication (resolving disagreements, traffic violations, etc.)
- Use previously-learned grammar principles with increasing accuracy.
- Understand oral conversations, announcements, and media reports about familiar topics.
- Read medium-length journalistic and literary texts on familiar topics, including a short story and a play.
- Write simple compositions in a variety of genres (letters, pamphlets, articles, short stories, etc.).
- Discuss some differences between the cultural norms and perspectives of Americans and Portuguese speakers.
- Discuss some common themes from Portuguese-speaking cultures.

PORT 205 : Portuguese for Spanish Speakers 2. (4:4:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Port 105.

DESCRIPTION: Intensive course designed for students fluent in Spanish or another Romance language. Emphasizes development of reading and writing skills and understanding of Lusophone literary works and cultures.

**Course Outcomes**

- Carry on conversations about an increasing range of topics of general interest and handle some oral situations in which a complication arises (resolving disagreements, traffic violations, etc.).
- Understand oral conversations, announcements, and media reports about topics of general interest.
- Read journalistic and literary texts on familiar topics, including a short story and a play.
- Write short compositions in a variety of genres (letters, skits, short stories, etc.).
- Use previously-learned grammar principles with increasing accuracy and ability to differentiate from Spanish.
- Discuss some common themes from Portuguese-speaking cultures and the differences between the perspectives of these cultures and those of North American and Hispanic cultures.

PORT 211R : First-Semester Conversation. (2:2:1)

WHEN TAUGHT: Contact Department.

RECOMMENDED: Concurrent enrollment in Port 201.

**Course Outcomes**

- Begin to develop ability to handle a variety of uncomplicated communicative tasks in straightforward social situations, including verbal and nonverbal messages.

PORT 212 : Second-Semester Conversation. (2:2:1)

WHEN TAUGHT: Contact Department.

**Course Outcomes**

There are no course outcomes available

### 300-Level Courses

PORT 311R : Third-Year Conversation. (2:2:1)

WHEN TAUGHT: Contact Department.
DESCRIPTION: Tools course to help students improve oral proficiency
NOTE: Will not count for major or minor.

**Course Outcomes**

- Communicate effectively in most real-life situations at the interpersonal level, including academic, professional, or social situations.
- Understand main ideas and most facts from interactive exchanges and aural texts.
- Ability to handle successfully a variety of uncomplicated communicative tasks in straightforward social situations, including verbal and nonverbal messages.

PORT 315 : Intermediate Portuguese Grammar, Reading, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: Introduction of culture, literature, and grammatical concerns through reading short stories, novels, and drama in Portuguese.
NOTE: Will count for minor but not for major. Native speakers should take Port 321.

**Course Outcomes**

There are no course outcomes available

PORT 321 : Third-Year Portuguese Reading, Grammar, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Placement by test.
NOTE: First class for returned Portuguese-speaking missionaries. Fulfills GE Foreign Language requirement.

**Course Outcomes**

There are no course outcomes available

PORT 322 : Third-Year Portuguese Grammar and Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: PORT 321

**Course Outcomes**

- Expand Advanced-level language skills as they are applied to the writing modality.
- Acquire the techniques necessary for producing a variety of texts such as summaries, correspondence, detailed descriptions of people and places, elaborate narrations, analyses and argumentative essays.
- Enhance critical thinking abilities through an analysis of advanced grammatical, lexical and stylistic features of the Portuguese language.
- Increase vocabulary, grammatical accuracy, cultural awareness and comprehension of the Portuguese language through receptive and productive practice.

PORT 323R : Portuguese for the Professions. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: PORT 321
DESCRIPTION: Introduction to professional terminology, documentation, and correspondence.

**Course Outcomes**

- Students will identify Portuguese-speaking populations (regions) of the U.S.
- Students will identify current employment opportunities in those regions, in a variety of professions, and acquire a working specialized vocabulary (300 words plus) in at least three professions.

PORT 326 : Portuguese Phonetics and Pronunciation. (3:3:3)

WHEN TAUGHT: Fall
PREREQUISITE: PORT 321
DESCRIPTION: Underlying concepts of Portuguese speech production and applications to pronunciation.

**Course Outcomes**

- Understand the basic concepts of articulatory phonetics and phonology.
- Understand how the sounds of standard Portuguese are pronounced.
- Be able to transcribe phonetically both oral and written texts in Portuguese.
- Improve their pronunciation of Portuguese through self analysis.
- Appreciate how the pronunciation of Portuguese has changed, and continues to change, across time and space.

PORT 329 : Survey of Luso-Brazilian Linguistics. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: PORT 321
DESCRIPTION: Introduction to linguistics of Portuguese: phonetics, phonology, morphology, syntax, semantics, history of the

Portuguese language, philology, dialectology, sociolinguistics, and psycholinguistics.

**Course Outcomes**

- The objective of this course is to introduce students to the basic fields of linguistic study within the Hispanic context. Students should be able to identify and explain issues of phonetics, phonology, morphology, syntax, semantics, and types of variation as found in oral and written language

PORT 339 : Introduction to Portuguese and Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Port 321.

DESCRIPTION: Readings in modern literature; formal literary analysis.

**Course Outcomes**

- Contextualize and analyze literature written in Portuguese from various genres and periods.
- Acquire and apply the fundamental tools for literary analysis, appreciation, and interpretation through a study of a balanced selection of foundational works from Portugal and Brazil and some areas of Lusophone Africa.
- Demonstrate through written exercises mastery of the basic terms of literary analysis and the formal patterns of fiction (narration, plot, characterization, structure, etc.) drama (tragedy, comedy, dialogue, structure, staging, etc.), and poetry (meter, rhyme, syllabification, figurative language, including tropes and figures).
- Produce several interpretive essays that demonstrate mastery of the formal components of fiction, drama, and poetry, and that reveal competence in library research skills, appropriate use of secondary sources, and proper adherence to MLA bibliographic style.

PORT 345 : Portuguese Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: Port 321.

DESCRIPTION: Culture, history, art, music, and traditions of Portugal.

**Course Outcomes**

- Describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe the linear progression of historical periods that might include important political, social, and artistic events.
- Recognize and describe important cultural products such as art, literature, architecture, and music, including important works and individuals.
- Describe important cultural institutions that might include family, religion, education and government.
- Discuss important cultural practices, including customs related to birth, marriage and death, as well as traditions and holidays.
- Analyze recent developments, including political, social, religious, and artistic activities.
- Interpret cultural products and practices within the framework of historical, geographic, religious, and social factors that influence them.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced awareness of cultural and historical knowledge
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

PORT 346R : Special Topics in Portuguese Culture. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: PORT 321

DESCRIPTION: An in-depth examination of some aspect of Iberian culture and civilization. Subject matter will vary. This course is recommended for those individuals who may already have a broad exposure to the culture and civilization of Portugal and/or those who desire a more focused experience.

**Course Outcomes**

No outcomes are available at this time.

PORT 355 : Brazilian Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Port 321.

DESCRIPTION: Culture, history, art, music, and traditions of Brazil.

**Course Outcomes**

There are no course outcomes available

PORT 356R : Special Topics in Brazilian Culture. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: PORT 321

DESCRIPTION: An in-depth examination of some aspect of Brazilian culture and civilization. Subject matter will vary. This course is recommended for those individuals who may already have a broad exposure to the culture and civilization of Brazil and/or those who desire a more focused cultural experience.

**Course Outcomes**

There are no course outcomes available

PORT 377 : Methods of Portuguese Teaching. (3:3:0)

WHEN TAUGHT: Fall

DESCRIPTION: Methods for planning Portuguese language and culture instruction, teaching communicative skills, and assessing students' learning. Course is geared toward instructors at K-12 as well as university level.

**Course Outcomes**

- Discuss historical trends in the teaching of foreign languages.
- Select and evaluate textbooks for teaching Portuguese.
- Plan thematic units and lessons incorporating theStandards for Foreign Language Learning.
- Plan and implement communicative activities for teaching speaking, listening, reading, and writing, as well as grammar and vocabulary, in a thematic context.
- Plan instruction about the cultural products, practices, and perspectives of Lusophone countries.
- Create and adapt various forms of assessment, including tests, project, rubrics and portfolios, to assess language and culture learning and provide feedback to students.
- Use technological tools for teaching languages and cultures, as well as for discussing and reflecting on professional themes with colleagues.
- Plan instruction that attends to the diverse needs of students, including Spanish speakers.

PORT 395R : Contemporary Culture. (.5-3:0:0)

WHEN TAUGHT: Contact Department.

DESCRIPTION: Contemporary Portuguese or Brazilian culture: the people and their customs and institutions.

NOTE: For Study Abroad programs only.

**Course Outcomes**

- Through readings, develop a familiarity with macro forces (historical, political, economical) that have shaped the host culture.
- Through a series of cultural proofs (visits, interviews, observations), develop a familiarity with the host culture at the level of the individual.

PORT 399R : Academic Internship: Portuguese Language Field Experience. (.5-6:0:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Program coordinator's consent.

DESCRIPTION: On-the-job experience.

**Course Outcomes**

- These course outcomes are in development.
- These course outcomes are in development.

**400-Level Courses**

PORT 414 : Introduction to Translation for Second Majors. (3:3:0)

WHEN TAUGHT: Contact Department. Fall; Winter

PREREQUISITE: PORT 321

DESCRIPTION: Readings, individual research projects, and group translation activities. How the translation profession works. Developing the ability to translate general financial and legal texts. Learning to read texts critically.

**Course Outcomes**

- Students will produce a log of their own malapropisms and false cognates (minimum 100 words or conjugational parts).
- Students will produce, after several edited iterations, a legible translation of a professional treatise or work of fiction, appropriate to the social register of their audience.

PORT 438 : Luso-Brazilian Cinema. (3:3:0)

WHEN TAUGHT: Winter Odd Yrs., Contact Department

PREREQUISITE: PORT 321

DESCRIPTION: Introduction to study of film; background in appreciating the best of motion picture art in Brazil, Portugal and other Lusophone countries.

**Course Outcomes**

No outcomes are available at this time.

PORT 439R : Luso-Brazilian Theatre Production. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Theory and practice of dramatic performance. Includes participation in play to be performed during semester.

NOTE: No more than 3 hours of 439R credit may count toward any degree.

**Course Outcomes**

- Demonstrate understanding of the theory and practice of dramatic performances.
- Participate in the production of a play during the course of the semester.
- Develop advanced skills in research techniques and academic writing.

PORT 441 : Survey of Portuguese Literature. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: PORT 339

DESCRIPTION: Literary periods, genres, and great writers of Portugal.

**Course Outcomes**

- Define and recognize the periods, areas of specialization, significant authors, schools or movements of Portuguese literature.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Portuguese literature.
- Demonstrate and apply strong understanding of the basic structures of the Portuguese language as they apply to literature.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 442 : Camoes. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: PORT 441

**Course Outcomes**

- Demonstrate thorough understanding of Portuguese literary history, the context for the work of Camões and its reception.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.)
- Develop advanced skills in research techniques and academic writing.

PORT 449R : Special Topics in Portuguese Literature. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: PORT 441

DESCRIPTION: Specific topics in Portuguese (Peninsular) literature. Course content will vary each semester to offer optimum exposure to all areas of Portuguese literature.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Portuguese Literature special topics.

PORT 451 : Survey of Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Literary periods, genres, and great writers of Brazil.

**Course Outcomes**

- Define and recognize the periods, areas of specialization, significant authors, schools or movements of Brazilian literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Brazilian literature.
- Write essays in Portuguese, including a final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 452 : Machado de Assis. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: PORT 451

**Course Outcomes**

- Demonstrate thorough understanding of Brazilian literary history, the cultural context for the work of Machado de Assis, and the reception of Machado's work.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.).
- Develop advanced skills in research techniques and academic writing.

PORT 453 : Twentieth-Century Brazilian Literature. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: PORT 451

**Course Outcomes**

- Demonstrate thorough understanding of twentieth-century literary history in Brazil.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.).
- Develop advanced skills in research techniques and academic writing.

PORT 459R : Special Topics in Brazilian Literature. (3:3:0)

WHEN Fall; Winter

TAUGHT:

PREREQUISITE: PORT 451

DESCRIPTION: Specific topics in Portuguese (Brazilian) literature. Course content will vary each semester to offer optimum exposure to all areas of Brazilian literature.

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Brazilian literary texts.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Develop the habits and skills for Brazilian literary study that inspire continued learning.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.

PORT 461R : African Literature in Portuguese. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Modern authors from the five African nations whose official language is Portuguese: Angola, Cabo Verde, Guine Bissau, Mozambique, and the two-island republic Sao Tome and Principe. Authors include Jose Craveirinha, Mia Couto, Noemia de Sousa, Jose Tenreiro, Castro Soromenho, Luandino Vieira, Pepetala, and Baltasar Lopes, among others.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Develop the habits and skills for Luso-African literary study that inspire continued learning.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Luso-African literary texts.

PORT 462R : Literature of the Lusophone World. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: PORT 339

DESCRIPTION: Authors from the eight nations whose official language is Portuguese, plus former colonies and present regions of important Portuguese influence. These include Luso-American and Azorean writers, as well as authors from East Timor (formerly Indonesia), Goa (India), and Macau (China).

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Lusophone literary texts.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Portuguese, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Portuguese literary study that inspire continued learning.

PORT 480R : Directed Research in Portuguese. (.5-3:ARR:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Written proposal subject to department approval.

DESCRIPTION: Under faculty member's direction, designing and conducting research project covering material not normally presented in regular course work. Research paper required.

NOTE: Total Port 480R credit toward bachelor's degree not to exceed 3 hours.

**Course Outcomes**

- Conduct advanced, independent research on a topic in Portuguese studies.

PORT 490 : Senior Seminar in Portuguese. (.5-3:0:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Senior standing.

DESCRIPTION: Bibliography, research, and writing of senior thesis.

NOTE: Recommended for students planning graduate studies in Portuguese.

**Course Outcomes**

No outcomes are available at this time.

PORT 491 : Senior Proficiency Evaluation. (0:1:0)

DESCRIPTION: Tool course to meet oral proficiency requirement for all majors.

NOTE: No major or minor credit.

**Course Outcomes**

- Receive an Advanced Low or better on the Oral Proficiency Interview.

PORT 493 : Capstone Course in Portuguese. (1:1:0)

WHEN TAUGHT: Contact Department. Fall; Winter; Spring; Summer

PREREQUISITE: Senior standing or departmental advisor's consent.
DESCRIPTION: A culminating experience for Portuguese as a first or second major. Students will be able to articulate the value of the Portuguese BA and will develop strategies and a rationale for applying the skills acquired during their undergraduate studies.
NOTE: Course must be taken concurrently with an approved upper-division, senior-level (e.g. 400-level) course in the semester prior to graduation.

**Course Outcomes**

There are no course outcomes available

## 500-Level Graduate Courses (available to advanced undergraduates)

PORT 520 : Advanced Portuguese Grammar. (3:3:0)
WHEN TAUGHT: Fall; Winter Contact Department
PREREQUISITE: Port 326 or 329.
DESCRIPTION: Applying contemporary grammatical concepts to problems in Portuguese grammar.

**Course Outcomes**

- The student enrolled in Advanced Portuguese Grammar will carefully examine some grammar "problems" by reading and studying selections from grammarians and researchers who provide insights into the problem in question. The student's ability to synthesize coherent and meaningful generalizations will be objectively tested by exams and further evaluated while he or she participates in classroom discussion.
- The student enrolled in Advanced Portuguese Grammar will acquire a greater understanding of both descriptive and prescriptive grammars and their function and limitations. The student will also acquire specialized terms employed by grammarians and morphosyntacticians. The student's ability to understand and use these terms appropriately will also be objectively measured by examination.
- Complete a research paper/presentation on a particular grammar point or construction. This assignment will test a student's ability to locate appropriate refereed sources, read and synthesize them and prepare a written document and oral presentation according to a recognized style manual.

PORT 521 : Romance Philology. (3:3:0)
WHEN TAUGHT: Winter
PREREQUISITE: Port 326 or 329.
DESCRIPTION: Comparative study of evolution of Latin into modern romance languages.

**Course Outcomes**

- Situate Latin and the Romance Languages in their "external" (i.e. political and literary) historical context.
- Recognize the "laws" of regular phonological evolution (e.g. syncope, lenition, diphthongization, etc.).
- Compare the "major" (i.e. literary) Romance languages as far as their phonological development is concerned.
- Lexical Differences and Etymology
- Become familiar with articles published in professional journals relating to the subject matter and produce accurate and meaningful written summaries and reactions to them.
- Learn the rudiments of transcribing medieval or Renaissance manuscripts.

PORT 522 : History of the Portuguese Language. (3:3:0)
WHEN TAUGHT: Fall Contact Department; Winter Contact Department
PREREQUISITE: Port 326 or 329.
DESCRIPTION: Linguistic sources that contributed to formation of Portuguese.

**Course Outcomes**

- Acquire a basic knowledge of the changes undergone by the nominal and verbal systems of Latin and Portuguese (e.g., the demise of the case system, the development of new verbal tenses, etc.).
- Demonstrate the ability to summarize and discuss in a clear and concise manner several scholarly articles on the topic of the history of the Portuguese language.
- Situate Latin and Portuguese in their political and literary historical contexts.
- Recognize the laws of regular phonological development (e.g. syncope, lenition, diphthongization, etc.).
- Identify the sources of the Portuguese lexicon.
- Understand the different theories that claim to understand the relation between Latin and the Romance languages, especially the relation between Latin and Portuguese.
- Understand the process of linguistic standardization in Romance and its implications for the linguistic map of the Iberian Peninsula.

PORT 529R : Special Topics in Portuguese Linguistics. (3:3:0)
WHEN TAUGHT: Fall Contact Department; Winter Contact Department
PREREQUISITE: Port 326 or 329, or instructor's approval.
DESCRIPTION: Topics from semantics to dialectology to sociolinguistics.

**Course Outcomes**

- Read and analyze research articles related to special topic in Portuguese linguistics.
- Produce an original research paper/project centered on the theme of the seminar.

PORT 599R : Academic Internship: Portuguese Internship. (1-3:0:0)
WHEN TAUGHT: Contact Department.
PREREQUISITE: Port 321; instructor's consent.
NOTE: For supervised internship credit on BYU Study Abroad programs only.

**Course Outcomes**

- Successfully complete internship in a Portuguese-speaking country.

## Program Requirements | View MAP | View Program Outcomes

1. The Spanish and Portuguese Department requires a minimum of 18 hours of upper-division major credit to be taken in residence at BYU for this degree program. These hours may also go toward BYU's 30-hour residency requirement for graduation.
2. Meet the foreign language residency requirement.
3. Complete a minor (approximately 16–21 hours), second major (approximately 30–60 hours), or supporting course work (15 hours).

   **Note:** Latin American Studies majors or minors: Span 321, 339, 345 or 355, and 441 or 451 meet requirements for both the Spanish major and the area studies minor. Only one of these courses may be double-counted (applied to both the major and the minor). Students wishing to complete a Spanish major and one of these area studies minors must take an additional 6–9 hours chosen from the approved electives for either major or minor. Consult the department and the advisement center for clarification of the choices available to you.
4. Complete the following prerequisite courses:

SPAN 101 : Foundational Spanish 1. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Fundamentals of Spanish, emphasizing communication. (Accelerated sections available.) Pass/fail only.

NOTE: For students with no previous Spanish.

**Course Outcomes**

- Respond in Spanish to simple ques-tions on the most commonfeatures of daily life
- Convey minimal meaning tointerlocutors experiencedwith dealing with foreign-ers by using isolated words,lists of words, memorizedphrases and some personal-ized recombinations ofwords and phrases
- Satisfy a very limited num-ber of immediate needs through the use of spoken Spanish.
- Respond in written Spanish at the same level as indicated in outcomes related to speaking.
- Understand common basic cultural practices and products related to greetings and family life in some Spanish-speaking countries.

SPAN 102 : Foundational Spanish 2. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Span 101.

DESCRIPTION: Continuation of Span 101. Fundamentals of Spanish, emphasizing communication. (Accelerated sections available.) Pass/fail only.

**Course Outcomes**

- Using Spanish, participate in simple, directconversations on generallypredictable topics related todaily activities and personalenvironment.
- Create with the languageand communicate personalmeaning to sympatheticinterlocutors by combininglanguage elements in dis-crete sentences and stringsof sentences.
- Obtain and give informationby asking and answeringquestions.
- Sustain and bring to a closea number of basic, uncom-plicated communicativeexchanges, mostly in a reac-tive mode.
- Satisfy simple personalneeds and social demandsto survive in the target lan-guage culture.
- Respond in written Spanish at the same level as indicated in preceding objectives related to spoken Spanish.
- Understand common basic cultural practices and products related to travel in some Spanish-speaking countries.

SPAN 105 : University Spanish 1. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Two years of high school Spanish or Span 101/102 or placement by diagnostic test.

DESCRIPTION: Continued development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational courses. Students are expected to attain an *Intermediate-Mid* proficiency level.

**Course Outcomes**

- Use Spanish to maintain simple verbal conversations on everyday topics.
- Communicate using paragraph level discourse in writing.
- Be understood by sympathetic native speakers despite occasional misunderstandings.
- Describe and narrate in the past present and future a portion of the time.
- Understand that hispanic culture is vast and diverse.
- Demonstrate understanding of and appreciation for Hispanic cultures.

SPAN 106 : University Spanish 2. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Span 105.

DESCRIPTION: Expanded development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational and intermediate courses. Students are expected to attain an *Intermediate-Mid* to *Intermediate-High* proficiency level.

**Course Outcomes**

- Use Spanish to maintain simple verbal conversations on everyday topics.
- Communicate using paragraph level discourse in writing.
- Be understood by sympathetic native speakers despite occasional misunderstandings.
- Describe and narrate in the past present and future a portion of the time.
- Understand that hispanic culture is vast and diverse.
- Demonstrate understanding of and appreciation for Hispanic cultures.

SPAN 111R : Spanish Conversation 1. (2:2.5:1)

RECOMMENDED: Concurrent enrollment in Span 105.

DESCRIPTION: Development of conversation skills in Spanish.

**Course Outcomes**

- Communicate orally in Spanish in specific speaking situations at the interpersonal level, which may include various personal or social situations.
- Understand main ideas and some facts from interactive exchanges and aural texts.
- Demonstrate awareness of cultures and backgrounds other than the student's own.
- Present orally to an audience a topic related to Hispanic cultural products, practices and events.
- Ability to read consistently with increased understanding simple, connected texts dealing with a variety of basic and social needs.

SPAN 112R : Spanish Conversation 2. (2:2.5:1)

RECOMMENDED: Concurrent enrollment in Span 106.

DESCRIPTION: Continued development of conversation skills in Spanish.

**Course Outcomes**

- Communicate orally in Spanish in specific speaking situations at the interpersonal level, which may include various personal or social situations.
- Understand main ideas and some facts from interactive exchanges and aural texts.
- Demonstrate awareness of cultures and backgrounds other than the student's own
- Present orally to an audience a topic related to Hispanic cultural products, practices and events.
- Ability to read consistently with increased understanding simple, connected texts dealing with a variety of basic and social needs.

SPAN 205 : University Spanish 3. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Four years of high school Spanish, Span 106, or placement by test.

DESCRIPTION: Continued development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain an *Intermediate-High* proficiency level.

NOTE: Fulfills the University Core Languages of Learning requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Consolidate the student's understanding of the basic structures of the Spanish language and demonstrate intermediate proficiency in Spanish as defined by the American Council on the Teaching of Foreign Languages (ACTFL) proficiency guidelines for reading, writing, speaking, and listening.
- Provide students with a moderate knowledge of the Spanish language and cultures, thus broadening their perception of humanity and its varied manifestations.
- Interpret and analyze a selection of literary works in Spanish within their historical and cultural context.

SPAN 206 : University Spanish 4. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Spanish 205 or placement by test.

DESCRIPTION: Expanded development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain a strong *Intermediate-High* or *Advanced-Low* proficiency level.

**Course Outcomes**

- Consolidate the student's command of the basic structures of the Spanish language.
- Develop literacy and oral language skills at the intermediate-advanced range.

- Obtain an adequate knowledge of the Spanish language and cultures through the study of selected perceptions and manifestations.
- Understanding the natural speech of native speakers from any Spanish-speaking country and interpret the general idea in their proper cultural background.

**Note 1:** Students with foreign residence experience usually begin with Span 321.

**Note 2:** Prerequisite courses may be waived for those having sufficient proficiency with the language.

5. Complete the following:

SPAN 321 : Third-Year Spanish Reading, Grammar, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Placement by test.
DESCRIPTION: Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.
NOTE: First class for returned Spanish-speaking missionaries. Fullfills the University Core Languages of Learning requirement. Required for Spanish major and minor.

**Course Outcomes**

There are no course outcomes available

SPAN 329 : Survey of Hispanic Linguistics. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer, Contact Department
PREREQUISITE: SPAN 321
DESCRIPTION: Introduction to linguistics of Spanish: phonetics, phonology, morphology, syntax, semantics, history of the Spanish language, philology, dialectology, sociolinguistics, and psycholinguistics.

**Course Outcomes**

- The objective of this course is to introduce students to the basic fields of linguistic study within the Hispanic context. Students should be able to identify and explain issues of phonetics, phonology, morphology, syntax, semantics, and types of variation as found in oral and written language.

SPAN 339 : Introduction to Spanish Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Readings in modern Hispanic literatures, focusing on formal literary analysis.
NOTE: Course is prerequisite to 400-level literature courses.

**Course Outcomes**

- Demonstrate a working knowledge of the most salient elements of the most important literary genres, including, for example, short story, novel, poetry, theater, essay, and film.
- Students will demonstrate a mastery of basic tools of literary analysis, including versification and basic elements of narratology, and interpretation through the study of a variety of works from authors from Spain and Spanish America.
- Students will write cogent, persuasive essays of literary interpretation.
- Students will demonstrate the ability to speak and write in Spanish about literature with a reasonable degree of grammatical correctness and fluency.

SPAN 441 : Survey of Spanish Literature. (3:3:0)

OFFERED: Independent Study also.
WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: SPAN 339
DESCRIPTION: Literary masterpieces of Spain.

**Course Outcomes**

There are no course outcomes available

SPAN 451 : Survey of Hispanic-American Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department
PREREQUISITE: SPAN 339
DESCRIPTION: Literary masterpieces of Spanish America.

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, literary theory as well as other critical and philosophical concepts which may apply to Spanish American literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Define and recognize the periods, significant authors, schools or movements of Spanish American literature.
- Recognize and value the contributions, past and present, of Spanish American literature to the cultures of its respective countries.
- Develop the habits and skills of lifelong readers of Spanish American literature.
- Demonstrate and apply a strong understanding of the basic structures of the Spanish language as they apply to literature.
- Write analytical and descriptive essays in Spanish that demonstrate an advanced knowledge of the works studied, a proper command of the Spanish language, mastery of the tools of literary criticism,

and familiarity with research methodologies.

SPAN 493 : Capstone Course in Spanish. (1:1:0)

WHEN TAUGHT: Contact Department. Fall; Winter; Summer

PREREQUISITE: Senior status or departmental advisor's consent.

DESCRIPTION: A culminating experience for Spanish as a first or second major. Students will be able to articulate the value of the Spanish BA and will develop strategies and a rationale for applying the skills acquired during their undergraduate studies.

NOTE: Course must be taken concurrently with an approved upper-division, senior-level (e.g. 400-level) course in the semester prior to graduation.

**Course Outcomes**

- Students will be able to articulate the value of the Spanish and Portuguese BA.
- Students will develop strategies and a rationale for applying the skills acquired during their undergraduate studies in all aspects of their future lives.

6. Complete one course from the following:

SPAN 345 : Iberian Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department

PREREQUISITE: Span 321 or concurrent enrollment.

DESCRIPTION: Culture, history, art, music, and traditions of Spain.

**Course Outcomes**

- Students will be able to describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe and analyze historical periods and current events (e.g., political, social, artistic, and religious developments).
- Recognize and describe important cultural products (e.g., art, literature, architecture, and music, including important works and individuals), cultural institutions (e.g., family, religion, education, and government), and cultural practices (e.g., customs related to birth, marriage, death, holidays, and traditions).
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

SPAN 355 : Spanish American Culture and Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department

PREREQUISITE: Span 321 or concurrent enrollment.

DESCRIPTION: Culture, history, art, music, and traditions of Spanish America.

**Course Outcomes**

There are no course outcomes available

7. Complete 18 hours from the following:

Complete at least one linguistics course from the following:

SPAN 326 : Spanish Phonetics and Pronunciation. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: SPAN 321

DESCRIPTION: Spanish sound system; underlying concepts of Spanish speech production and applications to pronunciation.

**Course Outcomes**

- Students who successfully complete this class will:Understand the basic concepts of articulatory phonetics and phonology;
- Understand how the sounds of standard Spanish are pronounced;
- Be able to transcribe phonetically both oral and written texts in Spanish;

SPAN 421 : Fourth-Year Grammar. (3:3:0)

WHEN TAUGHT: Contact Department. Fall

PREREQUISITE: SPAN 321

DESCRIPTION: Fourth-year study of Spanish grammar and usage.

**Course Outcomes**

- Recognize stylistic errors in Spanish composition and acquire the necessary strategies for their correction.
- Improve the knowledge of syntactic structures of Spanish.
- Enrich passive and active vocabularies of Spanish.
- Demonstrate competence in writing short essays in Spanish that conform to the "advanced" level as described in the ACTFL proficiency guidelines.
- Improve listening comprehension of authentic Spanish sources.

SPAN 423 : Border Spanish. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Span 326 or Span 329.

DESCRIPTION: Mexican-American speech patterns, including language contact and bilingualism.

NOTE: Previous course in linguistics strongly recommended.

**Course Outcomes**

- Students will demonstrate a knowledge of principal features of (Mexican-American) Popular Spanish in terms of semantics, morphosyntax, and phonetics/phonology.
- Students will understand and be able to describe succinctly S-E bilingual contact phenomena, such as borrowing, code-switching, and language maintenance/shift.
- Students will gain a greater understanding of and appreciation for Mexicans and Mexican-Americans living in the U.S.

SPAN 425 : Contrastive Analysis of the Structures of Spanish and English. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Span 326 or Span 329.

DESCRIPTION: Contrastive analysis of phonology, morphology, syntax, and semantics of Spanish and English.

**Course Outcomes**

- Students will be able to explain the chief differences and similarities between the structures of the English and Spanish languages.
- Learn the basic principles of Spanish phonology, morphology (both derivational and inflectional), syntax and sociolinguistics.
- Learn what the assumptions of modern linguistics are (e.g., natural language is based on the use of signs; language is a social phenomenon; oral language takes precedence over written language; linguistics is descriptive, not prescriptive; variation is intrinsic to language; language is highly structured; there are linguistic universals; etc.)
- Be able to solve linguistic problems in the teaching and learning of a second language.

SPAN 429R : Special Topics in Spanish Linguistics. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 326; or SPAN 329

DESCRIPTION: Course content varies yearly; focuses on specific area of linguistics such as dialectology or sociolinguistics.

**Course Outcomes**

There are no course outcomes available

: Dialectology.

**Course Outcomes**

: Sociolinguistics.

**Course Outcomes**

: Language Planning.

**Course Outcomes**

: Bilingualism.

**Course Outcomes**

: Syntax.

**Course Outcomes**

: Semantics.

**Course Outcomes**

SPAN 520 : Problems in Spanish Grammar. (3:3:0)

WHEN TAUGHT: Winter Odd Yrs., Contact Department; Spring Contact Department; Summer Even Yrs.

PREREQUISITE: SPAN 326; or SPAN 329

DESCRIPTION: Application of contemporary grammatical concepts to problems in Spanish grammar.

**Course Outcomes**

- The student enrolled in Problems in Spanish Grammar will carefully examine and formulate more accurate and complete rules for several recalcitrant grammar “problems” by reading and studying selections from grammarians and researchers who provide insights into the problem in question. The student’s ability to synthesize coherent and meaningful generalizations will be objectively tested by exams and further evaluated while he or she participates in classroom discussion.
- The student enrolled in Problems in Spanish Grammar will acquire a greater understanding of both descriptive and prescriptive grammars and their function and limitations. The student will also acquire specialized terms employed by grammarians and morphosyntacticians. The student’s ability to understand and use these terms appropriately will also be objectively measured by examination.
- Complete a research paper/presentation on a particular grammar point or construction. This assignment will test a student’s ability to locate appropriate refereed sources, read and synthesize them and prepare a written document and oral presentation according to a

recognized style manual.

SPAN 521 : Romance Philology. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 326; or SPAN 329

DESCRIPTION: Comparative study of the evolution of Latin into modern Romance languages.

**Course Outcomes**

- Situate Latin and the Romance Languages in their "external" (i.e. political and literary) historical context.
- Recognize the "laws" of regular phonological evolution (e.g. syncope, lenition, diphthongization, etc.).
- Compare the "major" (i.e. literary) Romance languages as far as their phonological development is concerned.
- Summarize the major lexical differences across Romance languages and some of the basic principles of etymology.
- Become familiar with articles published in professional journals relating to the subject matter and produce accurate and meaningful written summaries and reactions to them.
- Learn the rudiments of transcribing medieval or Renaissance manuscripts.

SPAN 522 : History of the Spanish Language. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.; Summer Odd Yrs.

PREREQUISITE: SPAN 326; or SPAN 329

DESCRIPTION: Linguistic sources that contributed to formation of the Spanish language.

**Course Outcomes**

- Acquire a basic knowledge of the changes undergone by the nominal and verbal systems of Latin and Castilian (e.g. the demise of the case system, the development of new verbal tenses, etc.).
- Demonstrate the ability to summarize and discuss in a clear and concise manner several scholarly articles on the topic of the history of the Spanish language.
- Situate Latin and Castilian in their political and literary historical contexts.
- Recognize the laws of regular phonological development (e.g. syncope, lenition, diphthongization, etc.).
- Identify the sources of the Castilian lexicon.
- Understand the different theories that claim to understand the relation between Latin and the Romance languages, especially the relation between Latin and Castilian.
- Understand the process of linguistic standardization in Romance and its implications for the linguistic map of the Iberian Peninsula.

SPAN 529R : Special Topics in Spanish Linguistics. (3:3:0)

WHEN TAUGHT: Contact Department. Fall

PREREQUISITE: SPAN 326; or SPAN 329

DESCRIPTION: Topics include semantics, dialectology, and sociolinguistics.

**Course Outcomes**

- Read and analyze research articles related to special topic.
- Produce an original research paper/project centered on the theme of the seminar.

Complete at least one literature course from the following:

SPAN 440 : Medieval Spanish Literature. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

PREREQUISITE: SPAN 441

DESCRIPTION: Spanish literature from *El Cantar de Mio Cid* (1140) through *La Celestina* (1499).

**Course Outcomes**

There are no course outcomes available

SPAN 443R : Golden Age Literature. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.; Spring

PREREQUISITE: SPAN 441

DESCRIPTION: Sixteenth- and seventeenth-century Spanish literature.

**Course Outcomes**

- Students will be able to demonstrate knowledge about one or more authors from the 16th and/or 17th centuries.
- Students will be able to analyze the texts studied in terms of the historical, cultural, and literary context of the Early Modern world.
- Students will be able to describe, analyze and discuss one or more of the genres of Early Modern Spanish literature and the conventions connected with the genre(s).
- Students will strengthen their research and writing skills by producing essays about, editions of, and/or translations of 16th and 17th-century Spanish texts.
- Students will develop the skills necessary to appreciate and enjoy reading Early Modern Spanish texts.

SPAN 444 : *Don Quijote.* (3:3:0)

WHEN TAUGHT: Winter Odd Yrs.

PREREQUISITE: SPAN 441
DESCRIPTION: In-depth study of Cervantes' *El ingenioso hidalgo don Quijote de la Mancha*.

**Course Outcomes**

- Students will read Don Quijote de la Mancha in its original version, taking into account plot and character development, symbolism, cultural and literary context, literary antecedents, and subsequent influence.
- Students will comment on different strategies for reading, writing and translating (using critical vocabulary) as discussed in the Quijote, and will explain the different critical stances, including the "hard" perspective and the "soft" perspective.
- Students will trace the stylistic innovations introduced by Cervantes in the Quijote, and its intersections with other genres (e.g. theater, poetry).
- Students willanswer the question of whether el Quijote really is the first modern novel as many claim it to be. Students will identify and analyze episodes in the novel that display realism and metafiction, and will recognize the impact the Quijote has had on the development of these modes in the subsequent development of the western novel.

SPAN 446R : Nineteenth-Century Literature. (3:3:0)
WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 441
DESCRIPTION: Romanticism (1770s through 1870s) and/or the novels of Benito Perez Galdos and his contemporaries.

**Course Outcomes**

There are no course outcomes available

SPAN 448R : Twentieth-Century Spanish Literature. (3:3:0)
WHEN TAUGHT: Winter Even Yrs.
PREREQUISITE: SPAN 441
DESCRIPTION: Genre (twentieth-century novel, drama, or poetry) or particular school (Generation of 1898, Generation of 1927, etc.) emphasized.

**Course Outcomes**

- Demonstrate thorough understanding of twentieth-century Spanish literary history.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.).
- Develop advanced skills in research techniques and academic writing.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to 20th-century Spanish Literature.

SPAN 449R : Special Topics in Spanish Literature. (3:3:0)
WHEN TAUGHT: Contact Department. ; Summer Even Yrs.
PREREQUISITE: SPAN 441
DESCRIPTION: Specific topics in Spanish (peninsular) literature. Course content will vary each semester to offer optimum exposure to all areas of Spanish literature.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Spanish, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Spanish literary study that inspire continued learning.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to special topics in Spanish Literature.

SPAN 450R : Early Spanish-American Literature. (3:3:0)
WHEN TAUGHT: Contact Department. ; Winter Even Yrs.
PREREQUISITE: SPAN 451
DESCRIPTION: Indigenous literature (Maya, Nahuatl, etc.) and other texts written in Spanish Colonial America through eighteenth century.

**Course Outcomes**

- Apply a variety of analytical and theoretical approaches to the study of early Spanish American writings as literature and as a reflection of the early cultures of the Spanish-speaking countries of the Americas.
- Demonstrate an ability to critically analyze early Spanish American literature through insightful in-class participation, oral presentations, and written assignments.
- Demonstrate a strong knowledge of a broad range of the important literary and historical texts of the early Spanish American period and of the historical and cultural contexts in which they were produced.

SPAN 454R : The Spanish American Novel. (3:3:0)
WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 451

DESCRIPTION: Selected Spanish-American novelists such as Juan Rulfo, Gabriel Garcia Marquez, Alejo Carpentier, Mario Vargas-Llosa, etc.

**Course Outcomes**

There are no course outcomes available

SPAN 455R : Spanish-American Poetry. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Selected Spanish-American poets, movements, and national traditions.

**Course Outcomes**

- Demonstrate critical acuity in interpreting individual poems, making appropriate reference to formal poetic devices.
- Demonstrate a grasp of the historical, social, and literary contexts of the poems and poets studied.
- Express one's insights in a research paper which makes appropriate use of secondary sources.

SPAN 456R : Spanish American Drama. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Twentieth-century theatre from Spanish America and Brazil.

**Course Outcomes**

There are no course outcomes available

SPAN 458R : Hispanic-American Short Story. (3:3:0)

WHEN TAUGHT: Contact Department. Fall Odd Yrs.

PREREQUISITE: SPAN 451

DESCRIPTION: Introduction and development of an important literary genre in Spanish America, including works of Jorge Luis Borges, Julio Cortazar, Juan Rulfo, Gabriel Garcia Marquez, etc.

**Course Outcomes**

- Master basic bibliographical techniques related to the short story genre.
- Demonstrate a firm grasp of the formal aspects of the short story genre.
- Gain a working knowledge of the history and principal figures of the Spanish American short story.

SPAN 459R : Special Topics in Spanish American Literature. (3:3:0)

WHEN TAUGHT: Contact Department. ; Spring Even Yrs.

PREREQUISITE: SPAN 451

DESCRIPTION: Specific topics in Latin American literature. Course content will vary each semester to offer optimum exposure to all areas of Latin American literature.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Spanish, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Spanish literary study that inspire continued learning.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to special topics in Spanish-American Literature.

SPAN 461 : Spanish-Speaking American (Mexican-American) Literature. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Even Yrs.; Spring Contact Department; Summer Contact Department

PREREQUISITE: SPAN 451

DESCRIPTION: Spanish-English literature of the Mexican-American within the United States.

**Course Outcomes**

- Demonstrate thorough understanding of the history of Mexican-American literary history.
- Develop advanced skills in research techniques and academic writing.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Mexican-American Literature.

Complete four additional courses (12 hours) from the linguistics or literature electives above or from the following (Span 345 and 355 will not double-count):

SPAN 322 : Third-Year Spanish Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department

PREREQUISITE: SPAN 321

DESCRIPTION: Study and practice of different writing styles, developing research skills.

NOTE: Strongly recommended for students continuing on to a graduate program.

**Course Outcomes**

- Demonstrate competence in writing a variety of genre types in Spanish that conform to the "advanced" level as described in the ACTFL proficiency guidelines.

SPAN 345 : Iberian Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spain.

**Course Outcomes**

- Students will be able to describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe and analyze historical periods and current events (e.g., political, social, artistic, and religious developments).
- Recognize and describe important cultural products (e.g., art, literature, architecture, and music, including important works and individuals), cultural institutions (e.g., family, religion, education, and government), and cultural practices (e.g., customs related to birth, marriage, death, holidays, and traditions).
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

SPAN 346R : Special Topics in Iberian Culture. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 321
DESCRIPTION: An in-depth examination of some aspect of Iberian culture and civilization. Subject matter will vary. This course is recommended for those individuals who may already have a broad exposure to the culture and civilization of Spain and/or those who desire a more focused cultural experience.

**Course Outcomes**

No outcomes are available at this time.

SPAN 355 : Spanish American Culture and Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spanish America.

**Course Outcomes**

There are no course outcomes available

SPAN 356R : Special Topics in Spanish American Culture. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 321
DESCRIPTION: An in-depth examination of some aspect of Spanish American culture and civilization. Subject matter will vary. This course is recommended for those individuals who may already have a broad exposure to the culture and civilization of the Spanish-speaking countries of the Americas and/or those who desire a more focused cultural experience.

**Course Outcomes**

There are no course outcomes available

SPAN 365 : Mexican-American Culture. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Contemporary culture (education, popular and fine arts, worldview, attitudes, etc.) of the Mexican-American in the U.S.

**Course Outcomes**

- Recognize and describe important cultural products, such as art, literature, architecture, and music, including important works and individuals, as pertaining to Mexican American culture.
- Describe important cultural institutions, including family and religion.
- Discuss important cultural practices, including customs, traditions, celebrations, festivals, etc
- Analyze recent cultural and social developments, including political, social, religious, and artistic events, placing them in historical context.
- Students should be able to recognize, compare, and evaluate the influence of their own cultural background on their attitudes, beliefs, and worldview, in relation to the Mexican- American world.

SPAN 395R : Contemporary Culture. (.5-3:ARR:ARR)

WHEN TAUGHT: Contact Department.
DESCRIPTION: Contemporary Spanish (or Spanish- American) culture: the people and their customs and institutions.
NOTE: For Study Abroad programs only.

**Course Outcomes**

- Through a series of cultural proofs (visits, interviews, observations), develop a familiarity with the host culture at the level of the individual.
- Through readings, develop a familiarity with macro forces (historical, political, economical) that have shaped the host culture.

SPAN 430R : Special Topics in Hispanic Culture. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Regional and thematic approaches to Hispanic culture. Subject matter will vary.

**Course Outcomes**

There are no course outcomes available

SPAN 438 : Hispanic Cinema. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 339
DESCRIPTION: Introduction to study of film; background in appreciating best of motion picture art in Spain and Spanish America.
NOTE: Previous experience with film useful but not required.

**Course Outcomes**

- Students will demonstrate a mastery of basic tools of film analysis through the study of a variety of films from the various film industries from Spain and Spanish America.
- Students will write cogent, persuasive essays of literary interpretation.
- Students will demonstate the ability to speak and write in Spanish about film with a reasonable degree of grammatical correctness and fluency.

SPAN 439R : Hispanic Theatre Production. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Director's consent
DESCRIPTION: Theory and practice of dramatic performance. Includes participation in play to be performed during semester.
NOTE: No more than 3 hours of 439R credit may count toward any degree.

**Course Outcomes**

There are no course outcomes available

SPAN 477 : Techniques of Spanish Instruction. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: SPAN 321 & SPAN 326 & SPAN 345; or SPAN 321 & SPAN 326 & SPAN 355
DESCRIPTION: Techniques for teaching the four language skills and grammar, vocabulary, and culture; use of technology; assessing language achievement.
NOTE: For students not enrolled in Spanish teaching major or minor.

**Course Outcomes**

- Discuss basic theories of language teaching and learning.
- Plan Standards-based units and lessons, aligning assessments with learning objectives.
- Teach beginning-level vocabulary, grammar, culture, and the four skills (speaking, listening, reading, writing).
- Assess students' language and culture learning.

SPAN 480R : Directed Research in Spanish. (.5-3:ARR:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: Written proposal subject to department approval.
DESCRIPTION: Under faculty member's direction, designing and conducting research project covering material not normally presented in regular course work. Research paper required.
NOTE: Total Span 480R credit toward bachelor's degree not to exceed 3 hours.

**Course Outcomes**

- Conduct advanced, independent research on a topic in Hispanic studies.

SPAN 490 : Senior Seminar in Spanish. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Senior standing.
DESCRIPTION: Bibliography, research, and writing of senior thesis.
NOTE: Recommended for students planning graduate studies in Spanish.

**Course Outcomes**

There are no course outcomes available

SPAN 599R : Academic Internship: Spanish Internship. (.5-3:0:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 321
NOTE: For supervised internship credit on BYU Study Abroad programs only.

**Course Outcomes**

- Successfully complete internship in a Spanish speaking country.

8. Complete the following:

SPAN 491 : Senior Proficiency Evaluation. (0:1:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Tool course to meet oral proficiency requirement for all majors and teaching minors.
NOTE: No major or minor credit.

**Course Outcomes**

- Receive an Advanced Low or better on the Oral Proficiency Interview.

**Note:** The Senior Proficiency Evaluation is taken in connection with Span 491. It is expected that Spanish majors will pass with a rating of *advanced-low* or higher.

*Hours include courses that may fulfill university core requirements.

- Understand common basic cultural practices and products related to greetings and family life in some Spanish-speaking countries.

SPAN 102 : Foundational Spanish 2. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Span 101.

DESCRIPTION: Continuation of Span 101. Fundamentals of Spanish, emphasizing communication. (Accelerated sections available.) Pass/fail only.

**Course Outcomes**

- Using Spanish, participate in simple, directconversations on generallypredictable topics related todaily activities and personalenvironment.
- Create with the languageand communicate personalmeaning to sympatheticinterlocutors by combininglanguage elements in dis-crete sentences and stringsof sentences.
- Obtain and give informationby asking and answeringquestions.
- Sustain and bring to a closea number of basic, uncom-plicated communicativeexchanges, mostly in a reac-tive mode.
- Satisfy simple personalneeds and social demandsto survive in the target lan-guage culture.
- Respond in written Spanish at the same level as indicated in preceding objectives related to spoken Spanish.
- Understand common basic cultural practices and products related to travel in some Spanish-speaking countries.

SPAN 105 : University Spanish 1. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Two years of high school Spanish or Span 101/102 or placement by diagnostic test.

DESCRIPTION: Continued development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational courses. Students are expected to attain an *Intermediate-Mid* proficiency level.

**Course Outcomes**

- Use Spanish to maintain simple verbal conversations on everyday topics.
- Communicate using paragraph level discourse in writing.
- Be understood by sympathetic native speakers despite occasional misunderstandings.
- Describe and narrate in the past present and future a portion of the time.
- Understand that hispanic culture is vast and diverse.
- Demonstrate understanding of and appreciation for Hispanic cultures.

SPAN 106 : University Spanish 2. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Span 105.
DESCRIPTION: Expanded development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational and intermediate courses. Students are expected to attain an *Intermediate-Mid* to *Intermediate-High* proficiency level.

**Course Outcomes**

- Use Spanish to maintain simple verbal conversations on everyday topics.
- Communicate using paragraph level discourse in writing.
- Be understood by sympathetic native speakers despite occasional misunderstandings.
- Describe and narrate in the past present and future a portion of the time.
- Understand that hispanic culture is vast and diverse.
- Demonstrate understanding of and appreciation for Hispanic cultures.

SPAN 111R : Spanish Conversation 1. (2:2.5:1)
RECOMMENDED: Concurrent enrollment in Span 105.
DESCRIPTION: Development of conversation skills in Spanish.

**Course Outcomes**

- Communicate orally in Spanish in specific speaking situations at the interpersonal level, which may include various personal or social situations.
- Understand main ideas and some facts from interactive exchanges and aural texts.
- Demonstrate awareness of cultures and backgrounds other than the student's own.
- Present orally to an audience a topic related to Hispanic cultural products, practices and events.
- Ability to read consistently with increased understanding simple, connected texts dealing with a variety of basic and social needs.

SPAN 112R : Spanish Conversation 2. (2:2.5:1)
RECOMMENDED: Concurrent enrollment in Span 106.
DESCRIPTION: Continued development of conversation skills in Spanish.

**Course Outcomes**

- Communicate orally in Spanish in specific speaking situations at the interpersonal level, which may include various personal or social situations.
- Understand main ideas and some facts from interactive exchanges and aural texts.
- Demonstrate awareness of cultures and backgrounds other than the student's own
- Present orally to an audience a topic related to Hispanic cultural products, practices and events.
- Ability to read consistently with increased understanding simple, connected texts dealing with a variety of basic and social needs.

SPAN 205 : University Spanish 3. (4:5:1)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Four years of high school Spanish, Span 106, or placement by test.
DESCRIPTION: Continued development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain an *Intermediate-High* proficiency level.
NOTE: Fulfills the University Core Languages of Learning requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Consolidate the student's understanding of the basic structures of the Spanish language and demonstrate intermediate proficiency in Spanish as defined by the American Council on the Teaching of Foreign Languages (ACTFL) proficiency guidelines for reading, writing, speaking, and listening.
- Provide students with a moderate knowledge of the Spanish language and cultures, thus broadening their perception of humanity and its varied manifestations.
- Interpret and analyze a selection of literary works in Spanish within their historical and cultural context.

SPAN 206 : University Spanish 4. (4:5:1)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Spanish 205 or placement by test.
DESCRIPTION: Expanded development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain a strong *Intermediate-High* or *Advanced-Low* proficiency level.

**Course Outcomes**

- Consolidate the student's command of the basic structures of the Spanish language.
- Develop literacy and oral language skills at the intermediate-advanced range.
- Obtain an adequate knowledge of the Spanish language and cultures through the study of selected perceptions and manifestations.
- Understanding the natural speech of native speakers from any Spanish-speaking country and interpret the general idea in their proper cultural background.

**Note 1:** Students with foreign residence experience usually begin with Span 321.

**Note 2:** Prerequisite courses may be waived for those having sufficient proficiency with the language.

3. Complete the following core courses:
   SPAN 321 : Third-Year Spanish Reading, Grammar, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Placement by test.
DESCRIPTION: Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.
NOTE: First class for returned Spanish-speaking missionaries. Fullfills the University Core Languages of Learning requirement. Required for Spanish major and minor.

**Course Outcomes**

There are no course outcomes available

SPAN 329 : Survey of Hispanic Linguistics. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer, Contact Department
PREREQUISITE: SPAN 321
DESCRIPTION: Introduction to linguistics of Spanish: phonetics, phonology, morphology, syntax, semantics, history of the Spanish language, philology, dialectology, sociolinguistics, and psycholinguistics.

**Course Outcomes**

- The objective of this course is to introduce students to the basic fields of linguistic study within the Hispanic context. Students should be able to identify and explain issues of phonetics, phonology, morphology, syntax, semantics, and types of variation as found in oral and written language.

SPAN 339 : Introduction to Spanish Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Readings in modern Hispanic literatures, focusing on formal literary analysis.
NOTE: Course is prerequisite to 400-level literature courses.

**Course Outcomes**

- Demonstrate a working knowledge of the most salient elements of the most important literary genres, including, for example, short story, novel, poetry, theater, essay, and film.
- Students will demonstrate a mastery of basic tools of literary analysis, including versification and basic elements of narratology, and interpretation through the study of a variety of works from authors from Spain and Spanish America.
- Students will write cogent, persuasive essays of literary interpretation.
- Students will demonstrate the ability to speak and write in Spanish about literature with a reasonable degree of grammatical correctness and fluency.

4. Complete one course from the following:

SPAN 345 : Iberian Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spain.

**Course Outcomes**

- Students will be able to describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe and analyze historical periods and current events (e.g., political, social, artistic, and religious developments).
- Recognize and describe important cultural products (e.g., art, literature, architecture, and music, including important works and individuals), cultural institutions (e.g., family, religion, education, and government), and cultural practices (e.g., customs related to birth, marriage, death, holidays, and traditions).
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

SPAN 355 : Spanish American Culture and Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spanish America.

**Course Outcomes**

There are no course outcomes available

5. Complete one course from the following:

SPAN 441 : Survey of Spanish Literature. (3:3:0)

OFFERED: Independent Study also.
WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: SPAN 339
DESCRIPTION: Literary masterpieces of Spain.

**Course Outcomes**

There are no course outcomes available

SPAN 451 : Survey of Hispanic-American Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department

PREREQUISITE: SPAN 339

DESCRIPTION: Literary masterpieces of Spanish America.

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, literary theory as well as other critical and philosophical concepts which may apply to Spanish American literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Define and recognize the periods, significant authors, schools or movements of Spanish American literature.
- Recognize and value the contributions, past and present, of Spanish American literature to the cultures of its respective countries.
- Develop the habits and skills of lifelong readers of Spanish American literature.
- Demonstrate and apply a strong understanding of the basic structures of the Spanish language as they apply to literature.
- Write analytical and descriptive essays in Spanish that demonstrate an advanced knowledge of the works studied, a proper command of the Spanish language, mastery of the tools of literary criticism, and familiarity with research methodologies.

6. Complete the following:

SPAN 414 : Introduction to Translation for Second Majors. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: SPAN 321

DESCRIPTION: Readings, individual research projects, and group translation activities. How the translation profession works. Developing the ability to translate general financial and legal texts. Learning to read texts critically.

**Course Outcomes**

- Explain and apply methods for resolving common translation problems.
- Demonstrate the ability to evalute translation quality.
- Demonstrate understanding of the translation industry.

SPAN 493 : Capstone Course in Spanish. (1:1:0)

WHEN TAUGHT: Contact Department. Fall; Winter; Summer

PREREQUISITE: Senior status or departmental advisor's consent.

DESCRIPTION: A culminating experience for Spanish as a first or second major. Students will be able to articulate the value of the Spanish BA and will develop strategies and a rationale for applying the skills acquired during their undergraduate studies.

NOTE: Course must be taken concurrently with an approved upper-division, senior-level (e.g. 400-level) course in the semester prior to graduation.

**Course Outcomes**

- Students will be able to articulate the value of the Spanish and Portuguese BA.
- Students will develop strategies and a rationale for applying the skills acquired during their undergraduate studies in all aspects of their future lives.

7. Complete one of the following:

SPAN 322 : Third-Year Spanish Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department

PREREQUISITE: SPAN 321

DESCRIPTION: Study and practice of different writing styles, developing research skills.

NOTE: Strongly recommended for students continuing on to a graduate program.

**Course Outcomes**

- Demonstrate competence in writing a variety of genre types in Spanish that conform to the "advanced" level as described in the ACTFL proficiency guidelines.

SPAN 323R : Spanish for the Professions. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: SPAN 321

DESCRIPTION: Introduction to professional terminology, documentation, and correspondence.

**Course Outcomes**

- Discuss in general terms the economic and political realities of Spanish-speaking countries and regions (including the U.S.) and their impact on national and international business.
- Identify social and business-related cultural patterns in Spanish-speaking cultures and compare them with those of English-speaking cultures.
- Locate information on Spanish-speaking job opportunities in various professions and the necessary qualifications for each.
- Acquire a specialized Spanish working vocabulary in at least one profession.
- Write business letters, CVs, and other types of professional documents using appropriate writing conventions, register, and vocabulary.

8. Complete 3 additional hours from the following:

SPAN 322 : Third-Year Spanish Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: SPAN 321
DESCRIPTION: Study and practice of different writing styles, developing research skills.
NOTE: Strongly recommended for students continuing on to a graduate program.

**Course Outcomes**

- Demonstrate competence in writing a variety of genre types in Spanish that conform to the "advanced" level as described in the ACTFL proficiency guidelines.

SPAN 323R : Spanish for the Professions. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: SPAN 321
DESCRIPTION: Introduction to professional terminology, documentation, and correspondence.

**Course Outcomes**

- Discuss in general terms the economic and political realities of Spanish-speaking countries and regions (including the U.S.) and their impact on national and international business.
- Identify social and business-related cultural patterns in Spanish-speaking cultures and compare them with those of English-speaking cultures.
- Locate information on Spanish-speaking job opportunities in various professions and the necessary qualifications for each.
- Acquire a specialized Spanish working vocabulary in at least one profession.
- Write business letters, CVs, and other types of professional documents using appropriate writing conventions, register, and vocabulary.

SPAN 326 : Spanish Phonetics and Pronunciation. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: SPAN 321
DESCRIPTION: Spanish sound system; underlying concepts of Spanish speech production and applications to pronunciation.

**Course Outcomes**

- Students who successfully complete this class will:Understand the basic concepts of articulatory phonetics and phonology;
- Understand how the sounds of standard Spanish are pronounced;
- Be able to transcribe phonetically both oral and written texts in Spanish;

SPAN 345 : Iberian Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spain.

**Course Outcomes**

- Students will be able to describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe and analyze historical periods and current events (e.g., political, social, artistic, and religious developments).
- Recognize and describe important cultural products (e.g., art, literature, architecture, and music, including important works and individuals), cultural institutions (e.g., family, religion, education, and government), and cultural practices (e.g., customs related to birth, marriage, death, holidays, and traditions).
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

SPAN 346R : Special Topics in Iberian Culture. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 321
DESCRIPTION: An in-depth examination of some aspect of Iberian culture and civilization. Subject matter will vary. This course is recommended for those individuals who may already have a broad exposure to the culture and civilization of Spain and/or those who desire a more focused cultural experience.

**Course Outcomes**

No outcomes are available at this time.

SPAN 355 : Spanish American Culture and Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spanish America.

**Course Outcomes**

There are no course outcomes available

SPAN 356R : Special Topics in Spanish American Culture. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 321

DESCRIPTION: An in-depth examination of some aspect of Spanish American culture and civilization. Subject matter will vary. This course is recommended for those individuals who may already have a broad exposure to the culture and civilization of the Spanish-speaking countries of the Americas and/or those who desire a more focused cultural experience.

**Course Outcomes**

There are no course outcomes available

SPAN 365 : Mexican-American Culture. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Span 321 or concurrent enrollment.

DESCRIPTION: Contemporary culture (education, popular and fine arts, worldview, attitudes, etc.) of the Mexican-American in the U.S.

**Course Outcomes**

- Recognize and describe important cultural products, such as art, literature, architecture, and music, including important works and individuals, as pertaining to Mexican American culture.
- Describe important cultural institutions, including family and religion.
- Discuss important cultural practices, including customs, traditions, celebrations, festivals, etc
- Analyze recent cultural and social developments, including political, social, religious, and artistic events, placing them in historical context.
- Students should be able to recognize, compare, and evaluate the influence of their own cultural background on their attitudes, beliefs, and worldview, in relation to the Mexican- American world.

SPAN 395R : Contemporary Culture. (.5-3:ARR:ARR)

WHEN TAUGHT: Contact Department.

DESCRIPTION: Contemporary Spanish (or Spanish- American) culture: the people and their customs and institutions.

NOTE: For Study Abroad programs only.

**Course Outcomes**

- Through a series of cultural proofs (visits, interviews, observations), develop a familiarity with the host culture at the level of the individual.
- Through readings, develop a familiarity with macro forces (historical, political, economical) that have shaped the host culture.

SPAN 421 : Fourth-Year Grammar. (3:3:0)

WHEN TAUGHT: Contact Department. Fall

PREREQUISITE: SPAN 321

DESCRIPTION: Fourth-year study of Spanish grammar and usage.

**Course Outcomes**

- Recognize stylistic errors in Spanish composition and acquire the necessary strategies for their correction.
- Improve the knowledge of syntactic structures of Spanish.
- Enrich passive and active vocabularies of Spanish.
- Demonstrate competence in writing short essays in Spanish that conform to the "advanced" level as described in the ACTFL proficiency guidelines.
- Improve listening comprehension of authentic Spanish sources.

SPAN 423 : Border Spanish. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Span 326 or Span 329.

DESCRIPTION: Mexican-American speech patterns, including language contact and bilingualism.

NOTE: Previous course in linguistics strongly recommended.

**Course Outcomes**

- Students will demonstrate a knowledge of principal features of (Mexican-American) Popular Spanish in terms of semantics, morphosyntax, and phonetics/phonology.
- Students will understand and be able to describe succinctly S-E bilingual contact phenomena, such as borrowing, code-switching, and language maintenance/shift.
- Students will gain a greater understanding of and appreciation for Mexicans and Mexican-Americans living in the U.S.

SPAN 425 : Contrastive Analysis of the Structures of Spanish and English. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Span 326 or Span 329.

DESCRIPTION: Contrastive analysis of phonology, morphology, syntax, and semantics of Spanish and English.

**Course Outcomes**

- Students will be able to explain the chief differences and similarities between the structures of the English and Spanish languages.

- Learn the basic principles of Spanish phonology, morphology (both derivational and inflectional), syntax and sociolinguistics.
- Learn what the assumptions of modern linguistics are (e.g., natural language is based on the use of signs; language is a social phenomenon; oral language takes precedence over written language; linguistics is descriptive, not prescriptive; variation is intrinsic to language; language is highly structured; there are linguistic universals; etc.)
- Be able to solve linguistic problems in the teaching and learning of a second language.

SPAN 429R : Special Topics in Spanish Linguistics. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 326; or SPAN 329
DESCRIPTION: Course content varies yearly; focuses on specific area of linguistics such as dialectology or sociolinguistics.

**Course Outcomes**

There are no course outcomes available

: Dialectology.

**Course Outcomes**

: Sociolinguistics.

**Course Outcomes**

: Language Planning.

**Course Outcomes**

: Bilingualism.

**Course Outcomes**

: Syntax.

**Course Outcomes**

: Semantics.

**Course Outcomes**

SPAN 430R : Special Topics in Hispanic Culture. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Regional and thematic approaches to Hispanic culture. Subject matter will vary.

**Course Outcomes**

There are no course outcomes available

SPAN 438 : Hispanic Cinema. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 339
DESCRIPTION: Introduction to study of film; background in appreciating best of motion picture art in Spain and Spanish America.
NOTE: Previous experience with film useful but not required.

**Course Outcomes**

- Students will demonstrate a mastery of basic tools of film analysis through the study of a variety of films from the various film industries from Spain and Spanish America.
- Students will write cogent, persuasive essays of literary interpretation.
- Students will demonstate the ability to speak and write in Spanish about film with a reasonable degree of grammatical correctness and fluency.

SPAN 439R : Hispanic Theatre Production. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Director's consent
DESCRIPTION: Theory and practice of dramatic performance. Includes participation in play to be performed during semester.
NOTE: No more than 3 hours of 439R credit may count toward any degree.

**Course Outcomes**

There are no course outcomes available

SPAN 440 : Medieval Spanish Literature. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.
PREREQUISITE: SPAN 441

DESCRIPTION: Spanish literature from *El Cantar de Mio Cid* (1140) through *La Celestina* (1499).

**Course Outcomes**

There are no course outcomes available

SPAN 441 : Survey of Spanish Literature. (3:3:0)

OFFERED: Independent Study also.
WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: SPAN 339
DESCRIPTION: Literary masterpieces of Spain.

**Course Outcomes**

There are no course outcomes available

SPAN 443R : Golden Age Literature. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.; Spring
PREREQUISITE: SPAN 441
DESCRIPTION: Sixteenth- and seventeenth-century Spanish literature.

**Course Outcomes**

- Students will be able to demonstrate knowledge about one or more authors from the 16th and/or 17th centuries.
- Students will be able to analyze the texts studied in terms of the historical, cultural, and literary context of the Early Modern world.
- Students will be able to describe, analyze and discuss one or more of the genres of Early Modern Spanish literature and the conventions connected with the genre(s).
- Students will strengthen their research and writing skills by producing essays about, editions of, and/or translations of 16th and 17th-century Spanish texts.
- Students will develop the skills necessary to appreciate and enjoy reading Early Modern Spanish texts.

SPAN 444 : *Don Quijote.* (3:3:0)

WHEN TAUGHT: Winter Odd Yrs.
PREREQUISITE: SPAN 441
DESCRIPTION: In-depth study of Cervantes' *El ingenioso hidalgo don Quijote de la Mancha*.

**Course Outcomes**

- Students will read Don Quijote de la Mancha in its original version, taking into account plot and character development, symbolism, cultural and literary context, literary antecedents, and subsequent influence.
- Students will comment on different strategies for reading, writing and translating (using critical vocabulary) as discussed in the Quijote, and will explain the different critical stances, including the "hard" perspective and the "soft" perspective.
- Students will trace the stylistic innovations introduced by Cervantes in the Quijote, and its intersections with other genres (e.g. theater, poetry).
- Students willanswer the question of whether el Quijote really is the first modern novel as many claim it to be. Students will identify and analyze episodes in the novel that display realism and metafiction, and will recognize the impact the Quijote has had on the development of these modes in the subsequent development of the western novel.

SPAN 446R : Nineteenth-Century Literature. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 441
DESCRIPTION: Romanticism (1770s through 1870s) and/or the novels of Benito Perez Galdos and his contemporaries.

**Course Outcomes**

There are no course outcomes available

SPAN 448R : Twentieth-Century Spanish Literature. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.
PREREQUISITE: SPAN 441
DESCRIPTION: Genre (twentieth-century novel, drama, or poetry) or particular school (Generation of 1898, Generation of 1927, etc.) emphasized.

**Course Outcomes**

- Demonstrate thorough understanding of twentieth-century Spanish literary history.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.).
- Develop advanced skills in research techniques and academic writing.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to 20th-century Spanish Literature.

SPAN 449R : Special Topics in Spanish Literature. (3:3:0)

WHEN TAUGHT: Contact Department. ; Summer Even Yrs.
PREREQUISITE: SPAN 441

DESCRIPTION: Specific topics in Spanish (peninsular) literature. Course content will vary each semester to offer optimum exposure to all areas of Spanish literature.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Spanish, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Spanish literary study that inspire continued learning.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to special topics in Spanish Literature.

SPAN 450R : Early Spanish-American Literature. (3:3:0)

WHEN TAUGHT: Contact Department. ; Winter Even Yrs.

PREREQUISITE: SPAN 451

DESCRIPTION: Indigenous literature (Maya, Nahuatl, etc.) and other texts written in Spanish Colonial America through eighteenth century.

**Course Outcomes**

- Apply a variety of analytical and theoretical approaches to the study of early Spanish American writings as literature and as a reflection of the early cultures of the Spanish-speaking countries of the Americas.
- Demonstrate an ability to critically analyze early Spanish American literature through insightful in-class participation, oral presentations, and written assignments.
- Demonstrate a strong knowledge of a broad range of the important literary and historical texts of the early Spanish American period and of the historical and cultural contexts in which they were produced.

SPAN 451 : Survey of Hispanic-American Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department

PREREQUISITE: SPAN 339

DESCRIPTION: Literary masterpieces of Spanish America.

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, literary theory as well as other critical and philosophical concepts which may apply to Spanish American literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Define and recognize the periods, significant authors, schools or movements of Spanish American literature.
- Recognize and value the contributions, past and present, of Spanish American literature to the cultures of its respective countries.
- Develop the habits and skills of lifelong readers of Spanish American literature.
- Demonstrate and apply a strong understanding of the basic structures of the Spanish language as they apply to literature.
- Write analytical and descriptive essays in Spanish that demonstrate an advanced knowledge of the works studied, a proper command of the Spanish language, mastery of the tools of literary criticism, and familiarity with research methodologies.

SPAN 454R : The Spanish American Novel. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Selected Spanish-American novelists such as Juan Rulfo, Gabriel Garcia Marquez, Alejo Carpentier, Mario Vargas-Llosa, etc.

**Course Outcomes**

There are no course outcomes available

SPAN 455R : Spanish-American Poetry. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Selected Spanish-American poets, movements, and national traditions.

**Course Outcomes**

- Demonstrate critical acuity in interpreting individual poems, making appropriate reference to formal poetic devices.
- Demonstrate a grasp of the historical, social, and literary contexts of the poems and poets studied.
- Express one's insights in a research paper which makes appropriate use of secondary sources.

SPAN 456R : Spanish American Drama. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Twentieth-century theatre from Spanish America and Brazil.

**Course Outcomes**

There are no course outcomes available

SPAN 458R : Hispanic-American Short Story. (3:3:0)

WHEN TAUGHT: Contact Department. Fall Odd Yrs.

PREREQUISITE: SPAN 451

DESCRIPTION: Introduction and development of an important literary genre in Spanish America, including works of Jorge Luis Borges, Julio Cortazar, Juan Rulfo, Gabriel Garcia Marquez, etc.

**Course Outcomes**

- Master basic bibliographical techniques related to the short story genre.
- Demonstrate a firm grasp of the formal aspects of the short story genre.
- Gain a working knowledge of the history and principal figures of the Spanish American short story.

SPAN 459R : Special Topics in Spanish American Literature. (3:3:0)

WHEN TAUGHT: Contact Department. ; Spring Even Yrs.

PREREQUISITE: SPAN 451

DESCRIPTION: Specific topics in Latin American literature. Course content will vary each semester to offer optimum exposure to all areas of Latin American literature.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Spanish, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Spanish literary study that inspire continued learning.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to special topics in Spanish-American Literature.

SPAN 461 : Spanish-Speaking American (Mexican-American) Literature. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Even Yrs.; Spring Contact Department; Summer Contact Department

PREREQUISITE: SPAN 451

DESCRIPTION: Spanish-English literature of the Mexican-American within the United States.

**Course Outcomes**

- Demonstrate thorough understanding of the history of Mexican-American literary history.
- Develop advanced skills in research techniques and academic writing.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Mexican-American Literature.

SPAN 477 : Techniques of Spanish Instruction. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: SPAN 321 & SPAN 326 & SPAN 345; or SPAN 321 & SPAN 326 & SPAN 355

DESCRIPTION: Techniques for teaching the four language skills and grammar, vocabulary, and culture; use of technology; assessing language achievement.

NOTE: For students not enrolled in Spanish teaching major or minor.

**Course Outcomes**

- Discuss basic theories of language teaching and learning.
- Plan Standards-based units and lessons, aligning assessments with learning objectives.
- Teach beginning-level vocabulary, grammar, culture, and the four skills (speaking, listening, reading, writing).
- Assess students' language and culture learning.

SPAN 480R : Directed Research in Spanish. (.5-3:ARR:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: Written proposal subject to department approval.

DESCRIPTION: Under faculty member's direction, designing and conducting research project covering material not normally presented in regular course work. Research paper required.

NOTE: Total Span 480R credit toward bachelor's degree not to exceed 3 hours.

**Course Outcomes**

- Conduct advanced, independent research on a topic in Hispanic studies.

SPAN 490 : Senior Seminar in Spanish. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Senior standing.

DESCRIPTION: Bibliography, research, and writing of senior thesis.

NOTE: Recommended for students planning graduate studies in Spanish.

**Course Outcomes**

There are no course outcomes available

SPAN 520 : Problems in Spanish Grammar. (3:3:0)

WHEN TAUGHT: Winter Odd Yrs., Contact Department; Spring Contact Department; Summer Even Yrs.
PREREQUISITE: SPAN 326; or SPAN 329
DESCRIPTION: Application of contemporary grammatical concepts to problems in Spanish grammar.

**Course Outcomes**

- The student enrolled in Problems in Spanish Grammar will carefully examine and formulate more accurate and complete rules for several recalcitrant grammar "problems" by reading and studying selections from grammarians and researchers who provide insights into the problem in question. The student's ability to synthesize coherent and meaningful generalizations will be objectively tested by exams and further evaluated while he or she participates in classroom discussion.
- The student enrolled in Problems in Spanish Grammar will acquire a greater understanding of both descriptive and prescriptive grammars and their function and limitations. The student will also acquire specialized terms employed by grammarians and morphosyntacticians. The student's ability to understand and use these terms appropriately will also be objectively measured by examination.
- Complete a research paper/presentation on a particular grammar point or construction. This assignment will test a student's ability to locate appropriate refereed sources, read and synthesize them and prepare a written document and oral presentation according to a recognized style manual.

SPAN 521 : Romance Philology. (3:3:0)
WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 326; or SPAN 329
DESCRIPTION: Comparative study of the evolution of Latin into modern Romance languages.

**Course Outcomes**

- Situate Latin and the Romance Languages in their "external" (i.e. political and literary) historical context.
- Recognize the "laws" of regular phonological evolution (e.g. syncope, lenition, diphthongization, etc.).
- Compare the "major" (i.e. literary) Romance languages as far as their phonological development is concerned.
- Summarize the major lexical differences across Romance languages and some of the basic principles of etymology.
- Become familiar with articles published in professional journals relating to the subject matter and produce accurate and meaningful written summaries and reactions to them.
- Learn the rudiments of transcribing medieval or Renaissance manuscripts.

SPAN 522 : History of the Spanish Language. (3:3:0)
WHEN TAUGHT: Winter Even Yrs.; Summer Odd Yrs.
PREREQUISITE: SPAN 326; or SPAN 329
DESCRIPTION: Linguistic sources that contributed to formation of the Spanish language.

**Course Outcomes**

- Acquire a basic knowledge of the changes undergone by the nominal and verbal systems of Latin and Castilian (e.g. the demise of the case system, the development of new verbal tenses, etc.).
- Demonstrate the ability to summarize and discuss in a clear and concise manner several scholarly articles on the topic of the history of the Spanish language.
- Situate Latin and Castilian in their political and literary historical contexts.
- Recognize the laws of regular phonological development (e.g. syncope, lenition, diphthongization, etc.).
- Identify the sources of the Castilian lexicon.
- Understand the different theories that claim to understand the relation between Latin and the Romance languages, especially the relation between Latin and Castilian.
- Understand the process of linguistic standardization in Romance and its implications for the linguistic map of the Iberian Peninsula.

SPAN 529R : Special Topics in Spanish Linguistics. (3:3:0)
WHEN TAUGHT: Contact Department. Fall
PREREQUISITE: SPAN 326; or SPAN 329
DESCRIPTION: Topics include semantics, dialectology, and sociolinguistics.

**Course Outcomes**

- Read and analyze research articles related to special topic.
- Produce an original research paper/project centered on the theme of the seminar.

SPAN 599R : Academic Internship: Spanish Internship. (.5-3:0:0)
WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 321
NOTE: For supervised internship credit on BYU Study Abroad programs only.

**Course Outcomes**

- Successfully complete internship in a Spanish speaking country.

9. Complete the following:

SPAN 491 : Senior Proficiency Evaluation. (0:1:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Tool course to meet oral proficiency requirement for all majors and teaching minors.
NOTE: No major or minor credit.

**Course Outcomes**

- Receive an Advanced Low or better on the Oral Proficiency Interview.

**Note:** The Senior Proficiency Evaluation is taken in connection with Span 491. It is expected that Spanish majors will pass with an ACTFL rating of *advanced-low* or higher.

*Hours include courses that may fulfill university core requirements.

*This is a limited-enrollment program requiring departmental admissions approval. Please see the college advisement center for information regarding requirements for admission to this major.*

*This major is designed to prepare students to teach in public schools. In order to graduate with this major, students are required to complete Utah State Office of Education licensing requirements. To view these requirements go to http://education.byu.edu/ess/licensing.html or contact Education Student Services, 120 MCKB, (801) 422-3426.*

## Program Requirements | View MAP | View Program Outcomes

1. The Spanish and Portuguese Department requires a minimum of 18 hours of upper-division major credit to be taken in residence at BYU for this degree program. These hours may also go toward BYU's 30-hour residency requirement for graduation.
2. Meet the foreign residency requirement.
3. Grades below C- in professional education courses or content courses will not be accepted in the teaching major or teaching minor. Teacher candidates must have a cumulative 2.85 GPA in teaching major and teaching minor courses to qualify for student teaching.
4. A teaching minor in another subject is strongly recommended. Teaching opportunities in public schools may be significantly reduced without a second teaching subject that a teaching minor provides.
5. Complete the following prerequisite courses:

SPAN 101 : Foundational Spanish 1. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Fundamentals of Spanish, emphasizing communication. (Accelerated sections available.) Pass/fail only.

NOTE: For students with no previous Spanish.

**Course Outcomes**

- Respond in Spanish to simple ques-tions on the most commonfeatures of daily life
- Convey minimal meaning tointerlocutors experiencedwith dealing with foreign-ers by using isolated words,lists of words, memorizedphrases and some personal-ized recombinations ofwords and phrases
- Satisfy a very limited num-ber of immediate needs through the use of spoken Spanish.
- Respond in written Spanish at the same level as indicated in outcomes related to speaking.
- Understand common basic cultural practices and products related to greetings and family life in some Spanish-speaking countries.

SPAN 102 : Foundational Spanish 2. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Span 101.

DESCRIPTION: Continuation of Span 101. Fundamentals of Spanish, emphasizing communication. (Accelerated sections available.) Pass/fail only.

**Course Outcomes**

- Using Spanish, participate in simple, directconversations on generallypredictable topics related todaily activities and personalenvironment.
- Create with the languageand communicate personalmeaning to sympatheticinterlocutors by combininglanguage elements in dis-crete sentences and stringsof sentences.
- Obtain and give informationby asking and answeringquestions.
- Sustain and bring to a closea number of basic, uncom-plicated communicativeexchanges, mostly in a reac-tive mode.
- Satisfy simple personalneeds and social demandsto survive in the target lan-guage culture.
- Respond in written Spanish at the same level as indicated in preceding objectives related to spoken Spanish.
- Understand common basic cultural practices and products related to travel in some Spanish-speaking countries.

SPAN 105 : University Spanish 1. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Two years of high school Spanish or Span 101/102 or placement by diagnostic test.

DESCRIPTION: Continued development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational courses. Students are expected to attain an *Intermediate-Mid* proficiency level.

**Course Outcomes**

- Use Spanish to maintain simple verbal conversations on everyday topics.
- Communicate using paragraph level discourse in writing.
- Be understood by sympathetic native speakers despite occasional misunderstandings.
- Describe and narrate in the past present and future a portion of the time.
- Understand that hispanic culture is vast and diverse.
- Demonstrate understanding of and appreciation for Hispanic cultures.

SPAN 106 : University Spanish 2. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Span 105.

DESCRIPTION: Expanded development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational and intermediate courses. Students are expected to attain an *Intermediate-Mid* to *Intermediate-High* proficiency level.

**Course Outcomes**

- Use Spanish to maintain simple verbal conversations on everyday topics.
- Communicate using paragraph level discourse in writing.
- Be understood by sympathetic native speakers despite occasional misunderstandings.
- Describe and narrate in the past present and future a portion of the time.
- Understand that hispanic culture is vast and diverse.
- Demonstrate understanding of and appreciation for Hispanic cultures.

SPAN 111R : Spanish Conversation 1. (2:2.5:1)

RECOMMENDED: Concurrent enrollment in Span 105.

DESCRIPTION: Development of conversation skills in Spanish.

**Course Outcomes**

- Communicate orally in Spanish in specific speaking situations at the interpersonal level, which may include various personal or social situations.
- Understand main ideas and some facts from interactive exchanges and aural texts.
- Demonstrate awareness of cultures and backgrounds other than the student's own.
- Present orally to an audience a topic related to Hispanic cultural products, practices and events.
- Ability to read consistently with increased understanding simple, connected texts dealing with a variety of basic and social needs.

SPAN 112R : Spanish Conversation 2. (2:2.5:1)

RECOMMENDED: Concurrent enrollment in Span 106.

DESCRIPTION: Continued development of conversation skills in Spanish.

**Course Outcomes**

- Communicate orally in Spanish in specific speaking situations at the interpersonal level, which may include various personal or social situations.
- Understand main ideas and some facts from interactive exchanges and aural texts.
- Demonstrate awareness of cultures and backgrounds other than the student's own
- Present orally to an audience a topic related to Hispanic cultural products, practices and events.
- Ability to read consistently with increased understanding simple, connected texts dealing with a variety of basic and social needs.

SPAN 205 : University Spanish 3. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Four years of high school Spanish, Span 106, or placement by test.

DESCRIPTION: Continued development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain an *Intermediate-High* proficiency level.

NOTE: Fulfills the University Core Languages of Learning requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Consolidate the student's understanding of the basic structures of the Spanish language and demonstrate intermediate proficiency in Spanish as defined by the American Council on the Teaching of Foreign Languages (ACTFL) proficiency guidelines for reading, writing, speaking, and listening.
- Provide students with a moderate knowledge of the Spanish language and cultures, thus broadening their perception of humanity and its varied manifestations.
- Interpret and analyze a selection of literary works in Spanish within their historical and cultural context.

SPAN 206 : University Spanish 4. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Spanish 205 or placement by test.

DESCRIPTION: Expanded development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain a strong *Intermediate-*

*High* or *Advanced-Low* proficiency level.

**Course Outcomes**

- Consolidate the student's command of the basic structures of the Spanish language.
- Develop literacy and oral language skills at the intermediate-advanced range.
- Obtain an adequate knowledge of the Spanish language and cultures through the study of selected perceptions and manifestations.
- Understanding the natural speech of native speakers from any Spanish-speaking country and interpret the general idea in their proper cultural background.

**Note 1:** Students with foreign residence experience usually begin with Span 321.

**Note 2:** Prerequisite courses may be waived for those having sufficient proficiency with the language.

6. Complete the following:

SPAN 321 : Third-Year Spanish Reading, Grammar, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Placement by test.
DESCRIPTION: Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.
NOTE: First class for returned Spanish-speaking missionaries. Fullfills the University Core Languages of Learning requirement. Required for Spanish major and minor.

**Course Outcomes**

There are no course outcomes available

SPAN 322 : Third-Year Spanish Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: SPAN 321
DESCRIPTION: Study and practice of different writing styles, developing research skills.
NOTE: Strongly recommended for students continuing on to a graduate program.

**Course Outcomes**

- Demonstrate competence in writing a variety of genre types in Spanish that conform to the "advanced" level as described in the ACTFL proficiency guidelines.

SPAN 326 : Spanish Phonetics and Pronunciation. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: SPAN 321
DESCRIPTION: Spanish sound system; underlying concepts of Spanish speech production and applications to pronunciation.

**Course Outcomes**

- Students who successfully complete this class will:Understand the basic concepts of articulatory phonetics and phonology;
- Understand how the sounds of standard Spanish are pronounced;
- Be able to transcribe phonetically both oral and written texts in Spanish;

SPAN 339 : Introduction to Spanish Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Readings in modern Hispanic literatures, focusing on formal literary analysis.
NOTE: Course is prerequisite to 400-level literature courses.

**Course Outcomes**

- Demonstrate a working knowledge of the most salient elements of the most important literary genres, including, for example, short story, novel, poetry, theater, essay, and film.
- Students will demonstrate a mastery of basic tools of literary analysis, including versification and basic elements of narratology, and interpretation through the study of a variety of works from authors from Spain and Spanish America.
- Students will write cogent, persuasive essays of literary interpretation.
- Students will demonstrate the ability to speak and write in Spanish about literature with a reasonable degree of grammatical correctness and fluency.

SPAN 345 : Iberian Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spain.

**Course Outcomes**

- Students will be able to describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe and analyze historical periods and current events (e.g., political, social, artistic, and religious developments).
- Recognize and describe important cultural products (e.g., art, literature, architecture, and music,

including important works and individuals), cultural institutions (e.g., family, religion, education, and government), and cultural practices (e.g., customs related to birth, marriage, death, holidays, and traditions).
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

SPAN 355 : Spanish American Culture and Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department

PREREQUISITE: Span 321 or concurrent enrollment.

DESCRIPTION: Culture, history, art, music, and traditions of Spanish America.

**Course Outcomes**

There are no course outcomes available

SPAN 377 : Spanish Teaching Methods 1. (3:3:2)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: SPAN 321 & SPAN 326 & SPAN 345; or SPAN 321 & SPAN 326 & SPAN 355; Spanish Teaching major or minor status.

DESCRIPTION: History of language teaching methods; standards-based unit and lesson planning; strategies for teaching speaking, listening, reading, writing, grammar, and vocabulary.

**Course Outcomes**

- explain the benefits of studying a foreign language
- discuss major historical trends in foreign language teaching
- discuss ways of setting up your classroom to motivate students to learn Spanish
- select and evaluate textbooks for your program
- use the Standards for Foreign Language Learning to plan units and lessons
- plan and implement various methods for teaching oral skills (including pronunciation, conversation, games, and songs)
- plan and implement methods for teaching listening, reading, and writing
- plan and implement methods for teaching grammar and vocabulary

SPAN 378 : Spanish Teaching Methods 2. (3:3:2)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: SPAN 377

DESCRIPTION: Strategies for teaching culture; use of instructional media and technology; assessment of learner performance; foreign language program models; planning for continuing professional development.

**Course Outcomes**

- Use professional reading to develop a research-based repertoire of instructional strategies that help secondary students meet each of the National Standards for Foreign Language Learning
- Design units, lessons, and activities that develop students' proficiency in Spanish across the three modes of communication
- Contextualize language learning experiences in cultural products, practices, and perspectives using various techniques for teaching and assessing culture learning
- Develop and adapt assessments to evaluate students' proficiency and provide them with feedback that will improve their performance
- Utilize a variety of emerging technologies to enhance instruction, develop language proficiency and cultural competence, improve your professional productivity, and support your professional
- Adapt learning experiences appropriately to better meet the needs of culturally diverse learners, including students with a variety of learning styles and special needs
- Compare and contrast various program models for world language learning
- Participate professionally in the school community, in professional organizations and professional development activities, and engage in professional dialogue and reflection with colleagues to improve teaching skills and your program

SPAN 380 : Practicum in Teaching Spanish. (1:0:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: SPAN 377; concurrent enrollment in Span 378; Spanish Teaching major status.

DESCRIPTION: Implementing meaningful and engaging instruction for secondary students in Spanish; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

**Course Outcomes**

- Craft meaningful, standards-based, developmentally and contextually appropriate language learning experiences in Spanish for students
- Contextualize language learning experiences in cultural products, practices, and perspectives using various techniques for engaging students in critical thinking and problem-solving regarding culture
- Use informal assessments to evaluate students' understanding
- Engage in professional dialogue and reflection with your mentor teacher to improve your own professional practice

SPAN 441 : Survey of Spanish Literature. (3:3:0)

OFFERED: Independent Study also.

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department

PREREQUISITE: SPAN 339

DESCRIPTION: Literary masterpieces of Spain.

**Course Outcomes**

There are no course outcomes available

SPAN 451 : Survey of Hispanic-American Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department

PREREQUISITE: SPAN 339

DESCRIPTION: Literary masterpieces of Spanish America.

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, literary theory as well as other critical and philosophical concepts which may apply to Spanish American literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Define and recognize the periods, significant authors, schools or movements of Spanish American literature.
- Recognize and value the contributions, past and present, of Spanish American literature to the cultures of its respective countries.
- Develop the habits and skills of lifelong readers of Spanish American literature.
- Demonstrate and apply a strong understanding of the basic structures of the Spanish language as they apply to literature.
- Write analytical and descriptive essays in Spanish that demonstrate an advanced knowledge of the works studied, a proper command of the Spanish language, mastery of the tools of literary criticism, and familiarity with research methodologies.

**Note:** Span 377 and 378 must be taken before student teaching.

7. Complete 6 hours from the following courses:

SPAN 329 : Survey of Hispanic Linguistics. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer, Contact Department

PREREQUISITE: SPAN 321

DESCRIPTION: Introduction to linguistics of Spanish: phonetics, phonology, morphology, syntax, semantics, history of the Spanish language, philology, dialectology, sociolinguistics, and psycholinguistics.

**Course Outcomes**

- The objective of this course is to introduce students to the basic fields of linguistic study within the Hispanic context. Students should be able to identify and explain issues of phonetics, phonology, morphology, syntax, semantics, and types of variation as found in oral and written language.

SPAN 365 : Mexican-American Culture. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Span 321 or concurrent enrollment.

DESCRIPTION: Contemporary culture (education, popular and fine arts, worldview, attitudes, etc.) of the Mexican-American in the U.S.

**Course Outcomes**

- Recognize and describe important cultural products, such as art, literature, architecture, and music, including important works and individuals, as pertaining to Mexican American culture.
- Describe important cultural institutions, including family and religion.
- Discuss important cultural practices, including customs, traditions, celebrations, festivals, etc
- Analyze recent cultural and social developments, including political, social, religious, and artistic events, placing them in historical context.
- Students should be able to recognize, compare, and evaluate the influence of their own cultural background on their attitudes, beliefs, and worldview, in relation to the Mexican- American world.

SPAN 395R : Contemporary Culture. (.5-3:ARR:ARR)

WHEN TAUGHT: Contact Department.

DESCRIPTION: Contemporary Spanish (or Spanish- American) culture: the people and their customs and institutions.

NOTE: For Study Abroad programs only.

**Course Outcomes**

- Through a series of cultural proofs (visits, interviews, observations), develop a familiarity with the host culture at the level of the individual.
- Through readings, develop a familiarity with macro forces (historical, political, economical) that have shaped the host culture.

SPAN 421 : Fourth-Year Grammar. (3:3:0)

WHEN TAUGHT: Contact Department. Fall

PREREQUISITE: SPAN 321

DESCRIPTION: Fourth-year study of Spanish grammar and usage.

**Course Outcomes**

- Recognize stylistic errors in Spanish composition and acquire the necessary strategies for their

correction.
- Improve the knowledge of syntactic structures of Spanish.
- Enrich passive and active vocabularies of Spanish.
- Demonstrate competence in writing short essays in Spanish that conform to the "advanced" level as described in the ACTFL proficiency guidelines.
- Improve listening comprehension of authentic Spanish sources.

SPAN 423 : Border Spanish. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Span 326 or Span 329.
DESCRIPTION: Mexican-American speech patterns, including language contact and bilingualism.
NOTE: Previous course in linguistics strongly recommended.

**Course Outcomes**

- Students will demonstrate a knowledge of principal features of (Mexican-American) Popular Spanish in terms of semantics, morphosyntax, and phonetics/phonology.
- Students will understand and be able to describe succinctly S-E bilingual contact phenomena, such as borrowing, code-switching, and language maintenance/shift.
- Students will gain a greater understanding of and appreciation for Mexicans and Mexican-Americans living in the U.S.

SPAN 425 : Contrastive Analysis of the Structures of Spanish and English. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Span 326 or Span 329.
DESCRIPTION: Contrastive analysis of phonology, morphology, syntax, and semantics of Spanish and English.

**Course Outcomes**

- Students will be able to explain the chief differences and similarities between the structures of the English and Spanish languages.
- Learn the basic principles of Spanish phonology, morphology (both derivational and inflectional), syntax and sociolinguistics.
- Learn what the assumptions of modern linguistics are (e.g., natural language is based on the use of signs; language is a social phenomenon; oral language takes precedence over written language; linguistics is descriptive, not prescriptive; variation is intrinsic to language; language is highly structured; there are linguistic universals; etc.)
- Be able to solve linguistic problems in the teaching and learning of a second language.

SPAN 429R : Special Topics in Spanish Linguistics. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 326; or SPAN 329
DESCRIPTION: Course content varies yearly; focuses on specific area of linguistics such as dialectology or sociolinguistics.

**Course Outcomes**

There are no course outcomes available

: Dialectology.

**Course Outcomes**

: Sociolinguistics.

**Course Outcomes**

: Language Planning.

**Course Outcomes**

: Bilingualism.

**Course Outcomes**

: Syntax.

**Course Outcomes**

: Semantics.

**Course Outcomes**

SPAN 430R : Special Topics in Hispanic Culture. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Regional and thematic approaches to Hispanic culture. Subject matter will vary.

**Course Outcomes**

There are no course outcomes available

SPAN 438 : Hispanic Cinema. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 339
DESCRIPTION: Introduction to study of film; background in appreciating best of motion picture art in Spain and Spanish America.
NOTE: Previous experience with film useful but not required.

**Course Outcomes**

- Students will demonstrate a mastery of basic tools of film analysis through the study of a variety of films from the various film industries from Spain and Spanish America.
- Students will write cogent, persuasive essays of literary interpretation.
- Students will demonstate the ability to speak and write in Spanish about film with a reasonable degree of grammatical correctness and fluency.

SPAN 439R : Hispanic Theatre Production. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Director's consent
DESCRIPTION: Theory and practice of dramatic performance. Includes participation in play to be performed during semester.
NOTE: No more than 3 hours of 439R credit may count toward any degree.

**Course Outcomes**

There are no course outcomes available

SPAN 440 : Medieval Spanish Literature. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.
PREREQUISITE: SPAN 441
DESCRIPTION: Spanish literature from *El Cantar de Mio Cid* (1140) through *La Celestina* (1499).

**Course Outcomes**

There are no course outcomes available

SPAN 443R : Golden Age Literature. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.; Spring
PREREQUISITE: SPAN 441
DESCRIPTION: Sixteenth- and seventeenth-century Spanish literature.

**Course Outcomes**

- Students will be able to demonstrate knowledge about one or more authors from the 16th and/or 17th centuries.
- Students will be able to analyze the texts studied in terms of the historical, cultural, and literary context of the Early Modern world.
- Students will be able to describe, analyze and discuss one or more of the genres of Early Modern Spanish literature and the conventions connected with the genre(s).
- Students will strengthen their research and writing skills by producing essays about, editions of, and/or translations of 16th and 17th-century Spanish texts.
- Students will develop the skills necessary to appreciate and enjoy reading Early Modern Spanish texts.

SPAN 444 : *Don Quijote.* (3:3:0)

WHEN TAUGHT: Winter Odd Yrs.
PREREQUISITE: SPAN 441
DESCRIPTION: In-depth study of Cervantes' *El ingenioso hidalgo don Quijote de la Mancha*.

**Course Outcomes**

- Students will read Don Quijote de la Mancha in its original version, taking into account plot and character development, symbolism, cultural and literary context, literary antecedents, and subsequent influence.
- Students will comment on different strategies for reading, writing and translating (using critical vocabulary) as discussed in the Quijote, and will explain the different critical stances, including the "hard" perspective and the "soft" perspective.
- Students will trace the stylistic innovations introduced by Cervantes in the Quijote, and its intersections with other genres (e.g. theater, poetry).
- Students willanswer the question of whether el Quijote really is the first modern novel as many claim it to be. Students will identify and analyze episodes in the novel that display realism and metafiction, and will recognize the impact the Quijote has had on the development of these modes in the subsequent development of the western novel.

SPAN 446R : Nineteenth-Century Literature. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 441
DESCRIPTION: Romanticism (1770s through 1870s) and/or the novels of Benito Perez Galdos and his contemporaries.

**Course Outcomes**

There are no course outcomes available

SPAN 448R : Twentieth-Century Spanish Literature. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.

PREREQUISITE: SPAN 441

DESCRIPTION: Genre (twentieth-century novel, drama, or poetry) or particular school (Generation of 1898, Generation of 1927, etc.) emphasized.

**Course Outcomes**

- Demonstrate thorough understanding of twentieth-century Spanish literary history.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.).
- Develop advanced skills in research techniques and academic writing.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to 20th-century Spanish Literature.

SPAN 449R : Special Topics in Spanish Literature. (3:3:0)

WHEN TAUGHT: Contact Department. ; Summer Even Yrs.

PREREQUISITE: SPAN 441

DESCRIPTION: Specific topics in Spanish (peninsular) literature. Course content will vary each semester to offer optimum exposure to all areas of Spanish literature.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Spanish, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Spanish literary study that inspire continued learning.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to special topics in Spanish Literature.

SPAN 450R : Early Spanish-American Literature. (3:3:0)

WHEN TAUGHT: Contact Department. ; Winter Even Yrs.

PREREQUISITE: SPAN 451

DESCRIPTION: Indigenous literature (Maya, Nahuatl, etc.) and other texts written in Spanish Colonial America through eighteenth century.

**Course Outcomes**

- Apply a variety of analytical and theoretical approaches to the study of early Spanish American writings as literature and as a reflection of the early cultures of the Spanish-speaking countries of the Americas.
- Demonstrate an ability to critically analyze early Spanish American literature through insightful in-class participation, oral presentations, and written assignments.
- Demonstrate a strong knowledge of a broad range of the important literary and historical texts of the early Spanish American period and of the historical and cultural contexts in which they were produced.

SPAN 454R : The Spanish American Novel. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Selected Spanish-American novelists such as Juan Rulfo, Gabriel Garcia Marquez, Alejo Carpentier, Mario Vargas-Llosa, etc.

**Course Outcomes**

There are no course outcomes available

SPAN 455R : Spanish-American Poetry. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Selected Spanish-American poets, movements, and national traditions.

**Course Outcomes**

- Demonstrate critical acuity in interpreting individual poems, making appropriate reference to formal poetic devices.
- Demonstrate a grasp of the historical, social, and literary contexts of the poems and poets studied.
- Express one's insights in a research paper which makes appropriate use of secondary sources.

SPAN 456R : Spanish American Drama. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Twentieth-century theatre from Spanish America and Brazil.

**Course Outcomes**

There are no course outcomes available

SPAN 458R : Hispanic-American Short Story. (3:3:0)

WHEN TAUGHT: Contact Department. Fall Odd Yrs.

PREREQUISITE: SPAN 451

DESCRIPTION: Introduction and development of an important literary genre in Spanish America, including works of Jorge Luis Borges, Julio Cortazar, Juan Rulfo, Gabriel Garcia Marquez, etc.

**Course Outcomes**

- Master basic bibliographical techniques related to the short story genre.
- Demonstrate a firm grasp of the formal aspects of the short story genre.
- Gain a working knowledge of the history and principal figures of the Spanish American short story.

SPAN 459R : Special Topics in Spanish American Literature. (3:3:0)

WHEN TAUGHT: Contact Department. ; Spring Even Yrs.

PREREQUISITE: SPAN 451

DESCRIPTION: Specific topics in Latin American literature. Course content will vary each semester to offer optimum exposure to all areas of Latin American literature.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Spanish, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Spanish literary study that inspire continued learning.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to special topics in Spanish-American Literature.

SPAN 461 : Spanish-Speaking American (Mexican-American) Literature. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Even Yrs.; Spring Contact Department; Summer Contact Department

PREREQUISITE: SPAN 451

DESCRIPTION: Spanish-English literature of the Mexican-American within the United States.

**Course Outcomes**

- Demonstrate thorough understanding of the history of Mexican-American literary history.
- Develop advanced skills in research techniques and academic writing.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Mexican-American Literature.

SPAN 480R : Directed Research in Spanish. (.5-3:ARR:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: Written proposal subject to department approval.

DESCRIPTION: Under faculty member's direction, designing and conducting research project covering material not normally presented in regular course work. Research paper required.

NOTE: Total Span 480R credit toward bachelor's degree not to exceed 3 hours.

**Course Outcomes**

- Conduct advanced, independent research on a topic in Hispanic studies.

SPAN 490 : Senior Seminar in Spanish. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Senior standing.

DESCRIPTION: Bibliography, research, and writing of senior thesis.

NOTE: Recommended for students planning graduate studies in Spanish.

**Course Outcomes**

There are no course outcomes available

SPAN 520 : Problems in Spanish Grammar. (3:3:0)

WHEN TAUGHT: Winter Odd Yrs., Contact Department; Spring Contact Department; Summer Even Yrs.

PREREQUISITE: SPAN 326; or SPAN 329

DESCRIPTION: Application of contemporary grammatical concepts to problems in Spanish grammar.

**Course Outcomes**

- The student enrolled in Problems in Spanish Grammar will carefully examine and formulate more accurate and complete rules for several recalcitrant grammar “problems” by reading and studying selections from grammarians and researchers who provide insights into the problem in question. The student’s ability to synthesize coherent and meaningful generalizations will be objectively tested by exams and further evaluated while he or she participates in classroom discussion.
- The student enrolled in Problems in Spanish Grammar will acquire a greater understanding of both descriptive and prescriptive grammars and their function and limitations. The student will also acquire specialized terms employed by grammarians and morphosyntacticians. The student’s ability to understand and use these terms appropriately will also be objectively measured by examination.
- Complete a research paper/presentation on a particular grammar point or construction. This assignment will test a student’s ability to locate appropriate refereed sources, read and synthesize them and prepare a written document and oral presentation according to a recognized style manual.

SPAN 521 : Romance Philology. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 326; or SPAN 329

DESCRIPTION: Comparative study of the evolution of Latin into modern Romance languages.

**Course Outcomes**

- Situate Latin and the Romance Languages in their "external" (i.e. political and literary) historical context.
- Recognize the "laws" of regular phonological evolution (e.g. syncope, lenition, diphthongization, etc.).
- Compare the "major" (i.e. literary) Romance languages as far as their phonological development is concerned.
- Summarize the major lexical differences across Romance languages and some of the basic principles of etymology.
- Become familiar with articles published in professional journals relating to the subject matter and produce accurate and meaningful written summaries and reactions to them.
- Learn the rudiments of transcribing medieval or Renaissance manuscripts.

SPAN 522 : History of the Spanish Language. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.; Summer Odd Yrs.

PREREQUISITE: SPAN 326; or SPAN 329

DESCRIPTION: Linguistic sources that contributed to formation of the Spanish language.

**Course Outcomes**

- Acquire a basic knowledge of the changes undergone by the nominal and verbal systems of Latin and Castilian (e.g. the demise of the case system, the development of new verbal tenses, etc.).
- Demonstrate the ability to summarize and discuss in a clear and concise manner several scholarly articles on the topic of the history of the Spanish language.
- Situate Latin and Castilian in their political and literary historical contexts.
- Recognize the laws of regular phonological development (e.g. syncope, lenition, diphthongization, etc.).
- Identify the sources of the Castilian lexicon.
- Understand the different theories that claim to understand the relation between Latin and the Romance languages, especially the relation between Latin and Castilian.
- Understand the process of linguistic standardization in Romance and its implications for the linguistic map of the Iberian Peninsula.

SPAN 529R : Special Topics in Spanish Linguistics. (3:3:0)

WHEN TAUGHT: Contact Department. Fall

PREREQUISITE: SPAN 326; or SPAN 329

DESCRIPTION: Topics include semantics, dialectology, and sociolinguistics.

**Course Outcomes**

- Read and analyze research articles related to special topic.
- Produce an original research paper/project centered on the theme of the seminar.

8. Complete the following:

SPAN 491 : Senior Proficiency Evaluation. (0:1:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Tool course to meet oral proficiency requirement for all majors and teaching minors.

NOTE: No major or minor credit.

**Course Outcomes**

- Receive an Advanced Low or better on the Oral Proficiency Interview.

**Note:** The Senior Proficiency Evaluation is taken in connection with Span 491. Before applying to student teach, achieve a minimum OPI rating of *advanced-low* to obtain Utah state licensure and to graduate.

9. Complete the Professional Education Component:
   - Complete the following:

CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course; FBI fingerprint background clearance.

DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

**Course Outcomes**

- Demonstrate sensitivity to individuals with disabilities.
- Describe the effects of cultural, ethnic, and language diversity on the education of individuals with disabilities
- Describe the steps in the Individual Education Program (IEP) process, including Individualized Transition Plans for students aged 14-22.
- Use research-supported methods for academic instruction of individuals with disabilities including explicit instruction, learning strategies, task analysis, and active participation.
- Describe models and strategies of consultation and collaboration including co-planning and co-teaching.
- Define special education and describe the legal structure of services for individuals with disabilities, including the Individuals with Disabilities Education Act (IDEA).
- Develop a personal philosophy of special education which includes an understanding of the

implications of Least Restrictive Environment as defined in IDEA.
- Demonstrate knowledge of basic classroom management theories and an understanding of teacher attitudes and behaviors that influence behavior of individuals with exceptional learning needs.
- Describe the characteristics and educational implications of students with high and low incidence disabilities
- Demonstrate ability to identify and prioritize areas of the general curriculum and provide accommodations for individuals with exceptional learning needs

FLANG 276 : Exploration of Teaching Foreign Languages. (4:2:2)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: FBI fingerprint and background clearance.

DESCRIPTION: Field-based exposure to practices, demands, and issues associated with teaching foreign languages in public secondary schools.

**Course Outcomes**

- Determine if pursuing a personal career in foreign language teaching in public secondary schools is the correct decision.
- Have a developing awareness of what foreign-language students should know and be able to do and of good foreign-language teaching practice.
- Discuss the public purposes of education, related social and political issues, and the benefits of speaking a foreign language.
- Articulate personal motivations for becoming a teacher, as well as recognize potential strengths and weaknesses as a teacher.

SC ED 353 : Multicultural Education. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or Phy S 276 or Engl 276R or Bio 276 or SFL 276R or Hlth 276R or MthEd 276 or PETE 276R or TEE 276A or TEE 276B.

DESCRIPTION: Designing and adapting instruction for diverse learners; collaborating with families, cultures, and communities in promoting and sustaining learning.

**Course Outcomes**

- Students will examine and understand the various dimensions of cultural identity, including one's own, and apply this knowledge to their thinking and behavio through a process of reflection.
- Acknowledge the dynamics of culture and diversity in school success and teachers' teaching. This includes recognizing and overcoming deficit thinking.
- Identify culturally and linguistically relevant pedagogy and use theoretically grounded principles to analyze why it is effective for many different types of learners.
- Interpret the historical context of diversity, discrimination, and language policies and evaluate how they impact current school practices.
- Recognize and acknowledge racism, discrimination and other forms of inquity and privilege in themselves, in others, and within institutions.
- Recognize and use a personal moral spiritual framework along with principles and concepts of social science to guide educational accomplishments for diverse learners.

SC ED 375 : Adolescent Development and Classroom Management. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Sc Ed 276R or Phy S 276 or Engl 276R or Bio 276 or SFL 276R or Hlth 276R or MthEd 276 or PETE 276R or TEE 276A or TEE 276B; or concurrent enrollment.

DESCRIPTION: Analysis of education practice and the relationship between theories and research on development, classroom management, education and the practice of teaching. Focus on adolescent development and an introduction to classroom management.

**Course Outcomes**

There are no course outcomes available

**Note:** FBI fingerprint and background clearance must be completed before enrollment in FLang 276.

- Complete 12 hours of one of the following:

SPAN 476 : Secondary Spanish Student Teaching. (12:0:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Completion of all course work or departmental approval; requires a major GPA of 2.85; at least a C- in Span 377, 378, and 380.

DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

**Course Outcomes**

- Critically integrate professional readings, coursework, and teaching experiences into a repertoire of options for professional thought and action
- Improve your Spanish language proficiency, your cultural understanding, and your ability to help students see patterns in the language.
- Craft standards-based, developmentally and contextually appropriate, meaningful learning experiences in Spanish that support the growth of students' language proficiency
- Contextualize language learning experiences in cultural products, practices, and perspectives and use various techniques for engaging students in critical thinking and problem-solving regarding culture

- Utilize a variety of communication techniques and emerging technologies to foster active inquiry and collaboration in the classroom, to develop language proficiency and cultural competence, to foster students' intrinsic motivation, and to support your own professional productivity and growth
- Develop and adapt a variety of traditional and alternative assessments (including performance-based assessments, portfolios, projects, and self-assessments) to inform instruction, to evaluate students' proficiency across all three modes of communication, to provide feedback that will improve student performance, and to report student progress
- Participate professionally in the school community, in professional organizations and professional development activities, and engage in professional dialogue and reflection with colleagues and community agencies to support students, improve your teaching, and strengthen your program
- Adapt learning experiences appropriately to better meet the needs of culturally diverse learners, including students with a variety of learning styles and special needs

SPAN 496 : Secondary Spanish Teaching Internship. (12:0:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Completion of all course work or departmental approval; requires a major GPA of 2.85; at least a C- in Span 377, 378, and 380.

DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

**Course Outcomes**

- Critically integrate professional readings, coursework, and teaching experiences into a repertoire of options for professional thought and action
- Improve your Spanish language proficiency, your cultural understanding, and your ability to help students see patterns in the language.
- Craft standards-based, developmentally and contextually appropriate, meaningful learning experiences in Spanish that support the growth of students' language proficiency
- Adapt learning experiences appropriately to better meet the needs of culturally diverse learners, including students with a variety of learning styles and special needs
- Contextualize language learning experiences in cultural products, practices, and perspectives and use various techniques for engaging students in critical thinking and problem-solving regarding culture
- Utilize a variety of communication techniques and emerging technologies to foster active inquiry and collaboration in the classroom, to develop language proficiency and cultural competence, to foster students' intrinsic motivation, and to support your own professional productivity and growth
- Develop and adapt a variety of traditional and alternative assessments (including performance-based assessments, portfolios, projects, and self-assessments) to inform instruction, to evaluate students' proficiency across all three modes of communication, to provide feedback that will improve student performance, and to report student progress
- Participate professionally in the school community, in professional organizations and professional development activities, and engage in professional dialogue and reflection with colleagues and community agencies to support students, improve your teaching, and strengthen your program

## Program Requirements | View MAP | View Program Outcomes

1. The Spanish and Portuguese Department requires a minimum of 18 hours of upper-division major credit to be taken in residence at BYU for this degree program. These hours may also go toward BYU's 30-hour residency requirement for graduation.
2. Meet the foreign residency requirement.
3. Complete a minor (approximately 16–21 hours), second major (approximately 30–60 hours), or supporting course work (15 hours).
4. Complete the following prerequisite courses:

SPAN 101 : Foundational Spanish 1. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Fundamentals of Spanish, emphasizing communication. (Accelerated sections available.) Pass/fail only.

NOTE: For students with no previous Spanish.

**Course Outcomes**

- Respond in Spanish to simple ques-tions on the most commonfeatures of daily life
- Convey minimal meaning tointerlocutors experiencedwith dealing with foreign-ers by using isolated words,lists of words, memorizedphrases and some personal-ized recombinations ofwords and phrases
- Satisfy a very limited num-ber of immediate needs through the use of spoken Spanish.
- Respond in written Spanish at the same level as indicated in outcomes related to speaking.
- Understand common basic cultural practices and products related to greetings and family life in some Spanish-speaking countries.

SPAN 102 : Foundational Spanish 2. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Span 101.

DESCRIPTION: Continuation of Span 101. Fundamentals of Spanish, emphasizing communication. (Accelerated sections available.) Pass/fail only.

**Course Outcomes**

- Using Spanish, participate in simple, directconversations on generallypredictable topics related todaily activities and personalenvironment.
- Create with the languageand communicate personalmeaning to sympatheticinterlocutors by combininglanguage elements in dis-crete sentences and stringsof sentences.
- Obtain and give informationby asking and answeringquestions.
- Sustain and bring to a closea number of basic, uncom-plicated communicativeexchanges, mostly in a reac-tive mode.
- Satisfy simple personalneeds and social demandsto survive in the target lan-guage culture.
- Respond in written Spanish at the same level as indicated in preceding objectives related to spoken Spanish.
- Understand common basic cultural practices and products related to travel in some Spanish-speaking countries.

SPAN 105 : University Spanish 1. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Two years of high school Spanish or Span 101/102 or placement by diagnostic test.

DESCRIPTION: Continued development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational courses. Students are expected to attain an *Intermediate-Mid* proficiency level.

**Course Outcomes**

- Use Spanish to maintain simple verbal conversations on everyday topics.

- Communicate using paragraph level discourse in writing.
- Be understood by sympathetic native speakers despite occasional misunderstandings.
- Describe and narrate in the past present and future a portion of the time.
- Understand that hispanic culture is vast and diverse.
- Demonstrate understanding of and appreciation for Hispanic cultures.

SPAN 106 : University Spanish 2. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Span 105.

DESCRIPTION: Expanded development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational and intermediate courses. Students are expected to attain an *Intermediate-Mid* to *Intermediate-High* proficiency level.

**Course Outcomes**

- Use Spanish to maintain simple verbal conversations on everyday topics.
- Communicate using paragraph level discourse in writing.
- Be understood by sympathetic native speakers despite occasional misunderstandings.
- Describe and narrate in the past present and future a portion of the time.
- Understand that hispanic culture is vast and diverse.
- Demonstrate understanding of and appreciation for Hispanic cultures.

SPAN 111R : Spanish Conversation 1. (2:2.5:1)

RECOMMENDED: Concurrent enrollment in Span 105.

DESCRIPTION: Development of conversation skills in Spanish.

**Course Outcomes**

- Communicate orally in Spanish in specific speaking situations at the interpersonal level, which may include various personal or social situations.
- Understand main ideas and some facts from interactive exchanges and aural texts.
- Demonstrate awareness of cultures and backgrounds other than the student's own.
- Present orally to an audience a topic related to Hispanic cultural products, practices and events.
- Ability to read consistently with increased understanding simple, connected texts dealing with a variety of basic and social needs.

SPAN 112R : Spanish Conversation 2. (2:2.5:1)

RECOMMENDED: Concurrent enrollment in Span 106.

DESCRIPTION: Continued development of conversation skills in Spanish.

**Course Outcomes**

- Communicate orally in Spanish in specific speaking situations at the interpersonal level, which may include various personal or social situations.
- Understand main ideas and some facts from interactive exchanges and aural texts.
- Demonstrate awareness of cultures and backgrounds other than the student's own
- Present orally to an audience a topic related to Hispanic cultural products, practices and events.
- Ability to read consistently with increased understanding simple, connected texts dealing with a variety of basic and social needs.

SPAN 205 : University Spanish 3. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Four years of high school Spanish, Span 106, or placement by test.

DESCRIPTION: Continued development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain an *Intermediate-High* proficiency level.

NOTE: Fulfills the University Core Languages of Learning requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Consolidate the student's understanding of the basic structures of the Spanish language and demonstrate intermediate proficiency in Spanish as defined by the American Council on the Teaching of Foreign Languages (ACTFL) proficiency guidelines for reading, writing, speaking, and listening.
- Provide students with a moderate knowledge of the Spanish language and cultures, thus broadening their perception of humanity and its varied manifestations.
- Interpret and analyze a selection of literary works in Spanish within their historical and cultural context.

SPAN 206 : University Spanish 4. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Spanish 205 or placement by test.

DESCRIPTION: Expanded development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain a strong *Intermediate-High* or *Advanced-Low* proficiency level.

**Course Outcomes**

- Consolidate the student's command of the basic structures of the Spanish language.
- Develop literacy and oral language skills at the intermediate-advanced range.
- Obtain an adequate knowledge of the Spanish language and cultures through the study of selected perceptions and manifestations.
- Understanding the natural speech of native speakers from any Spanish-speaking country and interpret

the general idea in their proper cultural background.

**Note 1:** Students with foreign residence experience usually begin with Span 321.

**Note 2:** These prerequisite courses may be waived for those having sufficient proficiency with the language.

**Note 3:** Students wishing to major in Spanish translation and interpretation must apply for admission to the program and pass an entrance exam in Spanish and English. Contact the department secretary the first week of February each year to obtain the official date and place of exam.

**Note 4:** Latin American Studies majors or minors: Span 321, 339, 345 or 355, and 441 or 451 meet requirements for both the Spanish translation major and the area studies minor. Only one of these courses may be double-counted (applied to both the major and the minor). Students wishing to complete a Spanish major and one of these area studies minors must take an additional 6–9 hours chosen from the approved electives for either major or minor. Consult the department and the advisement center for clarification of the choices available.

5. Complete the following:

LING 480 : Problems in Translation. (3:3:0)

WHEN TAUGHT: Fall
PREREQUISITE: For Fall 2013 & forward admits, Ling 230 and proficiency in a second language.
DESCRIPTION: History, theory, and practice of human and machine translation.

**Course Outcomes**

- Discuss the possible future of translation technology, including future applications of existing technology and future development of new technologies, drawing on class assignments and a personal project.
- Create a bi-text corpus and derive translation memory and terminology from that bi-text corpus.
- Define a set of specifications for a translation project based on text type, audience, and purpose.
- Use machine translation, translation memory, and terminology in conjunction with a translation environment tool to complete a translation project according to the project's specifications.

SPAN 321 : Third-Year Spanish Reading, Grammar, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Placement by test.
DESCRIPTION: Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.
NOTE: First class for returned Spanish-speaking missionaries. Fullfills the University Core Languages of Learning requirement. Required for Spanish major and minor.

**Course Outcomes**

There are no course outcomes available

SPAN 322 : Third-Year Spanish Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: SPAN 321
DESCRIPTION: Study and practice of different writing styles, developing research skills.
NOTE: Strongly recommended for students continuing on to a graduate program.

**Course Outcomes**

- Demonstrate competence in writing a variety of genre types in Spanish that conform to the "advanced" level as described in the ACTFL proficiency guidelines.

SPAN 329 : Survey of Hispanic Linguistics. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer, Contact Department
PREREQUISITE: SPAN 321
DESCRIPTION: Introduction to linguistics of Spanish: phonetics, phonology, morphology, syntax, semantics, history of the Spanish language, philology, dialectology, sociolinguistics, and psycholinguistics.

**Course Outcomes**

- The objective of this course is to introduce students to the basic fields of linguistic study within the Hispanic context. Students should be able to identify and explain issues of phonetics, phonology, morphology, syntax, semantics, and types of variation as found in oral and written language.

SPAN 339 : Introduction to Spanish Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Readings in modern Hispanic literatures, focusing on formal literary analysis.
NOTE: Course is prerequisite to 400-level literature courses.

**Course Outcomes**

- Demonstrate a working knowledge of the most salient elements of the most important literary genres, including, for example, short story, novel, poetry, theater, essay, and film.
- Students will demonstrate a mastery of basic tools of literary analysis, including versification and basic elements of narratology, and interpretation through the study of a variety of works from authors from Spain and Spanish America.
- Students will write cogent, persuasive essays of literary interpretation.
- Students will demonstrate the ability to speak and write in Spanish about literature with a reasonable

degree of grammatical correctness and fluency.

SPAN 421 : Fourth-Year Grammar. (3:3:0)
WHEN TAUGHT: Contact Department. Fall
PREREQUISITE: SPAN 321
DESCRIPTION: Fourth-year study of Spanish grammar and usage.

**Course Outcomes**

- Recognize stylistic errors in Spanish composition and acquire the necessary strategies for their correction.
- Improve the knowledge of syntactic structures of Spanish.
- Enrich passive and active vocabularies of Spanish.
- Demonstrate competence in writing short essays in Spanish that conform to the "advanced" level as described in the ACTFL proficiency guidelines.
- Improve listening comprehension of authentic Spanish sources.

SPAN 441 : Survey of Spanish Literature. (3:3:0)
OFFERED: Independent Study also.
WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: SPAN 339
DESCRIPTION: Literary masterpieces of Spain.

**Course Outcomes**

There are no course outcomes available

OR
SPAN 451 : Survey of Hispanic-American Literature. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department
PREREQUISITE: SPAN 339
DESCRIPTION: Literary masterpieces of Spanish America.

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, literary theory as well as other critical and philosophical concepts which may apply to Spanish American literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Define and recognize the periods, significant authors, schools or movements of Spanish American literature.
- Recognize and value the contributions, past and present, of Spanish American literature to the cultures of its respective countries.
- Develop the habits and skills of lifelong readers of Spanish American literature.
- Demonstrate and apply a strong understanding of the basic structures of the Spanish language as they apply to literature.
- Write analytical and descriptive essays in Spanish that demonstrate an advanced knowledge of the works studied, a proper command of the Spanish language, mastery of the tools of literary criticism, and familiarity with research methodologies.

6. Complete one course from the following:
SPAN 345 : Iberian Civilization. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spain.

**Course Outcomes**

- Students will be able to describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe and analyze historical periods and current events (e.g., political, social, artistic, and religious developments).
- Recognize and describe important cultural products (e.g., art, literature, architecture, and music, including important works and individuals), cultural institutions (e.g., family, religion, education, and government), and cultural practices (e.g., customs related to birth, marriage, death, holidays, and traditions).
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

SPAN 355 : Spanish American Culture and Civilization. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spanish America.

**Course Outcomes**

There are no course outcomes available

7. Complete the following courses in sequence:
SPAN 415A : Beginning Translation and Interpretation, English to Spanish. (1.5:3:1)
PREREQUISITE: SPAN 321 & SPAN 322

DESCRIPTION: Introduction to history, theory, and principles of translation and interpretation dealing specifically in English to Spanish.

**Course Outcomes**

- Explain and apply methods for resolving common translation problems
- Demonstrate the ability to translate basic texts, such as newspaper articles
- Apply the research skills needed to translate texts required by this course
- Use published research to analyze translator-training programs

SPAN 415B : Beginning Translation and Interpretation, Spanish to English. (1.5:3:1)

PREREQUISITE: SPAN 415A

DESCRIPTION: Introduction to history, theory, and principles of translation and interpretation, dealing specifically in Spanish to English.

**Course Outcomes**

- Explain and apply methods for resolving common translation problems
- Demonstrate the ability to translate basic texts, such as newspaper articles
- Apply the research skills needed to translate texts required by this course
- Use published research to analyze translator-training programs

SPAN 416A : Intermediate Translation and Interpretation, English to Spanish. (1.5:3:1)

PREREQUISITE: SPAN 415B

DESCRIPTION: Systematic study and contrastive exercises in translation and interpretation from English to Spanish. Translation of texts in general conceptual fields.

**Course Outcomes**

- Demonstrate the ability to interpret speeches on general topics
- Demonstrate the ability to translate technical texts—legal, medical, commercial—of moderate difficulty
- Apply the research skills needed to translate texts required by this course
- Apply principles of logic to evaluate arguments in different kinds of texts

SPAN 416B : Intermediate Translation and Interpretation, Spanish to English. (1.5:3:1)

PREREQUISITE: SPAN 416A

DESCRIPTION: Systematic study and contrastive exercises in translation and interpretation from Spanish to English. Translation of texts in general conceptual fields.

**Course Outcomes**

- Apply principles of logic to evaluate arguments in different kinds of texts
- Demonstrate the ability to translate technical texts—legal, medical, commercial—of moderate difficulty
- Apply the research skills needed to translate texts required by this course
- Apply principles of logic to evaluate arguments in different kinds of texts

SPAN 417A : Advanced Translation and Interpretation, English to Spanish. (1.5:3:1)

PREREQUISITE: SPAN 416B

DESCRIPTION: Translation of texts in specific fields. Simultaneous interpretation. From English to Spanish.

**Course Outcomes**

- Demonstrate the ability to interpret speeches on topics—legal, medical, commercial—requiring some specialized knowledge
- Demonstrate the ability to translate technical texts—literary, legal, medical, commercial, scientific—that would typically be found in academic journals
- Apply the research skills needed to translate texts required by this course
- Demonstrate an understanding of how translation theory has developed, particularly since the 1900s

SPAN 417B : Advanced Translation and Interpretation, Spanish to English. (1.5:3:1)

PREREQUISITE: SPAN 417A

DESCRIPTION: Translation of texts in specific fields. Simultaneous interpretation. From Spanish to English.

**Course Outcomes**

- Demonstrate the ability to interpret speeches on topics—legal, medical, commercial—requiring some specialized knowledge
- Demonstrate the ability to translate technical texts—literary, legal, medical, commercial, scientific—that would typically be found in academic journals
- Apply the research skills needed to translate texts required by this course
- Demonstrate an understanding of how translation theory has developed, particularly since the 1900s

SPAN 418 : Translation and Interpretation Project. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: SPAN 417A & SPAN 417B

DESCRIPTION: Individual translation and/or interpretation projects.

**Course Outcomes**

- Demonstrate an understanding of how translation theory has developed, particularly since the 1900s
- Demonstrate understanding of translation theory by completing a detailed theoretical introduction for the capstone project.

**Note:** Span 322, and either Span 345 or 355, must be taken before Span 415A.

8. Complete the following:
   SPAN 491 : Senior Proficiency Evaluation. (0:1:0)
   WHEN TAUGHT: Fall; Winter; Spring; Summer
   DESCRIPTION: Tool course to meet oral proficiency requirement for all majors and teaching minors.
   NOTE: No major or minor credit.

   **Course Outcomes**
   - Receive an Advanced Low or better on the Oral Proficiency Interview.

**Note:** The Senior Proficiency Evaluation is taken in connection with Span 491. It is expected that Spanish majors will pass with a rating of *advanced-low* or higher.

*Hours include courses that may fulfill university core requirements.

## Program Requirements

1. Complete the following prerequisite courses (or equivalent experience):

SPAN 101 : Foundational Spanish 1. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Fundamentals of Spanish, emphasizing communication. (Accelerated sections available.) Pass/fail only.

NOTE: For students with no previous Spanish.

**Course Outcomes**

- Respond in Spanish to simple ques-tions on the most commonfeatures of daily life
- Convey minimal meaning tointerlocutors experiencedwith dealing with foreign-ers by using isolated words,lists of words, memorizedphrases and some personal-ized recombinations ofwords and phrases
- Satisfy a very limited num-ber of immediate needs through the use of spoken Spanish.
- Respond in written Spanish at the same level as indicated in outcomes related to speaking.
- Understand common basic cultural practices and products related to greetings and family life in some Spanish-speaking countries.

SPAN 102 : Foundational Spanish 2. (4:5:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Span 101.

DESCRIPTION: Continuation of Span 101. Fundamentals of Spanish, emphasizing communication. (Accelerated sections available.) Pass/fail only.

**Course Outcomes**

- Using Spanish, participate in simple, directconversations on generallypredictable topics related todaily activities and personalenvironment.
- Create with the languageand communicate personalmeaning to sympatheticinterlocutors by combininglanguage elements in dis-crete sentences and stringsof sentences.
- Obtain and give informationby asking and answeringquestions.
- Sustain and bring to a closea number of basic, uncom-plicated communicativeexchanges, mostly in a reac-tive mode.
- Satisfy simple personalneeds and social demandsto survive in the target lan-guage culture.
- Respond in written Spanish at the same level as indicated in preceding objectives related to spoken Spanish.
- Understand common basic cultural practices and products related to travel in some Spanish-speaking countries.

SPAN 105 : University Spanish 1. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Two years of high school Spanish or Span 101/102 or placement by diagnostic test.

DESCRIPTION: Continued development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational courses. Students are expected to attain an *Intermediate-Mid* proficiency level.

**Course Outcomes**

- Use Spanish to maintain simple verbal conversations on everyday topics.
- Communicate using paragraph level discourse in writing.
- Be understood by sympathetic native speakers despite occasional misunderstandings.
- Describe and narrate in the past present and future a portion of the time.
- Understand that hispanic culture is vast and diverse.
- Demonstrate understanding of and appreciation for Hispanic cultures.

SPAN 106 : University Spanish 2. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Span 105.

DESCRIPTION: Expanded development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational and intermediate courses. Students are expected to attain an *Intermediate-Mid* to *Intermediate-High* proficiency level.

**Course Outcomes**

- Use Spanish to maintain simple verbal conversations on everyday topics.
- Communicate using paragraph level discourse in writing.
- Be understood by sympathetic native speakers despite occasional misunderstandings.
- Describe and narrate in the past present and future a portion of the time.
- Understand that hispanic culture is vast and diverse.
- Demonstrate understanding of and appreciation for Hispanic cultures.

SPAN 205 : University Spanish 3. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Four years of high school Spanish, Span 106, or placement by test.

DESCRIPTION: Continued development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain an *Intermediate-High* proficiency level.

NOTE: Fulfills the University Core Languages of Learning requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Consolidate the student's understanding of the basic structures of the Spanish language and demonstrate intermediate proficiency in Spanish as defined by the American Council on the Teaching of Foreign Languages (ACTFL) proficiency guidelines for reading, writing, speaking, and listening.
- Provide students with a moderate knowledge of the Spanish language and cultures, thus broadening their perception of humanity and its varied manifestations.
- Interpret and analyze a selection of literary works in Spanish within their historical and cultural context.

SPAN 206 : University Spanish 4. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Spanish 205 or placement by test.

DESCRIPTION: Expanded development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain a strong *Intermediate-High* or *Advanced-Low* proficiency level.

**Course Outcomes**

- Consolidate the student's command of the basic structures of the Spanish language.
- Develop literacy and oral language skills at the intermediate-advanced range.
- Obtain an adequate knowledge of the Spanish language and cultures through the study of selected perceptions and manifestations.
- Understanding the natural speech of native speakers from any Spanish-speaking country and interpret the general idea in their proper cultural background.

2. Complete the following:

SPAN 321 : Third-Year Spanish Reading, Grammar, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Placement by test.

DESCRIPTION: Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.

NOTE: First class for returned Spanish-speaking missionaries. Fullfills the University Core Languages of Learning requirement. Required for Spanish major and minor.

**Course Outcomes**

There are no course outcomes available

SPAN 339 : Introduction to Spanish Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Span 321 or concurrent enrollment.

DESCRIPTION: Readings in modern Hispanic literatures, focusing on formal literary analysis.

NOTE: Course is prerequisite to 400-level literature courses.

**Course Outcomes**

- Demonstrate a working knowledge of the most salient elements of the most important literary genres, including, for example, short story, novel, poetry, theater, essay, and film.
- Students will demonstrate a mastery of basic tools of literary analysis, including versification and basic elements of narratology, and interpretation through the study of a variety of works from authors from Spain and Spanish America.

**Course Outcomes**

- Consolidate the student's command of the basic structures of the Spanish language.
- Develop literacy and oral language skills at the intermediate-advanced range.
- Obtain an adequate knowledge of the Spanish language and cultures through the study of selected perceptions and manifestations.
- Understanding the natural speech of native speakers from any Spanish-speaking country and interpret the general idea in their proper cultural background.

3. Complete the following:

SPAN 321 : Third-Year Spanish Reading, Grammar, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Placement by test.

DESCRIPTION: Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.

NOTE: First class for returned Spanish-speaking missionaries. Fullfills the University Core Languages of Learning requirement. Required for Spanish major and minor.

**Course Outcomes**

There are no course outcomes available

SPAN 322 : Third-Year Spanish Composition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department

PREREQUISITE: SPAN 321

DESCRIPTION: Study and practice of different writing styles, developing research skills.

NOTE: Strongly recommended for students continuing on to a graduate program.

**Course Outcomes**

- Demonstrate competence in writing a variety of genre types in Spanish that conform to the "advanced" level as described in the ACTFL proficiency guidelines.

SPAN 326 : Spanish Phonetics and Pronunciation. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: SPAN 321
DESCRIPTION: Spanish sound system; underlying concepts of Spanish speech production and applications to pronunciation.

**Course Outcomes**

- Students who successfully complete this class will:Understand the basic concepts of articulatory phonetics and phonology;
- Understand how the sounds of standard Spanish are pronounced;
- Be able to transcribe phonetically both oral and written texts in Spanish;

SPAN 339 : Introduction to Spanish Literature. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Readings in modern Hispanic literatures, focusing on formal literary analysis.
NOTE: Course is prerequisite to 400-level literature courses.

**Course Outcomes**

- Demonstrate a working knowledge of the most salient elements of the most important literary genres, including, for example, short story, novel, poetry, theater, essay, and film.
- Students will demonstrate a mastery of basic tools of literary analysis, including versification and basic elements of narratology, and interpretation through the study of a variety of works from authors from Spain and Spanish America.
- Students will write cogent, persuasive essays of literary interpretation.
- Students will demonstrate the ability to speak and write in Spanish about literature with a reasonable degree of grammatical correctness and fluency.

SPAN 377 : Spanish Teaching Methods 1. (3:3:2)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: SPAN 321 & SPAN 326 & SPAN 345; or SPAN 321 & SPAN 326 & SPAN 355; Spanish Teaching major or minor status.
DESCRIPTION: History of language teaching methods; standards-based unit and lesson planning; strategies for teaching speaking, listening, reading, writing, grammar, and vocabulary.

**Course Outcomes**

- explain the benefits of studying a foreign language
- discuss major historical trends in foreign language teaching
- discuss ways of setting up your classroom to motivate students to learn Spanish
- select and evaluate textbooks for your program
- use the Standards for Foreign Language Learning to plan units and lessons
- plan and implement various methods for teaching oral skills (including pronunciation, conversation, games, and songs)
- plan and implement methods for teaching listening, reading, and writing
- plan and implement methods for teaching grammar and vocabulary

SPAN 378 : Spanish Teaching Methods 2. (3:3:2)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: SPAN 377
DESCRIPTION: Strategies for teaching culture; use of instructional media and technology; assessment of learner performance; foreign language program models; planning for continuing professional development.

**Course Outcomes**

- Use professional reading to develop a research-based repertoire of instructional strategies that help secondary students meet each of the National Standards for Foreign Language Learning
- Design units, lessons, and activities that develop students' proficiency in Spanish across the three modes of communication
- Contextualize language learning experiences in cultural products, practices, and perspectives using various techniques for teaching and assessing culture learning
- Develop and adapt assessments to evaluate students' proficiency and provide them with feedback that will improve their performance
- Utilize a variety of emerging technologies to enhance instruction, develop language proficiency and cultural competence, improve your professional productivity, and support your professional
- Adapt learning experiences appropriately to better meet the needs of culturally diverse learners, including students with a variety of learning styles and special needs
- Compare and contrast various program models for world language learning
- Participate professionally in the school community, in professional organizations and professional development activities, and engage in professional dialogue and reflection with colleagues to improve teaching skills and your program

**Note 2:** Span 377 and 378 must be taken before student teaching. Span 377 will be waived for students majoring in another language who have had the course in that language. Students who waive the class will need to take 3 additional elective hours from the 300-, 400-, or 500-level courses in Spanish.

4. Complete one course from the following:
   SPAN 345 : Iberian Civilization. (3:3:0)
   WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department
   PREREQUISITE: Span 321 or concurrent enrollment.

DESCRIPTION: Culture, history, art, music, and traditions of Spain.

**Course Outcomes**

- Students will be able to describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe and analyze historical periods and current events (e.g., political, social, artistic, and religious developments).
- Recognize and describe important cultural products (e.g., art, literature, architecture, and music, including important works and individuals), cultural institutions (e.g., family, religion, education, and government), and cultural practices (e.g., customs related to birth, marriage, death, holidays, and traditions).
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

SPAN 355 : Spanish American Culture and Civilization. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spanish America.

**Course Outcomes**

There are no course outcomes available

5. Complete one course from the following:

SPAN 441 : Survey of Spanish Literature. (3:3:0)
OFFERED: Independent Study also.
WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: SPAN 339
DESCRIPTION: Literary masterpieces of Spain.

**Course Outcomes**

There are no course outcomes available

SPAN 451 : Survey of Hispanic-American Literature. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department
PREREQUISITE: SPAN 339
DESCRIPTION: Literary masterpieces of Spanish America.

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, literary theory as well as other critical and philosophical concepts which may apply to Spanish American literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Define and recognize the periods, significant authors, schools or movements of Spanish American literature.
- Recognize and value the contributions, past and present, of Spanish American literature to the cultures of its respective countries.
- Develop the habits and skills of lifelong readers of Spanish American literature.
- Demonstrate and apply a strong understanding of the basic structures of the Spanish language as they apply to literature.
- Write analytical and descriptive essays in Spanish that demonstrate an advanced knowledge of the works studied, a proper command of the Spanish language, mastery of the tools of literary criticism, and familiarity with research methodologies.

6. Complete the following:

SPAN 491 : Senior Proficiency Evaluation. (0:1:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Tool course to meet oral proficiency requirement for all majors and teaching minors.
NOTE: No major or minor credit.

**Course Outcomes**

- Receive an Advanced Low or better on the Oral Proficiency Interview.

**Note:** The Senior Proficiency Evaluation is taken in connection with Span 491. Before applying to student teach in the major, achieve a minimum OPI rating of *advanced-low* to obtain Utah state licensure and to graduate.

*Hours include courses that may fulfill university core requirements.

*This Language Certificate program is administered by the Center for Language Studies (3086 JFSB), http://languagecertificate.byu.edu.*

Any matriculated (degree-seeking) BYU student who meets the proficiency and course requirements may earn the Spanish Language Certificate. The proficiency requirement is met through the nationally recognized ACTFL Oral and Writing Proficiency Exams. Qualifying students will be awarded a certificate on one of three levels based on the following:

1. Advanced Certificate: An ACTFL "Advanced" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
2. Mastery Certificate: An ACTFL "Advanced High" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.
3. Professional Certificate: An ACTFL "Superior" rating on at least one of the two proficiency exams and 9 hours of coursework with a minimum of a B- grade in each of the three courses.

## Required Courses:

**Note:** Students who have completed all of the coursework required for a language major or a language minor will also have satisfied the coursework requirement for the language certificate.

1. Language:

SPAN 321 : Third-Year Spanish Reading, Grammar, and Culture. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Placement by test.
DESCRIPTION: Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.
NOTE: First class for returned Spanish-speaking missionaries. Fullfills the University Core Languages of Learning requirement. Required for Spanish major and minor.

**Course Outcomes**

There are no course outcomes available

2. Civilization - complete one course from the following:

SPAN 345 : Iberian Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spain.

**Course Outcomes**

- Students will be able to describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe and analyze historical periods and current events (e.g., political, social, artistic, and religious developments).
- Recognize and describe important cultural products (e.g., art, literature, architecture, and music, including important works and individuals), cultural institutions (e.g., family, religion, education, and government), and cultural practices (e.g., customs related to birth, marriage, death, holidays, and traditions).
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

SPAN 355 : Spanish American Culture and Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Culture, history, art, music, and traditions of Spanish America.

**Course Outcomes**

There are no course outcomes available

3. Literature:

SPAN 339 : Introduction to Spanish Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Span 321 or concurrent enrollment.
DESCRIPTION: Readings in modern Hispanic literatures, focusing on formal literary analysis.
NOTE: Course is prerequisite to 400-level literature courses.

**Course Outcomes**

- Demonstrate a working knowledge of the most salient elements of the most important literary genres, including, for example, short story, novel, poetry, theater, essay, and film.
- Students will demonstrate a mastery of basic tools of literary analysis, including versification and basic elements of narratology, and interpretation through the study of a variety of works from authors from Spain and Spanish America.
- Students will write cogent, persuasive essays of literary interpretation.
- Students will demonstrate the ability to speak and write in Spanish about literature with a reasonable degree of grammatical correctness and fluency.

Students who successfully complete a certificate will receive an official document verifying their level of achievement. The certificate will be listed on the university transcript.

- Sustain and bring to a closea number of basic, uncom-plicated communicativeexchanges, mostly in a reac-tive mode.
- Satisfy simple personalneeds and social demandsto survive in the target lan-guage culture.
- Respond in written Spanish at the same level as indicated in preceding objectives related to spoken Spanish.
- Understand common basic cultural practices and products related to travel in some Spanish-speaking countries.

SPAN 105 : University Spanish 1. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Two years of high school Spanish or Span 101/102 or placement by diagnostic test.

DESCRIPTION: Continued development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational courses. Students are expected to attain an *Intermediate-Mid* proficiency level.

**Course Outcomes**

- Use Spanish to maintain simple verbal conversations on everyday topics.
- Communicate using paragraph level discourse in writing.
- Be understood by sympathetic native speakers despite occasional misunderstandings.
- Describe and narrate in the past present and future a portion of the time.
- Understand that hispanic culture is vast and diverse.
- Demonstrate understanding of and appreciation for Hispanic cultures.

SPAN 106 : University Spanish 2. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Span 105.

DESCRIPTION: Expanded development of grammar, cultural understanding, reading, writing, and conversation skills as introduced in foundational and intermediate courses. Students are expected to attain an *Intermediate-Mid* to *Intermediate-High* proficiency level.

**Course Outcomes**

- Use Spanish to maintain simple verbal conversations on everyday topics.
- Communicate using paragraph level discourse in writing.
- Be understood by sympathetic native speakers despite occasional misunderstandings.
- Describe and narrate in the past present and future a portion of the time.
- Understand that hispanic culture is vast and diverse.
- Demonstrate understanding of and appreciation for Hispanic cultures.

SPAN 111R : Spanish Conversation 1. (2:2.5:1)

RECOMMENDED: Concurrent enrollment in Span 105.

DESCRIPTION: Development of conversation skills in Spanish.

**Course Outcomes**

- Communicate orally in Spanish in specific speaking situations at the interpersonal level, which may include various personal or social situations.
- Understand main ideas and some facts from interactive exchanges and aural texts.
- Demonstrate awareness of cultures and backgrounds other than the student's own.
- Present orally to an audience a topic related to Hispanic cultural products, practices and events.
- Ability to read consistently with increased understanding simple, connected texts dealing with a variety of basic and social needs.

SPAN 112R : Spanish Conversation 2. (2:2.5:1)

RECOMMENDED: Concurrent enrollment in Span 106.

DESCRIPTION: Continued development of conversation skills in Spanish.

**Course Outcomes**

- Communicate orally in Spanish in specific speaking situations at the interpersonal level, which may include various personal or social situations.
- Understand main ideas and some facts from interactive exchanges and aural texts.
- Demonstrate awareness of cultures and backgrounds other than the student's own
- Present orally to an audience a topic related to Hispanic cultural products, practices and events.
- Ability to read consistently with increased understanding simple, connected texts dealing with a variety of basic and social needs.

SPAN 199R : Academic Internship. (.5-3:ARR:ARR)

PREREQUISITE: Department chair's and internship coordinator's consent.

DESCRIPTION: Work experience evaluated by supervisor and posted on student's transcript.

**Course Outcomes**

- Demonstrate capacity to contextualize internship responsibilities and experiences within an academic framework.

**200-Level Courses**

SPAN 205 : University Spanish 3. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Four years of high school Spanish, Span 106, or placement by test.

DESCRIPTION: Continued development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain an *Intermediate-High* proficiency level.

NOTE: Fulfills the University Core Languages of Learning requirement. This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Consolidate the student's understanding of the basic structures of the Spanish language and demonstrate intermediate proficiency in Spanish as defined by the American Council on the Teaching of Foreign Languages (ACTFL) proficiency guidelines for reading, writing, speaking, and listening.
- Provide students with a moderate knowledge of the Spanish language and cultures, thus broadening their perception of humanity and its varied manifestations.
- Interpret and analyze a selection of literary works in Spanish within their historical and cultural context.

SPAN 206 : University Spanish 4. (4:5:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Spanish 205 or placement by test.

DESCRIPTION: Expanded development of grammar, cultural understanding, conversation skills, writing, and reading through the study of literature. Students are expected to attain a strong *Intermediate-High* or *Advanced-Low* proficiency level.

**Course Outcomes**

- Consolidate the student's command of the basic structures of the Spanish language.
- Develop literacy and oral language skills at the intermediate-advanced range.
- Obtain an adequate knowledge of the Spanish language and cultures through the study of selected perceptions and manifestations.
- Understanding the natural speech of native speakers from any Spanish-speaking country and interpret the general idea in their proper cultural background.

SPAN 211R : Spanish Conversation 3. (2:2:1)

WHEN TAUGHT: Fall; Winter

RECOMMENDED: Concurrent enrollment in Span 205.
DESCRIPTION: Continued development of conversation skills in Spanish.

**Course Outcomes**

- Communicate effectively in most real-life situations at the interpersonal level, including academic, professional, or social situations.
- Understand main ideas and most facts from interactive exchanges and aural texts.
- Ability to handle successfully a variety of uncomplicated communicative tasks in straightforward social situations, including theverbal and nonverbal messages.
- Present orally to an audience a topic related to Hispanic cultural products, practices and events.
- Ability to read consistently with increased understanding uncomplicated, connected texts dealing with a variety of basic and social needs.

SPAN 212R : Spanish Conversation 4. (2:2:1)
WHEN TAUGHT: Fall; Winter
RECOMMENDED: Concurrent enrollment in Span 206.
DESCRIPTION: Continued development of conversation skills in Spanish.

**Course Outcomes**

- Communicate effectively in most real-life situations at the interpersonal level, including academic, professional, or social situations.
- Understand main ideas and most facts from interactive exchanges and aural texts.
- Ability to handle successfully a variety of uncomplicated communicative tasks in straightforward social situations, including theverbal and nonverbal messages.
- Present orally to an audience a topic related to Hispanic cultural products, practices and events.
- Ability to read consistently with increased understanding uncomplicated, connected texts dealing with a variety of basic and social needs.

**300-Level Courses**

SPAN 311R : Spanish Conversation 5. (2:2:1)
DESCRIPTION: Continued development of conversation skills in Spanish.
NOTE: Will not count for major or minor.

**Course Outcomes**

- Communicate orally in Spanish in real-life situations, including academic, specialized, and public contexts.
- Demonstrate proficiency in the comprehension of oral messages.
- Show skill at a synthesizing authentic text (such as a newspaper articles or a literary text) in an oral presentation.
- Present to an audience a variety of topics including the ability to develop and articulate positions in Spanish.
- Understand someone else speaking about a discipline-related topic and be able to engage that person in discussion.
- Evaluate the use of language to convey meaning, to inform, and to persuade.

SPAN 312R : Spanish Conversation 6. (2:2:1)
DESCRIPTION: Continued development of conversation skills in Spanish.
NOTE: Will not count for major or minor.

**Course Outcomes**

- · Communicate orally in Spanish in real-life situations, including academic, specialized, and public contexts.
- · Demonstrate proficiency in the comprehension of oral messages
- · Show syncretic skills by synthesizing authentic text (such as a newspaper articles or a literary text) in an oral presentation.
- · Present to an audience a variety of topics including the ability to develop and articulate positions in Spanish.
- · Understand someone else speaking about a discipline-related topic and be able to engage that person in discussion.
- · Evaluate the use of language to convey meaning, to inform, and to persuade.

SPAN 321 : Third-Year Spanish Reading, Grammar, and Culture. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Placement by test.
DESCRIPTION: Intensive study and practice with Spanish grammar, vocabulary, and writings incorporating cultural and literary readings.
NOTE: First class for returned Spanish-speaking missionaries. Fullfills the University Core Languages of Learning requirement. Required for Spanish major and minor.

**Course Outcomes**

There are no course outcomes available

SPAN 322 : Third-Year Spanish Composition. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: SPAN 321
DESCRIPTION: Study and practice of different writing styles, developing research skills.
NOTE: Strongly recommended for students continuing on to a graduate program.

**Course Outcomes**

- Demonstrate competence in writing a variety of genre types in Spanish that conform to the "advanced" level as described in the ACTFL proficiency guidelines.

SPAN 323R : Spanish for the Professions. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: SPAN 321

DESCRIPTION: Introduction to professional terminology, documentation, and correspondence.

**Course Outcomes**

- Discuss in general terms the economic and political realities of Spanish-speaking countries and regions (including the U.S.) and their impact on national and international business.
- Identify social and business-related cultural patterns in Spanish-speaking cultures and compare them with those of English-speaking cultures.
- Locate information on Spanish-speaking job opportunities in various professions and the necessary qualifications for each.
- Acquire a specialized Spanish working vocabulary in at least one profession.
- Write business letters, CVs, and other types of professional documents using appropriate writing conventions, register, and vocabulary.

SPAN 326 : Spanish Phonetics and Pronunciation. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: SPAN 321

DESCRIPTION: Spanish sound system; underlying concepts of Spanish speech production and applications to pronunciation.

**Course Outcomes**

- Students who successfully complete this class will:Understand the basic concepts of articulatory phonetics and phonology;
- Understand how the sounds of standard Spanish are pronounced;
- Be able to transcribe phonetically both oral and written texts in Spanish;

SPAN 329 : Survey of Hispanic Linguistics. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer, Contact Department

PREREQUISITE: SPAN 321

DESCRIPTION: Introduction to linguistics of Spanish: phonetics, phonology, morphology, syntax, semantics, history of the Spanish language, philology, dialectology, sociolinguistics, and psycholinguistics.

**Course Outcomes**

- The objective of this course is to introduce students to the basic fields of linguistic study within the Hispanic context. Students should be able to identify and explain issues of phonetics, phonology, morphology, syntax, semantics, and types of variation as found in oral and written language.

SPAN 339 : Introduction to Spanish Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Span 321 or concurrent enrollment.

DESCRIPTION: Readings in modern Hispanic literatures, focusing on formal literary analysis.

NOTE: Course is prerequisite to 400-level literature courses.

**Course Outcomes**

- Demonstrate a working knowledge of the most salient elements of the most important literary genres, including, for example, short story, novel, poetry, theater, essay, and film.
- Students will demonstrate a mastery of basic tools of literary analysis, including versification and basic elements of narratology, and interpretation through the study of a variety of works from authors from Spain and Spanish America.
- Students will write cogent, persuasive essays of literary interpretation.
- Students will demonstrate the ability to speak and write in Spanish about literature with a reasonable degree of grammatical correctness and fluency.

SPAN 345 : Iberian Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department

PREREQUISITE: Span 321 or concurrent enrollment.

DESCRIPTION: Culture, history, art, music, and traditions of Spain.

**Course Outcomes**

- Students will be able to describe the principal geographic regions, that might include topological features, important cities, and local traditions, customs, and languages.
- Describe and analyze historical periods and current events (e.g., political, social, artistic, and religious developments).
- Recognize and describe important cultural products (e.g., art, literature, architecture, and music, including important works and individuals), cultural institutions (e.g., family, religion, education, and government), and cultural practices (e.g., customs related to birth, marriage, death, holidays, and traditions).
- By comparison, recognize and discuss the influence of their own cultural background on their attitudes, beliefs, and worldview.

SPAN 346R : Special Topics in Iberian Culture. (3:3:0)

WHEN Contact Department.

TAUGHT:

PREREQUISITE: SPAN 321

DESCRIPTION: An in-depth examination of some aspect of Iberian culture and civilization. Subject matter will vary. This course is recommended for those individuals who may already have a broad exposure to the culture and civilization of Spain and/or those who desire a more focused cultural experience.

**Course Outcomes**

No outcomes are available at this time.

SPAN 355 : Spanish American Culture and Civilization. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department

PREREQUISITE: Span 321 or concurrent enrollment.

DESCRIPTION: Culture, history, art, music, and traditions of Spanish America.

**Course Outcomes**

There are no course outcomes available

SPAN 356R : Special Topics in Spanish American Culture. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 321

DESCRIPTION: An in-depth examination of some aspect of Spanish American culture and civilization. Subject matter will vary. This course is recommended for those individuals who may already have a broad exposure to the culture and civilization of the Spanish-speaking countries of the Americas and/or those who desire a more focused cultural experience.

**Course Outcomes**

There are no course outcomes available

SPAN 365 : Mexican-American Culture. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Span 321 or concurrent enrollment.

DESCRIPTION: Contemporary culture (education, popular and fine arts, worldview, attitudes, etc.) of the Mexican-American in the U.S.

**Course Outcomes**

- Recognize and describe important cultural products, such as art, literature, architecture, and music, including important works and individuals, as pertaining to Mexican American culture.
- Describe important cultural institutions, including family and religion.
- Discuss important cultural practices, including customs, traditions, celebrations, festivals, etc

- Students should be able to recognize, compare, and evaluate the influence of their own cultural background on their attitudes, beliefs, and worldview, in relation to the Mexican- American world.

SPAN 377 : Spanish Teaching Methods 1. (3:3:2)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: SPAN 321 & SPAN 326 & SPAN 345; or SPAN 321 & SPAN 326 & SPAN 355; Spanish Teaching major or minor status.

DESCRIPTION: History of language teaching methods; standards-based unit and lesson planning; strategies for teaching speaking, listening, reading, writing, grammar, and vocabulary.

**Course Outcomes**

- explain the benefits of studying a foreign language
- discuss major historical trends in foreign language teaching
- discuss ways of setting up your classroom to motivate students to learn Spanish
- select and evaluate textbooks for your program
- use the Standards for Foreign Language Learning to plan units and lessons
- plan and implement various methods for teaching oral skills (including pronunciation, conversation, games, and songs)
- plan and implement methods for teaching listening, reading, and writing
- plan and implement methods for teaching grammar and vocabulary

SPAN 378 : Spanish Teaching Methods 2. (3:3:2)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: SPAN 377

DESCRIPTION: Strategies for teaching culture; use of instructional media and technology; assessment of learner performance; foreign language program models; planning for continuing professional development.

**Course Outcomes**

- Use professional reading to develop a research-based repertoire of instructional strategies that help secondary students meet each of the National Standards for Foreign Language Learning
- Design units, lessons, and activities that develop students' proficiency in Spanish across the three modes of communication
- Contextualize language learning experiences in cultural products, practices, and perspectives using various techniques for teaching and assessing culture learning
- Develop and adapt assessments to evaluate students' proficiency and provide them with feedback that will

improve their performance
- Utilize a variety of emerging technologies to enhance instruction, develop language proficiency and cultural competence, improve your professional productivity, and support your professional
- Adapt learning experiences appropriately to better meet the needs of culturally diverse learners, including students with a variety of learning styles and special needs
- Compare and contrast various program models for world language learning
- Participate professionally in the school community, in professional organizations and professional development activities, and engage in professional dialogue and reflection with colleagues to improve teaching skills and your program

SPAN 380 : Practicum in Teaching Spanish. (1:0:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: SPAN 377; concurrent enrollment in Span 378; Spanish Teaching major status.

DESCRIPTION: Implementing meaningful and engaging instruction for secondary students in Spanish; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

**Course Outcomes**

- Craft meaningful, standards-based, developmentally and contextually appropriate language learning experiences in Spanish for students
- Contextualize language learning experiences in cultural products, practices, and perspectives using various techniques for engaging students in critical thinking and problem-solving regarding culture
- Use informal assessments to evaluate students' understanding
- Engage in professional dialogue and reflection with your mentor teacher to improve your own professional practice

SPAN 395R : Contemporary Culture. (.5-3:ARR:ARR)

WHEN TAUGHT: Contact Department.

DESCRIPTION: Contemporary Spanish (or Spanish- American) culture: the people and their customs and institutions.

NOTE: For Study Abroad programs only.

**Course Outcomes**

- Through a series of cultural proofs (visits, interviews, observations), develop a familiarity with the host culture at the level of the individual.
- Through readings, develop a familiarity with macro forces (historical, political, economical) that have shaped the host culture.

SPAN 399R : Academic Internship: Spanish Language Field Experience. (.5-6:0:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Program coordinator's consent.

DESCRIPTION: On-the-job experience.

**Course Outcomes**

- Demonstrate capacity to contextualize internship responsibilities and experiences within an academic framework.

**400-Level Courses**

SPAN 414 : Introduction to Translation for Second Majors. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: SPAN 321

DESCRIPTION: Readings, individual research projects, and group translation activities. How the translation profession works. Developing the ability to translate general financial and legal texts. Learning to read texts critically.

**Course Outcomes**

- Explain and apply methods for resolving common translation problems.
- Demonstrate the ability to evalute translation quality.
- Demonstrate understanding of the translation industry.

SPAN 415A : Beginning Translation and Interpretation, English to Spanish. (1.5:3:1)

PREREQUISITE: SPAN 321 & SPAN 322

DESCRIPTION: Introduction to history, theory, and principles of translation and interpretation dealing specifically in English to Spanish.

**Course Outcomes**

- Explain and apply methods for resolving common translation problems
- Demonstrate the ability to translate basic texts, such as newspaper articles
- Apply the research skills needed to translate texts required by this course
- Use published research to analyze translator-training programs

SPAN 415B : Beginning Translation and Interpretation, Spanish to English. (1.5:3:1)

PREREQUISITE: SPAN 415A

DESCRIPTION: Introduction to history, theory, and principles of translation and interpretation, dealing specifically in Spanish to English.

**Course Outcomes**

- Explain and apply methods for resolving common translation problems
- Demonstrate the ability to translate basic texts, such as newspaper articles
- Apply the research skills needed to translate texts required by this course
- Use published research to analyze translator-training programs

SPAN 416A : Intermediate Translation and Interpretation, English to Spanish. (1.5:3:1)

PREREQUISITE: SPAN 415B

DESCRIPTION: Systematic study and contrastive exercises in translation and interpretation from English to Spanish. Translation of texts in general conceptual fields.

**Course Outcomes**

- Demonstrate the ability to interpret speeches on general topics
- Demonstrate the ability to translate technical texts—legal, medical, commercial—of moderate difficulty
- Apply the research skills needed to translate texts required by this course
- Apply principles of logic to evaluate arguments in different kinds of texts

SPAN 416B : Intermediate Translation and Interpretation, Spanish to English. (1.5:3:1)

PREREQUISITE: SPAN 416A

DESCRIPTION: Systematic study and contrastive exercises in translation and interpretation from Spanish to English. Translation of texts in general conceptual fields.

**Course Outcomes**

- Apply principles of logic to evaluate arguments in different kinds of texts
- Demonstrate the ability to translate technical texts—legal, medical, commercial—of moderate difficulty
- Apply the research skills needed to translate texts required by this course
- Apply principles of logic to evaluate arguments in different kinds of texts

SPAN 417A : Advanced Translation and Interpretation, English to Spanish. (1.5:3:1)

PREREQUISITE: SPAN 416B

DESCRIPTION: Translation of texts in specific fields. Simultaneous interpretation. From English to Spanish.

**Course Outcomes**

- Demonstrate the ability to interpret speeches on topics—legal, medical, commercial—requiring some specialized knowledge
- Demonstrate the ability to translate technical texts—literary, legal, medical, commercial, scientific—that would typically be found in academic journals
- Apply the research skills needed to translate texts required by this course
- Demonstrate an understanding of how translation theory has developed, particularly since the 1900s

SPAN 417B : Advanced Translation and Interpretation, Spanish to English. (1.5:3:1)

PREREQUISITE: SPAN 417A

DESCRIPTION: Translation of texts in specific fields. Simultaneous interpretation. From Spanish to English.

**Course Outcomes**

- Demonstrate the ability to interpret speeches on topics—legal, medical, commercial—requiring some specialized knowledge
- Demonstrate the ability to translate technical texts—literary, legal, medical, commercial, scientific—that would typically be found in academic journals
- Apply the research skills needed to translate texts required by this course
- Demonstrate an understanding of how translation theory has developed, particularly since the 1900s

SPAN 418 : Translation and Interpretation Project. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: SPAN 417A & SPAN 417B

DESCRIPTION: Individual translation and/or interpretation projects.

**Course Outcomes**

- Demonstrate an understanding of how translation theory has developed, particularly since the 1900s
- Demonstrate understanding of translation theory by completing a detailed theoretical introduction for the capstone project.

SPAN 421 : Fourth-Year Grammar. (3:3:0)

WHEN TAUGHT: Contact Department. Fall

PREREQUISITE: SPAN 321

DESCRIPTION: Fourth-year study of Spanish grammar and usage.

**Course Outcomes**

- Recognize stylistic errors in Spanish composition and acquire the necessary strategies for their correction.
- Improve the knowledge of syntactic structures of Spanish.
- Enrich passive and active vocabularies of Spanish.
- Demonstrate competence in writing short essays in Spanish that conform to the "advanced" level as described in the ACTFL proficiency guidelines.
- Improve listening comprehension of authentic Spanish sources.

SPAN 423 : Border Spanish. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Span 326 or Span 329.
DESCRIPTION: Mexican-American speech patterns, including language contact and bilingualism.
NOTE: Previous course in linguistics strongly recommended.

**Course Outcomes**

- Students will demonstrate a knowledge of principal features of (Mexican-American) Popular Spanish in terms of semantics, morphosyntax, and phonetics/phonology.
- Students will understand and be able to describe succinctly S-E bilingual contact phenomena, such as borrowing, code-switching, and language maintenance/shift.
- Students will gain a greater understanding of and appreciation for Mexicans and Mexican-Americans living in the U.S.

SPAN 425 : Contrastive Analysis of the Structures of Spanish and English. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Span 326 or Span 329.
DESCRIPTION: Contrastive analysis of phonology, morphology, syntax, and semantics of Spanish and English.

**Course Outcomes**

- Students will be able to explain the chief differences and similarities between the structures of the English and Spanish languages.
- Learn the basic principles of Spanish phonology, morphology (both derivational and inflectional), syntax and sociolinguistics.
- Learn what the assumptions of modern linguistics are (e.g., natural language is based on the use of signs; language is a social phenomenon; oral language takes precedence over written language; linguistics is descriptive, not prescriptive; variation is intrinsic to language; language is highly structured; there are linguistic universals; etc.)
- Be able to solve linguistic problems in the teaching and learning of a second language.

SPAN 429R : Special Topics in Spanish Linguistics. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 326; or SPAN 329
DESCRIPTION: Course content varies yearly; focuses on specific area of linguistics such as dialectology or sociolinguistics.

**Course Outcomes**

There are no course outcomes available

: Dialectology.

**Course Outcomes**

: Sociolinguistics.

**Course Outcomes**

: Language Planning.

**Course Outcomes**

: Bilingualism.

**Course Outcomes**

: Syntax.

**Course Outcomes**

: Semantics.

**Course Outcomes**

SPAN 430R : Special Topics in Hispanic Culture. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Span 322 or concurrent enrollment.
DESCRIPTION: Regional and thematic approaches to Hispanic culture. Subject matter will vary.

**Course Outcomes**

There are no course outcomes available

SPAN 438 : Hispanic Cinema. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 339
DESCRIPTION: Introduction to study of film; background in appreciating best of motion picture art in Spain and Spanish America.
NOTE: Previous experience with film useful but not required.

**Course Outcomes**

- Students will demonstrate a mastery of basic tools of film analysis through the study of a variety of films from the various film industries from Spain and Spanish America.
- Students will write cogent, persuasive essays of literary interpretation.

- Students will demonstate the ability to speak and write in Spanish about film with a reasonable degree of grammatical correctness and fluency.

SPAN 439R : Hispanic Theatre Production. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: Director's consent
DESCRIPTION: Theory and practice of dramatic performance. Includes participation in play to be performed during semester.
NOTE: No more than 3 hours of 439R credit may count toward any degree.

**Course Outcomes**

There are no course outcomes available

SPAN 440 : Medieval Spanish Literature. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.
PREREQUISITE: SPAN 441
DESCRIPTION: Spanish literature from *El Cantar de Mio Cid* (1140) through *La Celestina* (1499).

**Course Outcomes**

There are no course outcomes available

SPAN 441 : Survey of Spanish Literature. (3:3:0)

OFFERED: Independent Study also.
WHEN TAUGHT: Fall; Winter; Spring; Summer Contact Department
PREREQUISITE: SPAN 339
DESCRIPTION: Literary masterpieces of Spain.

**Course Outcomes**

There are no course outcomes available

SPAN 443R : Golden Age Literature. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.; Spring
PREREQUISITE: SPAN 441
DESCRIPTION: Sixteenth- and seventeenth-century Spanish literature.

**Course Outcomes**

- Students will be able to demonstrate knowledge about one or more authors from the 16th and/or 17th centuries.
- Students will be able to analyze the texts studied in terms of the historical, cultural, and literary context of the Early Modern world.
- Students will be able to describe, analyze and discuss one or more of the genres of Early Modern Spanish literature and the conventions connected with the genre(s).
- Students will strengthen their research and writing skills by producing essays about, editions of, and/or translations of 16th and 17th-century Spanish texts.
- Students will develop the skills necessary to appreciate and enjoy reading Early Modern Spanish texts.

SPAN 444 : *Don Quijote.* (3:3:0)

WHEN TAUGHT: Winter Odd Yrs.
PREREQUISITE: SPAN 441
DESCRIPTION: In-depth study of Cervantes' *El ingenioso hidalgo don Quijote de la Mancha*.

**Course Outcomes**

- Students will read Don Quijote de la Mancha in its original version, taking into account plot and character development, symbolism, cultural and literary context, literary antecedents, and subsequent influence.
- Students will comment on different strategies for reading, writing and translating (using critical vocabulary) as discussed in the Quijote, and will explain the different critical stances, including the "hard" perspective and the "soft" perspective.
- Students will trace the stylistic innovations introduced by Cervantes in the Quijote, and its intersections with other genres (e.g. theater, poetry).
- Students willanswer the question of whether el Quijote really is the first modern novel as many claim it to be. Students will identify and analyze episodes in the novel that display realism and metafiction, and will recognize the impact the Quijote has had on the development of these modes in the subsequent development of the western novel.

SPAN 446R : Nineteenth-Century Literature. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: SPAN 441
DESCRIPTION: Romanticism (1770s through 1870s) and/or the novels of Benito Perez Galdos and his contemporaries.

**Course Outcomes**

There are no course outcomes available

SPAN 448R : Twentieth-Century Spanish Literature. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.
PREREQUISITE: SPAN 441

DESCRIPTION: Genre (twentieth-century novel, drama, or poetry) or particular school (Generation of 1898, Generation of 1927, etc.) emphasized.

**Course Outcomes**

- Demonstrate thorough understanding of twentieth-century Spanish literary history.
- Demonstrate ability to apply key terms in critical practice (e.g., practical criticism, structural analysis, hermeneutics, etc.).
- Develop advanced skills in research techniques and academic writing.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to 20th-century Spanish Literature.

SPAN 449R : Special Topics in Spanish Literature. (3:3:0)

WHEN TAUGHT: Contact Department. ; Summer Even Yrs.

PREREQUISITE: SPAN 441

DESCRIPTION: Specific topics in Spanish (peninsular) literature. Course content will vary each semester to offer optimum exposure to all areas of Spanish literature.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Spanish, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Spanish literary study that inspire continued learning.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to special topics in Spanish Literature.

SPAN 450R : Early Spanish-American Literature. (3:3:0)

WHEN TAUGHT: Contact Department. ; Winter Even Yrs.

PREREQUISITE: SPAN 451

DESCRIPTION: Indigenous literature (Maya, Nahuatl, etc.) and other texts written in Spanish Colonial America through eighteenth century.

**Course Outcomes**

- Apply a variety of analytical and theoretical approaches to the study of early Spanish American writings as literature and as a reflection of the early cultures of the Spanish-speaking countries of the Americas.
- Demonstrate an ability to critically analyze early Spanish American literature through insightful in-class participation, oral presentations, and written assignments.
- Demonstrate a strong knowledge of a broad range of the important literary and historical texts of the early Spanish American period and of the historical and cultural contexts in which they were produced.

SPAN 451 : Survey of Hispanic-American Literature. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer, Contact Department

PREREQUISITE: SPAN 339

DESCRIPTION: Literary masterpieces of Spanish America.

**Course Outcomes**

- Understand and properly apply the tools of literary analysis, literary theory as well as other critical and philosophical concepts which may apply to Spanish American literature.
- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Define and recognize the periods, significant authors, schools or movements of Spanish American literature.
- Recognize and value the contributions, past and present, of Spanish American literature to the cultures of its respective countries.
- Develop the habits and skills of lifelong readers of Spanish American literature.
- Demonstrate and apply a strong understanding of the basic structures of the Spanish language as they apply to literature.
- Write analytical and descriptive essays in Spanish that demonstrate an advanced knowledge of the works studied, a proper command of the Spanish language, mastery of the tools of literary criticism, and familiarity with research methodologies.

SPAN 454R : The Spanish American Novel. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Selected Spanish-American novelists such as Juan Rulfo, Gabriel Garcia Marquez, Alejo Carpentier, Mario Vargas-Llosa, etc.

**Course Outcomes**

There are no course outcomes available

SPAN 455R : Spanish-American Poetry. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Selected Spanish-American poets, movements, and national traditions.

**Course Outcomes**

- Demonstrate critical acuity in interpreting individual poems, making appropriate reference to formal poetic devices.
- Demonstrate a grasp of the historical, social, and literary contexts of the poems and poets studied.

- Express one's insights in a research paper which makes appropriate use of secondary sources.

SPAN 456R : Spanish American Drama. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 451

DESCRIPTION: Twentieth-century theatre from Spanish America and Brazil.

**Course Outcomes**

There are no course outcomes available

SPAN 458R : Hispanic-American Short Story. (3:3:0)

WHEN TAUGHT: Contact Department. Fall Odd Yrs.

PREREQUISITE: SPAN 451

DESCRIPTION: Introduction and development of an important literary genre in Spanish America, including works of Jorge Luis Borges, Julio Cortazar, Juan Rulfo, Gabriel Garcia Marquez, etc.

**Course Outcomes**

- Master basic bibliographical techniques related to the short story genre.
- Demonstrate a firm grasp of the formal aspects of the short story genre.
- Gain a working knowledge of the history and principal figures of the Spanish American short story.

SPAN 459R : Special Topics in Spanish American Literature. (3:3:0)

WHEN TAUGHT: Contact Department. ; Spring Even Yrs.

PREREQUISITE: SPAN 451

DESCRIPTION: Specific topics in Latin American literature. Course content will vary each semester to offer optimum exposure to all areas of Latin American literature.

**Course Outcomes**

- Recognize aesthetic constructs, genre differences and similarities, ideological trends, and historical contexts.
- Write essays in Spanish, including one final research paper, that demonstrate an advanced knowledge of the use of language and literary criticism.
- Develop the habits and skills for Spanish literary study that inspire continued learning.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to special topics in Spanish-American Literature.

SPAN 461 : Spanish-Speaking American (Mexican-American) Literature. (3:3:0)

WHEN TAUGHT: Fall Contact Department; Winter Even Yrs.; Spring Contact Department; Summer Contact Department

PREREQUISITE: SPAN 451

DESCRIPTION: Spanish-English literature of the Mexican-American within the United States.

**Course Outcomes**

- Demonstrate thorough understanding of the history of Mexican-American literary history.
- Develop advanced skills in research techniques and academic writing.
- Understand and properly apply the tools of literary analysis, as well as critical and philosophical concepts which may apply to Mexican-American Literature.

SPAN 476 : Secondary Spanish Student Teaching. (12:0:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Completion of all course work or departmental approval; requires a major GPA of 2.85; at least a C- in Span 377, 378, and 380.

DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

**Course Outcomes**

- Critically integrate professional readings, coursework, and teaching experiences into a repertoire of options for professional thought and action
- Improve your Spanish language proficiency, your cultural understanding, and your ability to help students see patterns in the language.
- Craft standards-based, developmentally and contextually appropriate, meaningful learning experiences in Spanish that support the growth of students' language proficiency
- Contextualize language learning experiences in cultural products, practices, and perspectives and use various techniques for engaging students in critical thinking and problem-solving regarding culture
- Utilize a variety of communication techniques and emerging technologies to foster active inquiry and collaboration in the classroom, to develop language proficiency and cultural competence, to foster students' intrinsic motivation, and to support your own professional productivity and growth
- Develop and adapt a variety of traditional and alternative assessments (including performance-based assessments, portfolios, projects, and self-assessments) to inform instruction, to evaluate students' proficiency across all three modes of communication, to provide feedback that will improve student performance, and to report student progress
- Participate professionally in the school community, in professional organizations and professional development activities, and engage in professional dialogue and reflection with colleagues and community agencies to support students, improve your teaching, and strengthen your program
- Adapt learning experiences appropriately to better meet the needs of culturally diverse learners, including students with a variety of learning styles and special needs

SPAN 477 : Techniques of Spanish Instruction. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: SPAN 321 & SPAN 326 & SPAN 345; or SPAN 321 & SPAN 326 & SPAN 355

DESCRIPTION: Techniques for teaching the four language skills and grammar, vocabulary, and culture; use of technology; assessing language achievement.

NOTE: For students not enrolled in Spanish teaching major or minor.

**Course Outcomes**

- Discuss basic theories of language teaching and learning.
- Plan Standards-based units and lessons, aligning assessments with learning objectives.
- Teach beginning-level vocabulary, grammar, culture, and the four skills (speaking, listening, reading, writing).
- Assess students' language and culture learning.

SPAN 480R : Directed Research in Spanish. (.5-3:ARR:0)

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: Written proposal subject to department approval.

DESCRIPTION: Under faculty member's direction, designing and conducting research project covering material not normally presented in regular course work. Research paper required.

NOTE: Total Span 480R credit toward bachelor's degree not to exceed 3 hours.

**Course Outcomes**

- Conduct advanced, independent research on a topic in Hispanic studies.

SPAN 490 : Senior Seminar in Spanish. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Senior standing.

DESCRIPTION: Bibliography, research, and writing of senior thesis.

NOTE: Recommended for students planning graduate studies in Spanish.

**Course Outcomes**

There are no course outcomes available

SPAN 491 : Senior Proficiency Evaluation. (0:1:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Tool course to meet oral proficiency requirement for all majors and teaching minors.

NOTE: No major or minor credit.

**Course Outcomes**

- Receive an Advanced Low or better on the Oral Proficiency Interview.

SPAN 493 : Capstone Course in Spanish. (1:1:0)

WHEN TAUGHT: Contact Department. Fall; Winter; Summer

PREREQUISITE: Senior status or departmental advisor's consent.

DESCRIPTION: A culminating experience for Spanish as a first or second major. Students will be able to articulate the value of the Spanish BA and will develop strategies and a rationale for applying the skills acquired during their undergraduate studies.

NOTE: Course must be taken concurrently with an approved upper-division, senior-level (e.g. 400-level) course in the semester prior to graduation.

**Course Outcomes**

- Students will be able to articulate the value of the Spanish and Portuguese BA.
- Students will develop strategies and a rationale for applying the skills acquired during their undergraduate studies in all aspects of their future lives.

SPAN 496 : Secondary Spanish Teaching Internship. (12:0:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Completion of all course work or departmental approval; requires a major GPA of 2.85; at least a C- in Span 377, 378, and 380.

DESCRIPTION: Capstone, field-based, year-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

**Course Outcomes**

- Critically integrate professional readings, coursework, and teaching experiences into a repertoire of options for professional thought and action
- Improve your Spanish language proficiency, your cultural understanding, and your ability to help students see patterns in the language.
- Craft standards-based, developmentally and contextually appropriate, meaningful learning experiences in Spanish that support the growth of students' language proficiency
- Adapt learning experiences appropriately to better meet the needs of culturally diverse learners, including students with a variety of learning styles and special needs
- Contextualize language learning experiences in cultural products, practices, and perspectives and use various techniques for engaging students in critical thinking and problem-solving regarding culture
- Utilize a variety of communication techniques and emerging technologies to foster active inquiry and

collaboration in the classroom, to develop language proficiency and cultural competence, to foster students' intrinsic motivation, and to support your own professional productivity and growth
- Develop and adapt a variety of traditional and alternative assessments (including performance-based assessments, portfolios, projects, and self-assessments) to inform instruction, to evaluate students' proficiency across all three modes of communication, to provide feedback that will improve student performance, and to report student progress
- Participate professionally in the school community, in professional organizations and professional development activities, and engage in professional dialogue and reflection with colleagues and community agencies to support students, improve your teaching, and strengthen your program

## 500-Level Graduate Courses (available to advanced undergraduates)

SPAN 520 : Problems in Spanish Grammar. (3:3:0)

WHEN TAUGHT: Winter Odd Yrs., Contact Department; Spring Contact Department; Summer Even Yrs.

PREREQUISITE: SPAN 326; or SPAN 329

DESCRIPTION: Application of contemporary grammatical concepts to problems in Spanish grammar.

**Course Outcomes**

- The student enrolled in Problems in Spanish Grammar will carefully examine and formulate more accurate and complete rules for several recalcitrant grammar "problems" by reading and studying selections from grammarians and researchers who provide insights into the problem in question. The student's ability to synthesize coherent and meaningful generalizations will be objectively tested by exams and further evaluated while he or she participates in classroom discussion.
- The student enrolled in Problems in Spanish Grammar will acquire a greater understanding of both descriptive and prescriptive grammars and their function and limitations. The student will also acquire specialized terms employed by grammarians and morphosyntacticians. The student's ability to understand and use these terms appropriately will also be objectively measured by examination.
- Complete a research paper/presentation on a particular grammar point or construction. This assignment will test a student's ability to locate appropriate refereed sources, read and synthesize them and prepare a written document and oral presentation according to a recognized style manual.

SPAN 521 : Romance Philology. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 326; or SPAN 329

DESCRIPTION: Comparative study of the evolution of Latin into modern Romance languages.

**Course Outcomes**

- Situate Latin and the Romance Languages in their "external" (i.e. political and literary) historical context.
- Recognize the "laws" of regular phonological evolution (e.g. syncope, lenition, diphthongization, etc.).
- Compare the "major" (i.e. literary) Romance languages as far as their phonological development is concerned.
- Summarize the major lexical differences across Romance languages and some of the basic principles of etymology.
- Become familiar with articles published in professional journals relating to the subject matter and produce accurate and meaningful written summaries and reactions to them.
- Learn the rudiments of transcribing medieval or Renaissance manuscripts.

SPAN 522 : History of the Spanish Language. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.; Summer Odd Yrs.

PREREQUISITE: SPAN 326; or SPAN 329

DESCRIPTION: Linguistic sources that contributed to formation of the Spanish language.

**Course Outcomes**

- Acquire a basic knowledge of the changes undergone by the nominal and verbal systems of Latin and Castilian (e.g. the demise of the case system, the development of new verbal tenses, etc.).
- Demonstrate the ability to summarize and discuss in a clear and concise manner several scholarly articles on the topic of the history of the Spanish language.
- Situate Latin and Castilian in their political and literary historical contexts.
- Recognize the laws of regular phonological development (e.g. syncope, lenition, diphthongization, etc.).
- Identify the sources of the Castilian lexicon.
- Understand the different theories that claim to understand the relation between Latin and the Romance languages, especially the relation between Latin and Castilian.
- Understand the process of linguistic standardization in Romance and its implications for the linguistic map of the Iberian Peninsula.

SPAN 529R : Special Topics in Spanish Linguistics. (3:3:0)

WHEN TAUGHT: Contact Department. Fall

PREREQUISITE: SPAN 326; or SPAN 329

DESCRIPTION: Topics include semantics, dialectology, and sociolinguistics.

**Course Outcomes**

- Read and analyze research articles related to special topic.
- Produce an original research paper/project centered on the theme of the seminar.

SPAN 577 : Spanish Language Teaching Procedures. (3:3:2)

WHEN TAUGHT: Contact Department.

PREREQUISITE: For public school teachers.

DESCRIPTION: Mastery of skills specific to foreign language instruction. Lectures, demonstrations, practical experience.

**Course Outcomes**

- Discuss basic theories of language teaching and learning.
- Plan Standards-based units and lessons, aligning assessments with learning objectives.
- Teach beginning-level vocabulary, grammar, culture, and the four skills (speaking, listening, reading, writing).
- Assess students' language and culture learning.

SPAN 599R : Academic Internship: Spanish Internship. (.5-3:0:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: SPAN 321

NOTE: For supervised internship credit on BYU Study Abroad programs only.

**Course Outcomes**

- Successfully complete internship in a Spanish speaking country.

# J. Reuben Clark Law School

341 JRCB
(801) 422-4277

**Dean:** James R. Rasband
**Associate Dean:** Kif Augustine Adams
**Associate Dean:** Scott W. Cameron
**Associate Dean:** D. Gordon Smith
**Assistant Dean:** Wendy Archibald
**Assistant Dean:** Carl Hernandez III
**Assistant Dean:** Mary H. Hoagland

The J. Reuben Clark Law School offers a six-semester course of graduate professional study leading to the juris doctor (JD) degree. Information about legal education, admissions standards, and related matters can be obtained from the Law School Admissions Office or at www.law2.byu.edu/.

To be admitted to the Law School, an applicant must be a college graduate who has excelled academically and has scored in the upper range of the nationally administered Law School Admission Test. In addition, applicants must meet the general university admission requirements, including the personal standards required of all students.

Apply for admission online at www.lsac.org by February 1 preceding the fall of expected enrollment in the Law School. Enrollment takes place only in the fall of each year.

For more information regarding prelegal education, consult the Preprofessional Advisement Center (Law).

Internet: http://lifesciences.byu.edu

**Dean**: Rodney J. Brown, Professor, Nutrition, Dietetics, and Food Science
**Associate Dean**: Brad L. Neiger, Professor, Health Science
**Associate Dean**: James P. Porter, Professor, Physiology and Developmental Biology
**Assistant Dean**: Shauna C. Anderson Young, Professor, Microbiology and Molecular Biology
**Assistant Dean**: John D. Lee, Microbiology and Molecular Biology

The following departments are included within the College of Life Sciences:

- Biology (Bio)
- Exercise Sciences (ExSc)
- Health Science (Hlth)
- Microbiology and Molecular Biology (MMBio)
- Nutrition, Dietetics, and Food Science (NDFS)
- Physiology and Developmental Biology (PDBio)
- Plant and Wildlife Sciences (PWS)

Courses offered in the life sciences give students a general understanding of the fundamental principles of life that extend from the tiniest microbes to plants, animals, and human beings. Students also obtain the knowledge, skills, and motivation necessary to maintain a healthy lifestyle. Specialized courses emphasizing teaching and research in various life science disciplines are also offered. Disciplines range from basic science to applied science.

## Student Services

### Life Sciences Student Services Center

Shauna C. Anderson Young, Assistant Dean
Jeanne M. Gubler, Manager Advisement
Farris Child, Advisement Assistant/Assessment
Lisa Buzan, Advisement Assistant
C. Gale Larson, Advisement Assistant
380 WIDB
(801) 422-3042
Hours: 8:00 a.m. to 5:00 p.m., Monday–Friday

Emily Stevens, LRC Manager
194 SFH
(801) 422-4579
Hours: 7:45 am to 7:00 pm, Monday through Friday
8:00 am to 4:00 pm, Saturday

The goal of the Life Sciences Student Services Center is to provide "one stop shopping for students and faculty." The center services students in five areas: advisement, assessment, career advisement, college life, and mentored experiences.

**Advisement**—Students are instructed in general education advisement as well as assistance in creating a graduation curriculum plan for their major. Advisement is regarded as an interactive, developmental experience between students and advisors. Among other advisement services are the change of major, academic success, and graduation processes, as well as other specific advisement needs. LfSc 101 is offered to all new students who are exploring Life Science majors. All majors and career options are presented in this course plus basic student development principles to assist new students in adapting to BYU and becoming familiar with its resources.

**Assessment**—Students are informed of the importance of maintaining the university's accreditation standing. Students assist the assessment process by providing input through surveys, exit interviews, one-year-out and five-year-out surveys, and results on national major field exams and other national and professional school admission exams.

**Career advisement**—Students are assisted in major exploration and basic developmental career issues. Information is provided regarding university resources for further career and major exploration.

**College life**—The "Empowering Others" philosophy encourages students to help and teach each other by creating a spirit of cooperation rather than competition. Study groups are fostered and organized to enhance learning. A learning facility provides tutoring services for students enrolled in the essential biology courses. This walk-in area allows a student access to tutors 10–12 hours per day. Leadership opportunities for students can be enhanced through participation on the Life Sciences Student Council and participation in clubs. The college also offers scholarship opportunites to its undergraduate and graduate students.

**Mentored experiences**—Internships provide students with opportunities to try out their prospective careers. The center provides resources for obtaining internships as well as processing all the paperwork and awarding grants to students who desire that experience. Assisting faculty with research constitutes a mentorship. Students learn invaluable skills and problem-solving techniques from their mentors. The center can help students seeking mentored experiences.

## M. L. Bean Life Science Museum

Larry St. Clair, Director
Leigh Johnson, Associate Director for Research and Collections
Marta Adair, Assistant Director for Education
290 MLBM

Robert Johnson, Collections Manager, Herbarium
John Bell, Curator of Mollusks and Crustaceans
Shawn Clark, Collections Manager, Arthropods
Jerald Johnson, Assistant Curator of Fish
Leigh Johnson, Curator, Herbarium
Randy Larsen, Assistant Curator of Birds
Riley Nelson, Assistant Curator of Insects
Duke Rogers, Curator of Mammals
Dennis Shiozawa, Curator of Fish
Jack Sites, Curator of Reptiles and Amphibians
Wesley Skidmore, Collections Manager, Vertebrates
Larry St. Clair, Curator of Nonvascular Cryptogams
Michael Whiting, Curator of Insects

The Bean Life Science Museum is fully accredited with the American Association of Museums. Its vast teaching and research collections include more than two million arthropods, fish, amphibians, reptiles, mammals, birds, and mollusks, and more than 700,000 plants, fungi, and bryophytes. Specimens for these collections, which represent creative work by university faculty members and students, have been gathered from around the world, making the museum a major repository of scientific-quality, biological collections in the western United States.

The museum and its collections are utilized by university classes in biology, plant and wildlife sciences, education, art, geography, and other disciplines. The museum also maintains and manages the Lytle Ranch Preserve. Located in the northernmost extension of the Mojave Desert southwest of St. George, Utah, this 600-acre desert classroom is situated in a part of Utah that is unique not only for its plant and animal communities, but also for its setting at the crossroads of three major bioregions.

Public programs include temporary and permanent exhibits of natural communities that illustrate complex relationships between plants, animals, and their physical environment. Educational programs serve more than 100,000 annual visitors and provide classes and programs for public and private schools and many other organizations. Museum hours are Monday through Friday from 10:00 a.m. to 9:00 p.m. and Saturday from 10:00 a.m. to 5:00 p.m. The museum is closed on Sunday. Admission is free.

*The Western North American Naturalist*, a nationally recognized peer-reviewed natural history journal, is housed in the museum. Other museum publications include professional and popular works such as *A Utah Flora, Bark and Ambrosia Beetles of South America, Snakes of Utah*, and *Common Rocky Mountain Lichens*.

## Admission to Degree Program

All degrees within this department are open enrollment programs.

## The Discipline

Programs in the Department of Biology focus on training students in the organismal and broader perspectives of the biological sciences. Fields include systematics of taxonomic groups, ecology, and evolution, which often rely on the application of molecular biology and genetics.

## Career Opportunities

Biology entails rigorous, broad training and synthetic reasoning, which prepare students for careers in a wide variety of professional fields ranging from technical work in research laboratories to field technicians for environmental research companies or government agencies. Majors may develop their interest in such diverse areas as environmental biology, evolutionary biology, aquatic biology, molecular biology, plant biology, or taxonomy. Students satisfy the requirements for graduate studies in the biological sciences or professional schools.

The bioinformatics major is for students with interests in both the computer and the biological sciences. The degree merges these interests in the areas of bioinformatics and computational biology, giving students the skills for graduate or professional (medical, dental, law) schools or immediate employment opportunities after completing the undergraduate program, especially with biotechnology companies.

The biological science education program provides a solid foundation in courses that meet the National Science Teachers Association certification requirements for secondary education biology teaching. The program also prepares students for continuing their education in graduate school.

Preveterinary medicine students interested in veterinary medicine are encouraged to incorporate required preveterinarycurriculum into an academic program of their choosing. See the description of the biology major for additional information.

## Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- At least 30 credit hours must be earned in residence on the BYU campus in Provo as an admitted day student
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

## Undergraduate Programs and Degrees

**BS in Bioinformatics** (Program Outcomes)
**BS in Biological Science Education** (Program Outcomes)
**BS in Biology** (Program Outcomes)
**BS in Conservation Biology** (Program Outcomes)

Students should see Life Sciences Student Services (379 WIDB) for help or information concerning the undergraduate programs.

## Graduate Programs and Degrees

This department offers MS and PhD degrees. See the graduate school Web site: http://www.byu.edu/gradstudies.

## Program Objectives

Bioinformatics is an interdisciplinary program offering substantial training in both the biological sciences and the physical and mathematical sciences, with an emphasis on computer programming coupled with genetics and molecular biology. Students are expected to acquire programming, databasing, and operating system skills coupled with a foundation in mathematics and statistics. In addition, students will receive broad training in the basic concepts of biology and chemistry. Students attracted to this program have dual interests in math/computer science and biology, and find it an exceptional option for their broad interests.

## Program Requirements | View MAP | View Program Outcomes

1. Complete the following:

BIO 130 : Biology. (4:3:1)
WHEN TAUGHT: Fall; Winter
DESCRIPTION: General biology course with laboratory for biology majors. Introduction to disciplines in the life sciences including methods for scientific inquiry, biochemical dynamics, cell structure and function, evolutionary theory, bioenergetics, and ecological interactions.

**Course Outcomes**

- Students will demonstrate basic literacy in the language of science and an understanding of the foundational theories of biology (i.e., be able to formulate appropriate hypotheses and predictions to test specific biological phenomena and use appropriate vocabulary to do so) o Atomic Molecular Theoryo Cell Theoryo Theories of Photosynthesis, Fermentation, and Cellular Respirationo Cell Division and Meiotic Theorieso Chromosomal and Mendelian Theories of Inheritanceo Watson and Crick's Theory of DNA Structure and Replicationo Protein Synthesis Theoryo Darwin's Theory of Natural Selectiono Hardy-Weinberg Theoryo Ecosystem Theoryo Population Growth Theoryo Competitive Exclusion and Behavioral Theory
- Students will demonstrate an understanding of the basic scientific principles which undergird the scientific process, including the strengths and weaknesses of this process.
- Students willappreciate the excitement of discovery that has accompanied important scientific developments.
- Students will demonstrate how scientific methodology can be used to analyze real-world science-related problems.
- Students will be able to evaluate scientific data and claims in order to make rational decisions on public-policy science issues that affect their community.
- Students will be able to express their thoughts (in oral, graphical, and written formats) on scientific topics clearly, including appropriate use of basic scientific vocabulary and effective interpretation of quantitative data.
- Students will be able to reflect rationally upon the interface between science and religion.
- Students will demonstrate sound scientific reasoning ability.

BIO 165 : Introduction to Bioinformatics. (3:3:0)
WHEN TAUGHT: Winter
DESCRIPTION: Introduction to basic concepts in bioinformatics. Standard bioinformatic applications.

**Course Outcomes**

There are no course outcomes available

BIO 370 : Bioethics. (2:1:3)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: Introductory biology course.
DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

**Course Outcomes**

- Students will understand the ethical and philosophical underpinnings of bioethics and to develop ethical intuitions on bioethical issues.
- Students will learn the terminology, vocabulary, and objectives of bioethics.

Students will understand the tools and approaches needed to make a bioethical decision and to communicate that decision in rationally informed ways.
- Students will understand the bioethical primary literature, to understand how to read case studies, and familiarity with the major issues being discussed in bioethics today.

BIO 420 : Evolutionary Biology. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: MMBIO 240 & PWS 340
RECOMMENDED: Concurrent enrollment in Bio 421.
DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

**Course Outcomes**

- Students will be able to describe the history and development of evolutionary thought.
- Students will be able to list and describe the evidence for evolution and its required corollaries.
- Students will be able to describe the mechanisms by which evolution occurs. Provide detailed explanations of the the processes of evolution by mutation, migration, genetic drift, non-random mating, and natural selection.
- Students will be able to explain adaptation, providing examples from several different fields of biology (e.g., cell biology, physiology, conservation biology, bioinformatics, medicine, behavior, etc.).
- Students will be able to describe the history of life on earth. Identify major evolutionary transitions over time, and explain the tools and evidence that support current hypotheses of the history of life.

BIO 421 : Evolutionary Biology Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: MMBIO 240
DESCRIPTION: Hands-on applications and analytical tools of evolutionary biology; emphasizing inference methodology and evidence complementing the theoretical constructs introduced in Bio 520, including comparative anatomy, phylogenetic inference, population genetics, species concepts, and human evolution.
NOTE: Concurrent enrollment with Bio 420 is strongly recommended.

**Course Outcomes**

- Students will gain a better understanding of the basic principles of evolution within a population including selection, drift, and founder effects by using computer simulations.
- Students will have a deeper understanding of the LDS position on evolution.
- Students will learn the details of phylogenetic reconstruction, tree searching, DNA sequence alignment, and other bioinformatics tools for deciphering patterns of evolution.
- Students will learn the details of species concepts and the criteria used for identifying and diagnosing species.
- Students will gain hands-on experience with hominid fossils and gain an understanding of the evidence that elucidates the biological history of humans.

BIO 465 : Bioinformatics and Proteomics. (3:2:1)

WHEN TAUGHT: Winter
PREREQUISITE: BIO 365
DESCRIPTION: 3-D protein structural comparisons, hidden Markov models for database comparisons, homology detection, multiple sequence analyses, and protein family comparisons. Exercises in computer programming in genomics.

**Course Outcomes**

- Students will learn and demonstrate mastery of advanced analytical bioinformatics techniques, including genome assembly, genome annotation, and protein analyses.
- Demonstrate ability to use and evaluate literature databases and primary literature directed to the bioinformatics community in terms of newly developed software, analytical algorithms, application to empirical data, etc.
- Apply and develop computational skills in secondary (i.e., helices, etc.) and tertiary (i.e., folding, etc.) prediction, and 3-dimensional (i.e., x-ray crystal structures, etc.) modeling of protein structures.
- Apply evolutionary concepts to modeling DNA/proteins to evaluate and/or predict function, utilizing 3D structures, physical and chemical amino acid properties, etc.
- Apply existing and develop new tools for genome assembly and annotation from next-generation DNA sequencing projects

MMBIO 240 : Molecular Biology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: BIO 130 & CHEM 105; or PDBIO 120 & CHEM 105; or MMBIO 151 & CHEM 105
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.
NOTE: Chem 105 and Chem 111 can also fulfill the prerequisite requirement; contact advisor.

**Course Outcomes**

- Describe and compare the functions and molecular structures of DNA, RNA, and protein, and explain the processes and regulatory mechanisms governing the synthesis of each.
- Explain a variety of molecular biology techniques, and interpret experimental results obtained using the various methods.
- Solve unfamiliar problems by applying the information and principles mastered through Learning Outcomes 1 and 2
- Collaborate with other students to solve challenging problems, to clarify ideas and concepts, and to learn from one another in a spirit of cooperation and integrity

PWS 340 : Genetics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: MMBIO 240; or CHEM 481M; or CHEM 481

DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

**Course Outcomes**

- Students can construct two- and three-point linkage maps.
- Students can display fluency in interpreting gene annotation and nomenclature in GenBank records.
- Students can demonstrate ability to analyze and apply Chi-square goodness-of-fit tests to complex geneticdata sets involving segregation and Hardy-Weinberg equilibrium models.
- Students can identify differences between extranuclear, autosomal and sex-linked inheritance patterns.
- Students can use genetic data (DNA or amino acid sequence) to reconstruct basic evolutionary phylogenies.
- Students can dissect quantitative traits into environmental and genetic variance components.

2. Complete one course from the following:

BIO 365 : Computational Biology. (3:2:1)

WHEN TAUGHT: Fall

PREREQUISITE: C S 240

DESCRIPTION: Computational analysis of DNA data; introduction to bioinformatics databasing using Perl and SQL; configuration of UNIX workstations for bioinformatics analyses.

**Course Outcomes**

- To provide practical experience in using computational approaches to address biological problems.
- Describe general areas of computational problems in biology (alignment, estimation, tree searches, molecular modeling, gene prediction) and learn about existing computational approaches to these general problems.
- Learn basic computational tools for statistical inference (Bayesian, Maximum likelihood, Markov Chain Monte Carlo, Hidden Markov Chain)
- Apply programming skills to alignment problems through the development of novel tools and software for alignment
- Apply programming skills to tree searching problems through the development of novel tools software
- Apply programming tools to gene prediction problems through the development of novel tools and software
- Develop ability to use existing and write new database code to access and manipulate genetic data

C S 418 : Bioinformatics. (3:3:0)

WHEN TAUGHT: Fall; Winter Contact Department; Spring Contact Department; Summer Contact Department

PREREQUISITE: C S 312

DESCRIPTION: Computational methods for analyzing biological systems. Dynamic programming, Markov models, Neural Networks, and Bayesian analysis are used to predict secondary structure, tertiary structure, and active sites for drug docking given molecular DNA sequence data.

**Course Outcomes**

- Graph Theoretical algorithms, Regulatory Inference
- Large Memory Genomic Mapping, SNP calling
- Develop new research ideas and communicate them effectively

3. Complete the following:

C S 142 : Introduction to Computer Programming. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Knowledge of algebra.

DESCRIPTION: Introduction to object-oriented program design and development. Principles of algorithm formulation and implementation.

**Course Outcomes**

- Use the rudiments of the environment and the resources available to help them program (editors, basic computer architecture, compilers, libraries, reference manuals, on-line help).Develop programs from an English description.Write programs on their own, independent of "hand holding" by a TA or an instructor (typically a dozen or so).Understand and use the basic programming constructs: types (built in types, basic provided types including arrays and strings, type construction), values (constants,variables, assignment statements, and expressions), control structures (sequential flow, conditional statements, and loops), and I/O (basic output to the screen and input from the keyboard, and file I/O).Understand and use objects (value representation, applicable operations, hidden implementations).Implement basic recursive algorithms.Describe and use the basic ideas of some of the more advanced programming constructs,including exceptions, inheritance, and polymorphism.
- AbstractionDebugging and Assurance of CorrectnessProgram Development (analysis, specification, design, implementation, testing)

C S 235 : Data Structures and Algorithms. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: C S 142

DESCRIPTION: Fundamental data structures and algorithms of computer science; basic algorithm analysis;

recursion; sorting and searching; lists, stacks, queues, trees, hashing; object-oriented data abstraction.

**Course Outcomes**

- Use the fundamental data types of computing (lists, stacks, queues, priority queues, sets, maps, trees, etc.).
- Understand the major techniques for implementing the fundamental data types (linked lists, binary search trees, hashing, heaps, etc.) and implement several of them.
- Properly use and select data structures from language-provided data-structure libraries.
- Apply basic algorithm analysis.
- Understand how recursion works and write programs using recursion to solve problems.
- Make informed decisions about which sorting and searching algorithms to use in specific circumstances.
- Write programs that require ~500 lines of code.

C S 236 : Discrete Structures. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: C S 235

DESCRIPTION: Introduction to grammars and parsing; predicate and propositional logic; proof techniques; sets, functions, relations, relational data model; graphs and graph algorithms.

**Course Outcomes**

- Understand and be conversant with basic discrete mathematical structures (finite state machines, regular expressions, grammars, propositional calculus, proof techniques, predicate calculus, sets, relations, functions, graphs).Write complex programs by using mathematical concepts as the basis for solving programming problems (finite state machines for lexical analysis; grammars for parsing; propositional and predicate calculus for logic programming; sets and algebras for relational databases; algebras, graphs, and topological sorting for optimizing datalog query processing).Incrementally build sophisticated programs by a systematic design process based on discrete mathematics.Design a solution for a programming problem and justify the design as one that is maintainable and extendable by other programmers who understand and are conversant with discrete mathematical structures.
- Demonstrate ability to build large programs by writing and integrating code from a diverse spectrum of program components.

C S 240 : Advanced Programming Concepts. (4:3:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: C S 236

DESCRIPTION: Advanced software development with an object-oriented focus. Design, implementation, and testing of several large programs in a Java and Linux environment using current technologies.

**Course Outcomes**

- a. Use coding, testing, and debugging strategies. b. Follow basic object-oriented design concepts.
- Write programs in an Object Oriented programming language using inheritance, polymorphism and class hierarchies.
- Use the Linux programming environment to execute basic commands and to run the compiler, linker, debugger, memory checker, and profiler.
- Demonstrate the aptitude and work ethic necessary to succeed in computer science.

C S 360 : Internet Programming. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: C S 240

DESCRIPTION: Internet application programming, including sockets, threads, CGI, database, e-commerce, Web services.

**Course Outcomes**

- Design and implement a variety of client-server and web applications.
- Analyze the performance of a web server, write convincingly to support your conclusions and give an oral report to describe your findings.
- Implement a web server using processes, semaphores, threads, sockets and signals.
- Use a set of web programming languages to implement an application.
- Use security to protect their web application.

CHEM 105 : General College Chemistry. (4:5:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.

DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.

NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

**Course Outcomes**

- Students will demonstrate a familiarity with the basic vocabulary and concepts of chemistry.
- Students will demonstrate a qualitative and basic quantitative understanding of the fundamental chemical laws which govern the material substances in our universe and which express how one variable in nature depends on another.
- Students will demonstrate the ability to manipulate quantitative descriptors of natural phenomena expressed both in the form of equations and of proportionalities, and solve chemistry problems using these skills.

- A successful Chemistry 105 students describes chemical phenomenon by first focusing on properties of the elements at the atomic level. Chemistry 105 students will gain a knowledge base of reactivity patterns of elements and compounds.
- Chemistry 105 students will be able to use their chemistry experience, knowledge, and skills to better understand and work in their own field of study.

CHEM 106 : General College Chemistry. (3:4:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: CHEM 105; or CHEM 111

DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.

NOTE: Three lectures and one recitation section per week.

**Course Outcomes**

- Students will demonstrate an expanded mastery of the concepts that were learned in Chemistry 105 including: kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, thermodynamics, organic, biochemistry, and nuclear chemistry.
- Students will demonstrate the ability to solve mathematical problems, typically using algebra, in kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, and thermodynamics.

MATH 112 : Calculus 1. (4:5:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.

**Course Outcomes**

- This course is designed for students majoring in the mathematical and physical sciences, engineering, or mathematics education and for students minoring in mathematics or mathematics education. Calculus is the foundation for most of the mathematics studied at the university level. The mastery of calculus requires well-developed skills, clear conceptual understanding, and the ability to model phenomena in a variety of settings. Calculus 1 develops the concepts of limit, derivative, and integral, and is fundamental for many fields of mathematics. This course contributes to all the expected learning outcomes of the Mathematics BS. For more detailed information, visit the Math 112 Wiki page.

: Honors Calculus 1.

**Course Outcomes**

MATH 113 : Calculus 2. (4:5:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 112.

DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.

**Course Outcomes**

- This course is designed for students majoring in the mathematical and physical sciences, engineering, or mathematics education and for students minoring in mathematics or mathematics education. Calculus is the foundation for most of the mathematics studied at the university level. The mastery of calculus requires well-developed skills, clear conceptual understanding, and the ability to model phenomena in a variety of settings. Calculus 2 develops techniques of integration, applications of integration, infinite sequences and series, parametric curves, polar coordinates, and conic sections. This course contributes to all the expected learning outcomes of the Mathematics BS. For a more detailed course description, visit the Math 113 Wiki page.

4. Complete the following:

STAT 151 : Introduction to Bayesian Statistics. (3:3:0)

WHEN TAUGHT: Fall; Spring

PREREQUISITE: MATH 112

RECOMMENDED: Concurrent enrollment in MATH 113.

DESCRIPTION: The scientific method; conditional probability; Bayes' Theorem; conjugate distributions: Beta-binomial, Poisson-gamma, normal-normal; Gibbs sampling.

**Course Outcomes**

- Explain how conditional probability and Bayes' Theorem relate to the analysis of data via the Bayesian paradigm
- Identify the conjugate priors of the normal (mean and variance), binomial, and Poisson distributions and derive the respective posterior distributions
- Explain why Gibbs and Metropolis samplers work and when they are appropriate to use
- Code in R a Gibbs sampler and/or Metropolis sampler for a simple non-conjugate posterior distributions
- Interpret and explain the results of Bayesian analysis

STAT 201 : Statistics for Engineers and Scientists. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: MATH 112; or MATH 119

DESCRIPTION: The scientific method; probability, random variables, common discrete and continuous random variables, central limit theorem; confidence intervals and hypothesis testing; completely randomized experiments; factorial experiments.

**Course Outcomes**

- Compute numerial and graphics summary statistics and explain the difference between populations given the summaries (numerical or graphical)
- Apply fundamentals of set theory and basic set operations to simple problems
- Distinguish between counting techniques (permutations, combinations) and compute the number of possible combinations for simple problems
- Solve simple problems using axioms of probability, conditional probability, independence, and Bayes' theorem
- Compute probabilities, expected values, and variances using the PDF of a discrete and a continuous univariate random variable
- Understand the definition of a sampling distribution, identify the mean, variance, and shape of the sampling distribution given the population information, and explain the application and importance of the Central Limit Theorem
- Understand the basics of experimental design, including the definition of the experimental unit, response, variable, factor(s), and level(s) of a basic experiment, and the role of randomization and replication to permit causal inference
- Compute the confidence interval for μ from a random sample and make the correct decision about an experiment when given a confidence interval
- Compute the test statistic and p-value for H0 : μ = μ0 from a random sample
- Make the correct decision when given the p-value for a hypothesis test and compute the ANOVA table for the data from a completely randomized design
- Compute pairwise confidence intervals on the difference in means (Fisher, Bonferroni) to understand a significant overall F-test from a completely randomized design
- Compute the ANOVA table for data from a two factor experiment
- Explain a statistically significant interaction
- Perform a two factor (or 2^3) experiment (in a group), compute the ANOVA table from the observed data, and write a technical report of the results of the experiment with appropriate graphics of significant effects or interactions

5. Complete six credit hours from the following upper-division electives in computer science, chemistry, mathematics, statistics, or biology:

BIO 450 : Conservation Biology. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 220A & BIO 350; or BIO 220B & BIO 350

DESCRIPTION: Scientific principles of conservation: applying population genetics, and phylogenetic and ecological theory to preservation of biological diversity; developing sustainable ecological systems compatible with human resource use.

**Course Outcomes**

- Apply an understanding of ecological processes to conservation of populations, species, and ecosystems.
- Foster and promote environmental stewardship within your realm of influence and your community.
- Demonstrate the ability to apply the scientific method and analytical thinking to ecological and conservation issues.
- Demonstrate the ability to synthesize literature relevant to a topic in conservation bioloigy
- Demonstrate the ability to write a scientific term paper

BIO 463 : Genetics of Human Disease. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: PWS 340

DESCRIPTION: Examining the application of genetics to understanding and treatment of human disease. Functional consequences of mutations; use of model organisms; linkage and association analysis of complex traits; pharmacogenetics; ethical considerations.

**Course Outcomes**

- Understand and explain the different types of genetic variants, how they can be typed and how they can be used to understand the genetic architecture of human disease.
- Understand linkage disequilibrium in the human genome and the role it plays in the search for genetic risk factors for human disease
- Understand and use basic statistics and software for analyzing the correlation between genetic markers and risk for disease.
- Understand and explain how model organisms contribute to our understanding of the genetics of human disease.
- Demonstrate the ability to obtain, aggregate and present information about the current knowledge of the genetics of a human disease.

BIO 468 : (Bio-MMBio-PWS) Genomics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: MMBIO 240 & PWS 340

DESCRIPTION: Current analysis of genes and genomes; computational and statistical approaches for analyzing genomic data, including genome sequencing and annotation, gene expression and the transcriptome, proteomics and functional genomics, and genetic variation and SNPs.

**Course Outcomes**

- Students will complete a series of exercises with data representing genomic experiments (analysis and interpret).
- Students will describe how genomes are sequenced.
- Students will understand techniques and concepts to assess genomic features such as methylation, gene expression, etc.

BIO 555 : Evolutionary and Ecological Modeling. (2:2:0)

WHEN TAUGHT: Winter Even Yrs.

PREREQUISITE: Senior status in bioinformatics program or graduate status; Stat 511, 512, or equivalent; instructor's consent.

DESCRIPTION: Using models in ecology. Practical experience in analytical, simulation, and agent-based models.

**Course Outcomes**

There are no course outcomes available

BIO 560 : Population Genetics. (4:4:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: Bio 420 or equivalent.

DESCRIPTION: Basic principles of population genetics applied to natural populations; drift, selection, and nonrandom mating; inferring population subdivision, migration, and gene flow.

**Course Outcomes**

- Students will gain a general introduction to the field a population genetics.
- Students will experience the broad application of population genetics to diverse fields from ecology to medicine.
- Students will manipulate and analyze population genetic data, especially molecular data.

C S 312 : Algorithm Design and Analysis. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: C S 240 & C S 252

DESCRIPTION: A study of the design and analysis of algorithms as solutions to problems, including dynamic programming, linear programming, greedy algorithms, divide-and-conquer algorithms, graph algorithms, and intelligent search algorithms.

**Course Outcomes**

There are no course outcomes available

C S 340 : Software Design and Testing. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: C S 240

DESCRIPTION: Principles of software design, design patterns, design representation, refactoring. Principles of software quality assurance and testing. Development and testing tools.

**Course Outcomes**

- Articulate the principles of effective software design.
- Know when and how to apply various design patterns.
- Demonstrate how to effectively document and communicate software designs.
- Understand what quality assurance is, know how to build quality into software using review techniques, and demonstrate quality evaluation through testing.
- Use a variety of software development tools, including IDEs, automation tools, static analysis tools, source code control systems, unit testing tools, and documentation tools.
- Work effectively in a group to produce quality software using 1-5 above.

C S 450 : Introduction to Digital Signal and Image Processing. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: C S 312 & C S 355 & MATH 313

RECOMMENDED: Stat 121.

DESCRIPTION: One- and two-dimensional signal-processing fundamentals, including sampling, noise, transforms, filtering, enhancement, and compression. Hands-on experimentation with speech, music, still images, and full-motion video.

**Course Outcomes**

- Understand and apply the following:Sampling and quantization of image informationCamera properties adn the acquisition of imagesMathematics of image-space transformationsFourier transforms adn filtering

C S 452 : Database Modeling Concepts. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: C S 240

DESCRIPTION: Database models: relational, deductive, object-oriented. Integrity constraints, query languages, database design.

**Course Outcomes**

- Be able to use a variety of commercial query languages (SQL, XQuery, SPARQL), both stand-alone and embeded in high-level programming languages. Know how relational algebra and relational calculus provide a basis for commercial query languages.
- Understand performance issues and optimization strategies. This includes query rewriting, secondary storage characteristics, and access strategies.
- Be able to design and develop relational database applications. This includes conceptual modeling and normalization theory.
- Be familiar with some of the current challenges facing database professionals.

C S 470 : Introduction to Artificial Intelligence. (3:3:0)

WHEN TAUGHT: Fall; Spring

PREREQUISITE: C S 312 & MATH 313 & STAT 121; or instructor's consent.

DESCRIPTION: Introduction to core areas of artifical intelligence; intelligent agents, problem solving and search, knowledge-based systems and inference, planning, uncertainty, learning, and perception.

**Course Outcomes**

- from business, medicine, robotics, gaming, and machine learning
- Does it require basic control?Does it involve uncertain reasoning?Does it have a simple goal, sophisticated utility, or multiple attributes?Does it require sequential choice or planning?How may decision makers are involved?
- What is the internal representation?What performance criteria are relevant?What is the nature of the environment?What are the actuators?What are the sensors?What are the agent's utilities?How is uncertainty represented?
- Uninformed, informed, constraint-satisfaction, hill-climbing, and stochastic (e.g., genetic algorithms) searchMarkov provesses, Bayes rule, Bayes nets, Hidden Markov Models, Grid Filters, and Kalman FiltersExpected utility theoryMulti-attribute utility theorySequential choice under uncertainty: value and policy iterationMinimax solutions from game theory: alpha-beta pruning
- Determine whether your solution is correctExpress the quality of your solutionValue the need to communicate your solution to others

C S 478 : Tools for Machine Learning and Data Mining. (3:3:0)

WHEN TAUGHT: Winter; Spring

PREREQUISITE: C S 312 & MATH 313 & STAT 121

DESCRIPTION: Machine learning and data mining models and other mechanisms allowing computers to learn and find knowledge from data.

**Course Outcomes**

- Take your computer to school
- You will be able to recognize when machine learning and data mining tools are applicable.
- You will be able to plan and execute successful machine learning and data mining projects, including selecting an adequate process for your specific task and avoiding the main data mining pitfalls.

C S 484 : Parallel Processing. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: C S 360

DESCRIPTION: Theoretical and practical study of parallel processing including multi-core, fine-grained, and clustered architectures, parallel programming languages, and parallel algorithms.

**Course Outcomes**

- Use multiple processors to solve a problem faster
- Understand the metrics that are used to evaluate effective applications.

CHEM 351 : Organic Chemistry. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: CHEM 105; or CHEM 111

DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.

NOTE: Primarily for majors in chemical engineering and the biological sciences.

**Course Outcomes**

- Recognize functional group classes commonly encountered in organic chemistry and name representative molecules from each class using IUPAC rules for organic nomenclature.
- Predict structure and reactivity of alkanes, alkenes, alkynes, aromatic hydrocarbons, alcohols, ethers, epoxides, and alkylhalides based on such factors as carbon atom hybridization, bond length, bond strength, and bond polarity.
- Recognize and provide curved arrow mechanisms for the following types of organic reactions: additions, substitutions, and eliminations.
- Predict the energetically preferred conformation for straight-chain and branched alkanes, and for substituted cycloalkanes.
- Determine R and S configurations for chiral molecules and distinguish between enantiomers, diastereomers, meso compounds, and conformational isomers.
- Interpret 1H NMR, 13C NMR, IR, UV, and mass spectra and use these data to determine the structure of organic molecules.
- Predict the relative energies of reactive intermediates such as radicals, carbocations, and carbanions, based on structural considerations such as orbital hybridization, hyperconjugation, and resonance stabilization.

CHEM 352 : Organic Chemistry. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: CHEM 351; or CHEM 351M
DESCRIPTION: Continuation of Chem 351.

**Course Outcomes**

- Predict structure and reactivity of aldehydes, ketones, carboxylic acids, esters, anhydrides, amides, b-ketocarbonyl containing compounds, amines, and phenols.
- Recognize and provide curved arrow mechanisms for the following types of organic reactions: electrophilic & nucleophilic aromatic substitution, nucleophilic carbonyl addition, nucleophilic acyl substitution, carbonyl condensation, [4 2] cycloaddition, and substitution ato a carbonyl.
- Recognize and predict the reactivity of the following reactive species and/or reactive intermediates: Grignard reagents, Wittig reagents, organolithiums, diorganocuprates, enols, enolates, aryl diazonium ions, and benzynes.
- Recognize and predict the structure and reactivity of the following classes of biologically important organic molecules: carbohydrates, amino acids, proteins, and lipids.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Chem 352 or Chem 352M or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

**Course Outcomes**

- Perform a broad range of traditional organic reactions at the micro scale including: nucleophilic carbonyl additions, hydroboration, nucleophilic acyl substitution, electrophilic aromatic substitution, [4 2] cycloaddition, and photochemical alkene isomerization.
- Implement fundamental organic chemistry techniques for carrying out basic experiments, and purifying products, at the micro scale including: extraction, distillation, recrystalization, column chromatography, and TLC.
- Make correct conclusions about the outcome of experiments after collecting basic physical data, and after providing unambiguous interpretation of the necessary spectra.

CHEM 481 : Biochemistry. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: CHEM 352M & PDBIO 120; or CHEM 352 & PDBIO 120
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.
NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine. (For prerequisite, Bio 130 may be used in place of PDBio 120.)

**Course Outcomes**

- Demonstrate mastery of key concepts in the Biochemistry subdiscipline and articulate the relationships between chemistry and biology. This outcome is elaborated in outcomes 2-5 below
- Explain how the structure of biomolecules such as proteins, nucleic acids, lipids, and carbohydrates determines their biological function
- Describe how enzymes catalyze reactions in terms of thermodynamics, kinetics, and mechanistic strategies
- Understand how energy is generated from metabolic reaction pathways
- Push arrows to predict and understand reactivity in metabolic pathways
- Communicate scientific ideas clearly to other specialists in writing
- Identify and understand primary research articles relevant to a specific biochemical question of current interest
- Interpret and critique experimental data relating to biochemical models

CHEM 482 : Mechanisms of Molecular Biology. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: CHEM 481M; or CHEM 481
DESCRIPTION: Second-semester biochemistry. Nucleic acid biochemistry and molecular biology: nucleotide metabolism, chromosome and chromatin structure, DNA structure and replication, RNA transcription and gene expression, protein synthesis and regulation, eukaryotic gene systems, signal transduction.

**Course Outcomes**

- Draw the structure of DNA, determine the topology of a plasmid, explain the chemical sequence of events that occur during DNA replication and draw structural changes that occur due to mutation.
- Determine how to perform and interpret an electrophoresis separation of DNA fragments, southern blot, restriction map, polymerase chain reaction, and a DNA sequencing reaction with necessary controls.
- Design a DNA cloning strategy, explain controls necessary, and write procedural plan.
- Draw and explain the mechanism of RNA transcription and how RNA is processed, spliced, and regulated. Understand the basic mechanisms of transcriptional regulation using the example of transcription of genes necessary for cholesterol synthesis.
- Determine when and how to use techniques that involve RNA: Northern blots, quantitative PCR, microarrays, S1 nuclease and primer extension mapping of the transcriptional start with appropriate controls.
- Determine the sequence of amino acids in a protein from a series of nucleotides.
- Draw and explain the process of protein translation and how it is regulated.
- Determine where a protein is localized in a tissue or cell: interpret a western blot, protein fusion assays.
- Determine with what a protein interacts: Interpret gel shift assays, Chromatin Immunoprecipitation, DNA footprinting, and yeast two hybrid reporter assays.

- Maintain faith through challenges and ethical boundaries in reporting and interpreting data.

CHEM 489 : Structural Biochemistry. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: CHEM 468

DESCRIPTION: Molecular structures of proteins, RNA and DNA as determinants of biological function. Topics include thermodynamics of folding and binding, structural determination, spectroscopy, modeling, protein recognition.

**Course Outcomes**

- Identify motifs and symmetries in macromolecular structures and chemical interactions that maintain structural integrity
- Relate the structure of a macromolecule to its biological function
- Describe how X-ray crystallography, nuclear magnetic resonance, cryogenic electron microscopy, and circular dichroism techniques give structural information for biological macromolecules
- Communicate scientific ideas (e.g. structure-function relationships) clearly and concisely to others orally and in writing, and use ethical standards in oral and written presentations
- Work with peers to answer scientific questions

CHEM 584 : Biochemistry Laboratory/Proteins. (3:1:6)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: CHEM 481M; or CHEM 481

DESCRIPTION: Introduction to current biochemical research procedures including spectrophotometry, chromatography, electrophoresis, and immunological techniques. Protein over-expression; isolation and characterization methods. Enzyme kinetics and protein-ligand interactions. Introduction to bioinformatics.

NOTE: May be taken before or after Chem 586.

**Course Outcomes**

- Apply spectroscopic techniques to analyze proteins, both their enzymatic and binding reactions
- Use gel electrophoresis and immunoblotting techniques to determine the presence and purity of proteins in biological samples
- Identify protein binding partners using co-immunoprecipitation methods
- Purify proteins using state-of-the-art separations methods
- Characterize an enzyme using steady state kinetics methods
- Use enzymes as analytical and diagnostic tools
- Properly record and interpret data
- Present data they have collected in an oral presentation and in a written scientific paper
- Understand ethical means of reporting results and giving proper credit to the work of others
- Measure ligand binding to proteins; determine dissociation constants and the degree of cooperativity.

CHEM 586 : Biochemistry Laboratory/Nucleic Acids. (3:1:6)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: CHEM 482

DESCRIPTION: Laboratory course covering major techniques involved in isolation, amplification, and cloning of recombinant DNA as well as isolation, synthesis, translation, and identification of RNA.

NOTE: May be taken before or after Chem 584.

**Course Outcomes**

- Understand, design and execute experiments using basic DNA manipulation procedures that include isolation, purification and modification of DNA
- Explain and perform PCR amplification and use this technique to detect the presence of DNA “targets”, DNA cloning (subcloning) and DNA sequencing
- Understand and explain how to isolate, quantitate and manipulate RNA
- Design and perform experiments to reverse transcribe RNA into complementary DNA (cDNA) and assess gene expression by semi- and quantitative PCR
- Isolate total RNA and be able to purify mRNA from this material
- Introduce and express foreign DNA and/or RNA in mammalian cells using the techniques of electroporation, lipid-based transfection, calcium phosphate based transfection and retroviral transduction
- “Knockdown” an expressed gene in mammalian cells using RNA silencing
- Prepare laboratory notebooks that include the objective, results and methods of each laboratory experiment. Additionally, students will provide conclusions to each experiment, including when appropriate, potential explanations to unexpected results

MATH 313 : Elementary Linear Algebra. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 112.

RECOMMENDED: Math 290.

DESCRIPTION: Linear systems, matrices, vectors and vector spaces, linear transformations, determinants, inner product spaces, eigenvalues, and eigenvectors.

**Course Outcomes**

- This course is aimed at majors in mathematics, the physical sciences, engineering, and other students interested in applications of mathematics to their disciplines. Linear algebra is used more than any other form of advanced mathematics in industry and science. A key idea is the mathematical modeling of a problem via systems of linear equations. For more detailed information visit the Math 313 Wiki page.

MATH 334 : Ordinary Differential Equations. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 113 and Math 313.

DESCRIPTION: Methods and theory of ordinary differential equations.

**Course Outcomes**

There are no course outcomes available

MATH 410 : Introduction to Numerical Methods. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: MATH 314; C S 142 or equivalent.

DESCRIPTION: Root finding, interpolation, curve fitting, numerical differentiation and integration, multiple integrals, direct solvers for linear systems, least squares, rational approximations, Fourier and other orthogonal methods.

**Course Outcomes**

- Root finding, interpolation, curve fitting, numerical differentiation and integration, multiple integrals, direct solvers for linear systems, least squares, rational approximations, Fourier and other orthogonal methods. [This official course description appears to differ with current standard practice, in that iterative solvers of linear systems are taught in this course, while "Fourier and other orthogonal methods" are postponed until Math 411.] For more detailed information visit the Math 410 Wiki page.
- Students will master numerical solution of equations of one variable, interpolation, numerical differentiation, numerical integration, and numerical solution of linear systems.

MATH 411 : Numerical Methods. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: MATH 334

DESCRIPTION: Iterative solvers for linear systems, eigenvalue, eigenvector approximations, numerical solutions to nonlinear systems, numerical techniques for initial and boundary value problems, elementary solvers for PDEs.

**Course Outcomes**

- Students should be able to describe, derive, and implement the numerical methods listed on the Math 411 Wiki page. They should be able to explain the advantages and disadvantages of each method. They should understand error analysis and be able to make practical decisions based on the outcomes of that analysis.

MATH 431 : (Math - EC En 370) Probability Theory. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: MATH 313

DESCRIPTION: Axiomatic probability theory, conditional probability, discrete / continuous random variables, expectation, conditional expectation, moments, functions of random variables, multivariate distributions, laws of large numbers, central limit theorem.

**Course Outcomes**

There are no course outcomes available

MATH 450 : Combinatorics. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: MATH 371

DESCRIPTION: Permutations, combinations, recurrence relations, applications.

**Course Outcomes**

- Permutations and combinations basics, including the Pigeonhole Principle, binomial coefficients and the Binomial Theorem, Stirling's Approximation, Inclusion/exclusion, Generating functions and recurrence relations (rational functions), Groups, permutations and counting problems -- Polya's Theorem. For more detailed information visit the Math 450 Wiki page.

MMBIO 360 : Microbial Genetics. (4:3:3)

WHEN TAUGHT: Fall

PREREQUISITE: MMBIO 240

DESCRIPTION: How DNA governs complex bacterial functions. Classical and modern approaches to gene discovery, including genetic screens, gene mapping, targeted genetic manipulations, and analyzing gene activity.

**Course Outcomes**

There are no course outcomes available

MMBIO 465 : Virology. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: MMBio 261 or equivalent.
DESCRIPTION: Basic principles of virology, emphasizing selected molecular aspects of virus life cycles and disease processes.

**Course Outcomes**

- Be able to answer basic questions about Virology: Why are viruses organized as they are? How do viruses replicate? How do viruses cause disease? What are the interactions between viruses and the host immune system? How to prevent/treat/cure viral infections? How can viruses be used as tools to study biological processes and for gene transfer? How can an understanding of viruses help you in your future career? *Relates to Program Learning Outcome: "Exhibit mastery of four of the principal areas of the discipline", one of which is Virology.
- Understand experimental tools used to study viruses (these are broadly applicable to molecular biology, cell biology, and microbiology) and be able to develop experiments and interpret data.*Relates to Program Learning Outcomes: "Devise experiments with appropriate hypotheses and controls" and "Interpret experiments from primary scientific literature"
- Write about a current, pressing issue in the field of Virology.*Relates to Program Learning Outcome: "Communicate scientific information"
- Understand how research of viruses "by study and also by faith" can lead to alleviation of human disease and suffering.*Relates to Program Learning Outcome: "Reflect/discuss/explore how faith in the Lord and Christ-like living are affected by an understanding of fundamental biological processes"

PDBIO 360 : Cell Biology. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: MMBIO 240; or CHEM 481M; or CHEM 481
DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

**Course Outcomes**

- Students will demonstrate knowledge of the molecular architecture of the nucleus, including the nuclear envelope, nucleoplasm and nucleolus, chromatin, and the nuclear pore.
- Students will demonstrate an understanding of protein transport, including nuclear import and export and vesicular transport through the secretory and sorting pathways.
- Students will demonstrate knowledge of the molecular and cellular structure and dynamics of cytoskeletal systems.
- Students will be able to apply the basic cell biological principles in outcomes 1-3 to more complicated cellular processes, including cell adhesion, cell migration, cell polarity, cell division, cancer, and development.
- Students will demonstrate the ability to generate hypothesis about how cell biological systems work at the molecular level and design experiments that test that hypothesis.
- Students will demonstrate competence in interpreting original raw data from cell biology experiments, including microscopy, protein biochemistry, molecular biology, and genetics strategies
- Students will demonstrate the ability to critically evaluate primary cell biology literature, including the ability to evaluate the design and interpretation of experimental data.

PDBIO 362 : Advanced Physiology. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: MMBIO 240 & PHSCS 106; or MMBIO 240 & PHSCS 220
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

**Course Outcomes**

- Students will manifest an understanding of how structures at the molecular level lead to properties associated with cells, tissues, organs, and organ systems.
- Students will demonstrate a comprehension of the functions of the major physiological systems found in humans.
- Students will describe how organ systems work together interactively to maintain homeostasis.

PDBIO 482 : Developmental Biology. (3:3:1)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: MMBIO 240 & PDBIO 360
RECOMMENDED: PDBio 325.
DESCRIPTION: Invertebrate and vertebrate developmental biology. Embryonic gastrulation, neurulation, pattering, etc. Modern approaches and research strategies. Emphasizes gene function, cell signaling, signal transduction during embryogenesis.

**Course Outcomes**

- Students will be able to generally describe the early development (from fertilization to axis formation) of one invertebrate and one vertebrate model organism.
- Students will be able to generally describe the concepts of cellular competence, induction, specification, commitment and differentiation in embryonic development.
- Students will be able to give two examples of organogenesis, including genes and signal transduction pathways that lead to organ system formation.
- Students will be able to explain embryonic patterning, using examples that include genes known to act in patterning events.
- Students will be able to explain at least two concepts in developmental biology that overlap with other sciences, such as stem cell research, cancer research, evolutionary sciences, or neuroscience.
- Students will be able to discern and summarize the current state of knowledge on a given topic, construct pioneering research questions on that topic, and propose experiments aimed at answering those questions.

PDBIO 582 : Developmental Genetics. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: PDBio 482 or equivalent.

DESCRIPTION: Gene function and regulation during cell specification and differentiation, pattern formation, and organogenesis in developing embryo.

**Course Outcomes**

- Students will demonstrate understanding of, and the ability to think critically about, primary developmental biology research articles.
- Students will demonstrate confidence in contributing to scientific discussions.
- Students will demonstrate the ability to think scientifically by formulating a research proposal.

STAT 424 : Statistical Computing. (3:3:2)

WHEN TAUGHT: Winter

PREREQUISITE: STAT 223 & STAT 224 & STAT 330

DESCRIPTION: Create and interact with relational databases comprised of large real world data; integrate previous course work into a single research project from formulation to final report; solve statistical problems using a combination of SAS, R, and SQL skills.

**Course Outcomes**

There are no course outcomes available

STAT 431 : Experimental Design. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: STAT 330

DESCRIPTION: Basic designs, power and sample size, Latin squares, incomplete blocks, change-over designs, factorials, fractional factorials, confounding, split-plots, response surface designs.

**Course Outcomes**

- Choose an experimental design plan that is appropriate for the research problem at hand
- Construct the design, including determining the proper number of replicates and the creation of a randomized data collection form
- Execute the plan to collect the data, or advise a colleague to do it
- Determine the model appropriate for the data
- Fit the model to the data, and verify that the assumptions have been satisfied
- Interpret the results and present the data in a meaningful way to answer the research problem at hand

STAT 435 : Nonparametric Statistical Methods. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: STAT 330; or STAT 511

DESCRIPTION: Permutation tests, rank-based methods, analysis of contingency tables, bootstrap methods, curve fitting.

**Course Outcomes**

- Explain and provide examples of the trade-off between parametric assumptions and efficiency of statistical inference
- Compute the following rank-based methods: Wilcoxon Rank-Sum test, Mann-Whitney test, Signed-Rank test, Kruskal-Wallis test, Spearman Rank Correlation
- Formulate and compute permutation tests for 2-sample, K-sample, and contingency tables
- Compute the following tests for contingency tables: Fisher's exact test, Mantel-Haenszel test, McNemar's test
- Formulate and compute bootstrap (resampling) confidence intervals
- Compute generalized additive models (GAM) with splines or smoothers for possible nonlinear effects in R

*Hours include courses that may fulfill university core requirements.

*This major is designed to prepare students to teach in public schools. In order to graduate with this major, students are required to complete Utah State Office of Education licensing requirements. To view these requirements go to http://education.byu.edu/ess/licensing.html or contact Education Student Services, 120 MCKB, (801) 422-3426.*

## Program Objectives

The biological science education program involves formal training in the field of biology as well as preparation of students as professional educators. The discipline portion of the program is designed to give broad training in the life sciences. Students take classes in plant and animal diversity, molecular biology, genetics, ecology, evolution, and bioethics. This training provides students with significant background and expertise in the biological sciences. In addition to the discipline-level training, the program also requires courses in the physical sciences including chemistry, biochemistry, and physics. The physical science course work is comprehensive enough to place students two or three courses away from receiving additional teaching endorsements in physical science, earth systems, or integrated science. The educational component involves training in laboratory methods, laboratory safety, classroom management, pedagogy, and student teaching.

## Program Requirements | View MAP | View Program Outcomes

1. Grades below C- in professional education courses or content courses will not be accepted in the teaching major or teaching minor. Teacher candidates must have a cumulative 2.85 GPA in teaching major and teaching minor courses to qualify for student teaching.

2. Complete the following biology core courses:

BIO 130 : Biology. (4:3:1)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: General biology course with laboratory for biology majors. Introduction to disciplines in the life sciences including methods for scientific inquiry, biochemical dynamics, cell structure and function, evolutionary theory, bioenergetics, and ecological interactions.

**Course Outcomes**

- Students will demonstrate basic literacy in the language of science and an understanding of the foundational theories of biology (i.e., be able to formulate appropriate hypotheses and predictions to test specific biological phenomena and use appropriate vocabulary to do so) o Atomic Molecular Theoryo Cell Theoryo Theories of Photosynthesis, Fermentation, and Cellular Respirationo Cell Division and Meiotic Theorieso Chromosomal and Mendelian Theories of Inheritanceo Watson and Crick's Theory of DNA Structure and Replicationo Protein Synthesis Theoryo Darwin's Theory of Natural Selectiono Hardy-Weinberg Theoryo Ecosystem Theoryo Population Growth Theoryo Competitive Exclusion and Behavioral Theory
- Students will demonstrate an understanding of the basic scientific principles which undergird the scientific process, including the strengths and weaknesses of this process.
- Students willappreciate the excitement of discovery that has accompanied important scientific developments.
- Students will demonstrate how scientific methodology can be used to analyze real-world science-related problems.
- Students will be able to evaluate scientific data and claims in order to make rational decisions on public-policy science issues that affect their community.
- Students will be able to express their thoughts (in oral, graphical, and written formats) on scientific topics clearly, including appropriate use of basic scientific vocabulary and effective interpretation of quantitative data.
- Students will be able to reflect rationally upon the interface between science and religion.
- Students will demonstrate sound scientific reasoning ability.

BIO 220A : Biological Diversity: Animals. (4:3:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PDBIO 120; or BIO 130

DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in invertebrates and vertebrates. Laboratory included.

**Course Outcomes**

- Students will be able to discuss the broad patterns of the evolution of the clade Animalia, emphasizing the relationships among major sub-clades (phyla), the unique biological attributes that define these clades, and the novel changes in morphology over major transitions (unicellular to multicellular; acoelomate to pseudocoelomate to coelomate body plans, bilaterial vs radial symmetry, origins of

exoskeletons, gill slits, notochord, crania & vertebral columns, etc.).
- Students will develop the skills necessary to understand the terminology of phylogenetic systematics and methods used to recover the "tree of life", the logic behind the hierarchy (i.e., the only possible outcome of the process of "descent with modification"), and critically apply evolutionary reasoning, including the use of phylogeny and tree-thinking, to formulate and test hypotheses that explain biological diversity.
- Students will have the intellectual tools to continue to explore related topics with confidence and understanding throughout their lives, and a deeper appreciation for the diversity of life on earth.

BIO 220B : Biological Diversity: Plants. (4:3:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PDBIO 120; or BIO 130

DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in fungi, algae, and principal groups of land plants. Laboratory included.

**Course Outcomes**

- Students will be able to discuss differences between cyanobacteria, algae, bryophytes, non-seed vascular plants, gymnosperms, flowering plants, and fungi with repsect to their lifecycles, characteristic morphologies, and biological roles.
- Students will develop the skills necessary to understand and critically apply evolutionary logic including the use of phylogeny and tree-thinking to formulate and test hypotheses that explain biological diversity
- Students will be able to continue to explore related topics with confidence and understanding throughout their lives.

BIO 350 : Ecology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 120; or BIO 130

DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

**Course Outcomes**

- Understand the major physical processes that form and characterize the biosphere, including global scale energy flow, the carbon cycle, climate, and soil formation.
- Understand the processes that drive major levels of organization of the biotic world, including energetics in the ecosystem, population dynamics, and species interactions.
- Understand the importance of writing as a way of synthesizing and solidifying critical thought.
- Foster and promote environmental stewardship within your realm of influence and your community.
- Understand the importance of ecology to issues regarding human well-being
- See the connectivity and relevance of ecology to other fields of study

BIO 420 : Evolutionary Biology. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: MMBIO 240 & PWS 340

RECOMMENDED: Concurrent enrollment in Bio 421.

DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

**Course Outcomes**

- Students will be able to describe the history and development of evolutionary thought.
- Students will be able to list and describe the evidence for evolution and its required corollaries.
- Students will be able to describe the mechanisms by which evolution occurs. Provide detailed explanations of the the processes of evolution by mutation, migration, genetic drift, non-random mating, and natural selection.
- Students will be able to explain adaptation, providing examples from several different fields of biology (e.g., cell biology, physiology, conservation biology, bioinformatics, medicine, behavior, etc.).
- Students will be able to describe the history of life on earth. Identify major evolutionary transitions over time, and explain the tools and evidence that support current hypotheses of the history of life.

BIO 421 : Evolutionary Biology Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: MMBIO 240

DESCRIPTION: Hands-on applications and analytical tools of evolutionary biology; emphasizing inference methodology and evidence complementing the theoretical constructs introduced in Bio 520, including comparative anatomy, phylogenetic inference, population genetics, species concepts, and human evolution.

NOTE: Concurrent enrollment with Bio 420 is strongly recommended.

**Course Outcomes**

- Students will gain a better understanding of the basic principles of evolution within a population including selection, drift, and founder effects by using computer simulations.
- Students will have a deeper understanding of the LDS position on evolution.
- Students will learn the details of phylogenetic reconstruction, tree searching, DNA sequence alignment, and other bioinformatics tools for deciphering patterns of evolution.
- Students will learn the details of species concepts and the criteria used for identifying and diagnosing species.
- Students will gain hands-on experience with hominid fossils and gain an understanding of the evidence that elucidates the biological history of humans.

MMBIO 240 : Molecular Biology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: BIO 130 & CHEM 105; or PDBIO 120 & CHEM 105; or MMBIO 151 & CHEM 105

DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

NOTE: Chem 105 and Chem 111 can also fulfill the prerequisite requirement; contact advisor.

**Course Outcomes**

- Describe and compare the functions and molecular structures of DNA, RNA, and protein, and explain the processes and regulatory mechanisms governing the synthesis of each.
- Explain a variety of molecular biology techniques, and interpret experimental results obtained using the various methods.
- Solve unfamiliar problems by applying the information and principles mastered through Learning Outcomes 1 and 2
- Collaborate with other students to solve challenging problems, to clarify ideas and concepts, and to learn from one another in a spirit of cooperation and integrity

PWS 340 : Genetics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: MMBIO 240; or CHEM 481M; or CHEM 481

DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

**Course Outcomes**

- Students can construct two- and three-point linkage maps.
- Students can display fluency in interpreting gene annotation and nomenclature in GenBank records.
- Students can demonstrate ability to analyze and apply Chi-square goodness-of-fit tests to complex geneticdata sets involving segregation and Hardy-Weinberg equilibrium models.
- Students can identify differences between extranuclear, autosomal and sex-linked inheritance patterns.
- Students can use genetic data (DNA or amino acid sequence) to reconstruct basic evolutionary phylogenies.
- Students can dissect quantitative traits into environmental and genetic variance components.

**Note:** Bio 420, 421 must be taken at BYU.

3. Complete the following:

BIO 235 : Field Botany. (3:3:6)

WHEN TAUGHT: Fall; Spring

DESCRIPTION: Recognition, characteristics, and uses of common trees and shrubs.

**Course Outcomes**

- Students will demonstrate a fundamental knowledge of biology
- Students will develop the discovery skills and tools used by biologists
- Students will use biological knowledge to enhance their personal lives
- Students will use their skills and knowledge in biology to secure employment or to advance in higher education in biology-related disciplines

BIO 370 : Bioethics. (2:1:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Introductory biology course.

DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

**Course Outcomes**

- Students will understand the ethical and philosophical underpinnings of bioethics and to develop ethical intuitions on bioethical issues.
- Students will learn the terminology, vocabulary, and objectives of bioethics.
- Students will understand the tools and approaches needed to make a bioethical decision and to communicate that decision in rationally informed ways.
- Students will understand the bioethical primary literature, to understand how to read case studies, and familiarity with the major issues being discussed in bioethics today.

BIO 380 : Comparative Animal Physiology and Anatomy. (4:3:3)

WHEN TAUGHT: Fall

PREREQUISITE: Bio 220A or instructor's consent.

DESCRIPTION: Structure and function of animal organ systems; structural and physiological responses to demands of and changes in environment; evolutionary constraints on anatomy and physiology.

**Course Outcomes**

- Students will demonstrate a fundamental knowledge of comparative vertebrate animal physiology and anatomy.
- Students will develop critical thinking skills while learning concepts and understanding the tools used by comparative vertebrate animal physiologists and anatomists to study function and structure.
- Students will use physiological and anatomical knowledge to enhance their personal lives.
- Students will use their skills and knowledge in comparative vertebrate animal physiology and anatomy to secure employment or to advance in higher education in biology-related disciplines.

- Students will develop an understanding of physiologic isotopic techniques utilized to indicate energy sources, trophic levels, body water, and latitudinal and altitudinal animal migration reflected by stable isotopes of carbon, nitrogen, hydrogen and oxygen.

BIO 441 : Entomology. (3:2:3)

WHEN TAUGHT: Fall

PREREQUISITE: Bio 220A or equivalent.

DESCRIPTION: External morphology, natural history, evolution, distribution, and phylogeny of insects. Insect collection required.

**Course Outcomes**

- Understand basic principles of morphology and systematics and apply these principles to your own knowledge of insects.
- Judge genetic relationships. Be able to recall current hypotheses of insect phylogeny at the ordinal level and have the tools needed to judge validity of new hypotheses of phylogeny that might be proposed. You will also study carefully the modifications associated with phylogenies that led to insect diversification and success.
- Understand details of insect morphology, and be well versed in both internal and external body structures.
- Recognize common insect families and be able to quickly identify them on sight.
- Gain or regain a sense of wonder for the natural world, especially as it relates to insects and other arthropods. Gain perspectives of the diversity and complexity in the insect world. Enhance your appreciation for the natural world we share with them.
- Learn life histories and specific collecting techniques for insects in their own habitats. You will learn how they fit in the natural world.
- Learn the protocols for detailed identificiations. Many insects will be totally new in appearance to you. You will use identification guides and illustrations to help you decide what the name of an insect is at the Order and Family levels.
- Use a variety of identification techniques to correctly identify insects and other arthropods. Throughout your life you will be asked by employers, friends, and family to answer the question, "What is this?" This course will give you these exact skills. A correct identification is a beginning step to learning more about a species and its relationships to the natural world and its pragmatic relationship to humans.

CHEM 105 : General College Chemistry. (4:5:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.

DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.

NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

**Course Outcomes**

- Students will demonstrate a familiarity with the basic vocabulary and concepts of chemistry.
- Students will demonstrate a qualitative and basic quantitative understanding of the fundamental chemical laws which govern the material substances in our universe and which express how one variable in nature depends on another.
- Students will demonstrate the ability to manipulate quantitative descriptors of natural phenomena expressed both in the form of equations and of proportionalities, and solve chemistry problems using these skills.
- A successful Chemistry 105 students describes chemical phenomenon by first focusing on properties of the elements at the atomic level. Chemistry 105 students will gain a knowledge base of reactivity patterns of elements and compounds.
- Chemistry 105 students will be able to use their chemistry experience, knowledge, and skills to better understand and work in their own field of study.

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Chem 101 or equivalent.

DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

**Course Outcomes**

- Students will understand the metabolism of carbohydrates, lipids, and proteins in humans. They will be able to describe in structures and words the metabolism of sugars through the pathways of glycolysis, the citric acid cycle, and the electron transport chain.
- Students will understand the structure and reactivity of organic functional groups, such as alcohols, aldehydes, carboxylic acids, and amides. For example, students will learn that aldehydes and ketones typically undergo addition reactions.
- Students will understand the structure and reactivity of the biomolecules that have those functional groups. For example, students will be able to demonstrate that carbohydrates are aldehydes and ketones that undergo addition reactions to form hemiacetals and polysaccharides with acetal linkages.

GEOL 101 : Introduction to Geology. (3:2:1)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Summer

DESCRIPTION: Cultural focus on physical and environmental geology for nonscience majors; rocks and minerals. Field trips.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- 1. Understand the difference between minerals and rocks.2. Be able to identify common rocks and minerals.3. Know where and when the basic rock and mineral types form and how they are related to the hydrologic and tectonic systems.
- 1. Understand how the hydrologic system helps to shape the Earth and how the different sub-systems interact.2. Learn the reasons for climate change in both ancient and modern times.
- 1. Learn the basic evidences and ideas that support the Theory of Plate Tectonics.2. Understand how the plate tectonic system works, including the role of the different types of plate boundaries and the forces that help to drive the system.3. Learn how the plate tectonic system has helped to shape the Earth's surface.
- 1. Gain a greater insight into the enormous length of geologic time and the evidences that support this claim.2. Learn the different ways that scientists can determine geologic ages.
- Learn how and why the other planets and moons in our solar system are different from Earth.

PHSCS 105 : General Physics 1. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Mechanics, heat, wave motion, and sound.

**Course Outcomes**

There are no course outcomes available

STAT 121 : Principles of Statistics. (3:3:1)

OFFERED: Independent Study also; Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: MATH 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, simple linear regression.

**Course Outcomes**

- Differentiate between observational studies and experiments
- Identify three sampling designs: simple random sample, stratified, and multi-stage
- Identify three designs of experiments: completely randomized, randomized block and matched-pairs
- Interpret and make appropriate conclusions from plots of data
- Calculate and interpret measures of center and spread
- Determine potential association between two quantitative and two categorical variables
- Communicate using technical language about probability and variation
- Interpret and communicate the outcomes of estimation and hypothesis tests in the context of a problem
- Understand the importance of data collection and how it dictates the appropriate statistical method and acceptable inference
- Determine the appropriate statistical procedure to use for a given research problem or data set

: Honors Principles of Statistics.

**Course Outcomes**

4. Complete one course from the following:

BIO 470 : History and Philosophy of Biology. (3:1.5:1.5)

WHEN TAUGHT: Fall
PREREQUISITE: BIO 350
DESCRIPTION: Development of fundamental generalizations of biology; nature of science; applications to major philosophical issues of current science.

**Course Outcomes**

- Students will demonstrate an understanding of the history of biology. This will include an understanding of the major figures and the historical development of modern biology. This will include having read original texts from the periods covered (Aristotle to Current Biology).
- Students will also have an understanding of principal philosophical issues confronting modern biology, including major research trends in philosophy of biology. The students will also have a grasp of what 'science' is, how it is practiced, and what expectations for knowledge can be justified using science.
- Students will have the ability to read and write about the primary literature both on the history, and the philosophy, of science. They will have a grasp of the terminology used in philosophy, and how philosophy of biology is currently practiced. Writing will be emphasized.

PHIL 423 : History and Philosophy of Science. (3:3:0)

PREREQUISITE: Phy S 100 or instructor's consent; Phil 300.
DESCRIPTION: Scientific explanation, concepts, and models. Philosophical assumptions and criteria for theory selection, as exemplified by historical development of basic ideas in science.

**Course Outcomes**

- Know major concepts, theories, figures, texts, and issues in the history and philosophy of Western science from antiquity to the contemporary era.
- Read and critically discuss figures and texts in the philosophy of science.
- Practice philosophical analysis and argumentation orally and in writing; write a complex, nuanced, and well-referenced research paper on the philosophy of science.
- Be able to explain the practice and value of philosophy of science.

5. Complete the Professional Education Component:
    - Complete the following:

BIO 276 : Exploration of Teaching in Biological Sciences. (3:ARR:ARR)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 220A & BIO 220B & CHEM 105; major GPA of 2.85 or higher, FBI fingerprint and background clearance; previous application required.

DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

**Course Outcomes**

There are no course outcomes available

BIO 377 : Teaching Methods and Instruction in Biology. (3:ARR:ARR)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 276; concurrent enrollment in Bio 378, 379, Sc Ed 380; major GPA of 2.85 or higher.

DESCRIPTION: Developing meaningful and engaging instruction for secondary students in biological sciences; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

**Course Outcomes**

- Students will demonstrate an understanding of key learning theories by explaining how students learn.
- Students will demonstrate proper pedagogical practices in a biological teaching setting.
- Students will develop effective unit and lesson plans to promote science learning.

BIO 378 : Practicum in Biology Teaching. (1:0:3)

WHEN TAUGHT: Fall

PREREQUISITE: Concurrent enrollment in Bio 377, 379, Sc Ed 380.

DESCRIPTION: Implementing meaningful and engaging instruction for secondary students in biology; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

**Course Outcomes**

- Students will be able to identify best practices in teaching.
- Students will show active involvement with mentor teacher in creating and teaching lessons, grading papers, or any other classroom work.
- Students will be able to identify practices that they can incorporate into their own teaching.

BIO 379 : Classroom Management and Laboratory Safety. (1:1:0)

WHEN TAUGHT: Fall

PREREQUISITE: Concurrent enrollment in Bio 377, 378, Sc Ed 380.

DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

**Course Outcomes**

- Students will integrate current theory, research, and application in classroom management to create an optimal learning environment.
- Students will demonstrate appropriate and effective classroom management strategies.
- Students will demonstrate an understanding of proper laboratory safety protocols.

CPSE 402 : Educating Students with Disabilities in Secondary Classrooms. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or comparable major course; FBI fingerprint background clearance.

DESCRIPTION: Issues, policies, and methods in teaching secondary students with disabilities in general education classrooms. Lab.

**Course Outcomes**

- Demonstrate sensitivity to individuals with disabilities.
- Describe the effects of cultural, ethnic, and language diversity on the education of individuals with disabilities
- Describe the steps in the Individual Education Program (IEP) process, including Individualized Transition Plans for students aged 14-22.
- Use research-supported methods for academic instruction of individuals with disabilities including explicit instruction, learning strategies, task analysis, and active participation.
- Describe models and strategies of consultation and collaboration including co-planning and co-teaching.
- Define special education and describe the legal structure of services for individuals with disabilities, including the Individuals with Disabilities Education Act (IDEA).
- Develop a personal philosophy of special education which includes an understanding of the implications of Least Restrictive Environment as defined in IDEA.
- Demonstrate knowledge of basic classroom management theories and an understanding of teacher attitudes and behaviors that influence behavior of individuals with exceptional learning needs.
- Describe the characteristics and educational implications of students with high and low incidence

disabilities
- Demonstrate ability to identify and prioritize areas of the general curriculum and provide accommodations for individuals with exceptional learning needs

IP&T 286 : Instructional Technology in Teaching. (1:1:ARR)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Using instructional design, visual design, and differentiated staffing principles along with multimedia authoring systems, telecommunication, and other computer-based tools in the development of educational applications for secondary education settings.

**Course Outcomes**

There are no course outcomes available

SC ED 350 : Adolescent Development in an Education Context. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Sc Ed 276R or Phy S 276 or Engl 276R or Bio 276 or SFL 276R or HIth 276R or MthEd 276 or PETE 276R or TEE 276A or TEE 276B.

DESCRIPTION: Adolescent development and its implications for integrated school culture, curriculum design, instructional practices, and assessment.

**Course Outcomes**

- The students will demonstrate how the stages of development impact instructional practices.
- The students will understand the social, physical, and cognitive developmental stages of adolescence in relation to the tasks of automony, identity and intimacy.
- The students will demonstrate how the stages of development impact classroom environments and management.

SC ED 353 : Multicultural Education. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Sc Ed 350 or concurrent enrollment; Sc Ed 276R or Phy S 276 or Engl 276R or Bio 276 or SFL 276R or HIth 276R or MthEd 276 or PETE 276R or TEE 276A or TEE 276B.

DESCRIPTION: Designing and adapting instruction for diverse learners; collaborating with families, cultures, and communities in promoting and sustaining learning.

**Course Outcomes**

- Students will examine and understand the various dimensions of cultural identity, including one's own, and apply this knowledge to their thinking and behavio through a process of reflection.
- Acknowledge the dynamics of culture and diversity in school success and teachers' teaching. This includes recognizing and overcoming deficit thinking.
- Identify culturally and linguistically relevant pedagogy and use theoretically grounded principles to analyze why it is effective for many different types of learners.
- Interpret the historical context of diversity, discrimination, and language policies and evaluate how they impact current school practices.
- Recognize and acknowledge racism, discrimination and other forms of inquity and privilege in themselves, in others, and within institutions.
- Recognize and use a personal moral spiritual framework along with principles and concepts of social science to guide educational accomplishments for diverse learners.

**Note 1:** FBI fingerprint and background clearance must be completed prior to enrollment in Bio 276.

**Note 2:** Bio 377, 378, and 379 should be taken concurrently in the semester prior to taking Sc Ed 476R.

**Note 3:** Most states require the Biology Praxis Exam for employment in High School and the Middle Level Praxis Exam for teaching in grades 6-8.

- Complete 12 hours from the following:

SC ED 476R : Secondary Student-Teaching. (1-12:ARR:ARR)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Completion of all course work or departmental approval; requires a major GPA of 2.85; at least a C- in Sc Ed 377; FBI fingerprint and background clearance.

DESCRIPTION: Capstone, field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar required.

**Course Outcomes**

- Students will put into practice the theories they have learned in content and pedagogy courses including planning lessons, assessing students of all abilities and cultural backgrounds, using a variety of instructional strategies, and collaborating with other teachers and with the community.

: Secondary Student Teaching - Art.

**Course Outcomes**

: Secondary Student Teaching - Foreign Language. (12:ARR:ARR)

**Course Outcomes**

: Secondary Student Teaching - French.

**Course Outcomes**

: Secondary Student Teaching - Mathematics.

**Course Outcomes**

: Secondary Student Teaching - Physical Science.

**Course Outcomes**

: Secondary Student Teaching - Social Science.

**Course Outcomes**

: Secondary Student Teaching - Spanish.

**Course Outcomes**

## Recommended Courses

BIO 430 : Plant Classification and Identification. (4:3:3)

WHEN TAUGHT: Fall

PREREQUISITE: Bio 100 or Bio 130 or PDBio 120 or PWS 100 or instructor's consent.

DESCRIPTION: Principles of plant systematics, taxonomy, and classification, emphasizing family recognition by sight, terminology, and use of identification keys to the temperate flora.

**Course Outcomes**

- Students will apply correct vocabulary for describing plant parts and be able to deduce the meaning of new terms based on knowledge of common roots, prefixes, and suffixes.
- Students will recognize the major groups of vascular plants, be able to differentiate them by their principal characters, and understand their phylogenetic relationships.
- Students will identify by sight 40 families of flower plants as well as common families of ferns and gymnosperms, by recognizing differentiating features of each family.
- Students will gain proficiency in the use of keys and identification manuals for identifying any unknown plant to species.

BIO 443 : Ichthyology. (3:2:3)

WHEN TAUGHT: Fall Odd Yrs.

PREREQUISITE: BIO 220A

DESCRIPTION: Fish systematics, evolution, morphology, distribution, and natural history.

**Course Outcomes**

- Students will have a general understanding of fish respiration.
- Students will have a general understanding of fish body structure.
- Students will have a general understanding of fish food processing.
- Students will have a general understanding of fish behavior and communication.

BIO 445 : Herpetology. (4:3:2)

WHEN TAUGHT: Winter Even Yrs.

PREREQUISITE: BIO 220A

DESCRIPTION: Reptile and amphibian evolution, systematics, morphology, distribution, and natural history. Lab emphasizes taxonomy, classification, and distribution of western U.S. species.

**Course Outcomes**

- Each student will gain a deeper understanding of some details of the origin of tetrapods, and the origin of the amniotes.
- Each student will gain a deeper understanding of the phylogenetic position of extinct and extant clades of amphibians & reptiles within the clade Vertebrate.
- Each student will acquire a detailed knowledge of the evolution and natural history (natural history, behavior, etc.) of the major clades of extant amphibians and reptiles .
- Through lab and field experiences, each student will acquire a detailed knowledge of diagnostic characters, taxonomy & distributions, and some aspects of ecology of native western species.
- Each student will acquire some knowledge of the conservation status of selected species in the US and abroad.

BIO 446 : (Bio - PWS) Ornithology. (3:2:3)

WHEN TAUGHT: Winter

PREREQUISITE: Bio 100 or Bio 130 or PDBio 120 or PWS 100 or equivalent or instructor's consent.

DESCRIPTION: Avian systematics, evolution, distribution, identification, and natural history.

NOTE: One three-day field trip required.

**Course Outcomes**

- Define ornithology and what it encompasses.
- Discuss the global diversity of birds in both form and function
- Articulate the current thinking regarding the evolution of birds.
- Identify 200 birds common to western North America.

BIO 447 : Mammalogy. (3:2:3)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 220A; or PWS 344

DESCRIPTION: Mammalian diversity, evolution, distribution, and natural history. Two three-day field trips required.

**Course Outcomes**

- Be able to recognize the more common species of Utah mammals based on external and skull features
- Be able to recognize and identify most orders of mammals based on features of the skull
- Understand the evolutionary history of mammals and the modern diversity of mammalian orders
- Enhance skills directed toward understanding and interpreting original scientific literature dealing with mammalian biology

BIO 452 : Marine Biology. (4:3:1)

WHEN TAUGHT: Spring Even Yrs.

PREREQUISITE: Instructor's consent.

DESCRIPTION: Principles of physical and biological oceanography, biodiversity, and ecology of numerous ocean habitats. Extensive field trips.

**Course Outcomes**

No outcomes are available at this time.

BIO 463 : Genetics of Human Disease. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: PWS 340

DESCRIPTION: Examining the application of genetics to understanding and treatment of human disease. Functional consequences of mutations; use of model organisms; linkage and association analysis of complex traits; pharmacogenetics; ethical considerations.

**Course Outcomes**

- Understand and explain the different types of genetic variants, how they can be typed and how they can be used to understand the genetic architecture of human disease.
- Understand linkage disequilibrium in the human genome and the role it plays in the search for genetic risk factors for human disease
- Understand and use basic statistics and software for analyzing the correlation between genetic markers and risk for disease.
- Understand and explain how model organisms contribute to our understanding of the genetics of human disease.
- Demonstrate the ability to obtain, aggregate and present information about the current knowledge of the genetics of a human disease.

GEOL 103 : Life of the Past. (3:2:1)

WHEN TAUGHT: Contact Department.

DESCRIPTION: Cultural focus on historical geology for nonscience majors; fossils. Field trips.

**Course Outcomes**

There are no course outcomes available

GEOL 112 : Historical Geology. (4:3:2)

WHEN TAUGHT: Winter

PREREQUISITE: GEOL 111

DESCRIPTION: Developmental history of the earth, its landforms, and life forms, emphasizing the North American continent. Field trips and lab studies.

**Course Outcomes**

- Demonstrate understanding of the fundamentals of uniformitarianism and the scientific methods for determining the relative and absolute ages of Earth materials and events.
- Demonstrate a basic understanding of the origin and historical significance of sedimentary rocks. Be able to identify common clastic and non-clastic sedimentary rock types in hand sample and on outcrop. Be able to determine the depositional environment from rock type and outcrop pattern. Understand the age and significance of Sloss' depositional sequences.
- Be able to recognize the nature and mode of fossil preservation. Be able to identify the major invertebrate fossil groups and signify the environmental significance of each. Use fossils to recognize the age of sedimentary strata.
- Demonstrate a basic knowledge of organic evolution including the key concepts of natural selection and its role in producing the fossil record. Be able to explain the evidence that led Darwin to the theory of natural selection as well as post-Darwinian discoveries.
- Understand that modern Earth is a product of the coevolution of the biosphere, lithosphere, atmosphere, and hydrosphere over 4.6 billion years of earth history. Demonstrate knowledge of key biological, depositional, tectonic, and climatic events in the context of the geological timescale.
- Be able to decipher the geological history of an area from a geological map.
- Demonstrate mastery of a scientific concept and ability to convey that concept to a body of peers using PowerPoint and/or other professional means.

MATH 119 : Introduction to Calculus. (4:4:1)

OFFERED: Independent Study only.

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Math 110 and Math 111; or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.

**Course Outcomes**

- This course is designed to provide beginning undergraduate students a first exposure to Calculus concepts, theorems, and techniques. In general, theorems will not be proved. An understanding of the theorems and their applications to solve calculus problems will be taught. Students will be expected to develop effective problem solving skills based on their understanding of the theory and not just memorize a set of routines to solve problems. For a more detailed course description, visit the Math 119 Wiki page.

PWS 282 : Introduction to Soil Science. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: PWS 283 or concurrent enrollment.
DESCRIPTION: Physical, chemical and microbiological properties of soils that affect plant growth in natural, agricultural, and urban environments.

**Course Outcomes**

- Enhance critically thinking skills as they apply to soil resource management and conservation
- Demonstrate a fundamental knowledge of soil chemistry, genesis, microbiology, physics, taxonomy, and nutrient and water relations
- Create a conceptual framework to help manage soil resources (i.e., animal habitat, plant nutrient fertility, salinity, soil and water quality, and wind and water erosion) in agricultural, urban, and ecological settings
- Understand the historical and current problems, and cultural concerns facing soils as a natural resource essential to human life

PWS 283 : Introduction to Soil Science Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: PWS 282 or concurrent enrollment.
DESCRIPTION: Laboratory techniques in determining soil physical, chemical, and fertility properties.

**Course Outcomes**

- Understand basic soil assessments related to soil chemistry, physics, biology, and nutrient fertility
- Apply laboratory techniques to determine problems associated with soil resource conservation and management
- Conduct basic soil methods in nutrient analysis; textural classification; and organic matter, cation exchange capacity, acidity, and alkalinity content

*Hours include courses that may fulfill university core requirements.

## The Discipline

The biology degree provides students with current, practical knowledge of plants and animals, emphasizing whole organism biology in both ecological and evolutionary contexts. Broad, synthetic training, from molecular to community levels of organization, equips students to address critical issues and contemporary biological problems associated with the long-term preservation of earth's biodiversity. Elective flexibility allows students to emphasize the botanical or zoological fields, or create a combined program of study. Undergraduate research opportunities may include internships, museum collections curation, bioinventory and data-basing activities, applied molecular genetics, and field and laboratory research in ecology, conservation biology, or evolutionary biology.

## Program Requirements | View MAP | View Program Outcomes

1. Complete the following:

BIO 130 : Biology. (4:3:1)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: General biology course with laboratory for biology majors. Introduction to disciplines in the life sciences including methods for scientific inquiry, biochemical dynamics, cell structure and function, evolutionary theory, bioenergetics, and ecological interactions.

**Course Outcomes**

- Students will demonstrate basic literacy in the language of science and an understanding of the foundational theories of biology (i.e., be able to formulate appropriate hypotheses and predictions to test specific biological phenomena and use appropriate vocabulary to do so) o Atomic Molecular Theoryo Cell Theoryo Theories of Photosynthesis, Fermentation, and Cellular Respirationo Cell Division and Meiotic Theorieso Chromosomal and Mendelian Theories of Inheritanceo Watson and Crick's Theory of DNA Structure and Replicationo Protein Synthesis Theoryo Darwin's Theory of Natural Selectiono Hardy-Weinberg Theoryo Ecosystem Theoryo Population Growth Theoryo Competitive Exclusion and Behavioral Theory
- Students will demonstrate an understanding of the basic scientific principles which undergird the scientific process, including the strengths and weaknesses of this process.
- Students willappreciate the excitement of discovery that has accompanied important scientific developments.
- Students will demonstrate how scientific methodology can be used to analyze real-world science-related problems.
- Students will be able to evaluate scientific data and claims in order to make rational decisions on public-policy science issues that affect their community.
- Students will be able to express their thoughts (in oral, graphical, and written formats) on scientific topics clearly, including appropriate use of basic scientific vocabulary and effective interpretation of quantitative data.
- Students will be able to reflect rationally upon the interface between science and religion.
- Students will demonstrate sound scientific reasoning ability.

BIO 220A : Biological Diversity: Animals. (4:3:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PDBIO 120; or BIO 130

DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in invertebrates and vertebrates. Laboratory included.

**Course Outcomes**

- Students will be able to discuss the broad patterns of the evolution of the clade Animalia, emphasizing the relationships among major sub-clades (phyla), the unique biological attributes that define these clades, and the novel changes in morphology over major transitions (unicellular to multicellular; acoelomate to pseudocoelomate to coelomate body plans, bilaterial vs radial symmetry, origins of exoskeletons, gill slits, notochord, crania & vertebral columns, etc.).
- Students will develop the skills necessary to understand the terminology of phylogenetic systematics and methods used to recover the "tree of life", the logic behind the hierarchy (i.e., the only possible outcome of the process of "descent with modification"), and critically apply evolutionary reasoning, including the use of phylogeny and tree-thinking, to formulate and test hypotheses that explain biological diversity.
- Students will have the intellectual tools to continue to explore related topics with confidence and understanding throughout their lives, and a deeper appreciation for the diversity of life on earth.

BIO 220B : Biological Diversity: Plants. (4:3:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PDBIO 120; or BIO 130

DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in fungi, algae, and principal groups of land plants. Laboratory included.

**Course Outcomes**

- Students will be able to discuss differences between cyanobacteria, algae, bryophytes, non-seed vascular plants, gymnosperms, flowering plants, and fungi with repsect to their lifecycles, characteristic morphologies, and biological roles.
- Students will develop the skills necessary to understand and critically apply evolutionary logic including the use of phylogeny and tree-thinking to formulate and test hypotheses that explain biological diversity
- Students will be able to continue to explore related topics with confidence and understanding throughout their lives.

BIO 350 : Ecology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 120; or BIO 130

DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

**Course Outcomes**

- Understand the major physical processes that form and characterize the biosphere, including global scale energy flow, the carbon cycle, climate, and soil formation.
- Understand the processes that drive major levels of organization of the biotic world, including energetics in the ecosystem, population dynamics, and species interactions.
- Understand the importance of writing as a way of synthesizing and solidifying critical thought.
- Foster and promote environmental stewardship within your realm of influence and your community.
- Understand the importance of ecology to issues regarding human well-being
- See the connectivity and relevance of ecology to other fields of study

BIO 420 : Evolutionary Biology. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: MMBIO 240 & PWS 340

RECOMMENDED: Concurrent enrollment in Bio 421.

DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

**Course Outcomes**

- Students will be able to describe the history and development of evolutionary thought.
- Students will be able to list and describe the evidence for evolution and its required corollaries.
- Students will be able to describe the mechanisms by which evolution occurs. Provide detailed explanations of the the processes of evolution by mutation, migration, genetic drift, non-random mating, and natural selection.
- Students will be able to explain adaptation, providing examples from several different fields of biology (e.g., cell biology, physiology, conservation biology, bioinformatics, medicine, behavior, etc.).
- Students will be able to describe the history of life on earth. Identify major evolutionary transitions over time, and explain the tools and evidence that support current hypotheses of the history of life.

BIO 421 : Evolutionary Biology Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: MMBIO 240

DESCRIPTION: Hands-on applications and analytical tools of evolutionary biology; emphasizing inference methodology and evidence complementing the theoretical constructs introduced in Bio 520, including comparative anatomy, phylogenetic inference, population genetics, species concepts, and human evolution.

NOTE: Concurrent enrollment with Bio 420 is strongly recommended.

**Course Outcomes**

- Students will gain a better understanding of the basic principles of evolution within a population including selection, drift, and founder effects by using computer simulations.
- Students will have a deeper understanding of the LDS position on evolution.
- Students will learn the details of phylogenetic reconstruction, tree searching, DNA sequence alignment, and other bioinformatics tools for deciphering patterns of evolution.
- Students will learn the details of species concepts and the criteria used for identifying and diagnosing species.
- Students will gain hands-on experience with hominid fossils and gain an understanding of the evidence that elucidates the biological history of humans.

MMBIO 240 : Molecular Biology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: BIO 130 & CHEM 105; or PDBIO 120 & CHEM 105; or MMBIO 151 & CHEM 105

DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

NOTE: Chem 105 and Chem 111 can also fulfill the prerequisite requirement; contact advisor.

**Course Outcomes**

- Describe and compare the functions and molecular structures of DNA, RNA, and protein, and explain the processes and regulatory mechanisms governing the synthesis of each.
- Explain a variety of molecular biology techniques, and interpret experimental results obtained using the various methods.
- Solve unfamiliar problems by applying the information and principles mastered through Learning Outcomes 1 and 2
- Collaborate with other students to solve challenging problems, to clarify ideas and concepts, and to learn from one another in a spirit of cooperation and integrity

PWS 340 : Genetics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: MMBIO 240; or CHEM 481M; or CHEM 481

DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

**Course Outcomes**

- Students can construct two- and three-point linkage maps.
- Students can display fluency in interpreting gene annotation and nomenclature in GenBank records.
- Students can demonstrate ability to analyze and apply Chi-square goodness-of-fit tests to complex geneticdata sets involving segregation and Hardy-Weinberg equilibrium models.
- Students can identify differences between extranuclear, autosomal and sex-linked inheritance patterns.
- Students can use genetic data (DNA or amino acid sequence) to reconstruct basic evolutionary phylogenies.
- Students can dissect quantitative traits into environmental and genetic variance components.

2. Complete one course from the following:

BIO 370 : Bioethics. (2:1:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Introductory biology course.

DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

**Course Outcomes**

- Students will understand the ethical and philosophical underpinnings of bioethics and to develop ethical intuitions on bioethical issues.
- Students will learn the terminology, vocabulary, and objectives of bioethics.
- Students will understand the tools and approaches needed to make a bioethical decision and to communicate that decision in rationally informed ways.
- Students will understand the bioethical primary literature, to understand how to read case studies, and familiarity with the major issues being discussed in bioethics today.

BIO 470 : History and Philosophy of Biology. (3:1.5:1.5)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 350

DESCRIPTION: Development of fundamental generalizations of biology; nature of science; applications to major philosophical issues of current science.

**Course Outcomes**

- Students will demonstrate an understanding of the history of biology. This will include an understanding of the major figures and the historical development of modern biology. This will include having read original texts from the periods covered (Aristotle to Current Biology).
- Students will also have an understanding of principal philosophical issues confronting modern biology, including major research trends in philosophy of biology. The students will also have a grasp of what 'science' is, how it is practiced, and what expectations for knowledge can be justified using science.
- Students will have the ability to read and write about the primary literature both on the history, and the philosophy, of science. They will have a grasp of the terminology used in philosophy, and how philosophy of biology is currently practiced. Writing will be emphasized.

3. Complete one of the following options:

a. Complete the following:

CHEM 105 : General College Chemistry. (4:5:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.

DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.

NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

**Course Outcomes**

- Students will demonstrate a familiarity with the basic vocabulary and concepts of chemistry.
- Students will demonstrate a qualitative and basic quantitative understanding of the fundamental chemical laws which govern the material substances in our universe and which express how one variable in nature depends on another.
- Students will demonstrate the ability to manipulate quantitative descriptors of natural phenomena expressed both in the form of equations and of proportionalities, and solve chemistry problems using these skills.

- A successful Chemistry 105 students describes chemical phenomenon by first focusing on properties of the elements at the atomic level. Chemistry 105 students will gain a knowledge base of reactivity patterns of elements and compounds.
- Chemistry 105 students will be able to use their chemistry experience, knowledge, and skills to better understand and work in their own field of study.

CHEM 106 : General College Chemistry. (3:4:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: CHEM 105; or CHEM 111

DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.

NOTE: Three lectures and one recitation section per week.

**Course Outcomes**

- Students will demonstrate an expanded mastery of the concepts that were learned in Chemistry 105 including: kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, thermodynamics, organic, biochemistry, and nuclear chemistry.
- Students will demonstrate the ability to solve mathematical problems, typically using algebra, in kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, and thermodynamics.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Chem 106 or Chem 112 or concurrent enrollment.

DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.

NOTE: Required for most students needing one year of general chemistry.

**Course Outcomes**

- Through laboratory experiments, students will demonstrate that they can use precise scientific instrumentation to find quantitative answers to significant problems within the total precision allowed by the equipment.
- Students will demonstrate that they can perform simple experiments, observe the outcomes accurately, then make reasoned, accurate decisions about the meanings of the results.

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Chem 101 or equivalent.

DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

**Course Outcomes**

- Students will understand the metabolism of carbohydrates, lipids, and proteins in humans. They will be able to describe in structures and words the metabolism of sugars through the pathways of glycolysis, the citric acid cycle, and the electron transport chain.
- Students will understand the structure and reactivity of organic functional groups, such as alcohols, aldehydes, carboxylic acids, and amides. For example, students will learn that aldehydes and ketones typically undergo addition reactions.
- Students will understand the structure and reactivity of the biomolecules that have those functional groups. For example, students will be able to demonstrate that carbohydrates are aldehydes and ketones that undergo addition reactions to form hemiacetals and polysaccharides with acetal linkages.

b. Complete the following:

CHEM 105 : General College Chemistry. (4:5:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.

DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.

NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

**Course Outcomes**

- Students will demonstrate a familiarity with the basic vocabulary and concepts of chemistry.
- Students will demonstrate a qualitative and basic quantitative understanding of the fundamental chemical laws which govern the material substances in our universe and which express how one variable in nature depends on another.
- Students will demonstrate the ability to manipulate quantitative descriptors of natural phenomena expressed both in the form of equations and of proportionalities, and solve chemistry problems using these skills.
- A successful Chemistry 105 students describes chemical phenomenon by first focusing on properties of the elements at the atomic level. Chemistry 105 students will gain a knowledge base of reactivity patterns of elements and compounds.
- Chemistry 105 students will be able to use their chemistry experience, knowledge, and skills to better understand and work in their own field of study.

CHEM 106 : General College Chemistry. (3:4:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: CHEM 105; or CHEM 111

DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.

NOTE: Three lectures and one recitation section per week.

**Course Outcomes**

- Students will demonstrate an expanded mastery of the concepts that were learned in Chemistry 105 including: kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, thermodynamics, organic, biochemistry, and nuclear chemistry.
- Students will demonstrate the ability to solve mathematical problems, typically using algebra, in kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, and thermodynamics.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Chem 106 or Chem 112 or concurrent enrollment.

DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.

NOTE: Required for most students needing one year of general chemistry.

**Course Outcomes**

- Through laboratory experiments, students will demonstrate that they can use precise scientific instrumentation to find quantitative answers to significant problems within the total precision allowed by the equipment.
- Students will demonstrate that they can perform simple experiments, observe the outcomes accurately, then make reasoned, accurate decisions about the meanings of the results.

CHEM 351 : Organic Chemistry. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: CHEM 105; or CHEM 111

DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.

NOTE: Primarily for majors in chemical engineering and the biological sciences.

**Course Outcomes**

- Recognize functional group classes commonly encountered in organic chemistry and name representative molecules from each class using IUPAC rules for organic nomenclature.
- Predict structure and reactivity of alkanes, alkenes, alkynes, aromatic hydrocarbons, alcohols, ethers, epoxides, and alkylhalides based on such factors as carbon atom hybridization, bond length, bond strength, and bond polarity.
- Recognize and provide curved arrow mechanisms for the following types of organic reactions: additions, substitutions, and eliminations.
- Predict the energetically preferred conformation for straight-chain and branched alkanes, and for substituted cycloalkanes.
- Determine R and S configurations for chiral molecules and distinguish between enantiomers, diastereomers, meso compounds, and conformational isomers.
- Interpret 1H NMR, 13C NMR, IR, UV, and mass spectra and use these data to determine the structure of organic molecules.
- Predict the relative energies of reactive intermediates such as radicals, carbocations, and carbanions, based on structural considerations such as orbital hybridization, hyperconjugation, and resonance stabilization.

CHEM 352 : Organic Chemistry. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: CHEM 351; or CHEM 351M

DESCRIPTION: Continuation of Chem 351.

**Course Outcomes**

- Predict structure and reactivity of aldehydes, ketones, carboxylic acids, esters, anhydrides, amides, b-ketocarbonyl containing compounds, amines, and phenols.
- Recognize and provide curved arrow mechanisms for the following types of organic reactions: electrophilic & nucleophilic aromatic substitution, nucleophilic carbonyl addition, nucleophilic acyl substitution, carbonyl condensation, [4 2] cycloaddition, and substitution ato a carbonyl.
- Recognize and predict the reactivity of the following reactive species and/or reactive intermediates: Grignard reagents, Wittig reagents, organolithiums, diorganocuprates, enols, enolates, aryl diazonium ions, and benzynes.
- Recognize and predict the structure and reactivity of the following classes of biologically important organic molecules: carbohydrates, amino acids, proteins, and lipids.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Chem 352 or Chem 352M or concurrent enrollment (preferred).

DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.

NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

**Course Outcomes**

- Perform a broad range of traditional organic reactions at the micro scale including: nucleophilic carbonyl additions, hydroboration, nucleophilic acyl substitution, electrophilic aromatic substitution, [4 2] cycloaddition, and photochemical alkene isomerization.
- Implement fundamental organic chemistry techniques for carrying out basic experiments, and purifying products, at the micro scale including: extraction, distillation, recrystalization, column chromatography, and TLC.
- Make correct conclusions about the outcome of experiments after collecting basic physical data, and after providing unambiguous interpretation of the necessary spectra.

4. Complete one of the following options:

a. Complete the following:

MATH 112 : Calculus 1. (4:5:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.

**Course Outcomes**

- This course is designed for students majoring in the mathematical and physical sciences, engineering, or mathematics education and for students minoring in mathematics or mathematics education. Calculus is the foundation for most of the mathematics studied at the university level. The mastery of calculus requires well-developed skills, clear conceptual understanding, and the ability to model phenomena in a variety of settings. Calculus 1 develops the concepts of limit, derivative, and integral, and is fundamental for many fields of mathematics. This course contributes to all the expected learning outcomes of the Mathematics BS. For more detailed information, visit the Math 112 Wiki page.

: Honors Calculus 1.

**Course Outcomes**

PHSCS 121 : Introduction to Newtonian Mechanics. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Calculus or concurrent enrollment.
DESCRIPTION: Linear, circular, and projectile motion; their prediction from forces and torques. Conservation of energy and momentum. Weekly lab.

**Course Outcomes**

- Convert quantities from one set of units to another and use a reasonable number of significant digits when expressing answers.
- Compute a particle's classical translational motion in one or two dimensions, including circular motion, both in Cartesian coordinates and in polar coordinates.
- Use the ideas of energy, work, power, linear momentum, and angular momentum to arrive at conclusions about the motion of a system, including the motion of satellites and the planets.
- Use Newton's Second Law to calculate the motion of objects, including those in simple harmonic motion, as well as the forces and torques acting on systems in equilibrium.
- Demonstrate an understanding of the basic scientific principles which undergird the scientific process, including the strenghts and weaknesses of this process

PHSCS 123 : Introduction to Waves, Optics, and Thermodynamics. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Phscs 121 or equivalent. Calculus.
DESCRIPTION: Waves, thermal physics, optics, special relativity, and introduction to modern physics. Weekly lab.

**Course Outcomes**

- Solve problems and answer conceptual questions using the basics of fluid statics and dynamics, including Bernoulli's principle and Pascal's law.
- Answer conceptual questions and calculate changes in temperature, pressure, entropy and volume for quasistatic ideal gas processes and be able to determine work done and efficiency for gas engines, heat pumps, and refrigerators. Determine heat flow and temperatures in systems in steady state.
- Solve problems and answer conceptual questions involving waves, using concepts such as wave speed, wavelength, frequency, superposition, beats, and resonance. Solve wave interference problems.
- Find the location and magnification of images in single- and multiple-lens/mirror systems by calculation and by ray tracing, and be able to work general problems in optics using Snell's law and specular reflection.
- (Section 1) Solve problems and answer conceptual questions in basic modern physics including special relativity, and quantum mechanics and nuclear physics.
- (Section 2) Solve more advanced problems and answer conceptual questions in wave analysis, including calculating group and phases velocities, solving for Fourier coefficients of periodic functions, and frequencies of notes in the equal temperament musical scale. Solve problems in special relativity.

b. Complete the following:

MATH 112 : Calculus 1. (4:5:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.

**Course Outcomes**

- This course is designed for students majoring in the mathematical and physical sciences, engineering, or mathematics education and for students minoring in mathematics or mathematics education. Calculus is the foundation for most of the mathematics studied at the university level. The mastery of calculus requires well-developed skills, clear conceptual understanding, and the ability to model phenomena in a variety of settings. Calculus 1 develops the concepts of limit, derivative, and integral, and is fundamental for many fields of mathematics. This course contributes to all the expected learning outcomes of the Mathematics BS. For more detailed information, visit the Math 112 Wiki page.

: Honors Calculus 1.

**Course Outcomes**

PHSCS 105 : General Physics 1. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Mechanics, heat, wave motion, and sound.

**Course Outcomes**

There are no course outcomes available

PHSCS 106 : General Physics 2. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Electricity and magnetism, modern physics, and optics

**Course Outcomes**

There are no course outcomes available

PHSCS 107 : General Physics Lab 1. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Phscs 105 or concurrent enrollment.
DESCRIPTION: Lab experiments in mechanics and thermodynamics. Measuring and analyzing data.

**Course Outcomes**

- Develop a greater conceptual understanding of mechanics and thermodynamics through hands-on experience with physical systems that illustrate lecture course material.
- Develop skills in measuring and analyzing physical data.

PHSCS 108 : General Physics Lab 2. (1:0:3)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Phscs 106 or concurrent enrollment
DESCRIPTION: Lab experiments in electricity, magnetism, optics, and modern physics. Measuring and analyzing data.

**Course Outcomes**

- Develop a greater conceptual understanding of electricity and magnetism, optics, and modern physics through hands-on experience with physical systems that illustrate lecture course material.
- Develop skills in measuring and analyzing physical data.

5. Complete 12 hours of electives from the following:

BIO 352 : Introduction to Marine Biology. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: BIO 220A
DESCRIPTION: Marine life, the sea as an environment, and research methods.

**Course Outcomes**

There are no course outcomes available

BIO 380 : Comparative Animal Physiology and Anatomy. (4:3:3)

WHEN TAUGHT: Fall

PREREQUISITE: Bio 220A or instructor's consent.

DESCRIPTION: Structure and function of animal organ systems; structural and physiological responses to demands of and changes in environment; evolutionary constraints on anatomy and physiology.

**Course Outcomes**

- Students will demonstrate a fundamental knowledge of comparative vertebrate animal physiology and anatomy.
- Students will develop critical thinking skills while learning concepts and understanding the tools used by comparative vertebrate animal physiologists and anatomists to study function and structure.
- Students will use physiological and anatomical knowledge to enhance their personal lives.
- Students will use their skills and knowledge in comparative vertebrate animal physiology and anatomy to secure employment or to advance in higher education in biology-related disciplines.
- Students will develop an understanding of physiologic isotopic techniques utilized to indicate energy sources, trophic levels, body water, and latitudinal and altitudinal animal migration reflected by stable isotopes of carbon, nitrogen, hydrogen and oxygen.

BIO 430 : Plant Classification and Identification. (4:3:3)

WHEN TAUGHT: Fall

PREREQUISITE: Bio 100 or Bio 130 or PDBio 120 or PWS 100 or instructor's consent.

DESCRIPTION: Principles of plant systematics, taxonomy, and classification, emphasizing family recognition by sight, terminology, and use of identification keys to the temperate flora.

**Course Outcomes**

- Students will apply correct vocabulary for describing plant parts and be able to deduce the meaning of new terms based on knowledge of common roots, prefixes, and suffixes.
- Students will recognize the major groups of vascular plants, be able to differentiate them by their principal characters, and understand their phylogenetic relationships.
- Students will identify by sight 40 families of flower plants as well as common families of ferns and gymnosperms, by recognizing differentiating features of each family.
- Students will gain proficiency in the use of keys and identification manuals for identifying any unknown plant to species.

BIO 441 : Entomology. (3:2:3)

WHEN TAUGHT: Fall

PREREQUISITE: Bio 220A or equivalent.

DESCRIPTION: External morphology, natural history, evolution, distribution, and phylogeny of insects. Insect collection required.

**Course Outcomes**

- Understand basic principles of morphology and systematics and apply these principles to your own knowledge of insects.
- Judge genetic relationships. Be able to recall current hypotheses of insect phylogeny at the ordinal level and have the tools needed to judge validity of new hypotheses of phylogeny that might be proposed. You will also study carefully the modifications associated with phylogenies that led to insect diversification and success.
- Understand details of insect morphology, and be well versed in both internal and external body structures.
- Recognize common insect families and be able to quickly identify them on sight.
- Gain or regain a sense of wonder for the natural world, especially as it relates to insects and other arthropods. Gain perspectives of the diversity and complexity in the insect world. Enhance your appreciation for the natural world we share with them.
- Learn life histories and specific collecting techniques for insects in their own habitats. You will learn how they fit in the natural world.
- Learn the protocols for detailed identificiations. Many insects will be totally new in appearance to you. You will use identification guides and illustrations to help you decide what the name of an insect is at the Order and Family levels.
- Use a variety of identification techniques to correctly identify insects and other arthropods. Throughout your life you will be asked by employers, friends, and family to answer the question, "What is this?" This course will give you these exact skills. A correct identification is a beginning step to learning more about a species and its relationships to the natural world and its pragmatic relationship to humans.

BIO 442 : Advanced Invertebrate Zoology. (5:6:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: BIO 220A

DESCRIPTION: Functional morphology, cladistics, ecology, behavior, and interrelationships of invertebrates.

**Course Outcomes**

There are no course outcomes available

BIO 443 : Ichthyology. (3:2:3)

WHEN TAUGHT: Fall Odd Yrs.

PREREQUISITE: BIO 220A

DESCRIPTION: Fish systematics, evolution, morphology, distribution, and natural history.

**Course Outcomes**

- Students will have a general understanding of fish respiration.
- Students will have a general understanding of fish body structure.

- Students will have a general understanding of fish food processing.
- Students will have a general understanding of fish behavior and communication.

BIO 445 : Herpetology. (4:3:2)

WHEN TAUGHT: Winter Even Yrs.

PREREQUISITE: BIO 220A

DESCRIPTION: Reptile and amphibian evolution, systematics, morphology, distribution, and natural history. Lab emphasizes taxonomy, classification, and distribution of western U.S. species.

**Course Outcomes**

- Each student will gain a deeper understanding of some details of the origin of tetrapods, and the origin of the amniotes.
- Each student will gain a deeper understanding of the phylogenetic position of extinct and extant clades of amphibians & reptiles within the clade Vertebrate.
- Each student will acquire a detailed knowledge of the evolution and natural history (natural history, behavior, etc.) of the major clades of extant amphibians and reptiles .
- Through lab and field experiences, each student will acquire a detailed knowledge of diagnostic characters, taxonomy & distributions, and some aspects of ecology of native western species.
- Each student will acquire some knowledge of the conservation status of selected species in the US and abroad.

BIO 446 : (Bio - PWS) Ornithology. (3:2:3)

WHEN TAUGHT: Winter

PREREQUISITE: Bio 100 or Bio 130 or PDBio 120 or PWS 100 or equivalent or instructor's consent.

DESCRIPTION: Avian systematics, evolution, distribution, identification, and natural history.

NOTE: One three-day field trip required.

**Course Outcomes**

- Define ornithology and what it encompasses.
- Discuss the global diversity of birds in both form and function
- Articulate the current thinking regarding the evolution of birds.
- Identify 200 birds common to western North America.

BIO 447 : Mammalogy. (3:2:3)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 220A; or PWS 344

DESCRIPTION: Mammalian diversity, evolution, distribution, and natural history. Two three-day field trips required.

**Course Outcomes**

- Be able to recognize the more common species of Utah mammals based on external and skull features
- Be able to recognize and identify most orders of mammals based on features of the skull
- Understand the evolutionary history of mammals and the modern diversity of mammalian orders
- Enhance skills directed toward understanding and interpreting original scientific literature dealing with mammalian biology

BIO 450 : Conservation Biology. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 220A & BIO 350; or BIO 220B & BIO 350

DESCRIPTION: Scientific principles of conservation: applying population genetics, and phylogenetic and ecological theory to preservation of biological diversity; developing sustainable ecological systems compatible with human resource use.

**Course Outcomes**

- Apply an understanding of ecological processes to conservation of populations, species, and ecosystems.
- Foster and promote environmental stewardship within your realm of influence and your community.
- Demonstrate the ability to apply the scientific method and analytical thinking to ecological and conservation issues.
- Demonstrate the ability to synthesize literature relevant to a topic in conservation bioloigy
- Demonstrate the ability to write a scientific term paper

BIO 452 : Marine Biology. (4:3:1)

WHEN TAUGHT: Spring Even Yrs.

PREREQUISITE: Instructor's consent.

DESCRIPTION: Principles of physical and biological oceanography, biodiversity, and ecology of numerous ocean habitats. Extensive field trips.

**Course Outcomes**

No outcomes are available at this time.

BIO 455 : Plant Ecology. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: BIO 220B

RECOMMENDED: Bio 350.
DESCRIPTION: Fundamental principles governing interactions among plants and their environments with respect to their success. Students will be able to apply their knowledge to land management, conservation and agriculture.

**Course Outcomes**

There are no course outcomes available

BIO 463 : Genetics of Human Disease. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: PWS 340
DESCRIPTION: Examining the application of genetics to understanding and treatment of human disease. Functional consequences of mutations; use of model organisms; linkage and association analysis of complex traits; pharmacogenetics; ethical considerations.

**Course Outcomes**

- Understand and explain the different types of genetic variants, how they can be typed and how they can be used to understand the genetic architecture of human disease.
- Understand linkage disequilibrium in the human genome and the role it plays in the search for genetic risk factors for human disease
- Understand and use basic statistics and software for analyzing the correlation between genetic markers and risk for disease.
- Understand and explain how model organisms contribute to our understanding of the genetics of human disease.
- Demonstrate the ability to obtain, aggregate and present information about the current knowledge of the genetics of a human disease.

BIO 465 : Bioinformatics and Proteomics. (3:2:1)

WHEN TAUGHT: Winter
PREREQUISITE: BIO 365
DESCRIPTION: 3-D protein structural comparisons, hidden Markov models for database comparisons, homology detection, multiple sequence analyses, and protein family comparisons. Exercises in computer programming in genomics.

**Course Outcomes**

- Students will learn and demonstrate mastery of advanced analytical bioinformatics techniques, including genome assembly, genome annotation, and protein analyses.
- Demonstrate ability to use and evaluate literature databases and primary literature directed to the bioinformatics community in terms of newly developed software, analytical algorithms, application to empirical data, etc.
- Apply and develop computational skills in secondary (i.e., helices, etc.) and tertiary (i.e., folding, etc.) prediction, and 3-dimensional (i.e., x-ray crystal structures, etc.) modeling of protein structures.
- Apply evolutionary concepts to modeling DNA/proteins to evaluate and/or predict function, utilizing 3D structures, physical and chemical amino acid properties, etc.
- Apply existing and develop new tools for genome assembly and annotation from next-generation DNA sequencing projects

BIO 475 : Plant Developmental Biology. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.
PREREQUISITE: PWS 340
RECOMMENDED: Bio 220B.
DESCRIPTION: Developmental mechanisms controlling plant development, with particular emphasis on genetic and molecular regulation.

**Course Outcomes**

There are no course outcomes available

BIO 494R : Mentored Research. (1-6:0:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Supervisor's consent.
DESCRIPTION: Independent student research under faculty supervision.

**Course Outcomes**

- Students will demonstrate an understanding of the methods of scientific inquiry.
- Students will demonstrate an ability to design and implement a research project in a specialized area.
- Students will effectively interpret, analyze, and present results of experimentation to others.
- Students will show an appreciation for and understanding of the specialized field.

: Aquatic Biology.

**Course Outcomes**

: Bioinformatics.

**Course Outcomes**

: Ecology.

**Course Outcomes**

: Electron Microscopy.

**Course Outcomes**

: Entomology.

**Course Outcomes**

: Evolution.

**Course Outcomes**

: Marine Biology.

**Course Outcomes**

: Plant Biology.

**Course Outcomes**

: Systematics.

**Course Outcomes**

: Veterinary Science.

**Course Outcomes**

: Medicinal Botany.

**Course Outcomes**

: Plant Biochemistry.

**Course Outcomes**

: Fungal Biology.

**Course Outcomes**

BIO 510 : Biological Systematics and Curation. (3:3:0)

WHEN TAUGHT: Fall Even Yrs.

DESCRIPTION: Principles, methods, and tools of taxonomy and systematics as applied to species delimitation, specimen-based research, nomenclatural codes, and the curation of biological specimens.

**Course Outcomes**

- Students will be able to discuss species as the fundamental unit of biodiversity and the difference between species definitions and criteria used to delimit species.
- Students will be able to discuss basic philosophies of classification and the relationship between classification, phylogeny, and nomenclature.
- Students will gain proficiency with nomenclatural codes and their relationship to specimen-based research products such new species descriptions, monographs, floras, and faunas.
- Students will gain experience with a variety of specimen-based research tools.
- Students will understand responsibilities of biological collections management and curation.

BIO 511 : Lichenology. (3:2:3)

WHEN TAUGHT: Contact Department.

DESCRIPTION: Classification, morphology, and ecology on lichens. Field trip required.

**Course Outcomes**

- Research and characterize the nature of the lichen symbiosis.
- Develop a working knowledge of lichen biology.
- Demonstrate an understanding of the role of lichens as biomonitors of air quality.
- Develop basic skills for collecting, processing, and identifying lichens.
- Develop basic skills with:- Thin-layer chromatography – lichen secondary chemistry.- Molecular techniques – to characterize genetic patterns and relationships at the population level.
- Prepare research manuscripts for review and publication consideration.
- Present a research proposal for a project using lichens as air quality biomonitors.

BIO 512 : Angiosperm Phylogeny. (3:2:4)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Bio 430 or equivalent.

DESCRIPTION: Description, classification, phylogeny, and geographic distribution of flowering plant families.

**Course Outcomes**

- Students will be able to discuss the primary pattern of relationships among flowering plants as supported by contemporary research.â ¨â ¨
- Students will demonstrate proficiency in tree-thinking and the application of phylogenetic terminology in discussing angiosperm relationships.
- Students will demonstrate knowledge of world-wide flowering plant diversity, including examples of model organisms, convergence, and evolutionary novelties.

Students will be able to discuss contemporary research in flowering plant diversity, including outstanding problems where additional research is needed.

BIO 525 : Animal Disease, Biosecurity, and Zoonoses. (3:3.0:0)

WHEN TAUGHT: Winter

PREREQUISITE: Bio 380 or instructor's consent.

DESCRIPTION: Animal disease emphasizing prevention, organ systems affected, biosecurity, and zoonotic potential.

**Course Outcomes**

- Comparative pathophysiology will be taught using canine, feline, bovine, ovine, caprine, equine, lab animals, and wildlife examples
- Understand basic animal pathophysiology of disease on an organ system basis and preventive measures to maintain animal health
- Identify biosecurity practices to prevent animal disease
- Differentiate between zoonoses, sapronoses and anthroponoses and understand how to institute preventive measures and management practices to avert these health problems
- Design a herd health program with preventive measures that addresses nutrition, sanitation, housing, ventilation, lighting, and other components for a particular species the student wants to work with as a producer
- Understand how to institute good management procedures that can prevent the occurrence of animal disease
- Develop a basic knowledge of animal immunology as it pertains to disease induction and prevention, with natural and artificial immunity practices that should be implemented to enhance disease prevention, and nutritional practices to optimize animal immunity

BIO 541 : Aquatic Entomology. (4:2:4)

WHEN TAUGHT: Fall Even Yrs.

PREREQUISITE: Bio 441 or equivalent.

DESCRIPTION: Morphology, classification, biology, and functional ecology of aquatic insects. Field trips required.

**Course Outcomes**

- Develop an appreciation for the diversity of the living aquatic insect world.
- Learn to become better stewards of the earth and its living inhabitants.
- Understanding of all aquatic biology.

BIO 556 : Limnology. (3:2:4)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Bio 350, Chem 106; or equivalents.

DESCRIPTION: Lakes, reservoirs; their biota and physical/chemical properties.

**Course Outcomes**

- Understand the major physical processes that form and characterize lentic habitats.
- Understand the dominant chemical processes that occur in lake systems.
- Understand how organisms adapt to the above physical and chemical constraints.
- Gain teaching experience through preparing a Powerpoint presenting your study presentation to the class.
- Experience pursuing a focused research topic from the initial question to a competed report.

BIO 557 : Stream and Wetland Ecology. (4:3:4)

WHEN TAUGHT: Fall Odd Yrs.

PREREQUISITE: Bio 350, Chem 106; or equivalent.

DESCRIPTION: Stream and wetland ecology; their biota and their physical/chemical properties.

**Course Outcomes**

- Develop an understanding of streams and wetlands within the broader context of ecology and conservation.
- Become familiar with the major conservation issue in streams and wetlands and the underlying ecological concepts.
- Initial exposure to the current literature.
- Develop skills related to critical thinking. That is, learn how to: a) read critically and summarize information, b) draw conclusions and synthesize information to develop new questions and hypotheses, and c) design experiments or comparative studies. It is important to start early to learn how to think, read, and write critically.

BIO 560 : Population Genetics. (4:4:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: Bio 420 or equivalent.

DESCRIPTION: Basic principles of population genetics applied to natural populations; drift, selection, and nonrandom mating; inferring population subdivision, migration, and gene flow.

**Course Outcomes**

- Students will gain a general introduction to the field a population genetics.
- Students will experience the broad application of population genetics to diverse fields from ecology to medicine.
- Students will manipulate and analyze population genetic data, especially molecular data.

CHEM 481 : Biochemistry. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: CHEM 352M & PDBIO 120; or CHEM 352 & PDBIO 120

DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.

NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine. (For prerequisite, Bio 130 may be used in place of PDBio 120.)

**Course Outcomes**

- Demonstrate mastery of key concepts in the Biochemistry subdiscipline and articulate the relationships between chemistry and biology. This outcome is elaborated in outcomes 2-5 below
- Explain how the structure of biomolecules such as proteins, nucleic acids, lipids, and carbohydrates determines their biological function
- Describe how enzymes catalyze reactions in terms of thermodynamics, kinetics, and mechanistic strategies
- Understand how energy is generated from metabolic reaction pathways
- Push arrows to predict and understand reactivity in metabolic pathways
- Communicate scientific ideas clearly to other specialists in writing
- Identify and understand primary research articles relevant to a specific biochemical question of current interest
- Interpret and critique experimental data relating to biochemical models

MMBIO 461 : Advanced Bacterial Physiology. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: CHEM 481 & MMBIO 151

DESCRIPTION: Principles of prokaryotic physiology, including cell structure and function, gene regulation, and biochemical processes; focusing on the unique aspects of prokaryotic biology.

**Course Outcomes**

- Students will demonstrate an advanced understanding of selected topics in microbial physiology (cell structure, growth, biosynthesis, transport, etc.) through their participation in classroom discussions, writing assignments and oral presentations.
- Students will demonstrate the ability to read, comprehend and communicate current research in microbial physiology by making Powerpoint presentations to the class.
- Students will write a scientific review article on a topic of their choice related to microbial physiology.

MMBIO 465 : Virology. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: MMBio 261 or equivalent.

DESCRIPTION: Basic principles of virology, emphasizing selected molecular aspects of virus life cycles and disease processes.

**Course Outcomes**

- Be able to answer basic questions about Virology: Why are viruses organized as they are? How do viruses replicate? How do viruses cause disease? What are the interactions between viruses and the host immune system? How to prevent/treat/cure viral infections? How can viruses be used as tools to study biological processes and for gene transfer? How can an understanding of viruses help you in your future career? *Relates to Program Learning Outcome: “Exhibit mastery of four of the principal areas of the discipline”, one of which is Virology.
- Understand experimental tools used to study viruses (these are broadly applicable to molecular biology, cell biology, and microbiology) and be able to develop experiments and interpret data.*Relates to Program Learning Outcomes: “Devise experiments with appropriate hypotheses and controls” and “Interpret experiments from primary scientific literature”
- Write about a current, pressing issue in the field of Virology.*Relates to Program Learning Outcome: “Communicate scientific information”
- Understand how research of viruses “by study and also by faith” can lead to alleviation of human disease and suffering.*Relates to Program Learning Outcome: “Reflect/discuss/explore how faith in the Lord and Christ-like living are affected by an understanding of fundamental biological processes”

PDBIO 360 : Cell Biology. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: MMBIO 240; or CHEM 481M; or CHEM 481

DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

**Course Outcomes**

- Students will demonstrate knowledge of the molecular architecture of the nucleus, including the nuclear envelope, nucleoplasm and nucleolus, chromatin, and the nuclear pore.
- Students will demonstrate an understanding of protein transport, including nuclear import and export and vesicular transport through the secretory and sorting pathways.
- Students will demonstrate knowledge of the molecular and cellular structure and dynamics of cytoskeletal systems.
- Students will be able to apply the basic cell biological principles in outcomes 1-3 to more complicated cellular processes, including cell adhesion, cell migration, cell polarity, cell division, cancer, and development.
- Students will demonstrate the ability to generate hypothesis about how cell biological systems work at the molecular level and design experiments that test that hypothesis.
- Students will demonstrate competence in interpreting original raw data from cell biology experiments, including microscopy, protein biochemistry, molecular biology, and genetics strategies

- Students will demonstrate the ability to critically evaluate primary cell biology literature, including the ability to evaluate the design and interpretation of experimental data.

PDBIO 362 : Advanced Physiology. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: MMBIO 240 & PHSCS 106; or MMBIO 240 & PHSCS 220

DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.

NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

**Course Outcomes**

- Students will manifest an understanding of how structures at the molecular level lead to properties associated with cells, tissues, organs, and organ systems.
- Students will demonstrate a comprehension of the functions of the major physiological systems found in humans.
- Students will describe how organ systems work together interactively to maintain homeostasis.

PWS 440 : Plant Physiology. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: GE Biological Science requirement; college chemistry

RECOMMENDED: Chem 285; or 351, 352.

DESCRIPTION: Photosynthesis, respiration, water relations, mineral nutrition, growth of flowering plants.

**Course Outcomes**

- Students will be fluent in understanding plant function at the molecular, biochemical and whole plant levels
- Students will understand the connections between plant function and ecosystem processes
- Student will practice applying the scientific method in order to develop critical thinking and problem solving skills
- Student will engage in learning activities that increase there writing and speaking proficiency

STAT 201 : Statistics for Engineers and Scientists. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: MATH 112; or MATH 119

DESCRIPTION: The scientific method; probability, random variables, common discrete and continuous random variables, central limit theorem; confidence intervals and hypothesis testing; completely randomized experiments; factorial experiments.

**Course Outcomes**

- Compute numerial and graphics summary statistics and explain the difference between populations given the summaries (numerical or graphical)
- Apply fundamentals of set theory and basic set operations to simple problems
- Distinguish between counting techniques (permutations, combinations) and compute the number of possible combinations for simple problems
- Solve simple problems using axioms of probability, conditional probability, independence, and Bayes' theorem
- Compute probabilities, expected values, and variances using the PDF of a discrete and a continuous univariate random variable
- Understand the definition of a sampling distribution, identify the mean, variance, and shape of the sampling distribution given the population information, and explain the application and importance of the Central Limit Theorem
- Understand the basics of experimental design, including the definition of the experimental unit, response, variable, factor(s), and level(s) of a basic experiment, and the role of randomization and replication to permit causal inference
- Compute the confidence interval for μ from a random sample and make the correct decision about an experiment when given a confidence interval
- Compute the test statistic and p-value for H0 : μ = μ0 from a random sample
- Make the correct decision when given the p-value for a hypothesis test and compute the ANOVA table for the data from a completely randomized design
- Compute pairwise confidence intervals on the difference in means (Fisher, Bonferroni) to understand a significant overall F-test from a completely randomized design
- Compute the ANOVA table for data from a two factor experiment
- Explain a statistically significant interaction
- Perform a two factor (or 2^3) experiment (in a group), compute the ANOVA table from the observed data, and write a technical report of the results of the experiment with appropriate graphics of significant effects or interactions

6. Complete an exit interview.

## Recommended Courses for Career Options

### Botany

Students seeking career and graduate school opportunities in botanical fields should build their electives on a foundation of basic plant biology courses. Coupled with the broad integrative biology core, the following courses provide students with the greatest diversity of options for postgraduate work or training in plant biology:

Bio 430, 455, 475, 510, 511, 512.

PWS 282, 283, 355, 440, 515.

Students completing Bio 430 and PWS 330 and 355 often find summer employment opportunities with government land agencies.

## Preveterinary Medicine

Beverly L. Roeder, Advisor
386 WIDB (801) 422-6873

Students interested in applying to veterinary medicine schools should take the following courses as part of the biology major:

BIO 270 : Animal Restraint. (1:0:2)

WHEN TAUGHT: Winter

DESCRIPTION: Restraint and first aid techniques for pet, laboratory, domestic, and wild animals.

**Course Outcomes**

- Know how to safely restrain domestic animals and wildlife species
- Understand basic animal restraint techniques for a number of domestic and wildlife species
- Understand why certain restraint techniques work with only certain animals and not others
- Develop a basic knowledge of animal chemical restraint methods and their indications
- Understand why the use of pharmaceutical agents by lay persons is not advocated without a veterinarian's prescription or special knowledge and training of non-veterinarian personnel, such as wildlife biologists

BIO 291R : Veterinary Medicine Seminar. (1:1:0)

WHEN TAUGHT: Fall

DESCRIPTION: Preview into veterinary medicine as a profession. Application procedure and preparation for veterinary school.

**Course Outcomes**

- Develop a working knowledge of the educational requirements and preveterinary medicine prerequisite coursework required by the majority of USA colleges of veterinary medicine (CVM)
- Learn how to navigate the application process for admission to colleges of veterinary medicine, understand the different sections of the online veterinary medicine college application service (VMCAS) form, and know what information is needed for supplemental application forms required by individual CVMs
- Knowledge of state contracts, the Western Interstate Commission for Higher Education (WICHE) Professional Student Exchange Program (PSEP), state residency requirements
- Understand the cost of a veterinary medicine education, and learn how to minimize educational debt with scholarships, grants, research stipends, and military or government programs
- Career alternatives, general or specialty practices in veterinary medicine
- Understand the issues concerning animal welfare, animal research, and responsibilities as a member of the veterinary profession
- Statistics with data on need (based on demographic or other data), employment placement, salary, employer requirements, market research information, and advanced degrees to enhance employment opportunities in veterinary medicine

BIO 392R : Preveterinary Preceptorship. (3:1:5)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Supervised on-the-job exposure to veterinary medicine under a clinical setting, supplemented with academic assignments.

**Course Outcomes**

- I. Skills student should master during the preveterinary medicine preceptorship experience:Husbandry: feeding, sanitation, handling, breed recognitionRestraint of animals for examination, treatment and radiographyLogging medical data and recording information in patient chartsGrooming for medical reasonsObserve and recognize normal and abnormal body functions and vital signsConcepts of animal welfare and humane treatment of animalsIntroduce methods and explain necessity of animal population controlObtain knowledge of and competency with routine preventive medicine including vaccination protocols, parasite identification-treatment-prevention, routine physical examination, geriatric health care
- II. The student should observe and participate in these activities:Client-doctor relations and dialogue; demonstration of veterinary ethics and integrity; diagnostic thought process and rationalePatent examination; administration of medication and therapy; collection of body fluids and specimensMedical record information entryClinical diagnostic laboratory techniquesDeveloping and interpreting radiographsSurgical suite protocols:preparation of instrument packs, drapes, surgical gownsaseptic techniqueanesthesia administration and monitoringsurgical preparation of patientsurgery protocols and surgical assistanceintensive and post-operative nursing careEuthanasia
- III. Areas of hospital student should receive exposure to:Kennel and quarantine wardsTreatment areasSurgery and examination roomsOffice proceduresTelephone etiquetteLaboratory and pharmacyLibrary search and literature review of clinical case information and current treatments based on veterinary research

BIO 525 : Animal Disease, Biosecurity, and Zoonoses. (3:3.0:0)

WHEN TAUGHT: Winter

PREREQUISITE: Bio 380 or instructor's consent.

DESCRIPTION: Animal disease emphasizing prevention, organ systems affected, biosecurity, and zoonotic potential.

**Course Outcomes**

- Comparative pathophysiology will be taught using canine, feline, bovine, ovine, caprine, equine, lab animals, and wildlife examples
- Understand basic animal pathophysiology of disease on an organ system basis and preventive measures to maintain animal health
- Identify biosecurity practices to prevent animal disease
- Differentiate between zoonoses, sapronoses and anthroponoses and understand how to institute preventive measures and management practices to avert these health problems
- Design a herd health program with preventive measures that addresses nutrition, sanitation, housing,

ventilation, lighting, and other components for a particular species the student wants to work with as a producer
- Understand how to institute good management procedures that can prevent the occurrence of animal disease
- Develop a basic knowledge of animal immunology as it pertains to disease induction and prevention, with natural and artificial immunity practices that should be implemented to enhance disease prevention, and nutritional practices to optimize animal immunity

CHEM 351 : Organic Chemistry. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: CHEM 105; or CHEM 111

DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.

NOTE: Primarily for majors in chemical engineering and the biological sciences.

**Course Outcomes**

- Recognize functional group classes commonly encountered in organic chemistry and name representative molecules from each class using IUPAC rules for organic nomenclature.
- Predict structure and reactivity of alkanes, alkenes, alkynes, aromatic hydrocarbons, alcohols, ethers, epoxides, and alkylhalides based on such factors as carbon atom hybridization, bond length, bond strength, and bond polarity.
- Recognize and provide curved arrow mechanisms for the following types of organic reactions: additions, substitutions, and eliminations.
- Predict the energetically preferred conformation for straight-chain and branched alkanes, and for substituted cycloalkanes.
- Determine R and S configurations for chiral molecules and distinguish between enantiomers, diastereomers, meso compounds, and conformational isomers.
- Interpret 1H NMR, 13C NMR, IR, UV, and mass spectra and use these data to determine the structure of organic molecules.
- Predict the relative energies of reactive intermediates such as radicals, carbocations, and carbanions, based on structural considerations such as orbital hybridization, hyperconjugation, and resonance stabilization.

CHEM 352 : Organic Chemistry. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: CHEM 351; or CHEM 351M

DESCRIPTION: Continuation of Chem 351.

**Course Outcomes**

- Predict structure and reactivity of aldehydes, ketones, carboxylic acids, esters, anhydrides, amides, b-ketocarbonyl containing compounds, amines, and phenols.
- Recognize and provide curved arrow mechanisms for the following types of organic reactions: electrophilic & nucleophilic aromatic substitution, nucleophilic carbonyl addition, nucleophilic acyl substitution, carbonyl condensation, [4 2] cycloaddition, and substitution ato a carbonyl.
- Recognize and predict the reactivity of the following reactive species and/or reactive intermediates: Grignard reagents, Wittig reagents, organolithiums, diorganocuprates, enols, enolates, aryl diazonium ions, and benzynes.
- Recognize and predict the structure and reactivity of the following classes of biologically important organic molecules: carbohydrates, amino acids, proteins, and lipids.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Chem 352 or Chem 352M or concurrent enrollment (preferred).

DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.

NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

**Course Outcomes**

- Perform a broad range of traditional organic reactions at the micro scale including: nucleophilic carbonyl additions, hydroboration, nucleophilic acyl substitution, electrophilic aromatic substitution, [4 2] cycloaddition, and photochemical alkene isomerization.
- Implement fundamental organic chemistry techniques for carrying out basic experiments, and purifying products, at the micro scale including: extraction, distillation, recrystalization, column chromatography, and TLC.
- Make correct conclusions about the outcome of experiments after collecting basic physical data, and after providing unambiguous interpretation of the necessary spectra.

(1 hour required)

CHEM 481 : Biochemistry. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: CHEM 352M & PDBIO 120; or CHEM 352 & PDBIO 120

DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.

NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine. (For prerequisite, Bio 130 may be used in place of PDBio 120.)

**Course Outcomes**

- Demonstrate mastery of key concepts in the Biochemistry subdiscipline and articulate the relationships between chemistry and biology. This outcome is elaborated in outcomes 2-5 below
- Explain how the structure of biomolecules such as proteins, nucleic acids, lipids, and carbohydrates determines their biological function
- Describe how enzymes catalyze reactions in terms of thermodynamics, kinetics, and mechanistic strategies
- Understand how energy is generated from metabolic reaction pathways

- Push arrows to predict and understand reactivity in metabolic pathways
- Communicate scientific ideas clearly to other specialists in writing
- Identify and understand primary research articles relevant to a specific biochemical question of current interest
- Interpret and critique experimental data relating to biochemical models

ENGL 316 : Technical Communication. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: First-year writing, junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

**Course Outcomes**

- Employ informed and flexible processes for writing and speaking, including: creating and/or finding ideas about which to write; collecting evidence and data; planning and drafting; revising; editing; and designing or presenting a message so that it is successfully understood by a specified audience.
- Write coherent and unified texts, including effective introductions, clear thesis statements, supporting details, transitions, and strong conclusions.
- Use various methods of invention, organization, and style to adapt written and oral forms of communication to a specific rhetorical situation.
- Utilize the library and electronic resources to locate relevant information, assess its reliability and usefulness, and effectively and ethically incorporate it into their own writing by following an appropriate style of documentation.
- Write in a correct, clear, and graceful prose style.
- Effectively evaluate and comment on the writing of others to facilitate revision.
- Analyze rhetorical aspects of audience, purpose, and context to communicate technical information effectively in written, oral, and visual media.
- Recognize structures or genres typically used in science and engineering, understand the processes that produce them, and the organizational and stylistic conventions characteristic of them, and apply this knowledge to their own writing tasks.

MATH 112 : Calculus 1. (4:5:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.

**Course Outcomes**

- This course is designed for students majoring in the mathematical and physical sciences, engineering, or mathematics education and for students minoring in mathematics or mathematics education. Calculus is the foundation for most of the mathematics studied at the university level. The mastery of calculus requires well-developed skills, clear conceptual understanding, and the ability to model phenomena in a variety of settings. Calculus 1 develops the concepts of limit, derivative, and integral, and is fundamental for many fields of mathematics. This course contributes to all the expected learning outcomes of the Mathematics BS. For more detailed information, visit the Math 112 Wiki page.

: Honors Calculus 1.

**Course Outcomes**

(or higher)

MMBIO 221 : General Microbiology. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Any biology course.
RECOMMENDED: Any chemistry course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

**Course Outcomes**

- Explain and discuss the ways by which microbiologists study microorganisms.
- Discuss the principle infectious diseases that affect mankind, including how they are transmitted, treated, controlled and prevented.
- Differentiate between the types of microorganisms by identifying relevant structure and their function in the biosphere.
- Propose microbial solutions to global problems.
- Describe how the human body defends itself against infectious agents.

MMBIO 222 : General Microbiology Laboratory. (1:0:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: MMBio 221 or concurrent enrollment.

**Course Outcomes**

- Use the bright field microscope to view and interpret microbiological specimens
- Use proper aseptic techniques int he handling and transfer of microbiological specimens
- Use standard microbiological media to culture and identify common microbiological specimens

Use standard microbiology laboratory equipment correctly
- Follow an experimental protocol, collect and organize data, present data in an appropriate form, assess the validity of the data, and draw appropriate comclusions based on the results
- Integrate information and skills gained int eh course to make informed judgements about the role of microorganisms in everyday life
- Use accepted safety protocols when handling microbiological specimens and chemicals

NDFS 330 : Comparative Animal Nutrition. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Comparative digestion, absorption, and utilization of nutrients and nutritional applications of domestic, pet, and wildlife species.

**Course Outcomes**

- Demonstrate an understanding of the diverse digestive systems in the animal kingdom.
- Demonstrate an understanding how changes in digestive systems affect both nutrient requirements and affect feeding types and systems.
- Apply the roles of nutrients in cellular metabolism.
- Explain how nutrient deficiencies affect body function and performance.
- Demonstrate knowledge of animal feed formulation.

PDBIO 484 : Human Embryology. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: PDBio 360 or equivalent.

RECOMMENDED: PDBio 325.

DESCRIPTION: Developmental milestones of prenatal life: etiology of congenital malformations, emphasizing molecular and cellular changes and their functional consequences.

**Course Outcomes**

- Students will identify the developmental trajectories of the various organ systems and why abnormalities at any step in the lineage of organogenesis may cause birth defects.
- Students will be able to communicate with health professionals effectively regarding embryonic events from conception to birth and the ramifications of each event in instances of health and disease.
- Students will demonstrate how signaling between participating cells leads to important events during the first, second, third, and fourth weeks of development.

STAT 121 : Principles of Statistics. (3:3:1)

OFFERED: Independent Study also; Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

RECOMMENDED: MATH 110 or equivalent.

DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, simple linear regression.

**Course Outcomes**

- Differentiate between observational studies and experiments
- Identify three sampling designs: simple random sample, stratified, and multi-stage
- Identify three designs of experiments: completely randomized, randomized block and matched-pairs
- Interpret and make appropriate conclusions from plots of data
- Calculate and interpret measures of center and spread
- Determine potential association between two quantitative and two categorical variables
- Communicate using technical language about probability and variation
- Interpret and communicate the outcomes of estimation and hypothesis tests in the context of a problem
- Understand the importance of data collection and how it dictates the appropriate statistical method and acceptable inference
- Determine the appropriate statistical procedure to use for a given research problem or data set

: Honors Principles of Statistics.

**Course Outcomes**

TMA 150 : Public Speaking. (3:3:0)

OFFERED: Independent Study also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Principles and methods of public speaking; speaking experiences.

**Course Outcomes**

- Develop analytical listening and observation skills.
- Know how to speak publicly so your audience will really listen and understand.
- Construct and deliver effective extemporaneous public speeches.
- Manage speech anxiety and effective use nonverbal communication to inform, persuade, enlighten, and impact your audience.
- Be able to produce and employ effective visual aids in your presentations.

*Hours include courses that may fulfill university core requirements.

Hide All Course Descriptions

## The Discipline

The conservation biology major is designed to provide students with a broad scientific background in preparation for a career in conservation fields. Graduates will be equipped to deal with the issues and problems of sustainable resource usage, conservation of endangered biota, long-term preservation of biodiversity, development and preservation of natural resources, and management and conservation of ecosystems. This major is recommended for those seeking graduate programs in a variety of areas of biology, especially conservation biology. The major also prepares students well for obtaining positions in Non-Government Organizations (NGOs) focusing on conservation biology.

Students majoring in conservation biology should consider completing a minor to strengthen their technical or applied sociological skills. Possible minors include anthropology, geography (geography; geographic information systems; urban, rural, and environmental planning), international development, management (global management), political science, recreation management and youth leadership (nonprofit management), sociology, women's studies.

## Program Requirements | View MAP | View Program Outcomes

1. Complete the following:

BIO 130 : Biology. (4:3:1)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: General biology course with laboratory for biology majors. Introduction to disciplines in the life sciences including methods for scientific inquiry, biochemical dynamics, cell structure and function, evolutionary theory, bioenergetics, and ecological interactions.

**Course Outcomes**

- Students will demonstrate basic literacy in the language of science and an understanding of the foundational theories of biology (i.e., be able to formulate appropriate hypotheses and predictions to test specific biological phenomena and use appropriate vocabulary to do so) o Atomic Molecular Theoryo Cell Theoryo Theories of Photosynthesis, Fermentation, and Cellular Respirationo Cell Division and Meiotic Theorieso Chromosomal and Mendelian Theories of Inheritanceo Watson and Crick's Theory of DNA Structure and Replicationo Protein Synthesis Theoryo Darwin's Theory of Natural Selectiono Hardy-Weinberg Theoryo Ecosystem Theoryo Population Growth Theoryo Competitive Exclusion and Behavioral Theory
- Students will demonstrate an understanding of the basic scientific principles which undergird the scientific process, including the strengths and weaknesses of this process.
- Students willappreciate the excitement of discovery that has accompanied important scientific developments.
- Students will demonstrate how scientific methodology can be used to analyze real-world science-related problems.
- Students will be able to evaluate scientific data and claims in order to make rational decisions on public-policy science issues that affect their community.
- Students will be able to express their thoughts (in oral, graphical, and written formats) on scientific topics clearly, including appropriate use of basic scientific vocabulary and effective interpretation of quantitative data.
- Students will be able to reflect rationally upon the interface between science and religion.
- Students will demonstrate sound scientific reasoning ability.

BIO 220A : Biological Diversity: Animals. (4:3:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PDBIO 120; or BIO 130

DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in invertebrates and vertebrates. Laboratory included.

**Course Outcomes**

- Students will be able to discuss the broad patterns of the evolution of the clade Animalia, emphasizing the relationships among major sub-clades (phyla), the unique biological attributes that define these clades, and the novel changes in morphology over major transitions (unicellular to multicellular; acoelomate to pseudocoelomate to coelomate body plans, bilaterial vs radial symmetry, origins of exoskeletons, gill slits, notochord, crania & vertebral columns, etc.).
- Students will develop the skills necessary to understand the terminology of phylogenetic systematics and methods used to recover the "tree of life", the logic behind the hierarchy (i.e., the only possible outcome of the process of "descent with modification"), and critically apply evolutionary reasoning, including the use of phylogeny and tree-thinking, to formulate and test hypotheses that explain

biological diversity.
- Students will have the intellectual tools to continue to explore related topics with confidence and understanding throughout their lives, and a deeper appreciation for the diversity of life on earth.

BIO 220B : Biological Diversity: Plants. (4:3:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PDBIO 120; or BIO 130

DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in fungi, algae, and principal groups of land plants. Laboratory included.

**Course Outcomes**

- Students will be able to discuss differences between cyanobacteria, algae, bryophytes, non-seed vascular plants, gymnosperms, flowering plants, and fungi with repsect to their lifecycles, characteristic morphologies, and biological roles.
- Students will develop the skills necessary to understand and critically apply evolutionary logic including the use of phylogeny and tree-thinking to formulate and test hypotheses that explain biological diversity
- Students will be able to continue to explore related topics with confidence and understanding throughout their lives.

BIO 350 : Ecology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 120; or BIO 130

DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

**Course Outcomes**

- Understand the major physical processes that form and characterize the biosphere, including global scale energy flow, the carbon cycle, climate, and soil formation.
- Understand the processes that drive major levels of organization of the biotic world, including energetics in the ecosystem, population dynamics, and species interactions.
- Understand the importance of writing as a way of synthesizing and solidifying critical thought.
- Foster and promote environmental stewardship within your realm of influence and your community.
- Understand the importance of ecology to issues regarding human well-being
- See the connectivity and relevance of ecology to other fields of study

BIO 370 : Bioethics. (2:1:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Introductory biology course.

DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

**Course Outcomes**

- Students will understand the ethical and philosophical underpinnings of bioethics and to develop ethical intuitions on bioethical issues.
- Students will learn the terminology, vocabulary, and objectives of bioethics.
- Students will understand the tools and approaches needed to make a bioethical decision and to communicate that decision in rationally informed ways.
- Students will understand the bioethical primary literature, to understand how to read case studies, and familiarity with the major issues being discussed in bioethics today.

BIO 420 : Evolutionary Biology. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: MMBIO 240 & PWS 340

RECOMMENDED: Concurrent enrollment in Bio 421.

DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

**Course Outcomes**

- Students will be able to describe the history and development of evolutionary thought.
- Students will be able to list and describe the evidence for evolution and its required corollaries.
- Students will be able to describe the mechanisms by which evolution occurs. Provide detailed explanations of the the processes of evolution by mutation, migration, genetic drift, non-random mating, and natural selection.
- Students will be able to explain adaptation, providing examples from several different fields of biology (e.g., cell biology, physiology, conservation biology, bioinformatics, medicine, behavior, etc.).
- Students will be able to describe the history of life on earth. Identify major evolutionary transitions over time, and explain the tools and evidence that support current hypotheses of the history of life.

BIO 421 : Evolutionary Biology Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: MMBIO 240

DESCRIPTION: Hands-on applications and analytical tools of evolutionary biology; emphasizing inference methodology and evidence complementing the theoretical constructs introduced in Bio 520, including comparative anatomy, phylogenetic inference, population genetics, species concepts, and human evolution.

NOTE: Concurrent enrollment with Bio 420 is strongly recommended.

**Course Outcomes**

- Students will gain a better understanding of the basic principles of evolution within a population including selection, drift, and founder effects by using computer simulations.
- Students will have a deeper understanding of the LDS position on evolution.
- Students will learn the details of phylogenetic reconstruction, tree searching, DNA sequence alignment, and other bioinformatics tools for deciphering patterns of evolution.
- Students will learn the details of species concepts and the criteria used for identifying and diagnosing species.
- Students will gain hands-on experience with hominid fossils and gain an understanding of the evidence that elucidates the biological history of humans.

BIO 450 : Conservation Biology. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 220A & BIO 350; or BIO 220B & BIO 350

DESCRIPTION: Scientific principles of conservation: applying population genetics, and phylogenetic and ecological theory to preservation of biological diversity; developing sustainable ecological systems compatible with human resource use.

**Course Outcomes**

- Apply an understanding of ecological processes to conservation of populations, species, and ecosystems.
- Foster and promote environmental stewardship within your realm of influence and your community.
- Demonstrate the ability to apply the scientific method and analytical thinking to ecological and conservation issues.
- Demonstrate the ability to synthesize literature relevant to a topic in conservation bioloigy
- Demonstrate the ability to write a scientific term paper

MATH 112 : Calculus 1. (4:5:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.

**Course Outcomes**

- This course is designed for students majoring in the mathematical and physical sciences, engineering, or mathematics education and for students minoring in mathematics or mathematics education. Calculus is the foundation for most of the mathematics studied at the university level. The mastery of calculus requires well-developed skills, clear conceptual understanding, and the ability to model phenomena in a variety of settings. Calculus 1 develops the concepts of limit, derivative, and integral, and is fundamental for many fields of mathematics. This course contributes to all the expected learning outcomes of the Mathematics BS. For more detailed information, visit the Math 112 Wiki page.

: Honors Calculus 1.

**Course Outcomes**

MMBIO 240 : Molecular Biology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: BIO 130 & CHEM 105; or PDBIO 120 & CHEM 105; or MMBIO 151 & CHEM 105

DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

NOTE: Chem 105 and Chem 111 can also fulfill the prerequisite requirement; contact advisor.

**Course Outcomes**

- Describe and compare the functions and molecular structures of DNA, RNA, and protein, and explain the processes and regulatory mechanisms governing the synthesis of each.
- Explain a variety of molecular biology techniques, and interpret experimental results obtained using the various methods.
- Solve unfamiliar problems by applying the information and principles mastered through Learning Outcomes 1 and 2
- Collaborate with other students to solve challenging problems, to clarify ideas and concepts, and to learn from one another in a spirit of cooperation and integrity

PWS 340 : Genetics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: MMBIO 240; or CHEM 481M; or CHEM 481

DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

**Course Outcomes**

- Students can construct two- and three-point linkage maps.
- Students can display fluency in interpreting gene annotation and nomenclature in GenBank records.
- Students can demonstrate ability to analyze and apply Chi-square goodness-of-fit tests to complex geneticdata sets involving segregation and Hardy-Weinberg equilibrium models.
- Students can identify differences between extranuclear, autosomal and sex-linked inheritance patterns.
- Students can use genetic data (DNA or amino acid sequence) to reconstruct basic evolutionary

phylogenies.
- Students can dissect quantitative traits into environmental and genetic variance components.

STAT 201 : Statistics for Engineers and Scientists. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: MATH 112; or MATH 119

DESCRIPTION: The scientific method; probability, random variables, common discrete and continuous random variables, central limit theorem; confidence intervals and hypothesis testing; completely randomized experiments; factorial experiments.

**Course Outcomes**

- Compute numerial and graphics summary statistics and explain the difference between populations given the summaries (numerical or graphical)
- Apply fundamentals of set theory and basic set operations to simple problems
- Distinguish between counting techniques (permutations, combinations) and compute the number of possible combinations for simple problems
- Solve simple problems using axioms of probability, conditional probability, independence, and Bayes' theorem
- Compute probabilities, expected values, and variances using the PDF of a discrete and a continuous univariate random variable
- Understand the definition of a sampling distribution, identify the mean, variance, and shape of the sampling distribution given the population information, and explain the application and importance of the Central Limit Theorem
- Understand the basics of experimental design, including the definition of the experimental unit, response, variable, factor(s), and level(s) of a basic experiment, and the role of randomization and replication to permit causal inference
- Compute the confidence interval for μ from a random sample and make the correct decision about an experiment when given a confidence interval
- Compute the test statistic and p-value for H0 : μ = μ0 from a random sample
- Make the correct decision when given the p-value for a hypothesis test and compute the ANOVA table for the data from a completely randomized design
- Compute pairwise confidence intervals on the difference in means (Fisher, Bonferroni) to understand a significant overall F-test from a completely randomized design
- Compute the ANOVA table for data from a two factor experiment
- Explain a statistically significant interaction
- Perform a two factor (or 2^3) experiment (in a group), compute the ANOVA table from the observed data, and write a technical report of the results of the experiment with appropriate graphics of significant effects or interactions

2. Complete one of the following chemistry options:

**Either**

CHEM 105 : General College Chemistry. (4:5:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.

DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.

NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

**Course Outcomes**

- Students will demonstrate a familiarity with the basic vocabulary and concepts of chemistry.
- Students will demonstrate a qualitative and basic quantitative understanding of the fundamental chemical laws which govern the material substances in our universe and which express how one variable in nature depends on another.
- Students will demonstrate the ability to manipulate quantitative descriptors of natural phenomena expressed both in the form of equations and of proportionalities, and solve chemistry problems using these skills.
- A successful Chemistry 105 students describes chemical phenomenon by first focusing on properties of the elements at the atomic level. Chemistry 105 students will gain a knowledge base of reactivity patterns of elements and compounds.
- Chemistry 105 students will be able to use their chemistry experience, knowledge, and skills to better understand and work in their own field of study.

CHEM 106 : General College Chemistry. (3:4:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: CHEM 105; or CHEM 111

DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.

NOTE: Three lectures and one recitation section per week.

**Course Outcomes**

- Students will demonstrate an expanded mastery of the concepts that were learned in Chemistry 105 including: kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, thermodynamics, organic, biochemistry, and nuclear chemistry.
- Students will demonstrate the ability to solve mathematical problems, typically using algebra, in kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, and thermodynamics.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Chem 106 or Chem 112 or concurrent enrollment.

DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.

NOTE: Required for most students needing one year of general chemistry.

**Course Outcomes**

- Through laboratory experiments, students will demonstrate that they can use precise scientific instrumentation to find quantitative answers to significant problems within the total precision allowed by the equipment.
- Students will demonstrate that they can perform simple experiments, observe the outcomes accurately, then make reasoned, accurate decisions about the meanings of the results.

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Chem 101 or equivalent.

DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

**Course Outcomes**

- Students will understand the metabolism of carbohydrates, lipids, and proteins in humans. They will be able to describe in structures and words the metabolism of sugars through the pathways of glycolysis, the citric acid cycle, and the electron transport chain.
- Students will understand the structure and reactivity of organic functional groups, such as alcohols, aldehydes, carboxylic acids, and amides. For example, students will learn that aldehydes and ketones typically undergo addition reactions.
- Students will understand the structure and reactivity of the biomolecules that have those functional groups. For example, students will be able to demonstrate that carbohydrates are aldehydes and ketones that undergo addition reactions to form hemiacetals and polysaccharides with acetal linkages.

**Or**

CHEM 105 : General College Chemistry. (4:5:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.

DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.

NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

**Course Outcomes**

- Students will demonstrate a familiarity with the basic vocabulary and concepts of chemistry.
- Students will demonstrate a qualitative and basic quantitative understanding of the fundamental chemical laws which govern the material substances in our universe and which express how one variable in nature depends on another.
- Students will demonstrate the ability to manipulate quantitative descriptors of natural phenomena expressed both in the form of equations and of proportionalities, and solve chemistry problems using these skills.
- A successful Chemistry 105 students describes chemical phenomenon by first focusing on properties of the elements at the atomic level. Chemistry 105 students will gain a knowledge base of reactivity patterns of elements and compounds.
- Chemistry 105 students will be able to use their chemistry experience, knowledge, and skills to better understand and work in their own field of study.

CHEM 106 : General College Chemistry. (3:4:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: CHEM 105; or CHEM 111

DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.

NOTE: Three lectures and one recitation section per week.

**Course Outcomes**

- Students will demonstrate an expanded mastery of the concepts that were learned in Chemistry 105 including: kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, thermodynamics, organic, biochemistry, and nuclear chemistry.
- Students will demonstrate the ability to solve mathematical problems, typically using algebra, in kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, and thermodynamics.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Chem 106 or Chem 112 or concurrent enrollment.

DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.

NOTE: Required for most students needing one year of general chemistry.

**Course Outcomes**

- Through laboratory experiments, students will demonstrate that they can use precise scientific instrumentation to find quantitative answers to significant problems within the total precision allowed by the equipment.
- Students will demonstrate that they can perform simple experiments, observe the outcomes accurately, then make reasoned, accurate decisions about the meanings of the results.

CHEM 351 : Organic Chemistry. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: CHEM 105; or CHEM 111
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

**Course Outcomes**

- Recognize functional group classes commonly encountered in organic chemistry and name representative molecules from each class using IUPAC rules for organic nomenclature.
- Predict structure and reactivity of alkanes, alkenes, alkynes, aromatic hydrocarbons, alcohols, ethers, epoxides, and alkylhalides based on such factors as carbon atom hybridization, bond length, bond strength, and bond polarity.
- Recognize and provide curved arrow mechanisms for the following types of organic reactions: additions, substitutions, and eliminations.
- Predict the energetically preferred conformation for straight-chain and branched alkanes, and for substituted cycloalkanes.
- Determine R and S configurations for chiral molecules and distinguish between enantiomers, diastereomers, meso compounds, and conformational isomers.
- Interpret 1H NMR, 13C NMR, IR, UV, and mass spectra and use these data to determine the structure of organic molecules.
- Predict the relative energies of reactive intermediates such as radicals, carbocations, and carbanions, based on structural considerations such as orbital hybridization, hyperconjugation, and resonance stabilization.

CHEM 352 : Organic Chemistry. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: CHEM 351; or CHEM 351M
DESCRIPTION: Continuation of Chem 351.

**Course Outcomes**

- Predict structure and reactivity of aldehydes, ketones, carboxylic acids, esters, anhydrides, amides, b-ketocarbonyl containing compounds, amines, and phenols.
- Recognize and provide curved arrow mechanisms for the following types of organic reactions: electrophilic & nucleophilic aromatic substitution, nucleophilic carbonyl addition, nucleophilic acyl substitution, carbonyl condensation, [4 2] cycloaddition, and substitution ato a carbonyl.
- Recognize and predict the reactivity of the following reactive species and/or reactive intermediates: Grignard reagents, Wittig reagents, organolithiums, diorganocuprates, enols, enolates, aryl diazonium ions, and benzynes.
- Recognize and predict the structure and reactivity of the following classes of biologically important organic molecules: carbohydrates, amino acids, proteins, and lipids.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Chem 352 or Chem 352M or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

**Course Outcomes**

- Perform a broad range of traditional organic reactions at the micro scale including: nucleophilic carbonyl additions, hydroboration, nucleophilic acyl substitution, electrophilic aromatic substitution, [4 2] cycloaddition, and photochemical alkene isomerization.
- Implement fundamental organic chemistry techniques for carrying out basic experiments, and purifying products, at the micro scale including: extraction, distillation, recrystalization, column chromatography, and TLC.
- Make correct conclusions about the outcome of experiments after collecting basic physical data, and after providing unambiguous interpretation of the necessary spectra.

**Note:** Students considering graduate or professional school should choose the second option.

3. Complete at least five hours from the following tools courses:

BIO 555 : Evolutionary and Ecological Modeling. (2:2:0)

WHEN TAUGHT: Winter Even Yrs.
PREREQUISITE: Senior status in bioinformatics program or graduate status; Stat 511, 512, or equivalent; instructor's consent.
DESCRIPTION: Using models in ecology. Practical experience in analytical, simulation, and agent-based models.

**Course Outcomes**

There are no course outcomes available

GEOG 211 : Map Use and Interpretation. (4:4:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Maps as tools for spatial analysis of problems in physical and cultural geography.

**Course Outcomes**

- Identify each component of the â Big Threeâ when using or observing geographic technologies. The Big Three includes 1) Geographic Information Systems, 2) Global Positioning Systems, and 3) Remote Sensing.
- Complete all typical map scale calculations related to land distance and area including unit conversions.
- Give and take coordinate references in UTM and lat / long and convert between the two. select a datum and coordinate system appropriate for a given job-related task. Explain the logic of and give / take a reference in the PLSS
- Configure a GPS receiver properly to use both with and without a map. Lay-in and follow the course in a GPS receiver.
- Measure elevation, distance, direction, slope, and aspect from digital or paper topographic maps. Perform a simple statistical analysis of data on a USGS topographic map.
- When presented with a typical specimen, perform a simple interpretation of a thematic map (e.g. Choropleth, Isoline)

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

**Course Outcomes**

- Understand basic spatial concepts and data models that form the foundation of GIS.
- Acquire geospatial data from common sources and manipuate them for a specific application.
- Analyze data using GIS to solve real world problems.
- Describe several applications in which GIS is used to solve geographic problems.
- Design and use maps to explore and communicate geospatial information.

MATH 113 : Calculus 2. (4:5:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 112.

DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.

**Course Outcomes**

- This course is designed for students majoring in the mathematical and physical sciences, engineering, or mathematics education and for students minoring in mathematics or mathematics education. Calculus is the foundation for most of the mathematics studied at the university level. The mastery of calculus requires well-developed skills, clear conceptual understanding, and the ability to model phenomena in a variety of settings. Calculus 2 develops techniques of integration, applications of integration, infinite sequences and series, parametric curves, polar coordinates, and conic sections. This course contributes to all the expected learning outcomes of the Mathematics BS. For a more detailed course description, visit the Math 113 Wiki page.

MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: MMBio 240 or concurrent enrollment.

DESCRIPTION: Molecular and cellular biology techniques laboratory.

**Course Outcomes**

- Practice ethics and integrity by working with groups and following lab rules.*Relates to Program Learning Outcome: A commitment to professional integrity and ethical behavior consistent with themission of the university.
- Learn the basics of experimental design, how to formulate a hypothesis, what controls to use, how to interpret experimental data.*Relates to Program Learning Outcome: Devise experiments with appropriate hypothesis and controls.
- Practice scientific communication through written lab questions, exams and oral presentations.*Relates to Program Learning Outcome: Devise experiments with appropriate hypothesis and controls.
- Learn molecular biology laboratory techniques through practical laboratory exercises. Techniques include, spectrophotometry,isolation of DNA and protein, quantification of DNA and protein, techniques used to purify or detect specific proteins, such aschromatography, western blot and ELISA, DNA fingerprinting, polymerase chain reaction and enzyme assays.*Relates to Program Learning Outcome: Knowledge of principles and techniques of molecular and cellular biology.

PWS 551 : Quantitative Ecology. (3:2:3)

WHEN TAUGHT: Winter Odd Yrs.

PREREQUISITE: Bio 350 or equivalent; Stat 121 or 511 or concurrent enrollment.

DESCRIPTION: Quantitative methods for ecological sampling and data analysis.

**Course Outcomes**

- Demonstrate application of the scientific and analytical methods in ecological research.
- Learn how and when to use appropriate sampling and a data analysis techniques for ecological inquiry.
- Demonstrate ability to synthesize literature relevant to a research project.
- Demonstrate oral and written scientific communications skills.

STAT 230 : Analysis of Variance. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: STAT 121; or STAT 151; or STAT 201; or Stat 301.

RECOMMENDED: Concurrent enrollment in MATH 112.

DESCRIPTION: Scientific method, statistical thinking, sources of variation, completely randomized design, ANOVA, power and sample size considerations, multiple testing, randomized complete blocks, factorial designs, interactions. Introduction to statistical software.

**Course Outcomes**

- Define the experimental unit, response variable, factor(s), and level(s) of a basic experiment
- Understand the role of randomization and replication in inferring causation
- Perform a completely randomized design and construct the ANOVA table in SAS and R
- Compute the minimum number of replicates in a completely randomized design to achieve a given level of power
- Compute pairwise tests of differences in means in SAS and R to understand a significant overall F-test
- Perform a randomized complete block design and construct the ANOVA table in SAS and R
- Perform a factorial design and construct the ANOVA table in SAS and R
- Explain a statistically significant interaction
- Describe the differences between a split plot and a two-way ANOVA

STAT 234 : Methods of Survey Sampling. (3:3:2)

WHEN TAUGHT: Fall

PREREQUISITE: STAT 121; or STAT 151; or STAT 201; or Stat 301.

DESCRIPTION: Sampling frames; questionnaire design; simple random, systematic, stratified, and cluster sampling methods; comparing domain means; contingency table analysis.

**Course Outcomes**

- Identify and sample using simple random sampling and various forms of stratified sampling, cluster sampling, and systematic sampling
- Accurately identify and perform variance calculations for basic designs
- Participate in a real project involving sampling methodologies and appropriate point estimate and variance calculations
- Create graphical representations of results
- Demonstrate effective written and oral communication skills as they present their findings

4. Complete at least six hours from the following management and policy elective courses:

ECON 440 : Natural Resources and Environmental Economics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ECON 380 & ECON 388

RECOMMENDED: Econ 382.

DESCRIPTION: Economic theory applied to allocation of natural resources and environmental amenities. Issues relating to externalities, common property resources, public goods, allocation of depletable natural resources over time, economic factors of environmental polarization, and others.

**Course Outcomes**

- Utilize economic principles and models to address private and public policy issues related to allocating natural resources and environmental amenities.Demonstrate an active understanding of the following elements of economic theory as it relates to natural resource and environmental economics:Welfare economics and concepts of Pareto optimality, efficiency, and equityThe role of property, property rights, and the bundle of rights conceptThe role of externalities, common property resources, and public goodsConcepts and measures of economic value including non-market valuation.Demonstrate a basic knowledge of the role of markets and market failure with regards to the allocation of natural resources and environmental amenities.Gain a basic understanding of the effects and relative merits of public environmental policy efforts, including cap-and-trade schemes, Pigovian taxes, regulation, and public ownership and/or management.Become knowledgeable about and be able to use economic principles and non-market valuation techniques to address a variety of continuing and contemporary natural resource and environmental issues. These issues may include, but are not exclusive to:Population growth and the environmentGlobal warmingWilderness protection and related public lands issuesAir pollution and public healthIntergenerational allocation of soil, forest, and other depleteable natural resourcesImpacts of environmental features on property values.

GEOG 303 : Biogeography. (3:3:0)

WHEN TAUGHT: Fall

RECOMMENDED: Geog 101.

DESCRIPTION: Broad-scale distribution of plants and animals. Theoretical and practical applications to conservation and effects of global environmental change.

**Course Outcomes**

- Demonstrate an understanding of basic concepts and processes in biogeography
- Recognize and be able to explain patterns of plant and animal life at many different scales
- Explain how humans have affected the distribution and diversity of plants and animals, and apply concepts to decisions regarding human use of the environment
- Demonstrate a knowledge of prominent professional biogeographers and ecologists and their current research themes
- Plan for future changes in species distributions and diversity as a result of environmental and human-induced pressures

GEOG 306 : Public Land Conservation. (3:3:0)

WHEN Fall

TAUGHT:
DESCRIPTION: Environmental and social geography of public lands; analyzing historical, planning, management, and ecological issues.

**Course Outcomes**

There are no course outcomes available

GEOG 307 : Landscape Ecology. (3:3:0)

WHEN TAUGHT: Winter
RECOMMENDED: Geog 101, 212, 213.
DESCRIPTION: Interaction between spatial patterns and spatial processes in an ecological context. Methods, theories, and practical applications of landscapes at various scales.

**Course Outcomes**

- Demonstrate an understanding of the basic concepts of landscape ecology
- Understand the relation between pattern and process in landscapes across multiple spatial and temporal scales
- Read, understand, and critique research articles in scholarly journals related to landscape ecology
- Understand and be able to use landscape metrics and associated methodologies and technologies to quantitatively analyze landscapes
- Identify and address a research question in landscape ecology, and effectively communicate the results orally and in writing
- Apply landscape ecology concepts to environmental planning and conservation biology

GEOG 310 : Introduction to Urban and Regional Planning. (3:3:0)

WHEN TAUGHT: Fall
DESCRIPTION: Introduction to the profession and practice of urban and regional planning.

**Course Outcomes**

There are no course outcomes available

HIST 290 : Nature and History: The Earth's Environmental Past. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.
DESCRIPTION: Human historical interactions with animals, plants, and landscapes. Global histories of climate, population, whaling, fossil fuels, the car, animal rights, suburban sprawl, eco-theology, environmentalism, ecotourism, etc.

**Course Outcomes**

- Students will become academically conversant with the major historical developments in our global relationship with nature.
- Students will be able to analyze and evaluate the content and meaning of primary sources, and through critical interpretation, draw reasonable conclusions.
- Students will be able to formulate historical questions and answer them by careful and systematic research in primary and secondary sources.
- Students will be able to write history that is coherent and persuasive by following discipline's norms for writing and careful documentation.

PWS 411 : Watershed Management. (3:3:0)

WHEN TAUGHT: Winter Even Yrs.
PREREQUISITE: BIO 350; or PWS 350
DESCRIPTION: Processes and management of the hydrologic cycle of forests and rangelands.

**Course Outcomes**

- Students will understand the history and policy that drives water management in the western US.
- Students will understand ecological and hydrological processes and concepts and apply them to watershed management actions such as harvesting, grazing, and restoration.
- Students will be able to apply assessment and classification tools to watersheds and their components to determine how management actions affect hydrologic responses.

PWS 419 : Forest Management and Ecology. (3:2:3)

WHEN TAUGHT: Fall
DESCRIPTION: Managing forests, emphasizing ecosystem managment.
NOTE: Field trips required.

**Course Outcomes**

- 1. Articulate their role as stewards over forested environments.
- 2. Appreciate the diversity of forests world-wide and their importance to human populations.
- 3. Apply knowledge of forest structure, function, and process in making management decisions
- 4. Be able to quantify forest structure and production
- 5. Recognize forest pests and diseases and know appropriate control techniques.
- 6. Relate forests to wildlife habitat
- 7. Identify 75 tree species located in Utah and on BYU campus.

5. Complete at least five hours from the following biology electives:

BIO 352 : Introduction to Marine Biology. (3:3:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: BIO 220A
DESCRIPTION: Marine life, the sea as an environment, and research methods.

**Course Outcomes**

There are no course outcomes available

BIO 380 : Comparative Animal Physiology and Anatomy. (4:3:3)

WHEN TAUGHT: Fall
PREREQUISITE: Bio 220A or instructor's consent.
DESCRIPTION: Structure and function of animal organ systems; structural and physiological responses to demands of and changes in environment; evolutionary constraints on anatomy and physiology.

**Course Outcomes**

- Students will demonstrate a fundamental knowledge of comparative vertebrate animal physiology and anatomy.
- Students will develop critical thinking skills while learning concepts and understanding the tools used by comparative vertebrate animal physiologists and anatomists to study function and structure.
- Students will use physiological and anatomical knowledge to enhance their personal lives.
- Students will use their skills and knowledge in comparative vertebrate animal physiology and anatomy to secure employment or to advance in higher education in biology-related disciplines.
- Students will develop an understanding of physiologic isotopic techniques utilized to indicate energy sources, trophic levels, body water, and latitudinal and altitudinal animal migration reflected by stable isotopes of carbon, nitrogen, hydrogen and oxygen.

BIO 430 : Plant Classification and Identification. (4:3:3)

WHEN TAUGHT: Fall
PREREQUISITE: Bio 100 or Bio 130 or PDBio 120 or PWS 100 or instructor's consent.
DESCRIPTION: Principles of plant systematics, taxonomy, and classification, emphasizing family recognition by sight, terminology, and use of identification keys to the temperate flora.

**Course Outcomes**

- Students will apply correct vocabulary for describing plant parts and be able to deduce the meaning of new terms based on knowledge of common roots, prefixes, and suffixes.
- Students will recognize the major groups of vascular plants, be able to differentiate them by their principal characters, and understand their phylogenetic relationships.
- Students will identify by sight 40 families of flower plants as well as common families of ferns and gymnosperms, by recognizing differentiating features of each family.
- Students will gain proficiency in the use of keys and identification manuals for identifying any unknown plant to species.

BIO 441 : Entomology. (3:2:3)

WHEN TAUGHT: Fall
PREREQUISITE: Bio 220A or equivalent.
DESCRIPTION: External morphology, natural history, evolution, distribution, and phylogeny of insects. Insect collection required.

**Course Outcomes**

- Understand basic principles of morphology and systematics and apply these principles to your own knowledge of insects.
- Judge genetic relationships. Be able to recall current hypotheses of insect phylogeny at the ordinal level and have the tools needed to judge validity of new hypotheses of phylogeny that might be proposed. You will also study carefully the modifications associated with phylogenies that led to insect diversification and success.
- Understand details of insect morphology, and be well versed in both internal and external body structures.
- Recognize common insect families and be able to quickly identify them on sight.
- Gain or regain a sense of wonder for the natural world, especially as it relates to insects and other arthropods. Gain perspectives of the diversity and complexity in the insect world. Enhance your appreciation for the natural world we share with them.
- Learn life histories and specific collecting techniques for insects in their own habitats. You will learn how they fit in the natural world.
- Learn the protocols for detailed identificiations. Many insects will be totally new in appearance to you. You will use identification guides and illustrations to help you decide what the name of an insect is at the Order and Family levels.
- Use a variety of identification techniques to correctly identify insects and other arthropods. Throughout your life you will be asked by employers, friends, and family to answer the question, "What is this?" This course will give you these exact skills. A correct identification is a beginning step to learning more about a species and its relationships to the natural world and its pragmatic relationship to humans.

BIO 442 : Advanced Invertebrate Zoology. (5:6:0)

WHEN TAUGHT: Contact Department.
PREREQUISITE: BIO 220A
DESCRIPTION: Functional morphology, cladistics, ecology, behavior, and interrelationships of invertebrates.

**Course Outcomes**

There are no course outcomes available

BIO 443 : Ichthyology. (3:2:3)

WHEN TAUGHT: Fall Odd Yrs.

PREREQUISITE: BIO 220A

DESCRIPTION: Fish systematics, evolution, morphology, distribution, and natural history.

**Course Outcomes**

- Students will have a general understanding of fish respiration.
- Students will have a general understanding of fish body structure.
- Students will have a general understanding of fish food processing.
- Students will have a general understanding of fish behavior and communication.

BIO 445 : Herpetology. (4:3:2)

WHEN TAUGHT: Winter Even Yrs.

PREREQUISITE: BIO 220A

DESCRIPTION: Reptile and amphibian evolution, systematics, morphology, distribution, and natural history. Lab emphasizes taxonomy, classification, and distribution of western U.S. species.

**Course Outcomes**

- Each student will gain a deeper understanding of some details of the origin of tetrapods, and the origin of the amniotes.
- Each student will gain a deeper understanding of the phylogenetic position of extinct and extant clades of amphibians & reptiles within the clade Vertebrate.
- Each student will acquire a detailed knowledge of the evolution and natural history (natural history, behavior, etc.) of the major clades of extant amphibians and reptiles .
- Through lab and field experiences, each student will acquire a detailed knowledge of diagnostic characters, taxonomy & distributions, and some aspects of ecology of native western species.
- Each student will acquire some knowledge of the conservation status of selected species in the US and abroad.

BIO 446 : (Bio - PWS) Ornithology. (3:2:3)

WHEN TAUGHT: Winter

PREREQUISITE: Bio 100 or Bio 130 or PDBio 120 or PWS 100 or equivalent or instructor's consent.

DESCRIPTION: Avian systematics, evolution, distribution, identification, and natural history.

NOTE: One three-day field trip required.

**Course Outcomes**

- Define ornithology and what it encompasses.
- Discuss the global diversity of birds in both form and function
- Articulate the current thinking regarding the evolution of birds.
- Identify 200 birds common to western North America.

BIO 447 : Mammalogy. (3:2:3)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 220A; or PWS 344

DESCRIPTION: Mammalian diversity, evolution, distribution, and natural history. Two three-day field trips required.

**Course Outcomes**

- Be able to recognize the more common species of Utah mammals based on external and skull features
- Be able to recognize and identify most orders of mammals based on features of the skull
- Understand the evolutionary history of mammals and the modern diversity of mammalian orders
- Enhance skills directed toward understanding and interpreting original scientific literature dealing with mammalian biology

BIO 452 : Marine Biology. (4:3:1)

WHEN TAUGHT: Spring Even Yrs.

PREREQUISITE: Instructor's consent.

DESCRIPTION: Principles of physical and biological oceanography, biodiversity, and ecology of numerous ocean habitats. Extensive field trips.

**Course Outcomes**

No outcomes are available at this time.

BIO 494R : Mentored Research. (1-6:0:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Supervisor's consent.

DESCRIPTION: Independent student research under faculty supervision.

**Course Outcomes**

- Students will demonstrate an understanding of the methods of scientific inquiry.
- Students will demonstrate an ability to design and implement a research project in a specialized area.
- Students will effectively interpret, analyze, and present results of experimentation to others.
- Students will show an appreciation for and understanding of the specialized field.

: Aquatic Biology.

**Course Outcomes**

: Bioinformatics.

**Course Outcomes**

: Ecology.

**Course Outcomes**

: Electron Microscopy.

**Course Outcomes**

: Entomology.

**Course Outcomes**

: Evolution.

**Course Outcomes**

: Marine Biology.

**Course Outcomes**

: Plant Biology.

**Course Outcomes**

: Systematics.

**Course Outcomes**

: Veterinary Science.

**Course Outcomes**

: Medicinal Botany.

**Course Outcomes**

: Plant Biochemistry.

**Course Outcomes**

: Fungal Biology.

**Course Outcomes**

Or

LFSCI 494R : Mentored Research. (1-6:0:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Mentor's consent.

**Course Outcomes**

- 1. Demonstrate critical or analytical thinking skills by analyzing and interpreting experimental data.2. Exhibit proficient writing skills by producing a portfolio, research paper, scientific journal article, and/or scientific poster.3. Critically read scientific literature and evaluate the ability of an argument or evidence to support a conclusion.4. Function as a collaborative team member by participating in student mentored learning groups or research groups.

(3 hours maximum)

BIO 510 : Biological Systematics and Curation. (3:3:0)

WHEN TAUGHT: Fall Even Yrs.

DESCRIPTION: Principles, methods, and tools of taxonomy and systematics as applied to species delimitation, specimen-based research, nomenclatural codes, and the curation of biological specimens.

**Course Outcomes**

- Students will be able to discuss species as the fundamental unit of biodiversity and the difference between species definitions and criteria used to delimit species.
- Students will be able to discuss basic philosophies of classification and the relationship between classification, phylogeny, and nomenclature.
- Students will gain proficiency with nomenclatural codes and their relationship to specimen-based research products such new species descriptions, monographs, floras, and faunas.
- Students will gain experience with a variety of specimen-based research tools.
- Students will understand responsibilities of biological collections management and curation.

BIO 511 : Lichenology. (3:2:3)

WHEN TAUGHT: Contact Department.

DESCRIPTION: Classification, morphology, and ecology on lichens. Field trip required.

**Course Outcomes**

- Research and characterize the nature of the lichen symbiosis.
- Develop a working knowledge of lichen biology.
- Demonstrate an understanding of the role of lichens as biomonitors of air quality.
- Develop basic skills for collecting, processing, and identifying lichens.
- Develop basic skills with:- Thin-layer chromatography – lichen secondary chemistry.- Molecular techniques – to characterize genetic patterns and relationships at the population level.
- Prepare research manuscripts for review and publication consideration.
- Present a research proposal for a project using lichens as air quality biomonitors.

BIO 512 : Angiosperm Phylogeny. (3:2:4)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Bio 430 or equivalent.

DESCRIPTION: Description, classification, phylogeny, and geographic distribution of flowering plant families.

**Course Outcomes**

- Students will be able to discuss the primary pattern of relationships among flowering plants as supported by contemporary research.â ¨â ¨
- Students will demonstrate proficiency in tree-thinking and the application of phylogenetic terminology in discussing angiosperm relationships.
- Students will demonstrate knowledge of world-wide flowering plant diversity, including examples of model organisms, convergence, and evolutionary novelties.
- Students will be able to discuss contemporary research in flowering plant diversity, including outstanding problems where additional research is needed.

BIO 541 : Aquatic Entomology. (4:2:4)

WHEN TAUGHT: Fall Even Yrs.

PREREQUISITE: Bio 441 or equivalent.

DESCRIPTION: Morphology, classification, biology, and functional ecology of aquatic insects. Field trips required.

**Course Outcomes**

- Develop an apprecitation for the diversity of the living aquatic insect world.
- Learn to become better stewards of the earth and its living inhabitants.
- Understanding of all aquatic biology.

BIO 556 : Limnology. (3:2:4)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Bio 350, Chem 106; or equivalents.

DESCRIPTION: Lakes, reservoirs; their biota and physical/chemical properties.

**Course Outcomes**

- Understand the major physical processes that form and characterize lentic habitats.
- Understand the dominant chemical processes that occur in lake systems.
- Understand how organisms adapt to the above physical and chemical constraints.
- Gain teaching experience through preparing a Powerpoint presenting your study presentation to the class.
- Experience pursuing a focused research topic from the initial question to a competed report.

BIO 557 : Stream and Wetland Ecology. (4:3:4)

WHEN TAUGHT: Fall Odd Yrs.

PREREQUISITE: Bio 350, Chem 106; or equivalent.

DESCRIPTION: Stream and wetland ecology; their biota and their physical/chemical properties.

**Course Outcomes**

- Develop an understanding of streams and wetlands within the broader context of ecology and conservation.
- Become familiar with the major conservation issue in streams and wetlands and the underlying ecological concepts.
- Initial exposure to the current literature.
- Develop skills related to critical thinking. That is, learn how to: a) read critically and summarize information, b) draw conclusions and synthesize information to develop new questions and hypotheses, and c) design experiments or comparative studies. It is important to start early to learn how to think, read, and write critically.

BIO 559R : Advanced Topics in Ecology and Evolution. (1-6:ARR:ARR)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Instructor's consent.

DESCRIPTION: Current topics in ecology, evolution, and systematics.

**Course Outcomes**

- Students will demonstrate an understanding of the methods of scientific inquiry.
- Students will demonstrate an ability to design and implement a research project in ecology and evolution.
- Students will effectively interpret, analyze, and present results of experimentation to others.
- Students will show an appreciation for and understanding of ecology and evolution.

: Advanced Ecology.

**Course Outcomes**

: Advanced Systematics.

**Course Outcomes**

: Evolutionary Biology.

**Course Outcomes**

: Biogeography.

**Course Outcomes**

: Physiological Ecology.

**Course Outcomes**

: Tropical Biology.

**Course Outcomes**

: Biological Science Education.

**Course Outcomes**

: Field Biology.

**Course Outcomes**

BIO 560 : Population Genetics. (4:4:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: Bio 420 or equivalent.

DESCRIPTION: Basic principles of population genetics applied to natural populations; drift, selection, and nonrandom mating; inferring population subdivision, migration, and gene flow.

**Course Outcomes**

- Students will gain a general introduction to the field a population genetics.
- Students will experience the broad application of population genetics to diverse fields from ecology to medicine.
- Students will manipulate and analyze population genetic data, especially molecular data.

CHEM 481 : Biochemistry. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: CHEM 352M & PDBIO 120; or CHEM 352 & PDBIO 120

DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function, enzymes, metabolic transformations, photosynthesis.

NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine. (For prerequisite, Bio 130 may be used in place of PDBio 120.)

**Course Outcomes**

- Demonstrate mastery of key concepts in the Biochemistry subdiscipline and articulate the relationships between chemistry and biology. This outcome is elaborated in outcomes 2-5 below
- Explain how the structure of biomolecules such as proteins, nucleic acids, lipids, and carbohydrates determines their biological function
- Describe how enzymes catalyze reactions in terms of thermodynamics, kinetics, and mechanistic strategies
- Understand how energy is generated from metabolic reaction pathways
- Push arrows to predict and understand reactivity in metabolic pathways
- Communicate scientific ideas clearly to other specialists in writing
- Identify and understand primary research articles relevant to a specific biochemical question of current interest
- Interpret and critique experimental data relating to biochemical models

PWS 282 : Introduction to Soil Science. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PWS 283 or concurrent enrollment.

DESCRIPTION: Physical, chemical and microbiological properties of soils that affect plant growth in natural, agricultural, and urban environments.

**Course Outcomes**

- Enhance critically thinking skills as they apply to soil resource management and conservation
- Demonstrate a fundamental knowledge of soil chemistry, genesis, microbiology, physics, taxonomy, and nutrient and water relations
- Create a conceptual framework to help manage soil resources (i.e., animal habitat, plant nutrient fertility, salinity, soil and water quality, and wind and water erosion) in agricultural, urban, and ecological settings
- Understand the historical and current problems, and cultural concerns facing soils as a natural resource essential to human life

PWS 440 : Plant Physiology. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: GE Biological Science requirement; college chemistry

RECOMMENDED: Chem 285; or 351, 352.

DESCRIPTION: Photosynthesis, respiration, water relations, mineral nutrition, growth of flowering plants.

**Course Outcomes**

- Students will be fluent in understanding plant function at the molecular, biochemical and whole plant levels
- Students will understand the connections between plant function and ecosystem processes
- Student will practice applying the scientific method in order to develop critical thinking and problem solving skills
- Student will engage in learning activities that increase there writing and speaking proficiency

6. Complete an exit interview.

*Hours include courses that may fulfill university core requirements.

## Undergraduate Courses

### 100-Level Courses

BIO 100 : Principles of Biology. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Introductory course for general education students.
NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

There are no course outcomes available

BIO 130 : Biology. (4:3:1)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: General biology course with laboratory for biology majors. Introduction to disciplines in the life sciences including methods for scientific inquiry, biochemical dynamics, cell structure and function, evolutionary theory, bioenergetics, and ecological interactions.

**Course Outcomes**

- Students will demonstrate basic literacy in the language of science and an understanding of the foundational theories of biology (i.e., be able to formulate appropriate hypotheses and predictions to test specific biological phenomena and use appropriate vocabulary to do so) o Atomic Molecular Theoryo Cell Theoryo Theories of Photosynthesis, Fermentation, and Cellular Respirationo Cell Division and Meiotic Theorieso Chromosomal and Mendelian Theories of Inheritanceo Watson and Crick's Theory of DNA Structure and Replicationo Protein Synthesis Theoryo Darwin's Theory of Natural Selectiono Hardy-Weinberg Theoryo Ecosystem Theoryo Population Growth Theoryo Competitive Exclusion and Behavioral Theory
- Students will demonstrate an understanding of the basic scientific principles which undergird the scientific process, including the strengths and weaknesses of this process.
- Students willappreciate the excitement of discovery that has accompanied important scientific developments.
- Students will demonstrate how scientific methodology can be used to analyze real-world science-related problems.
- Students will be able to evaluate scientific data and claims in order to make rational decisions on public-policy science issues that affect their community.
- Students will be able to express their thoughts (in oral, graphical, and written formats) on scientific topics clearly, including appropriate use of basic scientific vocabulary and effective interpretation of quantitative data.
- Students will be able to reflect rationally upon the interface between science and religion.
- Students will demonstrate sound scientific reasoning ability.

BIO 165 : Introduction to Bioinformatics. (3:3:0)

WHEN TAUGHT: Winter
DESCRIPTION: Introduction to basic concepts in bioinformatics. Standard bioinformatic applications.

**Course Outcomes**

There are no course outcomes available

BIO 175 : Principles of Biology Laboratory. (1:0:2)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Elementary education or early childhood education pre-major or major status; concurrent enrollment in Bio 100.

**Course Outcomes**

There are no course outcomes available

### 200-Level Courses

BIO 220A : Biological Diversity: Animals. (4:3:3)

WHEN TAUGHT: Fall; Winter

TAUGHT:

PREREQUISITE: PDBIO 120; or BIO 130

DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in invertebrates and vertebrates. Laboratory included.

**Course Outcomes**

- Students will be able to discuss the broad patterns of the evolution of the clade Animalia, emphasizing the relationships among major sub-clades (phyla), the unique biological attributes that define these clades, and the novel changes in morphology over major transitions (unicellular to multicellular; acoelomate to pseudocoelomate to coelomate body plans, bilaterial vs radial symmetry, origins of exoskeletons, gill slits, notochord, crania & vertebral columns, etc.).
- Students will develop the skills necessary to understand the terminology of phylogenetic systematics and methods used to recover the “tree of life”, the logic behind the hierarchy (i.e., the only possible outcome of the process of “descent with modification”), and critically apply evolutionary reasoning, including the use of phylogeny and tree-thinking, to formulate and test hypotheses that explain biological diversity.
- Students will have the intellectual tools to continue to explore related topics with confidence and understanding throughout their lives, and a deeper appreciation for the diversity of life on earth.

BIO 220B : Biological Diversity: Plants. (4:3:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PDBIO 120; or BIO 130

DESCRIPTION: Comparative organization and evolutionary significance of morphological, physiological, reproductive, and ecological differences in fungi, algae, and principal groups of land plants. Laboratory included.

**Course Outcomes**

- Students will be able to discuss differences between cyanobacteria, algae, bryophytes, non-seed vascular plants, gymnosperms, flowering plants, and fungi with repsect to their lifecycles, characteristic morphologies, and biological roles.
- Students will develop the skills necessary to understand and critically apply evolutionary logic including the use of phylogeny and tree-thinking to formulate and test hypotheses that explain biological diversity
- Students will be able to continue to explore related topics with confidence and understanding throughout their lives.

BIO 235 : Field Botany. (3:3:6)

WHEN TAUGHT: Fall; Spring

DESCRIPTION: Recognition, characteristics, and uses of common trees and shrubs.

**Course Outcomes**

- Students will demonstrate a fundamental knowledge of biology
- Students will develop the discovery skills and tools used by biologists
- Students will use biological knowledge to enhance their personal lives
- Students will use their skills and knowledge in biology to secure employment or to advance in higher education in biology-related disciplines

BIO 270 : Animal Restraint. (1:0:2)

WHEN TAUGHT: Winter

DESCRIPTION: Restraint and first aid techniques for pet, laboratory, domestic, and wild animals.

**Course Outcomes**

- Know how to safely restrain domestic animals and wildlife species
- Understand basic animal restraint techniques for a number of domestic and wildlife species
- Understand why certain restraint techniques work with only certain animals and not others
- Develop a basic knowledge of animal chemical restraint methods and their indications
- Understand why the use of pharmaceutical agents by lay persons is not advocated without a veterinarian's prescription or special knowledge and training of non-veterinarian personnel, such as wildlife biologists

BIO 276 : Exploration of Teaching in Biological Sciences. (3:ARR:ARR)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 220A & BIO 220B & CHEM 105; major GPA of 2.85 or higher, FBI fingerprint and background clearance; previous application required.

DESCRIPTION: Field-based initial teaching experience directed at helping prospective teachers experience demands and opportunities associated with teaching secondary students.

**Course Outcomes**

There are no course outcomes available

BIO 291R : Veterinary Medicine Seminar. (1:1:0)

WHEN TAUGHT: Fall

DESCRIPTION: Preview into veterinary medicine as a profession. Application procedure and preparation for veterinary school.

**Course Outcomes**

- Develop a working knowledge of the educational requirements and preveterinary medicine prerequisite coursework required by the majority of USA colleges of veterinary medicine (CVM)
- Learn how to navigate the application process for admission to colleges of veterinary medicine, understand the different sections of the online veterinary medicine college application service (VMCAS) form, and know what information is needed for supplemental application forms required by individual CVMs
- Knowledge of state contracts, the Western Interstate Commission for Higher Education (WICHE) Professional

Student Exchange Program (PSEP), state residency requirements
- Understand the cost of a veterinary medicine education, and learn how to minimize educational debt with scholarships, grants, research stipends, and military or government programs
- Career alternatives, general or specialty practices in veterinary medicine
- Understand the issues concerning animal welfare, animal research, and responsibilities as a member of the veterinary profession
- Statistics with data on need (based on demographic or other data), employment placement, salary, employer requirements, market research information, and advanced degrees to enhance employment opportunities in veterinary medicine

**300-Level Courses**

BIO 350 : Ecology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 120; or BIO 130

DESCRIPTION: Distribution and abundance of organisms and their interactions with the physical and biotic components of the earth.

**Course Outcomes**

- Understand the major physical processes that form and characterize the biosphere, including global scale energy flow, the carbon cycle, climate, and soil formation.
- Understand the processes that drive major levels of organization of the biotic world, including energetics in the ecosystem, population dynamics, and species interactions.
- Understand the importance of writing as a way of synthesizing and solidifying critical thought.
- Foster and promote environmental stewardship within your realm of influence and your community.
- Understand the importance of ecology to issues regarding human well-being
- See the connectivity and relevance of ecology to other fields of study

BIO 352 : Introduction to Marine Biology. (3:3:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: BIO 220A

DESCRIPTION: Marine life, the sea as an environment, and research methods.

**Course Outcomes**

There are no course outcomes available

BIO 365 : Computational Biology. (3:2:1)

WHEN TAUGHT: Fall

PREREQUISITE: C S 240

DESCRIPTION: Computational analysis of DNA data; introduction to bioinformatics databasing using Perl and SQL; configuration of UNIX workstations for bioinformatics analyses.

**Course Outcomes**

- To provide practical experience in using computational approaches to address biological problems.
- Describe general areas of computational problems in biology (alignment, estimation, tree searches, molecular modeling, gene prediction) and learn about existing computational approaches to these general problems.
- Learn basic computational tools for statistical inference (Bayesian, Maximum likelihood, Markov Chain Monte Carlo, Hidden Markov Chain)
- Apply programming skills to alignment problems through the development of novel tools and software for alignment
- Apply programming skills to tree searching problems through the development of novel tools software
- Apply programming tools to gene prediction problems through the development of novel tools and software
- Develop ability to use existing and write new database code to access and manipulate genetic data

BIO 370 : Bioethics. (2:1:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Introductory biology course.

DESCRIPTION: In-depth lecture and small group discussion of varied bioethical issues. LDS Church positions emphasized when appropriate.

**Course Outcomes**

- Students will understand the ethical and philosophical underpinnings of bioethics and to develop ethical intuitions on bioethical issues.
- Students will learn the terminology, vocabulary, and objectives of bioethics.
- Students will understand the tools and approaches needed to make a bioethical decision and to communicate that decision in rationally informed ways.
- Students will understand the bioethical primary literature, to understand how to read case studies, and familiarity with the major issues being discussed in bioethics today.

BIO 377 : Teaching Methods and Instruction in Biology. (3:ARR:ARR)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 276; concurrent enrollment in Bio 378, 379, Sc Ed 380; major GPA of 2.85 or higher.

DESCRIPTION: Developing meaningful and engaging instruction for secondary students in biological sciences; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

**Course Outcomes**

Students will demonstrate an understanding of key learning theories by explaining how students learn.
- Students will demonstrate proper pedagogical practices in a biological teaching setting.
- Students will develop effective unit and lesson plans to promote science learning.

BIO 378 : Practicum in Biology Teaching. (1:0:3)

WHEN TAUGHT: Fall

PREREQUISITE: Concurrent enrollment in Bio 377, 379, Sc Ed 380.

DESCRIPTION: Implementing meaningful and engaging instruction for secondary students in biology; developing critical thinking, problem solving, literacy, and democratic character; assessing learner performance.

**Course Outcomes**

- Students will be able to identify best practices in teaching.
- Students will show active involvement with mentor teacher in creating and teaching lessons, grading papers, or any other classroom work.
- Students will be able to identify practices that they can incorporate into their own teaching.

BIO 379 : Classroom Management and Laboratory Safety. (1:1:0)

WHEN TAUGHT: Fall

PREREQUISITE: Concurrent enrollment in Bio 377, 378, Sc Ed 380.

DESCRIPTION: Current theory, research, and application in classroom management; creating positive teacher-student and peer relationships; developing optimal learning environments.

**Course Outcomes**

- Students will integrate current theory, research, and application in classroom management to create an optimal learning environment.
- Students will demonstrate appropriate and effective classroom management strategies.
- Students will demonstrate an understanding of proper laboratory safety protocols.

BIO 380 : Comparative Animal Physiology and Anatomy. (4:3:3)

WHEN TAUGHT: Fall

PREREQUISITE: Bio 220A or instructor's consent.

DESCRIPTION: Structure and function of animal organ systems; structural and physiological responses to demands of and changes in environment; evolutionary constraints on anatomy and physiology.

**Course Outcomes**

- Students will demonstrate a fundamental knowledge of comparative vertebrate animal physiology and anatomy.
- Students will develop critical thinking skills while learning concepts and understanding the tools used by comparative vertebrate animal physiologists and anatomists to study function and structure.
- Students will use physiological and anatomical knowledge to enhance their personal lives.
- Students will use their skills and knowledge in comparative vertebrate animal physiology and anatomy to secure employment or to advance in higher education in biology-related disciplines.
- Students will develop an understanding of physiologic isotopic techniques utilized to indicate energy sources, trophic levels, body water, and latitudinal and altitudinal animal migration reflected by stable isotopes of carbon, nitrogen, hydrogen and oxygen.

BIO 392R : Preveterinary Preceptorship. (3:1:5)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Supervised on-the-job exposure to veterinary medicine under a clinical setting, supplemented with academic assignments.

**Course Outcomes**

- I. Skills student should master during the preveterinary medicine preceptorship experience:Husbandry: feeding, sanitation, handling, breed recognitionRestraint of animals for examination, treatment and radiographyLogging medical data and recording information in patient chartsGrooming for medical reasonsObserve and recognize normal and abnormal body functions and vital signsConcepts of animal welfare and humane treatment of animalsIntroduce methods and explain necessity of animal population controlObtain knowledge of and competency with routine preventive medicine including vaccination protocols, parasite identification-treatment-prevention, routine physical examination, geriatric health care
- II. The student should observe and participate in these activities:Client-doctor relations and dialogue; demonstration of veterinary ethics and integrity; diagnostic thought process and rationalePatent examination; administration of medication and therapy; collection of body fluids and specimensMedical record information entryClinical diagnostic laboratory techniquesDeveloping and interpreting radiographsSurgical suite protocols:preparation of instrument packs, drapes, surgical gownsaseptic techniqueanesthesia administration and monitoringsurgical preparation of patientsurgery protocols and surgical assistanceintensive and post-operative nursing careEuthanasia
- III. Areas of hospital student should receive exposure to:Kennel and quarantine wardsTreatment areasSurgery and examination roomsOffice proceduresTelephone etiquetteLaboratory and pharmacyLibrary search and literature review of clinical case information and current treatments based on veterinary research

**400-Level Courses**

BIO 420 : Evolutionary Biology. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: MMBIO 240 & PWS 340

RECOMMENDED: Concurrent enrollment in Bio 421.

DESCRIPTION: Intensive examination of evolution as the conceptual cornerstone of biology.

**Course Outcomes**

- Students will be able to describe the history and development of evolutionary thought.
- Students will be able to list and describe the evidence for evolution and its required corollaries.
- Students will be able to describe the mechanisms by which evolution occurs. Provide detailed explanations of the the processes of evolution by mutation, migration, genetic drift, non-random mating, and natural selection.
- Students will be able to explain adaptation, providing examples from several different fields of biology (e.g., cell biology, physiology, conservation biology, bioinformatics, medicine, behavior, etc.).
- Students will be able to describe the history of life on earth. Identify major evolutionary transitions over time, and explain the tools and evidence that support current hypotheses of the history of life.

BIO 421 : Evolutionary Biology Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: MMBIO 240

DESCRIPTION: Hands-on applications and analytical tools of evolutionary biology; emphasizing inference methodology and evidence complementing the theoretical constructs introduced in Bio 520, including comparative anatomy, phylogenetic inference, population genetics, species concepts, and human evolution.

NOTE: Concurrent enrollment with Bio 420 is strongly recommended.

**Course Outcomes**

- Students will gain a better understanding of the basic principles of evolution within a population including selection, drift, and founder effects by using computer simulations.
- Students will have a deeper understanding of the LDS position on evolution.
- Students will learn the details of phylogenetic reconstruction, tree searching, DNA sequence alignment, and other bioinformatics tools for deciphering patterns of evolution.
- Students will learn the details of species concepts and the criteria used for identifying and diagnosing species.
- Students will gain hands-on experience with hominid fossils and gain an understanding of the evidence that elucidates the biological history of humans.

BIO 430 : Plant Classification and Identification. (4:3:3)

WHEN TAUGHT: Fall

PREREQUISITE: Bio 100 or Bio 130 or PDBio 120 or PWS 100 or instructor's consent.

DESCRIPTION: Principles of plant systematics, taxonomy, and classification, emphasizing family recognition by sight, terminology, and use of identification keys to the temperate flora.

**Course Outcomes**

- Students will apply correct vocabulary for describing plant parts and be able to deduce the meaning of new terms based on knowledge of common roots, prefixes, and suffixes.
- Students will recognize the major groups of vascular plants, be able to differentiate them by their principal characters, and understand their phylogenetic relationships.
- Students will identify by sight 40 families of flower plants as well as common families of ferns and gymnosperms, by recognizing differentiating features of each family.
- Students will gain proficiency in the use of keys and identification manuals for identifying any unknown plant to species.

BIO 441 : Entomology. (3:2:3)

WHEN TAUGHT: Fall

PREREQUISITE: Bio 220A or equivalent.

DESCRIPTION: External morphology, natural history, evolution, distribution, and phylogeny of insects. Insect collection required.

**Course Outcomes**

- Understand basic principles of morphology and systematics and apply these principles to your own knowledge of insects.
- Judge genetic relationships. Be able to recall current hypotheses of insect phylogeny at the ordinal level and have the tools needed to judge validity of new hypotheses of phylogeny that might be proposed. You will also study carefully the modifications associated with phylogenies that led to insect diversification and success.
- Understand details of insect morphology, and be well versed in both internal and external body structures.
- Recognize common insect families and be able to quickly identify them on sight.
- Gain or regain a sense of wonder for the natural world, especially as it relates to insects and other arthropods. Gain perspectives of the diversity and complexity in the insect world. Enhance your appreciation for the natural world we share with them.
- Learn life histories and specific collecting techniques for insects in their own habitats. You will learn how they fit in the natural world.
- Learn the protocols for detailed identificiations. Many insects will be totally new in appearance to you. You will use identification guides and illustrations to help you decide what the name of an insect is at the Order and Family levels.
- Use a variety of identification techniques to correctly identify insects and other arthropods. Throughout your life you will be asked by employers, friends, and family to answer the question, "What is this?" This course will give you these exact skills. A correct identification is a beginning step to learning more about a species and its relationships to the natural world and its pragmatic relationship to humans.

BIO 442 : Advanced Invertebrate Zoology. (5:6:0)

WHEN TAUGHT: Contact Department.

PREREQUISITE: BIO 220A

DESCRIPTION: Functional morphology, cladistics, ecology, behavior, and interrelationships of invertebrates.

**Course Outcomes**

There are no course outcomes available

BIO 443 : Ichthyology. (3:2:3)

WHEN TAUGHT: Fall Odd Yrs.

PREREQUISITE: BIO 220A

DESCRIPTION: Fish systematics, evolution, morphology, distribution, and natural history.

**Course Outcomes**

- Students will have a general understanding of fish respiration.
- Students will have a general understanding of fish body structure.
- Students will have a general understanding of fish food processing.
- Students will have a general understanding of fish behavior and communication.

BIO 445 : Herpetology. (4:3:2)

WHEN TAUGHT: Winter Even Yrs.

PREREQUISITE: BIO 220A

DESCRIPTION: Reptile and amphibian evolution, systematics, morphology, distribution, and natural history. Lab emphasizes taxonomy, classification, and distribution of western U.S. species.

**Course Outcomes**

- Each student will gain a deeper understanding of some details of the origin of tetrapods, and the origin of the amniotes.
- Each student will gain a deeper understanding of the phylogenetic position of extinct and extant clades of amphibians & reptiles within the clade Vertebrate.
- Each student will acquire a detailed knowledge of the evolution and natural history (natural history, behavior, etc.) of the major clades of extant amphibians and reptiles .
- Through lab and field experiences, each student will acquire a detailed knowledge of diagnostic characters, taxonomy & distributions, and some aspects of ecology of native western species.
- Each student will acquire some knowledge of the conservation status of selected species in the US and abroad.

BIO 446 : (Bio - PWS) Ornithology. (3:2:3)

WHEN TAUGHT: Winter

PREREQUISITE: Bio 100 or Bio 130 or PDBio 120 or PWS 100 or equivalent or instructor's consent.

DESCRIPTION: Avian systematics, evolution, distribution, identification, and natural history.

NOTE: One three-day field trip required.

**Course Outcomes**

- Define ornithology and what it encompasses.
- Discuss the global diversity of birds in both form and function
- Articulate the current thinking regarding the evolution of birds.
- Identify 200 birds common to western North America.

BIO 447 : Mammalogy. (3:2:3)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 220A; or PWS 344

DESCRIPTION: Mammalian diversity, evolution, distribution, and natural history. Two three-day field trips required.

**Course Outcomes**

- Be able to recognize the more common species of Utah mammals based on external and skull features
- Be able to recognize and identify most orders of mammals based on features of the skull
- Understand the evolutionary history of mammals and the modern diversity of mammalian orders
- Enhance skills directed toward understanding and interpreting original scientific literature dealing with mammalian biology

BIO 450 : Conservation Biology. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 220A & BIO 350; or BIO 220B & BIO 350

DESCRIPTION: Scientific principles of conservation: applying population genetics, and phylogenetic and ecological theory to preservation of biological diversity; developing sustainable ecological systems compatible with human resource use.

**Course Outcomes**

- Apply an understanding of ecological processes to conservation of populations, species, and ecosystems.
- Foster and promote environmental stewardship within your realm of influence and your community.
- Demonstrate the ability to apply the scientific method and analytical thinking to ecological and conservation issues.
- Demonstrate the ability to synthesize literature relevant to a topic in conservation bioloigy
- Demonstrate the ability to write a scientific term paper

BIO 452 : Marine Biology. (4:3:1)

WHEN TAUGHT: Spring Even Yrs.

PREREQUISITE: Instructor's consent.

DESCRIPTION: Principles of physical and biological oceanography, biodiversity, and ecology of numerous ocean habitats. Extensive field trips.

**Course Outcomes**

No outcomes are available at this time.

BIO 455 : Plant Ecology. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: BIO 220B

RECOMMENDED: Bio 350.

DESCRIPTION: Fundamental principles governing interactions among plants and their environments with respect to their success. Students will be able to apply their knowledge to land management, conservation and agriculture.

**Course Outcomes**

There are no course outcomes available

BIO 463 : Genetics of Human Disease. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: PWS 340

DESCRIPTION: Examining the application of genetics to understanding and treatment of human disease. Functional consequences of mutations; use of model organisms; linkage and association analysis of complex traits; pharmacogenetics; ethical considerations.

**Course Outcomes**

- Understand and explain the different types of genetic variants, how they can be typed and how they can be used to understand the genetic architecture of human disease.
- Understand linkage disequilibrium in the human genome and the role it plays in the search for genetic risk factors for human disease
- Understand and use basic statistics and software for analyzing the correlation between genetic markers and risk for disease.
- Understand and explain how model organisms contribute to our understanding of the genetics of human disease.
- Demonstrate the ability to obtain, aggregate and present information about the current knowledge of the genetics of a human disease.

BIO 465 : Bioinformatics and Proteomics. (3:2:1)

WHEN TAUGHT: Winter

PREREQUISITE: BIO 365

DESCRIPTION: 3-D protein structural comparisons, hidden Markov models for database comparisons, homology detection, multiple sequence analyses, and protein family comparisons. Exercises in computer programming in genomics.

**Course Outcomes**

- Students will learn and demonstrate mastery of advanced analytical bioinformatics techniques, including genome assembly, genome annotation, and protein analyses.
- Demonstrate ability to use and evaluate literature databases and primary literature directed to the bioinformatics community in terms of newly developed software, analytical algorithms, application to empirical data, etc.
- Apply and develop computational skills in secondary (i.e., helices, etc.) and tertiary (i.e., folding, etc.) prediction, and 3-dimensional (i.e., x-ray crystal structures, etc.) modeling of protein structures.
- Apply evolutionary concepts to modeling DNA/proteins to evaluate and/or predict function, utilizing 3D structures, physical and chemical amino acid properties, etc.
- Apply existing and develop new tools for genome assembly and annotation from next-generation DNA sequencing projects

BIO 468 : (Bio-MMBio-PWS) Genomics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: MMBIO 240 & PWS 340

DESCRIPTION: Current analysis of genes and genomes; computational and statistical approaches for analyzing genomic data, including genome sequencing and annotation, gene expression and the transcriptome, proteomics and functional genomics, and genetic variation and SNPs.

**Course Outcomes**

- Students will complete a series of exercises with data representing genomic experiments (analysis and interpret).
- Students will describe how genomes are sequenced.
- Students will understand techniques and concepts to assess genomic features such as methylation, gene expression, etc.

BIO 470 : History and Philosophy of Biology. (3:1.5:1.5)

WHEN TAUGHT: Fall

PREREQUISITE: BIO 350

DESCRIPTION: Development of fundamental generalizations of biology; nature of science; applications to major philosophical issues of current science.

**Course Outcomes**

- Students will demonstrate an understanding of the history of biology. This will include an understanding of the major figures and the historical development of modern biology. This will include having read original texts from the periods covered (Aristotle to Current Biology).
- Students will also have an understanding of principal philosophical issues confronting modern biology, including

major research trends in philosophy of biology. The students will also have a grasp of what 'science' is, how it is practiced, and what expectations for knowledge can be justified using science.
- Students will have the ability to read and write about the primary literature both on the history, and the philosophy, of science. They will have a grasp of the terminology used in philosophy, and how philosophy of biology is currently practiced. Writing will be emphasized.

BIO 475 : Plant Developmental Biology. (3:3:0)

WHEN TAUGHT: Fall Odd Yrs.

PREREQUISITE: PWS 340

RECOMMENDED: Bio 220B.

DESCRIPTION: Developmental mechanisms controlling plant development, with particular emphasis on genetic and molecular regulation.

**Course Outcomes**

There are no course outcomes available

BIO 476 : Biology Student Teaching. (12:0:0)

WHEN TAUGHT: Winter

PREREQUISITE: Completion of all course work or departmental approval; major GPA of 2.85; at least a C in Sc Ed 377.

DESCRIPTION: Field-based, semester-long experience in teaching secondary students; demonstrating proficiency in all program standards. Seminar (Sc Ed 490R) required.

**Course Outcomes**

- Students will integrate all ten principles of the Interstate New Teacher Assessment and Support Consortium (INTASC) in the design of an instructional unit.
- Students will demonstrate the ten goals and standards of the Interstate New Teacher Assessment and Support consortium.
- Students will demonstrate increased competence and confidence in their teaching abilities.
- Students will demonstrate appropriate classroom management techniques in a public school setting.

BIO 494R : Mentored Research. (1-6:0:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Supervisor's consent.

DESCRIPTION: Independent student research under faculty supervision.

**Course Outcomes**

- Students will demonstrate an understanding of the methods of scientific inquiry.
- Students will demonstrate an ability to design and implement a research project in a specialized area.
- Students will effectively interpret, analyze, and present results of experimentation to others.
- Students will show an appreciation for and understanding of the specialized field.

: Aquatic Biology.

**Course Outcomes**

: Bioinformatics.

**Course Outcomes**

: Ecology.

**Course Outcomes**

: Electron Microscopy.

**Course Outcomes**

: Entomology.

**Course Outcomes**

: Evolution.

**Course Outcomes**

: Marine Biology.

**Course Outcomes**

: Plant Biology.

**Course Outcomes**

: Systematics.

**Course Outcomes**

: Veterinary Science.

**Course Outcomes**

: Medicinal Botany.

**Course Outcomes**

: Plant Biochemistry.

**Course Outcomes**

: Fungal Biology.

**Course Outcomes**

## 500-Level Graduate Courses (available to advanced undergraduates)

BIO 503 : Research Orientation. (1:1:0)

WHEN TAUGHT: Fall

DESCRIPTION: Introduction to graduate school and research techniques.

**Course Outcomes**

- Create personalized literature databases and use these to correctly cite and format bibliographic information.
- Generate an effective CV that targets their next level of employment.
- Optimize opportunities available to them at scientific meetings to establish collaborative networks with other students, postdocs and faculty.
- Prepare an effective poster and oral presentation.
- Prepare and submit a competitive grant proposal.
- Prepare publication quality illustrations, figures, charts & graphs and eventually a manuscript for publication.
- Communicate their ideas effectively and appropriately through electronic media.
- Devise an active learning lesson plan for effectively teaching a biological principle.

BIO 510 : Biological Systematics and Curation. (3:3:0)

WHEN TAUGHT: Fall Even Yrs.

DESCRIPTION: Principles, methods, and tools of taxonomy and systematics as applied to species delimitation, specimen-based research, nomenclatural codes, and the curation of biological specimens.

**Course Outcomes**

- Students will be able to discuss species as the fundamental unit of biodiversity and the difference between species definitions and criteria used to delimit species.
- Students will be able to discuss basic philosophies of classification and the relationship between classification, phylogeny, and nomenclature.
- Students will gain proficiency with nomenclatural codes and their relationship to specimen-based research products such new species descriptions, monographs, floras, and faunas.
- Students will gain experience with a variety of specimen-based research tools.
- Students will understand responsibilities of biological collections management and curation.

BIO 511 : Lichenology. (3:2:3)

WHEN TAUGHT: Contact Department.

DESCRIPTION: Classification, morphology, and ecology on lichens. Field trip required.

**Course Outcomes**

- Research and characterize the nature of the lichen symbiosis.
- Develop a working knowledge of lichen biology.
- Demonstrate an understanding of the role of lichens as biomonitors of air quality.
- Develop basic skills for collecting, processing, and identifying lichens.
- Develop basic skills with:- Thin-layer chromatography – lichen secondary chemistry.- Molecular techniques – to characterize genetic patterns and relationships at the population level.
- Prepare research manuscripts for review and publication consideration.
- Present a research proposal for a project using lichens as air quality biomonitors.

BIO 512 : Angiosperm Phylogeny. (3:2:4)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Bio 430 or equivalent.

DESCRIPTION: Description, classification, phylogeny, and geographic distribution of flowering plant families.

**Course Outcomes**

- Students will be able to discuss the primary pattern of relationships among flowering plants as supported by contemporary research.â ¨â ¨
- Students will demonstrate proficiency in tree-thinking and the application of phylogenetic terminology in discussing angiosperm relationships.
- Students will demonstrate knowledge of world-wide flowering plant diversity, including examples of model organisms, convergence, and evolutionary novelties.
- Students will be able to discuss contemporary research in flowering plant diversity, including outstanding problems where additional research is needed.

BIO 525 : Animal Disease, Biosecurity, and Zoonoses. (3:3.0:0)

WHEN TAUGHT: Winter

PREREQUISITE: Bio 380 or instructor's consent.

DESCRIPTION: Animal disease emphasizing prevention, organ systems affected, biosecurity, and zoonotic potential.

**Course Outcomes**

- Comparative pathophysiology will be taught using canine, feline, bovine, ovine, caprine, equine, lab animals, and wildlife examples
- Understand basic animal pathophysiology of disease on an organ system basis and preventive measures to maintain animal health
- Identify biosecurity practices to prevent animal disease
- Differentiate between zoonoses, sapronoses and anthroponoses and understand how to institute preventive measures and management practices to avert these health problems
- Design a herd health program with preventive measures that addresses nutrition, sanitation, housing, ventilation, lighting, and other components for a particular species the student wants to work with as a producer
- Understand how to institute good management procedures that can prevent the occurrence of animal disease
- Develop a basic knowledge of animal immunology as it pertains to disease induction and prevention, with natural and artificial immunity practices that should be implemented to enhance disease prevention, and nutritional practices to optimize animal immunity

BIO 541 : Aquatic Entomology. (4:2:4)

WHEN TAUGHT: Fall Even Yrs.

PREREQUISITE: Bio 441 or equivalent.

DESCRIPTION: Morphology, classification, biology, and functional ecology of aquatic insects. Field trips required.

**Course Outcomes**

- Develop an appreciation for the diversity of the living aquatic insect world.
- Learn to become better stewards of the earth and its living inhabitants.
- Understanding of all aquatic biology.

BIO 555 : Evolutionary and Ecological Modeling. (2:2:0)

WHEN TAUGHT: Winter Even Yrs.

PREREQUISITE: Senior status in bioinformatics program or graduate status; Stat 511, 512, or equivalent; instructor's consent.

DESCRIPTION: Using models in ecology. Practical experience in analytical, simulation, and agent-based models.

**Course Outcomes**

There are no course outcomes available

BIO 556 : Limnology. (3:2:4)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Bio 350, Chem 106; or equivalents.

DESCRIPTION: Lakes, reservoirs; their biota and physical/chemical properties.

**Course Outcomes**

- Understand the major physical processes that form and characterize lentic habitats.
- Understand the dominant chemical processes that occur in lake systems.
- Understand how organisms adapt to the above physical and chemical constraints.
- Gain teaching experience through preparing a Powerpoint presenting your study presentation to the class.
- Experience pursuing a focused research topic from the initial question to a competed report.

BIO 557 : Stream and Wetland Ecology. (4:3:4)

WHEN TAUGHT: Fall Odd Yrs.

PREREQUISITE: Bio 350, Chem 106; or equivalent.

DESCRIPTION: Stream and wetland ecology; their biota and their physical/chemical properties.

**Course Outcomes**

- Develop an understanding of streams and wetlands within the broader context of ecology and conservation.
- Become familiar with the major conservation issue in streams and wetlands and the underlying ecological concepts.
- Initial exposure to the current literature.
- Develop skills related to critical thinking. That is, learn how to: a) read critically and summarize information, b) draw conclusions and synthesize information to develop new questions and hypotheses, and c) design experiments or comparative studies. It is important to start early to learn how to think, read, and write critically.

BIO 559R : Advanced Topics in Ecology and Evolution. (1-6:ARR:ARR)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Instructor's consent.

DESCRIPTION: Current topics in ecology, evolution, and systematics.

**Course Outcomes**

- Students will demonstrate an understanding of the methods of scientific inquiry.
- Students will demonstrate an ability to design and implement a research project in ecology and evolution.
- Students will effectively interpret, analyze, and present results of experimentation to others.
- Students will show an appreciation for and understanding of ecology and evolution.

: Advanced Ecology.

**Course Outcomes**

: Advanced Systematics.

**Course Outcomes**

: Evolutionary Biology.

**Course Outcomes**

: Biogeography.

**Course Outcomes**

: Physiological Ecology.

**Course Outcomes**

: Tropical Biology.

**Course Outcomes**

: Biological Science Education.

**Course Outcomes**

: Field Biology.

**Course Outcomes**

BIO 560 : Population Genetics. (4:4:0)

WHEN TAUGHT: Fall Contact Department; Winter Contact Department

PREREQUISITE: Bio 420 or equivalent.

DESCRIPTION: Basic principles of population genetics applied to natural populations; drift, selection, and nonrandom mating; inferring population subdivision, migration, and gene flow.

**Course Outcomes**

- Students will gain a general introduction to the field a population genetics.
- Students will experience the broad application of population genetics to diverse fields from ecology to medicine.
- Students will manipulate and analyze population genetic data, especially molecular data.

BIO 580 : Scanning Electron Microscopy. (3:2:4)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Instructor's consent.

DESCRIPTION: Theoretical and practical scanning electron microscopy of biological, physical science, and engineering samples, emphasizing practical applications.

**Course Outcomes**

- Students will be able to prepare specimens for the ESEM.
- Students will be able to collect publishable data from the ESEM.
- Students will make a presentation of the research they conducted on the ESEM.

BIO 581 : Transmission Electron Microscopy. (3:2:4)

WHEN TAUGHT: Contact Department.

PREREQUISITE: Instructor's consent.

DESCRIPTION: Theoretical and practical transmission electron microscopy of biological, physical science, and engineering samples, emphasizing practical applications.

**Course Outcomes**

- Students will be able to perform routine biological specimen preparation.
- Students will be able to operate the Transmission Electron Microscope to acquire images.
- Students will be able to appropriately interpret and present TEM data.
- Students will understand the reasons for various techniques that are used, the major components of the microscope, and the several applications of the technology.

BIO 589R : Advanced Science In-Service. (1-5:ARR:ARR)

WHEN TAUGHT: Summer

DESCRIPTION: In-service course for science teachers. Topics vary.

**Course Outcomes**

There are no course outcomes available

: Ecology Science In-Service.

**Course Outcomes**

: Genetics Science In-Service.

**Course Outcomes**

: Evolution Science In-Service.

**Course Outcomes**

: Botany Science In-Service.

**Course Outcomes**

: Meterology Science In-Service.

**Course Outcomes**

Life Sciences Student Services
2060 LSB, (801) 422-3042

## Admission to Degree Program

Please see Life Sciences Student Services for specific details on enrolling in each major.

## Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- At least 30 credit hours must be earned in residence on the BYU campus in Provo as an admitted day student
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

## Undergraduate Programs and Degrees

**BS in Athletic Training** (Program Outcomes)
**BS in Exercise and Wellness** (Program Outcomes)
**BS in Exercise Science** (Program Outcomes)

Students should see Life Sciences Student Services for help or information concerning the undergraduate programs.

## Graduate Programs and Degrees

MS in Exercise Sciences
PhD in Exercise Sciences

## The Discipline

The study of athletic training appeals to those who would like to work in a field that combines an athletic setting with health and medical care. A student in athletic training will learn to apply knowledge of human anatomy, exercise physiology, conditioning, nutrition, and therapy in the prevention, diagnosis, immediate care, and rehabilitation of athletic injuries.

Students must graduate from an accredited athletic training program and pass the Board of Certification (BOC) examination to certify as an athletic trainer.

## Career Opportunities

Career possibilities include working with athletic teams at all levels of competition or in a sports medicine clinical setting or other allied health facilities or in a corporate/industrial setting. BOC certification is required and an advanced degree is recommended.

## Program Requirements | View MAP | View Program Outcomes

1. The Exercise Sciences Department requires a minimum of 45 major hours to be taken in residence at BYU for this degree program. These hours may also go toward BYU's 30-hour residency requirement for graduation.
2. Complete application into the athletic training program during semester of enrollment in ExSc 320. See the program director or ExSc 320 instructor for an application packet.
   - Have a physical examination and provide an immunization record to verify technical standards.
   - Submit one letter of recommendation.
   - Interview with the athletic training staff.
   - Complete 30 hours of clinical observation or experience in a college or high school athletic training setting and complete observation objectives.
3. Complete the senior exit interview.
4. Maintain CPR/AED certification for the professional rescuer.
5. Meet the technical standards associated with the athletic training education program.
6. Complete the following:

EXSC 302 : Philosophical and Ethical Issues in Exercise Sciences. (1:1:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Philosophical and ethical issues common to exercise sciences majors. Concept of mind, body, spirit.

**Course Outcomes**

- Learn contemporary tenets of philosophy that will serve as a basis for understanding important ideas in our own cultural tradition as well as that of others.
- Comprehend philosophical worldviews to facilitate respectful relationships with others.
- Pursue truth, think clearly and communicate effectively one's own beliefs and values; deepen one's understanding of the nature of being.
- Comprehend and apply the truths of the gospel of Jesus Christ. Reflect devout love of God and a loving, genuine concern for the welfare of others in the learning environment.
- Acquire/reinforce a profound respect for the divine nature of one's own life, a reverence for one's value, the purpose of one's life and a desire to live a healthy lifestyle.
- Articulate one's valuing of the entire self, bodymindspirit, with particular focus on the meaning and importance of the physical body.
- Strengthen the formulation of own personal and professional philosophy establishing clear standards of integrity. Improve the communication of one's beliefs, written and verbal.
- Analyze contemporary issues from an ethical standpoint. Demonstrate own professional ethical behavior, think critically and take an informed position on an issue.

EXSC 320 : Basic Athletic Training. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 220; Some majors require concurrent enrollment in ExSc 321. Check MAP requirements for major.

DESCRIPTION: Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

**Course Outcomes**

- Review general responsibilities, roles, and tasks of athletic trainers, physical therapists, and otherallied health professionals involved in sports medicine.
- Learn assessment, first aid, and treatments for common musculoskeletal injuries.
- Examine methods of injury prevention including conditioning principles, environmental hazards,and protective equipment.
- Learn and utilize resources available to sports medicine professionals.
- Apply knowledge to practical situations.

EXSC 321 : Basic Athletic Training Lab. (.5:0:.5)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Concurrent enrollment in ExSc 320.
NOTE: Fee.

**Course Outcomes**

- Demonstrate competency and proficiency in taping the ankle, foot, lower leg, knee, thigh/hip,shoulder, elbow, wrist, thumb, and finger joints.
- Demonstrate competency and proficiency in wrapping the ankle, foot, lower leg, thigh/hip,shoulder, elbow, wrist, thumb, and finger joints.
- Demonstrate competency and profiency in wound care management.
- Demonstrate competency and profiency in injury evaluation.
- Demonstrate competency and profiency in injury treatment management.
- Demonstrate competency and profiency in spineboarding and splinting.

EXSC 362 : Kinesiology and Biomechanics. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Math 110 or higher.
RECOMMENDED: Phscs 105 or 121; PDBio 220.

**Course Outcomes**

- Demonstrate application of physical laws to human performance.
- Calculate kinematics of human motion.
- Show comprehension of projectile motion equations.
- Determine changes of motion due to forces.
- Demonstrate understanding of how fluids generate force.

EXSC 390 : Advanced Musculoskeletal Human Anatomy (includes lab). (4:3:2)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: PDBIO 220; Majors Only
RECOMMENDED: ExSc 362 or equivalent.
DESCRIPTION: Advanced examination of structure and function of skeletal, articular, muscular, and peripheral nervous systems with clinical applications; cadaver lab included.

**Course Outcomes**

- Upon completion of this class students will be able to accomplish the following:Be familiar with the anatomical terms and their meanings for the human skeletal, peripheral nervous, articular, and muscular systems in relation to movement and orthopaedics.
- Identify and discuss the structures, functions and inter-relationships of the human skeletal, peripheral nervous, articular, and muscular systems with respect to movement.

EXSC 414 : Advanced Athletic Training Lab. (1:0:2)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: Athletic training major status.
DESCRIPTION: Advanced athletic training skills, including taping, bracing and splinting, custom-fitted equipment, massage and stretching techniques, and emergency splinting and transport.

**Course Outcomes**

- At the end of this course, the student will demonstrate competency in each of the following CAATE competencies:Select and fit appropriate standard protective equipment on the patient for safe participation in sport and/or physical activity. This includes but is not limited to: Shoulder Pads, Helmet/Headgear, Footwear, Mouthguard, Prophylactic Knee Brace, Prophylactic Ankle Brace, Other Equipment (as appropriate)
- Select, fabricate, and apply appropriate preventive taping and wrapping procedures, splints, braces, and other special protective devices. Procedures and devices should be consistent with sound anatomical and biomechanical principles.
- Obtain, interpret, and make decisions regarding environmental data. This includes, but is not limited to the ability to:RM-P6.2. Formulate and implement a comprehensive, proactive emergency action plan specific to lightening safety
- Apply commonly used special tests and instruments (e.g., otoscope, stethoscope, ophthalmoscope, peak flowmeter, chemical “dipsticks” [or similar devices]) and document the results for the assessment of: Vital signs including respiration (including asthma), pulse and circulation, and blood pressure
- Implement appropriate emergency treatment strategies, including but not limited to:AC-P3c Establish and maintain an airway in a patient wearing shoulder pads, headgear or other protective equipment and/or with a suspected spine injury
- Instruct the patient in proper techniques of commonly prescribed therapeutic exercises.
- Develop risk management plans, including facility design, for safe and efficient health care facilities.
- Develop a risk management plan that addresses issues of liability reduction; security, fire, and facility hazards; electrical and equipment safety; and emergency preparedness.
- Develop policy and write procedures to guide the intended operation of athletic training services within a health care facility.

EXSC 415 : Therapeutic Modalities. (3:2:2)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Athletic training major status.

DESCRIPTION: Hydrotherapy, massage, traction, radiant energy, heat, cold, and electrotherapy.

**Course Outcomes**

- The student will demonstratethe ability to properly select the appropriateparameters, prepare, and apply a(n):a.cold whirlpool treatmentb.controlled cold therapy unitc.ice bagd.vapo-coolant spraye.ice immersionf.ice massageg.contrast bathh.cryokinetics
- The student will demonstratethe ability to properly select appropriateparameters, prepare, and apply a(n):a.moist heat packb.paraffin treatmentc.warm whirlpool treatmentd.fluidotherapye.diathermyf.infrared
- The student will demonstratethe ability to properly select appropriateparameters, prepare, and apply a(n):a.sensory-level pain control treatmentb.noxious-level pain control treatmentc.motor-level pain control treatmentd.muscle re-education treatmente.muscle pumping treatmentf.acute edema treatmentg.chronic edema treatmenth.muscle spasm treatmenti.muscle splinting treatmentj.muscle atrophy retardation treatmentk.iontophoresis treatmentl.MENS treatment
- The student will demonstrate proficiency in thesetup and application of the following types ofelectrical stimulation units:a.Monophasic stimulator (e.g., high voltstimulation)b.Biphasic stimulator (e.g., TENS, NMES)c.Direct current (e.g., iontophoresis)d.Alternating current (e.g., interferential,NMES)
- The student will demonstrate theability to properly select appropriateparameters, prepare, and apply a:a.thermal direct/indirect ultrasound treatmentb.non-thermal direct/indirect ultrasoundtreatmentc.combination electric-stimulation/ultrasoundtreatmentd.phonophoresis treatment
- The student will demonstrate theability to properly select appropriateparameters, prepare, and apply:a.mechanical tractionb.manual tractionc.positional traction
- The student willdemonstrate the ability to properly selectappropriate parameters, prepare, and applyintermittent compression.
- The student will demonstrate theability to prepare and apply a massagetreatment.The student will demonstrate the ability toproperly perform massage strokes.a.effleurageb.petrissagec.frictiond.tapotemente.vibration

EXSC 416 : Injury Evaluation: Lower Extremities. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Athletic training major status.

DESCRIPTION: Basic principles of injury evaluation; evaluation techniques specific to lower-extremity injuries.

**Course Outcomes**

- Instruct the patient how to properly perform fitness tests to assess his or her physical status and readiness for physical activity. Interpret the results of these tests according to requirements established by appropriate governing agencies and/or a physician. These tests should assess: Muscular Endurance, Agility, Speed.
- Develop a fitness program appropriate to the patient's needs and selected activity or activities that meet the requirements established by the appropriate governing agency and/or physician for enhancing: Cardiovascular Endurance, Speed
- Perform inspection/observation of the clinical signs associated with common injuries including deformity, posturing and guarding, edema/swelling, hemarthrosis, and discoloration.Palpate the bones and soft tissues to determine normal or pathological characteristics.Measure the active and passive joint range of motion using commonly accepted techniques, including the use of a goniometer and inclinometer.Grade the resisted joint range of motion/manual muscle testing and break tests.Apply appropriate stress tests for ligamentous or capsular stability, soft tissue and muscle, and fractures.Apply appropriate special tests for injuries to the specific areas of the body as listed above.Assess neurological status, including cranial nerve function, myotomes, dermatomes and reflexes, and circulatory status. Document the results of the assessment including the diagnosis.
- Obtain a medical history of the patient that includes a previous history and a history of the present condition. Perform a visual observation of the clinical signs associated with common injuries and/or illnesses including deformity, edema/swelling, discoloration, and skin abnormalities.Palpate the bones and soft tissues, including the abdomen, to determine normal or pathological characteristics.

EXSC 417 : Injury Evaluation: Upper Extremities and Trunk. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 416

DESCRIPTION: Injury evaluation techniques specific to the upper extremities and trunk.

**Course Outcomes**

- Upon completion of this course, the student will understand and be able to explain and/ordemonstrate by performance on an exam:1. Mechanisms of common injuries in various sports.
- Basic principles of evaluation and diagnostic terminology.
- Signs and symptoms of upper extremity injuries.
- Specific steps in injury evaluation.
- Evaluation techniques, including special tests, used to identify and assess degree ofdisability of the upper extremity.
- Proficiency in performing manual muscle testing of the upper extremity.
- Proficiency in performing girth and goniometric measurements of the upperextremity.
- Basic on-the-field/off-the-field injury management.

EXSC 418 : Rehabilitation of Orthopedic Injuries. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 415

DESCRIPTION: Basic principles, techniques, and progression of orthopedic/musculoskeletal rehabilitation.

**Course Outcomes**

- 1. Understand tissue healing and how therapeutic exercise affects tissue healing.

- 2. Understand the concept of functional progression and how it guides individual rehabilitation protocols. Rehabilitation is not a recipe that fits all people.
- 3. Apply and understand therapeutic exercise, range of motion, and manual therapy techniques to enhance the goals within a rehabilitation plan for athletic injury.
- 4. Synthesize the different goals of rehabilitation to be combined for any injury and condition to return the patient to full activity.

EXSC 419 : Medical Issues in Athletic Training. (1:1:0)

WHEN TAUGHT: Winter

PREREQUISITE: ExSc 417 or concurrent enrollment.

DESCRIPTION: Discussion of current medical issues in athletic training with guest lectures by medical specialists.

**Course Outcomes**

- Advanced seminar type class for exposure to a variety of medical conditions, given from MD's point of view.
- Learn a medical doctor's approach to illnesses which athletes commonly experience.
- Integrate the athletic trainer's responsibility as it pertains to a team approach with the physician.

EXSC 423 : Administration of Athletic Training Programs. (2:2:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 415

DESCRIPTION: Management and administration of athletic training facilities and staff members.

**Course Outcomes**

- Explain the importance of planning, coordinating, and supervising in the administration of an athletic training room/program.
- Explain various budgeting systems and develop budgets for high school and collegiate athletic training programs.
- Design athletic training facilities to meet specific needs.
- Explain the significance of state regulation for the athletic training profession and its relationship to 3rd party reimbursement.
- Explain the impact that insurance and 3rd party reimbursement has on athletic training.
- Be able to develop emergency plans for athletic training settings.
- Explain the elements of negligence and to understand legal issues facing athletic trainers, as well as the role of risk management.
- Explain how to efficiently and effectively organize pre-participation exams.
- Explain key concepts in personnel management, including communication, motivation, evaluations, etc.
- Explain the role of technology and information management in athletic training settings.
- Develop and incorporate individual leadership skills; as well as increase personal awareness, gain self-confidence, and foster cohesive and caring relationships.

EXSC 460 : Orthopaedic Impairments and Therapeutic Exercise. (3:3:2)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 220 & EXSC 390

DESCRIPTION: Fundamentals of body mechanics and therapeutic exercise, coupled with kinesiological principles for detection and correction of basic neuromusculoskeletal anomalies.

**Course Outcomes**

- Upon completion of this class students will be able to accomplish the following:Demonstrate an understanding of basic orthopedic terminology dealing with posture, movement and pathology.
- Demonstrate an understanding of traditional, osteokinematic and arthrokinematic movement
- Demonstrate an understanding of therapeutic exercise particularly active-resistive exercise and manual muscle testing and manual passive exercise and stretching.
- Be able to perform a postural evaluation, both grossly and at individual joints
- Demonstrate an understanding of the etiology, clinical significance and treatment of congenital and acquired orthopedic impairments of the upper and lower extremities and trunk.
- Where applicable, be able to write a therapeutic exercise program for the orthopedic impairments discussed in class.
- Demonstrate an understanding of normal and pathologic gait.

EXSC 463 : Exercise Physiology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: PDBIO 305; or PDBIO 362

RECOMMENDED: Concurrent enrollment in ExSc 464.

DESCRIPTION: The function of the physiological systems and their responses to acute and chronic exercise.

**Course Outcomes**

- Describe the substrates used, amount and rate of ATP resynthesized, metabolic end products, and control of anaerobic and aerobic metabolic pathways.
- Describe the responses to acute bouts of exercise and the mechanisms of the observed response, and the physiological adaptations which occur as a result of physical conditioning.
- Describe the physiological rationale for applying the eight principles of physical conditioning to improve health, fitness, and performance.
- Describe the depolarization of skeletal muscle beginning at the spinal cord and ending with the contraction of the muscle fiber.
- Describe the transportation and diffusion of O2and CO2 through the pulmonary and systemic circuits at rest and during exercise.
- Describe the anatomical, physiological, and functional differences between the three types of huma skeletal muscle fibers.
- Describe the interaction of the nervous, muscle, cardiovascular, pulmonary, and metabolic systems at rest and during exercise.

- Describe the normal anatomy and physiology of the heart, blood, and blood vessels; describe the normal function of the cardiovascular system at rest and during exercise.
- Describe how the human body functions and maintain homeostasis during the increased metabolic demands of exercise.
- Describe the function of sympathetic, parasympathetic, and somatic motor neurons, including differences in structure, neurotransmitters, receptors and efferent organs.

EXSC 464 : Exercise Physiology Lab. (.5:0:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: ExSc 463 or concurrent enrollment.

DESCRIPTION: Introduction of laboratory and field methods; applying principles of exercise physiology to assessing physical fitness and physiological responses to exercise.

**Course Outcomes**

- The purpose of this class is to apply knowledge of exercise physiology to the assessment of the fivecomponents of health related physical fitness. The labs are the means to review and apply the physiologyof exercise and to develop and practice fundamental skills related to the assessment of physical fitness.

EXSC 468 : Problems in Exercise Prescription. (2:2:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 463

DESCRIPTION: Applying scientific principles to problems in conditioning.

**Course Outcomes**

- At the conclusion of the course, the student will be able to write prescriptions of activity forindividuals of selected levels of age and fitness for the following:A. Endurance1. Speed/Explosive endurance2. Anaerobic endurance3. Aerobic endurance B. Strength1. Beginners2. Athletes3. Body builders C. Nutrition D. Weight Control1. Weight loss2. Weight gain E. Flexibility F. Plyometricssion of the course, the student will be able to write prescriptions of activity forindividuals of selected levels of age and fitness for the followingAt the conclusion of the course, the student will be able to write prescriptions of activity forindividuals of selected levels of age and fitness for the following

EXSC 501 : Sports Medicine Pathology and Pharmacology. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ExSc 320, PDBio 305; or equivalents.

DESCRIPTION: Sports medicine pathologies and related pharmacology for a variety of sports medicine/allied health care professions.

NOTE: Meets required NATA athletic training educational competencies.

**Course Outcomes**

- After completing this course, the student will:1. Synthesize basic knowledge of human anatomy and physiology to develop knowledge of the causes, pathophysiology, and clinical features of the various conditions affecting the body. Considering you have completed a physiology course you will be required to recall that information
- 6. Understand basic pharmacokinetics and pharmacodynamics principles.
- 8. Describe proper maintenance and documentation of records for the administration of prescription and nonprescription drugs.
- 7. Understand advantages and disadvantages of common routes used to administer medications.
- 2. Analyze relationships between inflammation, repair, regeneration, and healing as they relate to pharmacological intervention.
- 9. Utilize reference sources for pharmacological information.
- 5. Synthesize patient information for prescription and nonprescription agents associated with the treatment and relief of symptoms from illness and injuries.
- 4. Understand clinical use of various prescription and nonprescription agents associated with the treatment and relief of symptoms from illnesses and injuries.
- 3. Evaluate clinico-pathological signs and symptoms for specific medical conditions that assist the sport medicine/allied health care clinician in correlating findings in determining the course of action for illness and disease.
- 11. Identify sources of current banned-drug lists published by various associations.
- 10. Describe basic concepts of organizing and coordinating a drug testing and screening program.

NDFS 310 : Nutrition and Metabolism in Sports and Exercise. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: NDFS 100 & PDBIO 305

DESCRIPTION: Scientific basis for the role of nutrition in human performance. Critical evaluation of popular practices; making optimal food choices for physical activity.

NOTE: This course was formerly named Sports Nutrition.

**Course Outcomes**

- Students will apply their current understanding of nutrition to aspects of physical performance. Describe the factors (exercise intensity, duration, substrate availability and endocrine) that affect energy utilization.
- Search, interpret, and summarize original scientific information. Evaluate nutritional claims for scientific accuracy.
- Apply evidence-based nutrition recommendations for sports and exercise in real or hypthetical situations.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Structure and function of the human body. Lab included.

**Course Outcomes**

- Students will demonstrate an understanding of the basic microscopic underpinnings of tissue structures and be able to name them.
- Students will demonstrate a greater understanding and appreciation for the human body, it's overall design and connections to other living organisms, and what a marvelous creation it is.
- Students will be able to list the name, location, and function of each of the body's organs and organ systems.

PDBIO 305 : Human Physiology (with lab). (4:4:2)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Chem 101 or equivalent; PDBio 210 or 220.

RECOMMENDED: A general biology course.

DESCRIPTION: Function of body organ systems.

NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

**Course Outcomes**

- Students will demonstrate the proper use of physiology terminology.
- Student will demonstrate a well-integrated and comprehensive understanding of the human body in health and disease.
- Students will use knowledge of cells and organ systems to solve problems related to the function of the human body.
- Students will demonstrate the necessary knowledge and skills in physiology that are required for their majors and future aspirations for graduate and professional school.
- Students will develop and demonstrate in their daily lives a deeper appreciation and respect for the human body.
- Students will demonstrate the knowledge to make informed personal (medical,ethical,and political)decisions regarding physiological concepts.

PSYCH 111 : Introduction to Psychological Science. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Basic course in modern scientific psychology.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Objective: Apply psychological principles to personal and social issues and problems.Measurement:Examinations, quizzes, comprehensive final examination that includes questions common to all Psychology 111 sections, response papers to essays written by practicing research psychologists or term paper.
- Objective: Demonstrate a broad knowledge of the basic theoretical perspectives that guide psychological inquiry.Measurement: Examinations, quizzes, comprehensive final examination that includes questions common to all Pyychology 111 sections.
- Objective: Understand the basic research methods used in psychology, including classical and current experiments.Measurement: Examinations, quizzes, comprehensive final examination that includes questions common to all Psychology 111 sections, response papers to essays written by practicing research psychologists or term paper, participation as a subject in actual psychological research.

STAT 121 : Principles of Statistics. (3:3:1)

OFFERED: Independent Study also; Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

RECOMMENDED: MATH 110 or equivalent.

DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, simple linear regression.

**Course Outcomes**

- Differentiate between observational studies and experiments
- Identify three sampling designs: simple random sample, stratified, and multi-stage
- Identify three designs of experiments: completely randomized, randomized block and matched-pairs
- Interpret and make appropriate conclusions from plots of data
- Calculate and interpret measures of center and spread
- Determine potential association between two quantitative and two categorical variables
- Communicate using technical language about probability and variation
- Interpret and communicate the outcomes of estimation and hypothesis tests in the context of a problem
- Understand the importance of data collection and how it dictates the appropriate statistical method and acceptable inference
- Determine the appropriate statistical procedure to use for a given research problem or data set

: Honors Principles of Statistics.

**Course Outcomes**

7. Complete the following (to be taken last semester prior to graduation):
   EXSC 498 : Capstone Experience in Athletic Training. (2:2:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Senior standing in athletic training education program.

DESCRIPTION: Synthesizing and integrating student classroom and clinical experiences in preparation for BOC examination resulting in certification of allied health professionals.

NOTE: Course should be taken last semester prior to graduation.

**Course Outcomes**

- Explain, describe and complete the BOC exam registration process.
- Design and follow athletic training content exam preparation schedule.
- Understand the possibilities of practice in AT.
- Explain the significance of BOC certification and state regulation for the athletic training profession.
- Define deficiencies in you athletic training education knowledge and skills.
- Develop and implement emergency plans in the practice of athletic training.
- Explain legal issues facing athletic trainers.
- Explain the role of technology and information management in athletic training settings.
- Understand the requirements to maintain BOC certification.
- BOC Exam Preparation= Professional Practice Preparation
- Have completed all NATA Education Council competencies.

8. Complete the following:

EXSC 394 : Athletic Training Clinical Education 1. (2:1:5)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Athletic training major status.

DESCRIPTION: Classroom and field experience. Orientation to athletic training program and clinical expectations. Modules include emergency care, taping skills, and basic modalities.

**Course Outcomes**

- After completing this course, the student will be able to understand the administrative roles and policies of various health care organizations including:a. CAATEb. NATAc. BOC
- Demonstrate the skills necessary for accurate record keeping including SOAP notes and correct documentation of HOPS
- Understand purchasing policies for supplies
- Correctly devise and implement emergency action plans
- Demonstrate the necessary skills for care of emergency conditions
- Demonstrate care and necessary skills for treating open wounds
- 1. Demonstrate correct use, including indications and contraindications for therapeutic modalities including:a. Hot Packsb. Ultrasoundc. Cryotherapyd. Electrical stimulation
- 1. Demonstrate correct evaluation techniques of lower extremities including:a. Footb. Anklec. Lower Legd. Kneee. Hip

EXSC 395 : Athletic Training Clinical Education 2. (2:1:5)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 394

DESCRIPTION: Classroom and field experience. Modules include taping skills, assessment, and modalities.

**Course Outcomes**

- Demonstrate rehabilitation skills, including aquatic therapy, joint mobilizations, proprioception, neuromuscular control, and agility exercises.
- Demonstrate competency and clinical proficiency in taping and bracing.
- Demonstrate the skills necessary to properly evaluate and care for upper extremity injuries including shoulder, elbow, forearm, wrist, hand, head and face, and thorax and abdomen.
- Demonstrate the use of the following rehabilitation tools: Alter G machine and Rebounder

EXSC 494 : Athletic Training Clinical Education 3. (2:1:5)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 395

DESCRIPTION: Classroom and field experience. Modules include injury assessment and management, rehabilitation skills, and knowledge of general medical conditions.

**Course Outcomes**

- After completing this course, the student will be able to:1. Understand and apply administrative policies and procedures.
- Demonstrate general medical assessment skills.
- Understand how to care for and prevent various general medical (respiratory, cardiac,gastric, genitourinary) pathologies.

EXSC 495 : Athletic Training Clinical Education 4. (2:1:5)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 494

DESCRIPTION: Classroom and field experience. Modules include injury assessment and management, rehabilitation skills, nutrition, and dermatology.

**Course Outcomes**

- After completing this course, the student will:1. Demonstrate understanding of pharmacology, pharmacological processes, and the university'smedication policies and procedures.
- Demonstrate knowledge of basic nutrition guidelines for athletes.

- Demonstrate knowledge of eating disorders and disordered eating and possess the ability tointervene with athletes who suffer from such disorders.
- Demonstrate the skills necessary to properly evaluate, care for, rehabilitate, and prevent upper and lower extremity injuries.
- Demonstrate the skills necessary to properly evaluate, care for, and prevent various generalmedical (common syndromes and diseases, dermatology) pathologies. Full evaluation and treatment from on-the-field to return-to-play.

**Note:** These courses must be completed over a two-calendar-year period. The athletic training clinical education courses listed above require field experience hours as part of the athletic training curriculum.

## Recommended Courses

HLTH 320 : Advanced First Aid and Safety. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: In-depth coverage of first aid procedures for injuries and sudden illness. Leads to first aid and CPR certifications.

**Course Outcomes**

- Demonstrate the skills involving cardiopulmonary rescuitation (CPR), automated external defibrillation (AED), bandaging, and splinting.
- Identify the importance of first aid and emergency care
- Recognize specific emergency problems (i.e., heart attack, fracture, open wound, burn insect sting) through their signs and symptoms.
- Identify the decisions involved during an emergency.
- Describe proper first aid and emergency care procedures for specific emergency problems.

STDEV 170 : Introduction to Health Professions. (1:1:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Overview of health professions: medical, dental, and other specialties. Primary focus on guest lectures from various practitioners and clinicians.

**Course Outcomes**

- 1. Students will gain a basic understanding of a significant number of health professions.
- 2. Students will increase knowledge of health professions through class presentations with health care professionals.
- 3. Students will learn more about health care provision through service learning in preparation for service-oriented health professions.
- 4. Students will increase awareness of the requirements to enter various health professions and where to find additional information about their preferred health care field.

*Hours include courses that may fulfill university core requirements.

# BS in Exercise and Wellness (60.5 hours*)

Show All Course Descriptions
Hide All Course Descriptions

## The Discipline

Exercise and Wellness is a departure from the typical U.S. medical model in that the focus is on helping individuals achieve optimal health and fitness rather than on discovering and treating disease. Recent research findings, along with rising health-care costs, have spurred an interest in keeping people healthy to improve their quality of life and also to avoid unnecessary medical expenses.

Depending on electives completed, there are several excellent career and graduate school options to pursue. Earning a master's degree in exercise science, for example, can give the added knowledge and experience needed to direct a private, commercial, corporate, or clinical health/fitness program. Other graduate school opportunities include a master's in public health (MPH), business administration (MBA), recreational therapy (MS), nutritional science (MS), or a master's in physician assistant studies (MPAS), to name a few.

## Career Opportunities

Exercise and wellness professionals find employment primarily in commercial or community fitness centers but may also work in hospital wellness programs or corporate health-promotion programs. Job responsibilities typically involve teaching clients how to achieve optimal wellness through effective exercise, wholesome nutrition, and successful stress-management strategies.

Exercise and wellness professionals may function at a staff or management level. Staff personnel often conduct one-on-one counseling sessions on a variety of health-related subjects as well as perform fitness testing and exercise prescription. They also may conduct workshops, conferences, or seminars on exercise, nutrition, stress management, weight control, and many other topics.

Program directors typically possess a master's degree with several years of experience working in a health promotion/wellness environment. As a program director, additional responsibilities typically include financial budgeting, marketing, program administration and evaluation, and personnel hiring and training.

Students pursuing a degree in exercise and wellness are usually more successful in their profession if they gain expertise in the following areas: counseling, public speaking, behavior change, business, first aid, gerontology, or aerobic dance teaching. It is also strongly recommended that students obtain a health/fitness certification through a reputable certifying organization.

Survey data indicate that personal trainers earn $51,000 annually in the U.S. Throughout the U.S. salaries range from $37,000 to $63,000. Health promotion program directors' salaries are similar to those of personal trainers, with more earning potential for individuals with graduate degrees and/or experience.

## Program Requirements | View MAP | View Program Outcomes

1. Complete the senior exit interview.
2. Complete the following prerequisites to the exercise and wellness core:

HLTH 320 : Advanced First Aid and Safety. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: In-depth coverage of first aid procedures for injuries and sudden illness. Leads to first aid and CPR certifications.

**Course Outcomes**

- Demonstrate the skills involving cardiopulmonary rescuitation (CPR), automated external defibrillation (AED), bandaging, and splinting.
- Identify the importance of first aid and emergency care
- Recognize specific emergency problems (i.e., heart attack, fracture, open wound, burn insect sting) through their signs and symptoms.
- Identify the decisions involved during an emergency.
- Describe proper first aid and emergency care procedures for specific emergency problems.

NDFS 100 : Essentials of Human Nutrition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

**Course Outcomes**

- Apply the scientific method to identify and interpret credible nutrition information.
- Identify, interpret, and apply nutrition information.

- Identify functions of nutrients and their major food sources.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Structure and function of the human body. Lab included.

**Course Outcomes**

- Students will demonstrate an understanding of the basic microscopic underpinnings of tissue structures and be able to name them.
- Students will demonstrate a greater understanding and appreciation for the human body, it's overall design and connections to other living organisms, and what a marvelous creation it is.
- Students will be able to list the name, location, and function of each of the body's organs and organ systems.

PDBIO 305 : Human Physiology (with lab). (4:4:2)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Chem 101 or equivalent; PDBio 210 or 220.

RECOMMENDED: A general biology course.

DESCRIPTION: Function of body organ systems.

NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

**Course Outcomes**

- Students will demonstrate the proper use of physiology terminology.
- Student will demonstrate a well-integrated and comprehensive understanding of the human body in health and disease.
- Students will use knowledge of cells and organ systems to solve problems related to the function of the human body.
- Students will demonstrate the necessary knowledge and skills in physiology that are required for their majors and future aspirations for graduate and professional school.
- Students will develop and demonstrate in their daily lives a deeper appreciation and respect for the human body.
- Students will demonstrate the knowledge to make informed personal (medical,ethical,and political)decisions regarding physiological concepts.

STAT 121 : Principles of Statistics. (3:3:1)

OFFERED: Independent Study also; Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

RECOMMENDED: MATH 110 or equivalent.

DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, simple linear regression.

**Course Outcomes**

- Differentiate between observational studies and experiments
- Identify three sampling designs: simple random sample, stratified, and multi-stage
- Identify three designs of experiments: completely randomized, randomized block and matched-pairs
- Interpret and make appropriate conclusions from plots of data
- Calculate and interpret measures of center and spread
- Determine potential association between two quantitative and two categorical variables
- Communicate using technical language about probability and variation
- Interpret and communicate the outcomes of estimation and hypothesis tests in the context of a problem
- Understand the importance of data collection and how it dictates the appropriate statistical method and acceptable inference
- Determine the appropriate statistical procedure to use for a given research problem or data set

: Honors Principles of Statistics.

**Course Outcomes**

TMA 150 : Public Speaking. (3:3:0)

OFFERED: Independent Study also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Principles and methods of public speaking; speaking experiences.

**Course Outcomes**

- Develop analytical listening and observation skills.
- Know how to speak publicly so your audience will really listen and understand.
- Construct and deliver effective extemporaneous public speeches.
- Manage speech anxiety and effective use nonverbal communication to inform, persuade, enlighten, and impact your audience.
- Be able to produce and employ effective visual aids in your presentations.

3. Complete the following required core:

EXSC 302 : Philosophical and Ethical Issues in Exercise Sciences. (1:1:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Philosophical and ethical issues common to exercise sciences majors. Concept of mind, body, spirit.

**Course Outcomes**

- Learn contemporary tenets of philosophy that will serve as a basis for understanding important ideas in our own cultural tradition as well as that of others.
- Comprehend philosophical worldviews to facilitate respectful relationships with others.
- Pursue truth, think clearly and communicate effectively one's own beliefs and values; deepen one's understanding of the nature of being.
- Comprehend and apply the truths of the gospel of Jesus Christ. Reflect devout love of God and a loving, genuine concern for the welfare of others in the learning environment.
- Acquire/reinforce a profound respect for the divine nature of one's own life, a reverence for one's value, the purpose of one's life and a desire to live a healthy lifestyle.
- Articulate one's valuing of the entire self, bodymindspirit, with particular focus on the meaning and importance of the physical body.
- Strengthen the formulation of own personal and professional philosophy establishing clear standards of integrity. Improve the communication of one's beliefs, written and verbal.
- Analyze contemporary issues from an ethical standpoint. Demonstrate own professional ethical behavior, think critically and take an informed position on an issue.

EXSC 387 : Lifestyle and Chronic Disease Prevention. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Current scientific evidence demonstrating how lifestyle affects disease processes. Healthy lifestyle concepts specifically needed by wellness professionals, health educators, and health promotion practitioners; influence of unhealthy lifestyle as basis for chronic diseases, i.e., cardiovascular disease, cancer, and diabetes.

**Course Outcomes**

- Develop an awareness of what constitutes a healthy lifestyle
- Understand the use and interpretation of statistical techniques used in scientific papers on health and lifestyle
- Become familiar with the scientific literature that supports healthy living
- Gain knowledge needed to help others adopt and maintain a healthy lifestyle

EXSC 410 : Stress Management. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Teaches students the basic principles, theories, and relaxation techniques to effectively manage personal stress. Students gain a greater understanding of the mind-body relationship, learn to employ a holistic approach to stress, and adopt effective cognitive, coping, and relaxation techniques. Ultimately, students experience a more effective approach to optimal lifelong health.

**Course Outcomes**

- Master the basic understanding of the physiological mechanisms responsible for the fight-or-flight response and subsequent manifestations of various symptoms of target organ dysfunctions. Be able to apply this understanding to stress management and disease prevention.
- Understand and discuss the holistic nature (mind-body-spirit) of stress management and comprehend the mind-body connection of the stress and disease process.
- Be able to recognize potential stressors and develop strategies to prevent (or reduce the magnitude) these stressors from eliciting a stress response.
- Be able to develop strategies to reduce daily stressors.
- Understand the principles behind the various relaxation techniques and be able to apply these techniques to managing stress.

EXSC 463 : Exercise Physiology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: PDBIO 305; or PDBIO 362

RECOMMENDED: Concurrent enrollment in ExSc 464.

DESCRIPTION: The function of the physiological systems and their responses to acute and chronic exercise.

**Course Outcomes**

- Describe the substrates used, amount and rate of ATP resynthesized, metabolic end products, and control of anaerobic and aerobic metabolic pathways.
- Describe the responses to acute bouts of exercise and the mechanisms of the observed response, and the physiological adaptations which occur as a result of physical conditioning.
- Describe the physiological rationale for applying the eight principles of physical conditioning to improve health, fitness, and performance.
- Describe the depolarization of skeletal muscle beginning at the spinal cord and ending with the contraction of the muscle fiber.
- Describe the transportation and diffusion of O2and CO2 through the pulmonary and systemic circuits at rest and during exercise.
- Describe the anatomical, physiological, and functional differences between the three types of huma skeletal muscle fibers.
- Describe the interaction of the nervous, muscle, cardiovascular, pulmonary, and metabolic systems at rest and during exercise.
- Describe the normal anatomy and physiology of the heart, blood, and blood vessels; describe the normal function of the cardiovascular system at rest and during exercise.
- Describe how the human body functions and maintain homeostasis during the increased metabolic demands of exercise.
- Describe the function of sympathetic, parasympathetic, and somatic motor neurons, including differences in structure, neurotransmitters, receptors and efferent organs.

EXSC 464 : Exercise Physiology Lab. (.5:0:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: ExSc 463 or concurrent enrollment.

DESCRIPTION: Introduction of laboratory and field methods; applying principles of exercise physiology to assessing physical fitness and physiological responses to exercise.

**Course Outcomes**

- The purpose of this class is to apply knowledge of exercise physiology to the assessment of the fivecomponents of health related physical fitness. The labs are the means to review and apply the physiologyof exercise and to develop and practice fundamental skills related to the assessment of physical fitness.

EXSC 480 : Obesity and Weight Management. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ExSc 463 or concurrent enrollment.

DESCRIPTION: Review of the scientific literature surrounding obesity and weight management, primarily the causes and consequences of this growing epidemic.

**Course Outcomes**

- Demonstrate an understanding of the historical framework and prevalence of overweight/obesity in adults and children.
- Understand the etiology and health risks related to overweight/obesity.
- Describe the economic costs and social consequences associated with overweight/obesity.
- Demonstrate an understanding of the principles of energy balance.
- Understand methods of assessing overweight/obesity, body composition, diet, and physical activity.
- Demonstrate an understanding of various methods of treating overweight/obesity including: diet, physical activity, behavioral, pharmacological, and surgical interventions.
- Demonstrate an understanding of pediatric, family and public interventions to prevent or attenuate the rise in obesity.
- Have a personal experience applying weight management strategies.
- These learning objectives will be achieved through class lectures, student projects, scientific readings, and in-class activities. Students will be evaluated through written exams, quizzes and projects.

4. Complete four hours from the following:

EXSC 399R : Exercise and Wellness Internship. (.5-9:0:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Internship coordinator's consent.

DESCRIPTION: On-the-job experience for exercise and wellness majors.

**Course Outcomes**

- Gain work-related experience through one or more internship experiences
- Apply, in a work-related setting, the skills and abilities attained through required course work in the Exercise and Wellness major

5. Complete 24 hours from the following:

- Complete a minimum of 18 hours from the following:

EXSC 221 : Science of Wellness. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: A comprehensive study of the science of wellness of the whole individual. The science of wellness draws principles from exercise sciences, biological sciences, behavioral and social sciences. The research from psychoneuroimmunology (PNI) supports specifically the holistic wellness paradigm whose focus is that every aspect of each human being, the body, mind and spirit, are involved in all wellness activities and all wellness activities affect the whole individual. Students will discover this new paradigm and experience the blending of the sciences to support the integrated nature of our being.

**Course Outcomes**

There are no course outcomes available

EXSC 320 : Basic Athletic Training. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 220; Some majors require concurrent enrollment in ExSc 321. Check MAP requirements for major.

DESCRIPTION: Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

**Course Outcomes**

- Review general responsibilities, roles, and tasks of athletic trainers, physical therapists, and otherallied health professionals involved in sports medicine.
- Learn assessment, first aid, and treatments for common musculoskeletal injuries.
- Examine methods of injury prevention including conditioning principles, environmental hazards,and protective equipment.
- Learn and utilize resources available to sports medicine professionals.
- Apply knowledge to practical situations.

EXSC 321 : Basic Athletic Training Lab. (.5:0:.5)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Concurrent enrollment in ExSc 320.
NOTE: Fee.

**Course Outcomes**

- Demonstrate competency and proficiency in taping the ankle, foot, lower leg, knee, thigh/hip,shoulder, elbow, wrist, thumb, and finger joints.
- Demonstrate competency and proficiency in wrapping the ankle, foot, lower leg, thigh/hip,shoulder, elbow, wrist, thumb, and finger joints.
- Demonstrate competency and profiency in wound care management.
- Demonstrate competency and profiency in injury evaluation.
- Demonstrate competency and profiency in injury treatment management.
- Demonstrate competency and profiency in spineboarding and splinting.

EXSC 349 : Body, Mind, Spirit. (3:3:0)

OFFERED: Independent Study only. Honors also.
DESCRIPTION: Sacredness of the body and its meaningfulness to the whole being. Comparative approach utilizing ideas from the restored gospel and Western and Eastern philosophy (nature of being).

**Course Outcomes**

There are no course outcomes available

: Honors Body, Mind, Spirit.

**Course Outcomes**

EXSC 362 : Kinesiology and Biomechanics. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Math 110 or higher.
RECOMMENDED: Phscs 105 or 121; PDBio 220.

**Course Outcomes**

- Demonstrate application of physical laws to human performance.
- Calculate kinematics of human motion.
- Show comprehension of projectile motion equations.
- Determine changes of motion due to forces.
- Demonstrate understanding of how fluids generate force.

EXSC 365 : Scientific Bases of Sport: Kinesiology. (2:2:0)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: Kinesiology and biomechanics for physical education/coaching minor.

**Course Outcomes**

- Students will demonstrate how to apply physical laws to human performance. Included physical laws deal with: Linear motion, projectile motion, forces, impulse and momentum, fluid mechanics, and tissue mechanics.

EXSC 385 : Personal Training Strategies. (3:3:0)

WHEN TAUGHT: Fall; Winter
RECOMMENDED: PDBio 220.
DESCRIPTION: The art and science of personal fitness training for healthy adults, utilizing safe and effective techniques to develop and maintain optimal functional fitness (proper posture, balance, joint mobility, and stability), and optimal physical fitness (cardiorespiratory endurance, flexibility, muscular strength, and power).

**Course Outcomes**

- Explain and apply the essential concepts and principles of human movement science, anatomy, exercise physiology; biomechanics, motor learning; functional fitness assessment; stability training, mobility training, core training, balance training, reactive training, resistance training, cardiorespiratory training; exercise programming; nutrition and weight management; safety and injury prevention in an understandable and accurate way
- Prepare to certify as a Certified Personal Trainer (CPT) through the National Academy of Sports Medicine (NASM)

EXSC 390 : Advanced Musculoskeletal Human Anatomy (includes lab). (4:3:2)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: PDBIO 220; Majors Only
RECOMMENDED: ExSc 362 or equivalent.
DESCRIPTION: Advanced examination of structure and function of skeletal, articular, muscular, and peripheral nervous systems with clinical applications; cadaver lab included.

**Course Outcomes**

- Upon completion of this class students will be able to accomplish the following:Be familiar with

the anatomical terms and their meanings for the human skeletal, peripheral nervous, articular, and muscular systems in relation to movement and orthopaedics.
- Identify and discuss the structures, functions and inter-relationships of the human skeletal, peripheral nervous, articular, and muscular systems with respect to movement.

EXSC 455 : Worksite Health Promotion. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 387 & EXSC 463

DESCRIPTION: Managing, designing, marketing, implementing, assessing, and administering health promotion programs in a worksite setting.

**Course Outcomes**

- Be able to demonstrate an understanding of the health promotion concept, historical background of worksite health promotion programs, and the rationale for companies to provide a health promotion program. This objective will be accomplished through class lecture/discussion and students will be evaluated through quizzes and exams.
- Better understand each of the following components in the design and execution of a worksite health promotion program: determining needs and interests of employers and employees, writing vision/mission/goal statements best practices, creating a company culture of wellness, launching a program, incentives/rewards, and company wellness policies. This will be accomplished through lectures and a semester project.
- Increase their understanding of effective health assessments and how to interpret the assessments. This will be accomplished through lectures and evaluated through quizzes and exams.
- Increase their understanding of how to effectively evaluate programs. This will be accomplished through lectures and evaluated through quizzes and exams.
- Be able to demonstrate the essential elements of common worksite health promotion programs, such as, physical activity, nutrition, weight management, medical self-care, stress management, substance abuse/tobacco control, and back care programs. This will be accomplished through lectures and class presentations.
- Gain practical experience and learning from experts in the field. This will be accomplished through the following: 1) each student will critique an existing worksite wellness program and present their findings to the class, 2) approximately 5 class periods will be devoted to studying transcripts of various interviews with experts in the field, and 3) 5 class periods will include visiting lecturers who are currently working in the field.
- Develop a worksite health promotion program through a semester class project.
- Have the opportunity to work in conjunction with a team to develop a health display to be presented to the class.

EXSC 468 : Problems in Exercise Prescription. (2:2:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 463

DESCRIPTION: Applying scientific principles to problems in conditioning.

**Course Outcomes**

- At the conclusion of the course, the student will be able to write prescriptions of activity forindividuals of selected levels of age and fitness for the following:A. Endurance1. Speed/Explosive endurance2. Anaerobic endurance3. Aerobic endurance B. Strength1. Beginners2. Athletes3. Body builders C. Nutrition D. Weight Control1. Weight loss2. Weight gain E. Flexibility F. Plyometricssion of the course, the student will be able to write prescriptions of activity forindividuals of selected levels of age and fitness for the followingAt the conclusion of the course, the student will be able to write prescriptions of activity forindividuals of selected levels of age and fitness for the following

EXSC 485 : Exercise and Wellness Certification Preparation. (3:3:0)

PREREQUISITE: Senior status.

DESCRIPTION: Review of exercise and wellness certification competencies and curriculum with preparation for professional certification.

**Course Outcomes**

- Explain and apply the essential concepts and principles of pathophysiology; exercise physiology; health appraisal and fitness testing; exercise programming; nutrition and weight management; anatomy and biomechanics; human behavior and psychology; human development and aging; and safety and injury prevention in an understandable and accurate way
- Prepare to certify as a Health and Fitness Specialist (HFS) through the American College of Sports Medicine (ACSM)

HLTH 335 : Health Behavior Change. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

RECOMMENDED: Hlth 330.

DESCRIPTION: Understanding health behavior change theories for individuals and populations. Practical application of related models and theories.

**Course Outcomes**

- Evaluate the ability of selected socio-behavioral theories and models for furthering understanding of important public health problems and issues, with particular reference to health promotion and disease prevention.
- Identify prominenent features and constructs in commonly used theories and models of health behavior change.
- Identify the important role of culture in the context of behavior change.

HLTH 345 : Principles of Epidemiology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

RECOMMENDED: Stat 121.

DESCRIPTION: Applying analytical tools to study acute and chronic disease to facilitate investigation and control of epidemics.

**Course Outcomes**

- Investigate disease outbreaks.
- Describe basic concepts, definitions, and history of Epidemiology.
- Describe patterns of disease occurrence.
- Interpret Epidemiologic studies.
- Evaluate treatment effectiveness.
- Measure disease frequency and association.
- Distinguish between statistical association and cause-effect relationships.
- Know basic design strategies in Epidemiology.

HLTH 460 : Substance Abuse and Addictive Behavior. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Physiological, psychological, sociological, and legal implications of drug use and addictive behaviors, emphasizing nature, cause, treatment, and prevention.

**Course Outcomes**

- Explain substance use and abuse from a multidisciplinary perspective.
- List and describe specific social policies that reduce alcohol, tobacco, and other drug use.
- Explain the major social determinants and predictors of substance use in the United States.
- Explain the biological basis of drug addiction.
- Describe the health problems and risk associated with specific drugs.
- Describe the marketing, public relations, and political activities of the tobacco and alcohol industries.
- Provide the descriptive epidemiology of substance abuse in the United States.

NDFS 201 : Society, Nutrition, and Chronic Disease. (2:2:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: NDFS 100

DESCRIPTION: Behavioral, dietary, and environmental factors that influence nutrition and risks for chronic disease.

**Course Outcomes**

- Explain or describe how behavioral, dietary, and environmental factors influence nutrition and chronic disease risks.
- Find scientific research articles and identify their key characteristics. Identify consistencies or inconsistencies in studies of diet and chronic disease risks.
- Apply information about behavioral, dietary, and environmental factors to reduce chronic disease risks.

NDFS 310 : Nutrition and Metabolism in Sports and Exercise. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: NDFS 100 & PDBIO 305

DESCRIPTION: Scientific basis for the role of nutrition in human performance. Critical evaluation of popular practices; making optimal food choices for physical activity.

NOTE: This course was formerly named Sports Nutrition.

**Course Outcomes**

- Students will apply their current understanding of nutrition to aspects of physical performance. Describe the factors (exercise intensity, duration, substrate availability and endocrine) that affect energy utilization.
- Search, interpret, and summarize original scientific information. Evaluate nutritional claims for scientific accuracy.
- Apply evidence-based nutrition recommendations for sports and exercise in real or hypthetical situations.

PDBIO 365 : Pathophysiology. (4:4:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 305; or PDBIO 362

DESCRIPTION: Variations in physiological mechanisms that account for development of common disturbances in normal control and activities of body's organs and organ systems.

**Course Outcomes**

- Students will exhibit an integrative understanding of the biochemistry, molecular biology, genetics, cell biology, microbiology, environmental biology, and physiology related to the prevention, development, and treatment of common diseases.
- Students will demonstrate through case study analysis a command of problem solving skills related to the diagnosis and treatment of pathophysiological conditions.
- Pupils will manifest a command of the physiology and pathophysiological vocabulary necessary to effectively communicate with other biomedical professionals and the general public.
- Students will be able to articulate the ethical issues related to the treatment and prevention of

pathophysiological conditions.
- Students will manifest an increase in their respect for the human body and adopt a life style consistent with this respect.

- Complete up to 6 hours from the following:

ACC 200 : Principles of Accounting. (3:3:0)

OFFERED: Independent Study also.
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Financial and managerial accounting principles. Basic accounting statements, processes, and management applications. Open to all students.

**Course Outcomes**

- Construct and use internal accounting tools such as cost-volume-profit analysis, budgets, product cost reports, and nonroutine decision analyses to understand how to make better business management decisions.
- Construct and interpret a balance sheet and income statement understanding its usefulness in business and investment decision making.
- Comfortably use accounting terms and concepts in business-related discussions.
- Intelligently converse about the following areas:a. The role of accounting in international businessb. The role of information systems in financial reportingc. Fraud and how to prevent fraudd. The theory and practice of income taxese. Investing in stocksf. Career planning and spiritual decision makingg. Managerial accounting as a competitive toolh. Personal budgeting and financial planning
- Write a brief, focused memo demonstrating basic understanding of background business reading material.
- Use computer-aided learning tools and online learning resources.
- Manage workload in a self-paced learning environment.

BIO 130 : Biology. (4:3:1)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: General biology course with laboratory for biology majors. Introduction to disciplines in the life sciences including methods for scientific inquiry, biochemical dynamics, cell structure and function, evolutionary theory, bioenergetics, and ecological interactions.

**Course Outcomes**

- Students will demonstrate basic literacy in the language of science and an understanding of the foundational theories of biology (i.e., be able to formulate appropriate hypotheses and predictions to test specific biological phenomena and use appropriate vocabulary to do so) o Atomic Molecular Theoryo Cell Theoryo Theories of Photosynthesis, Fermentation, and Cellular Respirationo Cell Division and Meiotic Theorieso Chromosomal and Mendelian Theories of Inheritanceo Watson and Crick's Theory of DNA Structure and Replicationo Protein Synthesis Theoryo Darwin's Theory of Natural Selectiono Hardy-Weinberg Theoryo Ecosystem Theoryo Population Growth Theoryo Competitive Exclusion and Behavioral Theory
- Students will demonstrate an understanding of the basic scientific principles which undergird the scientific process, including the strengths and weaknesses of this process.
- Students willappreciate the excitement of discovery that has accompanied important scientific developments.
- Students will demonstrate how scientific methodology can be used to analyze real-world science-related problems.
- Students will be able to evaluate scientific data and claims in order to make rational decisions on public-policy science issues that affect their community.
- Students will be able to express their thoughts (in oral, graphical, and written formats) on scientific topics clearly, including appropriate use of basic scientific vocabulary and effective interpretation of quantitative data.
- Students will be able to reflect rationally upon the interface between science and religion.
- Students will demonstrate sound scientific reasoning ability.

BUS M 201 : Financial Management. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Acc 200 or equivalent.
DESCRIPTION: Financial statement analysis, financial planning, sources of financing, working capital management, risk and return, and valuation.

**Course Outcomes**

There are no course outcomes available

BUS M 241 : Marketing Management. (3:3:0)

OFFERED: Independent Study also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Marketing's role in society and the firm, marketing opportunities, the consumer market, and management of marketing mix.

**Course Outcomes**

There are no course outcomes available

BUS M 371R : Entrepreneurship Lecture Series. (1:1:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Lectures by successful entrepreneurs on subjects significant to entrepreneur-type opportunities.

**Course Outcomes**

There are no course outcomes available

BUS M 372 : Basic Entrepreneurship Skills. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Practical aspects of business formation and growth; key skills and principles needed to successfully start up and grow a business.

NOTE: For non-Marriott School of Management students.

**Course Outcomes**

There are no course outcomes available

CHEM 101 : Introductory General Chemistry. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 97 or equivalent.

DESCRIPTION: Atomic and molecular structure, periodic relationships, states of matter, chemical reactions and stoichiometry, acids and bases.

NOTE: Primarily for nonscience majors who require a broad introduction to general chemistry.

**Course Outcomes**

- Students will be able to view the world around them in chemical terms. Students will use the concepts of atoms, molecules, and their properties to understand a variety of phenomena.
- Students will be able to make qualitative and/or quantitative predictions regarding a number of chemical concepts including chemical reactions and stoichiometry, calorimetry, osmosis, gases, acid/base chemistry, chemical equilibria, and radioactivity.

CHEM 105 : General College Chemistry. (4:5:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.

DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.

NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

**Course Outcomes**

- Students will demonstrate a familiarity with the basic vocabulary and concepts of chemistry.
- Students will demonstrate a qualitative and basic quantitative understanding of the fundamental chemical laws which govern the material substances in our universe and which express how one variable in nature depends on another.
- Students will demonstrate the ability to manipulate quantitative descriptors of natural phenomena expressed both in the form of equations and of proportionalities, and solve chemistry problems using these skills.
- A successful Chemistry 105 students describes chemical phenomenon by first focusing on properties of the elements at the atomic level. Chemistry 105 students will gain a knowledge base of reactivity patterns of elements and compounds.
- Chemistry 105 students will be able to use their chemistry experience, knowledge, and skills to better understand and work in their own field of study.

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Chem 101 or equivalent.

DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

**Course Outcomes**

- Students will understand the metabolism of carbohydrates, lipids, and proteins in humans. They will be able to describe in structures and words the metabolism of sugars through the pathways of glycolysis, the citric acid cycle, and the electron transport chain.
- Students will understand the structure and reactivity of organic functional groups, such as alcohols, aldehydes, carboxylic acids, and amides. For example, students will learn that aldehydes and ketones typically undergo addition reactions.
- Students will understand the structure and reactivity of the biomolecules that have those functional groups. For example, students will be able to demonstrate that carbohydrates are aldehydes and ketones that undergo addition reactions to form hemiacetals and polysaccharides with acetal linkages.

DANCE 336 : Methods of Teaching Aerobic Dance. (2:2:2)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: DANCE 342 & DANCE 343; or EXSC 362 & DANCE 343

RECOMMENDED: NDFS 100.

**Course Outcomes**

- 1. Students will identify scientific fitness principles regarding cardiovascular endurance, strength, flexibility and lean/fat body ratio.
- 2. Students will analyze important characteristics of teaching anatomically sound warm-up and cool down sessions and choreographing and teaching aerobic workouts based on sound physiological principles.
- 3. Students will evaluate and administrate physical fitness assessments.

HLTH 383 : Mind/Body Health. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Theories and research on the effect of emotions and attitudes on health: how negative emotions increase disease susceptibility and positive emotions encourage immune strength, health, and healing. Behavioral medicine and complementary and alternative health practices also presented.

**Course Outcomes**

- Identify and understand the connection between mental processes/beliefs and how they contribute to chronic and infectious disease.(Learning activities: lecture, class discussion, group presentations, videos)
- Identify and evaluate the behavioral, social, and cultural thought processes that contribute to disease.(Learning activities: lecture, class discussion, research study reviews, exams)

HLTH 438 : Social Marketing. (3:3:0)

WHEN TAUGHT: Spring

RECOMMENDED: Hlth 330, 332, 437.

DESCRIPTION: Social marketing, including formative research, audience analysis, segmentation, marketing mix, strategies, pretesting; application to health promotion and public health.

**Course Outcomes**

- Be able to develop a social marketing plan.

HLTH 450 : Women's Health Issues. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Overview of selected health topics affecting women's health status. Primary emphasis on steps to enhance personal health and fulfill divine roles from childhood through adulthood.

**Course Outcomes**

- Identify and understand the determinants of women's health issues.(Learning activities: lecture, class discussion, videos, out of class activites, guest lecturers)
- Identify and report on specific chronic and infectious diseases that affect women.(Learning activities: lecture, class discussion, book review, guest lecture)
- Identify ways to improve women's health using a variety of assessment sources.(Learning activities: lecture, class discussion, review of CDC and other health statistics, interviews, guest lecture)

MMBIO 221 : General Microbiology. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Any biology course.

RECOMMENDED: Any chemistry course.

DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes and control.

NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

**Course Outcomes**

- Explain and discuss the ways by which microbiologists study microorganisms.
- Discuss the principle infectious diseases that affect mankind, including how they are transmitted, treated, controlled and prevented.
- Differentiate between the types of microorganisms by identifying relevant structure and their function in the biosphere.
- Propose microbial solutions to global problems.
- Describe how the human body defends itself against infectious agents.

NDFS 200 : Nutrient Metabolism. (3:3:0)

WHEN TAUGHT: Fall; Spring

PREREQUISITE: NDFS 100; Organic chemistry or concurrent enrollment.

DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

**Course Outcomes**

- Identify chemical structures of amino acids, lipids, carbohydrates, and vitamins.
- List functions, food sources, and consequences of deficiencies and toxicities for each of the essential nutrients.
- Explain the metabolic and physiological basis for the consequences of dietary practices that affect

nutrient levels, and relate the consequences to the roles of essential nutrients in metabolic processes.
- Analyze diets and alter food intake to reach predetermined targets for consumption of specific dietary components or to achieve an overall dietary pattern.
- Find answers to questions and summarize results from original research reported in published peer-reviewed scientific journals.

ORG B 320 : Organizational Effectiveness. (3:Arr:0)

OFFERED: Independent Study also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Theories and concepts for creating effective organizations, e.g., individual, group, and organizational processes and human resource functions, including selection, compensation, and performance management.
NOTE: Taught online.

**Course Outcomes**

There are no course outcomes available

STDEV 170 : Introduction to Health Professions. (1:1:0)

WHEN TAUGHT: Fall; Winter
DESCRIPTION: Overview of health professions: medical, dental, and other specialties. Primary focus on guest lectures from various practitioners and clinicians.

**Course Outcomes**

- 1. Students will gain a basic understanding of a significant number of health professions.
- 2. Students will increase knowledge of health professions through class presentations with health care professionals.
- 3. Students will learn more about health care provision through service learning in preparation for service-oriented health professions.
- 4. Students will increase awareness of the requirements to enter various health professions and where to find additional information about their preferred health care field.

STDEV 317 : Career Strategies for Employment and Internships. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Preparing for employment and internship opportunities. Practical strategies to facilitate internship and/or career preparation: resumes, cover letters, networking, interviewing, and Internet research.

**Course Outcomes**

There are no course outcomes available

*Hours include courses that may fulfill university core requirements.

# BS in Exercise Science (59.5 hours*)

Show All Course Descriptions
Hide All Course Descriptions

## The Discipline

The exercise science program is designed to prepare students for entry into graduate school in one of the disciplines related to exercise science or one of the health care professional schools.

Students majoring in exercise science explore how the body functions during physical activity and exercise. Principles and concepts taught in human anatomy and physiology, exercise physiology, biomechanics, motor learning, chemistry, physics, and nutrition are mastered to help understand how the body responds to acute bouts of exercise and how it adapts to chronic physical activity and exercise. The impact that physical activity and exercise have on one's capacity to do work, physical performance, as well as its impact on health and disease makes study of this discipline rewarding.

## Career Opportunities

The exercise science degree provides excellent preparation for students interested in graduate work in exercise physiology (MS, PhD) or those desiring to pursue training in medicine, physical therapy, cardiac rehabilitation, podiatry, chiropractic, and other health care professions. Graduates with this major may also find opportunities in community, corporate, or hospital wellness centers and health promotion programs.

The major is designed to prepare students to enter graduate programs in several health-related professions; specifically exercise science master's and doctoral programs. Those who complete graduate work in exercise science are most likely to be employed as a professor/researcher in a university setting. In addition to graduate studies in exercise science, students are also prepared to attend medical school, dental school, osteopathy school, physician assistant and nursing programs, and chiropractic school.

Salary varies tremendously with the terminal degree sought, the choice of career specialty, and geographic location of employment or practice. Earnings for those with certain medical and dental specialties are potentially lucrative.

## Program Requirements | View MAP | View Program Outcomes

1. Complete senior exit interview.
2. Complete the following:

CHEM 105 : General College Chemistry. (4:5:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

**Course Outcomes**

- Students will demonstrate a familiarity with the basic vocabulary and concepts of chemistry.
- Students will demonstrate a qualitative and basic quantitative understanding of the fundamental chemical laws which govern the material substances in our universe and which express how one variable in nature depends on another.
- Students will demonstrate the ability to manipulate quantitative descriptors of natural phenomena expressed both in the form of equations and of proportionalities, and solve chemistry problems using these skills.
- A successful Chemistry 105 students describes chemical phenomenon by first focusing on properties of the elements at the atomic level. Chemistry 105 students will gain a knowledge base of reactivity patterns of elements and compounds.
- Chemistry 105 students will be able to use their chemistry experience, knowledge, and skills to better understand and work in their own field of study.

CHEM 106 : General College Chemistry. (3:4:0)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: CHEM 105; or CHEM 111
DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.
NOTE: Three lectures and one recitation section per week.

**Course Outcomes**

- Students will demonstrate an expanded mastery of the concepts that were learned in Chemistry 105 including: kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, thermodynamics, organic, biochemistry, and nuclear chemistry.
- Students will demonstrate the ability to solve mathematical problems, typically using algebra, in kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, and thermodynamics.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Chem 106 or Chem 112 or concurrent enrollment.

DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.

NOTE: Required for most students needing one year of general chemistry.

**Course Outcomes**

- Through laboratory experiments, students will demonstrate that they can use precise scientific instrumentation to find quantitative answers to significant problems within the total precision allowed by the equipment.
- Students will demonstrate that they can perform simple experiments, observe the outcomes accurately, then make reasoned, accurate decisions about the meanings of the results.

MMBIO 240 : Molecular Biology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: BIO 130 & CHEM 105; or PDBIO 120 & CHEM 105; or MMBIO 151 & CHEM 105

DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

NOTE: Chem 105 and Chem 111 can also fulfill the prerequisite requirement; contact advisor.

**Course Outcomes**

- Describe and compare the functions and molecular structures of DNA, RNA, and protein, and explain the processes and regulatory mechanisms governing the synthesis of each.
- Explain a variety of molecular biology techniques, and interpret experimental results obtained using the various methods.
- Solve unfamiliar problems by applying the information and principles mastered through Learning Outcomes 1 and 2
- Collaborate with other students to solve challenging problems, to clarify ideas and concepts, and to learn from one another in a spirit of cooperation and integrity

NDFS 100 : Essentials of Human Nutrition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

**Course Outcomes**

- Apply the scientific method to identify and interpret credible nutrition information.
- Identify, interpret, and apply nutrition information.
- Identify functions of nutrients and their major food sources.

PDBIO 120 : Science of Biology. (2:2:1)

OFFERED: Honors also

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the central dogma, bioenergetics, reproduction, and evolutionary theory.

**Course Outcomes**

There are no course outcomes available

PDBIO 220 : Human Anatomy (with lab). (3:2:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Structure and function of the human body. Lab included.

**Course Outcomes**

- Students will demonstrate an understanding of the basic microscopic underpinnings of tissue structures and be able to name them.
- Students will demonstrate a greater understanding and appreciation for the human body, it's overall design and connections to other living organisms, and what a marvelous creation it is.
- Students will be able to list the name, location, and function of each of the body's organs and organ systems.

PHSCS 105 : General Physics 1. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: High school algebra and trigonometry.

RECOMMENDED: Concurrent enrollment in Phscs 107.

DESCRIPTION: Applied physics course not requiring calculus. Mechanics, heat, wave motion, and sound.

**Course Outcomes**

There are no course outcomes available

PHSCS 106 : General Physics 2. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Phscs 105 or equivalent.
RECOMMENDED: Concurrent enrollment in Phscs 108.
DESCRIPTION: Continuation of Phscs 105. Electricity and magnetism, modern physics, and optics

**Course Outcomes**

There are no course outcomes available

PHSCS 107 : General Physics Lab 1. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Phscs 105 or concurrent enrollment.
DESCRIPTION: Lab experiments in mechanics and thermodynamics. Measuring and analyzing data.

**Course Outcomes**

- Develop a greater conceptual understanding of mechanics and thermodynamics through hands-on experience with physical systems that illustrate lecture course material.
- Develop skills in measuring and analyzing physical data.

PHSCS 108 : General Physics Lab 2. (1:0:3)

WHEN TAUGHT: Fall; Winter; Summer
PREREQUISITE: Phscs 106 or concurrent enrollment
DESCRIPTION: Lab experiments in electricity, magnetism, optics, and modern physics. Measuring and analyzing data.

**Course Outcomes**

- Develop a greater conceptual understanding of electricity and magnetism, optics, and modern physics through hands-on experience with physical systems that illustrate lecture course material.
- Develop skills in measuring and analyzing physical data.

3. Complete one of the following options:

**Either**

PDBIO 305 : Human Physiology (with lab). (4:4:2)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Chem 101 or equivalent; PDBio 210 or 220.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

**Course Outcomes**

- Students will demonstrate the proper use of physiology terminology.
- Student will demonstrate a well-integrated and comprehensive understanding of the human body in health and disease.
- Students will use knowledge of cells and organ systems to solve problems related to the function of the human body.
- Students will demonstrate the necessary knowledge and skills in physiology that are required for their majors and future aspirations for graduate and professional school.
- Students will develop and demonstrate in their daily lives a deeper appreciation and respect for the human body.
- Students will demonstrate the knowledge to make informed personal (medical,ethical,and political)decisions regarding physiological concepts.

**Or**

PDBIO 362 : Advanced Physiology. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: MMBIO 240 & PHSCS 106; or MMBIO 240 & PHSCS 220
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

**Course Outcomes**

- Students will manifest an understanding of how structures at the molecular level lead to properties associated with cells, tissues, organs, and organ systems.
- Students will demonstrate a comprehension of the functions of the major physiological systems found in humans.
- Students will describe how organ systems work together interactively to maintain homeostasis.

PDBIO 363 : Advanced Physiology Laboratory. (1:.5:1.5)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBio 362 or concurrent enrollment; or instructor's consent.

DESCRIPTION: Experiments and exercises in advanced physiology emphasizing human physiology. Computer simulations of muscle function, endocrine disease, and human physiology. Emphasizes problem solving and calculations.

**Course Outcomes**

- Students will demonstrate the skills required to properly interpret data from scientific experimentation to discover how physiological systems function.
- Students will manifest an understanding of basic physiological principles by modeling how human cells, organs, and organ systems function.
- Students will describe how interactions between human organ systems work to maintain homeostasis.

4. Complete the following major courses:

EXSC 302 : Philosophical and Ethical Issues in Exercise Sciences. (1:1:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Philosophical and ethical issues common to exercise sciences majors. Concept of mind, body, spirit.

**Course Outcomes**

- Learn contemporary tenets of philosophy that will serve as a basis for understanding important ideas in our own cultural tradition as well as that of others.
- Comprehend philosophical worldviews to facilitate respectful relationships with others.
- Pursue truth, think clearly and communicate effectively one's own beliefs and values; deepen one's understanding of the nature of being.
- Comprehend and apply the truths of the gospel of Jesus Christ. Reflect devout love of God and a loving, genuine concern for the welfare of others in the learning environment.
- Acquire/reinforce a profound respect for the divine nature of one's own life, a reverence for one's value, the purpose of one's life and a desire to live a healthy lifestyle.
- Articulate one's valuing of the entire self, bodymindspirit, with particular focus on the meaning and importance of the physical body.
- Strengthen the formulation of own personal and professional philosophy establishing clear standards of integrity. Improve the communication of one's beliefs, written and verbal.
- Analyze contemporary issues from an ethical standpoint. Demonstrate own professional ethical behavior, think critically and take an informed position on an issue.

EXSC 320 : Basic Athletic Training. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 220; Some majors require concurrent enrollment in ExSc 321. Check MAP requirements for major.

DESCRIPTION: Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

**Course Outcomes**

- Review general responsibilities, roles, and tasks of athletic trainers, physical therapists, and otherallied health professionals involved in sports medicine.
- Learn assessment, first aid, and treatments for common musculoskeletal injuries.
- Examine methods of injury prevention including conditioning principles, environmental hazards,and protective equipment.
- Learn and utilize resources available to sports medicine professionals.
- Apply knowledge to practical situations.

EXSC 362 : Kinesiology and Biomechanics. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Math 110 or higher.

RECOMMENDED: Phscs 105 or 121; PDBio 220.

**Course Outcomes**

- Demonstrate application of physical laws to human performance.
- Calculate kinematics of human motion.
- Show comprehension of projectile motion equations.
- Determine changes of motion due to forces.
- Demonstrate understanding of how fluids generate force.

EXSC 387 : Lifestyle and Chronic Disease Prevention. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Current scientific evidence demonstrating how lifestyle affects disease processes. Healthy lifestyle concepts specifically needed by wellness professionals, health educators, and health promotion practitioners; influence of unhealthy lifestyle as basis for chronic diseases, i.e., cardiovascular disease, cancer, and diabetes.

**Course Outcomes**

- Develop an awareness of what constitutes a healthy lifestyle

- Understand the use and interpretation of statistical techniques used in scientific papers on health and lifestyle
- Become familiar with the scientific literature that supports healthy living
- Gain knowledge needed to help others adopt and maintain a healthy lifestyle

EXSC 390 : Advanced Musculoskeletal Human Anatomy (includes lab). (4:3:2)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: PDBIO 220; Majors Only
RECOMMENDED: ExSc 362 or equivalent.
DESCRIPTION: Advanced examination of structure and function of skeletal, articular, muscular, and peripheral nervous systems with clinical applications; cadaver lab included.

**Course Outcomes**

- Upon completion of this class students will be able to accomplish the following:Be familiar with the anatomical terms and their meanings for the human skeletal, peripheral nervous, articular, and muscular systems in relation to movement and orthopaedics.
- Identify and discuss the structures, functions and inter-relationships of the human skeletal, peripheral nervous, articular, and muscular systems with respect to movement.

EXSC 460 : Orthopaedic Impairments and Therapeutic Exercise. (3:3:2)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: PDBIO 220 & EXSC 390
DESCRIPTION: Fundamentals of body mechanics and therapeutic exercise, coupled with kinesiological principles for detection and correction of basic neuromusculoskeletal anomalies.

**Course Outcomes**

- Upon completion of this class students will be able to accomplish the following:Demonstrate an understanding of basic orthopedic terminology dealing with posture, movement and pathology.
- Demonstrate an understanding of traditional, osteokinematic and arthrokinematic movement
- Demonstrate an understanding of therapeutic exercise particularly active-resistive exercise and manual muscle testing and manual passive exercise and stretching.
- Be able to perform a postural evaluation, both grossly and at individual joints
- Demonstrate an understanding of the etiology, clinical significance and treatment of congenital and acquired orthopedic impairments of the upper and lower extremities and trunk.
- Where applicable, be able to write a therapeutic exercise program for the orthopedic impairments discussed in class.
- Demonstrate an understanding of normal and pathologic gait.

EXSC 463 : Exercise Physiology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: PDBIO 305; or PDBIO 362
RECOMMENDED: Concurrent enrollment in ExSc 464.
DESCRIPTION: The function of the physiological systems and their responses to acute and chronic exercise.

**Course Outcomes**

- Describe the substrates used, amount and rate of ATP resynthesized, metabolic end products, and control of anaerobic and aerobic metabolic pathways.
- Describe the responses to acute bouts of exercise and the mechanisms of the observed response, and the physiological adaptations which occur as a result of physical conditioning.
- Describe the physiological rationale for applying the eight principles of physical conditioning to improve health, fitness, and performance.
- Describe the depolarization of skeletal muscle beginning at the spinal cord and ending with the contraction of the muscle fiber.
- Describe the transportation and diffusion of O2and CO2 through the pulmonary and systemic circuits at rest and during exercise.
- Describe the anatomical, physiological, and functional differences between the three types of huma skeletal muscle fibers.
- Describe the interaction of the nervous, muscle, cardiovascular, pulmonary, and metabolic systems at rest and during exercise.
- Describe the normal anatomy and physiology of the heart, blood, and blood vessels; describe the normal function of the cardiovascular system at rest and during exercise.
- Describe how the human body functions and maintain homeostasis during the increased metabolic demands of exercise.
- Describe the function of sympathetic, parasympathetic, and somatic motor neurons, including differences in structure, neurotransmitters, receptors and efferent organs.

EXSC 464 : Exercise Physiology Lab. (.5:0:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: ExSc 463 or concurrent enrollment.
DESCRIPTION: Introduction of laboratory and field methods; applying principles of exercise physiology to assessing physical fitness and physiological responses to exercise.

**Course Outcomes**

- The purpose of this class is to apply knowledge of exercise physiology to the assessment of the fivecomponents of health related physical fitness. The labs are the means to review and apply the physiologyof exercise and to develop and practice fundamental skills related to the assessment of physical fitness.

5. Complete 8 hours from the following:

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Chem 101 or equivalent.
DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

**Course Outcomes**

- Students will understand the metabolism of carbohydrates, lipids, and proteins in humans. They will be able to describe in structures and words the metabolism of sugars through the pathways of glycolysis, the citric acid cycle, and the electron transport chain.
- Students will understand the structure and reactivity of organic functional groups, such as alcohols, aldehydes, carboxylic acids, and amides. For example, students will learn that aldehydes and ketones typically undergo addition reactions.
- Students will understand the structure and reactivity of the biomolecules that have those functional groups. For example, students will be able to demonstrate that carbohydrates are aldehydes and ketones that undergo addition reactions to form hemiacetals and polysaccharides with acetal linkages.

CHEM 351 : Organic Chemistry. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: CHEM 105; or CHEM 111
DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.
NOTE: Primarily for majors in chemical engineering and the biological sciences.

**Course Outcomes**

- Recognize functional group classes commonly encountered in organic chemistry and name representative molecules from each class using IUPAC rules for organic nomenclature.
- Predict structure and reactivity of alkanes, alkenes, alkynes, aromatic hydrocarbons, alcohols, ethers, epoxides, and alkylhalides based on such factors as carbon atom hybridization, bond length, bond strength, and bond polarity.
- Recognize and provide curved arrow mechanisms for the following types of organic reactions: additions, substitutions, and eliminations.
- Predict the energetically preferred conformation for straight-chain and branched alkanes, and for substituted cycloalkanes.
- Determine R and S configurations for chiral molecules and distinguish between enantiomers, diastereomers, meso compounds, and conformational isomers.
- Interpret 1H NMR, 13C NMR, IR, UV, and mass spectra and use these data to determine the structure of organic molecules.
- Predict the relative energies of reactive intermediates such as radicals, carbocations, and carbanions, based on structural considerations such as orbital hybridization, hyperconjugation, and resonance stabilization.

CHEM 352 : Organic Chemistry. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: CHEM 351; or CHEM 351M
DESCRIPTION: Continuation of Chem 351.

**Course Outcomes**

- Predict structure and reactivity of aldehydes, ketones, carboxylic acids, esters, anhydrides, amides, b-ketocarbonyl containing compounds, amines, and phenols.
- Recognize and provide curved arrow mechanisms for the following types of organic reactions: electrophilic & nucleophilic aromatic substitution, nucleophilic carbonyl addition, nucleophilic acyl substitution, carbonyl condensation, [4 2] cycloaddition, and substitution ato a carbonyl.
- Recognize and predict the reactivity of the following reactive species and/or reactive intermediates: Grignard reagents, Wittig reagents, organolithiums, diorganocuprates, enols, enolates, aryl diazonium ions, and benzynes.
- Recognize and predict the structure and reactivity of the following classes of biologically important organic molecules: carbohydrates, amino acids, proteins, and lipids.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Chem 352 or Chem 352M or concurrent enrollment (preferred).
DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.
NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

**Course Outcomes**

- Perform a broad range of traditional organic reactions at the micro scale including: nucleophilic carbonyl additions, hydroboration, nucleophilic acyl substitution, electrophilic aromatic substitution, [4 2] cycloaddition, and photochemical alkene isomerization.
- Implement fundamental organic chemistry techniques for carrying out basic experiments, and purifying products, at the micro scale including: extraction, distillation, recrystalization, column chromatography, and TLC.
- Make correct conclusions about the outcome of experiments after collecting basic physical data, and after providing unambiguous interpretation of the necessary spectra.

CHEM 481 : Biochemistry. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: CHEM 352M & PDBIO 120; or CHEM 352 & PDBIO 120
DESCRIPTION: First-semester biochemistry. Molecular components of cells, chemical structure and function,

enzymes, metabolic transformations, photosynthesis.

NOTE: For chemistry majors and students in biological sciences who contemplate pursuing advanced degrees, including medicine. (For prerequisite, Bio 130 may be used in place of PDBio 120.)

**Course Outcomes**

- Demonstrate mastery of key concepts in the Biochemistry subdiscipline and articulate the relationships between chemistry and biology. This outcome is elaborated in outcomes 2-5 below
- Explain how the structure of biomolecules such as proteins, nucleic acids, lipids, and carbohydrates determines their biological function
- Describe how enzymes catalyze reactions in terms of thermodynamics, kinetics, and mechanistic strategies
- Understand how energy is generated from metabolic reaction pathways
- Push arrows to predict and understand reactivity in metabolic pathways
- Communicate scientific ideas clearly to other specialists in writing
- Identify and understand primary research articles relevant to a specific biochemical question of current interest
- Interpret and critique experimental data relating to biochemical models

EXSC 321 : Basic Athletic Training Lab. (.5:0:.5)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Concurrent enrollment in ExSc 320.

NOTE: Fee.

**Course Outcomes**

- Demonstrate competency and proficiency in taping the ankle, foot, lower leg, knee, thigh/hip,shoulder, elbow, wrist, thumb, and finger joints.
- Demonstrate competency and proficiency in wrapping the ankle, foot, lower leg, thigh/hip,shoulder, elbow, wrist, thumb, and finger joints.
- Demonstrate competency and profiency in wound care management.
- Demonstrate competency and profiency in injury evaluation.
- Demonstrate competency and profiency in injury treatment management.
- Demonstrate competency and profiency in spineboarding and splinting.

EXSC 455 : Worksite Health Promotion. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 387 & EXSC 463

DESCRIPTION: Managing, designing, marketing, implementing, assessing, and administering health promotion programs in a worksite setting.

**Course Outcomes**

- Be able to demonstrate an understanding of the health promotion concept, historical background of worksite health promotion programs, and the rationale for companies to provide a health promotion program. This objective will be accomplished through class lecture/discussion and students will be evaluated through quizzes and exams.
- Better understand each of the following components in the design and execution of a worksite health promotion program: determining needs and interests of employers and employees, writing vision/mission/goal statements best practices, creating a company culture of wellness, launching a program, incentives/rewards, and company wellness policies. This will be accomplished through lectures and a semester project.
- Increase their understanding of effective health assessments and how to interpret the assessments. This will be accomplished through lectures and evaluated through quizzes and exams.
- Increase their understanding of how to effectively evaluate programs. This will be accomplished through lectures and evaluated through quizzes and exams.
- Be able to demonstrate the essential elements of common worksite health promotion programs, such as, physical activity, nutrition, weight management, medical self-care, stress management, substance abuse/tobacco control, and back care programs. This will be accomplished through lectures and class presentations.
- Gain practical experience and learning from experts in the field. This will be accomplished through the following: 1) each student will critique an existing worksite wellness program and present their findings to the class, 2) approximately 5 class periods will be devoted to studying transcripts of various interviews with experts in the field, and 3) 5 class periods will include visiting lecturers who are currently working in the field.
- Develop a worksite health promotion program through a semester class project.
- Have the opportunity to work in conjunction with a team to develop a health display to be presented to the class.

EXSC 468 : Problems in Exercise Prescription. (2:2:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 463

DESCRIPTION: Applying scientific principles to problems in conditioning.

**Course Outcomes**

- At the conclusion of the course, the student will be able to write prescriptions of activity forindividuals of selected levels of age and fitness for the following:A. Endurance1. Speed/Explosive endurance2. Anaerobic endurance3. Aerobic endurance B. Strength1. Beginners2. Athletes3. Body builders C. Nutrition D. Weight Control1. Weight loss2. Weight gain E. Flexibility F. Plyometricssion of the course, the student will be able to write prescriptions of activity forindividuals of selected levels of age and fitness for the followingAt the conclusion of the course, the student will be able to write prescriptions of activity forindividuals of selected levels of age and fitness for the following

EXSC 470 : Functional Neuroanatomy. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: PDBIO 220 & EXSC 390
DESCRIPTION: Function, assessment, and rehabilitation of sensory and motor systems.

**Course Outcomes**

- 1. Describe the functional unit of the nervous system?2. Describe the pathways of three different messenging neurons.3. Explain glia?4. List the 4 regions of the nervous system.5. List the structures make-up the brain stem?6. Identify and label the circle of willis and associated arterial supply7. Explain the composition of white vs. gray matter.8. Describe and identify spinal cord anatomy and explain the DRG (dorsal root ganglion) and ventral rami?9. Describe and draw the gray and white matter in the spinal cord.10. List and identify the cranial nerves attach to the Pons?11. List and identify all cranial nerves and explain which are sensory, motor or mixed. 12. Describe the function of the cerebellum. (see syllabus for expanded list)
- Upon completion of this class students will be able to accomplish the following:Be familiar with the neuroanatomical terms and their meanings for the central nervous system and peripheral nervous system in relation to systems and function.Be familiar with terminology of specific diseases and dysfunctions in relation to signs/symptoms and classic descriptionsBe familiar with the terminology of electrophysiologic testing of the peripheral nervous system as it relates to normal and abnormal function.
- Students will be able to identify and discuss the structures, pathways and functions of independent somatosensory and motor tracts as they relate to motor function, coordination, movement and sensory integration.

EXSC 497R : Undergraduate Research and Study. (.5-4:0:ARR)
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Individual research and study in any area of exercise science.

**Course Outcomes**

- To provide the undergraduate student with a mentored learning experience specifically in exercise science related research

HLTH 310 : Chronic Diseases: Prevention and Control. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Pathogenesis, epidemiology of major chronic diseases, health costs to society, at-risk populations, population-based prevention, and related best-practice interventions.

**Course Outcomes**

There are no course outcomes available

HLTH 320 : Advanced First Aid and Safety. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: In-depth coverage of first aid procedures for injuries and sudden illness. Leads to first aid and CPR certifications.

**Course Outcomes**

- Demonstrate the skills involving cardiopulmonary rescuitation (CPR), automated external defibrillation (AED), bandaging, and splinting.
- Identify the importance of first aid and emergency care
- Recognize specific emergency problems (i.e., heart attack, fracture, open wound, burn insect sting) through their signs and symptoms.
- Identify the decisions involved during an emergency.
- Describe proper first aid and emergency care procedures for specific emergency problems.

HLTH 335 : Health Behavior Change. (3:3:0)
WHEN TAUGHT: Fall; Winter; Spring
RECOMMENDED: HIth 330.
DESCRIPTION: Understanding health behavior change theories for individuals and populations. Practical application of related models and theories.

**Course Outcomes**

- Evaluate the ability of selected socio-behavioral theories and models for furthering understanding of important public health problems and issues, with particular reference to health promotion and disease prevention.
- Identify prominent features and constructs in commonly used theories and models of health behavior change.
- Identify the important role of culture in the context of behavior change.

MATH 112 : Calculus 1. (4:5:0)
OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.

**Course Outcomes**

- This course is designed for students majoring in the mathematical and physical sciences, engineering, or mathematics education and for students minoring in mathematics or mathematics education. Calculus is

the foundation for most of the mathematics studied at the university level. The mastery of calculus requires well-developed skills, clear conceptual understanding, and the ability to model phenomena in a variety of settings. Calculus 1 develops the concepts of limit, derivative, and integral, and is fundamental for many fields of mathematics. This course contributes to all the expected learning outcomes of the Mathematics BS. For more detailed information, visit the Math 112 Wiki page.

: Honors Calculus 1.

**Course Outcomes**

MATH 119 : Introduction to Calculus. (4:4:1)

OFFERED: Independent Study only.
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Math 110 and Math 111; or equivalent.
DESCRIPTION: Introduction to plane analytic geometry and calculus.

**Course Outcomes**

- This course is designed to provide beginning undergraduate students a first exposure to Calculus concepts, theorems, and techniques. In general, theorems will not be proved. An understanding of the theorems and their applications to solve calculus problems will be taught. Students will be expected to develop effective problem solving skills based on their understanding of the theory and not just memorize a set of routines to solve problems. For a more detailed course description, visit the Math 119 Wiki page.

MMBIO 221 : General Microbiology. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Any biology course.
RECOMMENDED: Any chemistry course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

**Course Outcomes**

- Explain and discuss the ways by which microbiologists study microorganisms.
- Discuss the principle infectious diseases that affect mankind, including how they are transmitted, treated, controlled and prevented.
- Differentiate between the types of microorganisms by identifying relevant structure and their function in the biosphere.
- Propose microbial solutions to global problems.
- Describe how the human body defends itself against infectious agents.

MMBIO 222 : General Microbiology Laboratory. (1:0:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: MMBio 221 or concurrent enrollment.

**Course Outcomes**

- Use the bright field microscope to view and interpret microbiological specimens
- Use proper aseptic techniques int he handling and transfer of microbiological specimens
- Use standard microbiological media to culture and identify common microbiological specimens
- Use standard microbiology laboratory equipment correctly
- Follow an experimental protocol, collect and organize data, present data in an appropriate form, assess the validity of the data, and draw appropriate comclusions based on the results
- Integrate information and skills gained int eh course to make informed judgements about the role of microorganisms in everyday life
- Use accepted safety protocols when handling microbiological specimens and chemicals

MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: MMBio 240 or concurrent enrollment.
DESCRIPTION: Molecular and cellular biology techniques laboratory.

**Course Outcomes**

- Practice ethics and integrity by working with groups and following lab rules.*Relates to Program Learning Outcome: A commitment to professional integrity and ethical behavior consistent with themission of the university.
- Learn the basics of experimental design, how to formulate a hypothesis, what controls to use, how to interpret experimental data.*Relates to Program Learning Outcome: Devise experiments with appropriate hypothesis and controls.
- Practice scientific communication through written lab questions, exams and oral presentations.*Relates to Program Learning Outcome: Devise experiments with appropriate hypothesis and controls.
- Learn molecular biology laboratory techniques through practical laboratory exercises. Techniques include, spectrophotometry,isolation of DNA and protein, quantification of DNA and protein, techniques used to purify or detect specific proteins, such aschromatography, western blot and ELISA, DNA fingerprinting, polymerase chain reaction and enzyme assays.*Relates to Program Learning Outcome: Knowledge of principles and techniques of molecular and cellular biology.

NDFS 200 : Nutrient Metabolism. (3:3:0)

WHEN Fall; Spring

TAUGHT:
PREREQUISITE: NDFS 100; Organic chemistry or concurrent enrollment.
DESCRIPTION: Chemical structures of nutrients, their food sources, requirements, digestion, absorption, transport, metabolism, functions, storage and excretion; metabolic consequences of nutrient deficiencies, interactions, imbalances, and toxicities.

**Course Outcomes**

- Identify chemical structures of amino acids, lipids, carbohydrates, and vitamins.
- List functions, food sources, and consequences of deficiencies and toxicities for each of the essential nutrients.
- Explain the metabolic and physiological basis for the consequences of dietary practices that affect nutrient levels, and relate the consequences to the roles of essential nutrients in metabolic processes.
- Analyze diets and alter food intake to reach predetermined targets for consumption of specific dietary components or to achieve an overall dietary pattern.
- Find answers to questions and summarize results from original research reported in published peer-reviewed scientific journals.

NDFS 201 : Society, Nutrition, and Chronic Disease. (2:2:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: NDFS 100
DESCRIPTION: Behavioral, dietary, and environmental factors that influence nutrition and risks for chronic disease.

**Course Outcomes**

- Explain or describe how behavioral, dietary, and environmental factors influence nutrition and chronic disease risks.
- Find scientific research articles and identify their key characteristics. Identify consistencies or inconsistencies in studies of diet and chronic disease risks.
- Apply information about behavioral, dietary, and environmental factors to reduce chronic disease risks.

NDFS 305 : Nutritional Implications of Disease. (4:4:0)

WHEN TAUGHT: Winter
PREREQUISITE: NDFS 200 & PDBIO 305
DESCRIPTION: Nutritional assessment and medical nutrition therapy across disease states.
NOTE: For nutritional science majors.

**Course Outcomes**

- Know the basic techniques and parameters used in nutritional assessment
- Identify the consequences of malnutrition and the inflammatory response as they relate to disease progression, disease treatment, cost, and quality of life
- Identify the pathophysiology, risk factors, nutritional assessment, and appropriate nutritional intervention of the following diseases: obesity, heart disease, pressure sores, cancer, diabetes, GI disorders, pulmonary diseases, kidney diseases, dialysis, osteoporosis, and nutritional anemias
- Identify the metabolic differences between starvation and metabolic stress including causes, consequences, and nutritional intervention
- Identify the basic principles of nutritional support including supplementation, tube feedings, and intravenous feedings
- Identify the major nutritional concerns in geriatric populations
- Identify the concept of evidence based practice and know how to find and interpret evidence based practice statements on the role of nutrition in the prevention and treatment of various conditions

NDFS 310 : Nutrition and Metabolism in Sports and Exercise. (2:2:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: NDFS 100 & PDBIO 305
DESCRIPTION: Scientific basis for the role of nutrition in human performance. Critical evaluation of popular practices; making optimal food choices for physical activity.
NOTE: This course was formerly named Sports Nutrition.

**Course Outcomes**

- Students will apply their current understanding of nutrition to aspects of physical performance. Describe the factors (exercise intensity, duration, substrate availability and endocrine) that affect energy utilization.
- Search, interpret, and summarize original scientific information. Evaluate nutritional claims for scientific accuracy.
- Apply evidence-based nutrition recommendations for sports and exercise in real or hypthetical situations.

PDBIO 320 : Dissection Techniques in Human Anatomy. (1:0:3)

WHEN TAUGHT: Contact Department.
PREREQUISITE: PDBIO 220
DESCRIPTION: Techniques of human cadaver dissection.

**Course Outcomes**

- Students will demonstrate they understand the composition of the human body through successfully completing various dissection assignments on human cadavers.
- Students will manifest an increases preparation at both a spiritual and secular level, for professional training in the field of human health.

PDBIO 325 : Tissue Biology (with lab). (3:2:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: PDBIO 120 & PDBIO 220

DESCRIPTION: Human anatomy and histology; function of cells in tissue; early stages of embryology.

NOTE: Course should be taken during a student's second or third year and before courses in physiology and developmental biology.

**Course Outcomes**

- Students will be able to communicate with health professionals effectively regarding tissue/organ anatomy and physiology in instances of health and disease.
- Students will demonstrate how the relationship between cell organization and cell function correlates with normal and pathological organ behavior.
- Students will be able to describe anatomical and physiological characteristics of epithelial, connective, nervous, and muscular tissue.

PDBIO 360 : Cell Biology. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: MMBIO 240; or CHEM 481M; or CHEM 481

DESCRIPTION: Fundamentals of cell structure and function with reference to analytical methods used by cell biologists. Practice in designing, executing, and interpreting relative experiments.

**Course Outcomes**

- Students will demonstrate knowledge of the molecular architecture of the nucleus, including the nuclear envelope, nucleoplasm and nucleolus, chromatin, and the nuclear pore.
- Students will demonstrate an understanding of protein transport, including nuclear import and export and vesicular transport through the secretory and sorting pathways.
- Students will demonstrate knowledge of the molecular and cellular structure and dynamics of cytoskeletal systems.
- Students will be able to apply the basic cell biological principles in outcomes 1-3 to more complicated cellular processes, including cell adhesion, cell migration, cell polarity, cell division, cancer, and development.
- Students will demonstrate the ability to generate hypothesis about how cell biological systems work at the molecular level and design experiments that test that hypothesis.
- Students will demonstrate competence in interpreting original raw data from cell biology experiments, including microscopy, protein biochemistry, molecular biology, and genetics strategies
- Students will demonstrate the ability to critically evaluate primary cell biology literature, including the ability to evaluate the design and interpretation of experimental data.

PDBIO 365 : Pathophysiology. (4:4:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 305; or PDBIO 362

DESCRIPTION: Variations in physiological mechanisms that account for development of common disturbances in normal control and activities of body's organs and organ systems.

**Course Outcomes**

- Students will exhibit an integrative understanding of the biochemistry, molecular biology, genetics, cell biology, microbiology, environmental biology, and physiology related to the prevention, development, and treatment of common diseases.
- Students will demonstrate through case study analysis a command of problem solving skills related to the diagnosis and treatment of pathophysiological conditions.
- Pupils will manifest a command of the physiology and pathophysiological vocabulary necessary to effectively communicate with other biomedical professionals and the general public.
- Students will be able to articulate the ethical issues related to the treatment and prevention of pathophysiological conditions.
- Students will manifest an increase in their respect for the human body and adopt a life style consistent with this respect.

PDBIO 484 : Human Embryology. (3:3:0)

WHEN TAUGHT: Fall

PREREQUISITE: PDBio 360 or equivalent.

RECOMMENDED: PDBio 325.

DESCRIPTION: Developmental milestones of prenatal life: etiology of congenital malformations, emphasizing molecular and cellular changes and their functional consequences.

**Course Outcomes**

- Students will identify the developmental trajectories of the various organ systems and why abnormalities at any step in the lineage of organogenesis may cause birth defects.
- Students will be able to communicate with health professionals effectively regarding embryonic events from conception to birth and the ramifications of each event in instances of health and disease.
- Students will demonstrate how signaling between participating cells leads to important events during the first, second, third, and fourth weeks of development.

PDBIO 561 : Physiology of Drug Mechanisms. (3:2:3)

WHEN TAUGHT: Fall

PREREQUISITE: PDBIO 362

DESCRIPTION: Overview of physiological and pharmacological mechanisms and principles of human therapeutics as applied to clinically significant pathophysiology.

**Course Outcomes**

- Students will manifest an interactive understanding of drug mechanisms at the molecular, cellular, tissue, organ, and/or systemic levels.
- Students will demonstrate that they understand the cellular pathways targeted for pharmacological treatment.
- Pupils will demonstrate a comprehension of how the body interacts with compounds used for pharmacological treatments.
- Students will manifest the knowledge, skills and vocabulary necessary to converse with health care providers concerning their own and family's medical treatments.

PDBIO 565 : Endocrinology. (3:3:0)

WHEN TAUGHT: Winter

PREREQUISITE: PDBio 362 or instructor's consent.

DESCRIPTION: Mammalian hormones.

**Course Outcomes**

- Students will be able to describe major actions of each hormone on target cells.
- Students will be able to describe pathways for synthesis, post-translational processing, and cellular localization or secretion for peptide hormones and hormone receptors.
- Students will be able to describe pathways for synthesis and inactivation for steroid hormones, thyroid hormones, and catecholamines.
- Students will be able to describe the control of synthesis and secretion for each hormone, including feedback relationships.
- Students will be able to describe major signaling pathways in target cells for each hormone.
- Students will be able to describe methodologies used to test hypotheses in study of problems in endocrinology.
- Students will be able to describe and recognize etiology and clinical symptoms of the major endocrine diseases

PSYCH 111 : Introduction to Psychological Science. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Basic course in modern scientific psychology.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Objective: Apply psychological principles to personal and social issues and problems.Measurement:Examinations, quizzes, comprehensive final examination that includes questions common to all Psychology 111 sections, response papers to essays written by practicing research psychologists or term paper.
- Objective: Demonstrate a broad knowledge of the basic theoretical perspectives that guide psychological inquiry.Measurement: Examinations, quizzes, comprehensive final examination that includes questions common to all Pyychology 111 sections.
- Objective: Understand the basic research methods used in psychology, including classical and current experiments.Measurement: Examinations, quizzes, comprehensive final examination that includes questions common to all Psychology 111 sections, response papers to essays written by practicing research psychologists or term paper, participation as a subject in actual psychological research.

PSYCH 220 : Human Development: Life Span. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Interaction of psychological, biological, and social influences on behavior and psychological development through the life span.

**Course Outcomes**

- Students will understand and remember the basic developments that occur across the lifespan, the basic patterns of thought, emotion, and behavior characteristic of individuals at each stage of the lifespan, and the important individual and contextual influences on human development.Measurement: Multiple choice and short essay questions.
- Students will understand the key concepts and theories that are predominant in the literature on human development.Measurement: Multiple choice and short essay questions.
- Students will be able to more effectively communicate verbally and in writing about human development.Measurement: Research papers.
- Students will be able to analyze and critically evaluate ideas, arguments, and points of view about human development.Measurement: Research papers.
- Students will be able to apply knowledge of human development to addressing real-world issues.Measurement: Short writing assignments and in-class activities.

PSYCH 342 : Abnormal Psychology. (3:3:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Dynamics of maladjustment; major psychological disorders and therapeutic procedures. Fieldwork required.

NOTE: Contains content featured in the Graduate Record Examination (GRE).

**Course Outcomes**

- Students will identify and describe the major forms of psychological disorders and the major theories regarding the classification, etiology, and treatment of psychological disorders,and current data relevant to such theories.Measurement: Multiple choice, short answer and essay exams; short writing assignments.
- Students will engage in service learning by serving persons diagnosed with psychological

disorders.Measurement: Participation assessment/field work report
- Students will critically examine key concepts and theories in abnormal psychology.Measurement: Essay exams, short writing assignments, in-class debates
- Students will examine and critique a topic in abnormal psychology using the current research literature.Measurement: APA style paper

PWS 340 : Genetics. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: MMBIO 240; or CHEM 481M; or CHEM 481

DESCRIPTION: Genetic mechanisms, their fundamental nature, interactions, and applications to human affairs. Genetics in quantitative terms. Extensive practice in problem solving.

**Course Outcomes**

- Students can construct two- and three-point linkage maps.
- Students can display fluency in interpreting gene annotation and nomenclature in GenBank records.
- Students can demonstrate ability to analyze and apply Chi-square goodness-of-fit tests to complex geneticdata sets involving segregation and Hardy-Weinberg equilibrium models.
- Students can identify differences between extranuclear, autosomal and sex-linked inheritance patterns.
- Students can use genetic data (DNA or amino acid sequence) to reconstruct basic evolutionary phylogenies.
- Students can dissect quantitative traits into environmental and genetic variance components.

SOC 111 : Introductory Sociology. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Social group influence; social interaction, processes, organization, and change; family, religion, government, population, culture, race relations.

**Course Outcomes**

There are no course outcomes available

SOC 112 : Current Social Problems. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Individual deviance (violence, insanity, drugs, sex, crime, etc.) and social disorganization (poverty, race and sex discrimination, divorce, overpopulation, etc.). Conditions, causes, solutions.

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

There are no course outcomes available

: Honors Current Social Problems.

**Course Outcomes**

STAT 121 : Principles of Statistics. (3:3:1)

OFFERED: Independent Study also; Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

RECOMMENDED: MATH 110 or equivalent.

DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, simple linear regression.

**Course Outcomes**

- Differentiate between observational studies and experiments
- Identify three sampling designs: simple random sample, stratified, and multi-stage
- Identify three designs of experiments: completely randomized, randomized block and matched-pairs
- Interpret and make appropriate conclusions from plots of data
- Calculate and interpret measures of center and spread
- Determine potential association between two quantitative and two categorical variables
- Communicate using technical language about probability and variation
- Interpret and communicate the outcomes of estimation and hypothesis tests in the context of a problem
- Understand the importance of data collection and how it dictates the appropriate statistical method and acceptable inference
- Determine the appropriate statistical procedure to use for a given research problem or data set

: Honors Principles of Statistics.

**Course Outcomes**

STDEV 170 : Introduction to Health Professions. (1:1:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Overview of health professions: medical, dental, and other specialties. Primary focus on guest

lectures from various practitioners and clinicians.

**Course Outcomes**

- 1. Students will gain a basic understanding of a significant number of health professions.
- 2. Students will increase knowledge of health professions through class presentations with health care professionals.
- 3. Students will learn more about health care provision through service learning in preparation for service-oriented health professions.
- 4. Students will increase awareness of the requirements to enter various health professions and where to find additional information about their preferred health care field.

STDEV 399R : Health Professions Internship. (1-3:Arr:Arr)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Internships with health care providers.

**Course Outcomes**

- Students will gain valuable experience by shadowing and working with current health professionals.
- Students will improve their ability to converse with health care professionals.
- Students will learn about different healthcare practices.
- Students will develop meaningful professional relationships with their internship providers.

**Note:** Watch prerequisites for the elective courses.

**Notes:** Professional schools and graduate programs may require additional courses not required for this major. Contact the programs to which you may apply to determine specific courses that meet their entrance requirements. Students considering professional or graduate degrees should take at least two semesters of mathematical courses. The following required or elective courses are strongly recommended for students considering professional or graduate degrees in the exercise sciences: MMBio 241; PDBio 360, 362, 363; Chem 351, 352, 353, 481; Math 119; Stat 121. For more information contact the Preprofessional Advisement Center, 3328 WSC, (801) 422-3044. Contact potential schools of choice for a complete list of entrance requirements.

*Hours include courses that may fulfill university core requirements.

## Undergraduate Courses

### 200-Level Courses

EXSC 221 : Science of Wellness. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: A comprehensive study of the science of wellness of the whole individual. The science of wellness draws principles from exercise sciences, biological sciences, behavioral and social sciences. The research from psychoneuroimmunology (PNI) supports specifically the holistic wellness paradigm whose focus is that every aspect of each human being, the body, mind and spirit, are involved in all wellness activities and all wellness activities affect the whole individual. Students will discover this new paradigm and experience the blending of the sciences to support the integrated nature of our being.

**Course Outcomes**

There are no course outcomes available

### 300-Level Courses

EXSC 302 : Philosophical and Ethical Issues in Exercise Sciences. (1:1:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Philosophical and ethical issues common to exercise sciences majors. Concept of mind, body, spirit.

**Course Outcomes**

- Learn contemporary tenets of philosophy that will serve as a basis for understanding important ideas in our own cultural tradition as well as that of others.
- Comprehend philosophical worldviews to facilitate respectful relationships with others.
- Pursue truth, think clearly and communicate effectively one's own beliefs and values; deepen one's understanding of the nature of being.
- Comprehend and apply the truths of the gospel of Jesus Christ. Reflect devout love of God and a loving, genuine concern for the welfare of others in the learning environment.
- Acquire/reinforce a profound respect for the divine nature of one's own life, a reverence for one's value, the purpose of one's life and a desire to live a healthy lifestyle.
- Articulate one's valuing of the entire self, bodymindspirit, with particular focus on the meaning and importance of the physical body.
- Strengthen the formulation of own personal and professional philosophy establishing clear standards of integrity. Improve the communication of one's beliefs, written and verbal.
- Analyze contemporary issues from an ethical standpoint. Demonstrate own professional ethical behavior, think critically and take an informed position on an issue.

EXSC 320 : Basic Athletic Training. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 220; Some majors require concurrent enrollment in ExSc 321. Check MAP requirements for major.

DESCRIPTION: Recognition, evaluation, and care of athletic injuries. Techniques in taping, preventing, and rehabilitating injuries.

**Course Outcomes**

- Review general responsibilities, roles, and tasks of athletic trainers, physical therapists, and otherallied health professionals involved in sports medicine.
- Learn assessment, first aid, and treatments for common musculoskeletal injuries.
- Examine methods of injury prevention including conditioning principles, environmental hazards,and protective equipment.
- Learn and utilize resources available to sports medicine professionals.
- Apply knowledge to practical situations.

EXSC 321 : Basic Athletic Training Lab. (.5:0:.5)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Concurrent enrollment in ExSc 320.

NOTE: Fee.

**Course Outcomes**

- Demonstrate competency and proficiency in taping the ankle, foot, lower leg, knee, thigh/hip,shoulder, elbow, wrist, thumb, and finger joints.
- Demonstrate competency and proficiency in wrapping the ankle, foot, lower leg, thigh/hip,shoulder, elbow, wrist, thumb, and finger joints.
- Demonstrate competency and profiency in wound care management.
- Demonstrate competency and profiency in injury evaluation.
- Demonstrate competency and profiency in injury treatment management.
- Demonstrate competency and profiency in spineboarding and splinting.

EXSC 349 : Body, Mind, Spirit. (3:3:0)

OFFERED: Independent Study only. Honors also.

DESCRIPTION: Sacredness of the body and its meaningfulness to the whole being. Comparative approach utilizing ideas from the restored gospel and Western and Eastern philosophy (nature of being).

**Course Outcomes**

There are no course outcomes available

: Honors Body, Mind, Spirit.

**Course Outcomes**

EXSC 362 : Kinesiology and Biomechanics. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Math 110 or higher.

RECOMMENDED: Phscs 105 or 121; PDBio 220.

**Course Outcomes**

- Demonstrate application of physical laws to human performance.
- Calculate kinematics of human motion.
- Show comprehension of projectile motion equations.
- Determine changes of motion due to forces.
- Demonstrate understanding of how fluids generate force.

EXSC 365 : Scientific Bases of Sport: Kinesiology. (2:2:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Kinesiology and biomechanics for physical education/coaching minor.

**Course Outcomes**

- Students will demonstrate how to apply physical laws to human performance. Included physical laws deal with: Linear motion, projectile motion, forces, impulse and momentum, fluid mechanics, and tissue mechanics.

EXSC 366 : Scientific Bases of Sport: Exercise Physiology. (2.5:2:0)

WHEN TAUGHT: Winter

RECOMMENDED: PDBio 305.

DESCRIPTION: Physiology of activity for physical education teaching students.

**Course Outcomes**

There are no course outcomes available

EXSC 385 : Personal Training Strategies. (3:3:0)

WHEN TAUGHT: Fall; Winter

RECOMMENDED: PDBio 220.

DESCRIPTION: The art and science of personal fitness training for healthy adults, utilizing safe and effective techniques to develop and maintain optimal functional fitness (proper posture, balance, joint mobility, and stability), and optimal physical fitness (cardiorespiratory endurance, flexibility, muscular strength, and power).

**Course Outcomes**

- Explain and apply the essential concepts and principles of human movement science, anatomy, exercise physiology; biomechanics, motor learning; functional fitness assessment; stability training, mobility training, core training, balance training, reactive training, resistance training, cardiorespiratory training; exercise programming; nutrition and weight management; safety and injury prevention in an understandable and accurate way
- Prepare to certify as a Certified Personal Trainer (CPT) through the National Academy of Sports Medicine (NASM)

EXSC 387 : Lifestyle and Chronic Disease Prevention. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Current scientific evidence demonstrating how lifestyle affects disease processes. Healthy lifestyle concepts specifically needed by wellness professionals, health educators, and health promotion practitioners; influence of unhealthy lifestyle as basis for chronic diseases, i.e., cardiovascular disease, cancer, and diabetes.

**Course Outcomes**

- Develop an awareness of what constitutes a healthy lifestyle
- Understand the use and interpretation of statistical techniques used in scientific papers on health and lifestyle
- Become familiar with the scientific literature that supports healthy living

- Gain knowledge needed to help others adopt and maintain a healthy lifestyle

EXSC 390 : Advanced Musculoskeletal Human Anatomy (includes lab). (4:3:2)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 220; Majors Only

RECOMMENDED: ExSc 362 or equivalent.

DESCRIPTION: Advanced examination of structure and function of skeletal, articular, muscular, and peripheral nervous systems with clinical applications; cadaver lab included.

**Course Outcomes**

- Upon completion of this class students will be able to accomplish the following:Be familiar with the anatomical terms and their meanings for the human skeletal, peripheral nervous, articular, and muscular systems in relation to movement and orthopaedics.
- Identify and discuss the structures, functions and inter-relationships of the human skeletal, peripheral nervous, articular, and muscular systems with respect to movement.

EXSC 394 : Athletic Training Clinical Education 1. (2:1:5)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Athletic training major status.

DESCRIPTION: Classroom and field experience. Orientation to athletic training program and clinical expectations. Modules include emergency care, taping skills, and basic modalities.

**Course Outcomes**

- After completing this course, the student will be able to understand the administrative roles and policies of various health care organizations including:a. CAATEb. NATAc. BOC
- Demonstrate the skills necessary for accurate record keeping including SOAP notes and correct documentation of HOPS
- Understand purchasing policies for supplies
- Correctly devise and implement emergency action plans
- Demonstrate the necessary skills for care of emergency conditions
- Demonstrate care and necessary skills for treating open wounds
- 1. Demonstrate correct use, including indications and contraindications for therapeutic modalities including:a. Hot Packsb. Ultrasoundc. Cryotherapyd. Electrical stimulation
- 1. Demonstrate correct evaluation techniques of lower extremities including:a. Footb. Anklec. Lower Legd. Kneee. Hip

EXSC 395 : Athletic Training Clinical Education 2. (2:1:5)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 394

DESCRIPTION: Classroom and field experience. Modules include taping skills, assessment, and modalities.

**Course Outcomes**

- Demonstrate rehabilitation skills, including aquatic therapy, joint mobilizations, proprioception, neuromuscular control, and agility exercises.
- Demonstrate competency and clinical proficiency in taping and bracing.
- Demonstrate the skills necessary to properly evaluate and care for upper extremity injuries including shoulder, elbow, forearm, wrist, hand, head and face, and thorax and abdomen.
- Demonstrate the use of the following rehabilitation tools: Alter G machine and Rebounder

EXSC 399R : Exercise and Wellness Internship. (.5-9:0:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Internship coordinator's consent.

DESCRIPTION: On-the-job experience for exercise and wellness majors.

**Course Outcomes**

- Gain work-related experience through one or more internship experiences
- Apply, in a work-related setting, the skills and abilities attained through required course work in the Exercise and Wellness major

### 400-Level Courses

EXSC 410 : Stress Management. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Teaches students the basic principles, theories, and relaxation techniques to effectively manage personal stress. Students gain a greater understanding of the mind-body relationship, learn to employ a holistic approach to stress, and adopt effective cognitive, coping, and relaxation techniques. Ultimately, students experience a more effective approach to optimal lifelong health.

**Course Outcomes**

- Master the basic understanding of the physiological mechanisms responsible for the fight-or-flight response and subsequent manifestations of various symptoms of target organ dysfunctions. Be able to apply this understanding to stress management and disease prevention.
- Understand and discuss the holistic nature (mind-body-spirit) of stress management and comprehend the mind-body connection of the stress and disease process.
- Be able to recognize potential stressors and develop strategies to prevent (or reduce the magnitude) these stressors from eliciting a stress response.

Be able to develop strategies to reduce daily stressors.
- Understand the principles behind the various relaxation techniques and be able to apply these techniques to managing stress.

EXSC 414 : Advanced Athletic Training Lab. (1:0:2)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Athletic training major status.

DESCRIPTION: Advanced athletic training skills, including taping, bracing and splinting, custom-fitted equipment, massage and stretching techniques, and emergency splinting and transport.

**Course Outcomes**

- At the end of this course, the student will demonstrate competency in each of the following CAATE competencies:Select and fit appropriate standard protective equipment on the patient for safe participation in sport and/or physical activity. This includes but is not limited to: Shoulder Pads, Helmet/Headgear, Footwear, Mouthguard, Prophylactic Knee Brace, Prophylactic Ankle Brace, Other Equipment (as appropriate)
- Select, fabricate, and apply appropriate preventive taping and wrapping procedures, splints, braces, and other special protective devices. Procedures and devices should be consistent with sound anatomical and biomechanical principles.
- Obtain, interpret, and make decisions regarding environmental data. This includes, but is not limited to the ability to:RM-P6.2. Formulate and implement a comprehensive, proactive emergency action plan specific to lightening safety
- Apply commonly used special tests and instruments (e.g., otoscope, stethoscope, ophthalmoscope, peak flowmeter, chemical “dipsticks” [or similar devices]) and document the results for the assessment of: Vital signs including respiration (including asthma), pulse and circulation, and blood pressure
- Implement appropriate emergency treatment strategies, including but not limited to:AC-P3c Establish and maintain an airway in a patient wearing shoulder pads, headgear or other protective equipment and/or with a suspected spine injury
- Instruct the patient in proper techniques of commonly prescribed therapeutic exercises.
- Develop risk management plans, including facility design, for safe and efficient health care facilities.
- Develop a risk management plan that addresses issues of liability reduction; security, fire, and facility hazards; electrical and equipment safety; and emergency preparedness.
- Develop policy and write procedures to guide the intended operation of athletic training services within a health care facility.

EXSC 415 : Therapeutic Modalities. (3:2:2)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Athletic training major status.

DESCRIPTION: Hydrotherapy, massage, traction, radiant energy, heat, cold, and electrotherapy.

**Course Outcomes**

- The student will demonstratethe ability to properly select the appropriateparameters, prepare, and apply a(n):a.cold whirlpool treatmentb.controlled cold therapy unitc.ice bagd.vapo-coolant spraye.ice immersionf.ice massageg.contrast bathh.cryokinetics
- The student will demonstratethe ability to properly select appropriateparameters, prepare, and apply a(n):a.moist heat packb.paraffin treatmentc.warm whirlpool treatmentd.fluidotherapye.diathermyf.infrared
- The student will demonstratethe ability to properly select appropriateparameters, prepare, and apply a(n):a.sensory-level pain control treatmentb.noxious-level pain control treatmentc.motor-level pain control treatmentd.muscle re-education treatmente.muscle pumping treatmentf.acute edema treatmentg.chronic edema treatmenth.muscle spasm treatmenti.muscle splinting treatmentj.muscle atrophy retardation treatmentk.iontophoresis treatmentl.MENS treatment
- The student will demonstrate proficiency in thesetup and application of the following types ofelectrical stimulation units:a.Monophasic stimulator (e.g., high voltstimulation)b.Biphasic stimulator (e.g., TENS, NMES)c.Direct current (e.g., iontophoresis)d.Alternating current (e.g., interferential,NMES)
- The student will demonstrate theability to properly select appropriateparameters, prepare, and apply a:a.thermal direct/indirect ultrasound treatmentb.non-thermal direct/indirect ultrasoundtreatmentc.combination electric-stimulation/ultrasoundtreatmentd.phonophoresis treatment
- The student will demonstrate theability to properly select appropriateparameters, prepare, and apply:a.mechanical tractionb.manual tractionc.positional traction
- The student willdemonstrate the ability to properly selectappropriate parameters, prepare, and applyintermittent compression.
- The student will demonstrate theability to prepare and apply a massagetreatment.The student will demonstrate the ability toproperly perform massage strokes.a.effleurageb.petrissagec.frictiond.tapotemente.vibration

EXSC 416 : Injury Evaluation: Lower Extremities. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Athletic training major status.

DESCRIPTION: Basic principles of injury evaluation; evaluation techniques specific to lower-extremity injuries.

**Course Outcomes**

- Instruct the patient how to properly perform fitness tests to assess his or her physical status and readiness for physical activity. Interpret the results of these tests according to requirements established by appropriate governing agencies and/or a physician. These tests should assess: Muscular Endurance, Agility, Speed.
- Develop a fitness program appropriate to the patient’s needs and selected activity or activities that meet the requirements established by the appropriate governing agency and/or physician for enhancing: Cardiovascular Endurance, Speed
- Perform inspection/observation of the clinical signs associated with common injuries including deformity, posturing and guarding, edema/swelling, hemarthrosis, and discoloration.Palpate the bones and soft tissues to determine normal or pathological characteristics.Measure the active and passive joint range of motion using commonly accepted techniques, including the use of a goniometer and inclinometer.Grade the resisted joint range of motion/manual muscle testing and break tests.Apply appropriate stress tests for ligamentous or capsular stability, soft tissue and muscle, and fractures.Apply appropriate special tests for injuries to the specific areas of the body as listed above.Assess neurological status, including cranial nerve function, myotomes, dermatomes and reflexes, and circulatory status. Document the results of the assessment including the diagnosis.

- Obtain a medical history of the patient that includes a previous history and a history of the present condition. Perform a visual observation of the clinical signs associated with common injuries and/or illnesses including deformity, edema/swelling, discoloration, and skin abnormalities.Palpate the bones and soft tissues, including the abdomen, to determine normal or pathological characteristics.

EXSC 417 : Injury Evaluation: Upper Extremities and Trunk. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 416

DESCRIPTION: Injury evaluation techniques specific to the upper extremities and trunk.

**Course Outcomes**

- Upon completion of this course, the student will understand and be able to explain and/ordemonstrate by performance on an exam:1. Mechanisms of common injuries in various sports.
- Basic principles of evaluation and diagnostic terminology.
- Signs and symptoms of upper extremity injuries.
- Specific steps in injury evaluation.
- Evaluation techniques, including special tests, used to identify and assess degree ofdisability of the upper extremity.
- Proficiency in performing manual muscle testing of the upper extremity.
- Proficiency in performing girth and goniometric measurements of the upperextremity.
- Basic on-the-field/off-the-field injury management.

EXSC 418 : Rehabilitation of Orthopedic Injuries. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 415

DESCRIPTION: Basic principles, techniques, and progression of orthopedic/musculoskeletal rehabilitation.

**Course Outcomes**

- 1. Understand tissue healing and how therapeutic exercise affects tissue healing.
- 2. Understand the concept of functional progression and how it guides individual rehabilitation protocols. Rehabilitation is not a recipe that fits all people.
- 3. Apply and understand therapeutic exercise, range of motion, and manual therapy techniques to enhance the goals within a rehabilitation plan for athletic injury.
- 4. Synthesize the different goals of rehabilitation to be combined for any injury and condition to return the patient to full activity.

EXSC 419 : Medical Issues in Athletic Training. (1:1:0)

WHEN TAUGHT: Winter

PREREQUISITE: ExSc 417 or concurrent enrollment.

DESCRIPTION: Discussion of current medical issues in athletic training with guest lectures by medical specialists.

**Course Outcomes**

- Advanced seminar type class for exposure to a variety of medical conditions, given from MD's point of view.
- Learn a medical doctor's approach to illnesses which athletes commonly experience.
- Integrate the athletic trainer's responsibility as it pertains to a team approach with the physician.

EXSC 423 : Administration of Athletic Training Programs. (2:2:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 415

DESCRIPTION: Management and administration of athletic training facilities and staff members.

**Course Outcomes**

- Explain the importance of planning, coordinating, and supervising in the administration of an athletic training room/program.
- Explain various budgeting systems and develop budgets for high school and collegiate athletic training programs.
- Design athletic training facilities to meet specific needs.
- Explain the significance of state regulation for the athletic training profession and its relationship to 3rd party reimbursement.
- Explain the impact that insurance and 3rd party reimbursement has on athletic training.
- Be able to develop emergency plans for athletic training settings.
- Explain the elements of negligence and to understand legal issues facing athletic trainers, as well as the role of risk management.
- Explain how to efficiently and effectively organize pre-participation exams.
- Explain key concepts in personnel management, including communication, motivation, evaluations, etc.
- Explain the role of technology and information management in athletic training settings.
- Develop and incorporate individual leadership skills; as well as increase personal awareness, gain self-confidence, and foster cohesive and caring relationships.

EXSC 455 : Worksite Health Promotion. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 387 & EXSC 463

DESCRIPTION: Managing, designing, marketing, implementing, assessing, and administering health promotion programs in a worksite setting.

**Course Outcomes**

- Be able to demonstrate an understanding of the health promotion concept, historical background of worksite health promotion programs, and the rationale for companies to provide a health promotion program. This

objective will be accomplished through class lecture/discussion and students will be evaluated through quizzes and exams.
- Better understand each of the following components in the design and execution of a worksite health promotion program: determining needs and interests of employers and employees, writing vision/mission/goal statements best practices, creating a company culture of wellness, launching a program, incentives/rewards, and company wellness policies. This will be accomplished through lectures and a semester project.
- Increase their understanding of effective health assessments and how to interpret the assessments. This will be accomplished through lectures and evaluated through quizzes and exams.
- Increase their understanding of how to effectively evaluate programs. This will be accomplished through lectures and evaluated through quizzes and exams.
- Be able to demonstrate the essential elements of common worksite health promotion programs, such as, physical activity, nutrition, weight management, medical self-care, stress management, substance abuse/tobacco control, and back care programs. This will be accomplished through lectures and class presentations.
- Gain practical experience and learning from experts in the field. This will be accomplished through the following: 1) each student will critique an existing worksite wellness program and present their findings to the class, 2) approximately 5 class periods will be devoted to studying transcripts of various interviews with experts in the field, and 3) 5 class periods will include visiting lecturers who are currently working in the field.
- Develop a worksite health promotion program through a semester class project.
- Have the opportunity to work in conjunction with a team to develop a health display to be presented to the class.

EXSC 460 : Orthopaedic Impairments and Therapeutic Exercise. (3:3:2)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 220 & EXSC 390

DESCRIPTION: Fundamentals of body mechanics and therapeutic exercise, coupled with kinesiological principles for detection and correction of basic neuromusculoskeletal anomalies.

**Course Outcomes**

- Upon completion of this class students will be able to accomplish the following:Demonstrate an understanding of basic orthopedic terminology dealing with posture, movement and pathology.
- Demonstrate an understanding of traditional, osteokinematic and arthrokinematic movement
- Demonstrate an understanding of therapeutic exercise particularly active-resistive exercise and manual muscle testing and manual passive exercise and stretching.
- Be able to perform a postural evaluation, both grossly and at individual joints
- Demonstrate an understanding of the etiology, clinical significance and treatment of congenital and acquired orthopedic impairments of the upper and lower extremities and trunk.
- Where applicable, be able to write a therapeutic exercise program for the orthopedic impairments discussed in class.
- Demonstrate an understanding of normal and pathologic gait.

EXSC 463 : Exercise Physiology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: PDBIO 305; or PDBIO 362

RECOMMENDED: Concurrent enrollment in ExSc 464.

DESCRIPTION: The function of the physiological systems and their responses to acute and chronic exercise.

**Course Outcomes**

- Describe the substrates used, amount and rate of ATP resynthesized, metabolic end products, and control of anaerobic and aerobic metabolic pathways.
- Describe the responses to acute bouts of exercise and the mechanisms of the observed response, and the physiological adaptations which occur as a result of physical conditioning.
- Describe the physiological rationale for applying the eight principles of physical conditioning to improve health, fitness, and performance.
- Describe the depolarization of skeletal muscle beginning at the spinal cord and ending with the contraction of the muscle fiber.
- Describe the transportation and diffusion of O2and CO2 through the pulmonary and systemic circuits at rest and during exercise.
- Describe the anatomical, physiological, and functional differences between the three types of huma skeletal muscle fibers.
- Describe the interaction of the nervous, muscle, cardiovascular, pulmonary, and metabolic systems at rest and during exercise.
- Describe the normal anatomy and physiology of the heart, blood, and blood vessels; describe the normal function of the cardiovascular system at rest and during exercise.
- Describe how the human body functions and maintain homeostasis during the increased metabolic demands of exercise.
- Describe the function of sympathetic, parasympathetic, and somatic motor neurons, including differences in structure, neurotransmitters, receptors and efferent organs.

EXSC 464 : Exercise Physiology Lab. (.5:0:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: ExSc 463 or concurrent enrollment.

DESCRIPTION: Introduction of laboratory and field methods; applying principles of exercise physiology to assessing physical fitness and physiological responses to exercise.

**Course Outcomes**

- The purpose of this class is to apply knowledge of exercise physiology to the assessment of the fivecomponents of health related physical fitness. The labs are the means to review and apply the physiologyof exercise and to develop and practice fundamental skills related to the assessment of physical fitness.

EXSC 468 : Problems in Exercise Prescription. (2:2:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: EXSC 463
DESCRIPTION: Applying scientific principles to problems in conditioning.

**Course Outcomes**

- At the conclusion of the course, the student will be able to write prescriptions of activity forindividuals of selected levels of age and fitness for the following:A. Endurance1. Speed/Explosive endurance2. Anaerobic endurance3. Aerobic endurance B. Strength1. Beginners2. Athletes3. Body builders C. Nutrition D. Weight Control1. Weight loss2. Weight gain E. Flexibility F. Plyometricssion of the course, the student will be able to write prescriptions of activity forindividuals of selected levels of age and fitness for the followingAt the conclusion of the course, the student will be able to write prescriptions of activity forindividuals of selected levels of age and fitness for the following

EXSC 470 : Functional Neuroanatomy. (3:3:0)
WHEN TAUGHT: Winter
PREREQUISITE: PDBIO 220 & EXSC 390
DESCRIPTION: Function, assessment, and rehabilitation of sensory and motor systems.

**Course Outcomes**

- 1. Describe the functional unit of the nervous system?2. Describe the pathways of three different messenging neurons.3. Explain glia?4. List the 4 regions of the nervous system.5. List the structures make-up the brain stem?6. Identify and label the circle of willis and associated arterial supply7. Explain the composition of white vs. gray matter.8. Describe and identify spinal cord anatomy and explain the DRG (dorsal root ganglion) and ventral rami?9. Describe and draw the gray and white matter in the spinal cord.10. List and identify the cranial nerves attach to the Pons?11. List and identify all cranial nerves and explain which are sensory, motor or mixed. 12. Describe the function of the cerebellum. (see syllabus for expanded list)
- Upon completion of this class students will be able to accomplish the following:Be familiar with the neuroanatomical terms and their meanings for the central nervous system and peripheral nervous system in relation to systems and function.Be familiar with terminology of specific diseases and dysfunctions in relation to signs/symptoms and classic descriptionsBe familiar with the terminology of electrophysiologic testing of the peripheral nervous system as it relates to normal and abnormal function.
- Students will be able to identify and discuss the structures, pathways and functions of independent somatosensory and motor tracts as they relate to motor function, coordination, movement and sensory integration.

EXSC 480 : Obesity and Weight Management. (3:3:0)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: ExSc 463 or concurrent enrollment.
DESCRIPTION: Review of the scientific literature surrounding obesity and weight management, primarily the causes and consequences of this growing epidemic.

**Course Outcomes**

- Demonstrate an understanding of the historical framework and prevalence of overweight/obesity in adults and children.
- Understand the etiology and health risks related to overweight/obesity.
- Describe the economic costs and social consequences associated with overweight/obesity.
- Demonstrate an understanding of the principles of energy balance.
- Understand methods of assessing overweight/obesity, body composition, diet, and physical activity.
- Demonstrate an understanding of various methods of treating overweight/obesity including: diet, physical activity, behavioral, pharmacological, and surgical interventions.
- Demonstrate an understanding of pediatric, family and public interventions to prevent or attenuate the rise in obesity.
- Have a personal experience applying weight management strategies.
- These learning objectives will be achieved through class lectures, student projects, scientific readings, and in-class activities. Students will be evaluated through written exams, quizzes and projects.

EXSC 485 : Exercise and Wellness Certification Preparation. (3:3:0)
PREREQUISITE: Senior status.
DESCRIPTION: Review of exercise and wellness certification competencies and curriculum with preparation for professional certification.

**Course Outcomes**

- Explain and apply the essential concepts and principles of pathophysiology; exercise physiology; health appraisal and fitness testing; exercise programming; nutrition and weight management; anatomy and biomechanics; human behavior and psychology; human development and aging; and safety and injury prevention in an understandable and accurate way
- Prepare to certify as a Health and Fitness Specialist (HFS) through the American College of Sports Medicine (ACSM)

EXSC 494 : Athletic Training Clinical Education 3. (2:1:5)
WHEN TAUGHT: Fall; Winter
PREREQUISITE: EXSC 395
DESCRIPTION: Classroom and field experience. Modules include injury assessment and management, rehabilitation skills, and knowledge of general medical conditions.

**Course Outcomes**

- After completing this course, the student will be able to:1. Understand and apply administrative policies and procedures.
- Demonstrate general medical assessment skills.

- Understand how to care for and prevent various general medical (respiratory, cardiac,gastric, genitourinary) pathologies.

EXSC 495 : Athletic Training Clinical Education 4. (2:1:5)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: EXSC 494

DESCRIPTION: Classroom and field experience. Modules include injury assessment and management, rehabilitation skills, nutrition, and dermatology.

**Course Outcomes**

- After completing this course, the student will:1. Demonstrate understanding of pharmacology, pharmacological processes, and the university'smedication policies and procedures.
- Demonstrate knowledge of basic nutrition guidelines for athletes.
- Demonstrate knowledge of eating disorders and disordered eating and possess the ability tointervene with athletes who suffer from such disorders.
- Demonstrate the skills necessary to properly evaluate, care for, rehabilitate, and prevent upper and lower extremity injuries.
- Demonstrate the skills necessary to properly evaluate, care for, and prevent various generalmedical (common syndromes and diseases, dermatology) pathologies. Full evaluation and treatment from on-the-field to return-to-play.

EXSC 496R : Academic Internship: Practicum. (.5-8:0:ARR)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: ExSc 320 and instructor's consent.

DESCRIPTION: Academic and practical application of skills for athletic trainers.

**Course Outcomes**

There are no course outcomes available

: Athletic Training Internship.

**Course Outcomes**

EXSC 497R : Undergraduate Research and Study. (.5-4:0:ARR)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Individual research and study in any area of exercise science.

**Course Outcomes**

- To provide the undergraduate student with a mentored learning experience specifically in exercise science related research

EXSC 498 : Capstone Experience in Athletic Training. (2:2:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Senior standing in athletic training education program.

DESCRIPTION: Synthesizing and integrating student classroom and clinical experiences in preparation for BOC examination resulting in certification of allied health professionals.

NOTE: Course should be taken last semester prior to graduation.

**Course Outcomes**

- Explain, describe and complete the BOC exam registration process.
- Design and follow athletic training content exam preparation schedule.
- Understand the possibilities of practice in AT.
- Explain the significance of BOC certification and state regulation for the athletic training profession.
- Define deficiencies in you athletic training education knowledge and skills.
- Develop and implement emergency plans in the practice of athletic training.
- Explain legal issues facing athletic trainers.
- Explain the role of technology and information management in athletic training settings.
- Understand the requirements to maintain BOC certification.
- BOC Exam Preparation= Professional Practice Preparation
- Have completed all NATA Education Council competencies.

## 500-Level Graduate Courses (available to advanced undergraduates)

EXSC 501 : Sports Medicine Pathology and Pharmacology. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: ExSc 320, PDBio 305; or equivalents.

DESCRIPTION: Sports medicine pathologies and related pharmacology for a variety of sports medicine/allied health care professions.

NOTE: Meets required NATA athletic training educational competencies.

**Course Outcomes**

- After completing this course, the student will:1. Synthesize basic knowledge of human anatomy and physiology to develop knowledge of the causes, pathophysiology, and clinical features of the various conditions affecting the body. Considering you have completed a physiology course you will be required to recall that information
- 6. Understand basic pharmacokinetics and pharmacodynamics principles.

- 8. Describe proper maintenance and documentation of records for the administration of prescription and nonprescription drugs.
- 7. Understand advantages and disadvantages of common routes used to administer medications.
- 2. Analyze relationships between inflammation, repair, regeneration, and healing as they relate to pharmacological intervention.
- 9. Utilize reference sources for pharmacological information.
- 5. Synthesize patient information for prescription and nonprescription agents associated with the treatment and relief of symptoms from illness and injuries.
- 4. Understand clinical use of various prescription and nonprescription agents associated with the treatment and relief of symptoms from illnesses and injuries.
- 3. Evaluate clinico-pathological signs and symptoms for specific medical conditions that assist the sport medicine/allied health care clinician in correlating findings in determining the course of action for illness and disease.
- 11. Identify sources of current banned-drug lists published by various associations.
- 10. Describe basic concepts of organizing and coordinating a drug testing and screening program.

EXSC 560 : Orthopaedic Pathomechanics. (2:2:1)

WHEN TAUGHT: Fall

PREREQUISITE: ExSc 460 or equivalent.

DESCRIPTION: Advanced analysis of neuromusculoskeletal deformities and/or injury. Therapeutic exercise and the use of orthoses.

**Course Outcomes**

- Students will be able to describe the anatomy and movement mechanics of selected joints for class
- Students will be able to demonstrate orthopedic evaluative techniques to evaluate dysfunctional mechanics
- Students will be able to evaluate each each selected joint for pathologic mechanics and movement dysfunction
- Students will be able to differentiate the anatomical structures relating to joint dysfunction through use of specialized manual tests

## Graduate Courses

For 600- and 700-level courses, see the BYU 2014–2015 Graduate Catalog.

## Professors

Draper, David
**COLLEGE:** Life Sciences
**DEPARTMENT:** Exercise Sciences
**RANK:** Professor
**DEGREES:** BS, Utah State University, 1982
MA, Brigham Young University, 1984
EdD, Northern Illinois University, 1988

Hopkins, Jon Tyson
**COLLEGE:** Life Sciences
**DEPARTMENT:** Exercise Sciences
**RANK:** Professor
**DEGREES:** BS, Brigham Young University, 1996
MS, Indiana State University, 1997
PhD, Indiana State University, 2000

Hunter, Iain
**COLLEGE:** Life Sciences
**DEPARTMENT:** Exercise Sciences
**RANK:** Professor
**DEGREES:** BA, Brigham Young University, 1996
MEd, Brigham Young University, 1997
PhD, Oregon State University, 2001

Lockhart, Barbara D.
**COLLEGE:** Life Sciences
**DEPARTMENT:** Exercise Sciences
**RANK:** Professor
**DEGREES:** BS, Michigan State University, 1964
MA, Michigan State University, 1967
EdD, Brigham Young University, 1971

Mack, Gary Wayne
**COLLEGE:** Life Sciences
**DEPARTMENT:** Exercise Sciences
**RANK:** Professor
**DEGREES:** BS, University of California, Davis, 1977
MA, University of California, Davis, 1981
PhD, John A. Burns School of Medicine, 1984

Myrer, Joseph William
**COLLEGE:** Life Sciences
**DEPARTMENT:** Exercise Sciences
**RANK:** Professor
**DEGREES:** BPE, University of Calgary, Canada, 1974
MA, University of Windsor, Canada, 1977
PhD, Brigham Young University, 1983

Parcell, Allen C.
**COLLEGE:** Life Sciences
**DEPARTMENT:** Exercise Sciences
**RANK:** Professor
**DEGREES:** BS, Brigham Young University, 1993
MS, Iowa State University, 1995

PhD, Ball State University, 1998

Tucker, Larry A.

**COLLEGE:** Life Sciences
**DEPARTMENT:** Exercise Sciences
**RANK:** Professor
**DEGREES:** BS, Brigham Young University, 1978
MS, Brigham Young University, 1979
PhD, Southern Illinois University, 1981

## Associate Professors

Bailey, Bruce

**COLLEGE:** Life Sciences
**DEPARTMENT:** Exercise Sciences
**RANK:** Associate Professor
**DEGREES:** BS, Brigham Young University, 1999
MS, Brigham Young University, 2001
PhD, University of Kansas, 2005

Feland, Jeffrey Brent

**COLLEGE:** Life Sciences
**DEPARTMENT:** Exercise Sciences
**RANK:** Associate Professor
**DEGREES:** BS, Brigham Young University, 1993
MSPT, Texas Woman's University, 1995
PhD, Brigham Young University, 1999

George, James David

**COLLEGE:** Life Sciences
**DEPARTMENT:** Exercise Sciences
**RANK:** Associate Professor
**DEGREES:** BS, Brigham Young University, 1984
MA, Brigham Young University, 1986
PhD, Arizona State University, 1995

Hager, Ronald Lee

## Admission to Degree Program

All degree programs in the Department of Health Science are open enrollment. In addition, special limitations apply for teaching majors.

## Graduation Requirements

To receive a BYU bachelor's degree a student must complete, in addition to all requirements for a specific major, the following university requirements:

- The university core, consisting of requirements in general and religious education. (See University Core for details. For a complete listing of courses that meet university core requirements, see the current class schedule.)
- At least 30 credit hours must be earned in residence on the BYU campus in provo as an admitted day student
- A minimum of 120 credit hours
- A cumulative GPA of at least 2.0
- Be in good standing with the Honor Code Office

## Undergraduate Programs and Degrees

**BS in Public Health**
**Environmental/Occupational Health Emphasis** (Program Outcomes)
**Epidemiology Emphasis** (Program Outcomes)
**Health Promotion Emphasis** (Program Outcomes)
**Health Science Emphasis** (Program Outcomes)
**BS in School Health Education** (Program Outcomes)

**Minor in School Health Education**

Students should see their college advisement center for help or information concerning the undergraduate programs.

## Graduate Programs and Degrees

## The Discipline

Public health professionals work to create conditions that ensure the health and safety of individuals, families, and communities. Public health students are trained to inform, educate, and empower people about health issues; mobilize communities to take ownership for their own health; monitor health status and diagnose and investigate health problems and health hazards; develop policies and laws to protect health and ensure safety; and link people to needed health services. The public health mission is carried out through organized, interdisciplinary efforts that address the physical, mental, and environmental health concerns of communities and populations at risk for disease and injury.

Four of several disciplines within public health are represented as emphases within the major: (1) environmental/occupational health identifies and controls factors in the environment (air, water, food, toxins, etc.) or conditions at the workplace which affect health; (2) epidemiology investigates and discovers what causes disease and disability and how diseases are spread or distributed across populations; (3) health promotion facilitates behavior change among individuals and improves population health through policy, advocacy, education, and communication; and (4) health science trains students interested in working in public health after earning an advanced degree in a medical, dental, or other allied health area.

## Career Opportunities

There has never been a better time to pursue a career in public health. It is an exciting and growing field of study and a diverse and dynamic profession. It is filled with rewards associated with the pursuit of serving others. The development and delivery of population-based prevention programs will be the key to major advances in health improvement in the 21st century. Public health will continue to be called upon to monitor and assess health problems, prevent and control diseases and injuries, and protect the health of communities and worksites from various environmental and occupational risks associated with man-made and natural disasters and emergencies.

Public health graduates are qualified to work in governmental health agencies on the local, state, federal, and international levels. Private-sector employment can be found in a variety of businesses, community health agencies, managed care organizations, hospitals, clinics, research institutes, voluntary health agencies, and non-governmental organizations. Opportunities for employment in public health are readily available, however recruiters will not typically come to campus to hire graduates. This means graduates must be organized and proactive in their career planning. Students can increase the likelihood of obtaining a position by balancing classroom activities with voluntary or paid service to public health agencies. Obtaining certifications related to specific tracks within the major and careful development of a professional portfolio enhance employment opportunities.

While there are many specialties or disciplines in public health, most career opportunities are found within the fields represented by the emphases in the major. Entry-level salaries with a bachelor's degree in public health will range from approximately $40,000–$70,000 but will vary significantly depending upon the specific discipline, type of organization, and geographic location.

## Program Requirements | View MAP | View Program Outcomes

1. Complete the following courses:

CHEM 105 : General College Chemistry. (4:5:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.

DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.

NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

**Course Outcomes**

- Students will demonstrate a familiarity with the basic vocabulary and concepts of chemistry.
- Students will demonstrate a qualitative and basic quantitative understanding of the fundamental chemical laws which govern the material substances in our universe and which express how one variable in nature depends on another.
- Students will demonstrate the ability to manipulate quantitative descriptors of natural phenomena expressed both in the form of equations and of proportionalities, and solve chemistry problems using these skills.
- A successful Chemistry 105 students describes chemical phenomenon by first focusing on properties of the elements at the atomic level. Chemistry 105 students will gain a knowledge base of reactivity patterns of elements and compounds.
- Chemistry 105 students will be able to use their chemistry experience, knowledge, and skills to better understand and work in their own field of study.

CHEM 106 : General College Chemistry. (3:4:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: CHEM 105; or CHEM 111

DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.

NOTE: Three lectures and one recitation section per week.

**Course Outcomes**

- Students will demonstrate an expanded mastery of the concepts that were learned in Chemistry 105 including: kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, thermodynamics, organic, biochemistry, and nuclear chemistry.
- Students will demonstrate the ability to solve mathematical problems, typically using algebra, in kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, and thermodynamics.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Chem 106 or Chem 112 or concurrent enrollment.

DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.

NOTE: Required for most students needing one year of general chemistry.

**Course Outcomes**

- Through laboratory experiments, students will demonstrate that they can use precise scientific instrumentation to find quantitative answers to significant problems within the total precision allowed by the equipment.
- Students will demonstrate that they can perform simple experiments, observe the outcomes accurately, then make reasoned, accurate decisions about the meanings of the results.

HLTH 100 : Introduction to Public Health. (1:1:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Introduction to public health professions including exploration of current issues, job opportunities, the essential public health services, and an overview of the public health major.

**Course Outcomes**

- 1. Identify key events in the history of public health that have shaped the current state of the profession
- 2. Describe core public health values
- 3. Identify the ten essential public health services and describe which aspects of the profession hold the most relevance for employment and personal fulfillment
- 4. Delineate how health is defined and measured as well as recognize the impact of social, environmental, and behavioral determinants of health
- 5. Describe the importance of global health and recognize how actions in the US impact the rest of the world and vice versa
- 6. Identify the critical roles and contributions of epidemiology, environmental/occupational health, health promotion, medicine, and allied health within the public health profession
- 7. Determine their interest in the public health degree and identify the types of professional and educational opportunities available to them within public health

HLTH 310 : Chronic Diseases: Prevention and Control. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Pathogenesis, epidemiology of major chronic diseases, health costs to society, at-risk populations, population-based prevention, and related best-practice interventions.

**Course Outcomes**

There are no course outcomes available

HLTH 311 : Infectious Diseases: Prevention and Control. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Human infectious disease risk factors; bacterial, viral, and parasitic agents; pathology, diagnosis, treatment, prevention, and control; communicable, vector-borne, zoonotic, and bioterror diseases of public health.

**Course Outcomes**

There are no course outcomes available

HLTH 322 : Environmental Health. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

RECOMMENDED: HIth 100.

DESCRIPTION: Environmental factors as determinants of human health: ecosystem and population dynamics; biological, chemical, and physical hazards; risk assessment; economic, political, cultural, and genetic factors.

**Course Outcomes**

- Provide a global perspective of environmental issues impacting human health
- Describe the various biological, chemical and physical hazards of the ambient, indoor, and work environment that can adversely affect human health
- Discuss those determinents and factors that affect human health and the health of the environment
- Describe how environmental management practices may contribute to or help control emerging diseases
- Provide an assessment of those national and international health agencies, programs, and other resources that play critical roles in improving human health relative to environmental factors
- Discuss elements of policy making as they influence environmental health issues

HLTH 330 : Principles and Practices of Health Promotion. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

RECOMMENDED: HIth 100.

DESCRIPTION: Introduction to the health promotion profession, emphasizing current issues, professional preparation and employment, as well as the philosophy and foundations of professional practice in various settings.

**Course Outcomes**

- Identify professional opportunities available to health education/health promotion specialists in community, school, worksite, and health care settings.
- Identify the roles and responsibilities for health education/health promotion specialists and opportunities for certifications and advanced study.
- Identify organizations, resources, and professional journals associated with health promotion.
- Provide an overview of theories, models, and initiatives used to guide decision-making in the planning and implementation of health promotion programs and health behavior change.
- Demonstrate awareness and sensitivity of the diverse and unique needs of various age group populations and cultural groups for health promotion.
- Identify techniques for enhancing communication in interactions with clients in health promotion settings.
- Propose health promotion solutions to address health problems among various populations.

HLTH 345 : Principles of Epidemiology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

RECOMMENDED: Stat 121.

DESCRIPTION: Applying analytical tools to study acute and chronic disease to facilitate investigation and control of epidemics.

**Course Outcomes**

- Investigate disease outbreaks.
- Describe basic concepts, definitions, and history of Epidemiology.
- Describe patterns of disease occurrence.
- Interpret Epidemiologic studies.
- Evaluate treatment effectiveness.
- Measure disease frequency and association.
- Distinguish between statistical association and cause-effect relationships.
- Know basic design strategies in Epidemiology.

HLTH 420 : Injury and Violence Prevention. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: HLTH 100

DESCRIPTION: Concepts and interventions related to both unintentional injuries and violence.

**Course Outcomes**

- Describe the impact of injures on health and on society in terms of mortality, morbidity, disability, and cost.
- Define the terms used in the injury prevention field.
- Describe the models used to analyze injuries and determine interventions.
- Select valid sources of injury prevention information.
- Select and recommend proven and effective injury prevention interventions.

HLTH 422 : Disaster Response and Emergency Preparedness. (3:3:0)

WHEN TAUGHT: Fall; Winter

RECOMMENDED: HIth 311, 420.

DESCRIPTION: Key elements of public health preparedness and response to the variety of natural, technological, and man-made disasters occurring routinely on a global basis.

NOTE: Taught only as an evening course.

**Course Outcomes**

There are no course outcomes available

HLTH 424 : Occupational Health and Safety. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: HLTH 100 & HLTH 322

DESCRIPTION: In-depth focus on workplace health and safety through a multidisciplinary approach to the anticipation, recognition, evaluation, and prevention and control of workplace-related illnesses and injuries.

**Course Outcomes**

- Demonstrate competency in using the OSHA standards by identifying specific violations of current

standards.
- Describe the purpose and scope of the Occupational Health and Safety Act as well as other relevant safety and health legislation and consensus standards.
- Discuss and demonstrate the elements involved in completing an accident investigation.
- Explain how the functions of management are utilized to assure safe conditions and practices through the development of specific programs as well as an overall safety and health program.
- Identify, evaluate, and develop loss control strategies to address the hazards associated with operating common manufacturing and construction equipment and processes.

HLTH 426 : Fundamentals of Toxicology. (3:3:0)

WHEN TAUGHT: Fall
PREREQUISITE: Concurrent with Hlth 424.
RECOMMENDED: Chem 106, 107.
NOTE: Examines basic concepts of toxicology as they apply to environmental toxicology. Discusses toxicokinetics of foreign chemical agents on biological systems. Focuses on understanding and prevention of mortality and morbidity resulting from environmental exposure to toxic substances.

**Course Outcomes**

There are no course outcomes available

MATH 110 : College Algebra. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Math 97 or equivalent (see Independent Study).
DESCRIPTION: Functions, polynomials, theory of equations, exponential and logarithmic functions, matrices, systems of linear equations, permutations, combinations, binomial theorem.

**Course Outcomes**

- Graph functions using horizontal and vertical shiftsGraph functions using compressions and stretchesGraph functions using reflections about the x-axis or y-axisForm composite functions and find the domainDetermine the inverse of a function and graph an inverse function from the graph of a function
- This course prepares students to take courses in calculus, statistics, mathematics for elementary education majors, and other areas where algebra skills are required. Fluent skills in algebra are necessary for success in any area that uses mathematical analysis. The mastery of college algebra requires well-developed skills, clear conceptual understanding, and the ability to model phenomena in a variety of settings. College Algebra develops the concepts of graphing functions, polynomial and rational functions, exponential and logarithmic functions, conic sections, solving systems of equations, the binomial theorem, permutations, combinations, and probability. This course contributes to all the expected learning outcomes of the Mathematics BS degree. For more detailed information, visit the Math 110 Wiki page.
- Quadratic functionsPolynomial functionsRational functionsPolynomial and rational inequalitiesThe real zeros of a polynomial functionComplex zeros and the Fundamental Theorem of Algebra
- Exponential functionsLogarithmic functionsProperties of LogarithmsLogarithmic and exponential equationsCompound interestExponential growth and decay
- Graph parabolas, ellipses, and hyperbolasFind the equation of parabolas, ellipses, and hyperbolasDiscuss the equation of conic sections to find vertices, foci, asymptotes, and the directrixWork with conic sections that are not centered at the origin
- Solve systems of linear equations using substitution and eliminationSolve systems of non-linear equations using substitution and eliminationDecompose rational functions using partial fractions
- Find terms in a sequence using a formula and a recursive definitionFind a formula for terms in an arithmetic sequence and be able to add the terms of a finite arithmetic sequenceFind a formula for the terms in a geometric sequence and be able to find the sum of finite and infinite geometric seriesProve statements using mathematical induction
- Work with operations on sets such as union, intersection and complement and count the number of elements in a setCompute permutations and combinationsEvaluate binomial coefficients and expand binomials using the Binomial TheoremCompute probabilities of equally likely outcomes

MMBIO 221 : General Microbiology. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Any biology course.
RECOMMENDED: Any chemistry course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

**Course Outcomes**

- Explain and discuss the ways by which microbiologists study microorganisms.
- Discuss the principle infectious diseases that affect mankind, including how they are transmitted, treated, controlled and prevented.
- Differentiate between the types of microorganisms by identifying relevant structure and their function in the biosphere.
- Propose microbial solutions to global problems.
- Describe how the human body defends itself against infectious agents.

MMBIO 222 : General Microbiology Laboratory. (1:0:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: MMBio 221 or concurrent enrollment.

**Course Outcomes**

- Use the bright field microscope to view and interpret microbiological specimens
- Use proper aseptic techniques int he handling and transfer of microbiological specimens
- Use standard microbiological media to culture and identify common microbiological specimens
- Use standard microbiology laboratory equipment correctly
- Follow an experimental protocol, collect and organize data, present data in an appropriate form, assess the validity of the data, and draw appropriate comclusions based on the results
- Integrate information and skills gained int eh course to make informed judgements about the role of microorganisms in everyday life
- Use accepted safety protocols when handling microbiological specimens and chemicals

2. Complete 12 hours from the following:

CHEM 223 : Quantitative and Qualitative Analysis. (4:2:6)

WHEN TAUGHT: Fall; Spring

PREREQUISITE: CHEM 107; or CHEM 113

DESCRIPTION: Principles of chemical equilibrium, quantitative chemical measurements, and qualitative detection of selected chemical species.

NOTE: Primarily for majors in molecular biology and the life sciences.

**Course Outcomes**

- Course Objectives: The course is designed to develop research skills. The labwork will have a somewhat bioanalytical focus, e.g. the chemical analysis of biological molecules or biologically related ions and the use of biomolecules in assays. We will work to develop good laboratory practice, both conceptually and practically, and consider how to do good science. The combined lecture/lab approach will be used to help you understand quantitative approaches to analysis, sources of error, and the utility but also limitations of laboratory measurements. You will be asked to apply a portion of this knowledge to your own laboratory determinations. We will also discuss more advanced analytical methods involving chemical separations and instrumental analyses. This course fills one of the requirements for a minor in chemistry.

CHEM 285 : Introductory Bio-organic Chemistry. (4:4:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Chem 101 or equivalent.

DESCRIPTION: Principles of organic chemistry and biochemistry relating to biomolecule structure and function.

**Course Outcomes**

- Students will understand the metabolism of carbohydrates, lipids, and proteins in humans. They will be able to describe in structures and words the metabolism of sugars through the pathways of glycolysis, the citric acid cycle, and the electron transport chain.
- Students will understand the structure and reactivity of organic functional groups, such as alcohols, aldehydes, carboxylic acids, and amides. For example, students will learn that aldehydes and ketones typically undergo addition reactions.
- Students will understand the structure and reactivity of the biomolecules that have those functional groups. For example, students will be able to demonstrate that carbohydrates are aldehydes and ketones that undergo addition reactions to form hemiacetals and polysaccharides with acetal linkages.

GEOG 101 : Global Environment: Understanding Physical Geography. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Physical environment, distribution and interrelationships of climates, landforms, ecosystems and their human significance.

**Course Outcomes**

There are no course outcomes available

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

**Course Outcomes**

- Understand basic spatial concepts and data models that form the foundation of GIS.
- Acquire geospatial data from common sources and manipuate them for a specific application.
- Analyze data using GIS to solve real world problems.
- Describe several applications in which GIS is used to solve geographic problems.
- Design and use maps to explore and communicate geospatial information.

GEOG 303 : Biogeography. (3:3:0)

WHEN TAUGHT: Fall

RECOMMENDED: Geog 101.

DESCRIPTION: Broad-scale distribution of plants and animals. Theoretical and practical applications to conservation and effects of global environmental change.

**Course Outcomes**

- Demonstrate an understanding of basic concepts and processes in biogeography
- Recognize and be able to explain patterns of plant and animal life at many different scales
- Explain how humans have affected the distribution and diversity of plants and animals, and apply concepts to decisions regarding human use of the environment

- Demonstrate a knowledge of prominent professional biogeographers and ecologists and their current research themes
- Plan for future changes in species distributions and diversity as a result of environmental and human-induced pressures

HLTH 491R : Mentored Research. (.5-3:Arr.:0)

DESCRIPTION: Collaborate with professors on mentoring grants or other public health-related research and initiatives.

**Course Outcomes**

- Experience at least one subset of research skills while conducting supervised public health research with a faculty member.

(Up to 3 hours)

HLTH 496R : Academic Internship. (.5-9:ARR:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: HLTH 439

DESCRIPTION: Senior capstone experience.

**Course Outcomes**

- Obtain experience, as proctored by an approved internship supervisor, to apply professional competencies in public health as assessed through an internship report and internship supervisor rating

MMBIO 261 : Infection and Immunity. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Principles of infectious organisms (principally bacteria and viruses), the diseases they cause, and the role of host immune responses in health and disease.

**Course Outcomes**

There are no course outcomes available

MMBIO 417 : Medical Parasitology. (3:2:3)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: MMBIO 261 & MMBIO 240

DESCRIPTION: Pathogenesis, diagnosis, and epidemiology of human parasitic diseases. Laboratory included.

**Course Outcomes**

- Gain familiarity with the medically important parasites. This includes understanding parasite host range as well as pathology and mechanisms of pathogenesis.*Relates to Program Learning Outcome: Exhibit mastery of medical microbiology
- Be able to design experiments, with appropriate controls, to test various hypotheses in parasitology.*Relates to Program Learning Outcome: Devise experiments with appropriate hypotheses and controls.
- Read and critically interpret current scientific literature in the field of parasitology.*Relates to Program Learning Outcome: Devise experiments with appropriate hypotheses and controls.
- Students should gain an understanding of their role and responsibility in alleviating suffering caused by parasitic diseases.*Relates to Program Learning Outcome: Reflect/discuss/explore how faith in the Lord and Christ-like living are affected by an understanding of fundamental biological principles.

MMBIO 465 : Virology. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: MMBio 261 or equivalent.

DESCRIPTION: Basic principles of virology, emphasizing selected molecular aspects of virus life cycles and disease processes.

**Course Outcomes**

- Be able to answer basic questions about Virology: Why are viruses organized as they are? How do viruses replicate? How do viruses cause disease? What are the interactions between viruses and the host immune system? How to prevent/treat/cure viral infections? How can viruses be used as tools to study biological processes and for gene transfer? How can an understanding of viruses help you in your future career? *Relates to Program Learning Outcome: “Exhibit mastery of four of the principal areas of the discipline”, one of which is Virology.
- Understand experimental tools used to study viruses (these are broadly applicable to molecular biology, cell biology, and microbiology) and be able to develop experiments and interpret data.*Relates to Program Learning Outcomes: “Devise experiments with appropriate hypotheses and controls” and “Interpret experiments from primary scientific literature”
- Write about a current, pressing issue in the field of Virology.*Relates to Program Learning Outcome: “Communicate scientific information”
- Understand how research of viruses “by study and also by faith” can lead to alleviation of human disease and suffering.*Relates to Program Learning Outcome: “Reflect/discuss/explore how faith in the Lord and Christ-like living are affected by an understanding of fundamental biological processes”

NDFS 361 : Food Microbiology. (3:2:3)

WHEN TAUGHT: Fall

PREREQUISITE: MMBIO 221 & MMBIO 222

DESCRIPTION: Pathogenic and spoilage microorganisms in foods and their control. Beneficial microorganisms in food systems. Influence of the food system on growth and survival of microorganisms.

**Course Outcomes**

- Understand the growth requirements of common food borne pathogens and…Be able to attribute the characteristics of a food borne illness with unknown etiology to the most likely organism. Differentiate which organisms would be likely to grow in a specific food product
- Understand intrinsic and environmental aspects of foods and how they can be modified to affect the growth and metabolism of food borne microorganisms to include spoilage, pathogenic, and beneficial organisms.
- Carry out a series of laboratory experiments aimed at isolating and identifying common food borne microbial pathogens
- Classify spoilage microorganisms according to the food or foods they are most likely to affect based on the intrinsic and environmental characteristics of the food and compare to various storage methods to determine which method would be most appropriate for the given food product
- Design and carry out a laboratory experiment to evaluate the microbial safety of a common food product

PDBIO 305 : Human Physiology (with lab). (4:4:2)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Chem 101 or equivalent; PDBio 210 or 220.

RECOMMENDED: A general biology course.

DESCRIPTION: Function of body organ systems.

NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

**Course Outcomes**

- Students will demonstrate the proper use of physiology terminology.
- Student will demonstrate a well-integrated and comprehensive understanding of the human body in health and disease.
- Students will use knowledge of cells and organ systems to solve problems related to the function of the human body.
- Students will demonstrate the necessary knowledge and skills in physiology that are required for their majors and future aspirations for graduate and professional school.
- Students will develop and demonstrate in their daily lives a deeper appreciation and respect for the human body.
- Students will demonstrate the knowledge to make informed personal (medical,ethical,and political)decisions regarding physiological concepts.

Prerequisite: Chem 101 or equivalent and PDBio 220 or 210

PDBIO 365 : Pathophysiology. (4:4:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: PDBIO 305; or PDBIO 362

DESCRIPTION: Variations in physiological mechanisms that account for development of common disturbances in normal control and activities of body's organs and organ systems.

**Course Outcomes**

- Students will exhibit an integrative understanding of the biochemistry, molecular biology, genetics, cell biology, microbiology, environmental biology, and physiology related to the prevention, development, and treatment of common diseases.
- Students will demonstrate through case study analysis a command of problem solving skills related to the diagnosis and treatment of pathophysiological conditions.
- Pupils will manifest a command of the physiology and pathophysiological vocabulary necessary to effectively communicate with other biomedical professionals and the general public.
- Students will be able to articulate the ethical issues related to the treatment and prevention of pathophysiological conditions.
- Students will manifest an increase in their respect for the human body and adopt a life style consistent with this respect.

Prerequisite: PDBio 305

PWS 150 : Environmental Biology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

DESCRIPTION: Conservation and management of natural resources concurrent with increasing socioeconomic and human population demands; factors such as soil, water, and air pollution, resources management, bioremediation, nutrient cycles, and global climate changes

NOTE: This course is part of a GE Mosaic. See ge.byu.edu/mosaic-list for more information.

**Course Outcomes**

- Gain a deep appreciation for the Lord's admonition to Adam and Eve regarding the Earth to dress it and keep it
- Engage others and participate in discussions about major environmental problems, movements, and solutions (e.g., desertification, invasive species, water pollution, green revolution, and renewable energy).
- Understand how “science” is conducted.
- Demonstrate a fundamental knowledge (i.e., scientific literacy) of the environment and current environmental problems facing us locally, regionally, and globally.
- Devise experiments with testable hypotheses based the scientific method—process of making observations and logically integrating those observations into a model of how the world works.
- Foster and promote environmental stewardship within your realm of influence and your community.

**Note:** If Hlth 496R is chosen, the student must first complete Hlth 100, 310, 311, 322, 330, 345, 420, 422, and 424.

Recommended GE Courses:

ENGL 315 : Writing in the Social Sciences. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: First-year writing, junior or senior status.
DESCRIPTION: Writing characteristic of disciplines that inquire into human behavior and institutions; correspondence, proposals, library paper, empirical research, and reviews.
NOTE: Carries GE Advanced Written and Oral Communication credit.

**Course Outcomes**

- Employ informed and flexible processes for writing and speaking, including: creating and/or finding ideas about which to write; collecting evidence and data; planning and drafting; revising; editing; and designing or presenting a message so that it is successfully understood by a specified audience.
- Write coherent and unified texts, including effective introductions, clear thesis statements, supporting details, transitions, and strong conclusions.
- Use various methods of invention, organization, and style to adapt written and oral forms of communication to specific rhetorical situations.
- Utilize the library and electronic resources to locate relevant information, assess its reliability and usefulness, and effectively and ethically incorporate it into their own writing by following an appropriate style of documentation.
- Write in a correct, clear, and graceful prose style.
- Successfully complete the library tour, tutorial, and tests (if not completed as part of the first-year writing requirement). Successfully complete a library mini-course taught for their major area and demonstrate the ability to use the library effectively.
- Demonstrate the ability to create, number, and label tables and figures.
- Effectively evaluate and comment on the writing of others to facilitate revision.

Or

ENGL 316 : Technical Communication. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: First-year writing, junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

**Course Outcomes**

- Employ informed and flexible processes for writing and speaking, including: creating and/or finding ideas about which to write; collecting evidence and data; planning and drafting; revising; editing; and designing or presenting a message so that it is successfully understood by a specified audience.
- Write coherent and unified texts, including effective introductions, clear thesis statements, supporting details, transitions, and strong conclusions.
- Use various methods of invention, organization, and style to adapt written and oral forms of communication to a specific rhetorical situation.
- Utilize the library and electronic resources to locate relevant information, assess its reliability and usefulness, and effectively and ethically incorporate it into their own writing by following an appropriate style of documentation.
- Write in a correct, clear, and graceful prose style.
- Effectively evaluate and comment on the writing of others to facilitate revision.
- Analyze rhetorical aspects of audience, purpose, and context to communicate technical information effectively in written, oral, and visual media.
- Recognize structures or genres typically used in science and engineering, understand the processes that produce them, and the organizational and stylistic conventions characteristic of them, and apply this knowledge to their own writing tasks.

STAT 121 : Principles of Statistics. (3:3:1)

OFFERED: Independent Study also; Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: MATH 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, simple linear regression.

**Course Outcomes**

- Differentiate between observational studies and experiments
- Identify three sampling designs: simple random sample, stratified, and multi-stage
- Identify three designs of experiments: completely randomized, randomized block and matched-pairs
- Interpret and make appropriate conclusions from plots of data
- Calculate and interpret measures of center and spread
- Determine potential association between two quantitative and two categorical variables
- Communicate using technical language about probability and variation
- Interpret and communicate the outcomes of estimation and hypothesis tests in the context of a problem
- Understand the importance of data collection and how it dictates the appropriate statistical method and acceptable inference
- Determine the appropriate statistical procedure to use for a given research problem or data set

: Honors Principles of Statistics.

**Course Outcomes**

*Hours include courses that may fulfill university core requirements.

# BS in Public Health: Epidemiology Emphasis (56 hours*)

Show All Course Descriptions
Hide All Course Descriptions

## The Discipline

Public health professionals work to create conditions that ensure the health and safety of individuals, families, and communities. Public health students are trained to inform, educate, and empower people about health issues; mobilize communities to take ownership for their own health; monitor health status and diagnose and investigate health problems and health hazards; develop policies and laws to protect health and ensure safety; and link people to needed health services. The public health mission is carried out through organized, interdisciplinary efforts that address the physical, mental, and environmental health concerns of communities and populations at risk for disease and injury.

Four of several disciplines within public health are represented as emphases within the major: (1) environmental/occupational health identifies and controls factors in the environment (air, water, food, toxins, etc.) or conditions at the workplace which affect health; (2) epidemiology investigates and discovers what causes disease and disability and how diseases are spread or distributed across populations; (3) health promotion facilitates behavior change among individuals and improves population health through policy, advocacy, education, and communication; and (4) health science trains students interested in working in public health after earning an advanced degree in a medical, dental, or other allied health area.

## Career Opportunities

There has never been a better time to pursue a career in public health. It is an exciting and growing field of study and a diverse and dynamic profession. It is filled with rewards associated with the pursuit of serving others. The development and delivery of population-based prevention programs will be the key to major advances in health improvement in the 21st century. Public health will continue to be called upon to monitor and assess health problems, prevent and control diseases and injuries, and protect the health of communities and worksites from various environmental and occupational risks associated with man-made and natural disasters and emergencies.

Public health graduates are qualified to work in governmental health agencies on the local, state, federal, and international levels. Private-sector employment can be found in a variety of businesses, community health agencies, managed care organizations, hospitals, clinics, research institutes, voluntary health agencies, and non-governmental organizations. Opportunities for employment in public health are readily available, but recruiters will not typically come to campus to hire graduates. This means graduates must be organized and proactive in their career planning. Students can increase the likelihood of obtaining a position by balancing classroom activities with voluntary or paid service to public health agencies. Obtaining certifications related to specific tracks within the major and careful development of a professional portfolio enhance employment opportunities.

While there are many specialties or disciplines in public health, most career opportunities are found within the fields represented by the emphases in the major. Entry-level salaries with a bachelor's degree in public health will range from approximately $35,000–$60,000 but will vary significantly depending upon the specific discipline, type of organization, and geographic location. Most entry-level positions recommend master's degrees.

## Program Requirements | View MAP | View Program Outcomes

1. Complete the following courses:

HLTH 100 : Introduction to Public Health. (1:1:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Introduction to public health professions including exploration of current issues, job opportunities, the essential public health services, and an overview of the public health major.

**Course Outcomes**

- 1. Identify key events in the history of public health that have shaped the current state of the profession
- 2. Describe core public health values
- 3. Identify the ten essential public health services and describe which aspects of the profession hold the most relevance for employment and personal fulfillment
- 4. Delineate how health is defined and measured as well as recognize the impact of social, environmental, and behavioral determinants of health
- 5. Describe the importance of global health and recognize how actions in the US impact the rest of the world and vice versa
- 6. Identify the critical roles and contributions of epidemiology, environmental/occupational health, health promotion, medicine, and allied health within the public health profession
- 7. Determine their interest in the public health degree and identify the types of professional and educational opportunities available to them within public health

HLTH 310 : Chronic Diseases: Prevention and Control. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Pathogenesis, epidemiology of major chronic diseases, health costs to society, at-risk populations, population-based prevention, and related best-practice interventions.

**Course Outcomes**

There are no course outcomes available

HLTH 311 : Infectious Diseases: Prevention and Control. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Human infectious disease risk factors; bacterial, viral, and parasitic agents; pathology, diagnosis, treatment, prevention, and control; communicable, vector-borne, zoonotic, and bioterror diseases of public health.

**Course Outcomes**

There are no course outcomes available

HLTH 322 : Environmental Health. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

RECOMMENDED: HIth 100.

DESCRIPTION: Environmental factors as determinants of human health: ecosystem and population dynamics; biological, chemical, and physical hazards; risk assessment; economic, political, cultural, and genetic factors.

**Course Outcomes**

- Provide a global perspective of environmental issues impacting human health
- Describe the various biological, chemical and physical hazards of the ambient, indoor, and work environment that can adversely affect human health
- Discuss those determinents and factors that affect human health and the health of the environment
- Describe how environmental management practices may contribute to or help control emerging diseases
- Provide an assessment of those national and international health agencies, programs, and other resources that play critical roles in improving human health relative to environmental factors
- Discuss elements of policy making as they influence environmental health issues

HLTH 330 : Principles and Practices of Health Promotion. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

RECOMMENDED: HIth 100.

DESCRIPTION: Introduction to the health promotion profession, emphasizing current issues, professional preparation and employment, as well as the philosophy and foundations of professional practice in various settings.

**Course Outcomes**

- Identify professional opportunities available to health education/health promotion specialists in community, school, worksite, and health care settings.
- Identify the roles and responsibilities for health education/health promotion specialists and opportunities for certifications and advanced study.
- Identify organizations, resources, and professional journals associated with health promotion.
- Provide an overview of theories, models, and initiatives used to guide decision-making in the planning and implementation of health promotion programs and health behavior change.
- Demonstrate awareness and sensitivity of the diverse and unique needs of various age group populations and cultural groups for health promotion.
- Identify techniques for enhancing communication in interactions with clients in health promotion settings.
- Propose health promotion solutions to address health problems among various populations.

HLTH 345 : Principles of Epidemiology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

RECOMMENDED: Stat 121.

DESCRIPTION: Applying analytical tools to study acute and chronic disease to facilitate investigation and control of epidemics.

**Course Outcomes**

- Investigate disease outbreaks.
- Describe basic concepts, definitions, and history of Epidemiology.
- Describe patterns of disease occurrence.
- Interpret Epidemiologic studies.
- Evaluate treatment effectiveness.
- Measure disease frequency and association.
- Distinguish between statistical association and cause-effect relationships.
- Know basic design strategies in Epidemiology.

HLTH 434 : Evaluation Methods. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: HLTH 100 & HLTH 330

RECOMMENDED: HIth 332, 432.

DESCRIPTION: Design and carry out an evaluation plan that will measure the impact of public health programs at changing behaviors, knowledge, attitudes, and health status. Quantitative and qualitative methods will be discussed.

NOTE: This course should be completed after taking HIth 432--Methods in Health Promotion, and prior to taking Health 439--Program Planning.

**Course Outcomes**

There are no course outcomes available

HLTH 440 : Computer Applications in Epidemiology. (3:3:0)

WHEN TAUGHT: Fall
PREREQUISITE: HLTH 345
RECOMMENDED: Stat 121.
DESCRIPTION: Introduction to the basics of SAS and EXCEL focusing on the set of commands useful for data-reporting, data-management, formatting and graphics, and data-analysis. Topics include tables and regression models for epidemiologists (cumulative-incidence, case-control, and incidence rate data).

**Course Outcomes**

- Identify the principles of data management.
- Describe how/when to use tables, charts and graphs for data presentation.
- Create tables, graphs and charts in Excel for presenting public health data.
- Use SAS to manipulate datasets provided by sources such as the Centers for Disease Control and Prevention.
- Use basic SAS procedures to explore, describe and analyze data, including proc contents, proc freq, proc means, proc univariate and proc print.
- Clean and recode data to prepare it for analysis using a variety of data cleaning techniques. Document all cleaning and recoding using comments in the SAS program and external documentation (code books, data dictionaries etc.).
- Create clear and documented output using labels, titles, and formats.
- Conduct basic analyses using SAS including Proc Ttest, Proc ANOVA, Proc Corr, Proc GLM and Proc Logistic.

HLTH 441 : Clinical Trials. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: HLTH 345
RECOMMENDED: Stat 121.
DESCRIPTION: Introduction to methods used in the design, interim monitoring, and analysis of clinical trials, including the impact of patient exclusions and other causes of incomplete data. Concepts and principles emphasized. Main focus on randomized Phase III (comparative) trials.

**Course Outcomes**

- Develop the capacity to evaluate the design, analysis, and interpretation of human studies.
- Practice the skills needed to identify research opportunities and design studies that pursue those opportunities.
- Develop the capacity for oral and written evaluation of research, as well as oral and written presentation of individual study proposals.

HLTH 443 : Field Epidemiology. (3:3:0)

WHEN TAUGHT: Fall
PREREQUISITE: HLTH 345
RECOMMENDED: Stat 121.
DESCRIPTION: Applying epidemiologic methods, including outbreak investigation; surveillance systems and methods; and infectious disease epidemiology to unexpected health problems when a rapid on-site investigation is necessary for timely intervention.

**Course Outcomes**

- Be familiar with the steps of a field investigation.
- Be familiar with surveys and sampling, analyzing and interpreting data, describing and communicating the findings, dealing with the public and the media.
- Define cluster and cluster investigation methods for assessing reported clusters and discuss the process for investigating clusters. Identify the primary challenges in reported clusters.

HLTH 447 : Introduction to Biostatistics. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: HLTH 345
RECOMMENDED: HIth 440 and Stat 121.
DESCRIPTION: Introduction to statistical concepts and analytical methods as applied to data encountered in biotechnology and biomedical sciences. Emphasis on the basic concepts of experimental design, quantitative analysis of data, and statistical inferences.

**Course Outcomes**

There are no course outcomes available

STAT 121 : Principles of Statistics. (3:3:1)

OFFERED: Independent Study also; Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: MATH 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, simple linear regression.

**Course Outcomes**

- Differentiate between observational studies and experiments
- Identify three sampling designs: simple random sample, stratified, and multi-stage
- Identify three designs of experiments: completely randomized, randomized block and matched-pairs
- Interpret and make appropriate conclusions from plots of data
- Calculate and interpret measures of center and spread
- Determine potential association between two quantitative and two categorical variables
- Communicate using technical language about probability and variation
- Interpret and communicate the outcomes of estimation and hypothesis tests in the context of a problem
- Understand the importance of data collection and how it dictates the appropriate statistical method and acceptable inference
- Determine the appropriate statistical procedure to use for a given research problem or data set

: Honors Principles of Statistics.

**Course Outcomes**

2. Complete the following course:

MATH 110 : College Algebra. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 97 or equivalent (see Independent Study).

DESCRIPTION: Functions, polynomials, theory of equations, exponential and logarithmic functions, matrices, systems of linear equations, permutations, combinations, binomial theorem.

**Course Outcomes**

- Graph functions using horizontal and vertical shiftsGraph functions using compressions and stretchesGraph functions using reflections about the x-axis or y-axisForm composite functions and find the domainDetermine the inverse of a function and graph an inverse function from the graph of a function
- This course prepares students to take courses in calculus, statistics, mathematics for elementary education majors, and other areas where algebra skills are required. Fluent skills in algebra are necessary for success in any area that uses mathematical analysis. The mastery of college algebra requires well-developed skills, clear conceptual understanding, and the ability to model phenomena in a variety of settings. College Algebra develops the concepts of graphing functions, polynomial and rational functions, exponential and logarithmic functions, conic sections, solving systems of equations, the binomial theorem, permutations, combinations, and probability. This course contributes to all the expected learning outcomes of the Mathematics BS degree. For more detailed information, visit the Math 110 Wiki page.
- Quadratic functionsPolynomial functionsRational functionsPolynomial and rational inequalitiesThe real zeros of a polynomial functionComplex zeros and the Fundamental Theorem of Algebra
- Exponential functionsLogarithmic functionsProperties of LogarithmsLogarithmic and exponential equationsCompound interestExponential growth and decay
- Graph parabolas, ellipses, and hyperbolasFind the equation of parabolas, ellipses, and hyperbolasDiscuss the equation of conic sections to find vertices, foci, asymptotes, and the directrixWork with conic sections that are not centered at the origin
- Solve systems of linear equations using substitution and eliminationSolve systems of non-linear equations using substitution and eliminationDecompose rational functions using partial fractions
- Find terms in a sequence using a formula and a recursive definitionFind a formula for terms in an arithmetic sequence and be able to add the terms of a finite arithmetic sequenceFind a formula for the terms in a geometric sequence and be able to find the sum of finite and infinite geometric seriesProve statements using mathematical induction
- Work with operations on sets such as union, intersection and complement and count the number of elements in a setCompute permutations and combinationsEvaluate binomial coefficients and expand binomials using the Binomial TheoremCompute probabilities of equally likely outcomes

**OR** equivalent ACT score

3. Complete 19-22 hours from the following:

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

**Course Outcomes**

- Understand basic spatial concepts and data models that form the foundation of GIS.
- Acquire geospatial data from common sources and manipuate them for a specific application.
- Analyze data using GIS to solve real world problems.
- Describe several applications in which GIS is used to solve geographic problems.
- Design and use maps to explore and communicate geospatial information.

HLTH 420 : Injury and Violence Prevention. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: HLTH 100

DESCRIPTION: Concepts and interventions related to both unintentional injuries and violence.

**Course Outcomes**

- Describe the impact of injures on health and on society in terms of mortality, morbidity, disability, and cost.
- Define the terms used in the injury prevention field.
- Describe the models used to analyze injuries and determine interventions.
- Select valid sources of injury prevention information.
- Select and recommend proven and effective injury prevention interventions.

HLTH 424 : Occupational Health and Safety. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: HLTH 100 & HLTH 322

DESCRIPTION: In-depth focus on workplace health and safety through a multidisciplinary approach to the anticipation, recognition, evaluation, and prevention and control of workplace-related illnesses and injuries.

**Course Outcomes**

- Demonstrate competency in using the OSHA standards by identifying specific violations of current standards.
- Describe the purpose and scope of the Occupational Health and Safety Act as well as other relevant safety and health legislation and consensus standards.
- Discuss and demonstrate the elements involved in completing an accident investigation.
- Explain how the functions of management are utilized to assure safe conditions and practices through the development of specific programs as well as an overall safety and health program.
- Identify, evaluate, and develop loss control strategies to address the hazards associated with operating common manufacturing and construction equipment and processes.

HLTH 439 : Program Planning. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: HLTH 100 & HLTH 330; Concurrent with Hlth 434.

RECOMMENDED: Hlth 432.

DESCRIPTION: Introduction to needs assessment, program development, implementation, and evaluation in health promotion and public health.

**Course Outcomes**

- 1. Conduct a needs assessment by collecting and analyzing data to determine the health needs of a community
- 2. Use needs assessment data and analysis to identify a priority population for interventions.
- 3. Distinguish between goals and objectives and develop process, impact and outcome objectives.
- 4. Select, implement and manage evidence-based interventions.
- 5. Establish appropriate budgets and program timelines.
- 6. Distinguish between process and outcome evaluation and apply appropriate strategies.
- 7. Understand and interpret the DHHS'sHealthy People 2020 and the CDC's Framework for Program Evaluation in Public Health.

HLTH 442 : Special Topics in Epidemiology. (3:3:0)

WHEN TAUGHT: Winter

RECOMMENDED: Hlth 345, Stat 121.

DESCRIPTION: Topics include environmental epidemiology, statistical methods in epidemiology, social epidemiology, genetic epidemiology, categorical data analysis, applied longitudinal analysis, survival analysis, and life table methods.

**Course Outcomes**

- Explain the Basic Elements of Research, Exposure and Outcome Assessment
- Show how Monitoring is accomplished in Environmental Health
- Describe Epidemiologic Study Designs and explain Statistical Modeling and Causal Inference
- Explain challenges associated with investigating Disease Clusters
- Describe Mapping, Geographic Information Systems and Time Series
- Give examples of current health issues in Indoor and Ambient Air Quality
- Give examples of current health issues in Soil and Food Contaminants
- Give examples of current health issues in Water and Radiation
- Describe how Climate Change can affect Health

HLTH 450 : Women's Health Issues. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Overview of selected health topics affecting women's health status. Primary emphasis on steps to enhance personal health and fulfill divine roles from childhood through adulthood.

**Course Outcomes**

- Identify and understand the determinants of women's health issues.(Learning activities: lecture, class discussion, videos, out of class activites, guest lecturers)
- Identify and report on specific chronic and infectious diseases that affect women.(Learning activities: lecture, class discussion, book review, guest lecture)
- Identify ways to improve women's health using a variety of assessment sources.(Learning activities: lecture, class discussion, review of CDC and other health statistics, interviews, guest lecture)

HLTH 460 : Substance Abuse and Addictive Behavior. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Physiological, psychological, sociological, and legal implications of drug use and addictive behaviors, emphasizing nature, cause, treatment, and prevention.

**Course Outcomes**

- Explain substance use and abuse from a multidisciplinary perspective.
- List and describe specific social policies that reduce alcohol, tobacco, and other drug use.
- Explain the major social determinants and predictors of substance use in the United States.

- Explain the biological basis of drug addiction.
- Describe the health problems and risk associated with specific drugs.
- Describe the marketing, public relations, and political activities of the tobacco and alcohol industries.
- Provide the descriptive epidemiology of substance abuse in the United States.

HLTH 466 : Health and the Aging Process. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Public health strategies to promote health and functional independence in the context of the inevitable consequence of aging.

**Course Outcomes**

- Understand the physiological aspects of the normal aging process.
- Understand aging as a pathological process and the factors in both the external and internal milieu, this may contribute to premature aging.
- Relate knowledge about the organic and infectious diseases, common disorders, and disabilities prevalent among the elderly to disease prevention and health promotion among the aged.
- Become exposed to professional literature pertaining to the biological, medical, and health aspects of aging including the use of clinical preventive services as noted by gerontology researchers.
- Understand the physiological aspects of aging and the experimental approaches used in studying the aging process.
- Identify and distinguish the federal, state, and community health programs and services for the aged, including medical care, hospitalization, extended care, rehabilitation, and health maintenance.
- Promote healthy lifestyle behaviors that help prevent premature aging, promote the health of the elderly, and contribute to the extension of the prime of life.
- Understand decision-making related to end-of-life planning.

HLTH 480 : International Health. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Identifying disease patterns in "developing" countries, exploring the social and cultural context of health, and reviewing behavior change strategies for improving well-being.

**Course Outcomes**

- Idenitfy behaviors that improve maternal and child health and how they may be specific for particular groups.
- Discuss the determinants of global diseases and why inequalities and inequities exist.
- Explain how culture, our own and others, facilitates or hinders practicing optimal health behaviors.
- Describe the leading causes of morbidity (sickness) and mortablity among women and children in the developing world.
- Discuss how undernutrition and overnutrition contribute to morbidity and mortality related to infectious and chronic disease.
- Using principles of epidemiology, identify the leading causes of morbidity (sickness) and mortablity among women and children in the developing world and compare the burden of disease across different regions of the world.
- Describe how monitoring, evaluation, and applied research improve health programs.
- Discuss successful, evidence-based strategies for changing behaviors and improving health.

HLTH 491R : Mentored Research. (.5-3:Arr.:0)

DESCRIPTION: Collaborate with professors on mentoring grants or other public health-related research and initiatives.

**Course Outcomes**

- Experience at least one subset of research skills while conducting supervised public health research with a faculty member.

(Up to 3 hours)

HLTH 496R : Academic Internship. (.5-9:ARR:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: HLTH 439

DESCRIPTION: Senior capstone experience.

**Course Outcomes**

- Obtain experience, as proctored by an approved internship supervisor, to apply professional competencies in public health as assessed through an internship report and internship supervisor rating

(Up to 3 hours)

MATH 112 : Calculus 1. (4:5:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Differential and integral calculus: limits; continuity; the derivative and applications; extrema; the definite integral; fundamental theorem of calculus; L'Hopital's rule.

**Course Outcomes**

- This course is designed for students majoring in the mathematical and physical sciences, engineering, or mathematics education and for students minoring in mathematics or mathematics education. Calculus is the foundation for most of the mathematics studied at the university level. The mastery of calculus requires well-developed skills, clear conceptual understanding, and the ability to model phenomena in a variety of settings. Calculus 1 develops the concepts of limit, derivative, and integral, and is

fundamental for many fields of mathematics. This course contributes to all the expected learning outcomes of the Mathematics BS. For more detailed information, visit the Math 112 Wiki page.

: Honors Calculus 1.

**Course Outcomes**

MATH 113 : Calculus 2. (4:5:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Math 112.
DESCRIPTION: Techniques and applications of integration; sequences, series, convergence tests, power series; parametric equations; polar coordinates.

**Course Outcomes**

- This course is designed for students majoring in the mathematical and physical sciences, engineering, or mathematics education and for students minoring in mathematics or mathematics education. Calculus is the foundation for most of the mathematics studied at the university level. The mastery of calculus requires well-developed skills, clear conceptual understanding, and the ability to model phenomena in a variety of settings. Calculus 2 develops techniques of integration, applications of integration, infinite sequences and series, parametric curves, polar coordinates, and conic sections. This course contributes to all the expected learning outcomes of the Mathematics BS. For a more detailed course description, visit the Math 113 Wiki page.

MATH 116 : Essentials of Calculus. (1:2:0)

WHEN TAUGHT: Spring; Summer
PREREQUISITE: Math 110.
DESCRIPTION: Review of algebra, graph of line, slope. Limits and derivatives (standard functions, compositions of such functions), derivative for polynomials, exponentials, logarithms. Product, quotient and chain rule. Optimization (extrema), application to business problems. Newton's method.

**Course Outcomes**

- Students receive a brief overview of differential calculus. Topics covered include limits, derivatives, and applications of differentiation to optimization of functions.For more detailed information visit the Math 116 Wiki page.

NDFS 201 : Society, Nutrition, and Chronic Disease. (2:2:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: NDFS 100
DESCRIPTION: Behavioral, dietary, and environmental factors that influence nutrition and risks for chronic disease.

**Course Outcomes**

- Explain or describe how behavioral, dietary, and environmental factors influence nutrition and chronic disease risks.
- Find scientific research articles and identify their key characteristics. Identify consistencies or inconsistencies in studies of diet and chronic disease risks.
- Apply information about behavioral, dietary, and environmental factors to reduce chronic disease risks.

NDFS 380 : International Nutrition. (3:3:0)

WHEN TAUGHT: Fall; Winter
PREREQUISITE: NDFS 100
DESCRIPTION: Causes and consequences of nutrient deficiencies common in developing countries. Appropriate interventions to prevent or treat malnutrition.

**Course Outcomes**

- Relate critical nutrient requirements deficiencies to nutritional diseases and poor cognitive devolopment
- Understand the breadth of undernutrition, poverty and hunger that plague the developing world.
- Understand the scientific literature that relates to nutional problems in devloping societies
- Relate the nutritional status of undernourished children to their diets and suggest plausible solutions

PDBIO 120 : Science of Biology. (2:2:1)

OFFERED: Honors also
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the central dogma, bioenergetics, reproduction, and evolutionary theory.

**Course Outcomes**

There are no course outcomes available

PDBIO 205 : Human Biology. (3:3:0)

OFFERED: Independent Study online course.
DESCRIPTION: Body systems and influence of heredity.
NOTE: For nonbiology majors. Currently offered online only.

**Course Outcomes**

- Demonstrate understanding of the anatomic and physiologic terminology necessary forwritten and oral communication about the body, its functions, and its interaction with allother species on this planet.
- Students will demonstrate understanding of human biology at the chemical, microscopic,anatomical, physiological, and ecological levels.
- Demonstrate the ability to connect understanding of the body and its function with thefunction and survival of the world we live in.

PDBIO 305 : Human Physiology (with lab). (4:4:2)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Chem 101 or equivalent; PDBio 210 or 220.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

**Course Outcomes**

- Students will demonstrate the proper use of physiology terminology.
- Student will demonstrate a well-integrated and comprehensive understanding of the human body in health and disease.
- Students will use knowledge of cells and organ systems to solve problems related to the function of the human body.
- Students will demonstrate the necessary knowledge and skills in physiology that are required for their majors and future aspirations for graduate and professional school.
- Students will develop and demonstrate in their daily lives a deeper appreciation and respect for the human body.
- Students will demonstrate the knowledge to make informed personal (medical,ethical,and political)decisions regarding physiological concepts.

PDBIO 362 : Advanced Physiology. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: MMBIO 240 & PHSCS 106; or MMBIO 240 & PHSCS 220
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

**Course Outcomes**

- Students will manifest an understanding of how structures at the molecular level lead to properties associated with cells, tissues, organs, and organ systems.
- Students will demonstrate a comprehension of the functions of the major physiological systems found in humans.
- Students will describe how organ systems work together interactively to maintain homeostasis.

PDBIO 365 : Pathophysiology. (4:4:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: PDBIO 305; or PDBIO 362
DESCRIPTION: Variations in physiological mechanisms that account for development of common disturbances in normal control and activities of body's organs and organ systems.

**Course Outcomes**

- Students will exhibit an integrative understanding of the biochemistry, molecular biology, genetics, cell biology, microbiology, environmental biology, and physiology related to the prevention, development, and treatment of common diseases.
- Students will demonstrate through case study analysis a command of problem solving skills related to the diagnosis and treatment of pathophysiological conditions.
- Pupils will manifest a command of the physiology and pathophysiological vocabulary necessary to effectively communicate with other biomedical professionals and the general public.
- Students will be able to articulate the ethical issues related to the treatment and prevention of pathophysiological conditions.
- Students will manifest an increase in their respect for the human body and adopt a life style consistent with this respect.

SOC 300 : Methods of Research in Sociology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Soc 111 or 112 or 113.
DESCRIPTION: Tools of social research; survey, experimentation, content analysis, secondary analysis, qualitative research, evaluation research, data processing and analysis, and report writing.

**Course Outcomes**

There are no course outcomes available

STAT 124 : SAS Base Programming Skills. (1.5:1.5:1.5)

WHEN TAUGHT: Spring

PREREQUISITE: STAT 121; or STAT 151; or STAT 201; or Stat 301.

DESCRIPTION: Base SAS programming skills, introductory statistical analysis and graphics, simulation of introductory statistical concepts.

**Course Outcomes**

There are no course outcomes available

STAT 230 : Analysis of Variance. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: STAT 121; or STAT 151; or STAT 201; or Stat 301.

RECOMMENDED: Concurrent enrollment in MATH 112.

DESCRIPTION: Scientific method, statistical thinking, sources of variation, completely randomized design, ANOVA, power and sample size considerations, multiple testing, randomized complete blocks, factorial designs, interactions. Introduction to statistical software.

**Course Outcomes**

- Define the experimental unit, response variable, factor(s), and level(s) of a basic experiment
- Understand the role of randomization and replication in inferring causation
- Perform a completely randomized design and construct the ANOVA table in SAS and R
- Compute the minimum number of replicates in a completely randomized design to achieve a given level of power
- Compute pairwise tests of differences in means in SAS and R to understand a significant overall F-test
- Perform a randomized complete block design and construct the ANOVA table in SAS and R
- Perform a factorial design and construct the ANOVA table in SAS and R
- Explain a statistically significant interaction
- Describe the differences between a split plot and a two-way ANOVA

STAT 234 : Methods of Survey Sampling. (3:3:2)

WHEN TAUGHT: Fall

PREREQUISITE: STAT 121; or STAT 151; or STAT 201; or Stat 301.

DESCRIPTION: Sampling frames; questionnaire design; simple random, systematic, stratified, and cluster sampling methods; comparing domain means; contingency table analysis.

**Course Outcomes**

- Identify and sample using simple random sampling and various forms of stratified sampling, cluster sampling, and systematic sampling
- Accurately identify and perform variance calculations for basic designs
- Participate in a real project involving sampling methodologies and appropriate point estimate and variance calculations
- Create graphical representations of results
- Demonstrate effective written and oral communication skills as they present their findings

STAT 330 : Introduction to Regression. (3:3:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: STAT 230 & MATH 112

RECOMMENDED: Stat 123 and Stat 124; MATH 113 or concurrent enrollment.

DESCRIPTION: Regression, transformations, residuals, indicator variables, variable selection, logistic regression, time series, observational studies, statistical software.

**Course Outcomes**

- Explain the difference between ANOVA and regression, and their computational methods
- Explain the difference in inference between a designed experiment and observational study
- Fit a regression model in SAS and R
- Apply appropriate transformations to the response variable to improve agreement with regression assumptions
- Use residuals and influence diagnostics to assess model fit, agreement with regression assumptions, and identify outliers and influential observations
- Create sets of indicator variables for categorical explanatory variables
- Apply step-wise selection to identify a subset regression model that selects the most significant explanatory variables from a large data set
- Fit a logistic regression model in SAS and R
- Fit an ARIMA(p,d,q) model and generate forecasts with prediction intervals in SAS and R

**Note 1:** If student uses an ACT score to fulfill the Math 110 requirement, 22 elective hours are needed.

**Note 2:** Only 6 hours of elective credits from Health 420, 424, 439, 442, 450, 460, 466, and 480 can be applied toward the degree.

**Note 3:** Prerequisites for PDBio 305:

CHEM 101 : Introductory General Chemistry. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Math 97 or equivalent.

DESCRIPTION: Atomic and molecular structure, periodic relationships, states of matter, chemical reactions and stoichiometry, acids and bases.

NOTE: Primarily for nonscience majors who require a broad introduction to general chemistry.

**Course Outcomes**

- Students will be able to view the world around them in chemical terms. Students will use the concepts of atoms, molecules, and their properties to understand a variety of phenomena.
- Students will be able to make qualitative and/or quantitative predictions regarding a number of chemical concepts including chemical reactions and stoichiometry, calorimetry, osmosis, gases, acid/base chemistry, chemical equilibria, and radioactivity.

or equivalent

PDBIO 210 : Human Anatomy (with virtual lab). (3:3:0)

OFFERED: Independent Study only.

DESCRIPTION: Structure and function of the human body. Virtual lab experience included.

**Course Outcomes**

- Students will be able to list the name, location, and function of each of the body's organs and organ systems.
- Students will demonstrate an understanding of the basic microscopic underpinnings of tissue structures and be able to name them.
- Students will demonstrate a greater understanding and appreciation for the human body, it's overall design and connections to other living organisms, and what a marvelous creation it is.

Or

PDBIO 220 : Human Anatomy (with lab). (3:2:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Structure and function of the human body. Lab included.

**Course Outcomes**

- Students will demonstrate an understanding of the basic microscopic underpinnings of tissue structures and be able to name them.
- Students will demonstrate a greater understanding and appreciation for the human body, it's overall design and connections to other living organisms, and what a marvelous creation it is.
- Students will be able to list the name, location, and function of each of the body's organs and organ systems.

**Note 4:** Prerequisites for PDBio 362:

MMBIO 240 : Molecular Biology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: BIO 130 & CHEM 105; or PDBIO 120 & CHEM 105; or MMBIO 151 & CHEM 105

DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.

NOTE: Chem 105 and Chem 111 can also fulfill the prerequisite requirement; contact advisor.

**Course Outcomes**

- Describe and compare the functions and molecular structures of DNA, RNA, and protein, and explain the processes and regulatory mechanisms governing the synthesis of each.
- Explain a variety of molecular biology techniques, and interpret experimental results obtained using the various methods.
- Solve unfamiliar problems by applying the information and principles mastered through Learning Outcomes 1 and 2
- Collaborate with other students to solve challenging problems, to clarify ideas and concepts, and to learn from one another in a spirit of cooperation and integrity

PHSCS 106 : General Physics 2. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: Phscs 105 or equivalent.

RECOMMENDED: Concurrent enrollment in Phscs 108.

DESCRIPTION: Continuation of Phscs 105. Electricity and magnetism, modern physics, and optics

**Course Outcomes**

There are no course outcomes available

Or

PHSCS 220 : Introduction to Electricity and Magnetism. (3:3:1)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: MATH 113; Phscs 121 or equivalent.

DESCRIPTION: Electricity and magnetism. Weekly lab.

**Course Outcomes**

There are no course outcomes available

**Note 5:** Prerequisites for PDBio 365:

PDBIO 305 : Human Physiology (with lab). (4:4:2)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Chem 101 or equivalent; PDBio 210 or 220.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

**Course Outcomes**

- Students will demonstrate the proper use of physiology terminology.
- Student will demonstrate a well-integrated and comprehensive understanding of the human body in health and disease.
- Students will use knowledge of cells and organ systems to solve problems related to the function of the human body.
- Students will demonstrate the necessary knowledge and skills in physiology that are required for their majors and future aspirations for graduate and professional school.
- Students will develop and demonstrate in their daily lives a deeper appreciation and respect for the human body.
- Students will demonstrate the knowledge to make informed personal (medical,ethical,and political)decisions regarding physiological concepts.

Or:

PDBIO 362 : Advanced Physiology. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: MMBIO 240 & PHSCS 106; or MMBIO 240 & PHSCS 220
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

**Course Outcomes**

- Students will manifest an understanding of how structures at the molecular level lead to properties associated with cells, tissues, organs, and organ systems.
- Students will demonstrate a comprehension of the functions of the major physiological systems found in humans.
- Students will describe how organ systems work together interactively to maintain homeostasis.

Recommended GE Courses:

ENGL 315 : Writing in the Social Sciences. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: First-year writing, junior or senior status.
DESCRIPTION: Writing characteristic of disciplines that inquire into human behavior and institutions; correspondence, proposals, library paper, empirical research, and reviews.
NOTE: Carries GE Advanced Written and Oral Communication credit.

**Course Outcomes**

- Employ informed and flexible processes for writing and speaking, including: creating and/or finding ideas about which to write; collecting evidence and data; planning and drafting; revising; editing; and designing or presenting a message so that it is successfully understood by a specified audience.
- Write coherent and unified texts, including effective introductions, clear thesis statements, supporting details, transitions, and strong conclusions.
- Use various methods of invention, organization, and style to adapt written and oral forms of communication to specific rhetorical situations.
- Utilize the library and electronic resources to locate relevant information, assess its reliability and usefulness, and effectively and ethically incorporate it into their own writing by following an appropriate style of documentation.
- Write in a correct, clear, and graceful prose style.
- Successfully complete the library tour, tutorial, and tests (if not completed as part of the first-year writing requirement). Successfully complete a library mini-course taught for their major area and demonstrate the ability to use the library effectively.
- Demonstrate the ability to create, number, and label tables and figures.
- Effectively evaluate and comment on the writing of others to facilitate revision.

Or

ENGL 316 : Technical Communication. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: First-year writing, junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.

NOTE: Carries GE Advanced Written and Oral Communication credit.

**Course Outcomes**

- Employ informed and flexible processes for writing and speaking, including: creating and/or finding ideas about which to write; collecting evidence and data; planning and drafting; revising; editing; and designing or presenting a message so that it is successfully understood by a specified audience.
- Write coherent and unified texts, including effective introductions, clear thesis statements, supporting details, transitions, and strong conclusions.
- Use various methods of invention, organization, and style to adapt written and oral forms of communication to a specific rhetorical situation.
- Utilize the library and electronic resources to locate relevant information, assess its reliability and usefulness, and effectively and ethically incorporate it into their own writing by following an appropriate style of documentation.
- Write in a correct, clear, and graceful prose style.
- Effectively evaluate and comment on the writing of others to facilitate revision.
- Analyze rhetorical aspects of audience, purpose, and context to communicate technical information effectively in written, oral, and visual media.
- Recognize structures or genres typically used in science and engineering, understand the processes that produce them, and the organizational and stylistic conventions characteristic of them, and apply this knowledge to their own writing tasks.

STAT 121 : Principles of Statistics. (3:3:1)

OFFERED: Independent Study also; Honors also.

WHEN TAUGHT: Fall; Winter; Spring; Summer

RECOMMENDED: MATH 110 or equivalent.

DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, simple linear regression.

**Course Outcomes**

- Differentiate between observational studies and experiments
- Identify three sampling designs: simple random sample, stratified, and multi-stage
- Identify three designs of experiments: completely randomized, randomized block and matched-pairs
- Interpret and make appropriate conclusions from plots of data
- Calculate and interpret measures of center and spread
- Determine potential association between two quantitative and two categorical variables
- Communicate using technical language about probability and variation
- Interpret and communicate the outcomes of estimation and hypothesis tests in the context of a problem
- Understand the importance of data collection and how it dictates the appropriate statistical method and acceptable inference
- Determine the appropriate statistical procedure to use for a given research problem or data set

: Honors Principles of Statistics.

**Course Outcomes**

Recommended Elective Courses:

- Math 112, 113 for students who want a firm foundation in calculus and/or plan to pursue graduate education.
- Students considering graduate work in epidemiology are encouraged to consider the statistics electives.

*Hours include courses that may fulfill university core requirements.

Hide All Course Descriptions

## The Discipline

Public health professionals work to create conditions that ensure the health and safety of individuals, families, and communities. Public health students are trained to inform, educate, and empower people about health issues; mobilize communities to take ownership for their own health; monitor health status and diagnose and investigate health problems and health hazards; develop policies and laws to protect health and ensure safety; and link people to needed health services. The public health mission is carried out through organized, interdisciplinary efforts that address the physical, mental, and environmental health concerns of communities and populations at risk for disease and injury.

Four of several disciplines within public health are represented as emphases within the major: (1) environmental/occupational health identifies and controls factors in the environment (air, water, food, toxins, etc.) or conditions at the workplace which affect health; (2) epidemiology investigates and discovers what causes disease and disability and how diseases are spread or distributed across populations; (3) health promotion facilitates behavior change among individuals and improves population health through policy, advocacy, education, and communication; and (4) health science trains students interested in working in public health after earning an advanced degree in a medical, dental, or other allied health area.

## Career Opportunities

There has never been a better time to pursue a career in public health. It is an exciting and growing field of study and a diverse and dynamic profession. It is filled with rewards associated with the pursuit of serving others. The development and delivery of population-based prevention programs will be the key to major advances in health improvement in the 21st century. Public health will continue to be called upon to monitor and assess health problems, prevent and control diseases and injuries, and protect the health of communities and worksites from various environmental and occupational risks associated with man-made and natural disasters and emergencies.

Public health graduates are qualified to work in governmental health agencies on the local, state, federal, and international levels. Private-sector employment can be found in a variety of businesses, community health agencies, managed care organizations, hospitals, clinics, research institutes, voluntary health agencies, and non-governmental organizations. Opportunities for employment in public health are readily available, but recruiters will not typically come to campus to hire graduates. This means graduates must be organized and proactive in their career planning. Students can increase the likelihood of obtaining a position by balancing classroom activities with voluntary or paid service to public health agencies. Obtaining certifications related to specific tracks within the major and careful development of a professional portfolio enhance employment opportunities.

While there are many specialties or disciplines in public health, most career opportunities are found within the fields represented by the emphases in the major. Entry-level salaries with a bachelor's degree in public health will range from approximately $35,000–$60,000 but will vary significantly depending upon the specific discipline, type of organization, and geographic location.

## Program Requirements | View MAP | View Program Outcomes

1. Complete the following departmental courses:

HLTH 100 : Introduction to Public Health. (1:1:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Introduction to public health professions including exploration of current issues, job opportunities, the essential public health services, and an overview of the public health major.

**Course Outcomes**

- 1. Identify key events in the history of public health that have shaped the current state of the profession
- 2. Describe core public health values
- 3. Identify the ten essential public health services and describe which aspects of the profession hold the most relevance for employment and personal fulfillment
- 4. Delineate how health is defined and measured as well as recognize the impact of social, environmental, and behavioral determinants of health
- 5. Describe the importance of global health and recognize how actions in the US impact the rest of the world and vice versa
- 6. Identify the critical roles and contributions of epidemiology, environmental/occupational health, health promotion, medicine, and allied health within the public health profession
- 7. Determine their interest in the public health degree and identify the types of professional and educational opportunities available to them within public health

HLTH 310 : Chronic Diseases: Prevention and Control. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Pathogenesis, epidemiology of major chronic diseases, health costs to society, at-risk populations, population-based prevention, and related best-practice interventions.

**Course Outcomes**

There are no course outcomes available

HLTH 311 : Infectious Diseases: Prevention and Control. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Human infectious disease risk factors; bacterial, viral, and parasitic agents; pathology, diagnosis, treatment, prevention, and control; communicable, vector-borne, zoonotic, and bioterror diseases of public health.

**Course Outcomes**

There are no course outcomes available

HLTH 322 : Environmental Health. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

RECOMMENDED: HIth 100.

DESCRIPTION: Environmental factors as determinants of human health: ecosystem and population dynamics; biological, chemical, and physical hazards; risk assessment; economic, political, cultural, and genetic factors.

**Course Outcomes**

- Provide a global perspective of environmental issues impacting human health
- Describe the various biological, chemical and physical hazards of the ambient, indoor, and work environment that can adversely affect human health
- Discuss those determinents and factors that affect human health and the health of the environment
- Describe how environmental management practices may contribute to or help control emerging diseases
- Provide an assessment of those national and international health agencies, programs, and other resources that play critical roles in improving human health relative to environmental factors
- Discuss elements of policy making as they influence environmental health issues

HLTH 330 : Principles and Practices of Health Promotion. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

RECOMMENDED: HIth 100.

DESCRIPTION: Introduction to the health promotion profession, emphasizing current issues, professional preparation and employment, as well as the philosophy and foundations of professional practice in various settings.

**Course Outcomes**

- Identify professional opportunities available to health education/health promotion specialists in community, school, worksite, and health care settings.
- Identify the roles and responsibilities for health education/health promotion specialists and opportunities for certifications and advanced study.
- Identify organizations, resources, and professional journals associated with health promotion.
- Provide an overview of theories, models, and initiatives used to guide decision-making in the planning and implementation of health promotion programs and health behavior change.
- Demonstrate awareness and sensitivity of the diverse and unique needs of various age group populations and cultural groups for health promotion.
- Identify techniques for enhancing communication in interactions with clients in health promotion settings.
- Propose health promotion solutions to address health problems among various populations.

HLTH 335 : Health Behavior Change. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

RECOMMENDED: HIth 330.

DESCRIPTION: Understanding health behavior change theories for individuals and populations. Practical application of related models and theories.

**Course Outcomes**

- Evaluate the ability of selected socio-behavioral theories and models for furthering understanding of important public health problems and issues, with particular reference to health promotion and disease prevention.
- Identify prominent features and constructs in commonly used theories and models of health behavior change.
- Identify the important role of culture in the context of behavior change.

HLTH 345 : Principles of Epidemiology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

RECOMMENDED: Stat 121.

DESCRIPTION: Applying analytical tools to study acute and chronic disease to facilitate investigation and control of epidemics.

**Course Outcomes**

- Investigate disease outbreaks.
- Describe basic concepts, definitions, and history of Epidemiology.
- Describe patterns of disease occurrence.
- Interpret Epidemiologic studies.

- Evaluate treatment effectiveness.
- Measure disease frequency and association.
- Distinguish between statistical association and cause-effect relationships.
- Know basic design strategies in Epidemiology.

HLTH 432 : Methods in Health Promotion. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: HLTH 100 & HLTH 330
RECOMMENDED: Hlth 332.
DESCRIPTION: Health promotion methods, interventions, and strategies that influence behaviors and advance public health practices within communities.

**Course Outcomes**

- 1. Identify the six major categories of methods for public health interventions. Additionally, distinguish between interventions, methods and strategies.
- 2. Explain, justify and apply the principles that guide the selection of and implementation of public health methods and strategies to include key factors such as unique community needs, best practice, evidence and effectiveness, political expediency, and cost.
- 3. Create awareness/education messages, including media products, to influence stakeholders, policy makers and their constituents on issues of public health importance.
- 4. Design plans to engage community members and key stakeholders to become involved in appropriate mobilization, communication, and/or policy strategies.
- 5. Identify appropriate advocacy strategies to influence decision makers, or prompt policy change, at organizational and community levels.
- 6. Enhance personal advocacy, communication, oral presentation, leadership and team-building skills appropriate for health promotion practice.

HLTH 434 : Evaluation Methods. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: HLTH 100 & HLTH 330
RECOMMENDED: Hlth 332, 432.
DESCRIPTION: Design and carry out an evaluation plan that will measure the impact of public health programs at changing behaviors, knowledge, attitudes, and health status. Quantitative and qualitative methods will be discussed.
NOTE: This course should be completed after taking Hlth 432--Methods in Health Promotion, and prior to taking Health 439--Program Planning.

**Course Outcomes**

There are no course outcomes available

HLTH 439 : Program Planning. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: HLTH 100 & HLTH 330; Concurrent with Hlth 434.
RECOMMENDED: Hlth 432.
DESCRIPTION: Introduction to needs assessment, program development, implementation, and evaluation in health promotion and public health.

**Course Outcomes**

- 1. Conduct a needs assessment by collecting and analyzing data to determine the health needs of a community
- 2. Use needs assessment data and analysis to identify a priority population for interventions.
- 3. Distinguish between goals and objectives and develop process, impact and outcome objectives.
- 4. Select, implement and manage evidence-based interventions.
- 5. Establish appropriate budgets and program timelines.
- 6. Distinguish between process and outcome evaluation and apply appropriate strategies.
- 7. Understand and interpret the DHHS'sHealthy People 2020 and the CDC's Framework for Program Evaluation in Public Health.

2. Complete one course from the following:

PDBIO 210 : Human Anatomy (with virtual lab). (3:3:0)

OFFERED: Independent Study only.
DESCRIPTION: Structure and function of the human body. Virtual lab experience included.

**Course Outcomes**

- Students will be able to list the name, location, and function of each of the body's organs and organ systems.
- Students will demonstrate an understanding of the basic microscopic underpinnings of tissue structures and be able to name them.
- Students will demonstrate a greater understanding and appreciation for the human body, it's overall design and connections to other living organisms, and what a marvelous creation it is.

PDBIO 220 : Human Anatomy (with lab). (3:2:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Structure and function of the human body. Lab included.

**Course Outcomes**

- Students will demonstrate an understanding of the basic microscopic underpinnings of tissue structures and be able to name them.

Students will demonstrate a greater understanding and appreciation for the human body, it's overall design and connections to other living organisms, and what a marvelous creation it is.
- Students will be able to list the name, location, and function of each of the body's organs and organ systems.

3. Complete the following courses:

MMBIO 221 : General Microbiology. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Any biology course.
RECOMMENDED: Any chemistry course.
DESCRIPTION: Microbial world, emphasizing communicable diseases, their causes and control.
NOTE: Recommended for students seeking a liberal education in microbiology who do not have the prerequisites to take the more advanced courses.

**Course Outcomes**

- Explain and discuss the ways by which microbiologists study microorganisms.
- Discuss the principle infectious diseases that affect mankind, including how they are transmitted, treated, controlled and prevented.
- Differentiate between the types of microorganisms by identifying relevant structure and their function in the biosphere.
- Propose microbial solutions to global problems.
- Describe how the human body defends itself against infectious agents.

STAT 121 : Principles of Statistics. (3:3:1)

OFFERED: Independent Study also; Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: MATH 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, simple linear regression.

**Course Outcomes**

- Differentiate between observational studies and experiments
- Identify three sampling designs: simple random sample, stratified, and multi-stage
- Identify three designs of experiments: completely randomized, randomized block and matched-pairs
- Interpret and make appropriate conclusions from plots of data
- Calculate and interpret measures of center and spread
- Determine potential association between two quantitative and two categorical variables
- Communicate using technical language about probability and variation
- Interpret and communicate the outcomes of estimation and hypothesis tests in the context of a problem
- Understand the importance of data collection and how it dictates the appropriate statistical method and acceptable inference
- Determine the appropriate statistical procedure to use for a given research problem or data set

: Honors Principles of Statistics.

**Course Outcomes**

**Note**: Recommended for Stat 121: Math 110 or equivalent.

4. Complete 6 hours from the following:

HLTH 496R : Academic Internship. (.5-9:ARR:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: HLTH 439
DESCRIPTION: Senior capstone experience.

**Course Outcomes**

- Obtain experience, as proctored by an approved internship supervisor, to apply professional competencies in public health as assessed through an internship report and internship supervisor rating

**Note:** Prior to taking Hlth 496R, the student must complete Hlth 100, 310, 311, 322, 330, 345, 432, 434, and 439.

5. Complete 12 hours from the following (a minimum of six hours must be taken from departmental courses):

BUS M 241 : Marketing Management. (3:3:0)

OFFERED: Independent Study also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Marketing's role in society and the firm, marketing opportunities, the consumer market, and management of marketing mix.

**Course Outcomes**

There are no course outcomes available

CHEM 101 : Introductory General Chemistry. (3:3:0)

WHEN Fall; Winter; Spring; Summer

TAUGHT:
PREREQUISITE: Math 97 or equivalent.
DESCRIPTION: Atomic and molecular structure, periodic relationships, states of matter, chemical reactions and stoichiometry, acids and bases.
NOTE: Primarily for nonscience majors who require a broad introduction to general chemistry.

**Course Outcomes**

- Students will be able to view the world around them in chemical terms. Students will use the concepts of atoms, molecules, and their properties to understand a variety of phenomena.
- Students will be able to make qualitative and/or quantitative predictions regarding a number of chemical concepts including chemical reactions and stoichiometry, calorimetry, osmosis, gases, acid/base chemistry, chemical equilibria, and radioactivity.

COMMS 235 : Introduction to Public Relations. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Philosophy and practice of public relations in business, government, education, and other institutions. Study of publics, media, methods, press relations, and publicity.

**Course Outcomes**

There are no course outcomes available

GEOG 212 : Introduction to Geographic Information Systems. (3:2:1)

WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: Concepts in the use of small- and large-scale digital map data, emphasizing landscape interpretation and feature description.

**Course Outcomes**

- Understand basic spatial concepts and data models that form the foundation of GIS.
- Acquire geospatial data from common sources and manipuate them for a specific application.
- Analyze data using GIS to solve real world problems.
- Describe several applications in which GIS is used to solve geographic problems.
- Design and use maps to explore and communicate geospatial information.

HLTH 403R : Health Problems Workshop. (.5-5:ARR:ARR)

WHEN TAUGHT: Fall; Winter; Summer

**Course Outcomes**

- Reflect a focused analysis of readings and conduct applied projects for a special readings topic important to public health.

HLTH 420 : Injury and Violence Prevention. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: HLTH 100
DESCRIPTION: Concepts and interventions related to both unintentional injuries and violence.

**Course Outcomes**

- Describe the impact of injures on health and on society in terms of mortality, morbidity, disability, and cost.
- Define the terms used in the injury prevention field.
- Describe the models used to analyze injuries and determine interventions.
- Select valid sources of injury prevention information.
- Select and recommend proven and effective injury prevention interventions.

HLTH 422 : Disaster Response and Emergency Preparedness. (3:3:0)

WHEN TAUGHT: Fall; Winter
RECOMMENDED: Hlth 311, 420.
DESCRIPTION: Key elements of public health preparedness and response to the variety of natural, technological, and man-made disasters occurring routinely on a global basis.
NOTE: Taught only as an evening course.

**Course Outcomes**

There are no course outcomes available

HLTH 443 : Field Epidemiology. (3:3:0)

WHEN TAUGHT: Fall
PREREQUISITE: HLTH 345
RECOMMENDED: Stat 121.
DESCRIPTION: Applying epidemiologic methods, including outbreak investigation; surveillance systems and methods; and infectious disease epidemiology to unexpected health problems when a rapid on-site investigation is necessary for timely intervention.

**Course Outcomes**

- Be familiar with the steps of a field investigation.
- Be familiar with surveys and sampling, analyzing and interpreting data, describing and communicating

the findings, dealing with the public and the media.
- Define cluster and cluster investigation methods for assessing reported clusters and discuss the process for investigating clusters. Identify the primary challenges in reported clusters.

HLTH 450 : Women's Health Issues. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Overview of selected health topics affecting women's health status. Primary emphasis on steps to enhance personal health and fulfill divine roles from childhood through adulthood.

**Course Outcomes**

- Identify and understand the determinants of women's health issues.(Learning activities: lecture, class discussion, videos, out of class activites, guest lecturers)
- Identify and report on specific chronic and infectious diseases that affect women.(Learning activities: lecture, class discussion, book review, guest lecture)
- Identify ways to improve women's health using a variety of assessment sources.(Learning activities: lecture, class discussion, review of CDC and other health statistics, interviews, guest lecture)

HLTH 460 : Substance Abuse and Addictive Behavior. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Physiological, psychological, sociological, and legal implications of drug use and addictive behaviors, emphasizing nature, cause, treatment, and prevention.

**Course Outcomes**

- Explain substance use and abuse from a multidisciplinary perspective.
- List and describe specific social policies that reduce alcohol, tobacco, and other drug use.
- Explain the major social determinants and predictors of substance use in the United States.
- Explain the biological basis of drug addiction.
- Describe the health problems and risk associated with specific drugs.
- Describe the marketing, public relations, and political activities of the tobacco and alcohol industries.
- Provide the descriptive epidemiology of substance abuse in the United States.

HLTH 466 : Health and the Aging Process. (3:3:0)

WHEN TAUGHT: Winter

DESCRIPTION: Public health strategies to promote health and functional independence in the context of the inevitable consequence of aging.

**Course Outcomes**

- Understand the physiological aspects of the normal aging process.
- Understand aging as a pathological process and the factors in both the external and internal milieu, this may contribute to premature aging.
- Relate knowledge about the organic and infectious diseases, common disorders, and disabilities prevalent among the elderly to disease prevention and health promotion among the aged.
- Become exposed to professional literature pertaining to the biological, medical, and health aspects of aging including the use of clinical preventive services as noted by gerontology researchers.
- Understand the physiological aspects of aging and the experimental approaches used in studying the aging process.
- Identify and distinguish the federal, state, and community health programs and services for the aged, including medical care, hospitalization, extended care, rehabilitation, and health maintenance.
- Promote healthy lifestyle behaviors that help prevent premature aging, promote the health of the elderly, and contribute to the extension of the prime of life.
- Understand decision-making related to end-of-life planning.

HLTH 480 : International Health. (3:3:0)

WHEN TAUGHT: Fall; Winter

DESCRIPTION: Identifying disease patterns in "developing" countries, exploring the social and cultural context of health, and reviewing behavior change strategies for improving well-being.

**Course Outcomes**

- Idenitfy behaviors that improve maternal and child health and how they may be specific for particular groups.
- Discuss the determinants of global diseases and why inequalities and inequities exist.
- Explain how culture, our own and others, facilitates or hinders practicing optimal health behaviors.
- Describe the leading causes of morbidity (sickness) and mortablity among women and children in the developing world.
- Discuss how undernutrition and overnutrition contribute to morbidity and mortality related to infectious and chronic disease.
- Using principles of epidemiology, identify the leading causes of morbidity (sickness) and mortablity among women and children in the developing world and compare the burden of disease across different regions of the world.
- Describe how monitoring, evaluation, and applied research improve health programs.
- Discuss successful, evidence-based strategies for changing behaviors and improving health.

HLTH 491R : Mentored Research. (.5-3:Arr.:0)

DESCRIPTION: Collaborate with professors on mentoring grants or other public health-related research and initiatives.

**Course Outcomes**

- Experience at least one subset of research skills while conducting supervised public health research with a faculty member.

(Up to three hours)

NDFS 100 : Essentials of Human Nutrition. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Food-oriented study of nutritional facts and principles as a basis for dietary choices; consequences of choices; scientifically examining controversial topics.

**Course Outcomes**

- Apply the scientific method to identify and interpret credible nutrition information.
- Identify, interpret, and apply nutrition information.
- Identify functions of nutrients and their major food sources.

NDFS 201 : Society, Nutrition, and Chronic Disease. (2:2:0)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: NDFS 100

DESCRIPTION: Behavioral, dietary, and environmental factors that influence nutrition and risks for chronic disease.

**Course Outcomes**

- Explain or describe how behavioral, dietary, and environmental factors influence nutrition and chronic disease risks.
- Find scientific research articles and identify their key characteristics. Identify consistencies or inconsistencies in studies of diet and chronic disease risks.
- Apply information about behavioral, dietary, and environmental factors to reduce chronic disease risks.

(Prerequisite: NDFS 100)

PDBIO 305 : Human Physiology (with lab). (4:4:2)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: Chem 101 or equivalent; PDBio 210 or 220.

RECOMMENDED: A general biology course.

DESCRIPTION: Function of body organ systems.

NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

**Course Outcomes**

- Students will demonstrate the proper use of physiology terminology.
- Student will demonstrate a well-integrated and comprehensive understanding of the human body in health and disease.
- Students will use knowledge of cells and organ systems to solve problems related to the function of the human body.
- Students will demonstrate the necessary knowledge and skills in physiology that are required for their majors and future aspirations for graduate and professional school.
- Students will develop and demonstrate in their daily lives a deeper appreciation and respect for the human body.
- Students will demonstrate the knowledge to make informed personal (medical,ethical,and political)decisions regarding physiological concepts.

(Prerequisite: Chem 101 or equivalent and PDBio 220 or 210; Recommended: any biology course.)

## Recommended GE Courses:

ENGL 315 : Writing in the Social Sciences. (3:3:0)

OFFERED: Honors also.

WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department

PREREQUISITE: First-year writing, junior or senior status.

DESCRIPTION: Writing characteristic of disciplines that inquire into human behavior and institutions; correspondence, proposals, library paper, empirical research, and reviews.

NOTE: Carries GE Advanced Written and Oral Communication credit.

**Course Outcomes**

- Employ informed and flexible processes for writing and speaking, including: creating and/or finding ideas about which to write; collecting evidence and data; planning and drafting; revising; editing; and designing or presenting a message so that it is successfully understood by a specified audience.
- Write coherent and unified texts, including effective introductions, clear thesis statements, supporting details, transitions, and strong conclusions.
- Use various methods of invention, organization, and style to adapt written and oral forms of communication to specific rhetorical situations.
- Utilize the library and electronic resources to locate relevant information, assess its reliability and usefulness, and effectively and ethically incorporate it into their own writing by following an appropriate style of documentation.
- Write in a correct, clear, and graceful prose style.
- Successfully complete the library tour, tutorial, and tests (if not completed as part of the first-year writing requirement). Successfully complete a library mini-course taught for their major area and demonstrate the

ability to use the library effectively.
- Demonstrate the ability to create, number, and label tables and figures.
- Effectively evaluate and comment on the writing of others to facilitate revision.

Or

ENGL 316 : Technical Communication. (3:3:0)

OFFERED: Honors also.
WHEN TAUGHT: Fall; Winter; Spring Contact Department; Summer Contact Department
PREREQUISITE: First-year writing, junior or senior status.
DESCRIPTION: Effective processes of written, oral, and visual technical communication, including collaborative processes. Writing for academic and professional audiences.
NOTE: Carries GE Advanced Written and Oral Communication credit.

**Course Outcomes**

- Employ informed and flexible processes for writing and speaking, including: creating and/or finding ideas about which to write; collecting evidence and data; planning and drafting; revising; editing; and designing or presenting a message so that it is successfully understood by a specified audience.
- Write coherent and unified texts, including effective introductions, clear thesis statements, supporting details, transitions, and strong conclusions.
- Use various methods of invention, organization, and style to adapt written and oral forms of communication to a specific rhetorical situation.
- Utilize the library and electronic resources to locate relevant information, assess its reliability and usefulness, and effectively and ethically incorporate it into their own writing by following an appropriate style of documentation.
- Write in a correct, clear, and graceful prose style.
- Effectively evaluate and comment on the writing of others to facilitate revision.
- Analyze rhetorical aspects of audience, purpose, and context to communicate technical information effectively in written, oral, and visual media.
- Recognize structures or genres typically used in science and engineering, understand the processes that produce them, and the organizational and stylistic conventions characteristic of them, and apply this knowledge to their own writing tasks.

STAT 121 : Principles of Statistics. (3:3:1)

OFFERED: Independent Study also; Honors also.
WHEN TAUGHT: Fall; Winter; Spring; Summer
RECOMMENDED: MATH 110 or equivalent.
DESCRIPTION: Stemplots, boxplots, histograms, scatterplots; central tendency, variability; confidence intervals and hypothesis testing involving one and two means and proportions; contingency tables, simple linear regression.

**Course Outcomes**

- Differentiate between observational studies and experiments
- Identify three sampling designs: simple random sample, stratified, and multi-stage
- Identify three designs of experiments: completely randomized, randomized block and matched-pairs
- Interpret and make appropriate conclusions from plots of data
- Calculate and interpret measures of center and spread
- Determine potential association between two quantitative and two categorical variables
- Communicate using technical language about probability and variation
- Interpret and communicate the outcomes of estimation and hypothesis tests in the context of a problem
- Understand the importance of data collection and how it dictates the appropriate statistical method and acceptable inference
- Determine the appropriate statistical procedure to use for a given research problem or data set

: Honors Principles of Statistics.

**Course Outcomes**

*Hours include courses that may fulfill university core requirements.

## The Discipline

Public health professionals work to create conditions that ensure the health and safety of individuals, families, and communities. Public health students are trained to inform, educate, and empower people about health issues; mobilize communities to take ownership for their own health; monitor health status and diagnose and investigate health problems and health hazards; develop policies and laws to protect health and ensure safety; and link people to needed health services. The public health mission is carried out through organized, interdisciplinary efforts that address the physical, mental, and environmental health concerns of communities and populations at risk for disease and injury.

Four of several disciplines within public health are represented as emphases within the major: (1) environmental/occupational health identifies and controls factors in the environment (air, water, food, toxins, etc.) or conditions at the workplace which affect health; (2) epidemiology investigates and discovers what causes disease and disability and how diseases are spread or distributed across populations; (3) health promotion facilitates behavior change among individuals and improves population health through policy, advocacy, education, and communication; and (4) health science trains students interested in working in public health after earning an advanced degree in a medical, dental, or other allied health area.

## Career Opportunities

There has never been a better time to pursue a career in public health. It is an exciting and growing field of study and a diverse and dynamic profession. It is filled with rewards associated with the pursuit of serving others. The development and delivery of population-based prevention programs will be the key to major advances in health improvement in the 21st century. Public health will continue to be called upon to monitor and assess health problems, prevent and control diseases and injuries, and protect the health of communities and worksites from various environmental and occupational risks associated with man-made and natural disasters and emergencies.

Public health graduates are qualified to work in governmental health agencies on the local, state, federal, and international levels. Private-sector employment can be found in a variety of businesses, community health agencies, managed care organizations, hospitals, clinics, research institutes, voluntary health agencies, and non-governmental organizations. Opportunities for employment in public health are readily available, but recruiters will not typically come to campus to hire graduates. This means graduates must be organized and proactive in their career planning. Students can increase the likelihood of obtaining a position by balancing classroom activities with voluntary or paid service to public health agencies. Obtaining certifications related to specific tracks within the major and careful development of a professional portfolio enhance employment opportunities.

While there are many specialties or disciplines in public health, most career opportunities are found within the fields represented by the emphases in the major. Entry-level salaries with a bachelor's degree in public health will range from approximately $35,000–$60,000 but will vary significantly depending upon the specific discipline, type of organization, and geographic location.

## Program Requirements | View MAP | View Program Outcomes

1. Complete the following courses:

HLTH 100 : Introduction to Public Health. (1:1:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Introduction to public health professions including exploration of current issues, job opportunities, the essential public health services, and an overview of the public health major.

**Course Outcomes**

- 1. Identify key events in the history of public health that have shaped the current state of the profession
- 2. Describe core public health values
- 3. Identify the ten essential public health services and describe which aspects of the profession hold the most relevance for employment and personal fulfillment
- 4. Delineate how health is defined and measured as well as recognize the impact of social, environmental, and behavioral determinants of health
- 5. Describe the importance of global health and recognize how actions in the US impact the rest of the world and vice versa
- 6. Identify the critical roles and contributions of epidemiology, environmental/occupational health, health promotion, medicine, and allied health within the public health profession
- 7. Determine their interest in the public health degree and identify the types of professional and educational opportunities available to them within public health

HLTH 310 : Chronic Diseases: Prevention and Control. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer

DESCRIPTION: Pathogenesis, epidemiology of major chronic diseases, health costs to society, at-risk populations, population-based prevention, and related best-practice interventions.

**Course Outcomes**

There are no course outcomes available

HLTH 311 : Infectious Diseases: Prevention and Control. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

DESCRIPTION: Human infectious disease risk factors; bacterial, viral, and parasitic agents; pathology, diagnosis, treatment, prevention, and control; communicable, vector-borne, zoonotic, and bioterror diseases of public health.

**Course Outcomes**

There are no course outcomes available

HLTH 322 : Environmental Health. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

RECOMMENDED: Hlth 100.

DESCRIPTION: Environmental factors as determinants of human health: ecosystem and population dynamics; biological, chemical, and physical hazards; risk assessment; economic, political, cultural, and genetic factors.

**Course Outcomes**

- Provide a global perspective of environmental issues impacting human health
- Describe the various biological, chemical and physical hazards of the ambient, indoor, and work environment that can adversely affect human health
- Discuss those determinents and factors that affect human health and the health of the environment
- Describe how environmental management practices may contribute to or help control emerging diseases
- Provide an assessment of those national and international health agencies, programs, and other resources that play critical roles in improving human health relative to environmental factors
- Discuss elements of policy making as they influence environmental health issues

HLTH 330 : Principles and Practices of Health Promotion. (3:3:0)

WHEN TAUGHT: Fall; Winter; Summer

RECOMMENDED: Hlth 100.

DESCRIPTION: Introduction to the health promotion profession, emphasizing current issues, professional preparation and employment, as well as the philosophy and foundations of professional practice in various settings.

**Course Outcomes**

- Identify professional opportunities available to health education/health promotion specialists in community, school, worksite, and health care settings.
- Identify the roles and responsibilities for health education/health promotion specialists and opportunities for certifications and advanced study.
- Identify organizations, resources, and professional journals associated with health promotion.
- Provide an overview of theories, models, and initiatives used to guide decision-making in the planning and implementation of health promotion programs and health behavior change.
- Demonstrate awareness and sensitivity of the diverse and unique needs of various age group populations and cultural groups for health promotion.
- Identify techniques for enhancing communication in interactions with clients in health promotion settings.
- Propose health promotion solutions to address health problems among various populations.

HLTH 335 : Health Behavior Change. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

RECOMMENDED: Hlth 330.

DESCRIPTION: Understanding health behavior change theories for individuals and populations. Practical application of related models and theories.

**Course Outcomes**

- Evaluate the ability of selected socio-behavioral theories and models for furthering understanding of important public health problems and issues, with particular reference to health promotion and disease prevention.
- Identify prominent features and constructs in commonly used theories and models of health behavior change.
- Identify the important role of culture in the context of behavior change.

HLTH 345 : Principles of Epidemiology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring

RECOMMENDED: Stat 121.

DESCRIPTION: Applying analytical tools to study acute and chronic disease to facilitate investigation and control of epidemics.

**Course Outcomes**

- Investigate disease outbreaks.
- Describe basic concepts, definitions, and history of Epidemiology.
- Describe patterns of disease occurrence.
- Interpret Epidemiologic studies.

- Evaluate treatment effectiveness.
- Measure disease frequency and association.
- Distinguish between statistical association and cause-effect relationships.
- Know basic design strategies in Epidemiology.

HLTH 434 : Evaluation Methods. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: HLTH 100 & HLTH 330
RECOMMENDED: Hlth 332, 432.
DESCRIPTION: Design and carry out an evaluation plan that will measure the impact of public health programs at changing behaviors, knowledge, attitudes, and health status. Quantitative and qualitative methods will be discussed.
NOTE: This course should be completed after taking Hlth 432--Methods in Health Promotion, and prior to taking Health 439--Program Planning.

**Course Outcomes**

There are no course outcomes available

HLTH 439 : Program Planning. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: HLTH 100 & HLTH 330; Concurrent with Hlth 434.
RECOMMENDED: Hlth 432.
DESCRIPTION: Introduction to needs assessment, program development, implementation, and evaluation in health promotion and public health.

**Course Outcomes**

- 1. Conduct a needs assessment by collecting and analyzing data to determine the health needs of a community
- 2. Use needs assessment data and analysis to identify a priority population for interventions.
- 3. Distinguish between goals and objectives and develop process, impact and outcome objectives.
- 4. Select, implement and manage evidence-based interventions.
- 5. Establish appropriate budgets and program timelines.
- 6. Distinguish between process and outcome evaluation and apply appropriate strategies.
- 7. Understand and interpret the DHHS'sHealthy People 2020 and the CDC's Framework for Program Evaluation in Public Health.

HLTH 447 : Introduction to Biostatistics. (3:3:0)

WHEN TAUGHT: Winter
PREREQUISITE: HLTH 345
RECOMMENDED: Hlth 440 and Stat 121.
DESCRIPTION: Introduction to statistical concepts and analytical methods as applied to data encountered in biotechnology and biomedical sciences. Emphasis on the basic concepts of experimental design, quantitative analysis of data, and statistical inferences.

**Course Outcomes**

There are no course outcomes available

2. Complete three hours (42 hours per credit) of the following:

HLTH 496R : Academic Internship. (.5-9:ARR:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: HLTH 439
DESCRIPTION: Senior capstone experience.

**Course Outcomes**

- Obtain experience, as proctored by an approved internship supervisor, to apply professional competencies in public health as assessed through an internship report and internship supervisor rating

Note: Prior to taking Hlth 496R, the student must complete Hlth 100, 310, 330, 434, and 439.

**Note:** Internships may have a combination of mentored public health practice experience, research, and/or humanitarian service elements.

3. Complete one of the following chemistry options:

**Either**

CHEM 105 : General College Chemistry. (4:5:0)

WHEN TAUGHT: Fall; Winter; Spring; Summer
PREREQUISITE: Math 110 (or equivalent) or concurrent enrollment.
DESCRIPTION: Atomic and molecular structure including bonding and periodic properties of the elements; reaction energetics, electrochemistry, acids and bases, inorganic and organic chemistry.
NOTE: Primarily for students in engineering and biological sciences. Three lectures and two recitation sections per week.

**Course Outcomes**

- Students will demonstrate a familiarity with the basic vocabulary and concepts of chemistry.
- Students will demonstrate a qualitative and basic quantitative understanding of the fundamental chemical laws which govern the material substances in our universe and which express how one variable in nature depends on another.

- Students will demonstrate the ability to manipulate quantitative descriptors of natural phenomena expressed both in the form of equations and of proportionalities, and solve chemistry problems using these skills.
- A successful Chemistry 105 students describes chemical phenomenon by first focusing on properties of the elements at the atomic level. Chemistry 105 students will gain a knowledge base of reactivity patterns of elements and compounds.
- Chemistry 105 students will be able to use their chemistry experience, knowledge, and skills to better understand and work in their own field of study.

CHEM 106 : General College Chemistry. (3:4:0)

WHEN TAUGHT: Fall; Winter; Summer

PREREQUISITE: CHEM 105; or CHEM 111

DESCRIPTION: Continuation of Chem 105 but covering most of the topics in a more quantitative way. Detailed treatment of thermodynamics and equilibria.

NOTE: Three lectures and one recitation section per week.

**Course Outcomes**

- Students will demonstrate an expanded mastery of the concepts that were learned in Chemistry 105 including: kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, thermodynamics, organic, biochemistry, and nuclear chemistry.
- Students will demonstrate the ability to solve mathematical problems, typically using algebra, in kinetics, chemical equilibrium, acids and bases, solubility and complexation equilibrium, electrochemistry, and thermodynamics.

CHEM 107 : General College Chemistry Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Chem 106 or Chem 112 or concurrent enrollment.

DESCRIPTION: Chemical properties, chemical reactions, collection and interpretation of data, preparation of reports.

NOTE: Required for most students needing one year of general chemistry.

**Course Outcomes**

- Through laboratory experiments, students will demonstrate that they can use precise scientific instrumentation to find quantitative answers to significant problems within the total precision allowed by the equipment.
- Students will demonstrate that they can perform simple experiments, observe the outcomes accurately, then make reasoned, accurate decisions about the meanings of the results.

**Or**

CHEM 111 : Principles of Chemistry. (4:3:3)

OFFERED: Honors also.

WHEN TAUGHT: Fall

PREREQUISITE: Math 110 or equivalent.

RECOMMENDED: High school chemistry, physics, and introductory calculus or concurrent enrollment in Math 112.

DESCRIPTION: Stoichiometry, kinetic-molecular theory, thermodynamics, states of matter, solutions and equilibria, electrochemistry, structure and bonding, chemical reactions, kinetics.

NOTE: Tutorial included.

**Course Outcomes**

- Students will demonstrate the ability to use valence shell and molecular orbital models of bonding to predict molecular shapes, reactivity, and spectroscopic properties.
- Students will be able to apply the kinetic theory of gases, including properties of ideal gases and interactions that lead to non-ideal behavior, to predict gas behavior with varied temperature, pressure and volume.
- Students will demonstrate the ability to use core concepts of chemical thermodynamics, with emphasis on the first and second laws, to predict physical changes and reaction outcomes based on Gibbs energies.
- Students will be able to apply concepts of the quantum mechanical nature of light and matter to explain observations that originally led to the development of atomic theory.

: Honors Principles of Chemistry.

**Course Outcomes**

CHEM 112 : Principles of Chemistry. (3:3:2)

WHEN TAUGHT: Winter

PREREQUISITE: Chem 111 or Chem 105 or equivalent.

DESCRIPTION: Continuation of Chem 111.

NOTE: Tutorial included.

**Course Outcomes**

- Students will be able to use thermodynamic principles and their application to physical and chemical equilibria to calculate entropic and enthalpic contributions to physical changes and reactions and predict equilibria given entropic and enthalpic changes.
- Students will be able to apply acid-base theory, including interactions of strong and weak acids and bases, to determination of pH values of solutions, calculating buffering capacity and performance of acid-base titrations. They will be able to use structural features of molecules to

estimate acid and base strength.
- Students will demonstrate an understanding of electrochemistry in designing simple electrodes and will use reduction/oxidation potentials to characterize electrodes.
- Students will be able to apply transition state theory to reaction kinetics. Students will be able to model mathematically rates of multiple reaction types.
- Students will be able to apply the periodic nature of the elements to classify elements and identify the compositions of inorganic salts.

CHEM 113 : Introductory General Chemistry Laboratory. (2:0:6)

WHEN TAUGHT: Fall; Winter

PREREQUISITE: Chem 112 or Chem 106 or concurrent enrollment (preferred).

DESCRIPTION: Principles and techniques of chemical measurements. Concepts introduced in general chemistry lecture courses reinforced.

**Course Outcomes**

- Perform precise quantitative measurements using volumetric glassware, analytical balances, and electrochemical and spectrophotometric instrumentation.
- Apply concepts of quantum mechanics, kinetics, equilibrium and thermodynamics taught in Chem 111 and Chem 112 to laboratory measurements.
- Apply a basic understanding of descriptive chemistry introduced in Chem 112 to the separation and classification of inorganic cations and anions.
- Record laboratory procedures and results neatly and concisely in a laboratory notebook
- Report experimental results in a manner that gives proper attention to sources of experimental error.

4. Complete the following chemistry courses:

CHEM 351 : Organic Chemistry. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring

PREREQUISITE: CHEM 105; or CHEM 111

DESCRIPTION: Chemical bonds and molecular structure, conformation and configuration, functional classes, reactions and mechanisms, syntheses.

NOTE: Primarily for majors in chemical engineering and the biological sciences.

**Course Outcomes**

- Recognize functional group classes commonly encountered in organic chemistry and name representative molecules from each class using IUPAC rules for organic nomenclature.
- Predict structure and reactivity of alkanes, alkenes, alkynes, aromatic hydrocarbons, alcohols, ethers, epoxides, and alkylhalides based on such factors as carbon atom hybridization, bond length, bond strength, and bond polarity.
- Recognize and provide curved arrow mechanisms for the following types of organic reactions: additions, substitutions, and eliminations.
- Predict the energetically preferred conformation for straight-chain and branched alkanes, and for substituted cycloalkanes.
- Determine R and S configurations for chiral molecules and distinguish between enantiomers, diastereomers, meso compounds, and conformational isomers.
- Interpret 1H NMR, 13C NMR, IR, UV, and mass spectra and use these data to determine the structure of organic molecules.
- Predict the relative energies of reactive intermediates such as radicals, carbocations, and carbanions, based on structural considerations such as orbital hybridization, hyperconjugation, and resonance stabilization.

CHEM 352 : Organic Chemistry. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: CHEM 351; or CHEM 351M

DESCRIPTION: Continuation of Chem 351.

**Course Outcomes**

- Predict structure and reactivity of aldehydes, ketones, carboxylic acids, esters, anhydrides, amides, b-ketocarbonyl containing compounds, amines, and phenols.
- Recognize and provide curved arrow mechanisms for the following types of organic reactions: electrophilic & nucleophilic aromatic substitution, nucleophilic carbonyl addition, nucleophilic acyl substitution, carbonyl condensation, [4 2] cycloaddition, and substitution ato a carbonyl.
- Recognize and predict the reactivity of the following reactive species and/or reactive intermediates: Grignard reagents, Wittig reagents, organolithiums, diorganocuprates, enols, enolates, aryl diazonium ions, and benzynes.
- Recognize and predict the structure and reactivity of the following classes of biologically important organic molecules: carbohydrates, amino acids, proteins, and lipids.

CHEM 353 : Organic Chemistry Laboratory--Nonmajors. (1-2:0:6)

WHEN TAUGHT: Fall; Winter; Spring; Summer

PREREQUISITE: Chem 352 or Chem 352M or concurrent enrollment (preferred).

DESCRIPTION: Physical and chemical properties, isolation and purification, characterization, syntheses.

NOTE: For predentistry, premedicine, and other majors who do not intend to take Chem 455.

**Course Outcomes**

- Perform a broad range of traditional organic reactions at the micro scale including: nucleophilic carbonyl additions, hydroboration, nucleophilic acyl substitution, electrophilic aromatic substitution, [4 2] cycloaddition, and photochemical alkene isomerization.
- Implement fundamental organic chemistry techniques for carrying out basic experiments, and purifying

products, at the micro scale including: extraction, distillation, recrystalization, column chromatography, and TLC.
- Make correct conclusions about the outcome of experiments after collecting basic physical data, and after providing unambiguous interpretation of the necessary spectra.

(Must take 2 credit hours if pre-professional.)

5. Complete the following biology courses:

MMBIO 240 : Molecular Biology. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: BIO 130 & CHEM 105; or PDBIO 120 & CHEM 105; or MMBIO 151 & CHEM 105
DESCRIPTION: Fundamentals of protein and nucleic acid structure and their function in the context of the classical experiments that have informed our current models of biology at the molecular level.
NOTE: Chem 105 and Chem 111 can also fulfill the prerequisite requirement; contact advisor.

**Course Outcomes**

- Describe and compare the functions and molecular structures of DNA, RNA, and protein, and explain the processes and regulatory mechanisms governing the synthesis of each.
- Explain a variety of molecular biology techniques, and interpret experimental results obtained using the various methods.
- Solve unfamiliar problems by applying the information and principles mastered through Learning Outcomes 1 and 2
- Collaborate with other students to solve challenging problems, to clarify ideas and concepts, and to learn from one another in a spirit of cooperation and integrity

MMBIO 241 : Molecular and Cellular Biology Laboratory. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: MMBio 240 or concurrent enrollment.
DESCRIPTION: Molecular and cellular biology techniques laboratory.

**Course Outcomes**

- Practice ethics and integrity by working with groups and following lab rules.*Relates to Program Learning Outcome: A commitment to professional integrity and ethical behavior consistent with themission of the university.
- Learn the basics of experimental design, how to formulate a hypothesis, what controls to use, how to interpret experimental data.*Relates to Program Learning Outcome: Devise experiments with appropriate hypothesis and controls.
- Practice scientific communication through written lab questions, exams and oral presentations.*Relates to Program Learning Outcome: Devise experiments with appropriate hypothesis and controls.
- Learn molecular biology laboratory techniques through practical laboratory exercises. Techniques include, spectrophotometry,isolation of DNA and protein, quantification of DNA and protein, techniques used to purify or detect specific proteins, such aschromatography, western blot and ELISA, DNA fingerprinting, polymerase chain reaction and enzyme assays.*Relates to Program Learning Outcome: Knowledge of principles and techniques of molecular and cellular biology.

PDBIO 120 : Science of Biology. (2:2:1)

OFFERED: Honors also
WHEN TAUGHT: Fall; Winter; Spring
DESCRIPTION: General biology course designed for biological science majors, emphasizing the scientific method, cell theory, biochemical unity, the central dogma, bioenergetics, reproduction, and evolutionary theory.

**Course Outcomes**

There are no course outcomes available

6. Complete one of the following biology options:

**EITHER**

PDBIO 210 : Human Anatomy (with virtual lab). (3:3:0)

OFFERED: Independent Study only.
DESCRIPTION: Structure and function of the human body. Virtual lab experience included.

**Course Outcomes**

- Students will be able to list the name, location, and function of each of the body's organs and organ systems.
- Students will demonstrate an understanding of the basic microscopic underpinnings of tissue structures and be able to name them.
- Students will demonstrate a greater understanding and appreciation for the human body, it's overall design and connections to other living organisms, and what a marvelous creation it is.

**Or**

PDBIO 220 : Human Anatomy (with lab). (3:2:2)

WHEN TAUGHT: Fall; Winter; Spring; Summer
DESCRIPTION: Structure and function of the human body. Lab included.

**Course Outcomes**

- Students will demonstrate an understanding of the basic microscopic underpinnings of tissue structures and be able to name them.

- Students will demonstrate a greater understanding and appreciation for the human body, it's overall design and connections to other living organisms, and what a marvelous creation it is.
- Students will be able to list the name, location, and function of each of the body's organs and organ systems.

**and**

PDBIO 305 : Human Physiology (with lab). (4:4:2)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Chem 101 or equivalent; PDBio 210 or 220.
RECOMMENDED: A general biology course.
DESCRIPTION: Function of body organ systems.
NOTE: Not acceptable for physiology and developmental biology, biophysics, or neuroscience majors. Designed for students with basic chemistry / no molecular biology. Students with chemistry/molecular biology should take PDBio 362.

**Course Outcomes**

- Students will demonstrate the proper use of physiology terminology.
- Student will demonstrate a well-integrated and comprehensive understanding of the human body in health and disease.
- Students will use knowledge of cells and organ systems to solve problems related to the function of the human body.
- Students will demonstrate the necessary knowledge and skills in physiology that are required for their majors and future aspirations for graduate and professional school.
- Students will develop and demonstrate in their daily lives a deeper appreciation and respect for the human body.
- Students will demonstrate the knowledge to make informed personal (medical,ethical,and political)decisions regarding physiological concepts.

**OR**

PDBIO 362 : Advanced Physiology. (3:3:1)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: MMBIO 240 & PHSCS 106; or MMBIO 240 & PHSCS 220
DESCRIPTION: Integrated approach to organ system and cellular physiology. Problem solving/calculations.
NOTE: Requires background in chemistry and molecular biology. Students without this background should take PDBio 305.

**Course Outcomes**

- Students will manifest an understanding of how structures at the molecular level lead to properties associated with cells, tissues, organs, and organ systems.
- Students will demonstrate a comprehension of the functions of the major physiological systems found in humans.
- Students will describe how organ systems work together interactively to maintain homeostasis.

PDBIO 363 : Advanced Physiology Laboratory. (1:.5:1.5)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: PDBio 362 or concurrent enrollment; or instructor's consent.
DESCRIPTION: Experiments and exercises in advanced physiology emphasizing human physiology. Computer simulations of muscle function, endocrine disease, and human physiology. Emphasizes problem solving and calculations.

**Course Outcomes**

- Students will demonstrate the skills required to properly interpret data from scientific experimentation to discover how physiological systems function.
- Students will manifest an understanding of basic physiological principles by modeling how human cells, organs, and organ systems function.
- Students will describe how interactions between human organ systems work to maintain homeostasis.

7. Complete one of the following physics options:

**Either**

PHSCS 105 : General Physics 1. (3:3:0)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: High school algebra and trigonometry.
RECOMMENDED: Concurrent enrollment in Phscs 107.
DESCRIPTION: Applied physics course not requiring calculus. Mechanics, heat, wave motion, and sound.

**Course Outcomes**

There are no course outcomes available

PHSCS 107 : General Physics Lab 1. (1:0:3)

WHEN TAUGHT: Fall; Winter; Spring
PREREQUISITE: Phscs 105 or concurrent enrollment.
DESCRIPTION: Lab experiments in mechanics and thermodynamics. Measuring and analyzing data.

**Course Outcomes**

- Develop a greater conceptual understanding of mechanics and thermodynamics through hands-on experience with physical systems that illustrate lecture course material.
- Develop skills in measuring and analyzing physical data.

**Or**
